Q1 FY22

Consolidated Performance for Q1FY22

- The current quarter once again saw resurgence of COVID-19 cases which forced the State Governments to introduce curbs, restriction and lockdowns. This time the lockdown was not as severe as in last year and our plants were allowed to function during such times
- The State Governments imposed lockdowns depending upon the COVID situation in their states and hence lockdowns were staggered which meant that entire domestic market was not closed at one go. Also, the unlock in domestic market was delayed and market opened towards 2nd week of June
- Overall laminate capacity utilization stood at 110% in Q1FY22 as against 112% in Q4FY21 and 51% in Q1FY21. However the entire production could not be converted to sales as domestic market unlocked late towards 2nd week of June. Exports volumes grew by 3.6%., however exports continued to witness logistic challenges of availability of containers in this quarter thereby delaying the export sales
- Veneer & allied business saw greater disruption as compared to laminate & allied in the current lockdown
