The last few decades have witnessed a rapid acceleration of globalisation, mainly due to a growth in international trade and an increase in the use of smart technology. This has led to growing urbanisation and digitalisation, particularly in developing countries.

To fulfil the demands arising out of accelerated globalisation and its effects, Bajaj Electricals Limited has expanded its horizons, through a host of smart indoor and connected outdoor solutions. These solutions are catalysts driving change within urban communities. Furthermore, Bajaj Electricals aims to provide technically advanced IoT-enabled smart solutions to consumers, to help create sustainable living spaces for them.

Bajaj Electricals' mission is to offer next-level complete digital solutions such as Smart Poles, Human-centric Lighting, Sports Lighting, Architectural Lighting, Solar Lighting and Horticulture Lighting, as well as solutions for Healthcare Industries. We are creating Smart Buildings with our IBMS solutions. And with our holistic solutions, we are creating Smart Cities for better energy efficiency. We strive to provide a one-stop solution to our customers, with the help of a complete on-ground support system as well as digital platforms like cloud-based connectivity and wireless solutions. This will enhance productivity and make it easier to create sustainable and smart infrastructure.

The diverse range of solutions we are aiming to provide, demonstrates our ambition to reach out to, enrich and illuminate millions of lives, cities and nations across the world.

CHAIRMAN'S MESSAGE

“

In this challenging business environment, our strong brand connect, the launch of new products, service delivery models and continuous expansion of our distribution network enabled us to deliver a strong performance ”

Dear Fellow Shareholders,

It gives me great pleasure to share with you an update on the performance of your Company for FY 2017-18. It was a transformative year in the Indian calendar with the introduction of the Goods and Services Tax (GST), arguably the biggest tax reform since Independence and awaited since more than a decade. GST has created a single national market and will benefit both consumers as well as the industry including the Consumer Goods sector. We are particularly happy to share that your Company worked closely with its partners along its entire supply chain to transition its operations to the new tax regime efficiently.

The implementation of GST disrupted demand in our industry, attributable to the initial adjustments made by the traders towards the new tax regime. Our performance was also affected due to destocking by traders in the month of June and the second quarter. Though the sales in the subsequent quarters have picked up, it will take some time for the benefits of GST to get realised. Personally, I am enthused by the way GST is leading to the formalisation of the economy and I am of the view that it will be beneficial for the organised trade and industry and will bring better fiscal discipline.

In this challenging business environment, our strong brand connect, the launch of new products, service delivery models and continuous expansion of our distribution network enabled us to deliver a strong performance. Total revenue from operations for FY 2017-18 was ₹ 4,716.39 crores, with comparable revenue growth of 9.73%. This is especially commendable as revenue growth in the first half of the financial year, was down by 1%, with GST transition impacting sales in the second quarter. In the second half of the financial year we had a growth of 17.93%. Profit before exceptional items and tax for the year, grew impressively

by 51.05% from ₹ 168.04 crores to ₹ 253.83 crores.

With a large young, tech-savvy, aspirational population whose discretionary income is rising by the day, India's consumer story is one of the world's most compelling. The Company has set up a new R&D centre to provide innovative and high-tech products to meet these evolving expectations. The Company has also enhanced its digital capabilities to strengthen social media connect and leverage the potential of digital to understand the pulse of the consumers and take informed decisions. For us, consumer needs and requirements are and will always be at the epicentre of all our endeavours, and I take confidence from the continued support provided by all our stakeholders to address them as we move forward.

Our depth of capabilities and breadth of offerings has received a major fillip with our proposal to acquire 100% stake in Nirlep Appliances Pvt. Ltd. Nirlep is a well-known brand in the manufacture of non-stick cookware in India. The proposed acquisition will give the Company exclusive access to Nirlep brand with its goodwill, state-of-the-art manufacturing facility, people, distribution network and product portfolio which not only complements our existing offerings but is also a perfect synergic blend.

The macroeconomic scenario of the country remains positive. Consolidation of reforms, strong FDI inflows and supportive tailwinds from global growth and exports are expected to spur growth. Inflation is in check, though there is some risk on input price due to global movement in commodity price and monetary tightening in some major economies, resulting in currency and interest rate movement. The healthy growth projections for the year and the favourable outlook are likely to have a positive impact on consumer demand. Additionally, infrastructure development

in areas such as power transmission and rural electrification remains a top priority of the Government, and this is expected to provide us new vistas of opportunities in our EPC business. We are already part of Government initiatives on electrification of villages across India and participants in improvement of life of BPL families. In EPC space, we have a very healthy order book and can expect a very high growth because of better execution of projects.

The Company continues to uphold its commitment towards environmental protection and sustainability. Anti-tobacco campaigns and tree plantation drives were among the initiatives conducted to create a positive social impact. We have taken an ambitious plan to plant over 1,00,000 trees this year. The Company has also been actively supporting CSR activities to train rural and urban youth in skill development to enhance their employability and entrepreneurial abilities. These initiatives would not have been possible without the unstinted commitment of our people, partnering NGO's, the management and our Board of Directors. I take this opportunity to thank them all.

I would like to thank our entire team at Bajaj Electricals for their great work and dedication throughout the year. I would also like to express my gratitude to you and all the stakeholders for the trust and faith that you have reposed in us. As we move into another exciting year, we continue to seek your support. We remain steadfast to our consumer-focused philosophy to accelerate our momentum and deliver success for all our stakeholders while balancing our responsibility to society and the communities at large.

Yours sincerely,

Shekhar Bajaj

Notice of the Annual General Meeting

Pursuant to Section 101 of the Companies Act, 2013

NOTICE is hereby given that the Seventy-ninth (79th) Annual General Meeting ('AGM') of Bajaj Electricals Limited will be held on Thursday, the 9th day of August, 2018 at 12.00 noon at Kamalnayan Bajaj Hall, Bajaj Bhavan, Jamnalal Bajaj Marg, Nariman Point, Mumbai 400 021 to transact the following business:

ORDINARY BUSINESS:

1. To receive, consider and adopt the Audited Financial Statements (including Audited Consolidated Financial Statements) of the Company for the financial year ended March 31, 2018 and the Reports of the Board of Directors and Auditors thereon.
2. To declare a dividend on Equity Shares.
3. To appoint a Director in place of Shri Anant Bajaj (DIN: 00089460), who retires by rotation and, being eligible, offers himself for re-appointment.

4. Appointment of Statutory Auditors

To consider and, if thought fit, to pass the following resolution as an ORDINARY RESOLUTION:

"RESOLVED that pursuant to Section 139 and other applicable provisions, if any, of the Companies Act, 2013 and the Rules framed thereunder [including any statutory modification(s) or re-enactment(s) thereof, for the time being in force] and pursuant to the recommendation of the Board of Directors (hereinafter referred to as 'the Board' which term shall be deemed to include any Committee thereof) and pursuant to the approval of the Members at the 78th Annual General Meeting, the Company hereby ratifies the appointment of Messrs S R B C & Co. LLP, Chartered Accountants (ICAI Firm Registration Number: 324982E/E300003) as Auditors of the Company to hold office until the conclusion of the 83rd Annual General Meeting of the Company to be held in the year 2022, at a remuneration to be determined by the Board of the Company in addition to out-of-pocket expenses as may be incurred by them during the course of audit."

SPECIAL BUSINESS:

5. Ratification of Remuneration payable to Cost Auditors

To consider and, if thought fit, to pass the following resolution as an ORDINARY RESOLUTION:

"RESOLVED that pursuant to the provisions of Section 148 and other applicable provisions, if any, of the Companies Act, 2013 and the Companies (Audit and Auditors) Rules, 2014 [including any statutory modification(s) or re-enactment(s) thereof, for the time being in force] and pursuant to the recommendation of the Audit Committee, the remuneration payable to Messrs R. Nanabhoy & Co., Cost Accountants (Firm Registration Number 000010), appointed by the Board of Directors (hereinafter referred to as 'the Board' which term shall be deemed to include any Committee thereof) of the Company as Cost Auditors to conduct the audit of the cost records of the Company for the financial year ending March 31, 2019, amounting to ₹1,43,000/- (Rupees One Lakh Forty Three Thousand only) (excluding all taxes and reimbursement of out-of-pocket expenses) be and is hereby ratified and confirmed.

FURTHER RESOLVED that an approval of the Company be accorded to the Board and the Company Secretary of the Company to do all such acts, deeds, matters and things and to take all such steps as may be required in this connection including seeking all necessary approvals to give effect to this Resolution and to settle any questions, difficulties or doubts that may arise in this regard."

6. Borrowing by way of Issue of Securities

To consider and, if thought fit, to pass the following resolution as a SPECIAL RESOLUTION:

"RESOLVED that pursuant to the provisions of Sections 42 and 71 of the Companies Act, 2013 (the 'Act') read with the Companies (Prospectus and Allotment of Securities) Rules, 2014 and all other applicable provisions of the Act and the Rules framed thereunder, as may be applicable, and other applicable guidelines and regulations issued by the Securities and Exchange Board of India (SEBI) or any other law for the time being in force [including any statutory modification(s) or re-enactment(s) thereof, for the time being in force] and in terms of the Articles of Association of the Company, approval of the Members of the Company be accorded to authorise the Board of Directors of the Company (hereinafter referred to as 'the Board' which term shall be deemed to include any Committee thereof) to borrow from time

to time, by way of securities including but not limited to secured / unsecured redeemable Non-Convertible Debentures (NCDs) and/or Commercial Papers (CPs) to be issued under private placement basis, in Domestic and / or International market, in one or more series / tranches aggregating upto an amount not exceeding ₹1,500 crore (Rupees One Thousand Five Hundred Crore only), issuable / redeemable at discount / par / premium, under one or more shelf disclosure documents, during the period of one year from the date of this Annual General Meeting, on such terms and conditions as the Board may, from time to time, determine and consider proper and most beneficial to the Company including as to when the said NCDs and/or CPs be issued, the consideration for the issue, utilisation of the issue proceeds and all matters connected with or incidental thereto; provided that the said borrowings shall be within the overall borrowing limit of the Company.

FURTHER RESOLVED that an approval of the Company be accorded to the Board of the Company to do all such acts, deeds, matters and things and to take all such steps as may be required in this connection including seeking all necessary approvals to give effect to this Resolution and to settle any questions, difficulties or doubts that may arise in this regard.”

7. Promotion and re-designation of Shri Anant Bajaj as the Managing Director of the Company

To consider and, if thought fit, to pass the following resolution as a SPECIAL RESOLUTION:

“RESOLVED that subject to the provisions of Sections 196, 197, 203, Schedule V and other applicable provisions, if any, of the Companies Act, 2013, the consent of the Company be and is hereby accorded for the promotion and re-designation of Shri Anant Bajaj (DIN: 00089460), who was re-appointed as the Joint Managing Director of the Company for a term of five (5) years from February 1, 2016 to January 31, 2021, as the Managing Director of the Company effective June 1, 2018, for the remainder of his five (5) years term, on the terms and conditions including remuneration payable as set out in the Explanatory Statement annexed to the Notice, with liberty to the Board of Directors (hereinafter referred to as ‘the Board’ which term shall be deemed to include any Committee thereof) to alter and vary the terms and conditions of the said re-designation/promotion and/or remuneration as it may deem fit.

FURTHER RESOLVED that Shri Anant Bajaj shall be liable to retire by rotation.

FURTHER RESOLVED that the Board be and is hereby authorised to do all such acts, deeds, matters and things and to take all such steps as may be necessary, proper and expedient to give effect to this Resolution and to settle any questions, difficulties or doubts that may arise in this regard.”

8. Maintenance of Statutory Registers at a place other than the Registered Office of the Company.

To consider and, if thought fit, to pass the following resolution as a SPECIAL RESOLUTION:

“RESOLVED that pursuant to Section 94 and other applicable provisions of the Companies Act, 2013 and the rules made thereunder (including any statutory modification(s) or re-enactment thereof for the time being in force), consent of the Company be and is hereby accorded to keep and maintain the statutory registers of the Company (excluding Register of Members, Index of Members, Register and Index of Debenture holders) and the copies of all annual returns and copies of certificates and documents required to be annexed thereto at its corporate office situated at Mulla House, 51, Mahatma Gandhi Road, Fort, Mumbai 400 001.

FURTHER RESOLVED that the Register of Members, the Index of Members, the Register and Index of Debenture holders and copies of certificates and documents required to be annexed thereto, be kept at the office of Messrs Link Intime India Private Limited, C-101, 247 Park, L.B.S. Marg, Vikhroli (West), Mumbai 400 083, instead of at the Registered Office of the Company, so long as they are the Registrar and Share Transfer Agents of the Company.”

9. To adopt new set of Articles of Association of the Company in conformity with the Companies Act, 2013

To consider and, if thought fit, to pass the following resolution as a Special Resolution:

“RESOLVED that pursuant to the provisions of Section 14 and other applicable provisions of the Companies Act, 2013 read with Companies (Incorporation) Rules, 2014 or any other law for the time being force (including any statutory modification(s), enactment(s) or re-enactment(s) thereof for the time being in force), the new set of Articles of Association as submitted to

this meeting (duly initialed by the Company Secretary for the purpose of identification), be and are hereby approved and adopted in substitution, and to the entire exclusion of the existing Articles of Association of the Company.

FURTHER RESOLVED that the Board of Directors (hereinafter referred to as 'the Board' which term shall be deemed to include any Committee thereof) of the Company be and is hereby authorised to take all such steps and actions for the purpose of making all such filings and registrations as may be required in relation to the aforesaid amendment to the Articles of Association and further to do all such acts and deeds, matters and things as may be deemed necessary to give effect to this resolution and/or to delegate all or any of the powers conferred herein to any officer(s) / authorised representative(s) of the Company."

ITEM NO. 8

In the interest of operational and administrative convenience, it is proposed to maintain the Statutory Registers of the Company and copies of annual returns at

the Company's corporate office situated at Mulla House, 51, Mahatma Gandhi Road, Fort, Mumbai 400 001, a place other than its registered office.

Also, since Messrs Link Intime India Private Limited, the Registrar and Share Transfer Agents of the Company, have shifted their Registered Office to a new location at C-101, 247 Park, L.B.S. Marg, Vikhroli (West), Mumbai 400 083, an approval of the Members is sought for maintaining the Register of Members, Index of Members, Register and Index of Debenture holders, together with the copies of the certificates and documents required to be annexed thereto at their said new location.

Section 94 of the Act permits the Company to maintain its Registers and Annual Returns at any place other than its Registered Office subject to the Members' approval by way of a Special Resolution.

None of the Directors and Key Managerial Personnel of the Company and their relatives are in any way concerned or interested, financially or otherwise, in the Special Resolution set out under Item No.8 of the Notice.

The Board commends the Special Resolution set out under Item No.8 of the Notice for approval of the Members.

ITEM NO. 9

The existing Articles of Association ("AOA") of the Company are based on the provisions of the Companies Act, 1956 and several regulations in the existing AOA contain references to specific sections of the Companies Act, 1956 and some regulations in the existing AOA are no longer in conformity with the Act.

Members are aware that the Ministry of Corporate Affairs ("MCA") has notified most of the sections of the Companies Act, 2013 ("the Act") which replace the provisions of the Companies Act, 1956. The MCA has also notified the Rules pertaining to the further notified sections.

In order to bring the existing AOA of the Company in line with the provisions of the Act, the Company will have to make numerous changes in the existing AOA. It is therefore considered desirable to adopt a comprehensive new set of Articles of Association of the Company ("New Articles") in substitution of and to the exclusion of the existing AOA.

Shareholders' attention is invited to certain salient provisions in the new draft AOA of the Company viz:

- Incorporation of provisions relating to Independent Directors of the Company.

- The Act has defined the term Key Managerial Personnel, the same is proposed to be incorporated.
- The participation of the Directors in meetings can be in person or through video conferencing or other audio-visual means as permitted in the Act. Accordingly, the provisions in this regard are proposed to be incorporated.
- The books of accounts and statutory registers can also be kept in electronic mode as prescribed by the Act and the rules framed thereunder, subject to compliance of prescribed guidelines. In view of this provisions relating to the same are proposed to be incorporated.
- The AOA is aligned with the provisions of Act.

Pursuant to provisions of Section 14 of the Act, amendment of Articles of Association requires approval of Members by way of Special Resolution. Accordingly, this matter has been placed before the Members for approval.

A copy of the existing AOA as well as new Articles of the Company is available for inspection at the Registered Office of the Company during working hours on any working day, and is also available on the website of the Company www.bajajelectricals.com.

None of Directors/Key Managerial Personnel or their relatives are in any way interested or concerned in the resolution except to the extent of their shareholding, if any, in the Company.

The Board commends the Resolution set forth in Item No.9 for approval of the Members.

PRESENTATION OF FINANCIAL RESULTS

The financial results of the Company for the year ended March 31, 2018 have been disclosed as per Schedule III to the Act.

SCHEME OF ARRANGEMENT FOR DEMERGER OF MANUFACTURING BUSINESS OF HLL INTO THE COMPANY

During FY 2015-16, the Board of Directors of the Company had approved the proposal for demerger of manufacturing business of HLL into the Company, pursuant to a Scheme of Arrangement ("Scheme") under Sections 230-232 and other applicable provisions of the Act and granted its approval for issue of 529740 fully paid-up equity shares of the Company of the face value of ₹2 each to the shareholders of the HLL (except to the Company itself) as a consideration for the demerger in compliance with

the provisions of Section 2(19AA) of the Income Tax Act, 1961, which was based on the Share Entitlement Ratio (i.e. 109 equity shares of the Company of the face value of ₹2 each for 1000 equity shares of HLL of the face value of ₹25 each), as recommended by Messrs S.R.Batlboi & Co. LLP, Chartered Accountants, who were appointed as Independent Valuer by the Company and HLL.

Since HLL was declared as a sick industrial company within the meaning of Section 3(1)(o) of the Sick Industrial Companies (Special Provisions) Act, 1985 ("SICA") by the Board for Industrial and Financial Reconstruction ("BIFR"), the said Scheme was required to be filed only with BIFR for its approval and accordingly, on April 22, 2016, HLL had filed the said Scheme with BIFR vide its letter dated April 18, 2016 under BIFR Case No.09/2002 ("Case").

As the Scheme was not required to be filed with the High Court or Tribunal for its approval when it was approved by the Board of Directors of both the companies and was required to be filed only with BIFR, the provisions of erstwhile Clause 24(f) of the Listing Agreement and/or Regulation 37 of the Listing Regulations and SEBI circulars No. CIR/CFD/DIL/5/2013 dated February 4, 2013 and CIR/CFD/CMD/16/2015 dated November 30, 2015 ("SEBI Circulars"), in respect of filing of draft scheme of arrangement with the stock exchange(s) / SEBI for obtaining Observation Letter or No-Objection Letter were not applicable to the Company.

However, subsequently, the Central Government of India, vide Notification No. S.O. 3568 (E) dated November 25, 2016, brought the provisions of SICA Repeal Act into force with effect from December 1, 2016 and SICA was repealed. Section 4(b) of SICA Repeal Act (as amended by Section 252 of the Insolvency and Bankruptcy Code, 2016) provides that any proceeding of whatever nature, pending before BIFR shall stand abated. Accordingly, the Scheme filed by HLL stood abated as on December 1, 2016.

With the notification of SICA Repeal Act, the provisions of Regulation 37 of the Listing Regulations and SEBI Circulars have become applicable to the Company as the Scheme was then required to be filed with Tribunal.

On March 10, 2017, SEBI vide its Circular No. CFD/DIL/3/ CIR/2017/21 ("Revised SEBI Circular"), amended the regulatory framework for schemes of arrangements. The provisions of Para 8 of the Revised SEBI Circular, inter-alia, states that in cases of the issuance of shares under schemes to a select group of shareholders or shareholders of unlisted companies, the issuer shall follow the pricing provisions of Chapter VII of SEBI (Issue of Capital and

Disclosure Requirements) Regulations, 2009 ("SEBI ICDR Regulations"). Further, as per Para 6 of the said Revised SEBI Circular, the schemes filed with the stock exchange(s) / SEBI after the date of the Revised SEBI Circular shall be governed by its provisions.

On September 29, 2017, the Company had filed the Scheme with the stock exchanges under Regulation 37 of the Listing Regulations with a request for waiver from the requirements of adhering to the pricing provisions of Chapter VII of SEBI ICDR Regulations considering the fact that the Scheme was approved by the Board of Directors of both the companies well before the issue of the said Revised SEBI Circular.

However, the stock exchanges requested the Company to amend the Scheme and the Valuation Report to meet with the requirements of the Revised SEBI Circular. Accordingly, the Board of Directors of the Company, in its meeting held on November 9, 2017, considered and approved the revised valuation / share entitlement ratio for a demerger of the manufacturing business of HLL into the Company and made consequential amendment to the Scheme (hereinafter referred to as "Amended Scheme").

As per the revised valuation report dated October 31, 2017, as issued by Messrs Katre Barwe & Associates, Chartered Accountants, Mumbai, the independent valuation firm, the revised share entitlement ratio of equity shares for the proposed demerger of the manufacturing business of the HLL into the Company, as at relevant date, shall be 97 equity shares of the Company of ₹2 each fully paid up for every 1,000 equity shares of HLL of ₹25 each fully paid up ("Revised Valuation Report"). Accordingly, the shareholders of HLL, except the Company, shall now be issued 471420 fully paid-up equity shares of the Company of the face value of ₹2 each, as against 529740 equity shares proposed earlier in consideration for the demerger, in compliance with the provisions of Section 2(19AA) of the Income Tax Act, 1961.

On November 20, 2017, the Company had filed the Amended Scheme with the stock exchanges under Regulation 37 of the Listing Regulations. On March 21, 2018, the stock exchanges conveyed their no-objection to the Company in terms of Regulation 94 of the Listing Regulations while advising the Company to publish the information pertaining to Dr. Rajendra Prasad Singh, Independent Director of the Company, in the matter of G.E.T. Power Limited in the Scheme and to bring the same to the notice of shareholders and Hon'ble National Company Law Tribunal ("Hon'ble NCLT"). The copies of the aforesaid observation letters along with other relevant

documents are available on the website of the Company: www.bajajelectricals.com.

To meet the requirements of the aforesaid observation letters, the Board at its meeting held on March 29, 2018, suitably amended the Scheme (hereinafter referred to as the "Amended Scheme with SEBI/RBI Observations"). The Company is now in the process of filling the Amended Scheme with SEBI/RBI Observations with the Hon'ble NCLT.

Familiarisation Programme for the Independent Directors

In compliance with the requirement of Listing Regulations, the Company has put in place a familiarisation programme for the independent directors to familiarise them with their role, rights and responsibility as directors, the working of the Company, nature of the industry in which the Company operates, business model, etc. The details of familiarisation programme are explained in the Corporate Governance Report. The said details are also available on the website of the Company: www.bajajelectricals.com.

Evaluation of performance of the Board, its Committees and Directors

The Board has conducted an annual evaluation of performance of all its Directors, Committees of the Board and that of its Chairman, in terms of the relevant provisions of the Act, Rules made thereunder and Listing Regulations. The manner in which the evaluation was conducted by the Company has been explained in the Corporate Governance Report, which forms part of this Annual Report.

Key Managerial Personnel (KMP)

Pursuant to the provisions of Sections 2(51) and 203 of the Act, read with the Rules framed thereunder, the Board has designated Shri Shekhar Bajaj, Chairman & Managing Director, Shri Anant Purandare, President & Chief Financial Officer and Shri Mangesh Patil, EVP – Legal & Taxation and Company Secretary and Compliance Officer, as KMPs of the Company.

None of the KMPs of the Company has resigned during the year under review.

Policy on Remuneration of Directors, KMPs and Senior Managerial Personnel & criteria for matters under Section 178 of the Act

Information regarding Policy on Remuneration of Directors, KMPs and Senior Managerial Personnel &

criteria for determining qualifications, positive attributes, independence of a director and other matters provided under sub-section (3) of Section 178 of the Act are provided in the section of Corporate Governance Report.

Criteria for selection of candidates for appointment as Directors, KMPs and Senior Managerial Personnel

Your Company has laid down a well-defined criteria for the selection of candidates for appointment as Directors, KMPs and Senior Managerial Personnel.

Promotion and re-designation of Shri Anant Bajaj

On the recommendation of the Nomination and Remuneration Committee, the Board in its meeting held on May 23, 2018, has approved and recommended to the Members' for their approval, the promotion and re-designation of Shri Anant Bajaj, Joint Managing Director as the Managing Director of the Company.

Members' attention is drawn to the Item No. 7 of the Notice convening the AGM proposing the promotion / re-designation of Shri Anant Bajaj, Joint Managing Directors as the Managing Director of the Company.

INTERNAL FINANCIAL CONTROLS AND RISK MANAGEMENT

The Company has robust systems for internal audit and corporate risk assessment and mitigation. The Company has an independent Internal Audit Department assisted by dedicated outsourced audit team.

The Internal Audit covers all the factories, branch offices, warehouses, project sites and centrally controlled businesses and functions, as per the annual plan agreed with the Audit Committee. The audit coverage plan of Internal Audit is approved by the Audit Committee at the beginning of every year. Every quarter, the Audit Committee of the Board is presented with key control issues and actions taken on the issues highlighted in previous report.

The procedures have been set in place for self-assessment of business risks, operating controls and compliance with Corporate Policies. There is an ongoing process to track the evolution of risks and delivery of mitigating action plans.

The Company's internal financial control framework is commensurate with the size and operations of the business and is in line with the requirements of the Act. The Company has laid down standard operating procedures and policies to guide the operations of the business. Unit heads are responsible to ensure compliance with the policies and procedures laid down by the management. Robust and

continuous internal monitoring mechanisms ensure timely identification of risks and issues. The management, Statutory and Internal Auditors undertake rigorous testing of the control environment of the Company.

Based on the report of the Statutory Auditors, the internal financial controls with reference to the standalone financial statements were adequate and operating effectively, however, the consolidated financial statements of the Company were qualified for internal financial controls, as SLL, a joint venture of the Company did not have appropriate internal financial control system over financial statement close process in relation to establishing processes for evaluation and determination of impairment of assets including tax assets, appropriate review of financial statements including application of accounting standards on non-routine transactions (sale and lease back of fixed assets) which could potentially result in the joint venture not recognising impairment of assets on a timely basis or incorrectly recognising or derecognising assets; resulting in restatement of financial statements.

The Board has taken note of the findings of the statutory auditors of SLL with respect to the weakness in its internal financial control system over financial statement close process and endeavors to strengthen the same so as to be commensurate with the size and nature of its business.

COMPLIANCE WITH SECRETARIAL STANDARDS

Pursuant to the approval given on April 10, 2015 by Central Government to the Secretarial Standards specified by the Institute of Company Secretaries of India, the Secretarial Standards on Meetings of the Board of Directors (SS-1) and General Meetings (SS-2) came into effect from July 1, 2015. These Secretarial Standards were thereafter revised and made effective from October 1, 2017. The Company is in compliance with the same.

REPORTING OF FRAUD

The Auditors of the Company have not reported any instances of fraud committed against the Company by its officers or employees as specified under Section 143(12) of the Act.

RISK MANAGEMENT

Dividend Distribution Policy

1. Preamble

The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") require the top 500 listed companies, based on market capitalisation as on March 31 of every financial year, to disclose a Dividend Distribution Policy in the annual report and on the corporate website.

The Board of Directors ("Board") of Bajaj Electricals Limited ("Company") has adopted this Dividend Distribution Policy ("Policy") to comply with the Listing Regulations.

The Company currently has only one class of shares, i.e. equity, for which this Policy is applicable. The Policy is subject to review if and when the Company issues different classes of shares.

2. Dividend distribution philosophy

The Company is deeply committed to driving superior value creation for all its stakeholders'. The Company's focus will continue to be on the sustainable returns, through an appropriate capital strategy for both medium term and longer term value creation. Accordingly, the Board would continue to adopt a progressive and dynamic dividend policy, ensuring the immediate as well as long term needs of the business.

3. Dividend

Dividend represents the profit of the Company, which is distributed to shareholders in proportion to the amount of the paid-up shares they hold. Dividend includes interim dividend.

4. Circumstances under which shareholders can expect dividend

The Board will assess the Company's financial requirements, including present and future organic and inorganic growth opportunities and other relevant factors (as mentioned elsewhere in this Policy) and declare dividend in any financial year.

The dividend for any financial year shall normally be paid out of the Company's profits for that year which

will be arrived at after providing for depreciation in accordance with the provisions of the Companies Act, 2013 ("Act"). If the circumstances require, the Board may also declare dividend out of accumulated profits of any previous financial year(s) in accordance with provisions of the Act and Listing Regulations, as may be applicable.

5. Interim and Final Dividend

The Board may declare one or more interim dividends during the year. Additionally, the Board may recommend final dividend for the approval of the shareholders at the Annual General Meeting. The date of the Board meeting in which the dividend proposal will be considered, shall be intimated to the stock exchanges and post board meeting, the outcome of the meeting shall also be provided to the stock exchanges, as required under the Listing Regulations.

6. Financial parameters and other internal and external factors that would be considered for declaration of Dividend:

- Distributable surplus available with the Company;
- Company's liquidity position and future cash flow needs;
- Track record of dividend distribution of the Company;
- Dividend payout ratios of the comparable companies;
- Prevailing taxation policy or any amendments expected thereof, with respect to dividend distribution;
- Capital expenditure requirements considering the expansion and acquisition opportunities;
- Cost and availability of alternative sources of financing;
- Stipulations / covenants of loan agreements;
- Macroeconomic and business conditions in general; and
- Any other relevant factors that the Board may deem fit to consider before recommending / declaring Dividend.

7. Utilisation of retained earnings

Subject to the applicable provisions, the retained earnings of the Company shall be applied for :

- Funding inorganic and organic growth needs including working capital, capital expenditure, repayment of debt, etc.;
- Buyback of shares subject to applicable limits;
- Payment of dividend in future years;
- Issue of Bonus Shares; and
- Any other permissible purpose

8. Modification of the Policy

The Board is authorised to change/amend this Policy from time to time at its sole discretion, as it may

deem fit, and/or in pursuance of any amendments made in the Act, the Listing Regulations, etc.

9. Disclaimer

This document neither solicits investment in the Company's securities nor gives any assurance of guaranteed returns (in any form) for investments in the Company's equity shares.

Report on Corporate Governance

“ Business should be pursued with a view to benefit the poor, not just to become a millionaire or billionaire. ”

- Jamnalal Bajaj

The ethical values is the foundation of Company's governance philosophy which over the past 78 years of the Company's existence has become a part of its culture. We feel proud to belong to a Company whose visionary founders laid the foundation stone for good governance long back and made it an integral principle of the business. We strongly believe that in business, there is something more important than just top line and bottom line and hence, each of us needs to strive towards producing our very best in all we do so that, we not only fulfill the needs of each and every consumer, but also far exceed their expectations. This is what has set us apart and this may be the very reason that we have been able to enjoy a very special relationship with our consumers. After all, when you strive, with every sinew to be the best you can be, it will show.

Corporate Governance is about commitment to values and ethical business conduct. Our actions are governed by our values and principles, which are reinforced at all levels within the Company. We are committed to doing things the right way which means taking business decisions and acting in a way that is ethical and is in compliance with applicable legislation.

The Board of Directors (the “Board”) is responsible for and committed to sound principles of corporate governance in the Company. The Board plays a crucial role in overseeing how the management serves the short and long term interests of all the stakeholders. This belief is reflected in our governance practices, under which we strive to maintain an effective, informed and independent Board.

This Report on compliance with the principles of corporate governance as prescribed by the Securities and Exchange Board of India (SEBI) in Chapter IV read with Schedule V of the SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015 (“Listing Regulations”) is given below:

BOARD

The Board is entrusted with the ultimate responsibility of the management, general affairs, direction and

performance of the Company and has been vested with the requisite powers, authorities and duties. The Board reviews and approves management's strategic business plan & business objectives and monitors the Company's strategic direction. The Executive Committee of the Company is headed by the Chairman & Managing Director and has some of the business/functional heads as its members, which look after the management of the day-to-day affairs of the Company.

In keeping with the commitment of the management for the principle of integrity and transparency in business operations for good corporate governance, the Company's policy is to have an appropriate blend of Executive and Independent Directors to maintain the independence of the Board and to separate the Board functions of governance and management.

Board Diversity

In compliance with the provisions of Regulation 19 of the Listing Regulations, the Nomination and Remuneration Committee of the Board has devised a Policy on Board Diversity (“Policy”) with the objective to ensure that the Board is comprised of adequate number of members with diverse experience, knowledge, skills, perspective, background, gender, age and culture, such that it best serves the governance and strategic needs of the Company and the said Policy is approved by the Board. The Company has over the years been fortunate to have eminent persons from diverse fields as directors on its Board and therefore, the composition of the Board meets with the above objective.

Under the said Policy, the Nomination and Remuneration Committee while recommending appointment of directors shall keep in view that: i) the persons being recommended are persons of eminence in areas such as profession, business, industry, finance, law, administration, research, etc., and bring with them experience/skills which add value to the performance of the Board with greater diversity; and ii) the recommendations shall be purely on merit and no discrimination shall be made based on race, colour, religion or gender.

The Policy is available on the Company's website: www.bajajelectricals.com.

Composition of the Board

The composition of the Board is in conformity with Regulation 17 of the Listing Regulations and also with the provisions of the Companies Act, 2013 (the "Act"). The Chairperson of the Board is an Executive Director and more than half of the Board comprises of Independent Directors.

As on March 31, 2018, the Board comprised of nine Directors. Shri Shekhar Bajaj is the Executive Chairman & Managing Director of the Company. Shri Anant Bajaj is the Joint Managing Director. Shri Madhur Bajaj is a Non-Executive Non-Independent Directors of the Company. Shri Harsh Vardhan Goenka, Shri Ashok Jalan, Dr. Rajendra Prasad Singh, Dr. (Smt.) Indu Shahani, Shri Anuj Poddar and Shri Siddharth Mehta are the Independent Directors of the Company.

During the year under review, Shri Vishnubhai Haribhakti, Independent Director and Chairperson of the Audit Committee, Nomination and Remuneration Committee and Stakeholders' Relationship Committee, has stepped down from the directorship of the Company w.e.f. August 4, 2017 due to his advancing age. The Board places on record its appreciation of the contribution made by Shri Vishnubhai Haribhakti as Director of the Company.

The Independent Directors are from diverse fields and bring to the Company a wide range of experience, knowledge and judgement as they draw on their varied proficiencies in general corporate management, finance, law, media, corporate strategy and other allied fields which enable them to contribute effectively to the Company in their capacity as the Directors, while participating in its decision-making process. The terms and conditions of appointment of Independent Directors have been uploaded on the Company's website: www.bajajelectricals.com.

Shri Shekhar Bajaj, Chairman & Managing Director, Shri Anant Bajaj, Joint Managing Director and Shri Madhur Bajaj, Director, as belonging from the same family, are related to each other. Shri Shekhar Bajaj is a father of Shri Anant Bajaj and an elder brother of Shri Madhur Bajaj. Consequently, Shri Anant Bajaj is son of Shri Shekhar Bajaj and nephew of Shri Madhur Bajaj; and Shri Madhur Bajaj is a younger brother of Shri Shekhar Bajaj and an uncle of Shri Anant Bajaj. None of the other Directors of the Company are inter-se related to each other.

Shri Shekhar Bajaj and Shri Anant Bajaj are also the Non-Executive Directors in Hind Lamps Limited, an associate, and Starlite Lighting Limited, a joint venture, of the Company. Apart from the above, and apart from the reimbursement of expenses incurred in discharge of their duties and the remuneration that the Non-Executive Directors, the Chairman & Managing Director and the Joint Managing Director would be entitled to under the Act, none of the Directors have any other pecuniary relationships with the Company, its associate or joint venture or their Promoters, Directors, which in their judgement would affect their independence.

Appointment and Tenure

The Directors of the Company are appointed by Members at the general meetings. All Directors, except the Chairman & Managing Director and Independent Directors of the Company, retire at the Annual General Meeting (AGM) by rotation and, if eligible, offer themselves for re-election. The Chairman & Managing Director and the Joint Managing Director of the Company are appointed for a term of five years as per the requirement of the statute. As regards the appointment and tenure of Independent Directors, following is the policy adopted by the Board:

- The Company has adopted the provisions with respect to appointment and tenure of Independent Directors which are consistent with the Act and Listing Regulations.
- The Independent Directors will serve a maximum of two terms of five years each.
- The Company would not have any upper age limit of retirement for Independent Directors from the Board and their appointment and tenure will be governed by the provisions of the Act.

Promotion and Re-designation of Shri Anant Bajaj

With the objective of furthering its strategic goals, the Board of the Company at its meeting held on May 23, 2018 has, on the recommendation of the Nomination & Remuneration Committee, approved the promotion and re-designation of Shri Anant Bajaj, as the Managing Director of the Company, with effect starting from June 1, 2018, for the remainder of his five years term from February 1, 2016 ending on January 31, 2021 and revision in his remuneration, subject to the approval of the shareholders at the AGM.

Members' attention is drawn to a Resolution proposing the promotion and re-designation of Shri Anant Bajaj,

Joint Managing Directors as the Managing Director of the Company which is included at Item No.7 of the Notice of AGM.

Board Independence

Our definition of 'Independence' of Directors is derived from Regulation 16 of the Listing Regulations and Section 149(6) of the Act. Based on the confirmations/disclosures received from the Directors and on evaluation of the relationships disclosed, all Non-Executive Directors other than Shri Madhur Bajaj are Independent.

Board Procedure

A detailed agenda, setting out the business to be transacted at the meeting supported by detailed notes are sent to each Director at least seven days before the date of the Board and Committee Meetings except for the Unpublished Price Sensitive Information which are circulated separately or placed at the Meetings of the Board and the Committees. To provide web-based solution, a soft copy of the said agenda is also uploaded on the Board Portal which acts as a document repository. All material information is incorporated in the agenda for facilitating meaningful and focused discussions at the meeting. Where it is not practicable to attach any documents of the agenda, it is tabled before the meeting with specific reference to this effect in the agenda. To enable the Board to discharge its responsibilities effectively, the Board was appraised at every meeting of the overall performance of the Company. A detailed report on the operations of the Company and quarterly compliance report are also presented at the Board Meetings.

The Board periodically reviews the items required to be placed before it and in particular reviews and approves quarterly/half yearly unaudited financial statements and the annual audited financial statements, declaration/recommendation of dividend, corporate strategies, business plans, annual budgets, projects and capital expenditure. It monitors overall operating performance and reviews such other items which require Board's attention viz. quarterly and annual business performance of the Company, the annual report and accounts for

adoption by the Members, progress of various functions and businesses of the Company, foreign exchange exposure and steps taken by the management to minimise the risks of adverse exchange rate movement, Board Remuneration Policy and individual remuneration packages of Directors, appointing Directors on the Board and members of Management Committee, the Corporate Social Responsibility Policy of the Company and monitoring implementation thereof, the details of risk evaluation and internal controls, monitoring and reviewing board evaluation framework. It directs and guides the activities of the management towards the set goals and seeks accountability. It also sets standards of corporate behaviour, ensures transparency in corporate dealings and compliance with laws and regulations.

The Company Secretary is responsible for collation, review and distribution of all papers submitted to the Board and Committees thereof for consideration. The Company Secretary is also responsible for preparation of the agenda and convening of the Board and Committees meetings. The Company Secretary attends all the meetings of the Board and its Committees, advises/assures the Board on compliance and governance principles and ensures appropriate recording of minutes of the meetings. The draft minutes of the proceedings of the meetings of the Board/Committees are circulated amongst the members of the Board and Committees. Comments and suggestions, if any, received from the members of the Board and Committees are incorporated in the minutes, in consultation with the Chairperson of

the Board/Committees. The minutes are confirmed by the members of the Board/Committees at the next Board/Committees meeting.

Familiarisation Programmes for Independent Directors

Regulation 25(7) of the Listing Regulations requires a Company to familiarise its Independent Directors through various programmes about the Company, including the nature of industry in which the Company operates, business model of the Company, roles, rights and responsibilities of Independent Directors and any other relevant information.

In terms of above, the Board members are provided with necessary documents/brochures, reports and internal policies to enable them to familiarise with the Company's procedures and practices. The details of familiarisation programmes imparted to the Independent Directors are posted on the Company's website: www.bajajelectricals.com.

Performance Evaluation of the Board

The Act and Listing Regulations stipulate the performance evaluation of the Directors including Chairperson, Board and its Committees. Considering the said provisions, the Company has devised the process and the criteria for the performance evaluation which had been recommended by Nomination & Remuneration Committee. The Nomination & Remuneration Committee of the Board evaluated the performance of individual Directors. The performance evaluation of the Non-Independent Directors and the Board as a whole was carried out by the Independent Directors. The performance evaluation of the Chairperson of the Company was also carried out by the Independent Directors taking into account the views of the Executive Directors and Non-Executive Directors. Evaluation of Independent Directors was also carried out by the Board, excluding the Director being evaluated. A structured questionnaire was prepared and circulated amongst the Directors, covering various aspects of the evaluation such as adequacy of the size and composition of the Board and Committees thereof with regard to skill, experience, independence, diversity, attendance and adequacy of time given by the Directors to discharge their duties, preparedness on the issues to be discussed, meaningful and constructive contributions, inputs in the meetings, Corporate Governance practices, etc. The criteria for performance evaluation are placed on the Company's website: www.bajajelectricals.com. The Directors expressed their satisfaction with the evaluation process.

Orderly succession to Board and Senior Management

The Board of the Company satisfied itself that the plans are in place for orderly succession for appointments to the Board and to the Senior Management.

PROCEEDS FROM PUBLIC ISSUES

During the year under review, the Company has not raised any proceeds from public issue, right issue or preferential issue.

UNCLAIMED SHARES

The Company does not have any unclaimed shares lying with it from any public issue. However certain shares resulting out of the bonus shares issued by the Company are unclaimed by the shareholders. As required under Regulation 39(4) of the Listing Regulations, the reminders are being sent by the Company to the shareholders to claim these shares and is in a process of depositing these shares in the Suspense Account.

Table 7: Pursuant to Regulation 34(3) read with Schedule V of the Listing Regulations, the details of the shares in the Suspense Account are as follows:

Aggregate Number of Shareholders and the Outstanding Shares in the suspense account lying at the beginning of the year	Number of shareholders who approached the Company for transfer of shares from suspense account during the year	Number of shareholders to whom shares were transferred from suspense account during the year	Aggregate number of shareholders and the outstanding shares in the suspense account lying at the end of the year	That the voting rights on these shares shall remain frozen till the rightful owner of such shares claims the shares
Nil	Nil	Nil	Nil	Nil

All corporate benefits on such shares viz. bonus shares, etc. shall be transferred in accordance with the provisions of Section 124(6) of the Act read with IEPF Rules. The eligible shareholders are requested to note the same and take action for claiming the shares from the said account upon giving necessary documents.

UNCLAIMED DIVIDENDS

Unclaimed dividends up to 1994-95 have been transferred to the general revenue account of the Central Government. Those who have not encashed their dividend warrants for the period prior to and including 1994-95 are requested to claim the same from Registrar of Companies, Maharashtra, Mumbai.

As per the erstwhile Section 205-C of the Companies Act, 1956, any money transferred by the Company to the unpaid dividend account and remaining unclaimed for a period of seven years from the date of such transfer shall be transferred to a fund called the Investor Education and Protection Fund ("Fund/IEPF") set up by the Central Government. Accordingly, the unpaid/unclaimed dividends for the years 1995-96 to 2008-09 were transferred by the Company to the said Fund in the respective years 2003 to 2016.

The Ministry of Corporate Affairs (MCA) notified September 7, 2016 as the commencement date for Section 124 and few sub-sections of Section 125 of the Act and also notified the new Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules, 2016"), outlining the detailed procedure for implementation regarding the Fund and Authority under the Companies Act, 2013. Accordingly, the unpaid/unclaimed dividend for the year 2009-10 was transferred to the Fund in September 2017.

As previously provided under the IEPF (Uploading of information regarding unpaid and unclaimed amounts lying with companies) Rules, 2012 and now under the

IEPF Rules, 2016, the Company filed the necessary particulars of all the unclaimed amounts through e-form IEPF-2 with MCA on October 31, 2017 for the financial year ended March 31, 2017 and the details of unpaid and unclaimed dividends for the financial years 2009-10 to 2016-17 were uploaded on the Company's website: www.bajajelectricals.com.

Unpaid/unclaimed dividend for the financial year 2010-11 shall become due for transfer to the Fund in August 2018. Members are requested to verify their records and send their claim, if any, for the financial year 2010-11, before the amount becomes due for transfer to the Fund. Communication has been sent to the members, who have not yet claimed dividend for the financial year 2010-11, requesting them to claim the same as well as unpaid dividends, if any, for the subsequent years.

TRANSFER OF SHARES TO IEPF

As informed in the previous year, under Section 124(6) of the Act, as amended, there has been a further provision that all shares in respect of which dividend has not been paid or claimed for seven consecutive years or more shall be transferred by the Company in the name of IEPF.

Accordingly, in due compliance of the provisions of Rule 6(3) of the IEPF Rules, 2016, the Company sent individual letters through Speed Post to such shareholders, whose dividend for a consecutive period of seven years had remained unpaid / unclaimed, requesting them to claim the amount of unpaid / unclaimed dividend.

Further, as mandated by the Rules aforesaid, Public Notices were also released in the newspapers on December 3, 2016, May 6, 2017 and June 26, 2017 and the particulars of shares liable to be transferred to IEPF Suspense Account, were made available on the website of the Company viz. www.bajajelectricals.com.

MCA vide its notification dated February 28, 2017 amended the IEPF Rules, 2016 called as the Investor

Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Amendment Rules 2017 (IEPF Amendment Rules, 2017), prescribing certain modified procedure for the activities under the IEPF Rules, 2016. Further, after a series of other changes, MCA by circular dated October 13, 2017, fixed a fresh due date for transfer of shares whose dividend has remained unpaid or unclaimed for seven consecutive years or more as on October 31, 2017.

In view of the same, during the year under review, the Company transferred 225680 equity shares of ₹2 each in respect of 195 shareholders to the Demat Account of the IEPF Authority held with NSDL and filed necessary e-Form IEPF-4 with MCA on December 18, 2017. Details of

such shareholders, whose shares are transferred to IEPF and their unpaid dividends for the subsequent years are available to the concerned shareholders on the website of the Company: www.bajajelectricals.com.

As provided under these Rules, the shareholder shall be allowed to claim such unpaid dividends and shares transferred to the funds by following the required procedure under the said IEPF Rules, 2016 and IEPF Amendment Rules, 2017, which are available on the Company's website: www.bajajelectricals.com.

Shareholders are requested to get in touch with the Company Secretary and Compliance Officer for further details on the subject at legal@bajajelectricals.com.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Management Discussion and Analysis Report has been attached as a separate chapter and forms part of this Annual Report.

FOREIGN CURRENCY EXPOSURE AND ITS HEDGING

The Company has following foreign exchange exposure in its books:

- Liability towards imports for purchases of goods and services.
- Liability towards foreign currency loans such as buyers credit, foreign currency term loans, etc.
- Liability towards royalty payable for use of 'morphy richards' brand.
- Forex exposure in terms of receivables against its exports made to various countries.

The Company has EEFC account with the bank to reduce the impact of foreign exchange exposure to a certain extent. For other liabilities and loans, the Company takes forward cover, either in part or in full, to hedge the liability as and when it considers appropriate to do so.

Management Discussion and Analysis

The Management Discussion and Analysis presented in this Annual Report focuses on reviewing the performance of the Company for the financial year (FY) 2017-18, financial statements of which have been prepared in compliance with requirements of the provisions of the Companies Act, 2013 ("Act") read with applicable rules, guidelines issued by the Securities and Exchange Board of India and the Indian Accounting Standards. Our management accepts responsibility for the integrity and objectivity of these financial statements, as well as for the various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present our state-of-affairs, profits and cash flows for the year.

ECONOMY

The year 2017 witnessed remarkable rebound in global trade led by investment recovery in advanced economies, continued strong growth in emerging Asia, upswing in emerging Europe, and signs of recovery in several commodity exporters. All these factors together led to 3.8% growth in world output, the strongest since 2011.

Advanced Economies (AE) grew 2.3% in 2017 versus 1.7% in 2016 primarily driven by strong pick up in investment spending. Led by strengthening private investment, United States (US) witnessed 2.3% growth in 2017 versus 1.5% in 2016. The Euro area witnessed 2.3% growth in 2017 versus 1.8% in 2016, aided by policy stimulus and strengthening global demand.

Emerging Market and Developing Economies (EMDE) grew 4.8% in 2017 as against 4.4% in 2016 primarily from acceleration in private consumption. Growth in net exports led to robust growth in China. India's growth was led by strong private consumption. Argentina, Brazil, Nigeria and the Russian Federation saw cyclical improvements.

World economic output

	2016	2017E	2018P	2019P
World output	3.2	3.7	3.9	3.9
Advanced economies	1.7	2.3	2.3	2.2
EMDEs	4.4	4.7	4.9	5.0

(Source: IMF)

As per IMF, global growth is expected to pick up to 3.9% both in 2018 and 2019. The pick-up in growth is likely to be aided by strong momentum, favourable market sentiment, accommodative financial conditions, and expansionary fiscal policy in US. The expansionary fiscal policy is expected to drive the US economy above full employment. Growth in EMDEs is expected to continue on strong footing led by emerging Asia and Europe and a modest upswing in commodity exporters.

Though the risks to growth predictions are broadly balanced, some risks that hover growth include increasing US unilateralism in trade, high inflation in US, geopolitical strains, debate on Eurozone reforms, political discord, and climate shocks. A few geopolitical risks include containment of a nuclear North Korea, deepening collaboration between Russia and China, a hard-line US policy against Iran, US-North Korea summit and persistent populism in Latin America.

(Source: IMF World Economic Outlook, April 2018)

On the domestic front, despite the prevailing after effects of demonetisation and the implementation of Goods & Services Tax (GST), India continued to be the fastest growing economy. In FY 2017-18, India's GDP at constant prices is expected to grow by 6.6% as compared to 7.1% in the previous year, as per second advanced estimates issued by the Central Statistics Organisation (CSO). Acceleration in manufacturing, rising corporate sales growth, a pick-up in capacity utilisation, strong activity in the services sector and a record agricultural harvest helped to boost growth.

In the long term, GST is expected to benefit economic activity and fiscal sustainability by reducing the cost of complying with multiple state tax systems, drawing informal activity into the formal sector, and expanding the tax base. The Insolvency and Bankruptcy Code aims at achieving insolvency resolution in a time bound manner. The recent recapitalisation package for public sector banks is aimed at supporting banks to tackle balance sheet related issues, support credit to the private sector, and boost overall investments.

India's Current Account Deficit (CAD) in third quarter of FY 2017-18 grew to 2% of GDP versus 0.7% seen in FY 2016-17.

India's GDP growth rate in % at Constant (FY12) prices

2012-13	5.4
2013-14	6.1
2014-15 (3rd RE)	7.2
2015-16 (2nd RE)	8.1
2016-17 (1st RE)	7.1
2017-18 (2nd AE)	6.4
2018-19*	7.4
2019-20*	7.8

RE: Revised Estimates; AE Advanced Estimates; * Projections
 (Source: Central Statistics Office, IMF)

India's Current Account Deficit (CAD) in the third quarter of FY 2017-18 grew to 2% of GDP versus 0.7% seen in FY 2016-17. The rise in CAD is attributable to more than 2x increase in crude oil prices in first half of 2018 from around US\$30 per barrel in early 2016. Going ahead, CAD is estimated to remain modest and financed by robust foreign direct investment (FDI) inflows as India remains among the top investment destinations due to its sheer market size and rapid economic growth. Inward FDI flows already increased to a record high of an estimated US\$ 45 billion in 2017. Japan, US, UK, and Singapore consistently serve as large sources of FDI for India.

The month of March 2018 witnessed the drop of retail inflation to a five-month low of 4.28%, though it was still above Reserve Bank of India's (RBI) medium-term target. Barring a cut of 25 basis points in August 2017, rates were largely maintained throughout FY 2017-18. A jump in global crude oil prices, India's costliest import, over estimated Government expenditure and a sharp weakening in the rupee are keeping inflation above RBI's target of below 4%.

Indian Banks are grappling with the issue of rising Non-Performing Assets (NPAs). As on March 2018, Indian banks' total gross NPAs stood at ₹9 lakh crore of which, over 90% was with state-run banks. While the RBI is tightening the strap over banks, the newly-adopted Insolvency and Bankruptcy (Code) is expected to be an effective tool in dealing with these NPAs.

India's massive leap in the Ease of Doing Business rankings from 130th rank in 2017 to 100th in 2018 reflects the country's commitment to long-term reforms and its stronghold on the global front. The economy could receive boost in terms of job creation and investment revival, due to large-scale government driven infrastructure programmes spanning sectors such as real estate, ports, roads and power.

In its Union Budget 2018-19, the government allocated ₹5.97 lakh crore for the development of infrastructure facilities. Initiatives such as 'Housing for all', 'Atal Mission for Rejuvenation and Urban Transformation' and 'Smart Cities' mission are likely to play a vital role in transforming India's urban and rural infrastructure. The government is focussing on achieving 175 GW renewable energy and further improving the power scenario in rural areas through its 'Deendayal Upadhyaya Gram Jyoti Yojana' (DDUGJY). In the field of digitisation, India connected 100,000 gram panchayats through high speed optical fibre network under phase-I of the Bharat Net project and enabled broadband access to over 20 crore Indians living in about 250,000 villages.

As per IMF, India is poised to remain as the fastest growing economy in the world, with 7.4% growth in 2018 and 7.8% in 2019. Indian GDP is expected to reach US\$5 trillion

by 2025 as the economic reforms adopted in the last few years start to bear fruits. The World Bank expects Indian economic recovery to lift growth in South Asia region making it the world's fastest growing region.

Goods and Service Tax

The Goods and Service Tax which came into effect on July 1, 2017, is a significant reform in the history of indirect taxation in India. GST is expected to be a modern, transparent and technology-driven indirect tax system to sharpen the competitive edge of the economy which was earlier bogged down by internal trade barriers and a raft of central, state and local taxes. GST subsumed 17 central, state and local taxes in line with the "one nation, one market, one tax" concept on which it was based. The new regime had tax slabs for goods and services—5%, 12%, 18% and 28%. The GST had different impacts on different sectors and companies based on the taxes that they were earlier paying. However, GST is expected to formalise the economy as it encourages the informal players to get integrated into the formal one by way of tax rebates to registered assesseees.

The consumer durables sector was earlier attracting tax rate in the 7-28% range depending on rebates the specific players earned. Under GST it was placed under the 28% bracket having an almost neutral to slightly negative impact. GST is expected to benefit companies by narrowing the price gap between organised & unorganised players and reducing logistics costs. These, in turn, GST will improve the operational profitability of large organised players. For the Company, GST led to some positive impact on profitability of Consumer Products division on account of the inventory due to which it earned certain amount of credit. Overall the end consumer price is not expected to be impacted due to GST implementation for the Company. On the EPC division, the Company had to make certain provision on account of GST which impacted margins by 4% in the second quarter of FY 2017-18.

COMPANY OVERVIEW

The Company is a well-established brand in the consumer appliances industry and holds the leadership position in many kitchen and domestic appliances segment. Leveraging its brand name, mass appeal and broad understanding of the consumer markets, it has also entered into strategic alliances with international companies to cater to the untapped premium market for consumer appliances and to exploit opportunities in the lighting industry. The Company has also a strong foothold in power transmission and distribution business. The Company also has a significant presence in the lighting and luminaires business.

To achieve higher economies of scale, improve synergies and expand its reach, the Company had in the last financial year merged its four erstwhile consumer facing businesses—Kitchen Appliances, Domestic Appliances, Fans and Lighting into one.

The Company recorded steady performance in FY 2017-18 despite some challenges faced due to demonetisation effect, fall in demand of CFL and adjustments as per Ind AS. Though there was some drop in sales, margin growth was better led by effective procurement and increased sales realisation.

The year was marked as the second consecutive year of good monsoons, healthy farm produce and higher MSPs, these factors led to improved sentiments in rural India. A slew of Government initiatives like rural electrification, Make in India, continued farm loan waiver, reliable power supply and Skill India have helped increase disposable incomes which led to robust demand in rural and semi-urban areas. Robust performance on GDP with sustained low inflation levels have helped keep demand of consumer durables high with shorter replacement cycles.

The year under review continued to be bogged down by challenging business environment led by confusion caused by GST implementation especially in fixed price contracts and subdued private investment. The Company's Engineering, Procurement and Construction (EPC) business witnessed robust growth in its order book and scheduled execution of projects owing to strong foothold in certain spheres and strong management team.

Overview of the Company's financial performance

In FY 2017-18, the Company saw successful implementation of its renewed strategy with its dealer inventory programme rollout moving towards completion. Though the top-line performance was slightly tamed in both the business segments, the future looks promising with strong order book in EPC segment and strong plans of SKU ramp up in Consumer Products segment. Bottom-line was slightly impacted due to Ind AS adjustments in EPC segment.

Profit & Loss Statement Analysis

- Revenue from operations increased to ₹4,716.39 crore from ₹4,298.26 crore, up 9.73% YoY for FY 2017-18, on account of increase in EPC sales from ₹1,983.33 crore to ₹2,487.56 crore, up 25.42% YoY.

- Book Value per share increased to ₹92.59 in FY 2017-18, from ₹86.04 in FY 2016-17.
- Borrowings increased to ₹723.10 crore in FY 2017-18 from ₹646.56 crore in FY 2016-17. Debt-Equity ratio stood at 0.76 times.
- Fixed Assets increased to ₹322.17 crore in FY 2017-18 from ₹317.91 crore in FY 2016-17.
- Return on Equity came at 9.28% in FY 2017-18 as compared to 12.09% in FY 2016-17.

Outlook

Monsoon revival and end of the global food price deflation have ushered stability in rural India. Stabilisation of GST coupled with signs of improvement in broad consumer sentiment, availability of more employment, rollout of initiatives like Phased Manufacturing Program, formalisation of the economy, expectations of a good monsoon, steps to double farm income by 2022 provide a strong ground for revival of growth in Consumer Products segment. With the transition from the Push driven to the Pull driven distribution model nearing completion, the Company is ready for the next leg of growth strategy which encompasses launch of new products and capacity expansion leveraging its dealer inventory program.

Industrial activity has been aggregating for some time. Backed by support from core sector growth and higher Government spends, EPC segment performance is likely to look up given a strong order book in place and possibility of expanding footprint in newer regions with strong market discipline.

OPERATIONS

CUSTOMER FACING BUSINESSES

Industry Overview

Demand for consumer durables in India has been growing on the back of rising rural incomes, increasing urbanisation, a growing middle class and changing lifestyles. Boost in discretionary income and easy financing schemes have led to shortened product replacement cycles and evolving life styles where durables which were earlier considered luxury have now become utility. Growing awareness and easier accessibility have driven the market growth especially in rural and semi-urban areas.

Consumer durables market in India reached US\$ 15.45 billion in 2017 and expected to reach US\$ 20.6 billion by 2020. By 2025, India is expected to up its ante in the consumer durables market in the world from 12th to 5th largest position. Demand growth is likely to accelerate with rising disposable incomes, easy access to credit, Government's strong thrust on electrification of rural areas and wide usability of online sales.

(Source: IBEF)

Consumer durable market is chiefly divided into 2 categories

Consumer Electronics	Consumer Appliances
Televisions	Air-conditioners
Audio and Video Systems	Refrigerators
Personal Computers / Laptops	Washing Machines
CD and DVD players	Sewing Machines
Digital Cameras & Camcorders	Electric Fans and Cleaning Equipment
Electronic Accessories	Microwave Ovens and Other Domestic Appliances

Consumer Appliances

Over the past few years, structural reforms and economic policies have resulted in a favourable business environment

Net Profit came at ₹ 83.62 crore for FY 2017-18, from ₹ 107.66 crore in the previous year, marking a decrease of 22.33%

giving a significant boost to domestic manufacturing. India's recent jump to 100th rank from 130th on the World Bank's Ease of Doing Business index highlights the government's concerted efforts.

The consumer appliances market was one of the fastest growing categories in India and experienced healthy growth in 2017. The majority of the demand for consumer appliances in India comes from urban India. A large booming market, increasing disposable income, easier access to financing options and improved rural electrification have supported growth in the sector. In FY 2017-18, growth was fuelled partly by the low base following demonetisation, a good monsoon, improving market sentiment after the implementation of GST, newer launches and increased consumer promotions.

While other growing economies have an ageing population, India's young population offers a large consumer market and a skilled global workforce. Due to rising labour costs in alternative markets such as China and large domestic demand, global companies are turning their attention towards India as the next manufacturing destination.

Business Overview

The Company plays in the Indian consumer durables space in the kitchen and domestic appliances, fans and lighting solutions. The Company offers a wide spectrum of products under each category with unique price proposition and superior quality. With evolving consumer preferences the Company is working to create product differentiation leveraging its stronghold on technological advancement.

FY 2017-18 witnessed the successful roll out of Range and Reach Expansion Program (RREP) in 80% of the country. This translates to serving nearly 500 districts, 400 distributors catering to more than 144,000 retailers. Though this impacted the top-line growth to some extent, it will enable strengthening of distribution network and thereby sales in the coming years. RREP is also likely to reduce operating costs and help boost margins. With this success, the Company is well poised for steady growth in the coming years, as it continues to launch new products and invest in marketing channels of the future to connect with millennial.

The strengthening of distribution already showed positive results in the last quarter of FY 2017-18 with categories like irons, water heaters, fans, induction cookers, mixers and LED registering high double digit growth as compared to same period during last year. In domestic appliances, the Company gained market share through new product

initiatives with wider and deeper distribution. In fans, the Company retained its significant position in both premium and economy categories.

The Company launched several offers based on the seasonality of the sub categories increasing end consumer purchase consideration. Within kitchen appliances, the Company maintained leadership in mixer grinders and its dominant place in juicer mixer grinders and food processors sub segments. In gas stoves, there was substantial value growth driven by a demand for high end offerings.

Catering to the premium segment through Morphy Richards

Morphy Richards of the UK is a leading premium home & kitchen appliances brand, present in India since 2002 through the Company, with its range of products available in over 22 categories.

The complete range of Morphy Richards products are available through a wide network of distributors and retailers across the country. These products are also available online. Morphy Richards offers free home service across the country to its customers and has a well-established Pan-India service network.

In FY 2017-18, Morphy Richards India consolidated its position by launching new products in Dry Iron, a new series in Oven Toaster Grillers, Microwave Oven and a refreshing color range hand blenders with DC motors. It also launched its stylish, premium luxury and cutting edge global products in the Indian market namely, 'Redefine', 'Prism' and 'Total Control'.

The business witnessed double digit growth during the year and there was robust traction through general trade and online channels.

Alternate Sales channels

In order to have market penetration, the Company caters to Model Format Retail (MFR) stores, institutions, Canteen Stores Department (CSD) and Central Police Canteens (CPC). The Company is also undertaking E-Commerce business through its website, and external portals like Amazon, Flipkart and Paytm.

Efficient After sales Services – Commitment to customers

The Company expanded its network of 418 authorised service centres in 298 cities, to 489 centres in 341 cities. All these centres provide timely service to consumers at their doorstep, even in remote and rural areas. The gamut

of after-sales service includes installation of products and demonstration besides repairs of products. The centres have 2,200 service engineers trained by the Company.

To ensure speedy response, the Company has provided a mobile application to all service engineers to attend consumer service requests online, at any time. All the information to measure their performance and effectiveness is collected to gauge the response time. Post call resolution, the Company takes feedback from consumers to continuously update the processes and enhance the quality of service delivery.

The Consumer Products segment reported the revenue of ₹2,228.46 crore in FY 2017-18 as against ₹2,314.21 crore in the previous financial year. The segment has recorded 3.71% de-growth this fiscal.

Opportunities

Rising demand for automation in household chores:

With growing prevalence of working women and nuclear families the need for automation in household chores is on a speedy growth. With higher disposable incomes due to dual incomes, concept of modular kitchen and use of modern appliance is gaining traction. ACs, refrigerators, microwaves etc., are no longer the luxuries but have become necessity tools of survival for the modern day consumer.

Growing prevalence of social media: Having a lavish home is essential for the modern consumer to maintain social media status. Also with growing internet penetration, awareness on use of appliances and availability is gaining popularity. This has led to upgradation in the way modern households operate.

Housing for all: India's urban population as a percentage of total population was around 32.7% in 2015 and is expected to rise to 40% by 2030. Under the "Housing For All" scheme, 60 million houses are to be built which include 40 million in rural areas and 20 million in urban area by 2022. Government's plan to build 100 smart cities will further the cause of rural development. These factors bode well for the Company's consumer products segment.

Rising income levels: India's per capita income, a gauge for measuring living standard is expected to grow to ₹1,11,782 in FY 2017-18, up 8% as compared to the previous year. Disposable income in rural India has increased due to the direct cash transfer scheme. Total rural income, which is currently at around US\$ 572 billion, is projected to reach US\$ 1.8 trillion by FY 2020-21. India's rural per capita disposable income is estimated to increase

at a CAGR of 4.4% to US\$ 631 by 2020. As income levels rise there is an uptrend in share of domestic appliance market.

Growing demand for electronic appliances: By 2020, the electronics market in India is expected to increase to US\$ 100 billion from US\$ 28 billion in FY 2016-17. The production is expected to reach to US\$ 104 billion by 2020.

With all these factors working in favour of the domestic appliances market, the Company is well positioned to tap on this growth. There is also growing prevalence of premium products led by growing middle class segment. This bodes well for the Company as it enjoys trademark user license agreement with Morphy Richards which enables it to sell the global range of consumer appliances in India. With growing exposure of consumers to the foreign world, the consumer's demand for similar products is on the rise and the Company can cater to this demand with products similar to those available in the European markets. The Company is also exploring opportunities to be able to export its Morphy Richards branded products.

Threats

Commodity price fluctuation: Volatility in price of raw materials can have a direct bearing on the Company's margin as the buyers are price sensitive and may react to price fluctuations. Thereby the Company closely monitors commodity price movements and plans procurement accordingly. It not only negotiates on the vendor end but also initiates price increases on the consumer end. Sometime, the Company absorbs price fluctuations to introduce premium variants which could generate better margins, these products compensates for bearing on low margin products.

Rising competitive intensity: Given the lucrative growth potential the consumer appliance segment portends, the sector attracts attention of new players coupled with rising intensity from existing players. Irrational pricing can sometimes play the spoilt in the industry margins. The Company tries to keep competition at bay by offering superior quality products at competitive prices. The Company also doles out attractive reward programmes for trade partners making it the brand of choice. Use of alternate sales channel catering to institution and malls, e-commerce and defence, and police canteens, enables the Company to fortify its position across channels.

Outlook

The Consumer Products segment is expected to foresee robust growth in the coming years reinforced by surging

rural consumption, reducing replacement cycles, increasing penetration of lifestyle appliances, availability of multiple brands at various price points and rapid rise in e-commerce. Rapidly shrinking replacement cycles sustain demand in urban areas while low penetration rates and increasing availability and usage of consumer durables have fuelled demand in rural areas. Income level disparity will lead to growth in the entire spectrum of product range. High Income groups will opt for advanced features, whereas, middle and low income groups which are price sensitive will continue to replenish older equipments.

ENGINEERING, PROCUREMENT AND CONSTRUCTION (EPC)

Power Sector

India's total installed power generation capacity at the end of FY 2017-18 was 344 GW. Thermal power capacity forms the lion's share at 64.8%, followed by renewable, hydro and nuclear constituting 20.1%, 13.2% and 2% respectively. Transmission lines of 23,119 Circuit Kilometres (ckms) were commissioned in FY 2017-18, over achieving the target of 23,086 ckms set for the year. In FY 2017-18, the transformation capacity was improved by 86,193 MVA, over achieving the target of 53,978 MVA set for the year. This translated to 5.35% increase in transmission capacity over the previous year.

(Source: Ministry of Power)

The government's push for structural reforms in the power sector will help to unbundle the vertically integrated state utilities. The focus is on improving the reliability and efficiency of the existing network, by investing in higher voltages such as 400 kV and 765 kV. The Government is also looking to expand the transmission network. The Government's investment of US\$ 3.5 billion in the green energy corridor by FY 2021-22 and the proposed implementation of general network access would boost the prospects of the sector. However, slow state-level planning and right-of-way issues could drag down growth.

Falling costs have made renewable sources increasingly competitive with fossil fuels. India ranks third among 40 countries in EY's Renewable Energy Country Attractiveness Index, on the back of Government's strong focus on promoting renewable energy and timely implementation of projects. The government is supporting the use of renewable sources with a major thrust on solar energy. In FY 2017-18, India had a grid connected solar capacity of 21.65 GW. Having over-achieved the target of setting up solar power plants of 20 GW four years in advance, the Government scaled up the target to 100 GW to be achieved by 2022. This bodes well for companies operating

in the transmission lines network. Also the Government is targeting all Indian Railways trains to become electric by 2022 creating further opportunities.

Lighting & Energy Efficiency Sector

The government is laying strong thrust on new energy efficiency measures to meet the unprecedented demand for electricity and to ensure energy security for sustainable economic growth. The World Bank has pegged India's energy efficiency market at ₹1.6 trillion by considering end-use energy efficiency opportunities, against the backdrop of the success of the Government's UJALA scheme and street light national programme. Since its inception in January 2015, more than 28 crore LED bulbs have been sold across the country resulting in energy savings of 36,545 million units (MUs) and avoiding peak demand of 7,317 MW.

The government's push promoting investments in energy efficient lighting technologies have expanded the applications of LED lights across various industrial, commercial and residential sectors. According to IMARC Group, the Indian LED Lighting market was worth US\$ 1.5 billion in 2017, achieving a growth of 5% CAGR during 2010-2017. Due to their numerous advantages over conventional lighting technology, they have swiftly gained prominence in the Indian lighting market.

A rapidly growing automotive industry, increasing infrastructural investments, rapid growth of street lighting systems, decline in average prices of LEDs and various government and upcoming smart building projects are expected to drive the demand of LED lights in India.

Business Overview

a. Transmission Line Towers (TLT)

The division delivers EPC services in transmission lines upto 765 kV, EHV substations upto 220 kV & monopole-based transmission lines upto 400 kV. Hot-dip galvanised lattice towers & monopole structures are manufactured at the Company's own unit at Ranjangaon, near Pune.

The division provides the above mentioned services in all parts of the country. During FY 2017-18, transmission line & sub-station work was carried out at more than 25 sites in 14 states of India.

During the fiscal year, TLT division recorded a sale of ₹515 crore against the target of ₹600 crore, 86% achievement. The overall sales comprise ₹325 crore in material supply and ₹190 crore of site execution services.

Major achievements of TLT division:

- Successfully commissioned & handed-over 11 out of 15 lines in BSPTCL project. This contributed significantly to improving the power situation in Bihar.
- Successfully commissioned & handed-over 765 kV D/C Jabalpur Orai 02 & 03 line of PGCIL by resolving all bottlenecks such as severe ROW & other operational issues. This will help strengthen the national grid by inter-regional connection from Western Region to Northern Region.
- Successfully commissioned three 132 kV stations of MPPTCL along with associated lines. This will help strengthen the local distribution network.
- Successfully commissioned three 132 kV stations of OPPTCL along with associated lines. This will help strengthen the local irrigation system.
- Successfully commissioned first 220 kV substation along with associated transmission line for solar evacuation at Suwasra, Madhya Pradesh. This project will give a major boost to providing grid connectivity for a mega solar power project in that state.
- Received first 132 kV GIS order from West Bengal State Electricity Board.
- Bagged the first 132 kV export order for monopoles in Zambia.

The transmission sector has been rapidly evolving. Major transmission infrastructure, especially 765 kV and above, is already in place. The future outlay is expected to be more in the sub-transmission sector, i.e., 400 kV or below. Moreover, the transmission industry has an over-capacity and hence margins shall be under stress in that atmosphere. Therefore opportunities have to be sought in non-conventional areas such as transmission network laying associated with wind, solar power, etc. and also in new geographical areas which are now becoming good markets such as the North-eastern states.

The government is also encouraging private sector participation in the transmission sector through the TBCB (Tariff Based Competitive Bidding) route. Progressively, the working atmosphere may undergo considerable changes. There will be a shift from the government sector to the private sector which may be a risk for contracting agencies.

The division is also aggressively pursuing opportunities in monopoles and is executing the first order in the

country of a 400 kV dedicated monopole line. Efforts are gradually fructifying into orders and it is expected that monopole-based transmission lines will become a rapidly growing sustainable business.

The division is strategically positioning itself to be an end-to-end solution provider in the power transmission sector including transmission lines on lattice structures, on monopole structures, EHV substations and EHV cabling.

Opportunities

Thrust on renewable sources: The government's recent drive to increase use of non-conventional renewable energy resources is opening up significant occasions for companies engaged in transmission line network. The Company finds itself in a sweet spot to bank on this opportunity given its immaculate performance in this segment.

Increasing private player participation: The Company is exploiting the Government's push to encourage private sector participation in transmission sector through TBCB route. The Company is bidding in monopoles, which it expects to grow substantially in the near future.

Risks

Overcapacity: Since the Government is over achieving its target of installing transmission lines it poses a risk of overcapacity which can impact profitability. The Company is on constant lookout for opportunities in underserved markets with a strong focus on renewable sources which is new and upcoming. The Company's strong track record of timely execution at competitive costs puts it in a strong competitive place.

b. Illumination EPC

The Company supplies high masts, street lighting poles and FRP decorative poles under its Illumination EPC division. Also special lighting projects such as power plants, stadiums and architectural lighting, etc. are undertaken by the Company. It undertakes end to end turnkey projects in lighting including conceptualising, designing, manufacturing, installing and commissioning.

Highmast lighting systems and lighting poles are the forte of the Company wherein it is the nationwide leader. The Company is ISO: 9001 certified for all activities of this division. Hot-dip galvanised

highmasts, poles and monopole structures are manufactured at the Company's Ranjangaon facility, near Pune (Maharashtra).

Through the Illumination EPC division, the Company also caters to international geographies. The highmast systems are exported to over 15 countries across Africa, Europe, Middle East Asia and South East Asia regions.

The Company has a strong order book of close to ₹189 crore for Illumination projects. In FY 2017-18, the Illumination EPC division sales came at ₹226.28 crore as against ₹240.32 crore in FY 2016-17 amidst challenging business environment.

Opportunities

Boost for infrastructure development: The Government is expected to invest highly in the infrastructure sector, mainly highways, renewable energy and urban transport. In the Union Budget 2018-19 the Government allocated ₹5.97 lakh crore for the development of infrastructure with the highest ever budgetary allocation of ₹1.48 lakh crore for railways. Government's focus on smart city development and replacement of conventional systems with more energy savings options offers tremendous opportunities for the Company.

Push for industrial growth: Under its Make in India initiative, the government has been encouraging investment by both foreign and domestic manufacturers to set up bases in India. Recovery in capex cycle will create substantial demand for Illumination solutions. These factors will propel growth for the Company's Illumination division basis its strong business relationship with some India's leading business houses.

Threats

Unorganised sector competition: Backed by manufacturers of highmasts and poles, small time contractors qualify in tenders. This unorganised competition poses risk to Company's project order book since they quote significantly lower prices. The Company's high quality of product and services are its unique selling point giving it an edge over competition. Formalisation of the economy led by implementation of GST stands to help the organised players. Additionally, poor track record of small players who fail to execute orders on time and provide poor quality solutions prove disadvantageous for them.

Pricing risk: Lucrative growth of the sector has led to high competition with players operating on low margin to get business. By expanding its reach and maintaining high quality standards, the Company commands a premium amidst a highly competitive market. Robust order book provides some insulation from pricing pressure.

c. Luminaires

The Company undertakes designing and marketing of solutions for commercial lighting, industrial lighting, street lighting, area lighting, IBMS and renewable energy, under the Luminaires division. The Company has ISO 9000 certification for this division. Majority of the products under this division are manufactured in plants which are ISO 9000:2000 certified. Select plants are ISO 14001 certified which sets out the criteria for environmental management.

In FY 2017-18, the Luminaires division sales was at ₹420.55 crore as against ₹466.52 crore in FY 2016-17 led by strong demand. The Company won the "Smart Green Building Initiative Award 2017" and "FSAI Awards 2017 for Best Integrated Project India."

Opportunities

Strong Government push for energy efficient lighting solutions has led to increased demand for LED Luminaires with bright future prospects. The Company's significant position in the space puts it in an advantageous position to tap on the potential growth. Additional demand is likely to be driven by the Government's smart city initiative. To strengthen its position in bagging the smart city orders, for smart outdoor lighting solutions, the Company has tied up with CISCO and for IoT enabled lighting systems the Company has tied up with Goove of UK.

The significant transition of a number of private businesses from conventional lighting to LED and automation provides additional growth opportunities for the Company. The Company's foray into lighting solutions with special features of dimming and controls puts it in a sweet spot.

Threats

The division faces intense competition and pricing pressures like most other businesses. The Company's strong brand equity coupled with proven execution track record gives it an edge over competition. Also the Company's relentless focus on delivering futuristic solutions further strengthens its position.

d. Power Distribution

The Power Distribution division of the Company has a strong order book to the magnitude of ₹2,782 crore. The Company is working with the Government under DDUGJY (Deendayal Upadhyaya Gram Jyoti Yojana) and IPDS (Integrated Power Distribution Scheme). The focus for FY 2017-18 was to complete the projects.

There have been a slew of initiatives by the government to undertake distribution reforms with strong focus on upgrading system, reducing losses, controlling theft, orientation towards consumer service and supplying quality power. In addition, the Government is emphasising on development of smart grids. These initiatives work in favour of the Company's power distribution division.

The Company is working harder to ensure on timely project execution, efficient working capital management and safety of management sites. This persistent focus is likely to improve its profitability in the division.

Outlook for EPC division

The Company has successfully cleaned long lasting legacy issues in EPC business. The Company is currently well placed to tap the opportunities arising from the upcoming energy efficiency market and the renewable energy segment. The huge Government investments in infrastructure development are expected to give a boost to the sector.

A strong order book in the pipeline backed by an excellent product portfolio and a talented pool of engineers suggests that the Company is future ready to clock robust growth in EPC in FY 2018-19.

EXPORTS

FY 2017-18 was a challenging one, with international turmoil across the globe. The challenge for the Exports division came in the form of currency de/re-valuation, election and political instability in some countries. The division however, has achieved a growth of 36% with a CAGR of 21% clocking a turnover of ₹58 crore for the current financial year.

Some of the countries where the division has expanded its presence in both B2B and B2C are: Kenya, Indonesia, Mauritius, Jordan, Gambia, Zambia, Mozambique, Togo, Ethiopia, Qatar, Djibouti, Mauritania and Uganda.

The division has bagged some prestigious projects including:

- Last Mile Connectivity Project with Kenya Power Lighting Company (KPLC) in Kenya for Power Distribution.
- Transmission Line Project with ZESCO, Zambia for monopoles.
- Rural Electrification Project with Compagnie Energie Electrique du Togo (CEET), Togo.
- Supply of poles to Qatar General Electricity & Water Corporation (KAHRAMAA), Qatar.

The total value of the above projects put together is around US\$ 27 million (around ₹175 crore) with the completion period between 18-24 months.

To strengthen the GCC Market, i.e. Gulf Co-operation Council, whose member states include The United Arab Emirates, Bahrain, Saudi Arabia, Oman, Qatar, Kuwait and Yemen, the division has received G Mark Certification for a few of its products.

The division also participated in exhibitions and conferences across the globe, namely FIEE 2017 in Sao Paulo, Brazil, IFA 2017 at Messe Berlin, Germany, Trade Fair in Canton, China, WAPIC Conference and Exhibition, Lagos, Nigeria, Light + Building, Messe Frankfurt, Germany. It also conducted an LED lighting launch in Dubai and hosted dealers in Sri Lanka with an incentive trip to Kerala.

GREEN ENERGY- WIND ENERGY

FY 2017-18 witnessed an addition of 1,762 MW of wind power installation, the lowest in the preceding five years. This is attributable to transition from the Feed-in-Tariff (FiT) to the competitive bidding regime, multiple policy issues, and flat power demand. Currently the total wind energy capacity in India is 34,042 MW. This puts the industry in a comfortable position to achieve the government's 60 GW capacity target by 2022. The industry has a healthy order pipeline in view with 10-12 GW secured even before the start of FY 2018-19.

(Source: <https://economictimes.indiatimes.com/industry/energy/power/india-to-achieve-60-gw-wind-capacity-before-2022-say-manufacturers/articleshow/63601220.cms>, <https://qz.com/1245556/indias-wind-power-sector-had-a-terrible-year-in-2017-can-it-turn-around/>)

During FY 2017-18, the Company's 2.8 MW wind farm at Vankusawade village, in Satara district of Maharashtra, generated 17,10,304 electrical units as compared to 33,37,281 electrical units in the previous year.

SUPPLY CHAIN

Supply Chain Management (SCM) is an important and integrated function at the Company aimed to bring a competitive edge to the business. SCM covers all business verticals and is considered an end-to-end function with core competence. Ensuring superior availability at competitive costs is the focus point of SCM's strategy. SCM is basically aimed at standardising the processes, deriving benefits of aggregation across all the businesses and ensuring consistent quality management. Depending on the nature of the business, SCM adopts customised strategies aimed at improving customer service while keeping inventories fresh and at a manageable level. On account of effective cost management and ensuring availability, SCM helps in improving the Company's profitability.

RESEARCH & DEVELOPMENT

To remain at the forefront and evolve products that suit the modern customers' requirements in the digital age, the Company set up a modern R&D centre at Navi Mumbai in Maharashtra in the last financial year. This Centre combines all aspects of research, design, development and testing capabilities under a single roof. From developing products that are eco-friendly to designing technological-advanced and smart and intelligent products, the Centre will be the bedrock and primary source of all future products and technologies.

MARKETING & BRANDING

Demographics have become increasingly important in marketing, especially with the growth of better segmenting algorithms and plenty of big data to draw on that can help mould effective communication strategies. The group most important in the country is the 'Indian Millennials', in fact, millennials have changed the way marketers look at customers.

Indian Millennials: Facts and Figures

- Those under 35 represent a large proportion (65%) of the Indian population.
- They are undoubtedly better educated and more tech savvy than their predecessors.
- They are more likely to engage and shop online.
- And they have a clear set of characteristics that define how marketing companies and brands should engage with them.

With an emphasis to cater to this faction, the Company's broad communication strategy for FY 2017-18 stayed focused on positioning the Company to be known for its innovative solutions and technological expertise. With an

aim to achieve and drive this communication objective, the Company formulated strategies that were driven through the traditional (TV, radio & print media), digital and on-ground media.

The Company launched its first B2B corporate campaign called "Magic of Light" showcasing its capabilities around Street lights, Transmission Line Towers, Power Distribution & Illumination and to create awareness about some of its successfully designed and commissioned complex landmark infrastructure projects. Notably, this campaign showcased the Company's role in the infrastructure building for the country. The campaign was very well received and high on visibility across media.

The Company continued its association with major youth events in the city to promote sports, arts and culture. One of the most watched indigenous sports in India, 'Pro-Kabaddi 2017' (also the most watched sport after cricket in India) was sponsored for the fourth time. The Company was also lighting partner with youth icon "Justin Bieber's Purpose World Tour" on his maiden concert in Mumbai.

The Company was also the lead sponsor for The International Federation of Sport Climbing (IFSC) tournament in Mumbai and inspiring partner for Pinkathon 2017. It also partnered with festivals promoting arts and culture like Kala Ghoda Arts Festival 2018, in Mumbai and World Orange Festival 2017 in Nagpur with Lokmat Group. These strategic partnerships with the leading events helped reinforce the Company's brand ethos and drove home a strong message of its support to the youth.

Media consumption across the globe is increasingly happening in digital formats. The increase in the number of devices capable of supporting digital media has provided consumers with an option to access the media content of his choice anytime. To reach out to the targeted segments across globe, the Company has efficiently utilised this medium with impactful content. Whether it was launching a television show "Food Memoirs with Hemant Oberoi" on a premium lifestyle channel or launching the "Magic of Light" campaign (delivered 234mn impressions) creating awareness about landmark infrastructure projects carried out, the Company has presented exceptional content utilising digital media at its best. It is among the first Indian companies to go digital and have its own website. On August 15, 2017, its website celebrated the completion of 20 years, making it a milestone.

To support RREP and to ensure on-ground visibility, more than 13000 stores were branded across India. The Company also embarked on a Digital Transformation

journey with a focus on enhancing the customer experience in B2B and B2C space through an initiative - 'Project Evolve'. The Company has built a state-of-art digital centre at its office in Mumbai, for extensive social media listening and monitoring, to understand the pulse of the industry and brand health vis-à-vis its competition. It will help the Company utilise social media data strategically to understand consumer sentiments and map the consumer journey, enabling the organisation to make informed decisions.

The Company's consumer business segment which witnessed successful product launches was the focused for the year. The Company's partner Morphy Richards on August 22, 2017, launched its global range in India to capture the interest of Indian audience through smart technology and innovative designs. Taking a step forward, the Company also launched India's first of its kind IOT air-cooler to improve customer experience and make the cooling process easy.

With the aim of showcasing its diverse range of technologically advanced solutions in home automation, connected lighting solutions and engineering projects to the globe, the Company participated in the world's leading trade fair in the field of light and building automation, "Light + Building 2018", at Frankfurt in Germany, promoting its key theme of 'Smart Indoors and Connected Outdoors'.

The Company was appreciated with some prestigious awards like:

- "POOGI Award" at TOCICO International Conference 2017, Berlin, Germany.
- Leadership in Energy and Environmental Design (LEED) Platinum Certificate, by the United States Green Building Council (USGBC) to Bajaj Electricals R&D Centre - 'AB SQUARE' Navi Mumbai, India.
- The SEAD Global Efficiency Medal for Outdoor Lighting 2017, Paris, France.

INFORMATION TECHNOLOGY

The Company continues to invest in Information Technology for automating various business processes, being productive and also aligning all business units towards Theory of Constraint (TOC) way of working. Keeping lights on for ERP, CRM, BI and Intranet for all its employees and extranet portal for all stakeholders is one of the primary requirements for running all business functions in an automated manner.

The Company also focused on Consumer Centric Digital Transformation Project where the following initiatives were completed:

- Launched IoT-enabled Smart Lighting Solutions.
- Launched IoT-based Room Cooler.
- Launched Digital Engagement Centre for Social Media Listening and Analytics, ORM.
- Digital Experience Centre for IoT product development.
- Launched several mobile apps for Sales team, Distributors' Sales Team and Retailers and lifestyle mobile app for end consumers.
- Relaunched corporate website.
- Launched Chatbot for customer care.

As more and more business processes are getting automated and dependency on IT systems is increasing for all business units, there is a continuous focus on IT security and reliable disaster recovery management processes to ensure all critical systems are always available, periodically reviewed, upgraded and tested for efficacy, security & reliability.

The Company received following recognitions from various media agencies for its IT/Digital Projects:

CORPORATE SOCIAL RESPONSIBILITY

The four pillars that guide the Company's CSR activity are Sustainability, Diversity Inclusion, Employee Volunteering and Community Outreach. The Company strives hard to benefit the communities where it operates. The Company plans and executes all its community outreach programmes keeping in mind the following:

- Ensuring environmental sustainability & promoting its education;
- Education, employment, enhancing vocational skills and livelihoods;
- Promoting preventive health care; and
- Promotion of arts & culture.

CSR Statutory Projects

The cause of environment conservation for today and future generations is at the heart of the Company's operations,

as it acknowledges the importance of environmental sustainability in ensuring business continuity.

Ensuring Environmental sustainability & promoting its education

The Company undertakes initiatives such as tree plantation through employee volunteers and partners/NGOs across India under its community outreach programme. The programme is centred around the concept of ensuring environmental sustainability. The Company planted about 55322 and conducted awareness sessions amongst school/college students and citizens for emphasising the importance of restoring and protecting mangroves in the wetlands of Mumbai city, in partnership with a Mumbai-based organisation. The Company also works towards promoting long-term sustainable organic farming model as a part of its CSR initiative. Further, the Company distributed tree saplings to farmers for planting in their waste-lands. Such initiatives are directed towards creating livelihood options with sustainable source of income for the poor tribal families. It also helps to further the cause of improving the ecological balance in the areas and to increase the forest cover which in turn will result in adequate rainfall.

The Company is working towards zero-waste initiatives within the organisation so as to further the cause of a cleaner and greener India, through waste segregation and disposal. The Company also works for solid waste management in association with the NGO. The municipal solid waste is successfully converted into near zero-waste by working on waste segregation, composting and safe disposal. For this, the Company works with local bodies at ward level, through 75 identified educational institutes, housing societies, hotels and hospitals.

Promotion of Art & Culture

Preservation of Indian Art and Culture is another interest area of the Company. In order to promote this, the Company has reached out to about 300 schools, involving 32000 students through an Art Foundation. About 93 scholarships shall be awarded for FY 2017-18.

Promotion of Preventive Health Care

The Company intends to assist in eradication of tobacco consumption from the society and for that purpose has initiated "Yes to Life, No to Tobacco" campaign. The Company conducts tobacco awareness and cessation programs with the support of various NGO partners and employee volunteering programs. The Company has identified and implemented district level tobacco control programme in schools of Yavatmal and Wardha districts through its partner organisation. Street plays and workshops were conducted to sensitise about 400000

children and more than 10000 teachers in Yavatmal and Wardha districts.

Promoting Education

The Company runs Shiksha-Vikas programme which is a three-year school and community development model in association with an identified NGO partner and employee volunteer programmes. Under this programme, the Company works to bridge the gap between the availability of resources and the deprived communities. Demonstrative models used in this programme are designed so as to be emulated by others in the regions of Maharashtra and across India. The programme aims to improve the lives of socio-economically disadvantaged children across the rural, urban schools in and around Mumbai. In the first phase, the programme was conducted in Mumbai region with a focus on 23 government aided and non-aided schools.

Employee Volunteering

The employees of the Company are constantly motivated to participate in CSR activities. The Company culture itself encourages employees to volunteer and contribute their time and resources for CSR activities on a continuous basis.

- In FY 2017-18, about 1374 activities were undertaken by the employees which included tree plantation, cleanliness drives, waste management activities, participation in running events and anti-tobacco awareness sessions on Pan India basis.
- With a total of 4518 volunteering days the Company achieved an average of 2.03 volunteering days per employee.
- Out of total 55322 trees planted by the Company, about 37451 trees were planted through employee volunteering.
- To sensitise different stakeholders such as students, retailers, vendors and communities, Tobacco Awareness Sessions were conducted across India
- About 642 employees participated in various running events to promote health and environment. The running events included Tata Mumbai Marathon, Airtel Delhi Half Marathon, Tata Steel 25K Kolkata, Pinkathon, Let's Run Raipur, TCS 10K Bengaluru and Wipro Chennai Marathon.

The Company won of the Silver Olive Crown Award for 'Creative Excellence in Communicating Sustainability' of the International Advertising Association (IAA) – India Chapter.

RISK & ADEQUACY OF INTERNAL CONTROLS

Risk Management

The Company has a Comprehensive Risk Management Policy and Framework in place to identify, evaluate and mitigate business risks to protect interests of its stakeholders. The Company's Risk Management framework focuses on ensuring that risks are identified on a timely basis and reasonably addressed.

The key business risks identified by the Company and their mitigation plans are as under:

(a) Business environment

The competitive environment in small appliances continues to be tough and to take care of that the Company has embarked on RREP to extend its demographics, offer value proposition to the customers and develop and further grow in consumer facing business.

ELCOMA has reduced warranty of LED products from 2 years to 1 year in October 2017, resulting in fluctuation in sales as retailers were pushing sales of old inventory with 2 years' warranty. Stock of LED with manufacturing dates prior to October 2017 is almost sold out and sales of LED have stabilised.

Reducing prices of LED continues to have impact on sales and profitability. The Company has initiated LED bulb manufacturing at Chakan plant to reduce procurement cost.

(b) GST

GST impact on sales of June and July 2017 was noticed due to approach of retail network to maintain lower stock at the time of switch-over to GST. Further, excise portion of tax, which was earlier part of cost and sales for most SKUs, has now become part of GST resulting in erosion of sales value by 8% to 10% of those SKUs. Order book for TLT was weak in Q1 and Q2 of FY 2017-18 as bid inquiry in market were weak due to inadequate clarity on GST. Sales and order book stabilised in Q3 and Q4 of FY 2017-18.

(c) E-Waste

Mercury content in CFL warrants adherence to e-waste rules. The Company will focus more on LED manufacturing and sales, CFL bulbs will be purchased from e-waste compliant manufacturers.

(c) Hiring and retention risk

The Company has been continuously working on retaining the best talent in the industry to work with,

but it is a constant challenge to retain good talent. There is an imminent short-term risk from new entrants and existing domestic players to hire talent from our Company. The Company's human resource agenda focuses mainly on building a robust and diverse talent pipeline by hiring fresh management graduates to cater to various businesses and functions, enhancing individual and organisational capabilities for future readiness, driving greater employee engagement and strengthening employee relations. The Company has also taken a number of employee initiatives like benchmarking compensation structure with the industry, stock options, innovative management training programmes, job rotations, and quarterly/half yearly/annual recognitions, development programmes to retain and grow talent.

(d) Occupational health and safety risk

Safety of employees and workers is of utmost importance to the Company. To reinforce the safety culture in the Company, it has identified occupational health & safety as one of its focus areas. Various training programmes have been conducted at the plants and project sites such as behaviour-based safety training programme, safety leadership program, logistics safety program, etc.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

Commensurate with the size, scale and complexity of its operations, the Company has well defined and adequate internal controls. Throughout the year, the internal controls were operating effectively. To test the robustness of these controls and to cover all business units, offices, factories and key areas of business, the Company had appointed an external consultant as an Internal Auditor. External consultant (Internal Auditor) and the statutory auditor, evaluate the design, adequacy and operating effectiveness of the Internal Financial Controls of the Company. The controls are designed in such a manner that they are broadly in accordance with the criteria established under the Companies Act, 2013 and Guidance Note issued by the Institute of Chartered Accountants of India.

The Company has documented Standard Operating Procedures (SOP) and risk registers, encompassing process flow, key risks and key controls for all business units and functions. SOP and risk registers in turn are evaluated and appropriate amendments are made by business depending on the changes in process workflow and controls. The external consultant (Internal Auditor) on review of the internal financial controls did not identify any

significant control weakness. All the non-significant control weaknesses identified have been discussed with process owner. Remedial action has been taken or agreed upon, to eliminate the weaknesses in a time bound manner. Adequate manual controls have been deployed where control weaknesses have been identified due to system limitation in IT application.

The external consultant (Internal Auditor) conducts internal audits for the areas that are agreed with the Management and Audit Committee. The Audit Committee finalises the scope of internal audit. The audits executed by external consultant (Internal Auditor) are monitored by the Internal Audit function. It is ensured that internal audit and IFC reviews are conducted objectively. Also, it is ensured that reviews evaluate the efficacy and adequacy of internal control system in the Company, its compliance with operating systems and procedures, accounting procedures and policies of the Company. The internal audit function reports to the Chairman & Managing Director of the Company and the Chairman of the Audit Committee of the Board so as to maintain its objectivity and independence.

The process owners undertake corrective action in their respective areas within agreed timelines for significant risks identified in the reports issued by Internal Auditors. This helps to improvise and strengthen the controls. On a quarterly basis, significant audit observations and corrective actions thereon are presented to the Audit Committee of the Board.

HUMAN RESOURCES

The Company believes that human resources are the most critical element responsible for the growth of the Company. Employee satisfaction being the Company's top priority, it strives relentlessly to attract right talent and nurture them to deliver superior performance.

Through continuous infusion of young talent with bright ideas into its workforce, the Company has managed to stay young even with eight decades of rich experience. Innovation is one of its core values. Online Assessment has enabled the Company to further strengthen its Campus Hiring Programme. The Company also undertakes lateral hires, including niche profiles. The Company introduced the Buddy Programme to enhance effectiveness of its induction programmes. This initiative helped the new hires to deliver their best in their respective roles at a very early stage.

The Company revamped its Performance Management Process with the introduction of quarterly feedback mechanism. This has enabled timely course corrections

in case of any deviations. The periodic and frequent feedbacks have improved the timeliness of deliverables and efficiency at work.

The Company initiated a variety of programmes like 'Sukarak', 'Pygmalion', 'Pragyan' in the year under review to further the cause of learning & development which is an integral part of its work culture. 'Sukarak' program is aimed at developing in-house trainers who in turn are enabled to deliver various behavioral training programmes to employees across locations. This initiative reinforces the culture of learning and knowledge-sharing among the employees.

Based on the training needs captured in the Performance Management System employees are nominated for various internal and external training programmes.

Based on rigorous assessment of employees within the Company's Competency Framework, the second batch of the 'Pygmalion' programme was launched. It mainly focused at creating learning interventions for selected high-potential individuals to motivate them. The programme infused aspiration in other employees to be a part of this elite group in the organisation.

The Company endeavours to recognise and reward its loyal employees who persistently contribute to the organisation over the years. During the year under review, as a part of the Long Service Awards Program, the Company rewarded employees who completed 5 and 10 years in the organisation.

The Company consistently upgrades its internal processes and policies with changing times to make them more employee-friendly. This is amply reflected in the fact that the Company has revised several policies such as Domestic Travel Policy, Recognise & Reward Policy, Notice Period Policy, Working Hours & Leave Policy and Maternity Leave Policy as per the amendment in Maternity Benefit Act. The Company has also undertaken a host of initiatives to make the workplace more comfortable for its women employees.

The Company has constituted Internal Complaints Committee to prevent, prohibit and ensure redressal of sexual harassment of women at workplace. This Committee ensures strict adherence of law and does quarterly review of the same. FY 2017-18 did not witness any sexual harassment complaints.

The Company continues to strive to facilitate employee & organisation development and aims to leverage these initiatives in the coming financial year.

As on March 31, 2018, the Company had 3022 permanent the employees on its rolls. The Board places on record its sincere appreciation for the valuable contribution made by employees across all levels. The Company attributes its success to the enthusiasm, team efforts, devotion and sense of belonging displayed by its talent pool.

CORPORATE SECURITY & ADMINISTRATION

To compete at global level and inspire confidence in the organisation, the Company needs to provide a secure and safe working environment to its employees, which are the contributing factors to its organisational growth. The CSA department was formed in 2017-18, to herald a cultural change in terms of inculcating discipline, process implementation and to plug leakages in security cum administration by streamlining process like access control, asset protection, risk mitigation, disaster management, fire and electrical safety, surveillance grid, loss prevention, travel management, space management, employee engagement etc.

The Company has established Global Surveillance Operational Centre, which has integrated physical

security with technology, increasing overall efficacy and reduced risk. The Company's security and administration was also brought under one umbrella, thereby relieving operations to focus on their core business activity. This enabled recruiting and leveraging CSA SMEs for effective end-to-end security and administration across India — in HO, Branches, Warehouses and at Project sites.

CAUTIONARY STATEMENT

Statements in the report on Management Discussion & Analysis describing the Company's objectives, expectations or forecasts may be forward-looking within the meaning of applicable securities laws and regulations. Actual results may differ materially from those expressed in the report. Important factors that could influence the Company's operations include demand and supply conditions affecting selling of prices of finished goods, input availability and rates, changes in the government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF BAJAJ ELECTRICALS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Bajaj Electricals Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established

by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements

for the year ended March 31, 2018

NOTE : 1

1A GENERAL INFORMATION.

Bajaj Electricals Limited ('the Company') is an existing public limited company incorporated on July 14, 1938 under the provisions of the Indian Companies Act, 1913 and deemed to exist within the purview of the Companies Act, 2013, having its registered office at 45/47, Veer Nariman Road, Mumbai-400 001. The Company deals in Consumer Segments (CP) (which includes appliances, fan and consumer lighting products). The Company also deals in Engineering and projects (EPC) (which includes supply and erection of transmission line towers, telecommunication towers, high masts, poles, special projects including rural electrification projects and luminaires. The equity shares of the Company are listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE"). The financial statements are presented in Indian Rupee (₹).

The financial statements are approved for issue by the Company's Board of Directors on May 23, 2018

1B SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented.

1 Basis of preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") and other relevant provisions of the Act.

The financial statements are prepared under the historical cost convention except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value;
- assets held for sale which are measured at lower of carrying value and fair value less cost to sell;
- defined benefit plans where plan assets are measured at fair value; and

- share-based payments at fair value as on the grant date of options given to employees.

Estimates, judgements and assumptions used in the preparation of the financial statements and disclosures are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements, which may differ from the actual results at a subsequent date. The critical estimates, judgements and assumptions are presented in Note no. 1D.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. An operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company has identified twelve months as its operating cycle.

2 Revenue recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Based on the Educational Material on Ind AS 18 issued by the ICAI, the Company has assumed that recovery of excise duty flows to the Company on its own account. This is because it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the Company on its own account, revenue includes excise duty. However, sales tax/ value added tax (VAT) / Goods and Service Tax (GST) is not received

by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

(1) Sale of products:

- (a) Domestic sales are recognised when significant risks and rewards of ownership of goods are transferred to the buyer, usually on delivery of goods.
- (b) Export sales are recognised when significant risks and rewards of ownership of the goods are transferred to the buyer, usually on the date of ship on board.

Revenue from sale of goods is measured net of returns and allowances, trade discounts and volume rebates.

- (2)** Revenue from construction contracts is recognised based on the stage of completion determined with reference to the costs incurred on contracts and their estimated total costs. Provision for foreseeable losses/ construction contingencies on said contracts is made on the basis of technical assessments of costs to be incurred and revenue to be accounted for.

Contract revenue earned in excess of billing has been reflected as 'Amounts due from customers for contract work' under 'Other current assets' and billings in excess of contract revenue earned is reflected as 'Gross amount due to customer for contract work' under 'Other current liabilities'.

3 Other income:

- (1)** Interest income on financial asset is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the

Company estimates the expected cash flows by considering all the contractual terms of the financial instruments.

(2) Others:

The Company recognises other income (including rent, income from sale of power generated, income from scrap sales, income from claims received, etc.) on accrual basis. However, where the ultimate collection of the same is uncertain, revenue recognition is postponed to the extent of uncertainty.

4 Property, plant and equipment :

A) Asset class:

- i) Freehold land is carried at historical cost including expenditure that is directly attributable to the acquisition of the land.
- ii) All other items of property, plant and equipment (including capital work in progress) are stated at historical cost less accumulated depreciation and impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.
- iii) Capital goods manufactured by the Company for its own use are carried at their cost of production (including duties and other levies, if any) less accumulated depreciation and impairment losses if any.
- iv) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit or loss during the year in which they are incurred.
- v) Losses arising from the retirement of, and gains or losses arising from disposal of property, plant and equipments which are carried at cost are recognised in the statement of profit and loss.

B) Depreciation:

- i) Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives. Premium of Leasehold land and leasehold improvements cost are amortised over the primary period of lease.
- ii) 100% depreciation is provided in the month of addition for:
 - a) All additions to property, plant and equipment costing ₹ 5,000 or less and
 - b) Temporary structure cost at project site
- iii) Where a significant component (in terms of cost) of an asset has an economic useful life different than that of its corresponding asset, the component is depreciated over its estimated useful life.
- iv) The Company, based on internal technical assessments and management estimates, depreciates certain items of property, plant & equipment over the estimated useful lives and considering residual value which are different from the one prescribed in Schedule II of the Companies Act, 2013. The management believes that these estimated useful lives and residual values are realistic and reflect fair approximation of the period over which the assets are likely to be used.
- v) Useful life of asset is as given below:

Asset block	Useful Lives (in years)
Leasehold Land	Over the period of the lease
Building - Office	5 to 70
Building - Factory	2 to 30
Ownership Premises	60
Plant & Machinery	2 to 20
Furniture & Fixtures	1 to 15
Electric Installations	6 to 8
Office Equipment	2 to 10
Vehicles	8 to 10
Dies & Jigs	1 to 10
Leasehold Improvements	2 to 10
Roads & Borewell	3 to 21
IT hardware	2 to 10
Laboratory equipments	5 to 10

- vi) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

5 Intangible assets:

An intangible asset shall be recognised if, and only if:

- (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company; and
- (b) the cost of the asset can be measured reliably.

Intangible assets are stated at cost less accumulated amortisation and impairment. Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use.

Asset class & depreciation:

Computer softwares / licenses are carried at historical cost. They have an expected finite useful life of 3 years and are carried at cost less accumulated amortisation and impairment losses. Computer licenses which are purchased on annual subscription basis are expensed off in the year of purchase.

Trademarks are carried at historical cost. They have an registered finite useful life of 10 years and are carried at cost less accumulated amortisation and impairment losses.

6 Impairment of non-financial assets:

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is impaired when the carrying amount of the asset exceeds the recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Impairment loss is charged to the Statement of Profit and Loss Account in the year in which an asset is identified as impaired. An impairment loss recognised in the prior accounting periods is reversed if there has been change in the estimate of the recoverable amount.

7 Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I. Financial Assets

A) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

B) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

- Debt instruments at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- Debt instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then

all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

C) *Derecognition*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset

is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

D) *Impairment of financial assets*

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

II. **Financial Liabilities**

A) *Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

B) *Subsequent measurement*

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless

they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

- Loans and Borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

- Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the contractual payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

C) *De-recognition*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

III. **Reclassification of financial assets / liabilities**

After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations.

IV. **Offsetting of financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of Company or the counterparty.

V. Derivatives and hedging activities

The company enters derivatives like forward contracts to hedge its foreign currency risks. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently marked to market at the end of each reporting period with profit/loss being recognised in statement of profit and loss. Derivative assets/liabilities are classified under “other financial assets/other financial liabilities”. Profits and losses arising from cancellation of contracts are recognised in the statement of profit and loss.

8. Fair value measurements:

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

9. Cash and cash equivalents:

Cash and cash equivalents in the balance sheet and for the purpose of the statement of cash flows, include cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

10. Inventories:

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the weighted average basis. Net realisable value is the estimated

selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

11. Foreign currency transactions:

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian Rupee (₹), which is the Company's functional and presentation currency.

- a) On initial recognition, all foreign currency transactions are recorded at the functional currency spot rate at the date the transaction first qualifies for recognition.
- b) Monetary assets and liabilities in foreign currency outstanding at the close of reporting date are translated at the functional currency spot rates of exchange at the reporting date.
- c) Exchange differences arising on settlement of translation of monetary items are recognised in the Statement of Profit and Loss.

12. Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for the jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and unabsorbed depreciation.

Current and deferred tax is recognised in the Statement of Profit and Loss except to the extent it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised in equity or other comprehensive income.

A. Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Company establishes provisions, wherever appropriate, on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities.

B. Deferred tax

Deferred tax is provided using the liability method, on temporary differences arising between the tax

bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to reflect changes in probability that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

13. Operating leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is (or contains) a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to the ownership to the Company are classified as a finance lease. Payments made under operating leases are charged to the Statement of Profit & Loss on a straight line basis over the period of the lease.

As a lessor

The Company has leased certain tangible assets and such leases where the Company has not substantially transferred all the risks and rewards of ownership are classified as operating leases. Lease income on such operating leases are recognised in the Statement of Profit & Loss on a straight line basis over the lease term which is representative of the time pattern in which benefit derived from the use of

the leased asset is diminished. Initial direct costs are recognised as an expense in the Statement of Profit and Loss in the period in which they are incurred.

14. Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs also include exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to interest costs. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

15. Provisions, contingent liabilities and contingent assets

A. Provisions

A provision is recognised if

- the Company has present legal or constructive obligation as a result of an event in the past;
- it is probable that an outflow of resources will be required to settle the obligation; and
- the amount of the obligation has been reliably estimated.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provision for warranty related costs are recognised when the product is sold to the customer. Initial recognition is based on historical experience. The estimate of warranty related costs is revised annually.

B. Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

C. Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset is not recognised but disclosed where an inflow of economic benefit is probable.

16. Employee benefits

A. Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in the same period in which the employees renders the related service and are measured at the amounts expected to be paid when the liabilities are settled.

B. Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the statement of profit or loss.

C. Post-employment obligations

The company operates the following post-employment schemes

- (a) defined benefit plans - gratuity and obligation towards shortfall of Provident Fund Trusts
- (b) defined contribution plans - Provident fund (RPFC Contributions), superannuation and pension

Defined benefit plans :

The liability or asset recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets excluding non-qualifying asset (reimbursement right). The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Insurance policy held by the company from insurers who are related parties are not qualifying insurance policies and hence the right to reimbursement is recognised as a separate assets under other non-current and/or current assets as the case may be.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans :

In respect of certain employees, the Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once

the contributions have been paid. Such contributions are accounted for as employee benefit expense when they are due. Defined contribution to superannuation fund is being made to Life Insurance Corporation of India (LIC) as per the scheme of the Company. Defined contribution to Employees Pension Scheme 1995 is made to Government Provident Fund Authority whereas the contributions for National Pension Scheme is made to Stock Holding Corporation of India Limited

D. Employee stock option scheme

The Company operates a number of equity settled, employee share based compensation plans, under which the Company receives services from employees as consideration for equity shares of the Company.

The fair value of the employee services received in exchange for the grant of the options is determined by reference to the fair value of the options as at the Grant Date and is recognised as an 'employee benefits expense' with a corresponding increase in equity. The total expense is recognised over the vesting period which is the period over which the applicable vesting condition is to be satisfied. The total amount to be expensed is determined by reference to the fair value of the options granted excluding the impact of any service vesting conditions.

At the end of each year, the entity revises its estimates of the number of options that are expected to vest based on the service vesting conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

If at any point of time after the vesting of the share options, the right to the same expires (either by virtue of lapse of the exercise period or the employee leaving the Company), the fair value of the options accruing in favour of the said employee are written back to the General Reserve in the reporting period in which the right expires.

17. Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the

segment and assess its performance and for which discrete financial information is available.

Operating segments often exhibit similar long-term financial performance if they have similar economic characteristics. Two or more operating segments are aggregated by the Company into a single operating segment if aggregation is consistent with the core principle of Ind AS 108, the segments have similar economic characteristics, and the segments are similar in aspects as defined by Ind AS.

The Company reports separately, information about an operating segment that meets any of quantitative thresholds as defined by Ind AS. Operating segments that do not meet any of the quantitative thresholds, are considered reportable and separately disclosed, only if management of the Company believes that information about the segment would be useful to users of the financial statements

Information about other business activities and operating segments that are not reportable separately are combined and disclosed in an 'all other segments' category

18. Dividends

Provision is made for the amount of any final dividend declared, being appropriately authorised in Annual General Meeting and no longer at the discretion of the Company. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

19. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period. The weighted average number equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20. All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh (upto two decimals) as per the requirement of Schedule III, unless otherwise stated

1C ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

Issue of Ind AS 115 - Revenue from Contracts with Customers

Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 on March 28, 2018, which has notified the following new Ind AS 115 – Revenue from Contracts with Customers accounting standard and is applicable for accounting periods commencing on or after April 01, 2018

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 Revenue, Ind AS 11 Construction Contracts when it becomes effective. The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligation in contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 April 2018.

The Company is in the process of evaluating the impact of the same on the financial statements.

Amendments to Ind AS 112 - Disclosure of Interests in Other Entities

The amendments clarify that the disclosure requirements in Ind AS 112, other than those in paragraphs B10–B16, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

The requirements of the amendment have no impact on the financial statements as there are no subsidiary, joint venture or an associate that has been classified as held for sale.

Amendments to Ind AS 12 Recognition of Deferred Tax Assets for Unrealised Losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

These amendments are effective for annual periods beginning on or after April 01, 2018. These amendments are not expected to have any material impact on the Company.

Transfers of Investment Property — Amendments to Ind AS 40

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

Entities should apply the amendments prospectively to changes in use that occur on or after the beginning of the annual reporting period in which the entity first applies the amendments. An entity should reassess the classification of property held at that date and, if applicable, reclassify property to reflect the conditions that exist at that date. Retrospective application in accordance with Ind AS 8 is only permitted if it is possible without the use of hindsight.

The amendments are effective for annual periods beginning on or after April 01, 2018. The Company does not have any investment property. Accordingly there is no impact.

Ind AS 28 Investments in Associates and Joint Ventures – Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice

The amendments clarify that:

- An entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss.
- If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised;

(b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

The amendments should be applied retrospectively and are effective from April 01, 2018. These amendments are not applicable to the Company.

Appendix B to Ind AS 21 Foreign Currency Transactions and Advance Consideration

The Appendix clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration.

Entities may apply the Appendix requirements on a fully retrospective basis. Alternatively, an entity may apply these requirements prospectively to all assets, expenses and income in its scope that are initially recognised on or after:

- (i) The beginning of the reporting period in which the entity first applies the Appendix, or
- (ii) The beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the Appendix.

The Appendix is effective for annual periods beginning on or after April 01, 2018. However, the Company does not expect any significant effect on its financial statements.

1D SUMMARY OF CRITICAL ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. The management also needs to exercise judgment in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and

assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included below.

1 Warranty provision

The Company generally offers 1 to 2 year warranties for its consumer products. Based on the evaluation of the past warranty trends, management has estimated that warranty costs for 25% of sales arises in the year of sale itself, warranty costs for 50% of the sales in Year 1 and the balance 25% in Year 2. Based on the same, the related provision for future warranty claims has been determined. The assumptions made in relation to serviceable sales and related warranty provision estimation for the current period are consistent with those in the prior years.

2 Impairment allowance for trade receivables

The Company makes allowances for doubtful accounts receivable using a simplified approach which is a dual policy of an ageing based provision and historical / anticipated customer experience. Management believes that this simplified model closely represents the expected credit loss model to be applied on financial assets as per Ind AS 109.

3 Project revenue and costs

Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. The percentage-of-completion method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Company re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

4 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements

include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/judgements about these factors could affect the reported fair value of financial instruments. Refer Note 34 of financial statements for the fair value disclosures.

5 Employee benefits

The cost of the defined benefit gratuity plan and other post-employment leave benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include

the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

The description of plans ability to affect the amount, timing and uncertainty of the entity's future cash flows**a) Funding arrangements and Funding Policy**

The scheme is managed on funded basis. Payment for present liability of future payment of gratuity is being made to approved gratuity fund, which fully covers the same under Cash Accumulation Policies of the Life Insurance Corporation of India (LIC) and Bajaj Allianz Life Insurance Company Ltd. (BALIC). Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

b) Expected Contribution during the next annual reporting period

Particulars	31-Mar-18	31-Mar-17
The Company's best estimate of Contribution during the next year	42,299,064	96,212,335

This has been calculated assuming that the employer's contribution next year shall increase by 5%.

c) Maturity Profile of Defined Benefit Obligation

Particulars	31-Mar-18	31-Mar-17
Weighted average duration (based on discounted cashflows)	5 years	5 years

Expected cash flows over the next (valued on undiscounted basis):	31-Mar-18	31-Mar-17
1 year	138,351,451	132,860,127
More than 1 and upto 2 years	57,454,545	63,085,641
More than 2 and upto 5 years	145,079,275	147,523,407
More than 5 and upto 10 years	177,708,215	171,114,629
More than 10 years	255,997,803	258,212,747

d) Asset Liability Matching Strategies

For gratuity, the Company has purchased insurance policy, which is basically a year-on-year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The insurance company, as part of the policy terms, makes payment of all gratuity outgoes happening during the year (subject to sufficiency of funds under the policy). The policy, thus, mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Company is exposed to movement in interest rate (in particular, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset)

B. Provident Fund (Defined Benefit Plan) :

Bajaj Electricals Limited operates in two schemes for the compliance of provident fund statute - (i) Bajaj Electricals Limited Employees' Provident Fund Trust & Matchwel Electricals (India) Ltd Employees' Provident Fund Trust (defined benefit plan) and (ii) RPFC Contributions for provident fund (defined contribution plan).

For exempt provident fund, the defined benefit obligation of the Company arises from the possibility that during anytime in the future, the scheme may earn insufficient investment income to meet the guaranteed interest rate declared by government / EPFO / relevant authorities.

The net defined benefit obligation as at the valuation date represents the excess of accumulated fund value (determined on actuarial basis) plus interest rate guaranteed liability over the fair value of plan assets or vice-a-versa

The benefit valued under PF obligation are summarised below:

Normal Retirement Age	58 Years *
Benefit on normal retirement	Accrued Account Value
Benefit on early retirement / termination / resignation / withdrawal	Accrued Account Value
Benefit on death in service	Accrued Account Value

* The standard retirement date for executive employees is June 30th of every year and the same is April 1st of every year for the staff employees.

A deterministic approach is considered to estimate the value of Interest Rate Guarantee on the Exempt Provident Fund. The per annum cost of guarantee at which Interest Rate Guarantee Liability has been valued is mentioned below

The company's compliances for provident fund is governed by Employees' Provident Fund and Miscellaneous Provisions Act, 1952. Responsibility for governance of the plans, including investment decisions and contribution schedules lies jointly with the company and the board of trustees. The board of trustees are composed of representatives of the company and plan participants in accordance with the plan's regulations

VI Method and Assumptions used to estimate the Fair Value of Options Granted during the year ended March 31, 2018 :

The fair value has been calculated using the Black Scholes Option Pricing model

The Assumptions used in the model are as follows:

	BAJAJ GROWTH 2007	ESOP 2011	ESOP 2015
Variables	Weighted Average	Weighted Average	Weighted Average
1. Risk Free Interest Rate	No options granted during the year	No options granted during the year	6.89%
2. Expected Life (in years)			4.15
3. Expected Volatility			37.22%
4. Dividend Yield			0.68%
5. Exercise Price (₹)			423.48
6. Price of the underlying share in market at the time of the option grant. (₹)			423.48

Method and Assumptions used to estimate the Fair Value of Options Granted during the year ended March 31, 2017 :

The fair value has been calculated using the Black Scholes Option Pricing model

The Assumptions used in the model are as follows:

	BAJAJ GROWTH 2007	ESOP 2011	ESOP 2015
Variables	Weighted Average	Weighted Average	Weighted Average
1. Risk Free Interest Rate	No options granted during the year	No options granted during the year	6.71%
2. Expected Life (in years)			4.15
3. Expected Volatility			37.37%
4. Dividend Yield			1.09%
5. Exercise Price (₹)			258.04
6. Price of the underlying share in market at the time of the option grant. (₹)			258.04

Assumptions:

Stock Price: Closing price on National Stock Exchange on the date of grant has been considered

Volatility: The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publically available information. The volatility is calculated considering the daily volatility of the stock prices on National Stock Exchange of India Ltd. (NSE), over a period prior to the date of grant corresponding with the expected life of the options.

Risk-free rate of return: The risk-free interest rate being considered for the calculation is the interest rate applicable for a maturity equal to the expected life of the options based on the zero-coupon yield curve for Government Securities

Exercise Price: Exercise Price of each specific grant has been considered.

Time to Maturity: Time to Maturity / Expected Life of options is the period for which the Company expects the options to be live.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for five financial years preceding the date of the grant

There have been no transfers between Level 1 and Level 2 during the period.

* Based on independent valuation performed by an external valuer, the equity value (enterprise value minus external debt) is negative. Accordingly, the investment has been fully impaired. Refer below for assumptions used

Significant unobservable inputs used in Level 3 fair values as at March 31, 2018

Particulars	Significant Unobservable Inputs	Sensitivity
Investments (Preference shares of Starlite Lighting Limited)	Discount rate - Scenario 1 – 12% - Scenario 2 – 16% - Scenario 3 – 20% Average of scenario 1-3 is considered for valuation	The Company has reduced the fair value of investments in preference shares in Starlite Lighting Limited and impaired fully the equity instruments since the enterprise value less external debt is negative.
Investments (Equity shares of Starlite Lighting Limited)	Discount rate – 18.16% Terminal value growth rate – 3%	1% increase in discount rate will decrease fair value by ₹ 753.00 lakh. 1% decrease in discount rate will increase the fair value by ₹ 853.80 lakh. 1% increase in terminal value growth rate will increase fair value by ₹ 191.80 lakh. 1% decrease in terminal value growth rate will decrease the fair value by ₹ 168.00 lakh.

All other current financial assets and current financial liabilities have fair values that approximate to their carrying amounts due to their short term nature. Further all other non-current financial assets and non-current financial liabilities have fair values that approximates to their carrying amounts as it is based on the net present value of the anticipated future cash flows.

NOTE 35 : FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities comprise of borrowings, trade and other payables, channel financing liability and financial guarantee contracts. The main purpose of these financial liabilities is to finance the entity's operations and to provide guarantees to support its operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations. The Company also holds investments (measured at FVTPL and amortised cost) and enters into derivative transactions (other than for speculative purposes).

The risk management committee of the Company lays down appropriate policies and procedures to ensure that financial risks are identified, measured and managed in accordance with the entity's policies and risk objectives.

The Company is exposed to credit risk, liquidity risk and market risk, which are explained in detail below :

(A) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations. Credit risk encompasses the direct risk of default, the risk of deterioration of creditworthiness as well as concentration risks. The Company is exposed to credit risk from its operating activities mainly in relation to trade and other receivables and bank deposits. Further, the Company is also exposed to credit risk arising from its loans, advances and investment in preference shares of its affiliate companies.

Trade and other receivables

Trade and other receivables of the Company are typically unsecured and credit risk is managed through credit approvals and periodical monitoring of the creditworthiness of customers to which the Company grants credit terms. In respect of trade receivables, the Company typically operates in two segments:

Consumer products

The company sells the consumer products mainly through three channels i.e. dealers and distributors, institutions and e-commerce and through government sector. The appointment of dealers, distributors, institutions is strictly driven as per the standard operating procedures and credit policy followed by the company. In case of government sector, the credit risk is low.

Engineering and projects

The Company undertake projects for government institutions (including local bodies) and private institutional customers. The credit concentration is more towards government institutions. These projects are normally of long term duration of two to three years. Such projects normally are regular tender business with the terms and conditions agreed as per the tender. These projects are fully funded by the government of India through Rural Electrification Corporation, Power Finance Corporation, and Asian Development Bank etc. The Company enters into such projects after careful consideration of strategy, terms of payment, past experience etc.

In case of private institutional customers, before tendering for the projects company evaluate the creditworthiness, general feedback about the customer in the market, past experience, if any with customer, and accordingly negotiates the terms and conditions with the customer.

The company assesses its trade and other receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in profit or loss, the company makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from such trade and other receivables. In respect of trade receivables the Company has a provisioning policy that is commensurate to the expected losses. The provisioning policy is based on past experience, customer creditability, and also on the nature and specifics of business especially in the engineering and projects division. In case of engineering projects, the Company also provides on more case-to-case basis, since they are large projects in individuality.

The maximum exposure to credit risk as at March 31, 2018 and March 31, 2017 is the carrying value of such trade and other receivables as shown in note 5, 7 and 12 of the financials.

Reconciliation of impairment allowance on trade and other receivables		(₹ in lakh)
Particulars		Amount
Impairment allowance on March 31, 2017		15,507.41
Created during the year		5,318.76
Reversed during the year		(3,399.95)
Impairment allowance on March 31, 2018		17,466.22

Bank deposits

The company maintains its cash and bank balances with credit worthy banks and financial institutions and reviews it on an on-going basis. Moreover, the interest-bearing deposits are with banks and financial institutions of reputation, good past track record and high-quality credit rating. Hence, the credit risk is assessed to be low. The maximum exposure to credit risk as at March 31, 2018 and March 31, 2017 is the carrying value of such cash and cash equivalents and deposits with banks as shown in note 11 of the financials.

Loans, advances and investments in preference shares with affiliate companies

The Company has given loans and advances to its affiliate companies (Starlite Lighting Limited and Hind Lamps Limited). Further, the Company also has made strategic investments (equity and preference investments) in these entities. All such loans / advances / investments and their respective terms and conditions are duly approved by the Board of Directors of the Company. These entities also act as a strategic source of product supply to the Company.

The exposure on these loans / advances / investments are reviewed on regular basis for their recoverability on the basis of their business plan, future profitability, cash flow projections, market value of the assets, etc. Such assessment is performed by the management through an independent external valuer based on which any expected credit losses are provided for in the books.

As on the date of reporting, the Company does not have any expected credit loss on its loans / advances / investments in Hind Lamps Limited except for those provided in the books, based on the asset valuation done by the external valuer. In respect of Starlite Lighting Limited, the Company has fully impaired its exposure as at March 31, 2018 in its financial statements (Refer Note 43).

(B) Liquidity risk

The company has a central treasury department, which is responsible for maintaining adequate liquidity in the system to fund business growth, capital expenditures, as also ensure the repayment of financial liabilities. The department obtains business plans from business units including the capex budget, which is then consolidated and borrowing requirements are ascertained in terms of Long term funds and short-term funds. Considering the peculiar nature of EPC business, which is very working capital intensive, treasury maintains flexibility in funding by maintaining availability under committed credit lines in the form of fund based and non-fund based (LC and BG) limits.

The limits sanctioned and utilised are then monitored monthly, fortnightly and daily basis to ensure that mismatches in cash flows are taken care of, all operational and financial commitments are honoured on time and there is proper movement of funds between the banks from cashflow and interest arbitrage perspective.

(i) Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting period

(₹ In lakh)

Particulars	31-Mar-18	31-Mar-17
Floating / Fixed Rate		
- Expiring within One year (Bank overdraft and other facilities)	237,581	212,894

Bank overdraft facilities are sanctioned for a period of one year which are then enhanced / renewed from time to time. Though the Bank overdrafts are repayable on demand as per the terms of sanction, these are usually renewed by all banks in normal circumstances. Hence Bank overdraft facilities are available for use throughout the year.

(ii) Maturities of financial liabilities

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

(C) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as commodity risk.

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The company operates in the global market and is therefore exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar ('USD'), Euro ('EUR'), Great Britain Pound ('GBP'), Chinese Yuan Renminbi ('RMB') and United Arab Emirates Dirham ('AED'). Apart from exports receivables and Imports payables arising out of trade in the normal course of business, the company also has foreign exchange exposures in terms of buyer's credit, packing credit, foreign currency term loans, etc. As these commercial transactions are recorded in currency other than the functional currency (₹), the company is exposed to Foreign Exchange risk arising from future commercial transactions and recognised assets and liabilities. The company is a net importer as its imports and other forex liabilities exceeds the exports. It ascertains its forex exposure and bifurcates the same into forex receivables and payables. The export collections are received in EEFC account, which provides some natural hedge. Other exposures are covered by taking appropriate forward cover from the banks.

The company has a forex policy, which is duly approved by the Board of Directors. All forex hedging is done as per the said approved forex policy. The company has also taken Board approval for authorising certain company officials for entering into hedge transactions. The forex policy is flexible in terms of the hedging the overall forex exposure, as also the instrument to be used for hedging. The company takes a forward cover for the period which matches the maturity date of the forex liability which is proposed to be hedged. On maturity date, the forward contracts are utilised for settlement of the underlying transactions.

(a) Foreign currency risk exposure:

The Company's exposure to foreign currency risk at the end of the reporting period expressed in ₹, are as follows :

Further, the Company has open foreign exchange forward contracts amounting to USD 123.64 lakh (March 31, 2017 - USD 82.42 lakh)

b) Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments is given below

(₹ In lakh)

Particulars	Impact on profit after tax & Equity	
	31-Mar-18	31-Mar-17
USD sensitivity		
₹ appreciates by 4%(March 31, 2017 - 5%)	628.48	419.77
₹ depreciated by 4%(March 31, 2017 - 5%)	(628.48)	(419.77)

The company also has an exposure in EUR, CAD, RMB, JPY and AUD, the impact of sensitivity of which is very negligible.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any long term borrowings except sales tax deferral loan which is interest free. Also in case of short term borrowings, the interest rate is fixed in a large number of cases and linked to the LIBOR in a few cases. Hence, interest rate risk is assessed to be low. Accordingly, the sensitivity / exposure to change in interest rate is insignificant

(iii) Price risk

In case of the consumer product business, the company manufactures LED bulbs and Tubes and small quantity of ceiling fans. All other products are procured from the vendors. The terms of payment with vendors is on cost plus basis. Hence, the price risk is assessed to be low.

The Company is also into EPC segment, wherein it takes turnkey contracts for transmission line towers, rural electrification, high masts and poles, street lighting, etc. This exposes the Company to commodity price risk for products such as copper, aluminium, plastic, steel, zinc etc. The company has contractual right to pass the commodity price risk to the customer, hence the price risk is assessed to be low.

NOTE 36 : CAPITAL MANAGEMENT

For the purpose of capital management, capital includes issued equity share capital, securities premium and all other equity reserves attributable to the equity shareholders.

The Company aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to its shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. Management considers the amount of capital in proportion to risk and manages the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders (buy-back) or issue new shares.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company

will take appropriate steps in order to maintain, or if necessary adjust, its capital structure. The management monitors the return on capital as well as the level of dividends to shareholders.

Consistent with others in the industry, the Company monitors capital on the basis of the following gearing ratio:

Total debt (total borrowings including current maturities of long term borrowings) divided by total equity (as shown in the balance sheet excluding debenture redemption reserve, capital reserve and capital redemption reserve)

The Company's strategy is to maintain a gearing ratio within 2 times. The Debt Equity ratio is as follows:

Particulars	31-Mar-18	31-Mar-17
Total debt	72,310.41	64,656.38
Total equity	94,329.31	84,504.01

vi. Sales Tax matters under dispute	5,068.27	6,475.17
vii. Uncalled liability in respect of partly paid Shares held as investments	7.20	7.20

viii. The Company's fluorescent and mercury containing lamps (CFL/FTL) fall within the purview of the E-waste (Management) Rules, 2016 (the "E-waste Rules") which has come in force with effect from October 01, 2016. Under the E-waste Rules the Company is responsible for collection and safe disposal of end-of life CFL/FTL in terms of Extended Producer Responsibility (EPR) obligation set out therein. In the 57th meeting of Technical Review Committee of Central Pollution Control Board ("CPCB"), the compliances and implementation of EPR Authorisation conditions including targets under the E-waste Rules for the existing producers of CFL/ FTL were deferred till May 01, 2017.

Electric Lamp and Component Manufacturers Association of India (ELCOMA), on behalf of all its members, has filed the Writ Petition (C) 5461 of 2016 ("Writ Petition") in the Hon'ble Delhi High Court challenging the inclusion of 'fluorescent and mercury containing lamps' under E-waste Rules. The Hon'ble Delhi High Court by its order dated September 28, 2016, directed the producers of CFL/FTL, to apply for EPR Authorisation without prejudice to their rights and contention in the said Writ Petition and the Company has accordingly submitted its application for the EPR Authorisation to CPCB.

However, in view of pendency of the Writ Petition, the financial obligations which may arise in the event of the Hon'ble High Court passing adverse order against ELCOMA and its member, is unascertainable at this point of time and hence the same is disclosed as contingent liability.

- ix. The Company has given guarantees / letter of comfort for all borrowings (long term / short term) taken by its joint venture, Starlite Lighting Limited (SLL). As at March 31, 2018, SLL is in breach of its loan covenants as per the terms of the loan agreements, resulting in the loans becoming payable on demand. However, as at the date of approval of these financial statements, the lenders of SLL have not called for the loan repayment. Further, the management of the Company has obtained loan covenant waiver from the lenders of SLL. Accordingly, the exposure in this regard is considered to be 'possible' and disclosed as contingent liability.
- x. These represent legal claims filed against the Company by various parties and these matters are in litigation. Management has assessed that in all these cases the outflow of resources embodying economic benefits is not probable.

b. Commitments

- i. Estimated amounts of contracts remaining to be executed in capital account (net of capital advances) is ₹ 501.95 lakh (March 31, 2017, ₹ 562.35 lakh).

c. Leases

The Company has entered into operating leases for certain warehouses / premises / vehicles, with lease term between 1 to 10 years. Some of the leases have the option to extend the lease for additional terms as per the agreements.

Lease rent recognised in statement of profit and loss is ₹ 4,589.67 lakh (March 31, 2017 – ₹ 4,399.11 lakh). There are no non-cancellable leases.

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Company including its Associate and Joint Venture in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Company and of its associate and joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and of its associate and joint venture and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered

Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their report referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statement and on the other financial information of the associate, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Company, its associate and joint venture as at March 31, 2018, their consolidated profit including other comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Other Matter

- (a) The consolidated Ind AS financial statements also include the Company's share of net loss of ₹ 519 lakh for the year ended March 31, 2018, as considered in the consolidated financial statements, in respect of an associate, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of this associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid associate, is based solely on the report of such other auditor.

- (b) The consolidated Ind AS financial statements of the Company for the year ended March 31, 2017, included in these consolidated Ind AS financial statements, have been audited by the predecessor auditor who expressed an modified opinion on those statements on May 29, 2017.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by section 143 (3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of associate and joint venture, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

- (a) We / the other auditors whose reports we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
- (c) The consolidated Balance Sheet, consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the consolidated Cash Flow Statement and consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its associate company and joint venture incorporated in India, none of the directors of the Company, its associate and joint venture incorporated in India is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements of the Company, its associate company and joint venture incorporated in India, refer to our separate report in "Annexure 1" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the associate and joint venture, as noted in the 'Other matter' paragraph:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Company, its associate and joint venture— Refer Note 40 to the consolidated Ind AS financial statements;
 - ii. Provision has been made in the consolidated Ind AS financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer (a) Note 43 to the consolidated Ind AS financial statements in respect of such items as it relates to the Company, its associate and joint venture and (b) the Company's share of net loss in respect of its associate;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company, its associate and joint venture incorporated in India during the year ended March 31, 2018.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF BAJAJ ELECTRICALS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Bajaj Electricals Limited as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of Bajaj Electricals Limited (hereinafter referred to as the "Holding Company"), its associate company and joint venture, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company, its associate company and joint venture, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on, "the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial

controls over financial reporting with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls over financial reporting with reference to these consolidated financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

A company's internal financial control over financial reporting with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on the report issued by other auditors on internal financial controls over financial reporting with reference to these consolidated financial statements in case of its joint venture, which are companies incorporated in India, the following material weakness have been identified as at March 31, 2018:

The Joint Venture did not have an appropriate internal financial control system over financial statement close process in relation to establishing processes for evaluation and determination of impairment of assets including tax assets, appropriate review of financial statements including application of accounting standards on non-routine transactions (sale and lease back of fixed assets) which could potentially result in the Joint Venture not recognising impairment of assets on a timely basis or incorrectly recognising or derecognising assets; resulting in restatement of financial statements.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the holding company's annual or interim consolidated financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria in respect of a joint venture, the Holding Company, its associate company and joint venture, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial over financial reporting with reference to these consolidated

financial statements and such internal financial controls over financial reporting with reference to these consolidated financial statements were operating effectively as at March 31, 2018, based on, the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated financial statements insofar as it relates to the associate company, which is company incorporated in India, is based on the corresponding reports of the auditor of such company incorporated in India.

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India as specified under section 143(10) of the Act, the consolidated financial statements of the Holding Company, which comprise the Consolidated Balance Sheet as at March 31, 2018, and the Consolidated Statement of Profit and Loss and Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information. These material weaknesses were considered in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2018 consolidated financial statements of the Holding Company and this report does not affect our report dated May 23, 2018, which expressed an unqualified opinion on those financial statements.

Notes to Consolidated Financial Statements

for the year ended March 31, 2018

NOTE : 1

1A GENERAL INFORMATION.

Bajaj Electricals Limited ('the Company') is an existing public limited company incorporated on July 14, 1938 under the provisions of the Indian Companies Act, 1913 and deemed to exist within the purview of the Companies Act, 2013, having its registered office at 45/47, Veer Nariman Road, Mumbai-400 001.

The Group deals in Consumer Segments (CP) (which includes appliances, fan and consumer lighting products). The Group also deals in Engineering and projects (EPC) (which includes supply and erection of transmission line towers, telecommunication towers, high masts, poles, special projects including rural electrification projects and luminaires. The equity shares of the Company are listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE"). The consolidated financial statements are presented in Indian Rupee (₹).

The consolidated financial statements are approved for issue by the Company's Board of Directors on May 23, 2018.

1B SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented.

1 Basis of preparation

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") and other relevant provisions of the Act.

The consolidated financial statements are prepared under the historical cost convention except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value;
- assets held for sale which are measured at lower of carrying value and fair value less cost to sell;
- defined benefit plans where plan assets are measured at fair value; and
- share-based payments at fair value as on the grant date of options given to employees.

Estimates, judgements and assumptions used in the preparation of the consolidated financial statements and disclosures are based upon management's evaluation of the relevant facts and circumstances as of the date of the consolidated financial statements, which may differ from the actual results at a subsequent date. The critical estimates, judgements and assumptions are presented in Note no. 1D.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle. An operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Group has identified twelve months as its operating cycle.

Basis of consolidation

The consolidated financial statements includes financial statements of Bajaj Electricals Limited and results of an associate and a joint venture, herein after referred to as 'the Group',

consolidated in accordance with Ind AS 28 - Investments in associate and joint venture and Ind AS 111 – Joint Arrangements

Name of the company	Country of incorporation	% shareholding of the Company	Consolidated as
Starlite Lighting Limited	India	47%	Joint Venture
Hind Lamps Limited	India	19%	Associate

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and other events in similar circumstances, appropriate adjustments are made to that Group member's financial

statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies. The financial statement of all entities used for the purpose of consolidation are drawn upto same reporting date as that of the parent company i.e year ended 31st March .

An associate is an entity in which the group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the group has joint control and has right to the net assets of the arrangement, rather than the right to its assets and obligations for its liabilities.

Interest in associate and joint ventures are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition the consolidated financial statements include the groups share of profit and loss and OCI of equity accounted investee until the date on which significant influence or joint control ceases

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

2 Revenue recognition :

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the

fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Based on the Educational Material on Ind AS 18 issued by the ICAI, the Group has assumed that recovery of excise duty flows to the Group on its own account. This is because it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the Group on its own account, revenue includes excise duty. However, sales tax/ value added tax (VAT) / Goods and Service Tax (GST) is not received by the Group on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

(1) Sale of products:

(a) Domestic sales are recognised when significant risks and rewards of ownership of goods are transferred to the buyer, usually on delivery of goods.

(b) Export sales are recognised when significant risks and rewards of ownership of the goods are transferred to the buyer, usually on the date of ship on board.

Revenue from sale of goods is measured net of returns and allowances, trade discounts and volume rebates.

(2) Revenue from construction contracts is recognised based on the stage of completion determined with reference to the costs incurred on contracts and their estimated total costs. Provision for foreseeable losses/ construction contingencies on said contracts is made on the basis of technical assessments of costs to be incurred and revenue to be accounted for.

Contract revenue earned in excess of billing has been reflected as 'Amounts due from customers for contract work' under 'Other current assets' and billings in excess of contract revenue earned is reflected as 'Gross amount due to customer for contract work' under 'Other current liabilities'.

3 Other income:

(1) Interest income on financial asset is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instruments.

(2) Others:

The Group recognises other income (including rent, income from sale of power generated, income from scrap sales, income from claims received, etc.) on accrual basis. However, where the ultimate collection of the same is uncertain, revenue recognition is postponed to the extent of uncertainty.

4 Property, plant and equipment :

A) Asset class:

i) Freehold land is carried at historical cost including expenditure that is directly attributable to the acquisition of the land.

ii) All other items of property, plant and equipment (including capital work in progress) are stated at historical cost less accumulated depreciation and impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

iii) Capital goods manufactured by the Group for its own use are carried at their cost of production (including duties and other levies, if any) less accumulated depreciation and impairment losses if any.

iv) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate,

only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the consolidated statement of profit and loss during the year in which they are incurred.

- v) Losses arising from the retirement of, and gains or losses arising from disposal of property, plant and equipments which are carried at cost are recognised in the consolidated statement of profit and loss.

B) Depreciation:

- i) Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives. Premium of Leasehold land and leasehold improvements cost are amortised over the primary period of lease.
- ii) 100% depreciation is provided in the month of addition for:
 - a) All additions to property, plant and equipment costing ₹ 5,000 or less and
 - b) Temporary structure cost at project site
- iii) Where a significant component (in terms of cost) of an asset has an economic useful life different than that of its corresponding asset, the component is depreciated over its estimated useful life.
- iv) The Group, based on internal technical assessments and management estimates, depreciates certain items of property, plant & equipment over the estimated useful lives and considering residual value which are different from the one prescribed in Schedule II of the Companies Act, 2013. The management believes that these estimated useful lives and residual values are realistic and reflect fair approximation of the period over which the assets are likely to be used.

v) Useful life of asset is as given below:

Asset block	Useful Lives (in years)
Leasehold Land	Over the period of the lease
Building - Office	5 to 70
Building - Factory	2 to 30
Ownership Premises	60
Plant & Machinery	2 to 20
Furniture & Fixtures	1 to 15
Electric Installations	6 to 8
Office Equipment	2 to 10
Vehicles	8 to 10
Dies & Jigs	1 to 10
Leasehold Improvements	2 to 10
Roads & Borewell	3 to 21
IT hardware	2 to 10
Laboratory Equipment	5 to 10

- vi) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

5 Intangible assets:

An intangible asset shall be recognised if, and only if:

- (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group; and
 - (b) the cost of the asset can be measured reliably.
- Intangible assets are stated at cost less accumulated amortisation and impairment. Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use.

Asset class & depreciation:

Computer softwares / licenses are carried at historical cost. They have an expected finite useful life of 3 years and are carried at cost less accumulated amortisation and impairment losses. Computer licenses which are purchased on annual subscription basis are expensed off in the year of purchase.

Trademarks are carried at historical cost. They have an registered finite useful life of 10 years and are carried at cost less accumulated amortisation and impairment losses.

6 Impairment of non-financial assets:

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is impaired when the carrying amount of the asset exceeds the recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Impairment loss is charged to the Statement of Profit and Loss Account in the year in which an asset is identified as impaired. An impairment loss recognised in the prior accounting periods is reversed if there has been change in the estimate of the recoverable amount.

7 Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I. Financial Assets

A) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

B) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently

measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the consolidated statement of profit and loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

- Debt instruments at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to consolidated statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- Debt instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments

included within the FVTPL category are measured at fair value with all changes recognised in the consolidated statement of profit and loss.

- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

C) *Derecognition*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the consolidated balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all

the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

D) *Impairment of financial assets*

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

II. **Financial Liabilities**

A) *Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

B) *Subsequent measurement*

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in consolidated statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the consolidated statement of profit or loss.

- Loans and Borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the consolidated statement of profit and loss.

- Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the contractual payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

C) *De-recognition*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit or loss.

III. **Reclassification of financial assets / liabilities**

After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management

determines change in the business model as a result of external or internal changes which are significant to the Group's operations.

IV. Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of Group or the counterparty.

V. Derivatives and hedging activities

The Group enters derivatives like forward contracts to hedge its foreign currency risks. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently marked to market at the end of each reporting period with profit/loss being recognised in consolidated statement of profit and loss. Derivative assets/liabilities are classified under "other financial assets/other financial liabilities". Profits and losses arising from cancellation of contracts are recognised in the consolidated statement of profit and loss.

8. Fair value measurements:

The Group measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its

highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

9. Cash and cash equivalents:

Cash and cash equivalents in the consolidated balance sheet and for the purpose of the consolidated statement of cash flows, include cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

10. Inventories:

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

11. Foreign currency transactions:

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates ('the functional currency'). The consolidated financial statements are presented in Indian Rupee (₹), which is the Group's functional and presentation currency.

- a) On initial recognition, all foreign currency transactions are recorded at the functional currency spot rate at the date the transaction first qualifies for recognition.
- b) Monetary assets and liabilities in foreign currency outstanding at the close of reporting date are translated at the functional currency spot rates of exchange at the reporting date.
- c) Exchange differences arising on settlement of translation of monetary items are recognised in the Consolidated statement of profit and loss.

12. Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for the jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and unabsorbed depreciation.

Current and deferred tax is recognised in the consolidated Statement of Profit and Loss except to the extent it relates to items recognised directly in equity or other comprehensive income,

in which case it is recognised in equity or other comprehensive income.

A. Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Group establishes provisions, wherever appropriate, on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities.

B. Deferred tax

Deferred tax is provided using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to reflect changes in probability that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

13. Operating leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is (or contains) a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to the ownership to the Group are classified as a finance lease. Payments made under operating leases are charged to the Consolidated Statement of Profit & Loss on a straight line basis over the period of the lease.

As a lessor

The Group has leased certain tangible assets and such leases where the Group has not substantially transferred all the risks and rewards of ownership are classified as operating leases. Lease income on such operating leases are recognised in the consolidated Statement of Profit & Loss on a straight line basis over the lease term which is representative of the time pattern in which benefit derived from the use of the leased asset is diminished. Initial direct costs are recognised as an expense in the consolidated Statement of Profit and Loss in the period in which they are incurred.

14. Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs also include exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to interest costs. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

15. Provisions, contingent liabilities and contingent assets

A. Provisions

A provision is recognised if

- the Group has present legal or constructive obligation as a result of an event in the past;
- it is probable that an outflow of resources will be required to settle the obligation; and

- the amount of the obligation has been reliably estimated.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provision for warranty related costs are recognised when the product is sold to the customer. Initial recognition is based on historical experience. The estimate of warranty related costs is revised annually.

B. Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

C. Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

A contingent asset is not recognised but disclosed where an inflow of economic benefit is probable.

16. Employee benefits

A. Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in the same period in which the employees renders the related service and are measured at the amounts expected to be paid when the liabilities are settled.

B. Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the consolidated statement of profit or loss.

C. Post-employment obligations

The Group operates the following post-employment schemes

- (a) defined benefit plans - gratuity and obligation towards shortfall of Provident Fund Trusts
- (b) defined contribution plans - Provident fund (RPFC Contributions), superannuation and pension

Defined benefit plans :

The liability or asset recognised in the consolidated balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets excluding non-qualifying asset (reimbursement right). The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the consolidated statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in

retained earnings in the consolidated statement of changes in equity and in the balance sheet.

Insurance policy held by the Group from insurers who are related parties are not qualifying insurance policies and hence the right to reimbursement is recognised as a separate assets under other non-current and/or current assets as the case may be.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in consolidated profit or loss as past service cost.

Defined contribution plans :

In respect of certain employees, the Group pays provident fund contributions to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. Such contributions are accounted for as employee benefit expense when they are due. Defined contribution to superannuation fund is being made to Life Insurance Corporation of India (LIC) as per the scheme of the Group. Defined contribution to Employees Pension Scheme 1995 is made to Government Provident Fund Authority whereas the contributions for National Pension Scheme is made to Stock Holding Corporation of India Limited

D. Employee stock option scheme

The Company operates a number of equity settled, employee share based compensation plans, under which the Company receives services from employees as consideration for equity shares of the Company.

The fair value of the employee services received in exchange for the grant of the options is determined by reference to the fair value of the options as at the Grant Date and is recognised as an 'employee benefits expense' with a corresponding increase in equity. The total expense is recognised over the vesting period which is the period over which the applicable vesting condition is to be satisfied. The total amount to be expensed is determined by reference to the fair value of the options granted excluding the impact of any service vesting conditions.

At the end of each year, the entity revises its estimates of the number of options that are expected to vest based on the service vesting conditions. It recognises the impact of the revision to original estimates, if any, in the consolidated profit or loss, with a corresponding adjustment to equity.

If at any point of time after the vesting of the share options, the right to the same expires (either by virtue of lapse of the exercise period or the employee leaving the Company), the fair value of the options accruing in favour of the said employee are written back to the General Reserve in the reporting period in which the right expires.

17. Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Operating segments often exhibit similar long-term financial performance if they have similar economic characteristics. Two or more operating segments are aggregated by the Group into a single operating segment if aggregation is consistent with the core principle of Ind AS 108, the segments have similar economic characteristics, and the segments are similar in aspects as defined by Ind AS.

The Group reports separately, information about an operating segment that meets any of quantitative thresholds as defined by Ind AS. Operating segments that do not meet any of the quantitative thresholds, are considered reportable and separately disclosed, only if management of the Group believes that information about the segment would be useful to users of the consolidated financial statements

Information about other business activities and operating segments that are not reportable separately are combined and disclosed in an 'all other segments' category

18. Dividends

Provision is made for the amount of any final dividend declared, being appropriately authorised in Annual General Meeting and no longer at the discretion of the Company. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

19. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings

considered in ascertaining the Group's earnings per share is the net profit for the period. The weighted average number equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit of loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

20. All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakh (upto two decimals) as per the requirement of Schedule III, unless otherwise stated.

1C ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

Ind AS 115 - Revenue from Contracts with Customers

Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 on 28 March 2018, which has notified the following new Ind AS 115 – Revenue from Contracts with Customers accounting standard and is applicable for accounting periods commencing on or after April 01, 2018

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 Revenue, Ind AS 11 Construction Contracts when it becomes effective. The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligation in contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after April 01, 2018.

The Group is in the process of evaluating the impact of the same on the consolidated financial statements.

Amendments to Ind AS 112 - Disclosure of Interests in Other Entities

The amendments clarify that the disclosure requirements in Ind AS 112, other than those in paragraphs B10–B16, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

The requirements of the amendment have no impact on the consolidated financial statements as there are no subsidiary, joint venture or an associate that has been classified as held for sale.

Amendments to Ind AS 12 Recognition of Deferred Tax Assets for Unrealised Losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in

opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

These amendments are effective for annual periods beginning on or after April 01, 2018. These amendments are not expected to have any material impact on the Group.

Transfers of Investment Property — Amendments to Ind AS 40

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

Entities should apply the amendments prospectively to changes in use that occur on or after the beginning of the annual reporting period in which the entity first applies the amendments. An entity should reassess the classification of property held at that date and, if applicable, reclassify property to reflect the conditions that exist at that date. Retrospective application in accordance with Ind AS 8 is only permitted if it is possible without the use of hindsight.

The amendments are effective for annual periods beginning on or after April 01, 2018. The Group does not have any investment property. Accordingly there is no impact.

Ind AS 28 Investments in Associates and Joint Ventures – Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice

The amendments clarify that:

- An entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss.
- If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain

the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

The amendments should be applied retrospectively and are effective from April 01, 2018. These amendments are not applicable to the Group.

Appendix B to Ind AS 21 Foreign Currency Transactions and Advance Consideration

The Appendix clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration.

Entities may apply the Appendix requirements on a fully retrospective basis. Alternatively, an entity may apply these requirements prospectively to all assets, expenses and income in its scope that are initially recognised on or after:

- (i) The beginning of the reporting period in which the entity first applies the Appendix, or
- (ii) The beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the Appendix.

The Appendix is effective for annual periods beginning on or after April 01, 2018. However, the Group does not expect any significant effect on its consolidated financial statements.

1D SUMMARY OF CRITICAL ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The preparation of consolidated financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. The

management also needs to exercise judgment in applying the Group's accounting policies. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included below.

1 Warranty provision

The Group generally offers 1 to 2 year warranties for its consumer products. Based on the evaluation of the past warranty trends, management has estimated that warranty costs for 25% of sales arises in the year of sale itself, warranty costs for 50% of the sales in Year 1 and the balance 25% in Year 2. Based on the same, the related provision for future warranty claims has been determined. The assumptions made in relation to serviceable sales and related warranty provision estimation for the current period are consistent with those in the prior years.

2 Impairment allowance for trade receivables

The Group makes allowances for doubtful accounts receivable using a simplified approach which is a dual policy of an ageing based provision and historical / anticipated customer experience. Management believes that this simplified model closely represents the expected credit loss model to be applied on financial assets as per Ind AS 109.

3 Project revenue and costs

Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. The percentage-of-completion method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Group re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

4 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the consolidated balance sheet cannot be measured based on quoted prices in active

markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/judgements about these factors could affect the reported fair value of financial instruments. Refer Note 34 of consolidated financial statements for the fair value disclosures.

5 Employee benefits

The cost of the defined benefit gratuity plan and other post-employment leave benefits and the present value of the gratuity obligation are determined using

actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

The description of plans ability to affect the amount, timing and uncertainty of the entity's future cash flows

a) Funding arrangements and Funding Policy

The scheme is managed on funded basis. Payment for present liability of future payment of gratuity is being made to approved gratuity fund, which fully covers the same under Cash Accumulation Policies of the Life Insurance Corporation of India (LIC) and Bajaj Allianz Life Insurance Company Ltd. (BALIC). Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

b) Expected Contribution during the next annual reporting period

Particulars	31-Mar-18	31-Mar-17
The Company's best estimate of Contribution during the next year	42,299,064	96,212,335
This has been calculated assuming that the employer's contribution next year shall increase by 5%.		

c) Maturity Profile of Defined Benefit Obligation

Particulars	31-Mar-18	31-Mar-17
Weighted average duration (based on discounted cashflows)	5 years	5 years
Expected cash flows over the next (valued on undiscounted basis):	31-Mar-18	31-Mar-17
1 year	138,351,451	132,860,127
More than 1 and upto 2 years	57,454,545	63,085,641
More than 2 and upto 5 years	145,079,275	147,523,407
More than 5 and upto 10 years	177,708,215	171,114,629
More than 10 years	255,997,803	258,212,747

d) Asset liability matching strategies

For gratuity, the Company has purchased insurance policy, which is basically a year-on-year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The insurance company, as part of the policy terms, makes payment of all gratuity outgoes happening during the year (subject to sufficiency of funds under the policy). The policy, thus, mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Company is exposed to movement in interest rate (in particular, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset)

B. Provident Fund (Defined Benefit Plan) :

Bajaj Electricals Limited operates in two schemes for the compliance of provident fund statute - (i) Bajaj Electricals Limited Employees' Provident Fund Trust & Matchwel Electricals (India) Ltd Employees' Provident Fund Trust (defined benefit plan) and (ii) RPFC Contributions for provident fund (defined contribution plan).

For exempt provident fund, the defined benefit obligation of the Company arises from the possibility that during anytime in the future, the scheme may earn insufficient investment income to meet the guaranteed interest rate declared by government / EPFO / relevant authorities.

The net defined benefit obligation as at the valuation date represents the excess of accumulated fund value (determined on actuarial basis) plus interest rate guaranteed liability over the fair value of plan assets or vice-a-versa

The benefit valued under PF obligation are summarised below:

Normal Retirement Age	58 Years *
Benefit on normal retirement	Accrued Account Value
Benefit on early retirement / termination / resignation / withdrawal	Accrued Account Value
Benefit on death in service	Accrued Account Value

* The standard retirement date for executive employees is June 30th of every year and the same is April 1st of every year for the staff employees.

A deterministic approach is considered to estimate the value of Interest Rate Guarantee on the Exempt Provident Fund. The per annum cost of guarantee at which Interest Rate Guarantee Liability has been valued is mentioned below

The company's compliances for provident fund is governed by Employees' Provident Fund and Miscellaneous Provisions Act, 1952. Responsibility for governance of the plans, including investment decisions and contribution schedules lies jointly with the company and the board of trustees. The board of trustees are composed of representatives of the company and plan participants in accordance with the plan's regulations

During the year ended March 31, 2018	360.32	405.77	436.58
During the year ended March 31, 2017	272.38	253.73	308.40

VI Method and Assumptions used to estimate the fair value of options granted during the year ended March 31, 2018 :

The fair value has been calculated using the Black Scholes Option Pricing model

The Assumptions used in the model are as follows:

	BAJAJ GROWTH 2007	ESOP 2011	ESOP 2015
Variables	Weighted Average	Weighted Average	Weighted Average
1. Risk Free Interest Rate	No options granted during the year	No options granted during the year	6.89%
2. Expected Life (in years)			4.15
3. Expected Volatility			37.22%
4. Dividend Yield			0.68%
5. Exercise Price (₹)			423.48
6. Price of the underlying share in market at the time of the option grant. (₹)			423.48

Method and Assumptions used to estimate the fair value of options granted during the year ended March 31, 2017 :

The fair value has been calculated using the Black Scholes Option Pricing model

The Assumptions used in the model are as follows:

	BAJAJ GROWTH 2007	ESOP 2011	ESOP 2015
Variables	Weighted Average	Weighted Average	Weighted Average
1. Risk Free Interest Rate	No options granted during the year	No options granted during the year	6.71%
2. Expected Life (in years)			4.15
3. Expected Volatility			37.37%
4. Dividend Yield			1.09%
5. Exercise Price (₹)			258.04
6. Price of the underlying share in market at the time of the option grant. (₹)			258.04

Assumptions:

Stock Price: Closing price on National Stock Exchange on the date of grant has been considered

Volatility: The expected price volatility is based on the historic volatility, adjusted for any expected changes to future volatility due to publically available information. The volatility is calculated considering the daily volatility of the stock prices on National Stock Exchange of India Ltd. (NSE), over a period prior to the date of grant corresponding with the expected life of the options.

Risk-free rate of return: The risk-free interest rate being considered for the calculation is the interest rate applicable for a maturity equal to the expected life of the options based on the zero-coupon yield curve for Government Securities

Exercise Price: Exercise Price of each specific grant has been considered.

Time to Maturity: Time to Maturity / Expected Life of options is the period for which the Company expects the options to be live.

Expected divided yield: Expected dividend yield has been calculated as an average of dividend yields for five financial years preceding the date of the grant

VII Effect of Share-Based Payment Transactions on the Entity's Profit or Loss for the year :

*Based on independent valuation performed by an external valuer, the equity value (enterprise value minus external debt) is negative. Accordingly, the investment has been fully impaired. Refer below for assumptions used

Significant unobservable inputs used in Level 3 fair values as at March 31, 2018

Particulars	Significant Unobservable Inputs	Sensitivity
Investments (Preference shares of Starlite Lighting Limited)	Discount rate <ul style="list-style-type: none"> ▶ Scenario 1 – 12% ▶ Scenario 2 – 16% ▶ Scenario 3 – 20% Average of scenario 1-3 is considered for valuation	The Company has reduced the fair value of investments in preference shares in Starlite Lighting Limited and impaired fully the equity instruments since the enterprise value less external debt is negative. 1% increase in discount rate will decrease fair value by ₹ 753.00 lakh.
Investments (Equity shares of Starlite Lighting Limited)	Discount rate – 18.16% Terminal value growth rate – 3%	1% decrease in discount rate will increase the fair value by ₹ 853.80 lakh. 1% increase in terminal value growth rate will increase fair value by ₹ 191.80 lakh. 1% decrease in terminal value growth rate will decrease the fair value by ₹ 168.00 lakh

All other current financial assets and current financial liabilities have fair values that approximate to their carrying amounts due to their short term nature. Further all other non-current financial assets and non-current financial liabilities have fair values that approximate to their carrying amounts as it is based on the net present value of the anticipated future cash flows.

NOTE 35: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities comprise of borrowings, trade and other payables, channel financing liability and financial guarantee contracts. The main purpose of these financial liabilities is to finance the entity's operations and to provide guarantees to support its operations. The Group's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations. The Group also holds investments (measured at FVTPL and amortised cost) and enters into derivative transactions (other than for speculative purposes).

The risk management committee of the Group lays down appropriate policies and procedures to ensure that financial risks are identified, measured and managed in accordance with the entity's policies and risk objectives.

The Group is exposed to credit risk, liquidity risk and market risk, which are explained in detail below:

(A) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counter-party fails to meet its contractual obligations. Credit risk encompasses the direct risk of default, the risk of deterioration of creditworthiness as well as concentration risks. The Group is exposed to credit risk from its operating activities mainly in relation to trade and other receivables and bank deposits. Further, the Group is also exposed to credit risk arising from its loans, advances and investment in preference shares of its affiliate companies.

Trade and other receivables

Trade and other receivables of the Group are typically unsecured and credit risk is managed through credit approvals and periodical monitoring of the creditworthiness of customers to which the Group grants credit terms.

In respect of trade receivables, the Group typically operates in two segments:

Consumer products

The Group sells the consumer products mainly through three channels i.e. dealers and distributors, institutions and e-commerce and through government sector. The appointment of dealers, distributors, institutions is strictly driven as per the standard operating procedures and credit policy followed by the Group. In case of government sector, the credit risk is low.

Engineering and projects

The Group undertake projects for government institutions (including local bodies) and private institutional customers. The credit concentration is more towards government institutions. These projects are normally of long term duration of two to three years. Such projects normally are regular tender business with the terms and conditions agreed as per the tender. These projects are fully funded by the government of India through Rural Electrification Corporation, Power Finance Corporation, and Asian Development Bank etc. The Group enters into such projects after careful consideration of strategy, terms of payment, past experience etc.

In case of private institutional customers, before tendering for the projects Group evaluate the creditworthiness, general feedback about the customer in the market, past experience, if any with customer, and accordingly negotiates the terms and conditions with the customer.

The Group assesses its trade and other receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in profit or loss, the Group makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from such trade and other receivables. In respect of trade receivables the Group has a provisioning policy that is commensurate to the expected losses. The provisioning policy is based on past experience, customer creditability, and also on the nature and specifics of business especially in the engineering and projects division. In case of engineering projects, the Group also provides on more case-to-case basis, since they are large projects in individuality.

The maximum exposure to credit risk as at March 31, 2018 and March 31, 2017 is the carrying value of such trade and other receivables as shown in note 5, 7 and 12 of the financials.

Reconciliation of impairment allowance on trade and other receivables		(₹ in lakh)
Particulars		Amount
Impairment allowance on March 31, 2017		15,507.41
Created during the year		5,318.76
Reversed during the year		(3,399.95)
Impairment allowance on March 31, 2018		17,466.22

Bank deposits

The Group maintains its cash and bank balances with credit worthy banks and financial institutions and reviews it on an on-going basis. Moreover, the interest-bearing deposits are with banks and financial institutions of reputation, good past track record and high-quality credit rating. Hence, the credit risk is assessed to be low. The maximum exposure to credit risk as at March 31, 2018 and March 31, 2017 is the carrying value of such cash and cash equivalents and deposits with banks as shown in note 11 of the financials.

Loans, advances and investments in preference shares with affiliate companies

The Company has given loans and advances to its affiliate companies (Starlite Lighting Limited and Hind Lamps Limited). Further, the Company also has made strategic investments (equity and preference investments) in these entities. All such loans / advances / investments and their respective terms and conditions are duly approved by the Board of Directors of the Company. These entities also act as a strategic source of product supply to the Company.

The exposure on these loans / advances / investments are reviewed on regular basis for their recoverability on the basis of their business plan, future profitability, cash flow projections, market value of the assets, etc. Such assessment is performed by the management through an independent external valuer based on which any expected credit losses are provided for in the books.

As on the date of reporting, the Company does not have any expected credit loss on its loans / advances / investments in Hind Lamps Limited except for those provided in the books, based on the asset valuation done by the external valuer. In respect of Starlite Lighting Limited, the Company has fully impaired its exposure as at March 31, 2018 in its consolidated financial statements (Refer Note 41).

(B) Liquidity risk

The Group has a central treasury department, which is responsible for maintaining adequate liquidity in the system to fund business growth, capital expenditures, as also ensure the repayment of financial liabilities. The department obtains business plans from business units including the capex budget, which is then consolidated and borrowing

requirements are ascertained in terms of Long term funds and short-term funds. Considering the peculiar nature of EPC business, which is very working capital intensive, treasury maintains flexibility in funding by maintaining availability under committed credit lines in the form of fund based and non-fund based (LC and BG) limits.

The limits sanctioned and utilised are then monitored monthly, fortnightly and daily basis to ensure that mismatches in cash flows are taken care of, all operational and financial commitments are honoured on time and there is proper movement of funds between the banks from cashflow and interest arbitrage perspective.

(i) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period

(₹ In lakh)

Particulars	31-Mar-18	31-Mar-17
Floating / Fixed Rate		
- Expiring within One year (Bank overdraft and other facilities)	237,581	212,894

Bank overdraft facilities are sanctioned for a period of one year which are then enhanced / renewed from time to time. Though the Bank overdrafts are repayable on demand as per the terms of sanction, these are usually renewed by all banks in normal circumstances. Hence Bank overdraft facilities are available for use throughout the year.

(ii) Maturities of financial liabilities

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

(₹ in lakh)

Other financial liabilities	26,135.51	25,799.61	118.67	96.55	6.05	26,020.88
Total	144,279.97	142,373.29	685.58	1,119.41	130.60	144,308.88

(C) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as commodity risk.

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The Group operates in the global market and is therefore exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar ('USD'), Euro ('EUR'), Great Britain Pound ('GBP'), Chinese Yuan Renminbi ('RMB') and United Arab Emirates Dirham ('AED'). Apart from exports receivables and Imports payables arising out of trade in the normal course of business, the Group also has foreign exchange exposures in terms of buyer's credit, packing credit, foreign currency term loans,

etc. As these commercial transactions are recorded in currency other than the functional currency (₹), the Group is exposed to Foreign Exchange risk arising from future commercial transactions and recognised assets and liabilities. The Group is a net importer as its imports and other forex liabilities exceeds the exports. It ascertains its forex exposure and bifurcates the same into forex receivables and payables. The export collections are received in EEFC account, which provides some natural hedge. Other exposures are covered by taking appropriate forward cover from the banks.

The Company has a forex policy, which is duly approved by the Board of Directors. All forex hedging is done as per the said approved forex policy. The Company has also taken Board approval for authorising certain Company officials for entering into hedge transactions. The forex policy is flexible in terms of the hedging the overall forex exposure, as also the instrument to be used for hedging. The Company takes a forward cover for the period which matches the maturity date of the forex liability which is proposed to be hedged. On maturity date, the forward contracts are utilised for settlement of the underlying transactions.

(a) Foreign currency exposure:

The Group's exposure to foreign currency risk at the end of the reporting period expressed in ₹, are as follows :

(₹ In lakh)

	31-Mar-18					31-Mar-17					
	USD	EUR	CAD	GBP	AED	USD	EUR	RMB	JPY	AUD	AED
Financial assets	990.66	-	-	-	-	451.17	(1.21)	47.9	-	-	17.52
Financial liabilities	16,703.28	46.24	28.47	3.19	(1.47)	8,847.28	499.73	25.54	(2.61)	(1.98)	5.33

Further, the Group has open foreign exchange forward contracts amounting to USD 123.64 lakh (March 31, 2017 - USD 82.42 lakh)

b) Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments is given below

(₹ In lakh)

Particulars	Impact on profit after tax & Equity	
	31-Mar-18	31-Mar-17
USD sensitivity		
₹ appreciates by 4%(March 31, 2017 - 5%)	628.48	419.77
₹ depreciated by 4%(March 31, 2017 - 5%)	(628.48)	(419.77)

The Group also has an exposure in EUR, CAD, RMB, JPY and AUD, the impact of sensitivity of which is very negligible.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group does not have any long term borrowings except sales tax deferral loan which is interest free. Also in case of short term borrowings, the interest rate is fixed in a large number of cases and linked to the LIBOR in a few cases. Hence, interest rate risk is assessed to be low. Accordingly, the sensitivity / exposure to change in interest rate is insignificant

(iii) Price risk

In case of the consumer product business, the Group manufactures LED bulbs and Tubes and small quantity of ceiling fans. All other products are procured from the vendors. The terms of payment with vendors is on cost plus basis. Hence, the price risk is assessed to be low.

The Group is also into EPC segment, wherein it takes turnkey contracts for transmission line towers, rural electrification, high masts and poles, street lighting, etc. This exposes the Group to commodity price risk for products such as copper, aluminium, plastic, steel, zinc etc. The Group has contractual right to pass the commodity price risk to the customer, hence the price risk is assessed to be low.

NOTE 36: CAPITAL MANAGEMENT

For the purpose of capital management, capital includes issued equity share capital, securities premium and all other equity reserves attributable to the equity shareholders.

The Group aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to its shareholders. The capital structure of the Group is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. Management considers the amount of capital in proportion to risk and manages the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders (buy-back) or issue new shares.

The Group's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Group will take appropriate steps in order to maintain, or if necessary adjust, its capital structure. The management monitors the return on capital as well as the level of dividends to shareholders.

Consistent with others in the industry, the Group monitors capital on the basis of the following gearing ratio:

Total debt (total borrowings including current maturities of long term borrowings) divided by total equity (as shown in the balance sheet excluding debenture redemption reserve, capital reserve and capital redemption reserve)

The Group's strategy is to maintain a gearing ratio within 2 times. The Debt Equity ratio is as follows:

Particulars	31-Mar-18	31-Mar-17
Total debt	72,310.41	64,656.38
Total equity	93,505.50	83,665.27
Total debt to equity ratio	0.77	0.77

NOTE 37: SEGMENT REPORTING

vii. Uncalled liability in respect of partly paid Shares held as investments	7.20	7.20

- viii. The Company's fluorescent and mercury containing lamps (CFL/FTL) fall within the purview of the E-waste (Management) Rules, 2016 (the "E-waste Rules") which has come in force with effect from October 01, 2016. Under the E-waste Rules the Company is responsible for collection and safe disposal of end-of life CFL/FTL in terms of Extended Producer Responsibility (EPR) obligation set out therein. In the 57th meeting of Technical Review Committee of Central Pollution Control Board ("CPCB"), the compliances and implementation of EPR Authorisation conditions including targets under the E-waste Rules for the existing producers of CFL/ FTL were deferred till May 01, 2017.

Electric Lamp and Component Manufacturers Association of India (ELCOMA), on behalf of all its members, has filed the Writ Petition (C) 5461 of 2016 ("Writ Petition") in the Hon'ble Delhi High Court challenging the inclusion of 'fluorescent and mercury containing lamps' under E-waste Rules. The Hon'ble Delhi High Court by its order dated September 28, 2016, directed the producers of CFL/FTL, to apply for EPR Authorisation without prejudice to their rights and contention in the said Writ Petition and the Company has accordingly submitted its application for the EPR Authorisation to CPCB.

However, in view of pendency of the Writ Petition, the financial obligations which may arise in the event of the Hon'ble High Court passing adverse order against ELCOMA and its member, is unascertainable at this point of time and hence the same is disclosed as contingent liability.

- ix. The Company has given guarantees / letter of comfort for all borrowings (long term / short term) taken by its joint venture, Starlite Lighting Limited (SLL). As at March 31, 2018, SLL is in breach of its loan covenants as per the terms of the loan agreements, resulting in the loans becoming payable on demand. However, as at the date of approval of these consolidated financial statements, the lenders of SLL have not called for the loan repayment. Further, the management of the Company has obtained loan covenant waiver from the lenders of SLL. Accordingly, the exposure in this regard is considered to be 'possible' and disclosed as contingent liability.
- x. These represent legal claims filed against the Company by various parties and these matters are in litigation. Management has assessed that in all these cases the outflow of resources embodying economic benefits is not probable.

b. Commitments

- i. Estimated amounts of contracts remaining to be executed in capital account (net of capital advances) is ₹ 501.95 lakh (March 31, 2017, ₹ 562.35 lakh).

c. Leases

The Company has entered into operating leases for certain warehouses / premises / vehicles, with lease term between 1 to 10 years. Some of the leases have the option to extend the lease for additional terms as per the agreements.

Lease rent recognised in consolidated statement of profit and loss is ₹ 4,589.67 lakh (March 31, 2017 – ₹ 4,399.11 lakh). There are no non-cancellable leases.

NOTE 41 : EXCEPTIONAL ITEMS:

Pursuant to continuous reduction in the CFL business and future outlook, Group has re-assessed the recoverability of its investments and loans provided to Starlite Lighting Limited (Joint Venture) and consequently impaired it fully in consolidated financial statements.

The details of the investments and loans and advances which are impaired are as below

Particulars	(₹ in lakh) Impairment Amount

LUMINAIRES

Industrial Lighting

Dazzle Highbay for Industrial Spaces: (First Highbay with 150 lm/w)

In any industrial setup the most important cost that is incurred by the plant managers is power consumption. High efficient modern lighting luminaires help reduce this cost considerably. With 140 lm/w Dazzle is one of the most Efficiency luminaire available also giving added advantage of better Uniformity. LED based lighting with the option of automation in the form of dimming and various sensors such as Time, Daylight, Ambient Conditions further improving the efficiency of the Luminaire. Lite weight approx. 4 kg for lesser tension on the industrial truss. Optimise day to day management with real time insights on lighting faults, ambient conditions, warranty or contract compliance, energy consumption. Ensure safety of workers with optimal lighting, integrated sensor based surveillance solution

Application Areas: Warehouses / Industrial Sheds / Airport Hangers / F & B Units / Indoor Sport Complexes / Railway Concourse hall

Blaze Highbay for Industrial Spaces:

Directional, focused lighting is a key for optimising the use of power in various industrial lighting application. Blaze a circular highbay with its unique design offers 60 and 120-degree beam angle. Innovative design in terms of air gap between LED housing and driver for excellent heat dissipation. Secondary lens optics is provided for better distribution and uniformity. I-bolt for suspension mounting.

Application Areas: Warehouses / Industrial Sheds / Airport Hangers / F & B Units / Indoor Sport Complexes / Railway Concourse hall

Commercial Lighting

Skylite Dyna Troffer Luminaire Human Centric Lighting for Indoor Spaces:

Bajaj Electricals introduced an innovative smart lighting product that brings human centric lighting solutions to be easily and specifically implemented in office buildings. Our physiological and biological response depends on the light's characteristics, Skylite Dyna helps to keep this rhythm absolutely constant, adjusting as per natural sunlight.

It offers a colour spectrum with a range of 2200° K - 8300° K that can be dimmed to suit a particular level of activity. This is made possible by mixing the LED light with different colour temperatures ranging from warm white to daylight white. So, whether it's an office area or a relaxation room, it enables you to choose the exact colour that goes with the specific activity.

The new cloud-connected smart systems embed sensors and RF communication chips inside LED ceiling lights and luminaires, and reduces energy consumption by controlling lights more intelligently. Sensors such as motion detectors turn lights on, off, up, and down as needed, and users can wirelessly pre-program — or “commission” — groups of lights to respond in certain ways at certain times. They can also directly control lights wirelessly from phones or tablets.

Application Areas: Offices / Conference areas / Reception areas / Board rooms / Hospitals

Dominto Dyna: Smart Lighting for office spaces

Restraining spaces should not become a constraint for bigger vision. Whether its focussed work at desks or closed discussions with employees or client presentations – high-performance lighting solutions adapts to needs of all situations. If activities change, then lighting conditions need to seamlessly transform to the new requirements – e.g. using an optimised lighting scene for computer screen work or for reading documents. With personalised task lights, Suspended Direct-Indirect luminaires and Occupancy Sensors, a flexible and energy efficient lighting system can be achieved.

Dominto Dyna is a Luminaires suiting Human Centric Lighting applications. It can control intensity and CCT through hand held RF based remote, mobile and Desktop Application. Doesn't need additional control wiring for Dimming and Color temperature. Sleek and light weight for ease of installation in different ceiling types. Zero Maintenance and Installation friendly. The smart lighting system allows remote, central management of floors or groups of buildings. Operators can view lighting schemes, energy consumption, room occupancy on a dashboard and then decide whether and how to alter lighting schemes or even reassign building space.

Application Areas: Offices / Conference areas / Reception areas / Board rooms / Hospitals

Cityscape Lighting

Bajaj Smart Poles:

Smart pole is unique solution offered to city managers to manage many services unilaterally. Bajaj Electricals Smart Pole is a beautifully designed, modular and scalable solution that offers Wi-Fi, data capturing and CCTV services. Moreover, it also has electronic vehicle charging and parking management and decentralised power distribution (AC-DC).

The SMART POLE invisibly accommodates the functions like Wi-Fi, Data-Capture, Smart Wireless LED luminaire, CCTV, EV Charging and Parking Management, FO to Ethernet conversion, Decentralised power distribution (AC-DC)

Key functionality achieved,

- Reduces street clutter
- Well designed
- Invisibly accommodates all of the Smart City functions converging on public spaces
- Accommodates all current smart city technologies

Modular design allows for new public domain technologies that may be required in the future. (Driverless cars)

Smart LED Street Light:

Smart street lighting solution helps cities save energy, lower costs, reduce maintenance—all while better serving citizens and reducing energy use and CO₂ emissions. Automation and networked control can further increase your energy savings and reduce maintenance spending. Networked street lighting built on a scalable platform can reduce crime up to 10% and make roads safer through improved visibility.

Bajaj's Smart street lighting solution is a cost-effective and sustainable choice for cities. They are smart, intelligent, versatile and most importantly scalable thereby letting you manage, maintain, and monitor the entire system.

Area Lighting**Amaze Flood Light**

Conventional High-mast luminaires are fast being replaced by LED Luminaires. Bajaj Amaze with its unique Aerodynamic design and ultra-sleek is sturdy to withstand the high wind pressures at high heights. Standard conventional high mast luminaires weigh in the range of 6 to 8 kg unlike Amaze which is extremely light weight and hence easy to install in multiple angle with easy mounting arrangements. A complete family from 80W to 200W ensure it can be used for multiple applications of area lighting.

Application Areas: High masts / Container berths, docks, ports / Airport aprons, flyovers & bridges / Railway marshalling yards / Security lighting, sport lighting / Shopping malls, building façade

EPC SERVICES

Design, engineering, procurement, supply, execution, testing and commissioning of following types of projects:

a) Illumination EPC SBU:

1. Illumination of power plants, Industrial plants, refineries

2. Area lighting with high masts
3. City illumination & street lighting with octagonal poles, conical poles, tubular poles
4. Specialised lighting projects such as Architectural lighting of building façade, monuments, ancient temples, fibre optic lighting – special application, tunnel lighting for vehicular traffics
5. Sports Lighting international & national level of any sports
6. Mobile masts for lighting application construction sites / mines etc.
7. Logo Signage, Highway & Road Signage
8. Specialised products like conical poles, Cast Iron & Cast Aluminium (CICA) poles, GRP poles, Gazebos & Pergolas, Polysteel lamp posts etc.
9. Smart Poles integrated with lighting & other application
10. Energy management systems with LEDs & Lighting Controls (New Arrival)
11. Pre-fabricated structures & hot dip galvanising
12. Specialised products made of composite materials

b) Power Distribution

1. Rural electrification & RAPDRP projects
2. Substations up to 33 KV
3. Feeder Separation
4. Bore well pump Connections

c) Transmission line towers & Sub-station SBU:

1. EPC of transmission lines upto 765 KV Double circuit for central & state utilities
2. EPC of EHV AIS & GIS Substations upto 220 kV for central & state utilities
3. EPC of Transmission lines on monopoles upto 400 kV
4. EPC of EHV/HV underground cabling work
5. Manufacturing of Sub-station structures
6. Manufacturing of Transmission line towers
7. Manufacturing of Monopoles
8. EPC of Wind energy towers

OFFERING WORLD CLASS SOLUTIONS FOR SMART **INDOORS** & CONNECTED **OUTDOORS**

Bajaj Electricals Limited is at the forefront of IoT innovation, delivering integrated digital offerings based upon Smart Luminaires. The smart lighting system allows remote and central management of floors or groups of buildings. Operators can view lighting schemes, energy consumption, room occupancy on a dashboard and then decide whether and how to alter lighting schemes or even reassign building space. Meaningful data travels between the lights and the cloud server through a combination of wireless and wired internet hops, assisting commercial and residential properties to streamline operations and costs.

By paving the way for convenient and futuristic lighting system, our Outdoor Lighting Solutions have developed the latest technology, creating smart, secure and connected areas; that not only increase the visibility at night but also keep a city looking picturesque. The wide range of street, area and landscape lights have features like smart street lights, real time clock (RTC), dimming, remote diagnosis and many more.

Moreover, Bajaj Electricals has leveraged technology and further enhanced its street light offering to club this with city surveillance, parking management, traffic management, environmental monitoring and e-governance modules.
