Q4 & FY16 Performance

Chairman's Message

Commenting on Q4 & FY16 performance, Mr. Rajesh Gandhi, Chairman and Managing Director, Vadilal Industries Limited (VIL) said:

"We have delivered 15% revenue growth in Q4. The ice cream business grew 21% while processed foods has focused on branded products and exports. Margins have continued to expand based on volume growth, focus on personalized packs and lower cost of raw materials/packaging/transportation. However, we have taken provisions pertaining to previous years in the now discontinued unbranded processed foods business. These relate to inventory, receivables and other costs amounting to about Rs. 1 crore in Q4 and of Rs. 3 crore in FY16. Despite these one-time provisions, we have delivered substantial growth in standalone margins during FY16. In addition, our US subsidiary that markets both ice cream and processed foods has turned around during the year.

The Vadilal brand is increasingly gaining traction in our focus markets. We recently launched an ad campaign with our new brand ambassador, actress Preeniti Chopra. Processed foods is also gaining critical scale in key export markets and volume expansion can improve margins.

In the current year, we see continuation of last year's growth momentum. Volumes will aid greater utilization of current capacities, working capital discipline will be maintained and operating cash flows will be used to reduce debt further. Overall, we see factors such as greater affordability, preference for ice creams, changing weather patterns and improving power situation increase consumption in India. In addition, strong visibility for our brand, deep penetration from a substantial distribution network, focused product development and a stronger balance sheet allow us to penetrate the markets and deliver market outperformance."
