Domestic

Inflation has fallen significantly after hovering around 10% for several years. CPI average moved to 6.5% in FY15. (Source: CRISIL)

The automotive industry, after showing promising growth in the first half of the fiscal year, slowed down considerably in the second half of the year. However, most segments registered growth over the previous year due to good performance in the first half. The segment wise sales performance is given in the following table.

Category	FY 2014-15 Nos.	FY 2013-14 Nos.	Variance (in %)

Sundaram-Clayton Limited

India is emerging as the major producer of high value, technologically advanced components and sub-systems not only to meet the domestic market requirements, but also exporting to several major OEMs all over the world.

Exports

Global economic growth in 2014 picked up marginally to 2.6% from 2.5% in 2013 which is lower than initially expected, continuing a pattern of disappointing outturns over the past several years. (Source: World Bank).

However, economic activity in the US has gathered momentum as labour markets heal and monetary policy remains extremely accommodative. US economy grew by 2.4% in 2014 against 2.2% in 2013. (Source: World Bank).

Cheaper oil is boosting real incomes and consumer sentiment, despite the projected gradual rise in interest rates. The US economy is showing signs of sustained growth with improving GDP, job market and consumer spending.

However in Europe and Japan, the recovery has been sputtering as legacies of the financial crisis linger, intertwined with structural bottlenecks.

Europe was largely characterized by uncertainty about the strength of economic recovery owing to concerns surrounding Russia and stability of the European Union. This was also reflected adversely in the heavy duty truck registrations.

The following table highlights the North American and European truck registration figures in vehicle units:

Market	Category	2014	2013	Variance (in %)
North America	Class 8 Trucks	2,72,237	2,39,443	+14
North America	Class 4-7 Trucks	2,11,716	1,91,551	+11
Europe	Medium & Heavy trucks	2,17,958	2,32,095	-6%

II. Business Outlook and Overview

The outlook for India is for economic strengthening through higher infrastructure spending, increased fiscal devolution to states, continued reform to financial and monetary policy. The government underscored its intention to move steadily and tackle the politically difficult structural issues that have stalled investment and limited economic performance in recent years.

With supportive policies, lower inflation and pickup in capital expenditure, growth is expected to edge up further to 7.8-8.0% in FY 16 (Source CRISIL).

Amidst the mood of pessimism and uncertainties that engulf a number of advanced and emerging economies, India has an encouraging long term economic outlook. The Government's commitment to calibrate fiscal management and consolidation bode well for the growth prospects and the overall macroeconomic situation improvement in the future.

The Indian auto component industry is expected to register a turnover of US\$ 66 billion by FY 16 with the likelihood to touch US\$ 115 billion by FY 21. In addition, industry exports are projected to reach US\$ 12 billion by FY 16 and reach US\$ 30 billion by FY 21. (Source: ACMA). The "Make in India" pitch may further boost the growth of component industry.

Global growth is expected to rise to 3.0% in 2015, and average about 3.2% through 2017. (Source: World Bank). The US economic growth is expected to be around 3% in 2015, largely due to more robust private domestic demand. EU growth is unlikely to cross 1% owing to high unemployment levels.

Our customers in US are key players in the heavy duty truck market and have given an indication of good order intake. Positive economic conditions (oil prices, low inflation) and poor fuel economy of aging fleet are driving order placement. The Company expects the overall demand in this region to be buoyant.

III. Opportunities & Threats

The Company supplies aluminium castings either as cast or in machined condition for commercial vehicles, passenger cars and two wheeler segments of the automotive industry.

In the medium to long term, the projected growth of domestic auto industry, ambitious export plans of the Indian OEMs are likely to benefit the Company.

In view of stringent emission norms and fuel economy regulations, the thrust for light-weighting is bound to increase leading to higher content of aluminum in all vehicle types. This will provide for increased growth opportunities, since the Company is already a preferred source for aluminum castings to major OEM's in India and abroad.

The Company has developed magnesium die castings and has completed tests and trials. The responses from prospective customers are encouraging. Magnesium being lighter in weight than aluminum is expected to find several applications for light-weighting in the years to come.

Our country is emerging as one of the major manufacturing hubs because of availability of well-educated engineers and managers, skilled workforce and good supply base. The Company is well placed to leverage these emerging opportunities in India and abroad.

Several Indian die casting companies and OEMs are either setting up new capacities or expanding existing capacities resulting in increased competition and consequent price pressure which could affect the margins.

Intense competition makes it extremely difficult to seek price increases to compensate the effects of inflation. However, the Company's supply contracts provide for periodic price adjustments indexed to the international prices of aluminum and this should offer some protection against volatility of commodity prices.

IV. Risks and concerns

Economy

There are possible risks on the horizon, both external and domestic. Spillovers from weak global growth and potential global financial market volatility could be disruptive.

Sundaram-Clayton Limited

On the domestic side, weakness in rural economy appears to persist owing to nominal growth in crop prices, unseasonal rains, stagnating rural wages and declined Rabi output.

Three developments in global economy are likely to shape the outlook for developing countries.

- The beginning of rate hikes in the US, leading to modestly tighter global financing condition;
- Commodity prices, which have fallen on expanding supply and concerns about global growth, are expected to remain soft; and
- Anemic recovery in Europe and Japan which together account for a third of global imports will continue to weigh on global trade growth.

Overall, downside risks still persist, reflecting global headwinds and geopolitical uncertainty.

Industry specific

The Company caters to the requirements of the automotive industry. The revenue of the Company is derived from Medium & Heavy Commercial Vehicles (50%), followed by Car Industry (30%) and two wheeler industry (20%).

The Indian commercial vehicle Industry has strong correlation with the agricultural growth, infrastructure development and the mining industry and is cyclical. The Company's presence in all the segments of auto industry will largely mitigate the segment specific risks.

Competition has increased significantly in the Indian market due to entry of new players and expansion plans of existing ones. The Company is aware of the increasing competition and has been taking customer focussed measures to remain competitive in the market place.

As no major economic recovery in China is expected, International prices of aluminum is expected to remain at levels witnessed in FY 15. Crude prices are expected to marginally increase from the current levels.

Sourcing

While the Company continues to pursue cost reduction initiatives, increase in price of input materials could impact the Company's profitability when they are not compensated by customers.

Forex

With significant exports, import of raw materials and capital goods and foreign currency liabilities, the Company is always exposed to currency fluctuations. Since Q4 of FY15, Indian rupee has appreciated against the Euro causing a reduction in the realization on Euro based exports. However, the Company has a well-defined forex hedging policy to mitigate the risks.

Contractual

The stipulation and requirements of the automobile industry demands high quality products. Robust quality management systems meeting international standards like TS 16948 are in place to ensure excellent product quality. However, appropriate recall and product liability insurance in line with standard industry practice have been taken.

Just-in-time delivery is another important contractual obligation. Robust quality and project management systems are in place to avoid delay in deliveries due to quality issues or project implementation.

Capacity utilization

The Company adds capacity to meet the projected demand of customers. The Company closely monitors the progress of customer projects/ volumes and appropriately deploys the assets to minimize the twin risks of under-utilization and delay in capacity addition.

Risk Management Policy

The board has established a Risk Management Policy which formalizes the Company's approach to overview and manage material business risks. The policy is implemented through a top down and bottom up approach identifying, assessing, monitoring and managing key risks across the Company's business units.

Risks and effectiveness of their management are internally reviewed and reported regularly to the board. The management has reported to the board that the Company's risk management and internal compliance and control system are operating efficiently and effectively in all material respects.

The board is satisfied that there are adequate systems and procedures in place to identify, assess, monitor and manage risks. The audit committee of directors also reviews reports by members of the management team and recommends suitable action. Risk Mitigation Policy has been approved by the board.

V. Internal control systems and their adequacy

The Company has a proper and adequate internal control system to ensure that all the assets of the Company are safeguarded and protected against any loss and that all the transactions are properly authorized and recorded. Information provided to management is reliable and timely and statutory obligations are adhered to.

Internal Financial Controls

The Company has an established Internal Financial Control framework including internal controls over financial reporting, operating controls and anti-fraud framework. The framework is reviewed regularly by the management and tested by internal audit team and presented to the audit committee of directors. Based on periodical testing, the framework is strengthened, from time to time, to ensure adequacy and effectiveness of Internal Financial Controls.

VI. Operations Review

A. Manufacturing

The Company has been using Total Quality Management (TQM) as the foundation of its management. The Company implemented the best practices like Total Productivity Management (TPM) and Lean Manufacturing in its manufacturing facilities. It also has in place best-in-class practices for safety, pollution control, work environment, water and energy conservation.

Continuous improvement projects are implemented to improve the product quality and productivity in all the manufacturing locations. The Company's journey of achieving manufacturing excellence was recognized and rewarded by the following customers during FY 15.

- Cummins : Superior quality award
- Hyundai : "4+ Star" quality rating
- Visteon : Appreciation for VAVE in new product development.

Sundaram-Clayton Limited

The Company, being a Listed Company, was also required to comply with the MPS, to increase its public shareholding from 20% to 25% as per the requirements of SCRA.

In order to become MPS compliant, the board had approved further issue of shares on preferential basis to Qualified Institutional Buyers (QIBs) pursuant to Section 81(1A) of the Companies Act, 1956 on 8th February 2013 and the shareholders had also approved the same on 20th March 2013 through Postal Ballot.

Consequently, the public shareholding increased to 25 per cent, as mandated by SEBI.

As the 'public shareholding' was not achieved by the Company on or before 3rd June 2013, SEBI has issued certain directions vide its Order dated 4th June 2013 to all non-compliant companies, which were briefly as follows:

SEBI has directed for the purpose of complying with the MPS, till such time these companies comply with the MPS, inter alia, as under:

- (a) Freezing of Voting Rights and Corporate benefits like dividend, Rights, Bonus Shares, Split, etc. with respect to the excess of proportionate promoter / promoter group shareholding in the non-compliant companies. For the purpose of above direction proportionate promoter / promoter group shareholding shall be computed on the basis of 'public shareholding' in the Company at three times the existing public shareholding.
- (b) Prohibiting the promoter / promoter group and directors of these non-compliant companies from buying, selling or otherwise, dealing in the securities of their respective companies, either directly or indirectly, in any manner whatsoever, except for the purpose of complying with the requirement of public shareholding.
- (c) Restraining the shareholders forming part of the promoter / promoter group from holding any new position as a director in any listed company.
- (d) Restraining the directors of such companies from holding any new position as a director in any listed company.

The said Order is without prejudice to the right of SEBI to take any other action, including the following against the non-compliant companies, their promoters and/or directors or issuing such directions in accordance with law:

To the Members of
Sundaram-Clayton Limited

Chennai - 600006.

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of Sundaram-Clayton Limited, Chennai - 600006 ("the Company"), which comprise the Balance Sheet as at 31st March, 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;

- i. in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2015;

Emphasis of Matters

We draw attention to the following matters in the Notes to the financial statements:

Note XXII - (1) (f) Accounting for depreciation:-

However, the Company has chosen to reduce the residual value from the depreciation to be provided for in the terminal year, thereby claiming higher depreciation in the earlier years.

Our opinion is not modified in respect of this matter.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial

statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates entities as at 31st March, 2015, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Emphasis of Matters

We draw attention to the following matters in the Notes:

Note XXII - (1) (f) Accounting for depreciation of Independent Auditors' Report To The Members of Sundaram-Clayton Limited and Note XXVI (1)(f) Accounting for depreciation of Independent Auditors' Report to The Members of Sundaram Auto Components Limited:-

The Companies Act, 2013, stipulates systematic allocation of the depreciable amount of an asset over its useful life. The Act also prescribes that a maximum of 5% of the cost can be retained as residual value and the balance 95% to be amortised over the useful life of the asset.

However, the Holding Company and one of its subsidiaries (Sundaram Auto Components Limited, Chennai) have chosen to reduce the residual value from the depreciation to be provided for in the terminal year, thereby claiming higher depreciation in the earlier years.

Our opinion is not modified in respect of this matter.

The financial statements relating to Sundaram-Clayton Limited (parent company), its subsidiaries and associates are prepared under the historical cost convention and comply with the applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 2013.

B. Principles of consolidation

The consolidated accounts have been prepared based on line-by-line consolidation by adding together the book values of like items of assets, liabilities, income and expenses as per the accounts of the parent company and its subsidiaries duly certified by the auditors of the respective companies.

Intra-group balances, intra-group transactions and the unrealised profit on stocks arising out of intra-group transactions have been eliminated.

C. Translation of foreign currency statements

In translating the financial statements of foreign entities for incorporation in the consolidated financial statements, the assets and liabilities are translated at the exchange rates prevailing at the date of Balance Sheet of the respective subsidiaries and income and expenditure are translated at the average of monthly closing rates of exchange for the year.
