We are pleased to inform that our Company has launched 3 new brands to our Home Textile Product Portfolio in the US market.

The new brands include:

1. **Boutique Living**
2. **Revival**
3. **The Pure Collection**

*The details of each of the brands are on the next slide*

BOUTIQUE  
LIVING

Boutique Living has a classic but polished foundation with influences from decorators point of view. It is stylish, aspirational and modern. The look is trend right –not trendy. It is made up of a mix of patterns and solids with attention to detail and welcomed unexpected elements.

The target audience is a successful educated professional who travels several times a year and prefers boutique hotels over large chain hotels. The target consumer makes an above average income and usually shops at retail stores. He/she has a busy life style and loves to socialize, loves to travel and is passionate about décor and decorating the home.

At present we have the following collections in 'Boutique Living': Water's Edge, Seville, Ella and Del Ray

The Revival brand is the spirit of the vintage. It is where classic designs meet urban style - but with a modern touch. Enzyme and stonewashed fabrics are incredibly soft to the touch. Sophisticated, muted colours, match the look and feel of the Revival brand.

The Target audience is a College Graduate/Professional. The 'Revival' audience aspires to have a home that has a hired decorator feel, but done by the homeowner through hunting and gathering items they love over time. She is sophisticated and traditional . She loves classic detailing but has a modern outlook. She adores natural fabrics and prefers a palette which has sophisticated and muted tones.

At present we have the following collections in 'Revival': Verona, Salford, Savannah and Florence.

The Pure Collection is a casual and relaxed quality brand with a minimal yet approachable aesthetic. It is inspired by a natural, environmentally-conscious way of living. The entire collection is 100%-organic cotton for those who are conscious about the environment and choosing products that are free of unnecessary chemicals.

The target audience is the health-conscious woman who buys organic food, is conscious about the environment and avoids using chemicals. She is well-educated, quality conscious and does not mind purchasing organic items for a healthier living. Her personal style is clean, uncluttered and sophisticated.

At present we have the following collections in 'Pure': Leiden, Pure Basics, Granada and Tanglewood.
