RISK MANAGEMENT:

The Company, like any other enterprise, is exposed to business risks which can be internal risks as well as external risks. Any unexpected changes in the regulatory framework pertaining to fiscal benefits and other related issues can affect our operations and profitability.

A key factor in determining a Company's capacity to create sustainable value is the ability and willingness of the Company to take risks and manage them effectively and efficiently. However, the Company is well aware of the above risks and as part of business strategy has put in a mechanism to ensure that they are mitigated with timely action.

The Company has an elaborate Risk Management Framework, which is designed to enable risks to be identified, assessed and mitigated appropriately. The Board of Directors of the Company has constituted Risk Management Committee which has, inter-alia, been entrusted with the responsibility of overseeing implementation/ monitoring of Risk Management Plan and Policy; and continually obtaining reasonable assurance from Management that all known and emerging risks have been identified and mitigated or managed.

The current constitution and role of the Risk Management Committee is in compliance with the requirements of Regulation 21 of the Listing Regulations. Pursuant to the provisions of the Act and Listing Regulations, the Company has adopted Risk Management Policy. The details of the Risk Management Policy are available on the Company's website and can be accessed through the link: https://www.alokind.com/assets/pdf/investor-relations/policies/Risk_Policy.pdf. There has been no change in the Policy during the year under review.

Further details on the Risk Management activities including the implementation of Risk Management Policy, key risks identified, and their mitigations are covered in Management Discussion and Analysis section, which forms part of this Annual Report. In the opinion of the Board of Directors, none of these risks affect and/or threaten the existence of the Company.

VIGIL MECHANISM AND WHISTLE – BLOWER POLICY:

Pursuant to the provisions of Section 177(9) of the Act, read with the Rules made thereunder, the Company has adopted a Whistle-Blower Policy for Directors and Employees to report genuine concerns and to provide adequate safeguards against victimization of persons who may use such mechanism. The functioning process of this mechanism has been more elaborately mentioned in the Corporate Governance Report which forms part of this Annual Report. The said Policy is available on Company's website and can be accessed through the link: https://www.alokind.com/assets/pdf/investor-relations/policies/Whistle_Blower_Policy.pdf.

DIRECTORS AND KEY MANAGERIAL PERSONNEL:

(i) Directors:

In accordance with the provisions of the Act and the Articles of Association of the Company, Mr. Nirav Parekh (DIN 09505075) and Mr. Anil Kumar Rajbanshi (DIN 03370674), retire by rotation at the ensuing Annual General Meeting. The Board of the Directors of the Company based on recommendation of Nomination and Remuneration Committee has recommended their appointment.

The Board of Directors, based on performance evaluation and as per the recommendation of the Nomination and Remuneration Committee has commended the re-appointment of Mr. A Siddharth (DIN: 00016278), Ms. Mumtaz Bandukwala (DIN: 07129301) and Mr. Rahul Dutt (08872616) as Independent Directors of the Company for a second term of 5 (five) consecutive years, effective 14th September, 2025 on completion of their current term of office.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO PURSUANT TO PROVISIONS OF SECTION 134 OF THE COMPANIES ACT, 2013, READ WITH THE COMPANIES (ACCOUNTS) RULES, 2014

A. CONSERVATION OF ENERGY:

In view of the depressed market conditions and overall economic scenario, the Company could only undertake certain subdued measures towards conservation of energy.

a) The steps taken or impact on conservation of energy:

1. Replace old cooling tower fills with new virgin cooling tower fills to enhance performance and efficiency.
2. Transition boilers and HTF vaporizers from furnace oil to natural gas, ensuring cleaner energy usage and improved sustainability.
3. Replace old, worn-out intercoolers and aftercoolers with new, efficient models to optimize cooling performance of Air compressor.
4. Replace old inefficient pumps with energy-efficient pumps in the compressor cooling tower area to reduce energy consumption and operational costs.
5. Install a control valve system to interconnect Weaving Phase-1 with Text Utility and connect the Texturizing IAD air line with Weaving Phase-2. This system optimizes compressor utilization, avoid partial load operation conditions, and streamline air supply management across phases.
6. Reuse of recycle water approx. 400 KL for process cooling tower by installation of ACF and MGF on STP treated water
7. Replacement of old metallic bladed HVAC fans of Weaving Division with New Energy Efficient FRP bladed Fans.
8. Ground water recharge by installing rainwater harvesting chamber.
9. Reduction in compressed air consumption by arresting air leakages and header pressure optimisation contributes to significant energy savings.
10. Power consumption is reduced by implementing variable frequency drives (VFDs) in HVAC Plant to enhance efficiency.
11. Energy optimization is achieved through adjustments to link corner motor frequencies, OHTC optimisation, B/R fan exhaust optimisation.
12. Replacing traditional fluorescent lights with LED lighting contributes to reduced energy usage.
13. Saving due to increase in power generation from cogeneration power plant
14. Saving in steam generation by improvement of Boiler efficiency and reduction of distribution losses.
15. Saving in Heat generation by improvement of Boiler efficiency and reduction of distribution losses.
16. Reuse of cooling recovery water by heat recovery system at YD, Terry Towel and Knits plant.
17. Saving in Electricity bill due to wheeling of Wind power.

b) The steps taken by the Company for utilizing alternate source of energy:

The Company has changed fuel as Natural gas from furnace oil in Transition boilers and HTF vaporizer.

c) Capital investment on energy conservation equipment:

₹4.50 crore.

B. TECHNOLOGY ABSORPTION:**(i) Efforts made towards technology absorption:**

The Company has not entered into any technology agreement or collaborations.

(ii) The benefits derived like product improvement, cost reduction, product development or import substitution:

Benefits from the efforts above include cost rationalization, lower usage of natural resources, enhancement of productivity, resource optimisation.

(iii) Information regarding imported technology (Imported during last three years):

None.

(iv) Expenditure incurred on research and development:

None.

C. FOREIGN EXCHANGE EARNINGS AND OUTGO:

MANAGEMENT DISCUSSION AND ANALYSIS

Alok Industries Limited ("Alok") is one of India's large vertically integrated textile company with uniqueness of integration in both Cotton and Polyester segments. In the Cotton segment, the Company is integrated right from spinning to weaving, processing, finished fabrics, bedsheets, towels and garments. In case of polyester, the integration is from continuous polymerization where PTA and MEG are used to make melt to produce polyester chips to Partially Oriented Yarn (POY), Fully Drawn Yarn (FDY), Drawn Texturized Yarn (DTY) and Polyester Staple Fiber (PSF). Alok's plants are situated at Vapi (in Gujarat) and Silvassa (part of a Union Territory near Vapi) and the Company has a wide customer base across the world that includes global retail brands, textile importers, private labels, and domestic retailers, garment and textile manufacturers and traders.

Alok, on July 17, 2017 underwent a corporate insolvency resolution process under section 31 of the Insolvency and Bankruptcy Code, 2016. Reliance Industries Limited (RIL) along with the JM Financial Asset Reconstruction Company Limited (JMFARC) and JMFARC – March 2018 – Trust submitted a Resolution plan that was approved by the Hon'ble National Company Law Tribunal, Ahmedabad Bench (Approved Resolution Plan) vide its order dated March 8, 2019. The implementation of the Approved Resolution Plan was concluded with the re-constitution of the Board of Directors of the Company on September 14, 2020.

The disturbance in the global geo-political scenario continues to disrupt some of the export markets of western countries. This in turn disrupts the local demand – supply situation too and is adversely affecting the Company's sales.

Due to the economic downturn in neighboring countries with large garment manufacturing set-ups, the Company is cautious in expanding its business with them on account of the business risks involved. All these factors continued to have an adverse effect on the Company as a whole and more specifically in the downstream businesses of bedding, towels, and apparel fabrics.

The Company reported a positive EBITDA of ₹ 136.69 crore in FY25 as compared to EBITDA of ₹ 84.89 crore in FY24. From March 2024, the Company has shifted its polyester business to Job work model due to which the overall sales for the Company declined to ₹ 3,556.59 crore for the year ended 31st March 2025 as compared to sales of ₹ 5,356.35 crore in the previous year. The local sales declined from ₹ 4,248.41 crore in FY 23-24 to ₹ 2,712.72 crore in FY 24-25 and export sales declined from ₹ 1107.93 crore in FY 23-24 to ₹ 843.87 crore in FY 24-25.

The strong background and support of the present promoters and the synergies in group operations is enabling

the Company to sustain in the challenging environment. The Company's standalone rating continued to be CARE AA+ representing strong business fundamentals.

The detailed analysis of the performance of the Company has been given in Section 4 "Financial Performance".

1. Economic Overview

1.1 Global Economic Overview

The global economy demonstrated resilience in 2024, stabilizing at a 3.2% growth rate, aligning with 2023 figures despite prevailing macroeconomic challenges. Emerging economies faced a slowdown, with growth dipping from 4.4% in 2023 to 4.1% in 2024, largely due to prolonged monetary tightening and weakened consumer demand. While inflationary pressures have eased, geopolitical risks, trade realignments, and sectoral disruptions continue to shape the near-term outlook. With financial conditions stabilizing and supply chain resilience improving, 2025 presents a cautiously optimistic trajectory, albeit with persistent risks requiring strategic adaptability.

1.2 India Economic Overview

Despite global macroeconomic headwinds, India's economy has remained resilient, consistently outperforming the global average, driven by robust domestic demand, structural reforms, and strong policy measures. The country has managed economic stability even in the face of external challenges, including supply chain disruptions and inflationary pressures. In 2023-24, India's real GDP is estimated at ₹ 172.90 lakh crore (US\$ 2 trillion), reflecting the sustained expansion of key sectors such as manufacturing, services, and infrastructure. Meanwhile, the nominal GDP has reached ₹ 293.9 lakh crore (US\$ 3.5 trillion), highlighting the country's growing economic influence on the global stage. This growth trajectory, with a strong 9.2% expansion in 2023-24 compared to 7%

in the previous year, underscores India's ability to navigate global uncertainties while maintaining steady momentum. Looking ahead, the economy is expected to build further on this foundation, supported by increasing investments, digital transformation, and a favorable demographic dividend.

Despite these setbacks, industry stakeholders remain optimistic about a gradual recovery in 2024-25, driven by government tax incentives, infrastructure investments, and emerging sourcing opportunities under the "China Plus One" strategy of global buyers. Manufacturers are increasingly focusing on automation, digital supply chains, and sustainable production practices to enhance competitiveness. With inflationary pressures easing and global demand expected to stabilize, textile and apparel production is likely to witness a moderate revival in the coming year.

2. Textile & Apparel Industry Overview

2.1 Global Apparel Market Overview

The global apparel market is estimated at US\$ 1.8 trillion in 2024, growing by 7% compared to 2023. While economic uncertainties and inflationary pressures affected consumption patterns, industry has shown resilience, with demand rebounding in key markets. The United States remains the largest apparel market, expected to reach US\$ 288 billion in 2024, followed by EU-27 (US\$ 316 billion) and China (US\$ 187 billion). India, one of the fastest-growing apparel markets, is projected to reach US\$ 108 billion in 2024, growing at a CAGR of 8% until 2030. By 2030, the global apparel industry is expected to reach US\$ 2.3 trillion, with India's market expanding to US\$ 175 billion, driven by economic growth, rising disposable incomes, and evolving consumer preferences.

The near-term outlook for global textile industry is currently uncertain largely due to uncertainty around US tariff policy. U.S. tariffs continue to create uncertainty in the global market outlook, affecting trade flows and buyer sentiment.

The U.S. has recently announced reciprocal tariffs on imports from multiple countries, aiming to balance perceived trade inequities. Economic analysts predict. The U.S. reciprocal tariffs are set to be introduced in phases, beginning with a universal 10% import duty on all goods entering the U.S. This will be followed by country-specific tariffs, including a 26% tariff on imports from India. These measures could significantly impact global trade flows.

Reserve Bank has cut India's growth forecast to 6.5% from 6.7% estimated earlier for the current financial year on account of impact of global trade and policy uncertainties.

While currently on hold, India faces a 26% tariff, which is lower than the higher tariffs imposed on Bangladesh (34%) and Vietnam (41%), two key competitors in the textile and apparel sector. This could improve India's relative competitiveness in the long run, as buyers may reconsider sourcing strategies. While this development may benefit India in the long run, it is still in a nascent stage. Trade negotiations are expected, and the final outcome remains uncertain and highly unpredictable.

The US apparel store sales showed no change in 2024 YoY. Similarly, clothing and accessories e-commerce sales dropped by 2% in 2024 compared to last year.

Further majority of the brands have further intensified focus on circularity and traceability, driven by stricter EU and US regulations. Investments in recycling and innovation are gaining momentum as sustainability takes center stage. Companies are focusing on circular economy principles, advanced textile recycling

technologies, and product innovation to differentiate themselves in an evolving market.

As inflation stabilizes and global interest rates ease, consumer demand is expected to recover further. India remains a key focus area for global retailers and investors, given its strong domestic market and increasing manufacturing capabilities.

2.2 Global Textile & Apparel Trade

In 2024, the global textile and apparel (T&A) trade was estimated to be around US\$ 875 billion, growing at a 1% CAGR since 2019. While the industry faced headwinds in recent years due to inflationary pressures and economic slowdowns in key consumer markets, it showed resilience and gradual recovery. With macroeconomic conditions stabilizing, demand in major markets is expected to strengthen, setting the stage for renewed growth in the coming years.

Apparel remained the most dominant segment, accounting for approximately 60% of total trade value in 2024, highlighting the continued strong demand for finished garments over raw materials and textiles.

Figure 4: Global T&A Trade (Value: US\$ Bn)

From an export perspective, China retained its position as the largest global exporter, contributing US\$ 296 billion in textile and apparel shipments, commanding a 34% share of global trade. The European Union (Extra EU-27) ranked second with an 8% share, valued at US\$ 66 billion, followed by Vietnam at US\$ 44 billion (5%), surpassing Bangladesh and India. Bangladesh and India followed closely with exports of US\$ 42 billion and US\$ 37 billion, respectively. Turkey, USA and the rest of the world (RoW) contributed to the remaining global trade.

Despite short-term volatility, the industry is expected to maintain an upward trajectory in the coming years, with global trade projected to reach US\$ 1,200 billion by 2030.

USA Imports

In 2024, the USA's T&A imports saw a marginal recovery compared to 2023 but remained below the 2022 peak. Total T&A imports stood at US\$ 113 Bn, reflecting a -2.9% decline from the 2022 level. Imports from China continued their downward trajectory, declining to US\$ 28 Bn (a -20% drop from 2022), as brands further diversified their sourcing under the China+1 strategy. Vietnam's exports grew to US\$ 16 Bn, recovering slightly from 2023 levels, while India's exports reached US\$ 10 Bn, remaining stable compared to 2022. Bangladesh's exports to the USA also declined to US\$ 7 Bn, reflecting weaker apparel demand. Other sourcing destinations such as Mexico, Indonesia, Cambodia, and Pakistan maintained steady contributions, but overall trade dynamics continue to be influenced by macroeconomic uncertainties and shifting global supply chain strategies.

EU Imports

In 2024, the EU's total textile and apparel (T&A) imports declined to \$127 billion from \$138 billion in 2022, marking an 8% contraction amid geopolitical uncertainties and shifting trade patterns. China strengthened its position, increasing its share from 31.2% to 35.4% as exports rose from \$43 billion to \$45 billion. In contrast, Germany's share fell from 15.9% to 15.7%, with exports declining 9% to \$20 billion, while Bangladesh saw a sharper drop of 17%, reducing its share from 13.0% to 11.8%.

Italy and Turkey remained stable, while France's exports fell 33% to \$2 billion, signaling weakening intra-EU trade. These shifts highlight the EU's evolving sourcing landscape, with China gaining ground as traditional suppliers face competitiveness challenges.

2.3 Indian Textile and Apparel Industry

India's textile and apparel market is estimated to be worth US\$ 184 Bn in 2024-25. This market has demonstrated consistent growth over time, driven primarily by strong domestic demand. Anticipated future growth is projected to be sustained by ongoing expansion in the domestic market and significant potential for growth in exports.

Figure 7: India's T&A Market Size

Source: Wazir Analysis

MANAGEMENT DISCUSSION AND ANALYSIS

Apparel leads the sector, contributing US\$ 108 billion to domestic sales and US\$ 16 billion to exports, reinforcing its position as the largest category.

Technical textiles, valued at US\$ 28 billion, are gaining momentum, driven by increasing applications across industries such as automotive, healthcare, and infrastructure.

Home textiles (US\$ 11 billion) continue to be a stable contributor, catering to both domestic and international markets. Meanwhile, textile exports stand at US\$ 21 billion, showing India's strong presence in global textile trade.

While exports remain a smaller portion (US\$ 37 billion) of India's T&A economy, they play a crucial role in the country's positioning as a key global supplier. With rising demand for functional and sustainable textiles, India's focus on innovation, value-added products, and expanding trade partnerships will be pivotal for future growth.

2.4 India's Domestic Market Scenario

India's domestic textile and apparel (T&A) market has expanded from US\$ 106 billion in 2019-20 to an estimated US\$ 147 billion in 2024-25, reflecting a CAGR of 7%. Apparel dominates, contributing US\$ 108 billion, while home textiles (US\$ 11 billion) and technical textiles (US\$ 28 billion) are steadily growing.

Figure 8: India's Domestic T&A Market (Value US\$ Bn)

Source: Wazir Analysis

The domestic T&A market is expected to grow at a CAGR of 9% from 2024-25 onwards and reach US\$250 Bn by 2030-31. Technical textiles are expected to be the fastest-growing segment, reaching US\$ 54 billion by 2030-31, while home textiles will expand to US\$ 16 billion. Apparel will remain the largest segment at

US\$ 180 billion, driven by rising consumer demand, increasing urbanization, and government initiatives supporting domestic manufacturing and innovation.

2.5 India's Exports Scenario

India's textile and apparel (T&A) exports have fluctuated over the years, reaching an estimated US\$ 37 billion in 2024-25, recovering from US\$ 35 billion in 2023-24. Apparel remains the largest export segment, contributing US\$ 16 billion, followed by fabric (US\$ 6 billion), yarn (US\$ 6 billion), and home textiles (US\$ 6 billion). The export market saw a peak of US\$ 43 billion in 2021-22, driven by post-pandemic demand recovery, before stabilizing. Diversification of exports, enhanced global competitiveness, and increased value-added products will be crucial for sustained growth in the coming years.

2.6 India's Imports Scenario

India's textile and apparel imports have grown at a modest CAGR of 1% from 2019-20, reaching US\$ 9.2 billion in 2024-25. Fabric holds the largest share of imports at approximately 30%, followed by fiber at 25%. A significant portion of these imports includes synthetic fiber, yarn, and fabric, which are not widely produced in India.

Additionally, low-cost imports from China contribute to the overall volume. With increasing domestic demand and a growing textile manufacturing ecosystem, imports are expected to rise in the future.

3. Alok Business Segments

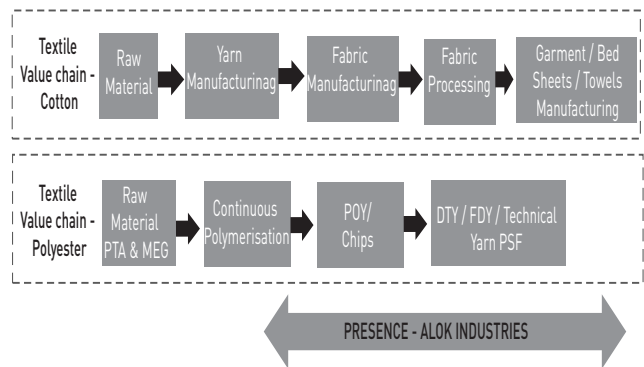

Alok Industries has a strong presence in both the Cotton and Polyester segments. In the Cotton segment, the Company is integrated from spinning to weaving, processing, finished fabrics, bedsheets, towels and garments. In case of Polyester too, the Company is fully integrated starting from continuous polymerization plant to the production of chips, POY, FDY, DTY and PSF.

The Company's vertically integrated facilities and flexibility of operations enables it to produce cotton and cotton blended fabrics in various counts and construction and a wide range of finishes. The Company's global scale integrated plants, modern manufacturing flexibility, product development team and competent marketing force facilitates a deep understanding of customer needs and its satisfactory fulfilment.

The Company has a large customer base comprising of domestic and overseas retailers, brands, and garment exporters in India and converter countries [countries which primarily do garment manufacturing like Bangladesh, Vietnam, Sri Lanka] who are vendors to major international labels. This product, customer and market diversification enables risk mitigation and places the Company at a competitive advantage over other players in the industry. Alok has also ensured that its target market is a diverse mix of the international market, garment export trade and domestic market.

The level of integration of Alok as shown in Chart below

Alok's Business Intergration in Cotton & Polyester

The company operates under the following four divisions:

- Spinning Division
- Polyester Division
- Home Textiles Division
- Apparel & Fabric Division

3.1. Spinning Business Outlook

India's yarn exports for the first nine months of 2024-25 declined by 10% year-on-year, amounting to US\$ 3.2 billion. One of the key challenges faced by the spinning sector in India is the higher cost of cotton compared to international prices which has put high pressure on margins in the spinning sector and demand for Indian commodity spun yarn in export markets. With changing market dynamics going forward the spinning units with large scale will have higher advantage in terms of managing costs and remaining competitive.

Alok, a key player in the Indian spinning industry, is known for its large scale, advanced infrastructure and strong emphasis on research and product development. Its spinning facilities are located in Silvassa, with a significant portion of its yarn—approximately 55% to 60%—being internally consumed across its woven fabrics, knitted fabrics, bedding, and terry towel divisions.

3.2. Polyester Business Outlook

Despite challenges in the export market, India's polyester exports have grown. In 2024, India's polyester exports reached approximately US\$ 1 billion, comprising

MANAGEMENT DISCUSSION AND ANALYSIS

US\$ 0.8 billion in filament yarn and US\$ 0.3 billion in staple fiber, reflecting a 13% growth compared to 2023. Exports are expected to rise in tandem with increasing global demand. The domestic market for polyester-based products is also expanding, creating significant growth potential for polyester yarn and fiber. Growing categories like activewear, women's western wear, innerwear etc. constitute large portion of polyester yarns and will further increase demand for polyester. Further, the Government of India's Production Linked Incentive (PLI) scheme is also expected to boost the production of man-made fiber-based textiles and apparel.

However, the Company has shifted its major polyester business to Job work model from March 2024.

3.3. Home Textiles Business Outlook

India has established itself as a prominent manufacturer of home textiles on the global stage, second only to China, holding a market share of approximately 11% in the global home textile trade. The Indian home textiles exports stood at around US\$ 6.4 Bn. in 2024 increasing significantly by 12% compared to 2023. This was primarily driven by return of demand in major markets and global geo-political factors favoring India. The exports are further expected to increase as the global economy stabilizes. India exports its home textiles products primarily to the EU and USA, which constitute more than 70% of India's home textiles export markets. India has a strong manufacturing ecosystem for home textiles with the presence of large and integrated players with strong capabilities which will serve as a huge advantage in the post-covid world, in catering to global market requirements.

Alok is amongst one of the largest home textiles manufacturers/ exporters in India and has a large capacity of manufacturing in bedding as well as terry towel. Its weaving manufacturing facility & major stitching unit for bedding is at Silvassa and fabric processing is at Vapi. The entire terry-towel manufacturing is at Vapi. At Heimtextil 2025, Alok reinforced its leadership in this segment by unveiling its latest innovations in bed and bath linens, emphasizing sustainability and performance. Key introductions included:

- Recron Performance Fiber-based collections, co-developed with Reliance Industries, engineered for functionality and durability.

- Eco-friendly innovations such as ultra-soft, PVA-free towels, recycled polyester blends, and 100% organic cotton-based products.
- The launch of Kasturi Cotton-based towels, reinforcing India's domestic cotton value chain while catering to global premium segments.

The major export market for home textile products for the Company is USA, which is the largest consuming Centre for home products in the world. The other export destinations include European countries and Australia.

Alok has also inaugurated a flagship 17,600 sq. ft. showroom at New York, strengthening its global presence and customer engagement. Serving as a strategic hub during the Spring New York Home Textiles Market, space showcases Alok's innovative, sustainable collections and supports collaborative product development with key international partners.

3.4. Fabrics & Apparel Business Outlook

In 2024, India exported fabric worth US\$ 4.4 Bn, comprising US\$ 3.9 Bn woven fabric and US\$ 0.5 Bn knitted fabric. Fabric exports increased by 2% in 2024 compared to 2023. Since 2010, the global apparel trade has demonstrated consistent growth, with a CAGR of 3%, reaching US\$ 515 Bn in 2023. The global apparel trade has reached pre-pandemic levels in 2024 and is estimated at US\$ 515 Bn.

In 2024, India witnessed resurgence in apparel exports in line with increase in global apparel exports. India's apparel exports increased by 8% in 2024 to reach US\$ 15.7 Bn. The increase is largely attributed to the prevailing global market conditions which have favored India and going forward as the market demand improves India's apparel exports are also expected to grow. Given that buyers are looking for alternative to China, and now Bangladesh as well, India has an immense opportunity to tap the opportunity and emerge as a leading exporter of apparel. With the world increasingly considering India as an alternative to China, the country is presented with a significant opening to expand its global market presence. Besides the export market, the domestic apparel market also offers a huge opportunity for growth for the apparel segment. The domestic apparel market is expected to grow at 9% CAGR and reach US\$ 180 Bn by 2030 from the current level of US\$ 108 Bn.

4. Financial Performance Standalone

During the current financial year, the market situation all around and across product segments was very challenging. The adverse global economic and the geo-political conditions due to higher inflation, interest rates and conflicts between Israel – Palestine / Russia – Ukraine has had negative impact on the entire Textile chain in the world. Its export sales and domestic sales saw a drop due to the above factors. A lot of the products supplied by Alok in the domestic market are used as an input for export of the end products. The Company has shifted its polyester business to a job work model from March 2024.

Embroidery and Garment segments of Apparel Fabric business were adversely impacted. Alok witnessed a drop of around 16% and 27% in the sales revenue as compared to the previous year in the Embroidery and Garment segments respectively. The overall sales revenue in Apparel Fabric business increased by 9%.

The local sales declined from ₹ 4,248.41 crore in FY 23-24 to ₹ 2,712.72 crore in FY 24-25 and export sales declined from ₹ 1107.93 crore in FY 23-24 to ₹ 843.87 crore in FY 24-25.

The Home Textile business was adversely impacted and reduced by 7% and Cotton Yarn Spinning business reduced by 18%.

The Company reported EBIDTA at ₹ 136.69 crore (including exceptional gain on sale of fixed asset) for the year as compared to an EBIDTA of ₹ 84.89 crore in FY 24.

Table 2 gives the summarized profit and loss statement of the Company in the current financial year compared to the previous financial year. The brief analysis of the stand-alone results is given in the table below:

Textiles: Mileta

Through its step-down subsidiary, Alok Industries International Limited, BVI, Alok has a 100% stake in Mileta, a Czech-based fabric manufacturing company. Mileta's facilities are located in Horice (Weaving and Administration) and Cerny Dul (Processing) in the Czech Republic.

Mileta has high end technological skill in yarn-dyed fabrics and hemming that results in higher per unit realisation. The Mileta range of products includes high quality shirting, batistes and voiles, complete line of functional table linen, bed linen and handkerchiefs. It supplies its fabrics to almost all the leading brands in Europe and USA.

For the year ended 31 March 2025, Mileta has achieved sales of ₹ 152.27 crore and made a loss of ₹ (49.63) crore as compared to sales of ₹ 153.23 crore and profit of ₹ (28.53) crore in March 2024.

UK Retail: Store Twenty One

Alok held a 99.87% equity stake in Grabal Alok (UK) Ltd, through its step-down subsidiaries Alok Industries International Limited and Grabal Alok International Limited. Grabal Alok UK used to operate the 'Store Twenty One' chain of value-format stores in UK.

Grabal Alok UK is under liquidation as per the court order dated 10th July 2017 under the provisions of the Insolvency Act 1986. The Company has impaired its entire investment.

Investment: Alok Infrastructure Limited

The Company made certain investments in the realty sector through its 100% subsidiary Alok Infrastructure Limited. The plan was to create value and monetise the same at the right opportunity. However, depressed market conditions in the real estate space resulted in the Company having to dispose of some of its assets at losses. The Company has also provided for the loans / advances which are not recoverable from its subsidiaries. There are no operations being carried out presently in Alok Infrastructure Limited and it had no revenue for the year (Previous Year "Nil") and loss for the year was ₹ 8.08 crore (Previous Year loss of ₹ 12.73) Crs. The loss is mainly on account of interest provision on loan.

Other Subsidiaries

The other direct and step-down subsidiaries of the Company are non-operational. The performance of all of subsidiaries and step-down subsidiaries are given in table 11.

Consolidated Results

Tables 9, 10 and 11 give the profit and loss highlights, balance sheet highlights and Company wise sales of Alok as a consolidated entity. The loss in consolidated accounts for the year was ₹ 854.26 crore (previous year loss ₹ 875.44) crore.

HUMAN RESOURCE

Alok Industries Limited has been actively refining its HR processes and policies to align with the evolving needs of the textile industry. In the financial year 2024–2025, the company focused on harmonizing employee benefits and streamlining policies to reward meritocracy and teamwork.

As of March 31, 2025, Alok Industries' total employee strength, including contract workers, stood at 21,037. With a clear vision of becoming a preferred employer in the textile sector, the company remains committed to fostering a dynamic and engaging work environment that empowers people and drives performance excellence.

Strengthening the Leadership Team for the Next Phase of Transformation

The financial year 2024–2025 marked a significant inflection point for Alok Industries Limited, as the company embarked on a renewed strategic direction under the guidance of a restructured and revitalized leadership team. This restructuring is aligned with the organization's long-term vision of operational excellence, innovation, and sustained growth in the highly competitive textile industry.

At the forefront of this transformation is the elevation of Mr. Harsh Bapna as the Chief Executive Officer. Mr. Bapna is spearheading the company's renewed mission to drive value creation, enhance operational efficiency, and position Alok Industries as a competitive player in textile industry.

To support this strategic shift, several senior leaders have been inducted across key business and functional verticals:

- Mr. Biji Chacko joined the organization as Chief Operating Officer. With extensive experience in managing complex operations and driving process excellence, he brings a sharp execution focus to the company's businesses, manufacturing and supply chain functions.
- In a strategic move to further energize the business divisions, Mr. Ravi Bhargava joined as Divisional CEO – Apparel & Fabric Division, and Mr. Jayesh Saxena assumed the role of Divisional CEO – Home Textile Division. Their appointments reflect a renewed emphasis on product innovation, customer engagement, and market expansion within their respective segments.

- Reinforcing our supply chain and planning function, Mr. Senthilkumar M. A. joined as Head – Sales & Operations Planning (S&OP), bringing expertise in demand forecasting, integrated planning, and execution alignment. Mr. Shishir Verma took charge as Head – Procurement & Contracting, with a mandate to streamline sourcing strategies, build robust vendor partnerships, and ensure cost competitiveness.
- Several other leaders also joined to strengthen specific business and support functions:
 - o Mr. Vidyesh Talekar was on boarded as Business Head – Bed Linen Department, where he is leading efforts to innovate and expand in this critical product category.
 - o Mr. Kulvinder Marwah joined as Head of IT, playing a key role in driving the company's digital transformation journey, enhancing system integration, and strengthening data-driven decision-making.

The infusion of this high-calibre leadership talent represents a strategic step forward for Alok Industries. Each of these leaders brings unique expertise, fresh perspectives, and a shared commitment to excellence that is expected to play a pivotal role in driving the company's transformation agenda. Together, this team is well-positioned to lead Alok Industries into its next phase of growth, agility, and innovation.

Key HR Initiatives Undertaken in Financial Year 2024–2025

The financial year 2024–2025 was a pivotal period of transformation for Alok Industries Limited's Human Resources function. With a renewed leadership team and a forward-looking vision, the company laid the groundwork for a people-centric, performance-driven organization. A series of strategic HR initiatives were conceptualized and implemented to strengthen employee engagement, modernize systems, and align workforce capabilities with business objectives. Below is an in-depth overview of some of the most significant HR interventions undertaken during the year:

A) Office Relocation to Dhirubhai Ambani Knowledge City (DAKC), Navi Mumbai

One of the key infrastructural changes this year was the successful relocation of Alok Industries' corporate office to the prestigious Dhirubhai

MANAGEMENT DISCUSSION AND ANALYSIS

Ambani Knowledge City (DAKC) in Navi Mumbai. This move was driven by multiple strategic considerations:

- **Enhanced Facilities:** DAKC offers superior amenities, including modern workspaces, employee wellness infrastructure, tech-enabled conference rooms, and recreational facilities, improving overall work experience.
- **Proximity to Established Ecosystem:** Being situated within the strategic campus enables Alok Industries to tap into the shared knowledge, infrastructure, and innovation ecosystem of one of India's largest conglomerates.
- **Collaboration & Synergy:** The location fosters closer collaboration between teams and aligns with the vision of creating a more integrated, networked, and responsive work environment.

B) Digital Transformation through SAP Human Capital Management (SAP HCM)

In a major stride toward digital transformation, the HR function implemented the SAP HCM (Human Capital Management) platform. This initiative was part of a larger objective to modernize legacy HR systems and introduce automation and standardization across key HR processes.

- **Automation of Core HR Functions:** Processes such as payroll, attendance, employee data management, and compensation were transitioned from manual or fragmented systems to a unified digital platform.
- **Streamlined Processes:** The implementation significantly improved process accuracy, reduced administrative overhead, and increased HR operational efficiency.
- **Collaboration with Domain Experts:** The project benefited immensely from the SAP HR experts, ensuring best-in-class system implementation and seamless change management.
- **Adoption of Industry Best Practices:** The platform enabled integration of robust HR practices across talent management, workforce planning, and compliance.

This system transformation has empowered the HR team with better data, faster processing, and enhanced service delivery capabilities.

C) Employee Self-Service (ESS) Portal – Launch of PeopleFirst

Building on the SAP HCM foundation, Alok Industries launched the PeopleFirst ESS platform, a digital interface that enables employees to independently access and manage a wide array of HR services. The platform represents a step toward democratizing HR service delivery and putting the employee at the center of the HR ecosystem.

- **Enhanced Transparency:** Employees can now track and manage their leave balances, payslips, tax declarations, and more, without depending on HR intermediaries.
- **Ease of Access:** With intuitive design and 24/7 availability, the platform significantly improves user experience and accessibility for the entire workforce.
- **Boost in Employee Engagement:** Empowering employees with control over their personal data and requests has strengthened trust, accountability, and engagement.

The PeopleFirst platform has become an essential tool in fostering a transparent, responsive, and employee-focused workplace.

D) Launch of R-University – Learning & Development for a Future-Ready Workforce

Recognizing that employee development is key to long-term success, Alok Industries launched R-University, a digital learning platform tailored to the needs of a growing, dynamic workforce.

- **Comprehensive Learning Resources:** The platform hosts a wide range of training modules, covering technical skills, leadership development, functional competencies, and soft skills.
- **Personalized Learning Journeys:** Employees can set individual goals, track progress, and engage with content at their own pace.
- **Performance-Linked Development:** The learning content is closely aligned with organizational needs and role-specific competencies, ensuring relevance and ROI.

- **HR L&D Enablement:** The platform provides insights and analytics to the HR Learning & Development team, allowing them to tailor programs and interventions more effectively.

By nurturing a culture of continuous learning, R-University is enabling employees to remain future-ready and actively engaged in their personal and professional growth.

E) Structured Induction with e-Namaste – A Redesigned Onboarding Experience

To improve the employee onboarding experience, the company introduced e-Namaste, a digitized and structured induction program aimed at making the transition for new hires smooth, informative, and engaging.

- **Holistic Onboarding:** New employees are introduced to company culture, policies, business functions, and leadership teams through interactive sessions and digital content.
- **Cross-Functional Integration:** The program encourages inter-departmental interaction, helping new hires build connections across business units.

- **Faster Time to Productivity:** By offering early clarity and context, e-Namaste ensures that employees are better prepared to contribute effectively from the outset.
- **Stronger Employer Brand:** A well-structured onboarding process significantly improves early employee experience and contributes to retention.

The e-Namaste initiative underscores the company's commitment to making every new joiner feel welcomed, supported, and aligned with its vision.

(F) Leadership Alignment Initiatives – Building a Unified Vision

With the induction of a new leadership team, it was imperative to bring strategic clarity and alignment across top management. To this end, Alok Industries took several measures to ensure leadership alignment at businesses, functions & manufacturing site.

These initiatives laid the groundwork for a united leadership team committed to driving excellence, innovation, and sustainable growth.

Conclusion: A Transformational Year for People & Culture

The HR initiatives undertaken during FY 2024–2025 represent a major leap forward in how Alok Industries views, engages, and empowers its workforce. From system modernization and digital self-service to leadership development and structured onboarding, every intervention was aimed at making Alok Industries a future-ready, people-first organization. These efforts have not only optimized operations but also significantly strengthened the company's foundation for sustainable growth and long-term success.

SUSTAINABILITY AND CORPORATE SOCIAL RESPONSIBILITY (CSR) INITIATIVES – FY 2024–2025

Alok Industries Limited continued to advance its commitment to sustainable business practices and inclusive development throughout the financial year 2024–2025. Guided by the values of responsibility, innovation, and stewardship, the company reinforced its dedication to environmental sustainability, community welfare, and circular economy practices, creating long-term value for all stakeholders.

Rooted in its core values of Environment, Health, Safety, Society, and Sustainability, Alok Industries undertook several strategic initiatives aimed at minimizing environmental impact and fostering socio-economic development:

- **Scaling the Use of Renewable Biomass Energy:** The company further expanded the usage of eco-friendly biomass briquettes—produced from cottonseed residue, ground nutshells, sawdust, and dust particles—as a renewable energy source in its solid fuel-fired boilers. This move significantly reduced dependency on fossil fuels and lowered carbon emissions.
- **Promoting Circularity through Recycling:** In line with circular economy principles, Alok Industries enhanced its recycling capabilities by converting polyester waste, yarn scraps, and PET flakes into premium-quality, 100% recycled polyester fibre. This initiative not only conserves natural resources but also reduces landfill dependency and environmental pollution.
- **Integrated Waste Management Strategy:** The company further strengthened its waste management systems by implementing innovative recycling methods, ensuring that a substantial share of industrial waste

is reprocessed into reusable resources for internal operations and partner ecosystems.

- **Advanced Water Stewardship:** Through upgraded water recycling and treatment technologies, the company maintained its focus on efficient water reuse, drastically reducing freshwater withdrawal and contributing to water security in the regions of operation.

Alok Industries believes that sustainability and innovation are twin enablers of industrial resilience, economic value, and environmental responsibility. The company continues to pursue a decarbonization roadmap by embedding energy-efficient practices, expanding its portfolio of eco-friendly products, and integrating sustainable design and raw material sourcing across its manufacturing value chain.

Corporate Social Responsibility: Enabling Empowerment and Well-being

Beyond business, Alok Industries remained deeply committed to its CSR agenda, with a strong emphasis on community upliftment, skill development, women's empowerment, and healthcare support, particularly in regions surrounding its manufacturing facilities.

Key CSR efforts in FY 2024–2025 included:

- **Empowering Women Through Livelihood Opportunities:** The company continued to support self-help groups (SHGs) by providing training and employment in tailoring and garment manufacturing, promoting self-reliance and financial independence among women in local communities.
- **Skill Development for Inclusive Growth:** The company's Skill Development Centre for Garment Stitching remained a pillar of its CSR outreach, equipping youth and women with vocational skills that enhance employability and foster long-term career opportunities in the textile sector.
- **Supporting Access to Healthcare:** Alok Industries played an active role in expanding healthcare access by contributing to the development of a Dialysis Centre at the Civil Hospital, helping improve treatment accessibility for patients in need of life-sustaining care.

MANAGEMENT DISCUSSION AND ANALYSIS

Risks & Risk Mitigation

RISK ASSOCIATED WITH THE COMPANY:

The Company is exposed to various risks which include factors such as rising competition in the market on the domestic and export fronts, duty free access to competing countries in US and European markets, uncertain business environment including conflict between Russia and Ukraine, rupee fluctuation, volatility in raw material prices and its availability, slowdown in demand and change in fashion trends, possibility of increase in interest rates, etc. Besides this the Company is also exposed to factors such as the change in government policies, duties & taxes, availability of power from the grid, availability of labour etc. The Company tries to mitigate these risks by taking quick actions and proactive initiatives to minimize the impact of these risks to the extent possible. Some of these threats are given below:

Raw material related Risk:

Raw material being a major cost of production, Company's operations and profitability are significantly dependent on price and timely availability of raw materials used in production process. The primary raw materials for our textile operations are raw cotton. The Company also buys cotton yarn, polyester yarn and fabrics of specifications required by customers which are not produced in its plants or in case the internal capacities are not available.

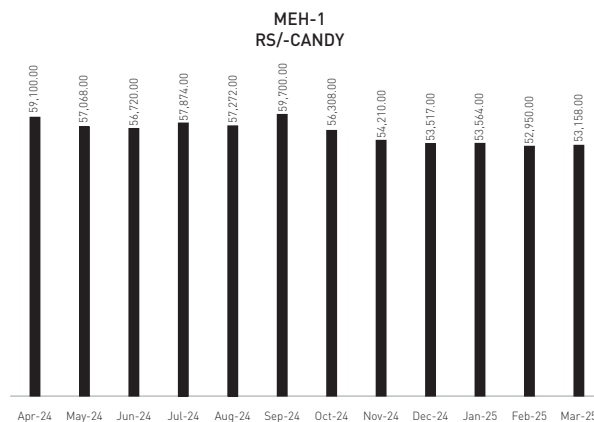

Cotton:

Being an agricultural commodity, prices of cotton are affected by a range of factors like changes in weather conditions affecting sowing, government policies and regulations. Governing taxes, tariffs, duties, subsidies, import and export restrictions on agricultural commodities, overall supply situation in the world, etc. all these influence pricing and demand supply situation in this industry. The planting of certain crops versus other uses of agricultural resources, the location and size of crop production, volume and types of imports and exports, etc. determine availability of cotton.

As compared to FY 2024, the cotton prices saw a decline in prices in FY 2025. As given in the chart below, it remained lower than ₹ 60,000 per candy touching a low of around ₹ 52,950 in Feb.25 from a level of around ₹ 59,700 in September'24. The year end prices were around ₹ 53,000.

We expect the prices of cotton to remain range bound between ₹ 55,000 – ₹ 60,000 per candy in FY 2026.

Figure 11: Price Movement of Cotton MECH

The Company has an experienced team for procurement of raw cotton with a deep understanding of this natural fibre. As a Company, we have adopted various processes whereby we are expanding our sources across different supply chain intermediaries and other stake holders. Cotton being an international commodity, our focus remains optimizing domestic and international opportunities to create a competitive edge of sourcing based on landed cost.

Market related Risk:

The Company's performance is dependent upon the demand situation in individual business segments. A slowdown in demand may lead to decline in production/ sales and thus impact profitability. The value-added segments of Apparel Fabrics and to some extent Home Textiles, are also subject to trends in fashion and consumer demand. Moreover, major international incidents such as Russia-Ukraine and Israel and Gaza / Iran conflicts also impact the demand not only from the impacted economies but also the major global markets.

The market demand is also dependent on global economic and international trade dynamics. The USA reciprocal tariff being negotiated can have a major impact international trade directions and demand. This is likely to impact textile trade in a major way.

The Company's products are sold in both domestic as well as exports markets. While the company's major sales are in domestic market (about 75%- 80%), exports are also expected to remain a sizeable part (about 20%- 25%) of the Company's revenues.

The Company's exports markets, predominantly USA, Europe, and Asia, are very competitive with high emphasis on timely delivery. All the products of the Company are getting exported. Home textiles (bedding and towels) are the major chunk of the Company's exports constituting about 55% of the total exports.

Ability to develop products as demanded by customers and new designs development capability are critical factors for exports markets. The Company has been so far successful in meeting these demands over the years and has also won several export awards in the past instituted by the Government and Export Promotion Councils.

India no longer enjoys preferred market access in terms of concessional import duties in major exporting countries like USA & Europe. The Company is progressively widening its markets with increasing focus on Asia and some countries in Africa to mitigate the challenges that are likely to arise in the developed markets. The Company has been able to retain key customers in USA and Europe, albeit with lower volumes. Now with completion of the necessary maintenance of its plants, the Company is confident of bringing into its fold, customers who have moved away in the last few years, given the quality of the products and capacity to supply large volumes consistently.

In the domestic market as well, the Company faces competition from organised big players and the unorganised small and fragmented players. The Company has developed a good reputation amongst the domestic traders, garment manufacturers and brands due to quality, design capabilities and cost. Further, the Company has started building relationships with large retailers (physical and online) to supply fabrics and garments. The Company's operations are now getting scaled up and it is fully prepared to meet larger volumes. The Company is confident that it would regain a preferred supplier status for big brands and retailers given the quality, design capability and the capacity to provide large volumes on a consistent basis.

Financial Risk:

The company must meet its financial obligations on time. The Company has an outstanding term loan from banks of ₹ 3,500 crore and working capital limits of ₹ 300 crore. The Company is required to meet the interest obligation on these loans periodically and also has to meet the repayment of term loan as per the terms of sanction. Moreover, the Company's loans are linked to MCLR of the sanctioning banks. Any increase in MCLR would lead to increase in interest rate for the Company on its borrowing.

The Company's present rating is AA+ stable (by CARE) which denotes high level of certainty of meeting debt obligations.

Information Technology Risk

Information and Technology being the major backbone of Company's overall operation and data storage/ analysis, is another key risk area identified by the Company and several measures are being taken to strengthen the same and mitigate the risk associated with this.

The company has successfully implemented a new instance of SAP on a new landscape to replace the earlier obsolete and unsupported instance, which has been functional since 2007. This instance has gone live on 1st September 2023 (transactions prior to 1st September continue to be on the earlier hardware) with the following core modules:

- a. Sales and Distribution
- b. Materials Management
- c. Finance and Controlling
- d. Production and Planning
- e. Quality Management
- f. Plant Maintenance
- g. Logistics & EWM

Human Capital Management (including ESS) has been rolled out from 1st April, 2024 after 6 months of parallel run.

The Company has also successfully migrated the earlier unsupported instance running on end-of-support hardware to a new hardware environment. This instance carries data from April 2007 until August 2023. Both the environments are hosted at the highly secured data center of RIL with a full proof DR environment. Highest level of RTO and RPO are ensured in the present landscape.

Cyber security being a major concern for the IT ecosystem, we continue to focus on enhancing cyber security architecture which can protect our landscape from a wider range of security threats under guidance of "IRM - Governance & Risk Management, Reliance Industries Ltd". Access to computing infrastructure such as servers, workstations, network devices etc. are monitored very closely for possible security threats. Necessary controls are strengthened on a continuous basis.

Remote working is enabled for all employees who need to access company's computing resources from anywhere through secure and controlled paths created through VPN.

Some of the improvements done during the financial year are:

- Old and obsolete IT systems are replaced with new systems. (Ongoing process)

MANAGEMENT DISCUSSION AND ANALYSIS

- Network infrastructure is being hardened to mitigate security threats (ongoing process).
- Multi-factor Authentication and MAC address binding are enforced, as applicable.
- Implemented stronger password management system across applications and devices.
- Network bandwidth is continuously optimized to ensure seamless access to applications/database from all locations.
- The external E&Y ITGC system audit for FY 2023-24 has been completed, and the audit for 2024-25 is in progress.

Currency Risk

The Company is subject to currency exposure risk given its significant size of exports. The company's imports are much lower as compared to its exports and thus as far as foreign currency payments are concerned, the company has a natural hedge. The Company has been sanctioned a limit to hedge the currency exposure on export receivables and covers exports to the extent needed to cover open risk (net). The Company also has in place a hedging policy to mitigate currency risks. The currency risk is thus adequately mitigated.

Government Policies:

The company's business also has a threat of sudden change in government policies like policies relating to export and import of certain products, change in customs duty structure, change in export incentives, change in GST rates, etc. Similarly other government policies such as policies relating to labour etc. also have their impact in overall competitiveness of the Company as compared to the competing countries in the international markets. The Company monitors the changes in government policies on day-to-day basis and forms appropriate strategies to mitigate the impact on the Company while ensuring adequate compliances.

Outlook

The inflation in the major economies of US, Europe and UK is coming down slowly. The central banks interest rate hike scenario in those countries is also now teeming down.

As a result, these economies are expected to improve gradually. Some sign of demand revival from those countries is also visible based on the recent meetings of our marketing teams had with the international buyers. The cotton prices have also come down to about ₹ 53,000/- ₹ 55,000/- per candy and the crude is moving in a range bound manner. We, therefore, expect overall market situation to improve in FY 2026 and with the gradual revival of demand, our operating rates of the downstream businesses is expected to improve during the year. This along with several measures undertaken by the Company to improve quality, sales realization and cost reduction are expected to yield positive results during the year. The strong support from our promoters RIL is also to be considered as an important factor for our solidity. We therefore look at the future optimistically.

Internal Control and Adequacy

The Company has in place a well-established framework of internal control systems which are commensurate with the size and complexity of its business. The Company has an independent internal audit function covering major areas of operations and the same is carried out by an external Chartered Accountant firm engaged for this purpose.

Cautionary Statement

Statements in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking statements' within the meaning of applicable laws and regulations. These statements have been based on current expectations and projections about future events. Wherever possible, all precautions have been taken to identify such statements by using words such as 'anticipate', 'estimate', 'expect', 'project', 'intend', 'plan', 'believe' and words of similar substance in connection with any discussion of future performance. Outstanding GDRs/ ADRs/ Warrants or any convertible instruments, conversion date and likely impact on Equity

The Company does not have any outstanding GDRs/ ADRs/ Warrants as on 31st March, 2025.

As a part of the Resolution Plan approved by the National Company Law Tribunal, Ahmedabad Bench, the Company had on 28th February, 2020, allotted on preferential basis to Reliance Industries Limited ("RIL"), 250,00,00,000 - 9% Optionally Convertible Preference Shares ("OCPS") of ₹1 each for cash at par, for a total consideration of ₹ 250 crore.

During the financial year 2021-22, the OCPS were due for conversion at the option of RIL. Since RIL did not exercise its option to convert OCPS into equity shares of the Company, as per the terms and conditions of the OCPS, the same will be redeemed on 27th February, 2030, i.e. the last day of the 10th anniversary of the date of allotment, by paying an amount at least equal to the outstanding OCPS Subscription Amount and there shall be no impact on Equity Share Capital of the Company.

Accordingly, the Company also does not have any outstanding convertible instruments as on 31st March, 2025.

Unclaimed dividend and shares transferred to Investor Education and Protection Fund

Pursuant to the provisions of Sections 124 and 125 of the Act and Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules") dividends which remain unpaid or unclaimed for a period of

seven years from the date of transfer to the Unpaid Dividend Account shall be transferred by the company to the Investor Education and Protection Fund ("IEPF") Authority. Further, the IEPF Rules also mandate companies to transfer all shares in respect of which dividend has not been paid or claimed for seven consecutive years or more.

In accordance with the said IEPF Rules, the Company has transferred entire unclaimed dividend amount and 34,88,741 Equity Shares to IEPF Authority in the Financial Year 2020-21. Further, during the year under review, the Company was not required to transfer any dividend or shares to IEPF Authority. The outstanding Equity Shares of the Company held by IEPF Authority as on 31st March, 2025 are 33,10,164.

The Members whose unclaimed dividend and/or shares are transferred by the Company to the IEPF Authority in compliance with the statutory requirements as aforesaid can claim their dividend/shares from the IEPF Authority by following the procedure prescribed in the Rules. The said procedure is also available on the Company's website at https://www.alokind.com/assets/pdf/investor-relations/iepf/Procedure_for_claiming_unpaid_amounts_and_shares_from_IEPF.pdf

The voting rights on these shares shall remain frozen until the rightful owner claims the shares.

The Company has appointed the Company Secretary as Nodal Officer under the provisions of IEPF, the details of which are available on the Company's website and can be accessed through the link: <https://www.alokind.com/>.

The Company has uploaded the details of dividend and equity shares transferred to IEPF authorities on the Company's website and can be accessed through the link:

INDEPENDENT AUDITOR'S REPORT on Standalone Financial Statements

To the Members of Alok Industries Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Alok Industries Limited ("the Company"), which comprise the Balance sheet as at March 31 2025, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act"), in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its loss including other comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to Note 34 of the standalone financial statements in respect of the resolution plan approved by the National Company Law Tribunal vide its order dated March 8, 2019 under section 31(1) of the Insolvency and Bankruptcy Code, 2016. Based on the resolution plan, read with the legal opinion, the Company has accounted the assigned debt at cost, overriding the Indian Accounting Standards which would require the Company to recognize the assigned debt at its fair value and accordingly the imputed interest cost over the period of loan. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matter For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matter Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

INDEPENDENT AUDITOR'S REPORT on Standalone Financial Statements

Key audit matters	How our audit addressed the key audit matter
<p>A. Recoverability of loan given to wholly owned subsidiary</p> <p>The Company had in earlier years given loan to Alok Infrastructure Limited (a wholly owned subsidiary of the Company or "AIL").</p> <p>As at March 31, 2025, the outstanding balance of loan is ₹ 204.06 crores (net of impairment allowance of ₹ 1,168.93 crores). AIL does not have significant business operations and has made a loss of ₹ 8.08 crores for the year ended March 31, 2025 and has accumulated losses of ₹ 1,526.03 crores as on March 31, 2025.</p> <p>To assess the recoverability of the outstanding loan, the Company has considered the valuation of the AIL's investment properties / inventories performed by the subsidiary with the help of external valuation specialists and has accordingly assessed that there is no further impairment provision required for the year ended March 31, 2025.</p> <p>Considering the assumptions / judgment used in valuation under the sales comparison method of market approach / depreciation replacement cost method under cost approach, the same has been considered as a key audit matter. Refer Note 6 and 49 of the standalone financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Obtained and read the audited financial statements of Alok Infrastructure Limited for the year ended March 31, 2025. • Performed inquiry procedures with the auditors of Alok Infrastructure Limited and discussed the audit procedures performed by them on the valuation report issued by the external specialists in respect of the subsidiary's investment properties / inventories. • Assessed key valuation aspects of the investment properties / inventories along with sensitivity analysis of assumptions of Alok Infrastructure Limited by engaging internal valuation specialists. • We involved our experts to assess the company's valuation methodology and assumptions around the key drivers of the cash flow forecasts used in determining the recoverable amount. • Assessed the disclosures made in the standalone financial statements.
<p>B. Recoverability of carrying value of property, plant and equipment</p> <p>As at March 31, 2025 the Company has Property, plant and equipment of ₹ 4,581.65 crores. In earlier years consequent to the business plan approved by the re-constituted Board of Directors of the Company, the Company had through an external valuation specialist determined the value in use of property, plant and equipment and recorded an impairment provision of ₹ 8,152.17 crores in the books.</p> <p>Based on recent business developments and changes in economy, the Board has made required revisions to the business plan and has accordingly updated the value in use calculations using the discounted cash flow method with the help of an external valuation specialist. Based on the same, the Company has determined that there are no material adjustments required to the impairment allowance already recorded. The value in use is sensitive to changes in certain inputs / assumptions used for forecasting the discounted cash flow projections due to inherent uncertainty involved in these assumptions.</p> <p>Accordingly, the same has been considered as a key audit matter.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • We obtained an understanding, evaluated the design and tested the operating effectiveness of controls that the Company has in relation to impairment review processes. • We assessed the Company's valuation methodology applied in determining the recoverable amount. In making this assessment, we evaluated the competence and objectivity of Company's internal specialists involved in the process. • We assessed the assumptions around the key drivers of the cash flow forecasts including discount rates, expected growth rates and terminal growth rates used. • We discussed with the management changes in key drivers as compared to the previous year to evaluate the reasonableness of the inputs and assumptions used in the cash flow forecasts. • Assessed the disclosures made in the standalone financial statements.

We have determined that there are no other key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the

going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's

INDEPENDENT AUDITOR'S REPORT on Standalone Financial Statements

ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2025 and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure 1**" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to the standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "**Annexure 2**" to this report;
- (g) In our opinion, the managerial remuneration for the year ended March 31, 2025 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 37 to the standalone financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

- iv. a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 50 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 50 to the standalone financial statements, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to

our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

- v. No dividend has been declared or paid during the year by the Company.
- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software (refer Note 51 to the financial statements). Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE 1 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF ALOK INDUSTRIES LIMITED

(Referred to in paragraph 1, under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) Property, Plant and Equipment have been physically verified by the management during the year in accordance with a planned programme of verifying them once in three years which is reasonable having regard to the size of the Company and the nature of its assets and no material discrepancies were identified on such verification.
- (c) According to the information and explanations given by the management and audit procedures performed by us, the title deeds of immovable properties included in property, plant and equipment and investment properties are held in the name of the Company, except in the case of certain immovable properties (gross block of ₹ 47.10 crores) where the transfer of name shall be done post conversion of the land to 'Non-agricultural'.
- (d) The Company has not revalued its Property, Plant and Equipment, Right of Use Asset or intangible assets during the year ended March 31, 2025.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory has been physically verified by the management during the year except for inventories lying with third parties. In our opinion, the frequency of verification by the management is reasonable and the coverage and procedure for such verification is appropriate. Inventories lying with third parties have been confirmed by them as at year end and discrepancies of 10% or more in aggregate for each class of inventory were not noticed in respect of such confirmations.
- (b) As disclosed in Note 19 to the standalone financial statements, the Company has been sanctioned working capital limits in excess of ₹ five crores in aggregate from banks during the year on the basis of security of current assets of the Company. The quarterly returns/statements filed by the Company with such banks are in agreement with the unaudited books of account of the Company. The Company do not have sanctioned working capital limits in excess of ₹ five crores in aggregate from financial institutions during the year on the basis of security of current assets of the Company.
- (iii) (a) During the year the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable to the Company.
- (b) During the year the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(b) of the Order is not applicable to the Company.
- (c) The Company had in earlier years granted loans to a wholly owned subsidiary amounting to ₹ 1,372.99 crores (on which impairment allowance of ₹ 1,168.93 crores as at March 31, 2025) in respect of which, the schedule of repayment of principal has been stipulated and the repayment was due during the previous year. As per the agreement, the loan has been given interest free. Further, the Company has in earlier years granted loans to companies of ₹ 1,465.99 crores (on which impairment allowance of ₹ 1,465.99 crores has been made as at March 31, 2025) where the schedule of repayment of principal and payment of interest has not been stipulated. Accordingly, we are unable to make a specific comment on clause 3(iii)(c) on the regularity of repayment of principal and payment of interest in respect of such loans.
- (d) The Company had in earlier years granted loans to a wholly owned subsidiary amounting to ₹ 1,372.99 crores (on which impairment allowance of ₹ 1,168.93 crores has been made as at March 31, 2025) which is overdue for more than

90 days and reasonable steps have not been taken by the Company for recovery of the principal in respect of such loan. Further, the Company has in earlier years granted loans to companies of ₹ 1,465.99 crores (on which impairment allowance of ₹ 1,465.99 crores has been made as at March 31, 2025) where the schedule of repayment of principal and payment of interest has not been stipulated. Accordingly, we are unable to make a specific comment on clause 3(iii)(d) on amounts overdue for more than 90 days and whether reasonable steps have been taken by the Company for recovery of the principal and interest in respect of such loans.

- (e) The Company had in earlier years granted loans to a wholly owned subsidiary amounting to ₹ 1,372.99 crores (on which impairment allowance of ₹ 1,168.93 crores as at March 31, 2025) in respect of which, the loan has fallen due during the previous year. Further, the Company has in earlier years granted loans to companies of ₹ 1,465.99 crores (on which impairment allowance of ₹ 1,465.99 crores has been made as at March 31, 2025) where the schedule of repayment of principal and payment of interest has not been stipulated. Accordingly, in respect of such loans, we are unable to make a specific comment on clause 3(iii)(e) on whether loans granted to companies have fallen due during the year. However, during the year, the Company has not renewed or extended any loans or granted fresh loans to settle overdues of existing loans given to the same parties.
 - (f) During the year, the Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.
 - (iv) The Company had granted interest free loan in earlier years (prior to corporate insolvency resolution process) to a company, which is outstanding as at the year-end amounting to ₹ 233.32 crores (against which an impairment allowance of ₹ 233.32 crores is made). Further, the Company had granted interest free loan in earlier years (prior to the corporate insolvency resolution process) to its wholly owned subsidiaries ('WOS') which are outstanding as at the year-end amounting to ₹ 2,605.66 crores (against which an impairment allowance of ₹ 2,401.60 crores is made).
- In our opinion and according to the information and explanations given to us, provisions of section 185 and 186 of the Companies Act, 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the Company considering the legal opinion obtained by the Company according to which the provisions of section 186 of the Companies Act, 2013 are not applicable to all such interest free loans granted under the erstwhile Companies Act, 1956 and by virtue of the resolution plan approved by the NCLT, any claim from the authorities with respect to the breach / contravention / non-compliance of any applicable law is abated, settled and extinguished as at the closing date (i.e. September 14, 2020).
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
 - (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of certain textile products, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
 - (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, duty of customs, cess and other statutory dues applicable to it. According to the information and explanations given to us and audit procedures performed by us, there are no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and services tax, duty of custom, cess and other statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable.
 - (b) There are no dues in respect of income tax, sales tax, service tax, goods and services tax, duty of customs, duty of excise and value added tax that

have not been deposited with the appropriate authorities on account of any dispute, read with Note 37 to the standalone financial statements relating to NCLT approved resolution plan.

- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) Term loans were applied for the purpose for which the loans were obtained.
- (d) On an overall examination of the standalone financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.
- (e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and joint ventures.
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries and joint ventures. Hence, the requirement to report on clause (ix)(f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the standalone financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no material fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor/ secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- (xii) In our opinion, the Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii) of the Order is not applicable to the Company.
- (xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the standalone financial statements, as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.
- (b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company.
- (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on

clause 3(xvi) of the Order is not applicable to the Company.

- (d) There is no Core Investment Company as a part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company.

- (xvii) The Company has incurred cash losses amounting to ₹ 513.39 crores in the current year and amounting to ₹ 482.16 crores in the immediately preceding financial year respectively.

- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.

- (xix) On the basis of the financial ratios disclosed in Note 54 to the standalone financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due. Also Refer Note 33 to the standalone financial statements.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF ALOK INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the standalone financial statements of Alok Industries Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial

controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls With Reference to these Standalone Financial Statements

A company's internal financial controls with reference to the standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to the Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to the standalone financial statements, including the possibility of collusion or improper management override of controls, material

misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the standalone financial statements to future periods are subject to the risk that the internal financial control with reference to the standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to the standalone financial statements and such internal financial controls with reference to the standalone financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria

established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES

to Standalone Financial Statements For The Year Ended 31 March 2025

CORPORATE INFORMATION

Alok Industries Limited ("The Company") is a Public Limited Company, domiciled in India and incorporated under the provisions of the Companies Act, 1956. The equity shares of the Company are listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). It is primarily engaged in the business of textile manufacturing including mending and packing activities. The registered office of the Company is located at 17/5/1, 521/1, Village Rakholi/ Saily, Silvassa, Dadra and Nagar Haveli and Daman and Diu - 396230.

Pursuant to an application made by the State Bank of India, the Hon'ble National Company Law Tribunal, Ahmedabad bench ("Adjudicating Authority"), vide its order dated 18th July, 2017, had ordered the commencement of the corporate insolvency resolution ("CIR") process in respect of the Company under the provisions of the Insolvency and Bankruptcy Code, 2016 (the "Code"). Pursuant to its order dated 8th March, 2019 ("NCLT Order"), the Adjudicating Authority approved the resolution plan submitted by the Resolution Applicants for the Company under Section 31 of the Insolvency and Bankruptcy Code, 2016 ("Code") ("Approved Resolution Plan"). As per the terms of Section 31 of the Code, the Resolution Plan shall be binding on the Company, its employees, members, creditors, guarantors and other stakeholders involved in the Resolution Plan.

The standalone financial statements were approved for issue in accordance with a resolution of the board of directors on 21 April 2025.

NOTE 1: MATERIAL ACCOUNTING POLICIES

a) Basis of preparation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified pursuant to section 133 of the Companies Act 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2023 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Financial statements ('Standalone IND AS Financial Statements').

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern and further, the financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values

at the end of each reporting period, as explained in the accounting policies below:

- Derivative financial instruments,
- Certain financial assets and liabilities measured at fair value, and
- Defined benefit plans - plan assets measured at fair value;

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The financial statements are presented in ₹, which is the functional currency and all values are rounded to the nearest crore (₹ 00,00,000), except when otherwise indicated.

b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services and the normal time between the acquisition of assets and their realisation into cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

c) Foreign Currency Transactions and Translation

The management of the Company has determined Indian rupee ("₹") as the functional currency of the Company. In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency ("foreign currencies") are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences on monetary items are recognised in statement of profit and loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in

the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.

d) Revenue from contract with customers:

The Company recognises revenue from the following major sources, acting in the capacity of principal:

- Sale of consumer product
- Sale of services
- Other operating revenue

Sale of consumer product

The Company sells textile Products. The Company recognizes revenue on the sale of goods, net of discounts, sales incentives, estimated customer returns and rebates granted, if any, when control of the goods is transferred to the customer.

Discounts given include rebates, price reductions and other incentives given to customer The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Nature, timing of satisfaction of performance obligation and transaction price (Fixed and variable)

The control of goods is transferred to the customer depending upon the terms or as agreed with customer or delivery basis (i.e. at the point in time when goods are delivered to the customer or when the customer purchases the goods from the Company warehouse). Control is considered to be transferred to customer when customer has ability to direct the use of such goods and obtain substantially all the benefits from it such as following delivery, the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods.

Based on the terms of the contract and as per business practice, the Company determines the transaction price considering the amount it expects to be entitled in exchange of transferring promised goods or services to the customer. It excludes amount collected on behalf of third parties such as taxes.

The Company provides volume discount and rebate schemes, to its customers on certain goods purchased by the customer once the quantity of goods purchased during the period exceeds a threshold specified in the contract. Volume discount and rebate schemes give rise to variable consideration. To estimate the variable consideration to which it will be entitled, the Company considers that either the expected value method or the most likely amount method, depending on which of them better predicts the amount of variable consideration for the particular type of contract.

Sale of services

Revenue from services mainly consists of job work income and is recognised when performance obligation is satisfied. The transaction price of these services is recognised as a contract liability upon receipt of advance from the customer, if any.

Export Incentives

Export benefits arising from Duty Drawback scheme, Remission of Duties and Taxes on Export Products (RoDTEP) and other eligible export incentives are recognised on post export basis at the rate at which the entitlements accrue and is included in the 'Other Operating Income' (Revenue from operation).

Contract assets, contract liabilities and trade receivables

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue)

while invoicing in excess of revenues (which we refer to as unearned revenues) and advance from customers are classified as contract liabilities. A receivable is recognised by the Company when the control over the goods is transferred to the customer such as when goods are delivered as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. The average credit period on sale of goods is upto 90 days.

e) Income taxes:

Current tax

Current tax payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. While preparing standalone financial statements, temporary differences are calculated using the carrying amount as per standalone financial statements and tax bases as determined by reference to the method of tax computation.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

are generally recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses to the extent that it is probable that taxable profits will be available against which deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

f) Property, Plant and Equipment

Assets held for use in the production or supply of goods or services, or for administrative purposes, are stated in the standalone balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated, however, it is subject to impairment.

Properties in the course of construction for production, supply or administrative purposes are carried at cost,

less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Likewise, subsequent cost incurred to overhaul the plant and machineries and major inspection costs are recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

Non-current assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and

Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one period. Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Depreciation methods, estimated useful lives and residual value:

Depreciation is recognised so as to write off the cost of assets (other than freehold land) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Depreciation on property, plant and equipment has been provided on straight line method as per the useful life prescribed in Schedule II of the Company's Act, 2013, except in case of following assets, where useful life used is different than those prescribed in part C of Schedule II:

Asset category	Estimated useful life
Buildings	50 to 60 years
Plant and Machinery	15 to 40 years

Based on technical evaluation performed, the management believes that the useful lives as given above, best represent, the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values are not more than 5% of the original cost of the asset.

The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and any changes there in are considered as change in estimate and accounted prospectively.

Goods and Services Tax (GST) paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/non-current assets/ liabilities in the balance sheet.

g) Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses, if any. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

Subsequent to initial recognition, intangible assets acquired in a business combination are reported on the same basis as intangible assets that are acquired separately.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in statement of profit and loss when the asset is derecognised.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows;

Asset category	Estimated useful life
Computer software	6 years
Trademarks / Brands	10 years

h) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

The Company may incur borrowing costs during an extended period in which it suspends the activities necessary to prepare an asset for its intended use or sale. Such costs are costs of holding partially completed assets and do not qualify for capitalisation. However, an entity does not normally suspend capitalising borrowing costs during a period when it carries out substantial technical and administrative work. The Company also does not suspend capitalising borrowing costs when a temporary delay is a necessary part of the process of getting an asset ready for its intended use or sale.

The Company shall cease capitalising borrowing costs when substantially all the activities necessary to

prepare the qualifying asset for its intended use or sale are complete.

Transfers are made to (or from) investment property only when there is a change in use.

i) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I. Financial Assets

A) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

B) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

- Debt instruments at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- Debt instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent

consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to statement of profit & loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

C) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset. When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

D) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

E) Investments in subsidiaries, associates and joint ventures

The Company has elected to account for its equity investments in subsidiaries, associates and joint ventures under IND AS 27 on Separate Financial Statements, at cost. At the end of each reporting period the Company assesses whether there are indicators of diminution in the value of its investments and provides for impairment loss, where necessary.

II. Financial Liabilities

A) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

B) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to statement of profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

- **Loans and Borrowings**

This is the category most relevant to the Company. After initial recognition,

interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

- **Financial guarantee contracts**

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the contractual payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

C) De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially

modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

D) Compound instruments

The component parts of compound instruments (optionally convertible preference share) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible instrument, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in statement of profit and loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible instruments are allocated to the liability and equity components in proportion

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the convertible instrument using the effective interest method.

III. Reclassification of financial assets / liabilities

After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations.

IV. Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of Company or the counterparty.

V. Derivatives and hedging activities

The Company enters derivatives like forwards contracts to hedge its foreign currency risks. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently marked to market at the end of each reporting period with profit/loss being recognised in statement of profit and loss. Derivative assets/liabilities are classified under "other financial assets/other financial liabilities". Profits and losses arising from cancellation of contracts are recognised in the statement of profit and loss.

j) Inventories:

Finished goods are stated at the lower of cost and net realisable value. Raw material, packing

materials and stores & spares are stated at costs unless the finished goods in which they will be incorporated are expected to be sold below cost. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials, Packing Materials and stores & spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Due allowances are made for slow moving and obsolete inventories based on estimates made by the Company.

k) Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior year. A reversal of an impairment loss is recognised immediately in statement of profit and loss.

l) Provisions and contingent liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an

asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A contingent liability is:-

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events but is not recognised because:-
 - i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - ii) the amount of the obligation cannot be measured with sufficient reliability.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

A contingent asset is disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date

m) Retirement and other employee benefits:

Post-employment benefits

- Payments to defined contribution benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is not reclassified to statement of profit and loss. Past service cost is recognised in statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Re-measurement.

The Company presents the first two components of defined benefit costs in statement of profit and loss in the line item "Employee benefits expense", and the last component in Other Comprehensive Income. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Terminal benefits

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, performance incentives and similar benefits other than compensated absences in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of compensated absences are measured on the basis of actuarial valuation as on the balance sheet date.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

n) Earnings per share:

Basic earnings per share is calculated by dividing the profit/loss attributable to the owners of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share adjusts the figure used in determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

o) Operating segment

Identification of segment - Operating segments are reported in the manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company.

Segment accounting policies - The Board of Directors of the Company have been identified as the Chief Operating Decision Maker (CODM) as defined under Ind AS 108. CODM reviews overall financial information of the Company together for performance evaluation and allocation of resources and does not review any discrete information to evaluate performance of any individual product or geography.

The Company prepares its segment information in conformity with accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

p) Onerous contracts

If the Company has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before

a separate provision for an onerous contract is established, the Company recognises any impairment loss that has occurred on assets dedicated to that contract.

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Company cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

q) Key sources of estimation uncertainty and critical accounting judgements

In the course of applying the accounting policies, the Company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future periods.

Key sources of estimation uncertainty

a) Useful lives of property, plant and equipment, intangible assets, investment property and right-of-use assets

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. Refer Note 2 and 30 for further disclosure.

b) Property, plant and equipment, intangible assets and investment property

Determining whether the property, plant and equipment are impaired requires an estimate in the value in use of cash generating units. It requires to estimate the future cash flows expected to arise from the cash generating units and a suitable discount rate in order to calculate present value. When the present value of the cash flows are less than carrying value of property, plant and equipment a material impairment loss may arise. Refer Note 2 for further disclosure.

c) Impairment of investments in and loan given to subsidiaries and joint ventures

Determining whether the investments in and loan given to subsidiaries and joint ventures are impaired requires an estimate of the value in use / recoverable amount of assets. In considering the value in use / recoverable amount of assets, the Management have anticipated the future cash flows, discount rates and other factors of the underlying businesses/companies. In certain cases, the Company engages third party qualified valuers to perform the valuation. The management works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. Refer Note 5, 6, and 39 for further disclosure.

d) Provisions, liabilities and contingencies

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of an outflow of resources embodying economic benefits are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized. Refer Note 37 for further disclosure.

NOTES

to Standalone Financial Statements For The Year Ended 31st March, 2025

e) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Refer Note 8 for further disclosure.

f) Employee benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Refer Note 28 and 41 for further disclosure.

g) Recoverability of trade receivables

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment. Refer note 11 for further disclosure.

h) Inventories

Inventories are reviewed on a regular basis and the Company make allowance for aged or obsolete inventories and write down to net realizable value primarily based on historical trends and management estimates of expected and future product demand and related pricing. Inventories are stated at the lower of cost and net realisable value. Judgements are required in assessing the expected realisable values of Inventories. Factors considered includes demand levels and pricing competition in the industry. Refer note 10 for further disclosure.

i) Changes in accounting policies and disclosures

New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2024. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2024 to amend the following Ind AS which are effective for annual periods beginning on or after 1 April 2024.

(i) Ind AS 117 Insurance Contracts

These amendments had no significant impact on the accounting policies and disclosure made in the standalone financial statements of the Company.

32 Exceptional Items

Particulars	As at 31 March 2025	As at 31 March 2024
Loss of assets due to tornado (refer note 'a' below)	-	-
Gain on sale of fixed assets (refer note 'b' below)	94.14	-
	94.14	-

Notes:

- On July 12, 2024, certain spinning plants of the Company located at Silvassa was struck with tornado, causing damage to certain assets of the Company. Basis preliminary assessment, management has assessed loss of ₹ 61.42 crore due to above and recorded a loss relating to property, plant and equipment (as per WDV) and inventories under the head exceptional items. The Company is of the view that it has adequately covered its assets by insurance policy

and the surveyor's assessment is in progress, Company has already received on account payment of ₹ 55 crore from the Insurance company. Since there is certainty on recovery of loss from insurance company, the Company has recorded the entire amount of loss as insurance claim receivables under the head exceptional items .

- b. During the year, the Company has sold certain Investment properties, leasehold land and building situated at Mumbai, Pawne and Mahape which resulted into a gain of ₹ 94.14 crore.

- 33** In the earlier year, the Company has completed all the steps as laid down in the resolution plan approved by the National Company Law tribunal vide its order dated 8 March 2019 and the resolution applicants had obtained joint control over the Company and the Board of Directors had been re-constituted on 14 September 2020, being the closing date as determined by the Company in terms of the resolution plan.

During the year, the Company incurred a loss of ₹ 768.81 crore for the year ended 31 March 2025 and has accumulated losses of ₹ 22,868.40 crore as on that date, its current assets exceeds its current liabilities by ₹ 350.70 crore and it has earned EBITDA of ₹ 136.69 crore for the year ended 31 March 2025. The market condition is improving and considering the cash flow projection of the Company, the financial statements have been prepared on a going concern basis.

- 34** As per Clause 1.2 (xi) of Approved Resolution Plan, the outstanding debt amounting to Rs 17,384.02 crore assigned to Resolution Applicants shall not carry interest for the first 8 years from the Closing Date (as defined in the Approved Resolution Plan), hence such debt has been measured at cost. After such period of 8 years, the terms of assigned debt shall be mutually agreed among the Resolution Applicants and the Company. The Approved Resolution Plan has an overriding effect on the requirements of Ind AS, as per legal view obtained by the Company in this regard. Hence, had the Company applied the Ind AS, it would have recognised the assigned debt at its fair value and accordingly recognized the imputed interest cost over the period of loan in the statement of profit and loss.

- 35** As on June 2017, the Company had an amount of ₹11,623.94 crore receivable from trading debtors on account of sale of fabric ("Outstanding Trading Dues"). As at 31 March 2019, the Company had created full provision against said receivables by charging it to the statement of profit and loss in earlier year As per the Approved Resolution Plan, if any of the trading debtors make payment towards the Outstanding Trading Dues or any person is required to contribute to the assets of the Company under any legal process against the Outstanding Trading Dues and has contributed the same, such amounts (net of any income tax payable by the Company on account of such receipt of the Outstanding Trading Dues) shall be deposited in a designated escrow account ("Escrow Account") to be opened in the name of the Company. Provided however, nothing contained in the resolution plan shall oblige the Resolution Applicants or the Company to take steps for recovery of the Outstanding Trading Dues.

Accordingly, the Company has an obligation to deposit into the escrow account any collections received out of the "Outstanding Trading Dues" or otherwise, as stated above, for the benefit of the Financial Creditors and as a result therefore, the risk and reward associated with the Outstanding Trading Dues now belong to the Financial Creditor Accordingly the Company had derecognised the said outstanding trade receivables and related provisions in the books. The Company has not received any amounts towards Outstanding Trading Dues in the current year.

- 36** The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2023. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the entity believes the impact of the change will not be significant.

41 Disclosures Pursuant to – “Employee benefits”:

i) Defined contribution plans:

The Company's contribution to Provident Fund for the year 2024-25 aggregating to ₹ 8.99 crore (Previous Year: ₹ 9.74 crore), ₹ 0.90 crore (Previous Year: ₹ 0.89 crore) for ESIC has been recognised in the statement of profit and loss under the head employee benefits expense. (Refer Note 28).

ii) Defined benefit plans:

a) Gratuity Plan:

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. though the gratuity liability is recognised from the date the employee commences service, regardless of whether the employee has completed five years of continuous service. The level of benefits provided depends on the member's length of service and salary at retirement age.

The Company makes annual contribution to the Employee's Company Gratuity Assurance Scheme, a funded defined benefit plan for qualifying employees. The Fund invests in the scheme of insurance with the Life Insurance Corporation of India, IndiaFirst Life Insurance Company Limited, SBI Life Insurance Company Limited and Canara HSBC Life Insurance Company Limited. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to fifteen days salary payable for each completed year of service or part thereof in excess of six months.

The plans typically expose the Company to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest risk : The plan exposes the Company to the risk off all in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Longevity Risk : The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31 March, 2025 by KP Actuaries and Consultants LLP. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Project Unit Credit Method as per Ind AS 19.

The following table sets out the status of the gratuity plan for the year ended 31 March 2025 as required under Ind AS 19.

43 Capital Management and Financial Management Framework:

The Company being in a working capital intensive industry, its objective is to maintain a strong credit rating, healthy ratios and establish a capital structure that would maximize the return to stakeholders through optimum mix of debt and equity.

The Company's capital requirement is mainly to fund its capex, working capital, repayment of principal and interest on its borrowings. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings and the capital markets. The Company is not subject to any externally imposed capital requirements.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Since net worth of the Company is negative, debt equity ratio is not calculated.

The key risks associated with day to day operations of the Company and working capital management are given below:

A. Credit Risk:

Credit risk is the risk that counter party will not meet its obligation under a financial instrument or customer contract leading to a financial loss. The Company is exposed to credit risk mainly from trade receivables and other financial assets.

i) Trade Receivables:

Trade receivables are typically unsecured and are derived from revenue earned from customer ₹ Credit risk has been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix and forward-looking information and an assessment of the credit risk over the expected life of the financial asset to compute the expected credit loss allowance for trade receivables. Concentrations of credit risk with respect to trade receivables are limited.

The following table gives details in respect of percentage of revenue generated from the top ten customer

ii) Other Financial Assets & loans

The Company has limited credit risk arising from cash and cash equivalents as the deposits are maintained with banks and financial institutions with high credit rating. Hence, these are low risk items and the Company evaluates the recoverability of these financial assets at each reporting date and wherever required, a provision is created against the same.

The Company had in earlier years given loans to its subsidiaries/a Company in which erstwhile directors were interested of Rs 1,465.99 crore, which are fully provided for in the books. The net exposure of ₹ 204.06 crore is with respect of one wholly owned subsidiary whereby the Company has impaired to the extent of the fair valuation of the subsidiary's investment properties / inventories.

B. Market Risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks – interest rate risk, currency risk and other price risk in a fluctuating market environment. Financial instrument affected by market risks includes loans and borrowings, deposits, derivatives and other financial assets.

i) Currency Risk

The Company's functional currency is Indian Rupees (INR). The Company undertakes transactions denominated in foreign currencies; consequently, exposure to exchange rate fluctuations arise. Volatility in exchange rates affects the Company's revenue from export markets and the costs of imports. The Company has exports and to that extent has a natural hedge as a mitigation measure to cover foreign exchange risk on account of imports/expenses in foreign currency. The Company hedges its foreign currency risk by entering into forward contracts.

Foreign Currency Sensitivity

5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates. A positive number below indicates an increase in profit and negative number below indicates a decrease in profit.

ii) Interest rate risk

- Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Company are principally denominated in rupees with a mix of fixed and floating rates of interest. The Company has exposure to interest rate risk, arising principally on changes in base lending rate. The Company uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations. The risk is managed by the Company by maintaining a mix between fixed and floating rate borrowings.
- The profile of the Company's fixed and floating rate borrowings is given below:

Particulars	₹ in Crore	
	31 March 2025	31 March 2024
Variable interest rate borrowings	3,505.45	3,588.85
Fixed interest rate borrowings	3,542.51	3,541.36

The Company has a long term borrowing of ₹ 17,384.02 crore which is interest free for a period of 8 years as per the resolution plan (Refer note 34). Being interest free, there is no interest rate risk on this loan for the next 3 year

Interest rate sensitivity

If interest rates had been 50 basis points higher/lower and all other variables were held constant, following is the impact on profit. A positive effect is decrease in profit and negative effect is increase in profit.

Particulars	Currency	₹ in Crore	
		Increase / decrease in basis points	Effect on profit before tax
31 March 2025	INR	50	15.55
	INR	(50)	(15.55)
31 March 2024	INR	50	17.97
	INR	(50)	(17.97)

iii) Commodity Price Risk

Commodity price risk arises due to fluctuation in prices of raw materials like cotton and yarn. The Company has a risk management framework aimed at prudently managing the risk arising from the volatility in commodity prices and freight costs. The Company's commodity risk is managed centrally through well-established trading operations and control processes.

C. Financial risk management objectives

The Company has a Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Company's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Company's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Company.

D. Liquidity Risk:

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Company requires funds both for short term operational needs as well as for long term capital expenditure for capex. The Company generates sufficient cash flow from operations, which together with the available cash and cash equivalents provide liquidity in the short-term and long-term. The Company has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk through cash generated from operations, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. As at 31 March 2025, the Company has undrawn committed borrowing facilities amounting to ₹ 154.76 crore and the Company expects to avail all the working capital limits sanctioned to it in FY 25-26.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The contractual maturity is based on the earliest date on which the Company may be required to pay.

INDEPENDENT AUDITOR'S REPORT on Consolidated Financial Statements

To the Members of Alok Industries Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Alok Industries Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its joint ventures comprising of the consolidated Balance sheet as at March 31 2025, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act"), in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its joint ventures as at March 31, 2025, their consolidated loss including other comprehensive loss, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group and joint ventures in accordance with the 'Code of Ethics' issued by the

Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note 33 of the consolidated financial statements in respect of the resolution plan approved by the National Company Law Tribunal vide its order dated March 8, 2019 under section 31(1) of the Insolvency and Bankruptcy Code, 2016. Based on the resolution plan, read with the legal opinion, the Holding Company has accounted the assigned debt at cost, overriding the Indian Accounting Standards which would require the Holding Company to recognize the assigned debt at its fair value and accordingly the imputed interest cost over the period of loan. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matter For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT on Consolidated Financial Statements

The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
<p>(a) Recoverability of carrying value of property, plant and equipment, Investment properties / Inventories.</p> <p>As at March 31, 2025 the Holding Company has Property, plant and equipment of ₹ 4,581.65 crores. In earlier years consequent to the business plan approved by the re-constituted Board of Directors of the Holding Company, the Holding Company had through an external valuation specialist determined the value in use of property, plant and equipment and recorded an impairment provision of ₹ 8,152.17 crores in the books.</p> <p>Based on recent business developments and changes in economy, the Board has made required revisions to the business plan and has accordingly updated the value in use calculations using the discounted cash flow method with the help of an external valuation specialist. Based on the same, the Holding Company has determined there are no material adjustments required to the impairment allowance already recorded. The value in use is sensitive to changes in certain inputs / assumptions used for forecasting the discounted cash flow projections due to inherent uncertainty involved in these assumptions.</p> <p>Accordingly, the same has been considered as a key audit matter.</p> <p>The auditors of Alok Infrastructure Limited have reported a key audit matter with respect to the fair valuation of the assets performed by the management by involving an independent valuer to assess the recoverability of the carrying value of its investment properties / inventories.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> We obtained an understanding, evaluated the design and tested the operating effectiveness of controls that the Holding Company has in relation to impairment review processes. We assessed the Holding Company's valuation methodology applied in determining the recoverable amount. In making this assessment, we evaluated the competence and objectivity of Holding Company's internal specialists involved in the process. We assessed the assumptions around the key drivers of the cash flow forecasts including discount rates, expected growth rates and terminal growth rates used. We discussed with the management changes in key drivers as compared to the previous year to evaluate the reasonableness of the inputs and assumptions used in the cash flow forecasts. We involved our experts to assess the Company's valuation methodology and assumptions around the key drivers of the cash flow forecasts used in determining the recoverable amount. In respect of the key audit matter reported to us by the auditor of Alok Infrastructure Limited, we performed inquiry of the audit procedures performed by them to address the key audit matter. As reported to us by the subsidiary auditor, the following procedures have been performed by them: <ul style="list-style-type: none"> Reviewed the valuation report of the independent valuer and the methodologies adopted by the valuer for ascertaining fair value Assessed the disclosures made in the consolidated financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit

or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group

including and its joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and its joint ventures are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and its joint ventures are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its joint ventures of

INDEPENDENT AUDITOR'S REPORT on Consolidated Financial Statements

which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditor. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2025 and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

(a) We did not audit the financial statements and other financial information, in respect of 8 subsidiaries whose financial statements include total assets of ₹ 1,814.24 crores as at March 31, 2025, and total revenues of ₹ 152.26 crores and net cash inflows of ₹ 1.76 crores for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion

on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of such other auditor

(b) The consolidated financial statements include the Group's share of net loss of ₹ 0.96 crores for the year ended March 31, 2025, as considered in the consolidated financial statements, in respect of 2 joint ventures, whose financial statements, other financial information have not been audited and whose unaudited financial statements, other unaudited financial information have been furnished to us by the Management. Our opinion, in so far as it relates amounts and disclosures included in respect of these joint ventures, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid joint ventures, is based solely on such unaudited financial statements and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF ALOK INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Alok Industries Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to the consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference

to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the consolidated financial statements.

Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the consolidated financial statements of the Holding Company, in so far as it relates to this 1 subsidiary, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries incorporated in India.

NOTES

To Consolidated Financial Statements For The Year Ended 31 March 2025

CORPORATE INFORMATION

Alok Industries Limited ("The Parent Company") is a Public Limited Company, domiciled in India and incorporated under the provisions of the Companies Act, 1956. The equity shares of the Parent Company are listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). It is primarily engaged in the business of textile manufacturing including mending and packing activities. The registered office of the Parent Company is located at 17/5/1, 521/1, Village Rakholi/Saily, Silvassa, The Union Territory of Dadra and Nagar Haveli and Daman and Diu-396230.

Pursuant to an application made by the State Bank of India, the Hon'ble National Company Law Tribunal, Ahmedabad bench ("Adjudicating Authority"), vide its order dated 18th July, 2017, had ordered the commencement of the corporate insolvency resolution ("CIR") process in respect of the Parent Company under the provisions of the Insolvency and Bankruptcy Code, 2016 (the "Code"). Pursuant to its order dated 8th March, 2019 ("NCLT Order"), the Adjudicating Authority approved the resolution plan submitted by the Resolution Applicants for the Parent Company under Section 31 of the Insolvency and Bankruptcy Code, 2016 ("Code") ("Approved Resolution Plan"). As per the terms of Section 31 of the Code, the Resolution Plan shall be binding on the Parent Company, its employees, members, creditors, guarantors and other stakeholders involved in the Resolution Plan.

The consolidated financial statements were approved for issue in accordance with a resolution of the board of directors on 21st April 2025.

NOTE 1: MATERIAL ACCOUNTING POLICIES

This Note provides a list of the Material Accounting Policies adopted by Alok Industries Limited (the Parent Company), its Subsidiaries (collectively referred as the Group) and Joint Ventures; in the preparation of these Consolidated Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of preparation:

The financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified pursuant to section 133 of the Companies Act 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2023 (as amended from time to time)

and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Financial statements ('Consolidated Ind AS Financial Statements').

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern and further, the financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below:

- Derivative financial instruments,
- Certain financial assets and liabilities measured at fair value, and
- Defined benefit plans - plan assets measured at fair value;

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The financial statements are presented in ₹, which is the functional currency and all values are rounded to the nearest crore (₹ 00,00,000), except when otherwise indicated.

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

b) Principles of consolidation and equity accounting:

i) Subsidiary companies

Subsidiary companies are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiary companies are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the Financial Statements of the parent and its subsidiary companies line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting Policies of subsidiary companies have been changed where necessary to ensure consistency with the policies adopted by the Group. Non-controlling interest in the results and equity of subsidiary companies are shown separately in the Consolidated Statement of Profit and Loss, Consolidated Statement of changes in equity and Balance Sheet respectively.

ii) Joint arrangements

Under Ind AS 111 Joint arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. Interest in Joint Venture Company is accounted for using the equity method.

iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise share of the Group in post-acquisition profit and loss of the investee in profit and loss, and share of the Group in Other Comprehensive Income of the investee in Other Comprehensive Income. Dividends received or receivable from associate company and Joint Venture Company are recognised as a reduction in the carrying amount of the investment.

When the Group share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associate company and joint venture company are eliminated to the extent of the Group interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting Policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in (I) below.

c) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of services and the normal time between the acquisition of assets and their realisation into cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities

d) Foreign Currency Transactions and Translation

The Group's consolidated financial statements are presented in INR, which is also the Parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The transactions in currencies other than the entity's functional currency ("foreign currencies") are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences on monetary items are recognised in statement of profit and loss in the period in which they arise except for:

exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance

consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

e) Revenue from contract with customers:

The Group recognises revenue from the following major sources, acting in the capacity of principal:

- Sale of consumer product
- Sale of services
- Other operating revenue

Sale of consumer product

The Group sells textile Products. The Group recognizes revenue on the sale of goods, net of discounts, sales incentives, estimated customer returns and rebates granted, if any, when control of the goods is transferred to the customer.

Discounts given include rebates, price reductions and other incentives given to customer. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement..

Nature, timing of satisfaction of performance obligation and transaction price (Fixed and variable)

The control of goods is transferred to the customer depending upon the terms or as agreed with customer or delivery basis (i.e. at the point in time when goods are delivered to the customer or when the customer purchases the goods from the Group warehouse). Control is considered to be transferred to customer when customer has ability to direct the use of such goods and obtain substantially all the benefits from it such as following delivery, the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods.

Based on the terms of the contract and as per business practice, the Group determines the transaction price considering the amount it expects to be entitled in exchange of transferring promised goods or services to the customer. It excludes amount collected on behalf of third parties such as taxes.

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

The Group provides volume discount and rebate schemes, to its customers on certain goods purchased by the customer once the quantity of goods purchased during the period exceeds a threshold specified in the contract. Volume discount and rebate schemes give rise to variable consideration. To estimate the variable consideration to which it will be entitled, the Group considers that either the expected value method or the most likely amount method, depending on which of them better predicts the amount of variable consideration for the particular type of contract.

Sale of services

Revenue from services mainly consists of job work income and is recognised when performance obligation is satisfied. The transaction price of these services is recognised as a contract liability upon receipt of advance from the customer, if any.

Export Incentives

Export benefits arising from Duty Drawback scheme, Merchandise Export Incentive Scheme and other eligible export incentives are recognised on post export basis at the rate at which the entitlements accrue and is included in the 'Other Operating Income' (Revenue from operation).

Contract assets, contract liabilities and trade receivables

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues (which we refer to as unearned revenues) and advance from customers are classified as contract liabilities. A receivable is recognised by the Group when the control over the goods is transferred to the customer such as when goods are delivered as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. The average credit period on sale of goods is upto 90 days.

f) Income taxes:

Current tax

Current tax payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Ind AS financial statements and the corresponding tax bases used in the computation of taxable profit. While preparing standalone Ind AS financial statements, temporary differences are calculated using the carrying amount as per standalone Ind AS financial statements and tax bases as determined by reference to the method of tax computation.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses to the extent that it is probable that taxable profits will be available against which deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in

which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

g) **Property, Plant and Equipment**

Assets held for use in the production or supply of goods or services or for administrative purposes, are stated in the consolidated balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated, however, it is subject to impairment.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Likewise, subsequent cost incurred to overhaul the plant and machineries and major inspection costs are recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Stand-by equipment and servicing equipment are recognised as property, plant and equipment if they

are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one period. Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

Non-current assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Depreciation methods, estimated useful lives and residual value:

Depreciation is recognised so as to write off the cost of assets (other than freehold land) less their residual

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Depreciation on property, plant and equipment has been provided on straight line method as per the useful life prescribed in Schedule II of the Company's Act, 2013, except in case of following assets, where useful life used is different than those prescribed in part C of Schedule II:

Asset category	Estimated useful life
Buildings	50 to 60 years
Plant and Machinery	15 to 40 years

Based on technical evaluation performed, the management believes that the useful lives as given above, best represent, the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values are not more than 5% of the original cost of the asset.

The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed at each financial year end and any changes there in are considered as change in estimate and accounted prospectively.

Goods and Services Tax (GST) paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/non-current assets/liabilities in the balance sheet.

h) Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated

amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses, if any. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Subsequent to initial recognition, intangible assets acquired in a business combination are reported on the same basis as intangible assets that are acquired separately.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in statement of profit and loss when the asset is derecognised.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows

Asset category	Estimated useful life
Computer software	6 years
Trademarks / Brands	10 years

i) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

The Group may incur borrowing costs during an extended period in which it suspends the activities necessary to prepare an asset for its intended use or sale. Such costs are costs of holding partially completed assets and do not qualify for capitalisation. However, an entity does not normally suspend capitalising borrowing costs during a period when it carries out substantial technical and administrative work. The Group also does not suspend capitalising borrowing costs when a temporary delay is a necessary part of the process of getting an asset ready for its intended use or sale.

The Group shall cease capitalising borrowing costs when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

j) Investment Property:

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Group depreciates building component of investment property over 30 years from the date of original purchase on straight line method basis.

The Group, based on technical assessment made by technical expert and management estimate, depreciates the building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the Group measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying model issued by the Indian Valuation Standards Board.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment property the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

Transfers are made to (or from) investment property only when there is a change in use.

k) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I. Financial Assets

A) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

B) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

- Debt instruments at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- Debt instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as

'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

C) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset. When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

D) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and

FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

II. Financial Liabilities

A) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

B) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

- **Loans and Borrowings**

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

C) De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same

lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

D) Compound instruments

The component parts of compound instruments (optionally convertible preference share) issued by the Group are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible instrument, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in statement of profit and loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible instruments are allocated to the liability and equity components in proportion

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the convertible instrument using the effective interest method.

III. Reclassification of financial assets / liabilities

After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations.

IV. Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of Group or the counterparty.

V. Derivatives and hedging activities

The Group enters derivatives like forwards contracts to hedge its foreign currency risks. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently marked to market at the end of each reporting period with profit/loss being recognised in statement of profit and loss. Derivative assets/liabilities are classified under "other financial assets/other financial liabilities". Profits and losses arising from cancellation of contracts are recognised in the statement of profit and loss.

i) Inventories:

Finished goods are stated at the lower of cost and net realisable value. Raw material, packing materials

and stores & spares are stated at costs unless the finished goods in which they will be incorporated are expected to be sold below cost. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials, Packing Materials and stores & spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Due allowances are made for slow moving and obsolete inventories based on estimates made by the Group.

m) Impairment of non-financial assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing

value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior year. A reversal of an impairment loss is recognised immediately in statement of profit and loss.

n) Provisions and contingent liabilities:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A contingent liability is:-

- a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- b) a present obligation that arises from past events but is not recognised because:-
 - i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - ii) the amount of the obligation cannot be measured with sufficient reliability.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

A contingent asset is disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date

o) Retirement and other employee benefits:

Post-employment benefits

- Payments to defined contribution benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

they occur. Remeasurement recognised in other comprehensive income is not reclassified to statement of profit and loss. Past service cost is recognised in statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Re-measurement.

The Group presents the first two components of defined benefit costs in statement of profit and loss in the line item "Employee benefits expense", and the last component in Other Comprehensive Income. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Terminal benefits

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, performance incentives and similar benefits other than compensated absences in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of compensated absences are measured on the basis of actuarial valuation as on the balance sheet date.

Liabilities recognised in respect of other long-term employee benefits are measured at the present

value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

p) Earnings per share:

Basic earnings per share is calculated by dividing the profit/loss attributable to the owners of the Parent by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share adjusts the figure used in determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

q) Operating segment

Identification of segment - Operating segments are reported in the manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group.

Segment accounting policies - The Board of Directors of the Parent Company have been identified as the Chief Operating Decision Maker (CODM) as defined under Ind AS 108. CODM reviews overall financial information of the Group together for performance evaluation and allocation of resources and does not review any discrete information to evaluate performance of any individual product or geography.

The Group prepares its segment information in conformity with accounting policies adopted for preparing and presenting the financial statements of the Group as a whole.

r) Key sources of estimation uncertainty and critical accounting judgements

In the course of applying the accounting policies, the Group is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future periods.

Key sources of estimation uncertainty

a) Useful lives of property, plant and equipment, investment property, intangible asset and right-of-use assets

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. Refer Note 2 and 29 for further disclosure.

b) Impairment of property plant and equipment

Determining whether the property, plant and equipment are impaired requires an estimate in the value in use of cash generating units. It requires to estimate the future cash flows expected to arise from the cash generating units and a suitable discount rate in order to calculate present value. When the present value of the cash flows are less than carrying value of property, plant and equipment a material impairment loss may arise. Refer Note 2 for further disclosure.

c) Impairment of investments in joint ventures

Determining whether the investments in joint ventures are impaired requires an estimate in the value in use. In considering the value in use, the Management have anticipated the future cash flows, discount rates and other factors of the underlying businesses/companies. In certain cases, the Group engages third party qualified valuers to perform the valuation. The management works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. Refer Note 5 and 43 for further disclosure.

d) Provisions, liabilities and contingencies

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of an outflow of resources embodying economic benefits are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized. Refer Note 39 for further disclosure.

e) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Refer Note 7 for further disclosure.

f) Employee benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Refer Note 27 and 45 for further disclosure.

g) Recoverability of trade receivables

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment. Refer note 10 for further disclosure.

h) Inventories

Inventories are reviewed on a regular basis and the Group make allowance for excess or obsolete inventories and write down to net realizable value primarily based on historical trends and management estimates of expected and future product demand and related pricing.

Inventories are stated at the lower of cost and net realisable value. Judgements are required in assessing the expected realisable values

of Inventories. Factors considered includes demand levels and pricing competition in the industry. Refer note 9 for further disclosure.

s) Changes in accounting policies and disclosures

New and amended standards

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2024. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2024 to amend the following Ind AS which are effective for annual periods beginning on or after 1 April 2024.

- (i) Ind AS 117 Insurance Contracts
- (ii) Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

These amendments had no significant impact on the accounting policies and disclosure made in the consolidated financial statements of the Group.

Loss of assets due to tornado (refer note 'a' below)	-	-
One of time significant gain on disposal of fixed assets (refer note 'b' below)	94.14	-
	94.14	-

Notes:

- On July 12, 2024, certain spinning plants of the Parent Company located at Silvassa was struck with tornado, causing damage to certain assets of the Parent Company. Basis preliminary assessment, management has assessed loss of ₹ 61.42 crore due to above and recorded a loss relating to property, plant and equipment (as per WDV) and inventories under the head exceptional items. The Parent Company is of the view that it has adequately covered its assets by insurance policy and the surveyor's assessment is in progress, Parent Company has already received on account payment of ₹ 55 crore from the Insurance company. Since there is certainty on recovery of loss from insurance company, the Parent Company has recorded the entire amount of loss as insurance claim receivables under the head exceptional items.
- During the year, the Parent Company has disposed off certain Investment properties, Leasehold land and building situated at Mumbai, Pawne and Mahape resulted into a gain of ₹ 94.14 crore.

32 Going Concern

In the earlier year, the Parent Company has completed all the steps as laid down in the resolution plan approved by the National Company Law tribunal vide its order dated 8th March 2019 and the resolution applicants had obtained joint control over the Parent Company and the Board of Directors had been re-constituted on 14th September 2020, being the closing date as determined by the Parent Company in terms of the resolution plan.

The Group has incurred a loss of ₹ 816.43 crore for the year ended March 31, 2025 and has accumulated losses of ₹ 24,249.28 crore as on that date, its current liabilities exceeds its current assets by ₹ 119.35 crore and it has earned EBITDA of ₹ 114.86 crore for the year ended March 31, 2025. The market condition is improving and considering the cash flow projection of the Group, the financial statements have been prepared on a going concern basis.

33 As per Clause 1.2 (xi) of Approved Resolution Plan, the outstanding debt amounting to ₹ 17,384.02 crore assigned to Resolution Applicants shall not carry interest for the first 8 years from the Closing Date (as defined in the Approved Resolution Plan), hence such debt has been measured at cost. After such period of 8 years, the terms of assigned debt shall be mutually agreed among the Resolution Applicants and the Parent Company. The Approved Resolution Plan has an overriding effect on the requirements of Ind AS, as per legal view obtained by the Parent Company in this regard. Hence, had the Parent Company applied the Ind AS, it would have recognised the assigned debt at its fair value and accordingly recognized the imputed interest cost over the period of loan in the statement of profit and loss.

34 As on June 2017, the Parent Company had an amount of ₹ 11,623.94 crore receivable from trading debtors on account of sale of fabric ("Outstanding Trading Dues"). As at 31st March 2019, the Parent Company had created full provision against said receivables by charging it to the statement of profit and loss in earlier year. As per the Approved Resolution Plan, if any of the trading debtors make payment towards the Outstanding Trading Dues or any person is required to contribute to the assets of the Parent Company under any legal process against the Outstanding Trading Dues and has contributed the same, such amounts (net of any income tax payable by the Parent Company on account of such receipt of the Outstanding Trading Dues) shall be deposited in a designated escrow account ("Escrow Account") opened in the name of the Parent Company. Provided however, nothing contained in the resolution plan shall oblige the Resolution Applicants or the Parent Company to take steps for recovery of the Outstanding Trading Dues.

Accordingly, the Parent Company has an obligation to deposit into the escrow account any collections received out of the "Outstanding Trading Dues" or otherwise, as stated above, for the benefit of the Financial Creditors and as a result therefore, the risk and reward associated with the Outstanding Trading Dues now belong to the Financial Creditor. Accordingly the Parent Company had derecognised the said outstanding trade receivables and related provisions in the books. The Parent Company has not received any amounts towards Outstanding Trading Dues in the current year.

35 The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2023. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the Group believes the impact of the change will not be significant.

- 41** The management has evaluated the likely impact of prevailing uncertainties relating to imposition or enhancement of reciprocal tariffs and believes that there are no material impacts on the financial statements of the Group for the year ended March 31, 2025. However, the management will continue to monitor the situation from the perspective of potential impact on the operations of the Group.
- 42** In the earlier year, Group has performed an impairment assessment of the recoverability of the carrying value of its investments in the joint ventures i.e Aurangabad Textiles & Apparel Parks Limited and New City of Bombay Mfg. Mills Limited and accordingly impaired the full value in the books. In doing so, Group has taken into consideration the Group's share in expected recovery of assets of the joint ventures, net of any liabilities and guarantees given by the Group in respect of the joint ventures.

If the Potential ordinary shares are anti-dilutive then Basic EPS is considered for Dilutive EPS.

45 Disclosures Pursuant to – “Employee benefits”:

i. Defined contribution plans:

The Group's contribution to Provident Fund for the year 2024-25 aggregating to ₹ 8.99 crore (Previous Year: ₹ 9.74 crore), ₹ 0.90 crore (Previous Year: ₹ 0.89 crore) for ESIC has been recognised in the statement of profit and loss under the head employee benefits expense. (Refer Note 27).

ii. Defined benefit plans:

Gratuity Plan:

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

The Group makes annual contribution to the Employee's Company Gratuity Assurance Scheme, a funded defined benefit plan for qualifying employees. The Fund invests in the scheme of insurance with the Life Insurance Corporation of India, IndiaFirst Life Insurance Company Limited, SBI Life Insurance Company Limited and Canara HSBC Life Insurance Company Limited. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to fifteen days salary payable for each completed year of service or part thereof in excess of six months.

The plans typically expose the Group to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest risk : The plan exposes the Group to the risk off all in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Longevity Risk : The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have abearing on the plan's liability.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at 31st March, 2024 by KP Actuaries and Consultants LLP. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Project Unit Credit Method as per Ind AS 19.

The following table sets out the status of the gratuity plan for the year ended 31 March 2025 as required under Ind AS 19.

Fair value hierarchy

The Group uses the following hierarchy for determining and/or disclosing the fair value of financial instrument by valuation technique:

- (i) Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

There has been no transfers between level 1 & level 2 during the period.

48 Capital Management and Financial Risk Management Framework

The Group being in a working capital intensive industry, its objective is to maintain a strong credit rating, healthy ratios and establish a capital structure that would maximize the return to stakeholders through optimum mix of debt and equity.

The Group's capital requirement is mainly to fund its capex, working capital, repayment of principal and interest on its borrowings. The principal source of funding of the Group has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings and the capital markets. The Group is not subject to any externally imposed capital requirements.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Since net worth of the Group is negative, debt equity ratio is not calculated.

The key risks associated with day to day operations of the Group and working capital management are given below:

A Credit Risk:

Credit risk is the risk that counter party will not meet its obligation under a financial instrument or customer contract leading to a financial loss. The Group is exposed to credit risk mainly from trade receivables and other financial assets.

i) Trade Receivables

Trade receivables are typically unsecured and are derived from revenue earned from customer. Credit risk has been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Group uses expected credit loss model to assess the impairment loss or gain. The Group uses a provision matrix and forward-looking information and an assessment of the credit risk over the expected life of the financial asset to compute the expected credit loss allowance for trade receivables. Concentrations of credit risk with respect to trade receivables are limited.

(₹ in crore)

ii) Other Financial Assets & loans

The Group has limited credit risk arising from cash and cash equivalents as the deposits are maintained with banks and financial institutions with high credit rating. Hence, these are low risk items and the Group evaluates the recoverability of these financial assets at each reporting date and wherever required, a provision is created against the same.

B Market Risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks – interest rate risk, currency risk and other price risk in a fluctuating market environment. Financial instrument affected by market risks includes loans and borrowings, deposits, derivatives and other financial assets.

i) Currency Risk

The Group's functional currency is Indian Rupees (INR). The Group undertakes transactions denominated in foreign currencies; consequently, exposure to exchange rate fluctuations arise. Volatility in exchange rates affects the Group's revenue from export markets and the costs of imports. The Group has exports and to that extent has a natural hedge as a mitigation measure to cover foreign exchange risk on account of imports/expenses in foreign currency.

The Group manages its foreign currency risk by entering into forward contracts.

Derivatives outstanding as at the reporting date (in respective currency) as at 31st March, 2025 and 31st March, 2024.

Foreign Currency Sensitivity

5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates. A positive number below indicates an increase in profit and negative number below indicates a decrease in profit.

Following is the analysis of change in profit and pre-tax equity where the Indian Rupee strengthens and weakens by 5% against the relevant currency:

Currency	Effect on profit before tax		Effect on profit before tax	
	Change in rate (upward 5%)		Change in rate (downward 5%)

GBP	(0.01)	(0.01)	0.01	0.01

Foreign currency exposure & sensitivity disclosed above excludes balances of foreign subsidiaries denominated in the local currency of the country of operation

ii) Interest rate risk

- a) Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to interest rate risk because funds are borrowed at both fixed and floating interest rates. Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rate. The borrowings of the Group are principally denominated in rupees with a mix of fixed and floating rates of interest. The Group has exposure to interest rate risk, arising principally on changes in base lending rate. The Group uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

NOTES

to Consolidated Financial Statements For The Year Ended 31 March, 2025

- b) The profile of the Group's fixed and floating rate borrowings is given below:

Particulars	[₹ in Crore]	
	31 March 2025	31 March 2024
Variable interest rate borrowings	3,644.90	3,729.24
Fixed interest rate borrowings	3,542.52	3,541.36

The Group has a long term borrowing of ₹ 17,384.02 crore which is interest free for a period of 8 years as per the resolution plan (Refer note 32). Being interest free, there is no interest rate risk on this loan for the next 3 year. Further subsidiaries Alok Industries International Limited and Alok World Wide Limited have interest free borrowings to the tune of ₹ 1,388.82 crore. (previous year ₹ 1,353 crore)

Interest rate sensitivity

If interest rates had been 50 basis points higher/lower and all other variables were held constant, following is the impact on profit. A positive effect is decrease in profit and negative effect is increase in profit.

Particulars	Currency	Increase / decrease in basis points	[₹ in crore]
			Effect on profit before tax
31 March 2025	INR	50.00	18.24
	INR	(50.00)	(18.24)
31 March 2024	INR	50.00	18.67
	INR	(50.00)	(18.67)

iii) Commodity Price Risk

Commodity price risk arises due to fluctuation in prices of raw materials like cotton and yarn. The Company has a risk management framework aimed at prudently managing the risk arising from the volatility in commodity prices and freight costs. The Company's commodity risk is managed centrally through well-established trading operations and control processes.

C Financial risk management objectives:

The Group has a Risk Management Committee established by its Board of Directors for overseeing the Risk Management Framework and developing and monitoring the Group's risk management policies. The risk management policies are established to ensure timely identification and evaluation of risks, setting acceptable risk thresholds, identifying and mapping controls against these risks, monitor the risks and their limits, improve risk awareness and transparency. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and the Group's activities to provide reliable information to the Management and the Board to evaluate the adequacy of the risk management framework in relation to the risk faced by the Group.

D Liquidity Risk:

Liquidity risk refers to the risk of financial distress or extraordinary high financing costs arising due to shortage of liquid funds in a situation where business conditions unexpectedly deteriorate and requiring financing. The Group requires funds both for short term operational needs as well as for long term capital expenditure for capex. The Group generates sufficient cash flow for operations, which together with the available cash and cash equivalents provide liquidity in the short-term and long-term. The Group has established an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk through cash generated from operations, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial

assets and liabilities. As at 31st March, 2025, the Parent Company has undrawn committed borrowing facilities amounting to ₹ 123.75 crore and the Parent Company expects to enjoy all the working capital limits sanctioned to it in FY 25-26.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The contractual maturity is based on the earliest date on which the Group may be required to pay.

PROCEDURE FOR 'REMOTE E-VOTING' AND E-VOTING AT THE AGM ("INSTA POLL"):

13. (A) E-VOTING FACILITY:

The Company is providing to its Members facility to exercise their right to vote on resolutions proposed to be passed at AGM by electronic means ("**e-voting**"). Members may cast their votes remotely, using an electronic voting system on the dates mentioned herein below ("**remote e-voting**").

Further, the facility for voting through electronic voting system will also be made available at the Meeting ("**Insta Poll**") and Members attending the Meeting who have not cast their vote(s) by remote e-voting will be able to vote at the Meeting through Insta Poll.

The Company has engaged the services of KFinTech as the agency to provide e-voting facility.

The manner of voting, including voting remotely by (i) individual members holding shares of the Company in demat mode, (ii) members other than individuals holding shares of the Company in demat mode, (iii) members holding shares of the Company in physical mode; and (iv) members

who have not registered their e-mail address, is explained in the instructions given under (C) and (D) hereinbelow.

The remote e-voting facility will be available during the following voting period:

REMOTE E-VOTING PERIOD

Commencement of remote e-voting	Saturday, 30th August, 2025, 2025 at 9:00 a.m. (IST)
End of remote e-voting	Wednesday, 3rd September, 2025 at 5:00 p.m. (IST)

The remote e-voting will not be allowed beyond the aforesaid date and time and the remote e-voting module shall be forthwith disabled by KFinTech upon expiry of the aforesaid period.

Voting rights of a Member / Beneficial Owner (in case of electronic shareholding) shall be in proportion to his / her / its shareholding in the paid-up equity share capital of the Company as on the cut-off date, i.e., Thursday, 28th August, 2025, ("Cut-off Date").

The Board of Directors of the Company has appointed Mr. Virendra G. Bhatt, Company Secretary in Practice, (Membership No.: A 1157; Certificate of Practice No.: 124) or failing him Ms. Indrabala Javeri, Company Secretary in Practice, (Membership No.: A 2209, Certificate of Practice No.: 7245), as Scrutiniser to scrutinise the remote e-voting and Insta Poll process in a fair and transparent manner and they have communicated their willingness to be appointed and will be available for the said purpose. The Scrutiniser's decision on the validity of the votes cast through remote e-voting and Insta Poll shall be final.

(B) INFORMATION AND INSTRUCTIONS RELATING TO E-VOTING:

- The Members who have cast their vote(s) by remote e-voting may also attend the Meeting but shall not be entitled to cast their vote(s) again at the Meeting.**
- Once the vote on a resolution is cast by a Member, whether partially or otherwise, the Member shall not be allowed to change it subsequently or cast the vote again.**
- A Member can opt for only single mode of voting, that is, through remote e-voting or

NOTICE

voting at the Meeting (Insta Poll). If a Member casts vote(s) by both modes, then voting done through remote e-voting shall prevail and vote(s) cast at the Meeting shall be treated as "INVALID".

- iv. **Only a person, whose name is recorded as on the Cut-off Date, in the Register of Members/ Register of Beneficial Owners maintained by the Depositories, shall be entitled to avail the facility of remote e-voting or for participation at the AGM and voting through Insta Poll. A person who is not a member as on the Cut-off Date, should treat the Notice for information purpose only.**
- v. The Company has opted to provide the same electronic voting system at the Meeting, as used during remote e-voting, and the said facility shall be operational till all the resolutions proposed in the Notice are considered and voted upon at the Meeting and may be used

for voting only by the Members holding shares as on the Cut-off Date who are attending the Meeting and who have not already cast their vote(s) through remote e-voting.

(C) REMOTE E-VOTING:

STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013 READ WITH RULE 22 OF THE COMPANIES (MANAGEMENT AND ADMINISTRATION) RULES, 2014 AND ADDITIONAL INFORMATION AS REQUIRED UNDER THE SECURITIES AND EXCHANGE BOARD OF INDIA (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015 AND CIRCULARS ISSUED THEREUNDER

The following Statement sets out the material facts relating to the Special Business proposed in this Notice:

Item No.4:

Members of the Company at the 33rd Annual General Meeting held on December 29, 2020 approved the appointment of S R B C & CO LLP, Chartered Accountants (Registration No. 324982E/E300003), ("Retiring Auditors") as the Statutory Auditors of the Company to hold office for a term of 5 (five) consecutive years from the conclusion of said Annual General Meeting till the conclusion of the sixth Annual General Meeting from the said Annual General Meeting. S R B C & CO LLP will complete their present term on conclusion of this Annual General Meeting.

The Board of Directors of the Company ("**the Board**"), at its meeting held on 17th July, 2025 has, considering the experience and expertise and on the recommendation of the Audit Committee, proposed to the Members of the Company appointment of M/s. Chaturvedi & Shah LLP (ICAI Regn. No.101720W/W100355), as Auditors of the Company in place of the Retiring Auditors, for a term of 5 (five) consecutive years from the conclusion of this Annual General Meeting till the conclusion of the sixth Annual General Meeting from this Annual General Meeting at such remuneration as shall be fixed by the Board of Directors of the Company.

M/s. Chaturvedi & Shah LLP, Chartered Accountants, has its head office in Mumbai and has diversified client base of large corporates in different sectors.

M/s. Chaturvedi & Shah LLP, Chartered Accountants, have consented to their appointment as Auditors and have confirmed that if appointed, their appointment will be in accordance with Section 139 read with Section 141 of the Companies Act, 2013. M/s. Chaturvedi & Shah LLP, Chartered Accountants have also provided confirmation that they have subjected themselves to the peer review process of the Institute of Chartered Accountants of India ("**ICAI**") and hold a valid certificate issued by the 'Peer Review Board' of the ICAI.

Considering the current business circumstances of the Company the remuneration proposed to be paid to the Auditors for the financial year 2025-26 is Rs. 1.75 crore, which is less than the fee being paid to the Retiring Auditors. The said remuneration excludes applicable taxes and out of pocket expenses.

The remuneration for the subsequent year(s) of their term shall be fixed by the Board of Directors of the Company based on the recommendation of the Audit Committee.

None of the Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board commends the Ordinary Resolution set out at Item No. 4 of the Notice for approval by the Members.

Item No.5:

At the Annual General Meeting held on December 29, 2020, the Members of the Company had approved the appointment of Mr. A. Siddharth (DIN: 0016278) as an Independent Director of the Company, to hold office up to September 13, 2025 ("**first term**").

The Nomination and Remuneration Committee (the "**NRC**") of the Board of Directors, on the basis of the report of performance evaluation, has recommended the re-appointment of Mr. A. Siddharth as an Independent Director, for a second term of 5 (five) consecutive years, on the Board of the Company.

The Board, based on the performance evaluation and as per the recommendation of the NRC, considers that, given his professional background and experience and contributions made by him during his tenure, his continuance as an Independent Director would be beneficial to the Company. Accordingly, it is proposed to re-appoint Mr. A. Siddharth as an Independent Director of the Company, not liable to retire by rotation, for a second term of 5 (five) consecutive years on the Board of the Company.

Mr. A. Siddharth is qualified to be appointed as a Director in terms of Section 164 of the Companies Act, 2013 (the "**Act**") and has given his consent to act as a Director. The Company has also received declaration from Mr. A. Siddharth that he meets the criteria of independence as prescribed, both, under Section 149(6) of the Act and under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "**Listing Regulations**") and that he is not debarred from holding the office of director by virtue of any order from Securities and Exchange Board of India ("**SEBI**") or any such authority.

In the opinion of the Board, Mr. A. Siddharth fulfils the conditions for re-appointment as an Independent Director as specified in the Act and the Listing Regulations. Mr. A. Siddharth is independent of the management and possesses appropriate skills, experience, knowledge and capabilities required for the role of Independent Director. He has vast and varied experience in the field of Audit of domestic as well as multinational companies in sectors such as Manufacturing,

NOTICE

Hospitality, Technology and Non-Banking Financial Services. He also possesses skills in strategic planning, financial, regulatory, risk management and corporate governance, etc. In view of these, the re-appointment of Mr. A. Siddharth as an Independent Director is in the interest of the Company.

The requisite details and information pursuant to the provisions of (i) the Listing Regulations; and (ii) Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India, are provided in the "Annexure" to the Notice. He shall be paid remuneration by way of fee for attending the meetings of the Board or Committees thereof, reimbursement of expenses for participating in the Board and other meetings and such other remuneration as may be approved by the Board from time to time.

Section 149(10) of the Act provides that an independent director shall hold office for a term of up to five consecutive years on the Board and shall be eligible for re-appointment on passing a special resolution by the company and disclosure of such appointment in its Board's report. Section 149(11) further provides that an independent director may hold office for up to two consecutive terms.

In terms of Regulation 17(1A) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, ("Listing Regulations"), no listed company shall appoint or continue the appointment of a non-executive director, who has attained the age of seventy-five years, unless a special resolution is passed by the Members to that effect. Further, the listed entity shall ensure compliance with the above, at any time prior to the non-executive director attaining the age of seventy-five years.

Mr. A. Siddharth will be attaining the age of seventy-five years during the course of his second term as an Independent Director. Accordingly, approval of the Members by way of Special Resolution will be required for continuation of Mr. A. Siddharth as an Independent director post his attaining the age of seventy-five years.

In accordance with the provisions of Section 149 read with Schedule IV of the Act and other applicable provisions of the Act and in terms of Regulation 17(1A) & 25(2A) of the Listing Regulations, re-appointment of Mr. A. Siddharth as an Independent Director requires approval of members of the Company by passing a special resolution.

Accordingly, the approval of members is sought for re-appointment of Mr. A. Siddharth as an Independent Director.

Draft letter of re-appointment to be issued to Mr. A. Siddharth setting out the terms and conditions of his re-appointment is available for inspection, by the Members, electronically. Members seeking to inspect the same can send an email to investor.relations@alokind.com.

Mr. A. Siddharth is interested in the resolution set out at Item No. 5 of the Notice with regard to his reappointment. Relatives of Mr. A. Siddharth may be deemed to be interested in the resolution to the extent of their shareholding interest, if any, in the Company.

Save and except the above, none of the other Directors /Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board commends the Special Resolution set out at Item No. 5 of the Notice for approval by the Members.

Item No.6:

At the Annual General Meeting held on December 29, 2020, the Members of the Company had approved the appointment of Ms. Mumtaz Bandukwala (DIN: 07129301) as an Independent Director of the Company, to hold office up to September 13, 2025 ("**first term**").

The Nomination and Remuneration Committee (the "**NRC**") of the Board of Directors, on the basis of the report of performance evaluation, has recommended the re-appointment of Ms. Mumtaz Bandukwala as an Independent Director, for a second term of 5 (five) consecutive years, on the Board of the Company.

The Board, based on the performance evaluation and as per the recommendation of the NRC, considers that, given her professional background and experience and contributions made by her during her tenure, her continuance as an Independent Director would be beneficial to the Company. Accordingly, it is proposed to re-appoint Ms. Mumtaz Bandukwala as an Independent Director of the Company, not liable to retire by rotation, for a second term of 5 (five) consecutive years on the Board of the Company.

Ms. Mumtaz Bandukwala is qualified to be appointed as a Director in terms of Section 164 of the Companies Act, 2013 (the "**Act**") and has given her consent to act as a Director. He also possesses skills in strategic planning, financial, regulatory/ legal, risk management and corporate governance, experience and exposure in Policy shaping and industry advocacy, etc. In view of these, the re-appointment of Mr. Rahul Dutt as an Independent Director is in the interest of the Company.

The requisite details and information pursuant to the provisions of (i) the Listing Regulations; and (ii) Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India, are provided in the "Annexure" to the Notice. He shall be paid remuneration by way of fee for attending the meetings of the Board or Committees thereof, reimbursement of expenses for participating in the Board and other meetings and such other remuneration as may be approved by the Board from time to time.

In accordance with the provisions of Section 149 read with Schedule IV of the Act and other applicable provisions of the Act and in terms of Regulation 25(2A) of the Listing Regulations, re-appointment of Mr. Rahul Dutt as an Independent Director requires approval of members of the Company by passing a special resolution.

Accordingly, the approval of members is sought for re-appointment of Mr. Rahul Dutt as an Independent Director.

Draft letter of re-appointment to be issued to Mr. Rahul Dutt setting out the terms and conditions of his re-appointment is available for inspection, by the Members, electronically. Members seeking to inspect the same can send an email to investor.relations@alokind.com.

Mr. Rahul Dutt is interested in the resolution set out at Item No. 7 of the Notice with regard to his reappointment. Relatives of Mr. Rahul Dutt may be deemed to be interested in the resolution to the extent of their shareholding interest, if any, in the Company.

Save and except the above, none of the other Directors /Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board commends the Special Resolution set out at Item No. 7 of the Notice for approval by the Members.

Item No.8:

Regulation 24A of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), Regulations 2015 ("**Listing Regulations**") requires every listed entity to appoint a peer reviewed Company Secretary or a Firm of Company Secretary(ies) as a Secretarial Auditor on the basis of recommendation of the Board of the Directors.

The Board of Directors of the Company ("**Board**"), at its meeting held on 17th July, 2025 has, considering the experience and expertise and on the recommendation of the Audit Committee, recommended to the Members of the Company, appointment of Mr. Virendra Bhatt, Practicing Company Secretary (ACS No.: 1157 / COP No.: 124), as Secretarial Auditor for a term of 5 (five) consecutive financial years, commencing from the financial year 2025-26 to the financial year 2029-30 on such remuneration as may be determined by the Board of Directors of the Company from time to time.

Mr. Virendra Bhatt is an Associate Member of the Institute of Company Secretaries of India is engaged in rendering (i) Secretarial Audit; (ii) Advisory and Representation Services; and (iii) Transactional Services for various companies.

Mr. Virendra Bhatt, Practicing Company Secretary, has consented to his appointment as the Secretarial Auditor, if appointed and has confirmed that he has subjected himself to the peer review process of the Institute of Company Secretaries of India ("**ICSI**") and holds a valid certificate of peer review issued by the ICSI.

The proposed remuneration to be paid to the Secretarial Auditor for the financial year 2025-26 is ₹ 4,00,000/- (Rupees Four lakh only). The said remuneration excludes applicable taxes and out of pocket expenses. The remuneration for the subsequent years of his term shall be fixed by the Board of Directors based on the recommendation of the Audit Committee of the Company. There is no material change in the remuneration proposed to be paid to the Secretarial Auditor for the financial year 2025-26.

In accordance with the provisions of Regulation 24A of the Listing Regulations, the appointment of Secretarial Auditor, is required to be approved by the Members of the Company. Accordingly, approval of the Members is sought for passing the Ordinary Resolution as set out at Item No. 8 of this Notice.

None of the Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board commends the Ordinary Resolution set out at Item No. 8 of the Notice for approval by the Members.

Item No. 9:

The Board of Directors has, on the recommendation of the Audit Committee, approved the appointment and remuneration of the Cost Auditors to conduct the audit of the cost records of the Company, for the financial year ending 31st March, 2026, as per the following details:

Name of the Cost Auditor	Industry	Cost Audit Fee (in ₹)
B.J.D. Nanabhoy & Co.	Plastics, Polymers and Textiles	₹ 1,20,000

In accordance with the provisions of Section 148 of the Companies Act, 2013 ("the Act") read with the Rules made thereunder, the remuneration payable to the Cost Auditors, as recommended by the Audit Committee and approved by the Board, has to be ratified by the Members of the Company.

Accordingly, ratification by the Members is sought for the remuneration payable to the Cost Auditors for the Financial Year ending 31st March, 2026 by passing an Ordinary Resolution as set out at Item No. 9 of this Notice.

None of the Directors/ Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution.

The Board recommends the Ordinary Resolution set out at Item No. 9 of this Notice for ratification by the Members.

Item No 10:

The existing Articles of Association ("AoA") of the Company as presently in force are based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific sections of the Companies Act, 1956

and some regulations in the existing AoA are no longer in conformity with the Companies Act, 2013 ("the Act").

Several regulations of the existing AoA of the Company require alteration or deletions in the existing AoA to make it in conformity with the Act. Given this position, it is considered expedient to wholly replace the existing AoA by a new set of Articles.

The new AoA to be substituted in place of the existing AoA are based on Table 'F' of the Act which sets out the model articles of association for a company limited by shares.

The proposed draft new AoA is being uploaded on the Company's website for perusal by the shareholders.

None of the Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 10 of the Notice.

The Board commends the Special Resolution set out at Item No. 10 of the Notice for approval by the shareholders.

By Order of the Board of Directors
