MANAGEMENT DISCUSSION AND ANALYSIS

This report discusses and analyses the performance for the year ended 31st March 2014.

◆ Overall review of operations

The company is in the business of manufacturing and exporting garments. The Company achieved a turnover of Rs.45555.36 lakhs. The operational profits has improved on account of optimizing all the operations of the company.

◆ Industry

The Indian textile industry plays a vital role in the economy of the country by contributing to GDP, generating employment and earning foreign exchange.

◆ Opportunities and Threats

The big business houses in the USA and Europe manufacturing and dealing in textiles and garments depend upon India, China and the neighbouring countries, due to availability of the raw materials and skilled labour at lower prices in these countries, to get the required output at the lowest possible cost.

However we perceive threats by way of competition from the neighbouring countries like China, Pakistan and Sri Lanka. Although the competition is hectic we have an edge over others with our quality and timely execution of orders. The more transit time due to geographical position and adverse movement of foreign exchange rate of the Rupee are major concerns for the growth of the industry. The appreciation of Rupee against US Dollar, a trend noted during the last quarter of the year may effect the company's profitability in both short and long term.

China, Europe, Japan along with the U.S. (the four largest economies in the world) will largely determine the direction of the global economy through the rest of this year and into 2015. The good news is that the advanced economies overall will perform more strongly and contribute more to global growth in 2014.

◆ Outlook

The company is taking all efforts to improve the quality and productivity to get more orders at competitive rates. Due to the own processing plant the company is able to quote better rates and maintain high quality & productivity in the finished goods manufactured. Barring unforeseen circumstances the company is confident of achieving better results in the current year. The key risks for the global economy include China and other emerging markets and the situation in the Middle East and North Africa. The developing nations of Asia are expected to experience a higher rate of growth next year, provided China remains in the 7.0% to 7.5% growth range.

◆ Internal Control Systems and their Adequacy

The Company has a proper and adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorised, recorded and reported correctly.

The internal control is exercised through documented policies, guidelines and procedures. It is supplemented by an extensive program of internal audits conducted by in house trained personnel. The audit observations and corrective action taken thereon are periodically reviewed by the audit committee to ensure effectiveness of the internal control system. The internal control is designed to ensure that the financial and other records are reliable for preparing financial statements and other data, and for maintaining accountability of persons.

◆ Financial and Operational Performance

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956 and Generally Accepted Accounting Principles in India. Please refer Directors' Report in this respect

◆ Human Resources/Industrial Relations

This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
