MANAGEMENT DISCUSSION & ANALYSIS

A. Industry Structure and Development:

As you are aware, your Company has been engaged in the manufacture of Extrusion Machinery (for Pipe and Blown Film Extrusion) and Injection Moulding Machinery. In spite of various challenges faced due to the impact of Demonetization, your company managed to stay ahead on its growth path.

This was possible only due to the persistent and consistent efforts of the TEAM to develop new products and improvise existing product ranges. With these developments, your company looks optimistically to a better future in the coming years as it has entered into new segments, new markets, new applications and all these initiatives would help in preparing a strong base for the future.

B. Opportunities and Threats:

Your Company diligently continues its analysis, identifies various opportunities and is exploring to tap potential business by collaborating with reliable partners worldwide. The various initiatives taken in the previous years has led to the successful development and launch of new products in the company's portfolio. The **“Two-Platen Injection molding machines”** have created major impact in the industry and the same has also won the **“7th National Innovation Award for the year 2016-17 in the Plastic Processing Machinery Category”**. With this successful entry, customers today have the access to European Technology products available at competitive prices. We have also been able to enter the highly demanding European markets with our new products and they are gaining wide acceptance.

C. Product-wise Performance:

(₹ in Lacs)

Product	Net sales	
	2016-2017	2015-2016
Extrusion Machinery	15,137.74	13,436.84
Injection Moulding Machine	14,110.69	14,306.24
TOTAL	29,248.43	27,743.08

D. Outlook:

Recent launch of new products and entry into new markets gives us the confidence to expand our footprint and grow the business. The company continues its focus on marketing activities and strengthening its agent network by participating in various exhibitions and trade-fairs.

E. Segment Information for the year ended March 31, 2017:

Extrusion Machinery:

Pipe Segment: With the thrust and initiatives taken by the government for strengthening the infrastructure segment, we foresee demand for Pipes (PVC and HDPE) rising in the coming months and years.

With Government encouragement for adoption of micro irrigation systems as a regular practice for future safety due to water scarcity and conservation of natural water resources, the drip irrigation business also appears to be poised for growth in the coming years.

Blown Film Segment: With growing demands on Packaging applications, need for preservation of food and other perishable items, changes in lifestyle etc., this segment is growing. Many multinationals are now looking towards setting up new plants / sourcing packing materials (various types of flexible packaging materials) from India. In view of the existing advanced technologies, we see a good potential for growth in this expanding segment.

Injection Moulding Machinery:

This segment is growing, albeit at a pace lower than expected. However, with the positive initiatives taken by the government of **“Make in India”** and the like, this segment is poised for larger growth in the coming years.

With the imposition of **“Anti-Dumping Duty”**, various overseas manufacturers are exploring setting up their manufacturing plants in India either on their own or through collaborations with local players. The threat of used imported machinery still continues to bother the local manufacturers.

Demand for advanced technology machines which are today being manufactured by the local manufacturers is growing and newer entrants are diversifying into plastic processing business. With our per capita consumption still being low, there seems to be a huge potential for growth in the coming years.

Windsor is gearing up to meet this huge challenge with the introduction of European technology products completely manufactured in India.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Windsor Machines Limited on the standalone financial statements for the year ended March 31, 2017]

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Windsor Machines Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Inter-company balances and transactions and unrealised profits or losses have been fully eliminated. The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

When the cost to the parent of its investment in a subsidiary is less than the parent's portion of equity of the subsidiary at the date on which investment in the subsidiary is made, the difference is treated as 'Capital Reserve (on consolidation)' in the consolidated financial statements.
- iii) Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments in the subsidiary companies are made and further movements in their share in the equity, subsequent to the dates of investments.

c. Use of Estimates :
