- Reasons of not expending allocated CSR fund for FY 2015-16 in full:
During FY 2015-16, the Company had initiated following programs under its CSR umbrella :-
"Vatsala-Matrusambhaal" Program undertaken jointly with Charusat Healthcare and Research Foundation (CHRF), a Trust established and working in this field since January 2012; &

Since it was first year for the above initiatives, some technical /procedural hurdles popped up during practical execution of the same. Consequently, the amount allocated as CSR fund for the above programs were spent less in FY 2015-16 than what had been allocated.
The Company along with the implementing agencies is in process to remove the said hurdles so as to encompass a wider range of beneficiaries under the above CSR activities. Further, the allocated CSR fund unspent in FY 2015-16 shall be spent in the ensuing FY and more of such CSR activities shall be scrutinised and executed.
- The implementation and monitoring of the CSR policy is in compliance with the CSR Objectives of the Company.

ANNEXURE TO THE BOARD REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT Forming part of the Board Report

A) Industry Structure and Development

The Glass-lining Industry is engaged in manufacturing of specialized Glass lined equipments used for reactions of corrosive chemicals by the Pharmaceuticals, Agro-based and other Chemical Industries. The core element of the Glass line Industry lies in the technology for manufacturing of glass frit and its applications.

The emergence of SWISS GLASCOAT EQUIPMENTS LIMITED is a consequence of the exploitation of the Indian consumers by the Multinational Companies for Glass-lined Equipments. Swiss Glascoat Equipments Ltd. is engaged in the manufacture and sale of glass lined equipments and spares in India and abroad. The objective of the Company is to ensure a corrosion-free techno sphere under the sun. In a very short span of time, your Company, embarked upon the technological drive to synthesize the best of engineering practices and technological advancements to come up with superior quality solutions in glass-lined products and services, has emerged as a front-runner of domestic glass lining fraternity by catering to industries as diverse from dyes to pigments; from pharmaceutical to food processing; from chemicals to pesticides; from intermediates to resins or any other conceivable corrosion-prone areas in chemical processing industry.

By consolidating quality performance, engineering design, service and much more, Swiss Glascoat Equipments Limited has established itself as an One-Point-Solution-Provider for glass-lined products of any type, size, output plus a complete range of accessories. Today, thanks to the support of its customers, GLASCOAT is ahead of the curve in terms of technology, processes and people.

B) Opportunities & Threats

Your Company always tries to find the opportunities in the Glass-lining Industry through its strength, technology edge and management expertise. These opportunities are linked directly to the growing demand from the customers. Almost all the Indian glass-lined equipment end users have used and are satisfied with the Company's products. Now, the Company has intensified marketing efforts and service network to strengthen its global presence and it has received tremendous positive response.

The threats for your Company are mostly associated with rising inflation and unavailability of adequate skilled manpower, continuous increase in electricity/fuel cost, cost of wages and salaries and cost of credit. Your Company is optimistic to tide over the problems and fulfill the profit expectations of the members.

C) Outlooks, Risks & Concerns

India's economy gained momentum in FY 2015 and is expected to have grown at the fastest pace in five years. Robust urban consumption and public investment have supported growth despite an unfavorable external environment. Recent data point to a soft start to FY 2016: both the manufacturing and services PMIs moderated in April. India continues to remain a bright spot in the otherwise bleak global economic forecast of the International Monetary Fund (IMF). India's growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes, IMF said, adding that "With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth." India will be the fastest growing major economy in 2016-17 growing at 7.5%, ahead of China, at a time when global growth is facing increasing downside risks, as per the World Economic outlook released by the IMF. India expects to grow in a wide range of 7-7.75% in 2016-17 as against a projected 7.6% growth in 2015-16. IMF, however, flagged the slowing trade growth as one of the risk factors to growth.

The Indian pharmaceuticals market is the third largest in terms of volume and thirteenth largest in terms of value, as per a report by Equity Master. Branded generics dominate the pharmaceuticals market, constituting nearly 70 to 80 per cent of the market. India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level. The pharmaceutical industry is expected to register muted export revenue growth and stable domestic revenue increase in 2016-17, a report said. The overall pharmaceutical exports are expected to grow at about 5 per cent, while domestic pharma market is likely to grow at 8-10 per cent in the next fiscal. India Ratings has revised the pharmaceutical sector outlook for 2016-17 to 'Stable' from 'Positive', expecting moderation in the sector's growth momentum next fiscal.

Overall, looking at the positive growth of the Indian economy and the Indian Pharmaceutical industry, your Company has and does expect good number of order bookings, local and foreign, in hand in coming year ahead.

Doubling of the Clean Environment Cess on coking coal per tonne is expected to hit steel and cement companies hard and weigh heavily on consumers, particularly when the Government is focusing on sprucing up infrastructure and pushing investors to 'Make in India'. However, the growth in the Indian steel sector has been driven by domestic availability of raw materials such as iron ore and cost-effective labour. Hence, at this point of time, we expect prices would either would remain stagnant or go up marginally provided the gap between the demand supply has lessened. Further, due to cost management, operational efficiency and aggressive marketing policy, the Company continues to maintain its positive stance. Your Company believes in firm and steady growth and is continuously heading towards that direction.

D) Internal Control Systems and their adequacy

The Company's Management has adequate internal control procedures over financial reporting. To further strengthen the internal control systems, an external agency has also been appointed as the internal auditor of the Company, apart from appointment of the statutory auditors. The CEO and CFO Certification provided in this Annual Report discusses the adequacy of our internal control systems and procedures.

E) Financial performance vis-à-vis Operational performance

As derived from the financial statements viz Balance sheet/ Profit & Loss account/ Cash flow statements for FY 2015-16, your Company believes in constant efforts to perform well on operational front along with making its financial condition strong. Your Company believes in utilizing internal funds instead of depending heavily on external borrowings in case of any requirement of the same. The management of your Company also believes in steady growth and utilize the financial resources accordingly.

Operating profit before working capital for FY 2015-16 is INR 118643768 and for FY 2014-15 was INR 110203114. Cash generated from operations for FY 2015-16 is INR 112129737 and for FY 2014-15 was INR 73763861.

F) Material Developments on Human Resources/ industrial relations, including number of people employed

We have been having excellent co-operation and support from the entire hierarchy of personnel, resulting in an improvement in productivity and overall growth of the Company even in rough economic conditions during the fiscal year 2015-16.

Our staff and workers are the most important assets. "ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF SWISS GLASCOAT EQUIPMENTS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of SWISS GLASCOAT EQUIPMENTS LIMITED ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India.
