Dear Madam/Sir,

Sub. : Investor Presentation – August 2023  
Ref. : Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015  
("SEBI Listing Regulations")

With reference to the captioned subject and in continuation to our letter having reference no. AW/SEC/BSE/2023-24/34 dated August 11, 2023, please find enclosed Investor Presentation with regard to the announcement of the Un-audited Financial Results (Standalone and Consolidated) of the Company for the quarter ended June 30, 2023 ("Financial Results").

The said presentation is available on the website of the Company i.e. [www.antony-waste.com](http://www.antony-waste.com).

This is for your information and record please.

Thanking You,

Yours faithfully,  
For and on behalf of  
ANTONY WASTE HANDLING CELL LIMITED

HARSHADA RANE  
COMPANY SECRETARY & COMPLIANCE OFFICER  
A34268

Encl: a/a

# Antony Waste Handling Cell Limited

Q1 FY24 Investor Presentation

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Antony Waste Handling Cell Limited (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

# Industry Dynamics

## India's Waste Management Industry has enormous growth potential

Waste Management Industry (FY22)

## On average India practices higher open dumping vs global average

## MSWM is expected to double in India in the next 5 yrs

## Strong government growth impetus towards the Solid Waste Management Sector

- Solid Waste Management
- Individual latrines & Construction of Toilets
- Public Awareness
- Capacity Building & Admn

With growing Budgetary Expenditure trends

# Presence Across Value Chain

*Only ~30-35% of the MSW generated and collected in India is scientifically processed*

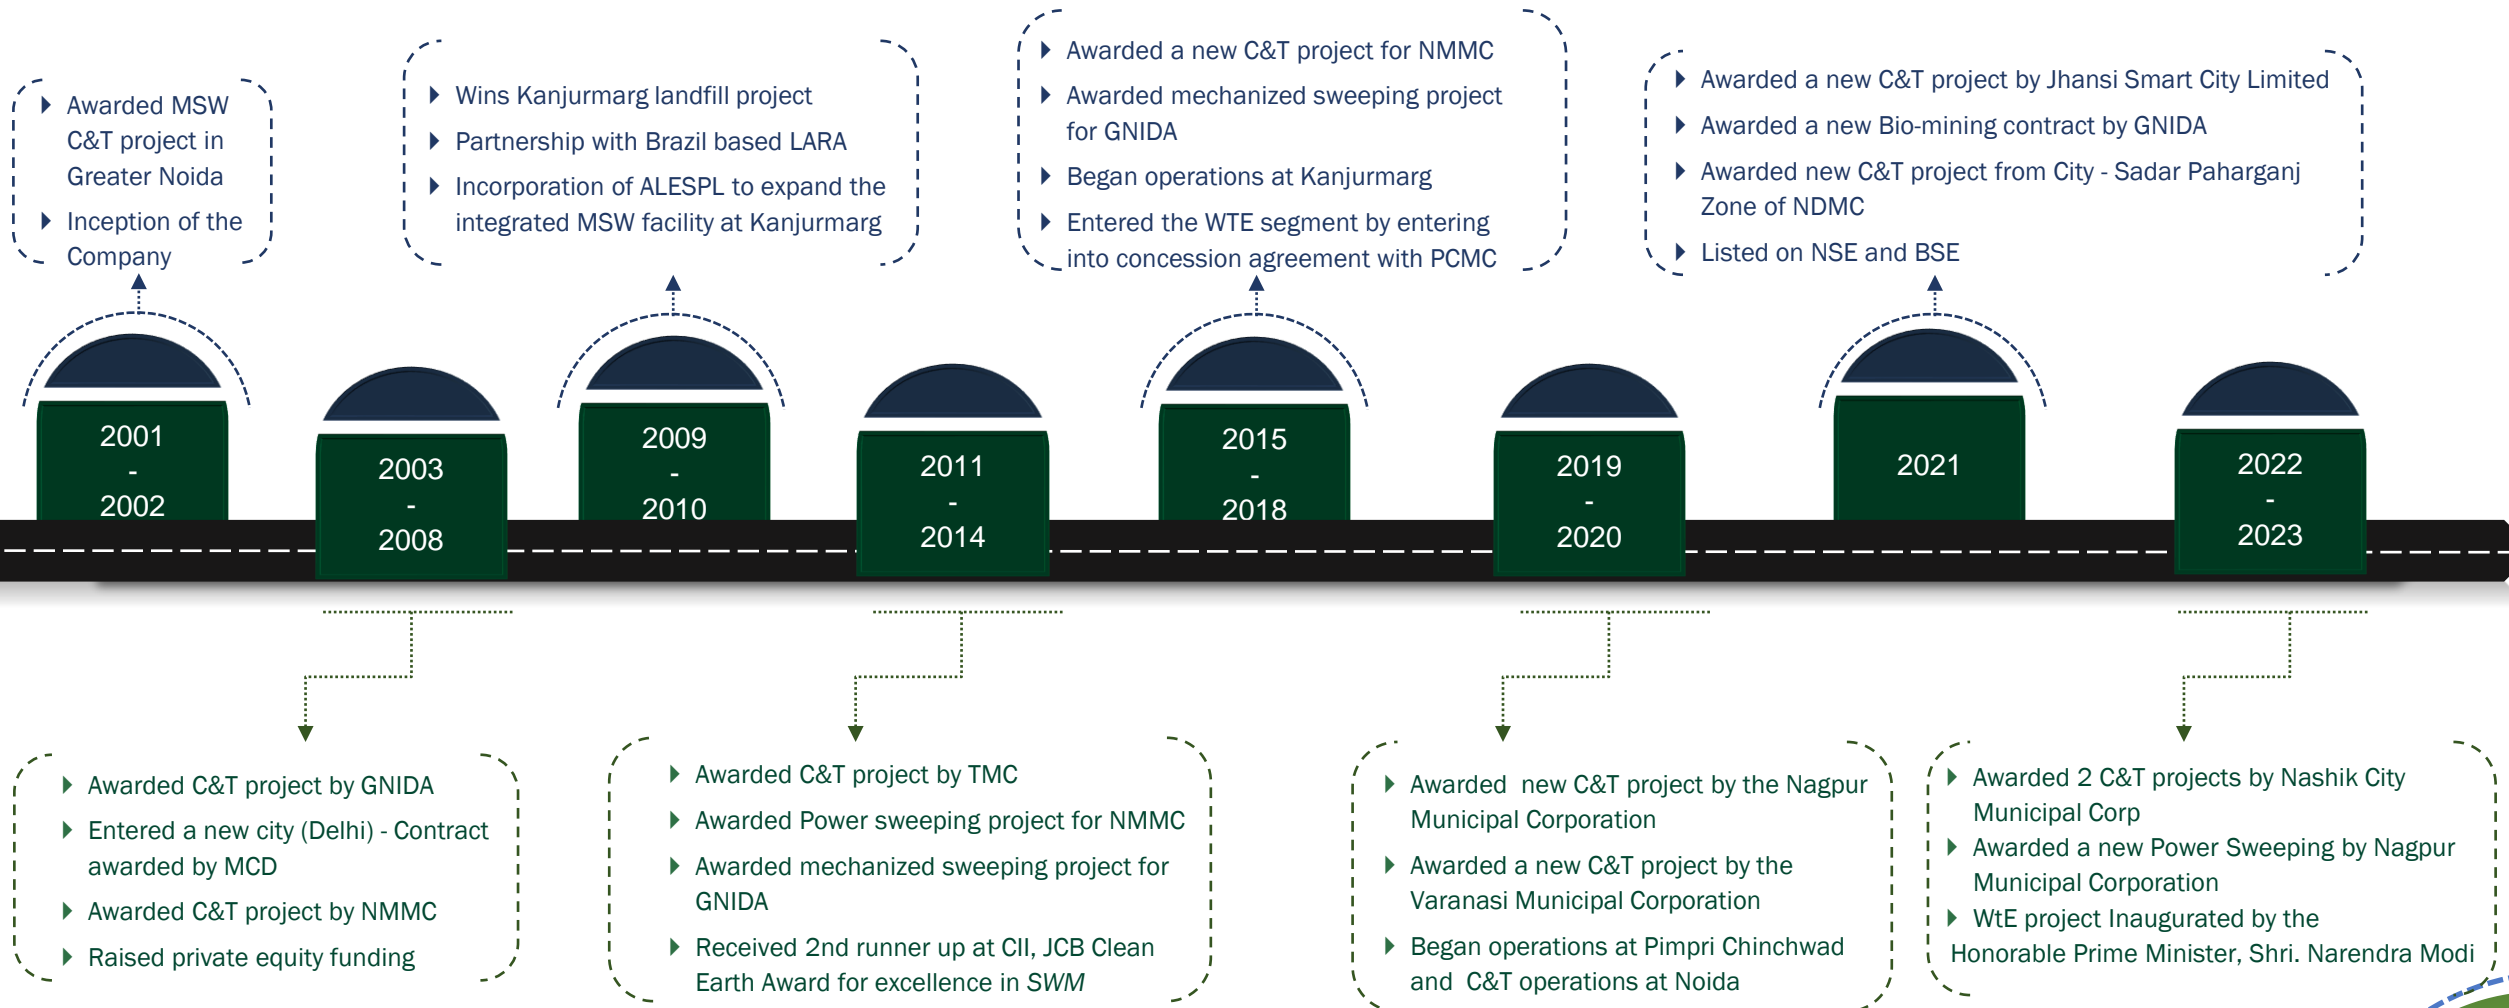

Types of waste

Processing Technologies

 - Antony's presence in the activity

# Journey of Antony so far....

# Our Core Competencies

Access to technology backed vehicles and equipment enables us to manage our operations efficiently

Experienced management team with strong domain expertise

Diversified business model

A leading service provider in Municipal Solid Waste management sector with end-to-end capabilities

Strong track record of project execution

*Sustainability with growth .....*

# End-to-end waste management capabilities...

*Involves door to door collection of MSW from households, commercial establishments etc.*

**1** Door to door collection

Transportation

**2**

*Strong C&T capabilities with a large fleet of vehicles. Waste is transported to the processing facility, transfer station or a landfill*

*Segregation involves separation of organic waste from recyclables and inert material*

**3** Segregation

Construction & Management of Landfills

**4**

*Manages largest bio-reactor landfill. Handles ~5,800 TPD waste at Kanjurmarg facility through MRF, bio-reactor landfill & sanitary landfill operations*

*Recyclables are segregated and sold to downward recyclers for further processing*

**5** Recycling

Composting

**6**

*Organic material is processed to produce compost*

*RDF/methane from landfill is used to generate power*

**7** Waste to Energy

**Sustainability with growth .....**

# ...with diversified revenue streams...

- Door to door collection through primary collection vehicles
- Transportation of waste to processing facility, transfer station or a landfill disposal site
- Revenue calculation based on No. of trips/ Per tons/ Fixed per day
- Escalation based on flat rate/ inflation/ formulas
- Currently 16 on-going contracts
- Average on-going contract duration is 7.7 years

- Involve sorting & segregating waste received from MSW C&T
- Followed by composting, recycling, shredding & compressing into RDF
- Revenue calculation based on Per hectare/ Km/ hour
- Escalation based on flat rate/ inflation
- Currently 3 on-going contracts
- Average on-going contract duration is 23 years

- Integrated mechanical & manual sweeping of streets, sale of goods, Revenue from sale of scrap
- Contract revenue arising from IND-AS treatment for capex incurred at DBOOT projects
- Revenue calculation based on Per hectare/ Km/ hour
- Escalation based on flat rate/ inflation
- 2 DBOOT projects & 5 Mechanical Sweeping projects

**Limited project & counter-party credit risk**

### User Fees

Reducing collections risk through user fee collection from waste generators in NOIDA and Varanasi

### Client Selection

Focus on municipal corporations with strong financials/ credit ratings

### Detailed viability analysis of the project

- Focus on contracts with pass-through escalations for major costs
- Rational bidding after background research

# ...and a De-Risked business model.

## Factors de-risking the business model

## Revenue from operations

## Number of Projects

## Revenue from Operations (Rs. In Cr)

## Average ongoing contract durations in years

**Sustainability with growth .....**

# One of the largest single location plant\* in Asia

**2010-2036**  
Project Tenure

**~13 Years**  
Balance Tenure

- TPD of MSW: Capable of handling **~7,500 TPD**
- It is one of the largest facility producing refuse-derived fuel (RDF) with a gross calorific value of over **4,000 cal/g\***
- Record sales of RDF stood at **27,720 tons** in Q1FY24.
- Recorded compost sale of **2,873 mt** in Q1FY24

**~5,800 Tonnes**  
Currently handling waste per day

**12.90 mmt**  
Since project inception till June 2023

बृहन्मुंबई  
महानगरपालिका  
Municipal Corporation  
of Greater Mumbai

Customer

**~90%**  
Of waste generated in Mumbai is handled  
at Kanjurmarg site

Project scope

- Design, Construction, operation & maintenance of integrated waste management facilities on DBOOT basis

Capacity

- Bio-reactor Landfill with **6,500 TPD** capacity
- Sanitary Landfill of **250 TPD**
- Material Recovery & Composting Facility (capacity of **1,000 TPD**)
- Gas to Energy plant – **0.97 MW**

**We operate one of the largest single location waste processing plants in Asia**

# Integrated Waste-to-Energy Project

Inaugurated on *August 1, 2023* by  
Shri Narendra Modi, Hon'ble Prime Minister of India

Maharashtra's  
first Waste-to-  
Energy project

Project Tenure  
2019-2040

## Integrated Project

Pre-processing, Composting, Power generation and Landfill Management

Processing of **1,000 Tons Per Day** of Municipal Solid Waste

**14 MW** of Clean and Green Energy – PCMC is the consumer of power generated

**First municipality** to buy power under the Green Energy Open Access Rules

**30 acres** of land provided by corporation

Project is estimated to save ~7 lakhs tons of CO<sub>2</sub> annually, equivalent to ~1.5 lakhs passenger cars' emissions.

Entire project utilizes recycled water from the Chikali Sewage Treatment Plant (STP), eliminating need for fresh-water dependency

PIMPRI CHINCHWAD

Vehicles & Equipments procured from *leading international suppliers including the likes of Compost Systems GMBH*

## Key equipment vendors

**BUCHER**

**HYVA**

**KÄRCHER**

**CATERPILLAR**

**MOBA**  
MOBILE AUTOMATION

## Waste processing technology

Experienced JV Partner for the scientific landfill at Kanjurmarg

## Key Processes

- Aerobic process using material recovery facility and composting facility at Kanjurmarg Plant
- Anaerobic process using Bioreactor landfill technology at Kanjurmarg Plant

*Sustainability with growth .....*

# Promoters & Board of Directors

## Promoter Directors

**Chairman & Managing Director**

### Jose Jacob Kallarakal

- >20 years experience in waste management
- Majorly responsible for the business development initiatives
- Authentic Leader Development Course from Harvard Business School, Boston and B.E. in Mechanical Eng. from Bharati Vidyapeeth's College of Eng., Univ. of Mumbai

**Executive Director**

### Shiju Jacob Kallarakal

- > 20 years of experience in waste management
- Overlooks the business development with the legal functions of the company
- B.E. in Chemical from Bharati Vidyapeeth's College of Eng., Univ. of Mumbai

**Non-Executive Director**

### Shiju Antony Kallarakal

- > 20 years of experience in automobile sector and more than 6 years in waste management sector
- Prior to joining Antony Lara Enviro Solutions P Ltd was associated with Antony Motors P Ltd and Antony Garages P Ltd

## Independent Directors

**Independent Director**

### Ajit Kumar Jain

- Director of Environment Research Foundation
- Holds Master's degree in chemistry, Agra University & political science, Meerut University & Master's degree in social science, University of Birmingham

**Independent Director**

### Suneet K Maheshwari

- >35 years experience in financial & infrastructure sector and in public-private partnerships & currently Partner of Udvik Infrastructure Advisors LLP
- Holds MBA from the Symbiosis Institute of Business Management from the University of Pune

**Independent Director**

### Priya Balasubramanian

- >10 years experience in securities market
- Previously associated with Lehman Brothers, Barclays Securities (India) and Barclays Capital Services
- Holds a PGDM from IIM, Ahmedabad

Capitalize on growth opportunities in MSW management sector

Continue with rational selection of projects and strategically expand our geographical footprint

Moving up MSW value chain by diversifying into emerging waste management areas

Focus on enhancing operational efficiency

## Cluster based approach for growth

- Traditionally we have followed cluster-based approach to bid for projects –
- 6 on-going projects in MMR
- 6 on-going projects around NCR
- Continue to focus on bidding projects in new states in clusters to increase profitability and efficiency
- Tap huge opportunity in the sector available due to growth & increasing trend towards privatization of MSW management industry

## Rational Selection of Projects For Expansion

- Experience, credentials & financial strength makes us eligible to bid for most projects in MSW sector
- Continue focus on calibrated growth with selection of projects which are viable
- Pursue a broad range of projects in urban or semi-urban areas with limited counter-party risks and healthy operating margins

## WTE, Segregation and Bio Mining

- WTE – Focus on waste to energy with assured raw material and signed power offtake agreements
- Focus on selling recyclables and RDF as an added source of revenue
- Focus on Bio mining which can be used to reclaim dump sites in Tier 1 & Tier 2 cities which has huge potential w.r.t number of dump sites over last 15 years

# Emerging areas of growth

## Biomethanation

- Anaerobic fermentation of bio-degradable waste in an enclosed space - generates methane rich bio-gas fuel and sludge, used for making compost
- Like composting, biomethanation is also a technically suitable option for Indian municipal waste due to high organic and moisture content
- Plants can be of small scale (5 TPD, for population size of 5,000 to 25,000)

## Refuse Derived Fuel

- Refers to residual dry combustible fraction of municipal solid waste such as leather, paper, textile, rubber, non-recyclable plastic etc.
- Used as a substitute for coal in energy intensive processes such as cement kilns, power production and steel manufacturing

## Bio-mining

- Loosened layers of old waste are sprayed with composting bio cultures and then formed into conventional aerobic windrows on the site, the waste is then sterilized, stabilized, and readied for segregation using machinery as organic and inorganic substances to be later sent for recycling, re-using or composting
- World's largest Biomining project on 24 hectares of land was started in 2018 at Mulund dumping ground
- Other cities like Indore, Delhi, Mangalore, Coimbatore, Pune, Kolhapur and Kolkata have started Bio mining projects recently

Population ('000)	Waste Qty (TPD)	Treatment option	Approx. Capex (Rs. lakhs/TPD)	Products
15 - 50	3 - 10	Bio-methanation & conventional composting	20	Bio-gas & manure
		Vermi composting	8	Compost
		Conventional composting	10	Compost
50 - 100	10 - 20	Bio-Methanation & conventional composting/vermi composting	10	Bio-gas & Compost
100 - 1,000	20 - 350	Integrated waste processing -Bio-methanation / Compost/ RDF	4	Bio-gas, Compost & RDF
1,000 - 20,000	350 - 8,000	Integrated waste processing -Bio-methanation / compost/ RDF/ WTE	15 - 20	Bio-gas, Compost, RDF & Electricity

# ESG

---

# We are a ESG centric Business

## Environmental

One site using byproducts to generate renewable energy (fulfilling >80% of energy requirement in operations). Target is to operationalize the second WTE site by FY 24.

Greenhouse gases generated from BLF station & leachate treatment plan are captured and flared to reduce emissions.

Vehicles for C&T comply with BS - VI norms & maintain PUC.

Leachate is treated to reduce Biochemical Oxygen Demand (BOD) levels within permissible limits.

## Social

Target to achieve LTIFR rate of <0.30 by FY 24. Conduct employee trainings regularly on construction dangers, waste management, machine/ fire safety, emergency material handling, and heavy vehicle safety.

100% Coverage of POSH policy across all the sites. We have implemented Anti-sexual Harassment Policy for all employees.

We have "Responsible & Ethical Suppliers Code of Conduct" that require our suppliers, vendors & subcontractors to comply with.

We have CSR Policy as per Schedule VII of the Company Act, 2013. The main focus being Health, Education, and Environment.

Best practices in community grievance redressal are followed at sites.

## Governance

Board of 6 members, headed by Chairman & MD, has 3 Independent Directors including one independent Woman Director.

Committees including Audit, Nomination Remuneration, and Stakeholders Relationship Committee, all are chaired by an Independent Director.

Vigil Mechanism/ Whistle-blower Policy to facilitate reporting of genuine concerns or grievances.

Code of Conduct applies to all Directors and Senior Members of the core management team who are one level below the Board.

# ESG Performance

# Credit Rating

## Detailed Rationale

- Ratings of Antony Lara Enviro Solutions Private Limited (ALESPL), material subsidiary of the Company continue to reflect:
  - **Extensive industry experience of the promoters:** The promoters have an experience of more than two decades in waste management industry. This has given them an understanding of the dynamics of the market and enabled them to establish relationships with various municipal corporation.
  - **Long term revenue visibility supported by agreement with Brihanmumbai Municipal Corporation (BMC):** Entered into service concession agreement for 25 years with BMC, with assured minimum guarantee quantity of 3000 tonnes per day, along with increasing tipping fee for each year
  - **Efficient working capital cycle:** Billing to BMC is done on monthly basis and payment received within 20-30 days. Furthermore, to meet its business requirement, it doesn't need to hold large inventory. This leads to low dependence on bank debt
  - **Adequate debt service coverage ratio (DSCR) coupled with escrow mechanism and adequate liquidity:** An escrow mechanism ensures priority of term loan repayment

AWHCL Rating	Current Rating	Previous Rating
Long term Bank facilities	CARE BBB+; Stable	CARE BBB; Stable
Short term Bank facilities	CARE A3+	CARE A3

ALESPL Rating	Current Rating	Previous Rating
Long term Bank facilities	CRISIL BBB+ / Stable	CARE BBB- / Stable
Short term Bank facilities	CRISIL A2	CARE A3

## Consolidated Average Cost of Borrowings

**12.4%**

As on 31<sup>st</sup> March  
2020

# Annexures

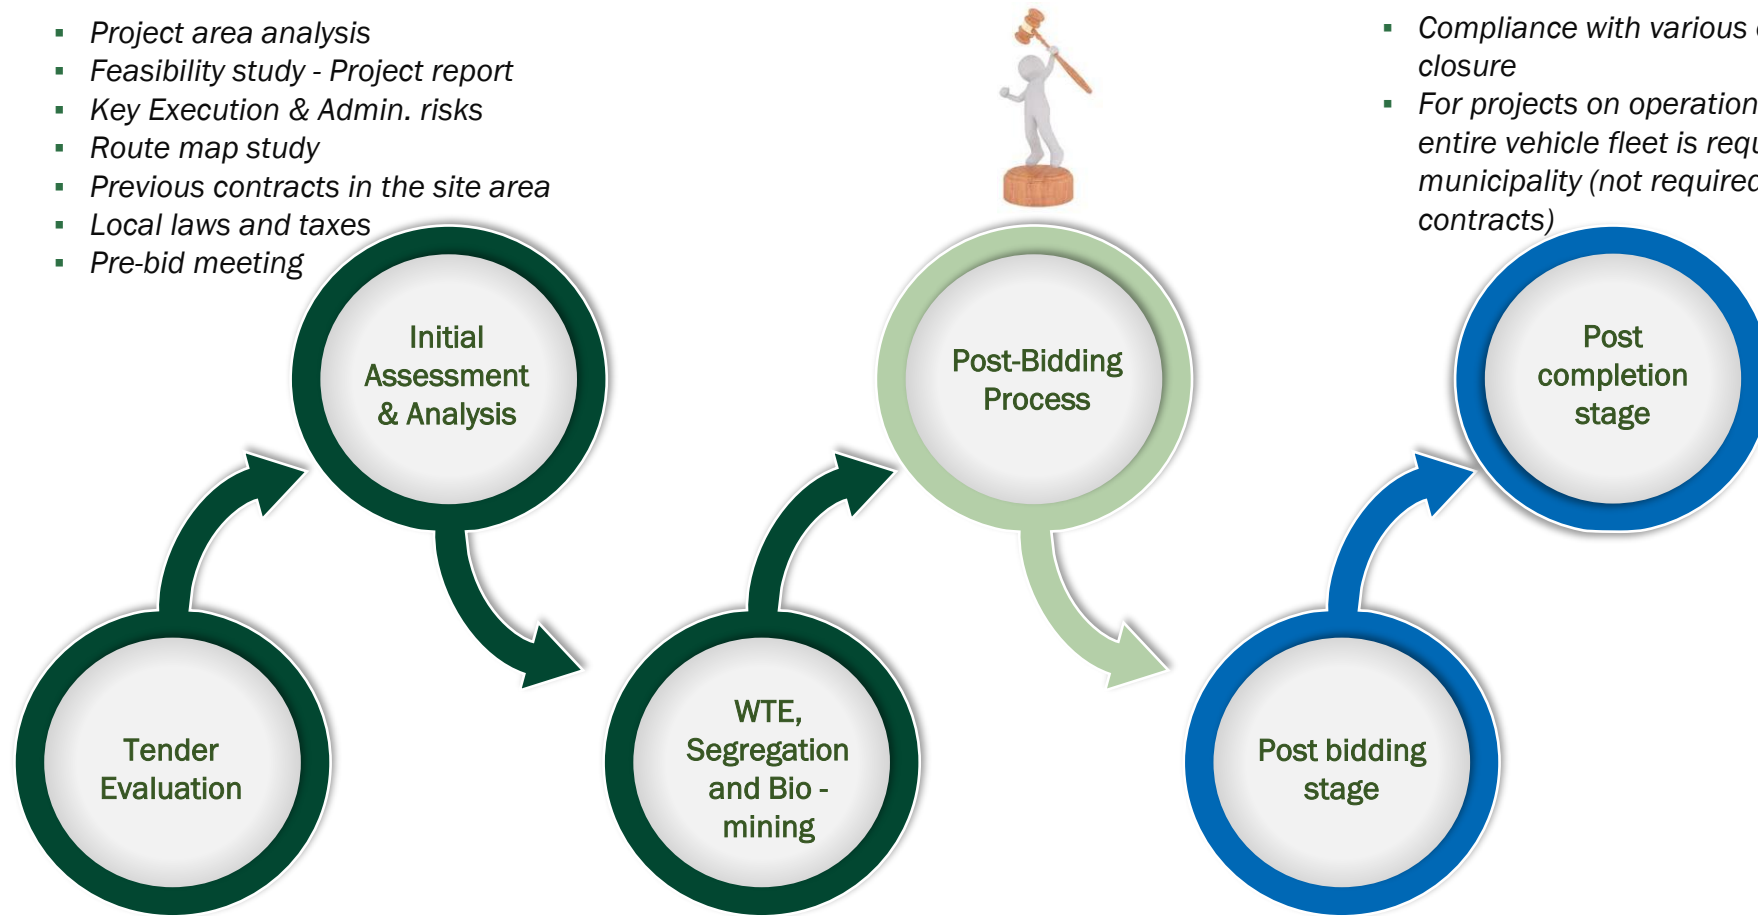

# Quality Cum Cost Based Bidding Process

- Project area analysis
- Feasibility study - Project report
- Key Execution & Admin. risks
- Route map study
- Previous contracts in the site area
- Local laws and taxes
- Pre-bid meeting

- Compliance with various covenants for project closure
- For projects on operation and maintenance basis, entire vehicle fleet is required to be returned to municipality (not required for DBOO & BOO contracts)

- For projects involving landfills, requirement of restoring the land to its original condition at company's own cost

- Peruse the RFP
- Understand scope size & scale of project
- Tender conditions & stipulation analysis
- Geography study
- Financial & Non-financial viability

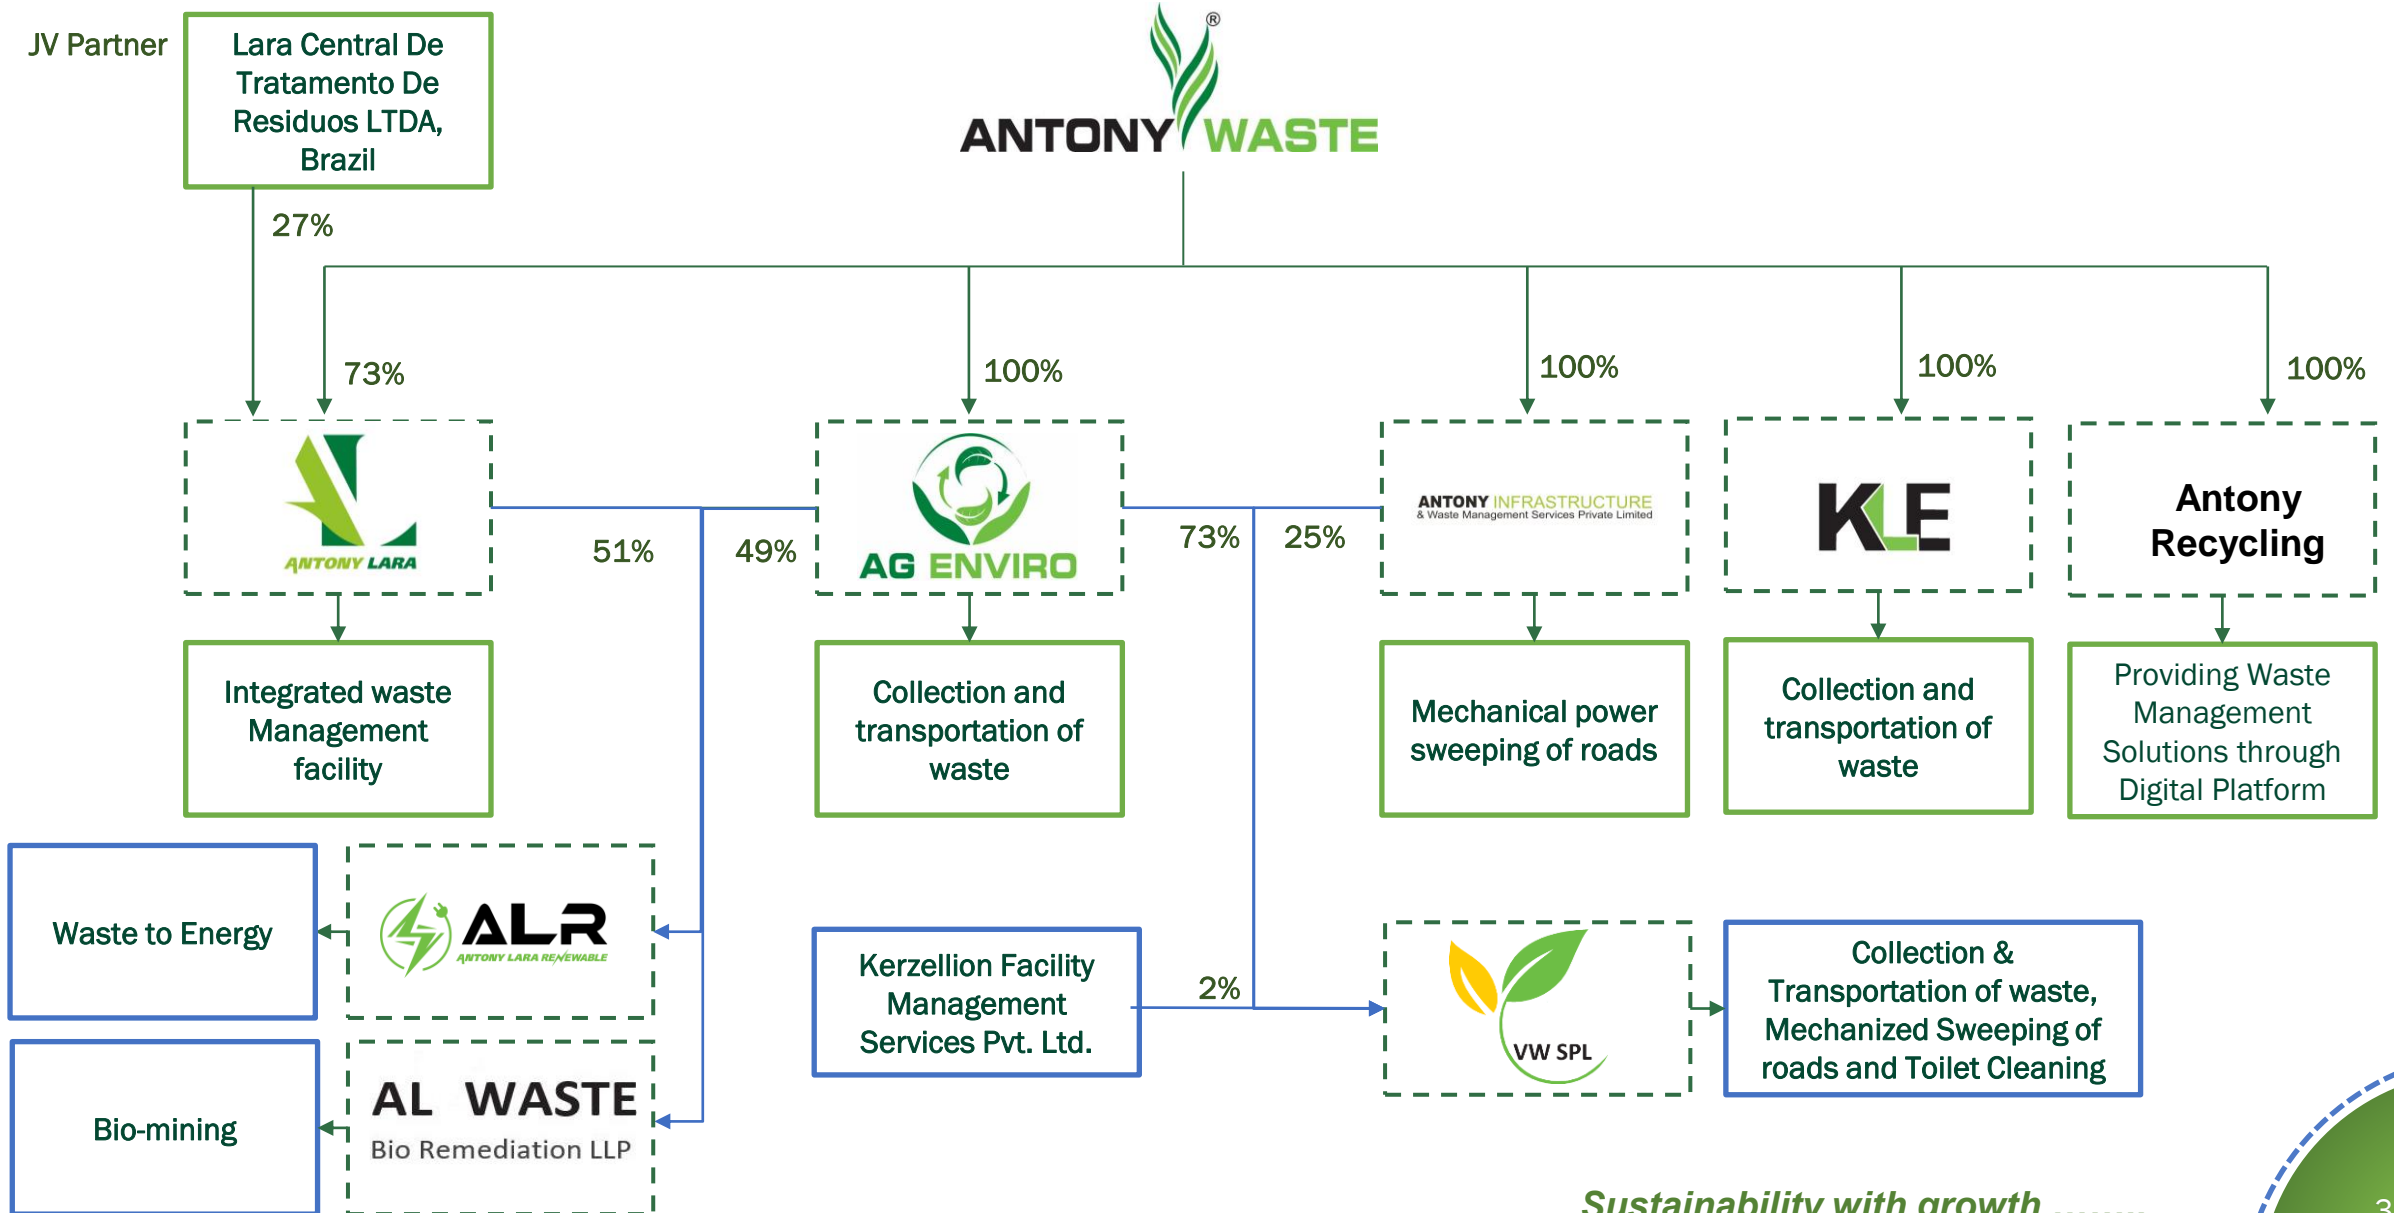

- Actual bidding
- Technical criteria fulfillment
- Eligibility
- Quote the rate
- Meeting all the criteria
- Contract award

- Provide project plans, structural/architectural designs
- LoA or Lol by the client for contract award
- Post award, begin mobilizing manpower, vehicles & equipment resources & setting up of site offices, stores & other ancillary facilities

Pre-Bidding Process  
 Post-Bidding Process
