# Chairman's Outlook

Greetings to Stakeholders!!!

It gives me great pleasure to welcome you all to the 34<sup>th</sup> Annual General meeting of Indian Sucrose Limited for the financial year 2024-25 on behalf of the Board of Directors of the company. I extend my heartfelt gratitude to all our stakeholders for their continued support, commitment, and confidence in our company. The Company has performed immensely great in the financial year 2024-25. During the year, we have started new segment of co-gen power plant and the revenue has picked up significantly well.

The Indian sugar industry has witnessed a transformational phase in recent years. Despite challenges such as volatile global prices, climate irregularities, and policy dynamics, the sector has

continued to play a vital role in the nation's agricultural and rural economy as second highest contributor. India retained its position as one of the largest producers and consumers of sugar globally. The ongoing emphasis on ethanol blending, sustainable practices, and agroindustrial integration has opened new avenues for growth and diversification.

I am pleased to report that Your Company has demonstrated resilience, adaptability, and strategic foresight during the financial year 2024-25. We have strengthened our operational efficiency, achieved higher recoveries, and leveraged technological innovations to reduce costs and improve quality. Our foray into cogeneration has begun to yield promising results, reinforcing our commitment to building a sustainable and diversified revenue model.as the revenue of the company has been highest in the past years standing at ₹54,568.89 Lakhs, an increase of 3% from the previous financial year. Sugar crushing was operational for 5 Months and during this we were able to crush 10428636 Quintals of Sugarcane and the recovery stood at 9.95% resulting in production of 103770 Quintals of Sugar.

During the year under review, the Company has strategically diversified into a new line of business, thereby broadening the scope of its existing operations. We are pleased to inform that the Company has forayed into the Petroleum Segment and has successfully commenced retail distribution at its ISL unit situated on G.T. Road, Mukerian, District Hoshiarpur, Punjab. It will be benefiting the company for generating additional revenue from BPCL fuel Vending unit and open new job opportunities for the people in the nearby Vicinity.

The Sugar Production according to the report, India's centrifugal sugar production in marketing year 2025-

2026 is forecast to increase by 18% to reach 34.9 million metric tons (MMT), Sugarcane production is also expected to rise to 13.26 MT next season from 9.33 MT in the current season, driven by better yields and increased acreage supported by good monsoons. After restricting sugar exports in the 2023–24 season, the government in January 2025 allowed the export of 10 Lac MT in the ongoing 2024–25 season, considering domestic availability and ethanol diversion.

Our Company has also been engaged in the Cogeneration of power from renewal Resources. Sugar mills in India consume their own bagasse to run their mills during the season and generate steam to run the boilers and turbines; they generate power to run their plants. Surplus energy can be exported to the grid of distribution licensees. Our company has total installed capacity of 59.5 MWH, further during the year 2024-25 our company has generated total power of 109062 MWH out of which total power which was consumed inhouse was 41045 MWH and Power which was exported stands at 68017 MWH to grid.

This year, we have made meaningful progress in our modernization plans, automation, and digitalization across mills. We have also invested in training and capacity-building for our farmers and workforce, fostering inclusive growth.

Our commitment to green energy continues with our upcoming ethanol project aligned with the Government of India's Ethanol Blending Program (EBP). We believe this initiative not only ensures better cane price realization for farmers but also contributes to reducing the country's crude oil import bill and carbon footprint.

Towards the end, I take this opportunity to thank our employees, farmers, business partners, and all stakeholders for their dedicated efforts and unwavering faith. I also express my appreciation to the Board of Directors for their valuable guidance and to our shareholders for their continued support and trust.

We step into the future with optimism, agility, and a clear vision-to create a more sustainable, profitable, and responsible sugar business for generations to come.

Finally, I thank all our shareholders who are attending the meeting virtually, and for consistent participation with us.

Your Sincerely,

Kunal Yadav Managing Director

Since the statement and other documents submitted to the bank and information required by us was pending to be produced before us for verification in respect of all the quarters, hence we are unable to comment on any difference in Stock Statements and Books of Accounts of the company, if any.	The Company has availed working capital limits in excess of ₹5 crores from banks, secured against pledge of stock. In accordance with the pledge arrangements prescribed under banking norms, the periodic stock statements submitted to the banks are duly prepared by the Company and are required to be verified by the Godown Keeper appointed by the bank. These stock statements are in agreement with the underlying books of account and records of the Company. The same are presently lying with the bank for final confirmation and will be made available to the statutory auditors for their verification as well.
2)	According to the information and explanations given to us the Company is generally regular in depositing with appropriate authorities, undisputed statutory dues including Goods and service tax ,Provident Fund, Income Tax, Customs Duty, Value added Tax, Cess, Regulatory fees/administrative charges and other statutory dues applicable to it with appropriate authorities except delay in deposit of TDS in few cases .As explained to us, the provisions of Employees State Insurance are not applicable to the Company. Further, there were no arrears of undisputed statutory dues outstanding as at 31st March, 2025 for a period of more than six months from the date they became payable.	The company has duly complied with the provisions relating to Tax Deduction at Source (TDS) under the Income-tax Act, 1961 for the financial year 2024-25. The Company has deducted TDS wherever applicable on expenses and other payments liable for such deduction under Chapter XVII-B of the Act. The Company has deposited the entire TDS so deducted with the credit of the Central Government. In certain cases, there were delays in depositing TDS within the prescribed due dates, primarily due to technical/system-related issues arising from software malfunction and integration problems between the accounting software and the income-tax payment portal; however, all the TDS deducted has been fully deposited before the finalization of accounts for FY 2024-25.

Information on Conversation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo stipulated under section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of The Companies (Accounts) Rules, 2014.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

A.	CONSERVATION OF ENERGY:					
(i)	The steps taken or impact on conservation of energy	The Company's operations involve low energy consumption. Energy conservation is first priority at all levels. All efforts are made to conserve and optimize use of energy with continuous monitoring, improvement in maintenance and distribution systems and through improved operational techniques. Uses of natural lights are resorted at factory premises to save energy. Wherever possible, energy conservation measures have been implemented. Efforts to conserve and optimize the use of energy will continue. The Company has installed most modern equipment's in the plant and is able to save and minimize energy consumption				
(ii)	The steps taken by the company for utilizing the alternate source of energy	Nil				
(iii)	The capital investment on energy conservation equipment	Nil				
В.	TECHNOLOGY ABSORPTION:					
(i)	The efforts made towards technology absorption	Nil				
(ii)	The benefits derived like product improvement, cost reduction, product development or import substitution	The effort made towards technology absorption – The company has adopted latest technology in the plant to maximize production, better quality.				
(iii)	In case of imported technology (imported during the last 3 years reckoned from the beginning of the financial year)	Nil				
(a)	The details of the technology imported;	N.A.				
(b)	The year of import;	N.A.				
(c)	Whether the technology been fully absorbed;	N.A.				
(d)	If not fully absorbed, areas where absorption has not taken place, and the reasons there of;	N.A.				
(iv)	The expenditure incurred on research and development	Nil				
C.	FOREIGN EXCHANGE EARNING AND OUTGO: The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo during the year in terms of actual outflows: Nil

Annexure – E to the Directors' Report

Information required under Section 197(12) of the Companies Act, 2013 read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

# i. The ratio of the remuneration of each Director to the median remuneration of the employees of the company for the financial year ("FY")

(₹ In Lacs)

Name of Director & Designation	Median (in ₹)	Remuneration (in ₹) 2024- 2025	Ratio	
Kunal Yadav – Managing Director	1.66	409.16		
Jaitender Kumar – Non-Executive Non-Independent Director	N.A	2.25	NIL	
Geeta Sharma – Non-Executive Non-Independent Director	N.A	2.25	NIL	
Satish Agrawal* – Independent Director	N.A	0.35	NIL	
Anil Kumar Punj** – Independent Director	N.A	1.00	NIL	
Birendra Kumar*** – Independent Director	N.A	0.70	NIL	
Neeraj Bansal – Independent Director	N.A	2.25	NIL	
Shriram Agrawal**** – Independent Director	N.A	1.75	NIL	
Ashish Singh Yadav – Independent Director	N.A	2.25	NIL	

<sup>\*</sup>Mr. Satish Agrawal was appointed in the Board on October 11, 2024, as a Non-Executive Independent Director and ceased to be director of company consequent upon his resignation with effect from 02th December, 2024 due to other professional commitments.

#### Notes:

- 1. Median is derived including remuneration paid to Mr. Kunal Yadav, Managing Director of the Company.
- 2. To derive median, only employees on the payroll of the Company are taken into consideration.
- 3. Mr. Neeraj Bansal, Mr. Shriram Agrawal, Mrs. Geeta Sharma, Mr. Ashish Singh Yadav, Mr. Satish Agrawal, Mr. Anil Kumar Punj, Mr. Birendra Kumar and Mr. Jaitendra Kumar were received only sitting fees during 2024- 2025 which is not considered as remuneration for the purpose of above calculation.

# ii. The percentage increase in remuneration of each Director, Chief Financial Officer, Chief Executive Officer, Company Secretary, if any, in the financial year

Name of Director/KMP	Designation	FY 2024-25	FY 2023-24	% increased
Mr. Kunal Yadav	Managing Director	409.16	260.32	57.18%
Mr. Ravinder Sharma	Chief Finance Officer	10.85	9.89	09.71%
Ms. Anamika Raju	Company Secretary	12.73	12.53	1.60%

#### Notes:

1. The remuneration mentioned above is the per annum remuneration fixed during appointment.

<sup>\*\*</sup> Mr. Anil Kumar Punj was appointed in the Board on October 11, 2024, as a Non-Executive Independent Director.

<sup>\*\*\*</sup> Mr. Birendra Kumar was appointed in the Board on January 10, 2025, as a Non-Executive Independent Director.

<sup>\*\*\*\*</sup> Mr. Shriram Agrawal resigned from the Board of Directors on February 06, 2025, as a Non-Executive Independent Director.

- iii. The percentage increase in the median remuneration of employees in the financial year
- iv. The percentage increase in the median remuneration of employees in the financial year 2024-25 is 4.26%.
- v. The number of permanent employees on the rolls of Company

Permanent employees on the rolls of the Company as on March 31, 2025 were 409

vi. Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration.

There is 4.26% increase in the salary of employees of the company as against 57.18% increase in the salary of Managing Director of the Company for the financial year 2024-2025.

vii. Affirmation that the remuneration is as per the remuneration policy of the Company.

The remuneration paid for FY 2024-25 was as per remuneration policy of the Company and has been approved by the Nomination and Remuneration Committee of the Board.

#### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

#### **GLOBAL SUGAR MARKET**

The International Sugar Organization (ISO) raised its 2024/25 global sugar deficit forecast to 4.88 MMT from its previous estimate of 2.51 MMT, signaling a tightening market compared to the 2023/24 global sugar surplus of 1.31 MMT. The ISO also lowered its global sugar production forecast for 2024/25 to 175.5 MMT from the earlier estimate of 179.1 MMT. Green Pool Commodity Specialists projected that the global sugar market will shift to a surplus of 2.7 MMT in the 2025/26 crop year after an estimated deficit of 3.7 MMT in 2024/25.

India's decision to allow 1 MMT of sugar exports this season, announced on January 20, also weighed on prices. The country had restricted sugar exports since October 2023 to maintain domestic supply. During the 2022/23 season, India permitted exports of only 6.1 MMT after allowing a record 11.1 MMT in the previous season. However, the Indian Sugar Mills Association (ISMA) projects that India's 2024/25 sugar production will decline by 15% year-over-year to a five-year low of 27.27 MMT.

#### **GLOBAL ECONOMY**

As per the International Monetary Fund's World Economic Outlook (WEO), the risks to global growth are broadly balanced and a soft landing is a possibility with the global growth projected at 3.1% in 2024 and 3.2% in 2025, with the 2024 forecast 0.2% higher than the previous WEO released in October 2023, on account of greater-than expected resilience in the United States and several large emerging market and developing economies, as well as fiscal support in China. The forecast for 2024–25 is, however with elevated central bank policy rates to fight inflation, a withdrawal of fiscal support amid high debt weighing on economic activity, and low underlying productivity growth. World trade growth is projected at 3.3% in 2024 and 3.6% in 2025, below its historical average growth rate of 4.9%. In emerging market and developing economies, growth is expected to remain at 4.1% in 2024 and to rise to 4.2% in 2025. An upward revision of 0.1% for 2024 since October 2023 reflects upgrades for several regions. India, being an emerging market and developing economy itself, is projected to remain strong at 6.5% in both 2024 and 2025, with an upgrade of 0.2% points for both years, reflecting resilience in domestic demand.

#### **INDIAN SUGAR MARKET**

Next to Brazil, India is the largest global producer of sugar. In India, sugarcane is produced majorly in nine states, viz., Uttar Pradesh, Maharashtra, Karnataka, Punjab, Andhra Pradesh, Bihar, Gujarat, Haryana, and Tamil Nadu. It is one of those important agro-based industries that impacts the rural livelihood of many. Demand for cane and sugar is increasing in India because of their extensive use in applications like food and beverages, bakery, confectionery and Others.

The Indian sugar industry is expected to see a rebound in production during the 2025-26 season, with estimates ranging from 35 to 36 million tonnes, a significant increase compared to the previous year. This growth is largely attributed to favorable weather conditions and increased sugarcane acreage. While the current season (2024-25) experienced lower-than-expected production, the outlook for 2025-26 is optimistic due to anticipated higher yields and a strong monsoon. India's sugar production has dropped by 18.38% to 25.82 million tonnes as of July in the current season 2024-25, compared to the same period last year. This decline comes as major sugar-producing states reported lower output, according to the National Federation of Cooperative Sugar Factories Ltd (NFCSF). The NFCSFL also reported that Uttar Pradesh, India's largest sugar-producing state, saw a decline in output to 9.27 million tonnes as of July, down from 10.36 million tonnes last year. Maharashtra, the second-largest producer, experienced a sharper fall, with output dropping to 8.09 million tonnes from 11 million tonnes, while Karnataka's production decreased to 4.06 million tonnes from 5.16 million tonnes.

The decline in production is attributed to a combination of reduced sugarcane availability, adverse weather conditions, a rise in the diversion of sugarcane for ethanol production, and pest and disease outbreaks.

#### STATE-WISE SUGAR PRODUCTION AND CRUSHING

#### A. MAHARASHTRA

Sugar production in Maharashtra for the ongoing 2024-25 season has reached 728.67 lakh quintals (approximately 72.86 lakh tonnes), marking a decline from the 879.6 lakh quintals produced during the same period last season. Currently, 156 mills are engaged in sugarcane crushing operations, while 44 mills have concluded their crushing season. As of February 23, statewide mills have crushed 781.82 lakh tonnes of sugarcane, compared to 884.6 lakh tonnes crushed during the same period last season. The state's overall sugar recovery rate stands at 9.32%, lower than the 9.94% rate achieved during the same period last season.

The decline is linked to factors like lower yields, delays in the start of the crushing season, and diversion of sugarcane for ethanol production.

#### **B. UTTAR PRADESH**

Uttar Pradesh continues to lead the country in sugar production during the 2024–25 crushing season, with 92.75 lakh tonnes of sugar produced so far. However, the state is also witnessing a sharp dip in sugar recovery and overall output compared to last year, reflecting broader concerns in the sugar industry.

According to the National Federation of Cooperative Sugar Factories Ltd (NFCSF), UP's sugar production has declined from 103.65 lakh tonnes last year — a drop of nearly 11%. Even more alarming is the fall in sugar recovery rate from 10.60% to 9.70%, a signal that the same amount of cane is now yielding significantly less sugar.

Uttar Pradesh is also playing a key role in India's ethanol blending programme, which recently achieved its 2025 target of 20% ethanol blending in petrol — five years ahead of schedule. A substantial share of this ethanol comes from sugarcane-based feedstock, much of it sourced from UP.

Out of the 700 crore litres of ethanol supplied so far in the current ethanol year, 38% has come from sugarcane, with UP being one of the largest contributors.

#### C. TAMIL NADU

The Tamil Nadu sugarcane sector in 2025 is facing concerns about the announced <u>Fair and Remunerative Price (FRP)</u> and its impact on farmer livelihoods. While the central government increased the FRP to ₹355 per quintal for the 2025-26 season,

farmers in Tamil Nadu, particularly in the western districts, are expressing dissatisfaction, stating it's insufficient and doesn't meet the state government's previous election promise of ₹4,000 per tonne.

The mill management has been awaiting government approval for a ₹160-crore proposal to revamp facilities and replace ageing machinery. The old machinery installed in 1955 had worn out and had to be discarded during 2023. The new committee will frame an action plan to revive cane crushing operations.

The mill has, for the last couple of years, been extracting rectified spirit and ethanol by sourcing molasses from other mills in the State, as per the media report.

Farmers' associations have been pressing for revival of cane crushing at the mill, pointing out that it offers an around 11% sugar recovery rate, the highest in the region. The Region has suggested modernising the unit with a crushing capacity of 2,500 tonnes per day. Farmers currently transport their cane to other mills, adding to their costs.

#### D. PUNJAB

The Punjab Government announced the sugarcane crushing in the state will begin from November 25, 2024 onwards. This decision was made during a meeting of the State Sugarcane Control Board, chaired by Punjab Agriculture and Farmers Welfare Minister S. Gurmeet Singh Khudian at his office. He Further said that Punjab has witnessed a 5% increase in the area under sugarcane crop. This year, sugarcane crop has been cultivated on 1 lakh hectares area, which is up from around 95,000 hectares previous year. There are 15 sugar mills in Punjab, comprising nine cooperative and six private mills, which are expected to crush around 700 lakh quintals of sugarcane. The state is projected to produce 62 lakh quintals of sugar this season

Farmers' associations have been pressing for revival of cane crushing at the mill, pointing out that it offers an around 7.5% Average sugar recovery rate.

#### **SUGAR PRODUCTION ESTIMATE**

The Indian Sugar and Bio-energy Manufacturers Association (ISMA) has released the first estimates of sugar production for the 2025–26 season.

In ISMA's meeting on 31st July 2025, attended by representatives from sugar-producing states across the country, India's gross sugar production (before diversion) is estimated to increase by 18%, reaching around 349 lakh tonnes, compared to 295 lakh tonnes produced in 2024-25.

Based on the satellite images procured in the latter part of June 2025, the total acreage under sugarcane in the country is estimated to be around 57.24 lakh hectares in 2025-26 SS against 57.11 lakh hectares in 2024-25 SS i.e. marginally higher than last year. The images of the cane area, field reports regarding expected yield, sugar recovery, drawal percentage, impact of previous and current year's rainfall, water availability in reservoirs, expected rainfall during SW monsoon 2025 and other related aspects were discussed in detail, ISMA said.

According to the sugar body, In Maharashtra, the cane area has increased to 14.93 lakh hectare for 2025-26 SS, against last year area of 13.82 lakh hectares i.e. up by approximately 8%. The overall crop quality this year is significantly better than last year. A higher proportion of plant cane and adequate water availability have contributed to this improvement. The abundant rainfall received in May was particularly beneficial, enhancing soil moisture and supporting early crop growth. Additionally, southwest monsoon rainfall between June 1 and July 31 has remained within the normal range, further supporting crop development. The forecast for the remainder of the 2025 southwest monsoon is also positive, reinforcing expectations of a healthy and promising crop. Additionally, reservoir levels in cane growing regions have better availability of water as compared to last year i.e. higher 30 – 40%.

These factors are likely to enhance cane productivity and improve sugar recovery from the standing crop, thereby positively impacting overall sugar output. The combination of better yields and increased cane area is expected to boost gross sugar production (before diversion) to 132.68 lakh tonnes against 93.34 lakh tonnes last year i.e. up by approximately 42%.

In Karnataka sugarcane area has increased by about 6% to 6.76 lakh hectares against 6.4 lakh hectares last year. Similar to Maharashtra, favorable rainfall and adequate water availability in reservoirs have improved standing crop quality significantly and therefore sugarcane yield and sugar recovery are expected to increase. Accordingly, gross sugar production (before diversion) is

expected to increase by 23% to 66.19 lakh tonnes against 53.68 lakh tonnes produced in 2024-25 SS.

	States	Sugarcane Acreage  Lakh Hectares		% Change over last year	2024-25 (P)			2025-26 (E)
S.No					Estimated sugar production	Estimated sugar diversion	Net sugar production	Estimated sugar production
					BEFORE DIVERSION		AFTER DIVERSION	BEFORE DIVERSION
		2024-25	2025-26		Lac tons	Lac tons	Lac tons	Lac tons
1	Uttar Pradesh	23.30	22.57	-3	100.74	34.04	92.76	102.53
2	Maharashtra	13.82	14.93	8%	93.34		80.96	132.68
3	Karnataka	6.40	6.76	6%	53.68*		41.86*	66.19
4	Tamil Nadu	2.07	2.05	-1%	6.99*		6.93*	7.15
5	Gujarat	2.31	2.22	-4%	8.94		8.92	9.41
6	Others	9.12	8.71	-5%	31.38		29.60	31.06
7	Total (estimated end of season)	57.11	57.24	0%	295.07	34.04	261.03	349.01

In Uttar Pradesh, cane area has declined by approximately 3% to 22.57 lakh hectares against 23.30 lakh hectares last season. However, the overall condition of the standing crop is much better than last year. Moreover, due to cane development initiatives at the mill level, including timely corrective measures and varietal replacements, the incidence of red rot and other disease infestations is expected to remain minimal in the 2025-26 sugar season and therefore cane yield and recovery are likely to recover. Accordingly, it is estimated that gross sugar production (before diversion) in the state would be 102.53 lakh tonnes against last year production of 100.74 lakh tonnes.

#### **SUGAR CONSUMPTION**

In a release, ISMA stated that, on the consumption side, it is noted that the domestic sales quota for the first four months of this year is 7 lakh tonnes lower compared to the same period last year. Additionally, during the previous year, a higher sales quota was released due to increased demand during the general elections (April – June, 2024). Consequently, ISMA estimates that, with an average domestic consumption of approximately 23.5 lakh tonnes over the remaining eight months, the total domestic consumption for the sugar season 2024-25 is projected to be lower, at around 280 lakh tonnes.

As crushing progresses at normal pace, sugar production till 31st December, 2024 in the current 2024-25 Sugar Season reached 95.40 lakh tonnes, against 113.01 lakh tonnes produced last year on the corresponding date. Number of operating factories were 493 this year, against 512 factories which operated last year on the corresponding date, according to ISMA.

#### **SUGARCANE FAIR & REMUNERATIVE PRICE**

The Fair and Remunerative Price (FRP) for sugarcane for the 2025-26 sugar season is set at ₹355 per quintal, according to PIB. This price is for a basic recovery rate of 10.25%. There is a premium of ₹3.46 per quintal for every 0.1% increase in recovery above 10.25% and a similar deduction for decreases, according to PIB. For sugar mills with a recovery rate below 9.5%, the FRP is set at ₹329.05 per quintal. The Commission for Agricultural Costs and Prices (CACP), an attached office of the ministry of agriculture and farmers welfare, calculates the FRP in consultation with sugar industry associations and state governments. Factors considered include the cost of production, returns from other crops, market prices of agricultural commodities and sugar, sugar recovery, by-product sales, and reasonable margins for farmer. The FRP protects farmers by guaranteeing a minimum price, encouraging improved cane quality, and helping ensure timely payments. The sugar sector is a vital industry, providing livelihoods to many farmers and workers

#### ISMA PRELIMINARY ESTIMATES OF SUGAR PRODUCTION FOR 2025 SEASON

According to the <u>Indian Sugar and Bio-energy Manufacturers Association</u> (ISMA), India's sugar production is estimated to rise by 18% to 34.9 million tonnes in the 2025-26 season, according to ISMA. This increase is attributed to higher sugarcane acreage in states like Maharashtra and Karnataka. ISMA also anticipates that a significant portion of this increased production, around 5 million tonnes, will be diverted for ethanol production, with the potential for 2 million tonnes to be exported.

According to the sugar body, In Maharashtra, the cane area has increased to 14.93 lakh hectare for 2025-26, against last year area of 13.82 lakh hectares i.e. up by approximately 8%. The overall crop quality this year is significantly better than last year. A higher

proportion of plant cane and adequate water availability have contributed to this improvement. The abundant rainfall received in May was particularly beneficial, enhancing soil moisture and supporting early crop growth. Additionally, southwest monsoon rainfall between June 1 and July 31 has remained within the normal range, further supporting crop development. The forecast for the remainder of the 2025 southwest monsoon is also positive, reinforcing expectations of a healthy and promising crop. Additionally, reservoir levels in cane growing regions have better availability of water as compared to last year i.e. higher 30 – 40%.

These factors are likely to enhance cane productivity and improve sugar recovery from the standing crop, thereby positively impacting overall sugar output. The combination of better yields and increased cane area is expected to boost gross sugar production (before diversion) to 132.68 lakh tonnes against 93.34 lakh tonnes last year i.e. up by approximately 42%.

In Karnataka sugarcane area has increased by about 6% to 6.76 lakh hectares against 6.4 lakh hectares last year. Similar to Maharashtra, favorable rainfall and adequate water availability in reservoirs have improved standing crop quality significantly and therefore sugarcane yield and sugar recovery are expected to increase. Accordingly, gross sugar production (before diversion) is expected to increase by 23% to 66.19 lakh tonnes against 53.68 lakh tonnes produced in 2024-25.

In Uttar Pradesh, cane area has declined by approximately 3% to 22.57 lakh hectares against 23.30 lakh hectares last season. However, the overall condition of the standing crop is much better than last year. Moreover, due to cane development initiatives at the mill level, including timely corrective measures and varietal replacements, the incidence of red rot and other disease infestations is expected to remain minimal in the 2025-26 sugar season and therefore cane yield and recovery are likely to recover. Accordingly, it is estimated that gross sugar production (before diversion) in the state would be 102.53 lakh tonnes against last year production of 100.74 lakh tonnes.

#### **ETHANOL OVERVIEW**

India ethanol market is estimated to be valued at US\$ 3.28 Bn in 2025, and is expected to reach US\$ 9.31 Bn by 2032, exhibiting a compound annual growth rate (CAGR) of 16.1% from 2025 to 2032.

Ethanol is a renewable fuel produced through the fermentation of sugars found in crops such as corn, sugarcane, and wheat. In India, ethanol is primarily produced from molasses, a by-product of sugar production. Ethanol has gained popularity in India owing to its use as a blending agent with gasoline to curb vehicular air pollution as well as reduce the country's reliance on crude oil imports. Key drivers supporting ethanol market growth in India include favorable government policies such as the ethanol blending program and rising environmental concerns.

India ethanol market is segmented into by source, end-user, grade, blending, application method, and region. By source, the market is segmented into molasses, sugar cane juice, grains, and others. The molasses segment accounted for the largest share of the market in 2025. Molasses is readily available in India as a by-product of sugar production. The government focus on using sugarcane juice directly to produce ethanol is expected to drive the sugar cane juice segment at the highest CAGR during 2025-2032.

#### India Ethanol Market- Drivers.

- Supportive Government Policies The Indian government has implemented several supportive policies to boost ethanol production and consumption in the country. Ethanol blending program mandates an increasing blending of ethanol with gasoline. This has given ethanol a steady and expanding market. The government has also provided subsidies, loans and incentives for ethanol projects. The National Policy on Biofuels-2018 aims to triple ethanol production by 2025. Such policies encourage investments and development in the ethanol market.
- O **Growing Automotive Sector** India is one of the fastest growing automotive markets globally. Vehicle sales have been rising steadily due to rising incomes, increasing urbanization, and infrastructure development and expanding middle class. This expanding automotive sector boosts demand for fuels. Ethanol blending helps to address this fuel demand in a more sustainable manner while reducing oil imports. The government aims to achieve its ethanol blending targets by leveraging this vast growth potential of India's automotive sector.
- O **Increasing Consumption as Biofuel** Most of the ethanol produced in India is used for EBP blending. But apart from blending, ethanol's use as a biofuel is also rising for transportation applications. Ethanol fuel blends allow existing gasoline-based vehicles to switch to cleaner renewable fuels with minimal or no engine modification. Ethanol has high octane rating and oxygen content, making it an efficient fuel. As environmental concerns grow globally, ethanol is gaining traction as a cleaner burning biofuel alternative. This boosts its consumption in India.
- Expanding End-use Applications Beyond fuel blending, ethanol has diverse end-use applications across industries like personal care, paints & coatings, chemical, pharmaceutical, and others. With rising incomes and growing consumer segments,

demand from these sectors is expanding. For instance, ethanol is widely used in cosmetics, perfumes, deodorants, antiseptic products, and others. Its solvent properties create opportunities across industrial domains. Such broad usage potential is fueling the growth of the ethanol industry.

## **India Ethanol Market-Opportunities**

- Cellulosic Ethanol Production Cellulosic ethanol made from agricultural residues, grasses or wood waste has immense potential in India. The country generates millions of tons of agri-waste annually which could be used to produce cellulosic ethanol. This 2G ethanol does not affect food security like 1G ethanol from grains/sugarcane. Government policy also encourages cellulosic projects. Companies are investing in 2G ethanol production technologies suitable for Indian biomass. Tapping the abundance of agri-residues can drive the market growth.
- Export Potential India's expanding ethanol production and favorable trade policies have opened up exports opportunities for domestic players. Ethanol exports help to deal with excess supplies as well as generate foreign exchange earnings. The government has allowed exports of surplus ethanol from molasses and non-food feedstock. It has also removed restrictions on export quantity and destinations. Several companies have commenced ethanol exports targeting fuel, potable liquor and industrial demand in overseas markets. Export demand would further propel production of ethanol.
- Emergence of Domestic Market Historically ethanol production in India has largely depended on ethanol supply obligations for Oil Marketing Companies (OMCs) to meet EBP blending targets. However, new private sector opportunities are now emerging beyond OMC demand with growing usage in non-fuel sectors and specialty chemicals. Beyond the usual OMC demand, rising private consumption would give ethanol producers additional long-term demand certainty.
- O Investments in Production Capacity To meet rising domestic ethanol demand as well as tap export potential, public and private players are investing significantly to enhance production capacities. From molasses-based distilleries to grain/2G ethanol plants, capacity addition plans have been announced. The market has over 150 ethanol producers and additional players are also entering the market. Availability of feedstock, technologies and favorable policies continue to attract large scale investments.

#### **India Ethanol Market-Restraints**

- High Feedstock Costs Feedstock can account for up to 70% of ethanol production costs. Fluctuating availability and elevated
  prices of feedstocks like corn, broken rice, sugarcane, and others can affect project viability. Excess sugarcane diversion towards
  ethanol also impacts sugar production. Managing feedstock costs through long-term contracts, using molasses efficiently
  during surplus sugar seasons is vital.
- Lack of Adequate Storage & Handling Infrastructure Unlike fossil fuels, ethanol requires Given its propensity for absorbing
  water, it requires specialized infrastructure for storage and transportation. Lack of adequate tankage facilities at depots, rail
  tank cars to transport ethanol from production units to OMC depots hampers smooth supply logistics. Developing suitable
  storage and handling solutions is critical.
- Constraints in Supply Chain Mechanism Complex sugarcane pricing policies, delays in announcing ethanol procurement tenders and prices affect industry planning. Release of government subsidies/incentives also often gets deferred. Resolving regulatory and procedural hurdles can help to streamline the supply ecosystem.

#### **CO-GEN OVERVIEW**

The Indian Government has been actively promoting co-generation as a means to increase energy efficiency and reduce emissions. Policies such as the National Mission on Sustainable Agriculture aim to boost the adoption of biomass-based co-generation technologies. The sector has seen advancements in co-generation technologies, including improvements in efficiency and reliability. Integration of advanced control systems and automation has enhanced the performance of co-generation plants, making them more competitive in the market. Since bagasse is a by-product of sugarcane, the quantity of bagasse production in the country is in proportion to the quantity of sugarcane produced. The power produced through co-generation substitutes the conventional thermal alternative and reduces greenhouse gas emissions. In India, interest in high-efficiency bagasse-based co-generation started in the 1980s when electricity supply started falling short of demand. High-efficiency bagasse co-generation was perceived as an attractive technology both in terms of its potential to produce carbon-neutral electricity as well as its economic benefits to the sugar sector. Recognizing the significant potential and role of biomass energy within the Indian context, the Ministry of New and Renewable Energy (MNRE) has launched numerous initiatives to promote efficient technologies across various sectors, aiming to maximize benefits derived from biomass utilization. India is also creating a viable market for bio products like biomass.

pellets and briquettes. The country hosts approximately 230 biomass pellet manufacturers and around 1,030 briquette manufacturers across various states. These products are supplied to power plants and industries. Additionally, the government has established a national mission on the use of biomass in Thermal Power Plants (TPPs) under the Ministry of Power. This initiative aims to address air pollution caused by farm stubble burning and reduce the carbon footprint of thermal power generation.

## **INDUSTRY OVERVIEW**

The success of the sugar business depends on the sugarcane availability and sugarcane quality. During the year, the sugarcane availability in Punjab units was better compared to the previous year. The thrust on cane development activities initiated by your Company, including encouraging the farmers in various ways in all command areas, helped to increase the sugarcane availability. The average recovery recorded was at 9.93% as against 10.38% in the previous year. The lower recovery was due to the climate change, which led to late rainfall. In addition to the above, high temperature was witnessed both during day and night, which was prevalent across the state.

Your company's mission revolves around more than just profit margins; it is deeply rooted in the well-being of the farmers who form the backbone of our operations. For decades, we have worked tirelessly to uplift and empower them, recognizing their invaluable contributions to our success. Our commitment to their prosperity is unwavering, and every decision we make as a company is guided by this principle. Financial support is another crucial aspect of our farmer-centric approach. We understand that access to credit and capital is essential for agricultural development, especially in rural areas where traditional banking services may be limited. We offer all kind of assistance to the farmers in order to help them with the cultivation of sugarcane. The Company continued to pursue its strategies to optimize efficiencies, reduce costs, eliminate wastage, and achieve stretch targets for growth. Even as our Company continues to focus on capacity and efficiency enhancement, it aims to ramp up the diversification of the sugar portfolio.

The Company is engaged in two segments, namely sugar and cogeneration of power(Cogen.). The segment wise performance for the year is as under:

## INDEPENDENT AUDITOR'S REPORT

# TO THE SHAREHOLDERS OF INDIAN SUCROSE LIMITED Report on the Audit of the Ind AS Financial Statements

#### Opinion

We have audited the accompanying financial statements of **INDIAN SUCROSE LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss and the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to financial statement including a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended, thereof ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit, changes in equity and its cash flows for the year ended on that date.

## **Basis for Opinion**

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

## **Key Audit Matters**

S NO KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report: -

ALIDITOR'S DESPONSE

5. NO	KEY AUDIT MATTERS	AUDITOR'S RESPONSE		
1	Revenue recognition	Our audit procedures, amongst others, included the following:		
	Refer to note no 2.5 to the financial statements.  The Company principally generates revenue from sale of Sugar and sale of its By-product.  We identified revenue recognition as a key audit matter because it is one of the key performance indicators of the Company and gives rise to an inherent risk of misstatement to meet expectations or targets	Obtaining an understanding of the process relating to recording of sales and testing the design, implementation and operating effectiveness of relevant key internal controls over recording of sales.		
		Assessing the appropriateness of the Company's accounting policy for recording of sales and compliance of the policy with applicable accounting standards;		
		Comparing a sample of sale transactions recorded during the year with sales orders, sales invoices, delivery challans and other relevant underlying documents.		
		Comparing a sample of sale transactions recorded near the year end with the sales orders, sales invoices, delivery challans and other relevant underlying documentation to assess if the sale was recorded in the appropriate accounting period.		
		Inspecting on a sample basis, credit notes issued near to and subsequent to year end to evaluate whether the adjustments to sales had been accurately recorded in the appropriate accounting period; and		
		Scanning for any manual journal entries relating to sales recorded during and near the year end which were material or other specific risk-based criteria for inspecting underlying documentation.		
2.	Capitalization of property, plant and equipment Refer note no. 3 to the financial statements. The Company has	Our audit procedures, amongst others, included the following:  Obtaining an understanding of and testing the design, implementation and operating effectiveness of management's key internal control over capital expenditure;		
	made significant capital expenditure on New Plant, modernization and replacement of plant and equipment.  We identified capitalization of property, plant and equipment as a key audit matter because there is a risk that amounts being capitalized may not meet the capitalization criteria with related implications on depreciation charge for the year.	Comparing, on sample basis, the costs incurred on projects with supporting documentation and contracts;		
		<ul> <li>Assessing the nature of costs incurred for the capital projects for appropriateness by comparing, on sample basis, amounts recorded with underlying documentation and considering that the expenditure meets the criteria for capitalization as per the applicable accounting standards;</li> </ul>		
		Inspecting supporting documents for the date of capitalization when project assets were ready for its intended use to assess that depreciation commenced and further capitalization of costs ceased from that date and to assess the useful life assigned by management including testing the calculation of related depreciation		

## Valuation of Inventories Refer note no. 6 to the financial statements.

We identified valuation of inventories as a key audit matter as it involves significant management judgments in determining the carrying value of stock. Our audit procedures, amongst others, included the following:

- Assessing the appropriateness of Company's accounting policy for valuation of stock and compliance of the policy with the requirements of the prevailing accounting standards;
- Obtaining an understanding of internal controls over valuation of stock and testing, on a sample basis, their design, implementation and operating effectiveness;
- Obtaining an understanding and assessing reasonableness of the management's determination of net realizable value (NRV) and the key estimates adopted, including future selling prices and costs necessary to make the sales and their basis; and
- Comparing the NRV, on a sample basis, to the cost of stock-in-trade to assess whether any
  adjustments are required to the value of stock in trade in accordance with the accounting
  policy.

## Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian accounting standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 as amended thereof.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with sas will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with sas, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid financial statement.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) relevant Rules, 2015, as amended, thereof.
  - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended. In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements. (Refer Note no 33to the financial statement).
  - ii. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. The company was not required to transfer, any amount to the Investor Education and Protection Fund.
  - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (2)(h)(iv) (a) and (b) above, contain any material misstatement.
  - v. The Board of Directors of the Company have not paid any Interim dividend nor proposed any dividend.
  - vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025 which did not have the audit trail feature (edit log) enabled throughout the year. As informed us the Audit trail feature is duly implemented as on the date of signing the report.

Further, in respect of Custom Duty, Value added Tax and Cess, it has been informed that there are no dues, which have not been deposited on account of any dispute.

- viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.
- ix) (a) In our opinion and according to the information and explanations the company has not defaulted in repayment of Loans or other borrowings or in the payment of interest thereon to any lender.
  - (b) The Company has not been declared a willful defaulter by any bank or financial institution or by any other lender.
  - (c) Based upon the audit procedures performed and the information and explanations given by the management, on an overall basis the term loans were applied for the purpose for which they were taken.
  - (d) On an overall examination of the Standalone Financial Statements of the Company, funds raised on short- term basis have, prima facie, not been used during the year for long-term purposes by the Company.
  - (e) On an overall examination of the financial statements of the Company, the Company does not have any subsidiary Joint Venture and Associate, hence clause no 3(ix)(e) of the order is not applicable to the company.

- (f) On an overall examination of the financial statements of the Company, the Company does not have any subsidiary, joint venture, or Associate company hence clause no 3(ix)(f) of the order is not applicable to the company.
- x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
  - (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi) (a) No fraud by the Company and no fraud on the Company has been noticed or reported during the year.
  - (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
  - (c) We have taken into consideration the whistle blower complaints received by the Company during the year, while determining the nature, timing and extent of our audit procedures.
- xii) In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of clause 3 (xii) of the Order are not applicable to the Company.
- xiii) In our opinion, all transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 and the details have been disclosed in the Financial Statements as required by applicable Indian Accounting Standard.
- xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
  - (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year, in determining the nature, timing and extent of our audit procedures.

## Annexure - B to the Auditors' Report

#### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Indian Sucrose Limited** ("the Company") as at 31 March,2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

## **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March,2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **Note No.2 Material accounting policies**

#### 2.1 Statement of compliance with Ind AS

The financial statements of the Company have been prepared to comply with the Indian Accounting Standards ('Ind AS') notified under Companies (Indian Accounting Standards) Rules, 2015(as amended from time to time) read with Section 133 of the Companies Act, 2013.

The company has assessed the materiality of the accounting policy information which involves exercising judgements and considering both qualitative and quantitative factors by taking into account not only the size and nature of the item or condition but also the characteristics of the transactions, events or conditions that could make the information more likely to impact the decisions of the users of the financial statements.

Entity's conclusion that an accounting policy is immaterial which does not affect the disclosures requirements set out in the accounting standards.

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (India Accounting Standards) Rules 2015 (As amended) till the financial statements are approved for issue by the Board of Directors has been considered in preparing these financial statements.

#### 2.2 Basis of preparation

These financial statements have been prepared in accordance with Ind AS under the historical cost basis except for the following.

- i) Certain financial assets and financial liabilities- measured at fair value and
- ii) Defined benefits plan- plan assets measured at fair value.

Historical cost is generally based on the fair value of the consideration is exchange for goods and service.

Accounting Policies have been consistently applied except where a newly issued Ind AS is initially accepted or a revision to an existing Ind AS requiring change in the accounting policies hitherto in use.

## 2.3 The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

#### An asset is treated as current when it is:

- i) Expected to be realized or intended to be sold or consumed in normal operating cycle,
- ii) Held primarily for the purpose of trading,
- iii) Expected to be realized within twelve months after the reporting period,
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period, or
- v) Carrying current portion of non-current financial assets.
  - All other assets are classified as non-current.

#### A liability is current when:

- i) It is expected to be settled in normal operating cycle,
- ii) It is held primarily for the purpose of trading,
- iii) It is due to be settled within twelve months after the reporting period,
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period, or
- v) It includes the current portion of non-current financial liabilities.
  - All other liabilities are classified as non-current.

#### 2.4 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

#### 2.5 Revenue recognition

Revenue from the sale of a product is recognized at the point in time when control of the goods is transferred to the customer, generally on delivery of the product.

At contract inception, the Company assesses the goods promised in a contract with a customer and identifies as a performance obligation each promise to transfer to the customer. Revenue from contracts with customers is recognized when control of goods or services are transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.

Revenue is measured at the fair value of the consideration received or receivables, net of returns and allowances, trade discounts and volume rebates. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specific of each arrangement.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the "effective interest rate" that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's gross carrying amount.

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

All other incomes are accounted for on an accrual basis.

#### 2.6 Expenses

All expenses are accounted for on accrual basis.

#### 2.7 Property, plant and equipment and Capital work in progress (CWIP)

All property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Free hold land is not depreciated. The cost of an asset includes the purchase cost of materials, including import duties and non-refundable/ creditable taxes and any directly attributable cost of bringing an asset to the location and condition of its intended use interest on borrowing used to finance the construction of qualifying assets are capitalized as part of the cost of the asset until such time that the asset is ready for its intended use

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major refurbishment is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs are recognized in statement of profit and loss as incurred.

Directly attributable expenditure (including finance cost relating to borrowed funds for construction or acquisition of fixed assets) incurred on projects under implementation are treated as pre-operative expenses pending allocation to the assets and are shown under CWIP, CWIP is stated at the amount expended up to balance sheet date on assets or property, plant and equipment that are not yet ready for their intended use.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The cost and related accumulated depreciation are eliminated from the financial statements upon disposal/sale or retirement of the asset and the resultant gains or losses (difference between the sale proceeds and the carrying amount of the assets) are recognized in the Statement of profit and Loss.

#### 2.8 Depreciation methods, estimated useful lives and residual value

- a) Depreciation on tangible fixed assets is provided on Straight Line basis so as to charge the cost of the assets or the amount substituted for costs in case of revalued assets less its residual value over the useful life of the respective asset as prescribed under part C of Schedule II to the Companies Act, 2013. Residual value has been considered as 5% of the cost of the respective assets.
- b) Intangible Assets are amortized over a period of economic benefits not exceeding ten years.
- c) Depreciation/amortization on assets added, sold or discarded during the year is provided on pro rata basis.

#### 2.9 Intangible assets (Computer software)

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization/depletion and impairment loss, if any. The cost comprises purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use. Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of profit and loss when the asset is derecognized. Computer software is amortized over a period of three years.

#### 2.10 Inventories

Inventories (other than By-products) are valued at lower cost or net realizable value.

Inventories on stock in trade are valued at lower of cost or net realizable value.

Cost of inventories has been determined on cost or NRV whichever is lower.

Cost of finished goods and Work in Progress has been worked out on absorption cost basis.

By- products and residuals are valued at net realizable value.

#### 2.11 Government Grants

Government grants are recognized at fair value when there is reasonable assurance that the grant would be received, and the Company would comply with all the conditions attached with them.

Government grants related to PPE are treated as deferred revenue (included under non-current liabilities with current portion considered under current liabilities) and are recognized and credited in the statement of profit and loss on systematic and rational basis and included under other income.

Government grants related to revenue nature are recognized on a systematic basis in the Statement of profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate and are adjusted with the related expenditure.

(If not related to a specific expenditure, it is taken as income and presented under other Income)

#### 2.12 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are charged to the profit and loss statement in the period in which they are incurred.

Preference Shares, which are mandatorily redeemable on a specific date are classified as liabilities. The dividend on these preference shares is recognized as finance cost in the Statement of Profit and Loss.

#### 2.13 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee the Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured in cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

The right-of-use assets are disclosed in Property, Plant and Equipment (see Note 4).

Lease Liabilities at the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. Lease liabilities are included in Other financial liabilities.

Short-term lease and lease of low-value assets The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, go downs equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

## 2.14 Provisions, contingent liabilities and contingent assets.

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability when discounting is used, the increase in the passage of time is recognized as finance costs.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an out flow of resources will be required to settle the obligation. Contingent liability also arises in extremely rare cases where there is liability that can't be recognized because it can't be measured reliably.

A contingent liability is not recognized in the financial statements, but discloses its existence in the Financial Statement

When the realization of income is virtually certain, then the related asset is no longer a contingent asset, and is recognized as an asset.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

#### 2.15 Dividend payable

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividend are recorded as a liability on the date of declaration by the Company's Board of Directors. A corresponding amount is recognized directly in equity.

#### 2.16 Foreign currency transactions

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary items denominated in foreign currencies at the year ended translated at the year ended rates which is likely to be realized from, or required to disburse at the balance sheet date. Exchange differences arising on settlement of monetary items at rates different from those at which they were initially recorded / reported in financial statements are recognized as income or expense in the year in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are translated using the exchange rate at the date of the initial transaction.

#### 2.17 Employee benefits.

- a) Short –term employee benefits are recognized as an expense at the undiscounted amount in the Statement Profit & Loss Account of the period in which the related service is rendered.
- b) Long –term employee benefits are recognized as an expense in the Statement Profit & Loss Account for the year in which the employee has rendered services.

#### i.) Compensated absences

Accumulated leave, which is expected to be utilized within next 12 months, is treated as short term employee benefit and this is shown under current provisions in the Balance Sheet. The Company treats accumulated leave expected to be carried forward beyond twelve months, as Long term employee benefits and shown under Long term provisions in the Balance sheet.

#### ii.) Defined Benefit Plans

The Company provides for retirement benefits in the form of gratuity. The Company's liability towards this benefit is determined on the basis of actuarial valuation using projected unit credit method at the date of Balance sheet. Actuarial gain and Losses in respect of such benefits are recognized in Statement of Profit & Loss A/c.

#### 2.18 Financial instruments

A Financial instrument is any contract that gives rise to financial assets of one entity and a financial liability or equity instrument of another party.

## A. Financial Assets

#### a. Initial recognition

The Company classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement. Financial instruments are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial instruments are recognized initially at fair value plus transactions costs that are directly attributable to the acquisition or issue of the financial instrument, except for financial assets at fair value through statement of profit and loss, which are initially measured at fair value, excluding transaction costs (which is recognized in statement of profit and loss).

#### b. Subsequent measurement

#### i.) Financial assets carried at amortized cost (AC)

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### ii.) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the

financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### iii.) Financial assets at fair value through statement of profit and loss (FVTPL)

#### **Equity instruments**

All equity investments in scope of Ind AS 109 are measured at fair value either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. For equity instruments measured as at FVTOCI, all fair value changes on the instrument, excluding dividends, are recognized in the OCI. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss account.

#### c. De-recognition

A Financial Assets (or where applicable, part of financial assets) is primarily derecognized when:

- 1. The contractual right to receive cash flows from the assets have expired or
- 2. The Company has transferred its right to receive cash flow from the financial assets and subsequently all the risks and rewards of ownership of the assets to third party.

#### d. Reclassification of financial assets:

A company determines the classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities.

#### e. Impairment of financial assets

The Company recognized loss allowance using the expected credit loss (ECL) model for financial assets which are not fair valued through Statement of Profit and loss. Loss allowance for trade receivable with no significant financing component is measured at an amount equal to lifetime ECL

For all other financial assets, expected credit loss are measured at an amount equal to the twelve-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

#### B. Financial liabilities

#### a. Initial recognition and measurement:

All financial liabilities are recognized initially at fair value and in case of loans and borrowings and payables, net of directly attributable cost. The Company's financial liabilities include trade and other payable, loans and borrowing including bank over drafts, financial guarantee contracts and derivative financial instruments. Fees of recurring nature are directly recognized in statement of profit and loss as finance cost.

#### b. Subsequent measurement:

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### i.) Loans and borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognized in statement of profit and loss when liabilities are de-recognized. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance cost in the statement of profit and loss.

#### ii.) Compound financial instruments

At the issue date the fair value of the liability component of a compound instrument is estimated using the market interest rate for a similar non-convertible instrument. This amount is recorded as a liability at amortized cost using the effective interest method until extinguished upon conversion or at the instrument's redemption date. The equity component is determined as the difference of the amount of the liability component from the fair value of the instrument. This is recognized in equity, net of income tax effects, and is not subsequently re-measured.

#### c. De-recognition of financial instruments

A financial liability is derecognized where the obligation under the liability is discharged or cancelled or expires where an existing financial liability is replaced by another from the same tender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of new liability. The difference in the respective carrying amounts is recognized in the statement of Profit and Loss.

#### d. Offsetting of financial instruments

Financial assets and financial liabilities including derivative instruments are offset and the net amount is reported in the Balance sheet, if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

#### e) Fair value measurement

Fair value is a market-based measurement, not an entity-specific measurement. Under Ind AS, fair valuation of financial instruments is guided by Ind AS 113 "Fair Value Measurement" (Ind AS – 113).

For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (i.e., an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

Three widely used valuation techniques specified in the said Ind AS are the market approach, the cost approach and the income approach, which have been dealt with separately in the said Ind AS.

Each of the valuation techniques stated above proceeds on different fundamental assumptions, which have greater or lesser relevance, and at times there is no relevance of a particular methodology to a given situation. Thus, the methods to be adopted for a particular purpose must be judiciously chosen. The application of any method of valuation depends on the Company being evaluated, the nature of the industry in which it operates, the Company's intrinsic strengths and the purpose for which the valuation is made.

In determining the fair value of financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date.

## The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

#### f) Share capital

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Incremental costs directly attributable to the issuance of new equity shares are recognized as a deduction from equity, net of any tax effects.

#### 2.19 Impairment Non-financial assets

The carrying amount of any property, plant and equipment and intangible assets with finite lives are reviewed at each balance sheet date, if there is any indication of impairment based on internal /external factor. An asset is impaired when the carrying amount of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets.

An impairment loss is charged to the Statement of Profit and loss in the year in which an asset is identified as impaired. An impairment loss recognized in prior accounting periods is reversed if there has been change in the estimate of the recoverable amount. At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite lives may be impaired. If any such impairment exists, the recoverable amount of an asset is estimated to determine the extent of impairment. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the impairment loss previously recognized is reversed such that the asset is recognized at its recoverable amount but not exceeding written down value which would have been reported if the impairment loss had not been recognized.

#### 2.20 Taxes

Income tax expense comprises current tax and deferred tax and is recognized in the Statement of Profit and Loss except to the extent it relates to items directly recognized in Equity or in Other Comprehensive Income (OCI).

#### Current tax

Provision for current tax is made with reference to taxable income computed for the accounting period for which the financial statements are prepared by applying the tax rates and laws that are enacted or substantively enacted at the balance sheet date. The tax is recognized in the statement of profit and loss, except to the extent that it related to items recognized in the OCI or in other equity. In this case, the tax is also recognized in other comprehensive income and other equity.

#### Deferred tax

Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off deferred tax assets against deferred tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### 2.21 Earnings per Share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit/loss before other comprehensive income/loss for the year attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit/loss before other comprehensive income/loss for the year attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

#### 2.22 Non-current assets (or disposal groups) held for sale and discontinued operations

- a) Non-current assets (or disposal groups) are classified as held for sale if their carrying amount would be recovered principally through a sale/distribution rather than through continuing use and a sale/distribution is considered highly probable.
  - Actions required to complete the sale/distribution should indicate that it is unlikely that significant changes to the sale/distribution would be made or that the decision to sell/distribute would be withdrawn. Management must be committed to sale/distribution expected within one year from the date of classification.
- b) Immediately before the initial classification of the assets (and disposal groups) as held for sale, the carrying amount of the assets (or all the assets and liabilities in the disposal groups) are measured in accordance with their applicable accounting policy.
  - Non-current assets (or disposal groups) held for sale/for distribution to owners are subsequently measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits and financial assets which are specifically exempt from this requirement.
- c) Non-current assets including those that are part of a disposal group (PPE and Intangible assets) once classified as held for sale/distribution to owners are neither depreciated nor amortized. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognized.
- d) Non-current assets (including assets of a disposal group) classified as held for sale are presented separately from the other assets in the Balance sheet. The liabilities of a disposal group classified as held for sale/distribution are presented separately from other liabilities in the Balance sheet.
- e) A disposal group qualifies as discontinued operation, if it is a component of equity that has either being disposed of or is classified as Held for sale, and that represents separate major line of business or geographical area of operations or is part of a single co-ordinate plan to dispose of a separate major line of business or geographical area of operations or is a subsidiary exclusively with a view to resale.

  Discontinued operations are excluded from the results of continuing operations and are presented separately as a single amount as profit or loss after tax from discontinued operations in the Statement of Profit and Loss and comparative information is restated accordingly.
- f) All notes to the financial statements mainly include amounts for continuing operations, unless stated otherwise.

## 2.23 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue are accounted for based on the cost price. Revenue, expenses, assets and liabilities which are not allocable to segments on a reasonable basis, are included under "Unallocated revenue/ expenses/ assets/ liabilities".

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director who makes strategic decisions.

The accounting policies adopted for segment reporting are in line with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

#### 2.24 Cash and cash equivalents

Cash and cash equivalents in the Balance sheet comprise cash on hand, cheques on hand, balance with banks on current accounts and short term, highly liquid investments with an original maturity of three months or less and which carry insignificant risk of changes in value.

For the purpose of the Cash Flow Statement, Cash and cash equivalents consist of Cash and cash equivalents, as defined above, and net of outstanding book overdrafts as they are considered an integral part of the Company's cash management.

#### 2.25 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals, or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing, and financing activities of the Company are segregated.
