OUR STRENGTH

DESIGN CAPABILITIES

At the outset, our design teams adapt trendsetting styles inspired by celebrity outfits, street styles, and active sportswear into marketable garments for consumers. We use latest computer-assisted design techniques that allow designers to rapidly make changes to a proposed design's silhouette, fabric, trimmings, and other elements and making it easy to promptly share the proposed changes with partner fabric mills.

OUR STRENGTH

MANUFACTURING CAPABILITIES

The manufacturing process at Bella Casa is meticulously structured to ensure maximum efficiency and optimal quality output.

Bella Casa is now moving away from traditional manufacturing towards the lean system according to which assembly line workers learn to execute a variety of production tasks, take charge for product quality.

OUR STRENGTH

QUALITY CONTROL

Quality is of prime importance to us at Bella Casa.

We understand that customers demand and expect value for money and as producers of apparel and home furnishings, we constantly endeavour to produce work of good quality.

For the home textile and apparel industry, product quality is measured in terms of standard of fibres, yarns, fabric construction, colour fastness, surface designs and the final finished garment products and Bella Casa strives to deliver that.

OUR STRENGTH

INNOVATION

Bella Casa thrives on innovation in design, packaging and products. Innovation to us means providing something new, extra, delightful and useful to the consumer at frequent intervals.

OUR PHILOSOPHY

Bella Casa's business philosophy is to establish and cultivate positive employee and customer relationships where we all benefit as a result of having one another in each other's lives. The realistic application of this philosophy is to ensure that there is a constant need to provide undying support for mutual success in the form of sharing knowledge and resources necessary to accomplish the desired business goals.

It is not an easy task to make a lasting impression in an industry like fashion. However, we're pleased to admit that we stood the test of time. And we attribute this passing to Bella Casa's business philosophy which principally encapsulates the essence of the brand - trust, innovation, quality and superiority.

THE TEAM

They personify the invigorating power that has molded the past, present and future of Bella Casa. Visionaries, trendsetters and leaders are just some of the many roles they play with ease. Together, they form the cornerstones of Bella Casa's success and an unwavering foundation that has held strong for over five decades

OUR BRANDS & PARTNERS

Between inception and now, we established earnest business relationships with knowledgeable suppliers, which resulted in a burgeoning customer base. We take great pride in our development that has been possible because of assiduous teams who work together in remarkable alignment to develop and execute our strategic and tactical priorities.

CHAIRMAN'S MESSAGE

Dear Shareholders,

Greetings!

I am pleased to share that 2021-22 was the best year for your company. We recorded our highest ever sales and highest profit and did well on all other metrics.

We continue to respect capital as a scarce resource in this uncertain world on a steroid dose of the easy money supply. Therefore, all our actions are geared to generate the best possible positive return for our shareholders in the short and long term. We do not believe in burning through capital or chasing growth that we cannot fund sustainably and for long periods.

We continue to build “Bella Casa” as a national brand in the home fashion category. **The brand is now available in over 5000 outlets in India and on all significant e-commerce platforms. We have crossed the magical number of ₹ 100 cr in sales and achieved this feat profitably and with wise investments in marketing & distribution.** We are working towards increasing our inventory turns, introducing exciting designs in the market and reaching out to more consumers through our offline and online distribution. Therefore, I am hopeful of margin expansion and good sales growth in the coming year.

At the same time, our contract manufacturing business in apparel continues to grow with astonishing speed. We have received long-term supply contracts from most of the major retailers in the country. Thus we are guaranteed of high capacity utilisation of our factories. We now manufacture nearly half a million pieces every month of women’s ethnic wear, men’s ethnic wear, kid’s wear and women’s western wear. Our teams are relentlessly pushing the efficiencies in every functional area: product development, sourcing, manufacturing and quality to ensure a higher return on the capital employed. In my understanding, we will see a marked improvement in this metric in the next few quarters.

To conclude, I feel satisfied to inform you that our investments in capacity expansion, marketing, technology and building teams are all coming together to create a much better future for your company!

I thank you for your support.

Best Regards
Harish Kumar Gupta

- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facilities to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to public consultation, it has been decided to enable e-voting to **all the Demat account holders, by way of a single login credential, through their Demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in the e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in Demat mode

MANAGEMENT DISCUSSION & ANALYSIS REPORT

1. Company Overview

Your company has the vision to be one of India's largest manufacturers in the Fashion & Lifestyle (F&L) business. F&L category is worth more than Rs 1.2 lac crore in the Indian Retail Market and is expected to grow at 7% per annum until FY25. This market includes price segments of value, premium, super-premium & luxury across segments of men's casual wear & formal wear, women's formal, casual & ethnic wear and kidswear.

As India closes in on becoming the world's sixth-largest fashion market, the opportunity for a vertically integrated company like yours to design innovative products, efficiently manufacture them at low cost and then distribute them through or supply to large retailers and platforms is humongous.

Fashion & Lifestyle Category in India:

Regarding nominal GDP, India currently ranks 7th in the world, while in PPP terms, it is the 3rd largest economy with an estimated GDP of USD 3200 bn in FY20. India's retail sector in FY20 is estimated to be approximately USD 1002 Bn. Food & Groceries (F&G) currently has around 65% market share. A study of the developed world shows that this share comes down and stabilizes at around 55% with economic progress. A rising share of discretionary spending always replaces a declining percentage of F&G. Fashion & Lifestyle (F&L), the primary discretionary category in the Indian retailing basket. Following major trends will contribute to the growth of the market:

- more purchasing power driving growth in primary discretionary spend,
- better access and availability of products,
- acute brand consciousness,
- increasing urbanization and increasing digitization.

Exhibit 2.1: Share of various Categories in Overall Indian Retail Basket

	<i>FY 2015</i>	<i>FY 2018</i>	<i>FY 2020E</i>	<i>FY 2025P</i>

With this space of Fashion & Lifestyle business (market size of more than US\$100 Bn in FY20), the fastest growing segment is the branded apparel sector. It is projected to grow at a 13.4% CAGR over the next five years against the 10% CAGR projected for the apparel sector.

Therefore it is clear that industry tailwinds will support a well-managed business in the Fashion & Lifestyle Industry.

We are approaching the F&L opportunity from two sides.

(a) By building our brands in B2B & B2C space: Bella Casa, Indigo, Nayak and Chanderi are targeted at different consumer and distribution networks in India. We continue to scale them up.

(b) By building a contract manufacturing facility for producing national brands and private labels of large retailers in India.

Both approaches have immense synergies in the form of shared design and product development teams, common manufacturing facilities and joint vendor partners. However, while cash flow in the contract manufacturing business is better, the branded business is a long-term play with implications for the company's longevity.

We continue to follow the following principles in our business to maximize the potential benefits of our strategy:

1. Get efficient, pass benefits to customers, repeat:

We will ruthlessly optimize shop floor efficiency, inventory and receivables, and product sourcing—pass benefits to the customer. Grow scale. Leverage scale to get better terms.

2. Go above & beyond in helping your distribution partners:

In a country as diverse as India, having a person on the ground who wants your brand to win is vital. We will continue to invest in workman training, make CAPEX investments at the distributor, and help them manage and turn inventory fast

3. Don't play annual games in decadal markets:

Building brands, strengthening supply chains, and developing distribution take time

Markets suggest tweaks to optimize for the year. However, we will not lose sight of the long-term goal.

In the last seven years, we have grown our PAT 10X and expanded our capacity by 3X.

4. We are also a technology company:

Technology is helping us to manage logistics better, forecast demand and retailer stocking efficiently, enhance worker productivity and source customers cheaply. As a result, we are integrating technology in each function and at each step.

5. Build for longevity:

India is a multi-decadal story. Most sectors will grow phenomenally as the country, and its people grow

We are sharply focussed on the fashion & lifestyle market and continue to reinvest our winnings to grow.

We will compound with Bharat. 

Growth Enablers for Fashion Business:

(i) Youth as a growth driver:

Youth (15 to 29 years old), who comprise 26 per cent of the consuming population, is a key growth driver of western wear in the country. Increasing disposable income, comfort, quality and brand consciousness are significant reasons behind increasing acceptance of western wear among this young population.

(ii) Influence of International Brands:

The entry of international brands in the country is one of the biggest drivers of western wear. Their entry has widened the perspective of consumers, which has resulted in higher acceptability of new trends and styles in the market. With the increasing exposure to international fashion trends, the Indian consumer today is aware of global trends and has given him more variety to choose from.

(iii) Online penetration of Western Wear:

Increased internet penetration coupled with the burgeoning smart phone market has resulted in the growth of e-tailing in India. Due to ease of ordering online, lack of time, flexible return policies, and the cash on delivery, the youth of India are more likely to purchase western wear online.

(iv) Growing preference for occasion-specific clothing is making ethnic wear the most preferred choice for social functions

Indian consumers no longer stick to formal or casual attire for family functions and marriage ceremonies; they prefer ethnic wear that reflects the uniqueness of the Indian cultural ethos. This trend has extended to national days like Independence Day and Republic Day when ethnic wear leads over other categories. Innovative marketing and promotion (by brands) that links days of national importance to displaying patriotism through ethnic attire have contributed to the growing demand for ethnic wear for such occasions. Many corporates, both Indian and international, have started encouraging ethnic dressing during Diwali, Holi.

(v) The ethnic wear consumers are seeking association with brands:

The ethnic wear consumers have started inclining towards branded apparel due to better design, quality and fit. In addition, growing disposable income, increasing aspiration levels among youths are driving factors for branded ethnic wear market in India. Consequently, in recent years, the ethnic wear market has witnessed a high growth trajectory of existing brands and the entrance of many new brands. While the Indian brands compete with international brands in western wear categories, they have an edge in ethnic wear products. The proliferation of brands is more distinguishable in women's ethnic wear as, unlike men, women use ethnic wear as formal wear. In addition, the growing acceptance of ethnic wear as work wear is also driving demand for ethnic wear.

2. OPPORTUNITY

(i) The Indian textile industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand

(ii) Urbanization is expected to support higher growth due to change in fashion & trends.

3. THREATS

- (i) 100 per cent FDI (automatic route) is allowed in the Indian textile sector
- (ii) Increased Competition from Local & Big Players.
- (iii) Our operations are in unorganized sector, is prone to changes in government policies.

7. RISK AND RISK MITIGATION

Financial Risks

The Company's policy is to actively manage its foreign exchange risk within the framework laid down by the Company's forex policy approved by the Board. Given the interest rate fluctuations, the Company has adopted a prudent and conservative risk mitigation strategy to minimize interest costs.

Commodity Price Risks

Volatility in prices of raw materials, energy inputs and finished goods may adversely impact profitability. The Company proactively manages these risks through forward booking, inventory management and proactive vendor development practices. The Company's reputation for quality, product differentiation and service, coupled with the existence of a powerful brand image with robust marketing network mitigates the impact of price risk on finished goods.

Interest Rate Risk

Any increase in interest rate can affect the finance cost. The Company is mitigating these risks through Continuous monitoring of interest rate trends.

Regulatory Risks

The Company is exposed to risks attached to various statutes and regulations. The Company is mitigating these risks through regular review of legal compliances carried out through internal as well as external compliance audits.

Human Resources Risk

Your Company's ability to deliver value is dependent on its ability to attract, retain and nurture talent. Attrition and non-availability of the required talent resources can affect the performance of the Company. The Company is mitigating these risks by Continuous benchmarking of the best HR practices across the industry and carrying out necessary improvements to attract and retain the best talent and Regular review, monitoring and engagement on personal development plans of high performers and high potential employees.

8. OUTLOOK

The outlook for the Indian textile industry continues to be positive. The factors which contribute to the India advantage are expected to continue over the medium term. This is expected to help India enhance its market share further in the other key geographies.

9. INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Your Company has in place internal control systems and procedures commensurate with the size and nature of its operations. Internal control processes which consist of adopting appropriate management systems and implementing them are followed. These are aimed at giving the Audit Committee a reasonable assurance on the reliability of financial reporting and statutory & regulatory compliances, effectiveness and efficiency of your Company's operations. The Internal Control Systems are reviewed periodically and revised to keep in tune with the changing business environment.

10. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

The Company firmly believes that motivated and empowered employees are the cornerstone of competitive advantage. The Company's employee value proposition is based on a strong focus on employee development, providing a satisfying work environment, performance appraisal and counseling and appropriate empowerment.

The Company continues to maintain and enjoy a cordial relationship with its employees, providing a positive environment to improve efficiency with regular investments in upgrading the knowledge and skills of the employees

11. MARKETING STRATEGIES

• Further widening of our customer base

With the growing opportunities available in the market, we will endeavor to continue to grow our business by adding new customers in existing and new geographies, new market segments. We are looking towards expanding our customer base in Middle East countries. We are also making efforts and diagnosing the domestic markets for our own brand's product. With the widening of the customer base for our Brand product, we can leverage the production capacity and the experience of our production team. We aim to do this by effectively leveraging our marketing skills and relationships and focussing on total customer orientation.

• Reduction of operational costs and achieving efficiency

Apart from expanding business and revenues, we have to look for areas to reduce costs and achieve efficiencies in order to remain a cost-competitive company. We try to reduce the wastages and control the production on the production floor through effective supervision. Our focus has been to reduce operational costs to gain a competitive edge.

• To build up a professional organization

We believe in transparency, commitment and coordination in our work, with our suppliers, customers, government authorities, banks, financial institutions etc. We have a blend of experience and sufficient staff for taking care of our day-to-day operations. We also consult with external agencies on a case-to-case basis on the technical and financial aspects of our business. We wish to make it sounder and stronger in times to come.

• Focus on a cordial relationship with our Suppliers, Customer and employees

We believe that developing and maintaining long-term sustainable relationships with our suppliers, customers and employees will help us in achieving the organizational goals, increasing sales and entering into new markets.

• Optimal Utilization of Resources: -

Our Company constantly endeavors to improve our production process, skill up-gradation of workers, modernization of machinery to optimize the utilization of resources. We analyze our existing raw material procurement policy and manufacturing processes to identify the areas of bottlenecks and take corrective measures wherever possible. This helps us in improving efficiency and putting resources to optimal use.

12. CAUTIONARY STATEMENT

The statements in the "Management Discussion and Analysis Report" section describes the Company's objectives, projections, estimates, expectations and predictions, which may be "forward-looking statements" within the meaning of the applicable laws and regulations. INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BELLA CASA FASHION & RETAIL LIMITED REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying Standalone Financial Statements of Bella Casa Fashion & Retail Limited (“the Company”), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the Standalone Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by Companies Act, 2013 (“the Act”) in the manner so required, and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind As”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit (including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone

financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (“the act”). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

KEY AUDIT MATTER	HOW THE MATTER WAS ADDRESSED IN OUR AUDIT
<p>1. VALUATION OF INVENTORIES</p> <ul style="list-style-type: none"> ◆ The net carrying value of inventory as on 31st March, 2022 constitutes substantial portion of the Total Assets of the company. ◆ Sales in the industry can be extremely volatile with consumer demand changing significantly (Seasonal) based on current trends. As a result, there is a risk that the carrying value of inventory exceeds its net realizable value. <p>Hence, we determined the valuation of inventories as a key audit matter.</p> <p>Related Disclosures: Please refer to Accounting Policy No. 6 of Significant Accounting Policies for details of the accounting policies for “Valuation of Inventories” and Note No. 6 of the Standalone Financial Statements for relevant disclosures of inventories.</p>	<p>OUR AUDIT PROCEDURE:</p> <ul style="list-style-type: none"> ◆ We have performed the Inventory physical stock count on sample basis. We performed inventory counts at location, which is selected based on financial significance and risk and we performed the following procedures at each site: <ul style="list-style-type: none"> (i) Selected a sample of inventory items and compared the quantities we counted to the quantities recorded. (ii) Observed a sample of management's inventory count procedures to assess compliance with Company's policy, and (iii) Made inquiries regarding obsolete inventory items and inspected the condition of items counted. ◆ We have also evaluated a selection of controls over inventory existence across the company. ◆ Examining the Company's historical trading patterns of inventory sold at full price and inventory sold below full price, together with the related margins achieved for each product lines in order to gain comfort that stock has not been sold below cost. ◆ Evaluating the rationality of the inventory policies such as the policy for inventory valuation and provision for obsolescence and understanding whether the valuation of inventory and provision for obsolescence (if any) was performed in accordance with the Company's policy. ◆ Inspecting the post period sales situation and evaluating the net realizable value of measurement applied on aging inventory in order to verify the evaluation accuracy of the estimated inventory allowance by the Company and ◆ Assessing whether the disclosures of inventory, its valuation and provision for obsolescence were appropriate.
<p>2. TRADE RECEIVABLES</p> <ul style="list-style-type: none"> ◆ The recover ability of trade receivables and the level of provisions 	<p>OUR AUDIT PROCEDURE:</p> <ul style="list-style-type: none"> ◆ Assessed the design and implementation of key controls around the monitoring of recover

Accordingly, recover ability of trade receivable and its disclosure as per Schedule III is determined as key audit matters. <p>Related Disclosures: Please refer to Accounting Policy No. 20 of Significant Accounting Policies for details of the accounting policies for accounts receivable and Note No. 8 of the Standalone Financial Statements for relevant disclosures of accounts receivable.</p>	<p>ability.</p> <ul style="list-style-type: none"> Discussed with the management regarding the level and ageing of trade receivables, along with the consistency and appropriateness of receivables provisioning by assessing recoverability with reference to cash received in respect of trade receivables. In addition, we have considered the Company's previous experience of bad debt exposure and the individual counter-party credit risk. The accuracy and completeness was verified through, cut-off test, analytical reviews and balance confirmation. Analyzing the aging schedule of trade receivable, post collection records, industry boom and concentration of customers' credit risk.
<p>3. REVENUE RECOGNITION</p> <ul style="list-style-type: none"> Revenue is an important measure used to evaluate the performance of the Company. There is a risk that the revenue is presented for amounts higher than what has been actually generated by the Company. Consequently, we considered revenue recognition to be a significant key audit matter. <p>Related Disclosures: Please refer to Accounting Policy No. 11 of Significant Accounting Policies for details of the accounting policies for Revenue Recognition and Note No. 24 of the Standalone Financial Statements for relevant disclosures of accounts receivable.</p>	<p>OUR AUDIT PROCEDURE:</p> <ul style="list-style-type: none"> Assessing the design, implementation existence and operating effectiveness of internal control procedures implemented as well as test of details to ensure accurate processing of revenue transactions. Inspecting the key terms and conditions of agreements with major customers on a sample basis to assess if there were any terms and conditions that may have affected the accounting treatment of the revenue recognition. The accuracy and completeness of revenue was verified through, cut-off test, analytical reviews and balance confirmation.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The other information as identified above is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information as identified above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance,

but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ♦ Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ♦ Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- ♦ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ♦ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ♦ Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1) As required by the Companies (Auditor's Report) Order, 2020 ("the order) issued by the Central Government in terms of Section 143(11) of the act, we give in "Annexure I" a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.

Annexure “II” forming part of Independent Auditor’s Report

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

We have audited the internal financial controls with reference to standalone financial statements of Bella Casa Fashion & Retail Limited (“the Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal financial controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2022, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note No. 1 : Company Information and Significant Accounting Policies

A. Corporate Information

Bellacasa Fashions & Retail Limited (the “Company”) is a Company domiciled in India and limited by shares (CIN: L17124RJ1996PLC011522). The shares of the Company are publicly traded on the BSE Limited (Dealings on the SME Platform of Exchange from October 15, 2015 to March 08, 2018 and then migrated & admitted to dealings on the Mainboard Platform). The address of the Company’s registered office is E-102, 103 EPIP, Sitapura Industrial Area, Jaipur, Rajasthan 302022, India. The Company is engaged in manufacturing of home furnishings/home madeups, women ethnic wear and men's ethnic wear.

The standalone financial statements, as reviewed and recommended by the Audit Committee, have been approved by the Board of Directors in their meeting held on May 23, 2022.

B. Statement of Compliance and Basis of Preparation

1 Statement of Compliance

The standalone financial statements are prepared on going concern basis following accrual basis of accounting and comply with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent notified and applicable).

2 Basis of measurement/Use of Estimates

The financial statements have been prepared on accrual basis under the historical cost basis except for certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer accounting policy regarding financial instruments). The methods used to measure fair values are discussed further in Notes no. 42 to financial statements.

The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized. Major Estimates are discussed in Part E.

3 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company’s functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (upto two decimals), except as stated otherwise.

4 Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for

at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

1 Property, plant and equipment

1.1. Initial recognition and measurement

An item of property, plant and equipments recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Items of property, plant and equipment are initially recognized at cost. Subsequent measurement is done at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition, inclusive of non-refundable taxes & duties, necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized. Other spare parts are carried as inventory and recognized in the statement of profit and loss on consumption.

1.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized.

The costs of the day-to-day servicing of property, plant and equipment are recognized in statement of profit or loss as incurred.

1.3. Derecognition

Property, plant and equipment is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on de-recognition of an item of property, plant and equipment are determined by comparing the proceeds from disposal, if any, with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

1.4. Depreciation/amortization

Depreciation is recognized in statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leasehold lands are amortized over the lease term unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a PPE along-with its unamortized depreciable amount is charged off prospectively over the revised useful life.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2 Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

3 Intangible assets

3.1. Initial recognition and measurement

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

3.2. Subsequent costs:

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

3.3. De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains & losses on de-recognition of an item of intangible assets are determined by comparing the proceeds from disposal, if any, with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

3.4. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at five years.

4 Assets Held for Sale

Non-current assets and disposal group are classified as "Held for Sale" if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of "Held for Sale" is met when the non-current asset or the disposal

group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as “Held for Sale”. Non-current assets and disposal group held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and disposal group that ceases to be classified as “Held for Sale” shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as “Held for Sale” adjusted for any depreciation/ amortization and its recoverable amount at the date when the disposal group no longer meets the “Held for sale” criteria.

5 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which necessarily take substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of (a) interest expense calculated using the effective interest method as described in Ind AS 109 - ‘Financial Instruments’ (b) finance charges in respect of finance leases recognized in accordance with IndAS 17 - ‘Leases’ and (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized as an expense in the year in which they are incurred.

6 Inventories

Inventories are valued at the lower of cost and net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

7 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

8 Government grants

Government grants are recognized only when its reasonable certainty that economics benefit flow to the entities and attached conditions will be compiled with it. Government grants are recognized and shown in the balance sheet as liability and income is accrued based on the terms of schemes in the statement of profit and loss over a phased manner in consideration with scheme terms and related use of assets.

Government grants related to depreciable property, plant & equipment is treated as deferred income which is recognised in the Statement of Changes in Equity (SOCE) on a systematic and rational basis over the useful life of the asset i.e. such grants is allocated to income over the periods and in the proportion in which depreciation on those assets is charged.

9 Provisions and contingent liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

10 Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11 Revenue recognition

The Company derives revenues primarily from sale of manufactured goods and related services. Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. The Company recognises provision for sales return, based on the historical results, measured on net basis of the margin of the sale. Therefore, a refund liability, included in other current liabilities, are recognized for the products expected to be returned.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money. Revenue in excess of invoicing are classified as contract asset while invoicing in excess of revenues are classified as contract liabilities.

Other income

Interest income is recognized, when no significant uncertainty as to measurability or collectability exists, on a time proportion basis taking into account the amount outstanding and the applicable interest rate, using the effective interest rate method (EIR). Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realization.

When calculating the EIR, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Dividend income is recognized in profit or loss on the date that the Company's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

12 Employee benefits

12.1. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two type:

12.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Company pays a fixed contribution and will have no further obligation.

12.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the

amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

13 Income tax

Tax expense comprises current tax and deferred tax. Current tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Additional income taxes that arise from the distribution of dividends are recognized at the same time that the liability to pay the related dividend is recognized.

14 Leases

14.1. As lessee

Accounting for finance leases

Leases of Property, Plant and Equipment where the Company, as lessee has substantially all risks and rewards of ownership are classified as finance lease. On initial recognition, assets held under finance leases are recorded as Property, Plant and Equipment and the related liability is recognized under borrowings. At inception of the lease, finance leases are recorded at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the

finance expense and the reduction of the outstanding liability.

Accounting for operating leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating lease. Payments made under operating leases are recognized as an expense over the lease term.

15 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

16 Dividends

Dividends and interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18 Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to

equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19 Statement of Cash Flows

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows' for operating activities.

20 Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in statement of profit and loss.

20.1 Financial assets

On initial recognition, a financial asset is recognised at fair value. All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI) depending on the classification of the financial assets.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Equity Instruments:

All investments in equity instruments classified under financial assets are initially measured at fair value. The Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Company makes such election on an instrument-by instrument basis. Fair value changes on an equity instrument is recognised in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of financial assets

Expected credit losses are recognized for all financial assets subsequent to initial recognition

other than financial assets in FVTPL category.

ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

a. All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.

b. Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

20.2. Financial liabilities and equity instruments

Classification as equity

Equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit or loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

All financial liabilities are subsequently measured at amortized cost using the effective interest method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss. Interest expense are included in the 'Finance costs' line item. The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest

rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Derivative financial instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss. The counter party for these contracts is generally a bank.

D. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

E. Major Estimates made in preparing Financial Statements

1 Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate. Intangible assets is being amortized on straight line basis over the period of five years.

2 Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3 Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

Note No. 43. Disclosure as per Ind AS 107 'Financial instrument disclosure'

A) Capital management	<p>For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value.</p> <p>The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio and includes within net debt, interest bearing loans and borrowings less Cash and cash equivalentents.</p>
------------------------------	---

	receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date.
	Other Financial Instruments and Cash & Cash Equivalent
	The Company maintain its cash & cash equivalent in current account to meet the day to day requirements. Other financial instruments are Deposit, Accrued Interest, Export Incentives Receivables and Other Receivables. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31st March, 2021, 31st March, 2020 is the carrying amount as disclosed in Note 9, 10 & 11.
	Provision for Expected Credit or Loss
	Financial assets for which loss allowance is measured using 12 month expected credit losses. The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised. Financial assets for which loss allowance is measured using life time expected credit losses.
b)	Liquidity Risk
	Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

B)	Financial risk management
	<p>The Company's principal financial liabilities comprise Borrowings, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, cash & cash Equivalent, deposits.</p> <p>Company is exposed to following risk from the use of its financial instrument:</p> <ul style="list-style-type: none"> a) Credit Risk b) Liquidity Risk c) Market Risk d) Foreign Currency Risk e) Interest Rate Risk <p>The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.</p>

a)	Credit Risk
	<p>Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.</p>
	Trade Receivable
	<p>Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 7 days to 90 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.</p> <p>An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 8. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade</p>

c) Market Risk	<p>Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.</p> <p>The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the Managing Board.</p>
d) Foreign Currency Risk	<p>Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The company uses forward contracts to mitigate its risk from foreign currency fluctuations.</p> <p>Derivative instruments and unhedged foreign currency exposure:- Derivative outstanding as at the reporting date - Nil</p>
