

**38TH
ANNUAL REPORT 2013-14**

VENKY'S (INDIA) LIMITED

**Padmashree Late Dr. B.V. Rao
(1935-1996)**

"VH Group has earned this leadership position because of our extraordinary high standards in quality, service and absolute integrity."

"Technologically Indian poultry can match the world's best. Our productivity levels both in layer and broiler segments are second to none. Yet we also feel small, for there is so much to be done and so much more that can be done."

"All our plans and programmes should be aimed at ensuring that the small farmer continues to remain in the industry and prosper."

"The process of economic liberalisation will help this industry to expand rapidly. There are no longer any artificial barriers between us and modern technology."

"To succeed in any business one must have a firm commitment and an affinity for the business more so in the poultry business. Making money, though welcome, should not be the sole criteria."

"Every successful organisation needs a clear commitment to excel in a chosen field; and this commitment will hold up over the years only by staying true to an original vision even in the worst of times."

Padmashree Dr. B. V. Rao

A Message From The Chairperson

Dear Shareholders,

Greetings of the Season!

I take pleasure in presenting you with a brief review of the performance of Venky's (India) Limited in 2013-14 and a general scenario of the poultry industry in India.

During the financial year ended 31st March, 2014, though Venky's registered a growth of 21.7% in terms of sales turnover, overall growth in profitability grown slightly at lower rate of 15.2%. This was mainly due to continuous high cost of feed ingredients and lower realisations from sale of day old chicks and grown up birds for most of the periods. The performance of the animal health products segment was satisfactory. The performance of the oilseed segment was impacted due to lower realisations.

Expansion programmes commenced in March, 2013 for augmenting capacities in poultry and poultry products segment, setting up a new plant for processing of soya seeds and setting up of Venky's XPRS outlets are under way and I expect that the same will be completed by second quarter of this financial year. Benefits of the expanded capacities will accrue to the Company partially in 2014-15 and fully thereafter.

For the financial year 2014-15, I expect that the overall performance of the Company would be better as compared to the previous year, though the prices of key ingredients used in poultry feed i.e. maize and soya are expected to be volatile due to the expected subdued rainfall and uneven weather conditions in most parts of the country. I foresee a bright future for the Indian poultry industry in general, and your Company in particular.

Thanks to the creation of a strong infrastructure, continued focus on superior quality and the high standards of customer service and the farsighted vision of our Late Chairman Padmashree Dr. B.V. Rao, we are able to maintain the steady growth of the poultry industry. With these inherent strengths we are able to maintain competitive edge in a steadily growing market which has the potential for manifold growth for several years in the future.

I wish you and your family all the best.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Structure and Development :

The global economic environment continued to remain challenging during the financial year 2013-14 with slower than expected growth. In line with the global trend, the Indian economy has also slowed down and witnessed deceleration in GDP growth rate by registering a growth of 4.7% as compared to 5% in the previous year. Persistently high inflation, higher cost of borrowing, high fiscal deficit level and the subdued industrial growth are not expected to turnaround in the immediate future, signaling that the recovery in economic growth will be at a slower pace. Given this backdrop the poultry industry continued to grow at satisfactory rates – both in broilers and layers.

The poultry industry is expected to maintain its growth rates in the coming years as well. Presently, the poultry industry is a Rs.75,000 crore industry that provides direct and indirect employment to 5.00 million people and also supports the economy of over 2 crore agricultural farmers, especially the maize and soya grower, dependent on this industry. 75% to 80% of the cost of production in the poultry industry consists of feed ingredients, like maize and soya. With an annual production of 65,000 million eggs, India ranks second in the world in egg production. The broiler production is estimated at 3.5 million tons of chicken meat and India ranks 3rd in the world.

2. Opportunities, Threats, Risks and Concerns:

The vast gap between our present per capita consumption (54 eggs and 3.5 kg. of meat) and National Institute of Nutrition (NIN) recommended level (180 eggs and 11 kg of meat) offers an excellent opportunity for the growth of poultry industry at least for the next two decades. Factors like increasing disposable income and rapid urbanization in most part of India are expected to contribute to the growth in demand for poultry products.

However, lack of adequate cold storage facilities at key locations and retail infrastructure are the main reasons for slower than anticipated growth of the processing segment of poultry industry. Higher volatile behaviour of feed ingredients prices

is also one of the concerns of the poultry industry.

3. Segmentwise Performance :

a. Poultry and Poultry Products

The Company's major business segment is poultry and poultry products which consists of production and sale of day old broiler and layer chicks, specific pathogen free eggs, processed chicken products and poultry feed. In 2013-14 this segment's turnover was Rs. 1,00,172 Lacs as compared to Rs. 92,607 Lacs in the last year. The profit before tax and interest of this segment was Rs. 2,822 Lacs as compared to Rs. 1,524 Lacs in the previous year.

b. Animal Health Products

The Company has its animal health products manufacturing facility at Pune. This segment's sales turnover was Rs. 12,324 Lacs as compared to Rs. 10,683 Lacs. Profit before tax and interest was Rs. 1,679 Lacs as against Rs. 1,502 Lacs in the last year.

c. Oilseed

This segment registered a sales turnover of Rs. 65,255 Lacs as compared to Rs. 46,347 Lacs last year. Profit before tax and interest was Rs. 2,968 Lacs as against Rs. 4,343 Lacs in the previous year.

4. Outlook

The outlook for the year 2014-15 is expected to be better in terms of overall growth for the Company. However, reduction in quantum of rain fall and uneven weather conditions in many parts of the country may increase the cost of feed ingredients, posing challenges to the profit margins.

5. Internal Control Systems and their adequacy

The internal control system is designed to ensure that all the financial and other records are reliable for preparing financial statements and

for maintaining accountability of the assets. The Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorised use or disposition and that transactions are authorised, recorded and reported correctly.

Commensurate with the size of operation, your Company has Internal Audit department which continuously reviews the internal control system by an exclusive programme of Internal Audit. The significant findings are then discussed by the Audit Committee of Directors and corrective measures are initiated. The Audit Committee also monitors the implementation of recommendations made by it.

6. Discussion on Financial Performance with respect to Operational Performance :

The turnover of the Company registered growth of 22% over the last year from Rs. 1,42,911 Lacs to Rs. 1,73,738 Lacs. The profit before tax from operations increased by 15% from Rs. 3,920 Lacs to Rs. 4,517 Lacs.

The long term borrowings of the Company during the year increased by about 58% from Rs. 14,653

Lacs to Rs. 23,174 Lacs. These funds are being utilized for the expansion plans of the Company. The short term borrowings of the Company during the year were increased by about 120% from Rs. 16,091 Lacs to Rs. 35,599 Lacs. Short term borrowings are being utilised for meeting operational expenditure and working capital requirements. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the

purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

9 SEGMENT REPORTING

Business segment

The primary segment reporting format is determined to be business segment as the Company's risk and rate of return are affected predominantly by differences in the products produced. Secondary information is reported geographically. The operating businesses are organised and managed separately according to the nature of the products, with each segment representing a strategic business unit that offers different products and serves different markets.

The "Poultry and Poultry Products" segment produces and sells chicks, grownup commercial broiler and layer, processed chicks, S.P.F. eggs, poultry feed and other miscellaneous poultry products. The "Animal Health Products" segments produces and sells medicines and other health products for birds. The "Oilseed segment" produces and sells edible refined soya oil and soya de-oiled cake.

Transfer price between segments are measured on the basis of price charged for inter segment transfers.

Segment revenue includes transfer between inter segments. Those transfers are eliminated in total revenue.

Corporate expenses are allocated to other segments at cost.

Geographical segment

The Company's secondary segments are the geographic distribution of activities. Revenue and receivables are specified by location of customers while the other geographic information is specified by location of the assets.

Dear Shareholder(s),

Option for ECS Mandate / Bank Mandate

ECS Mandate

As an added service to our shareholders, we are pleased to offer the facility of electronic credit of dividend directly to the respective bank accounts of our shareholders, through Electronic Clearing Service (ECS). Shareholders who would like to avail this facility are requested to fill up the mandate form provided on page no. 84 of this report and submit the same to the Company's Registrar and Share Transfer Agent's office **latest by 10th August, 2014**. This service not only protects a shareholder against fraudulent interception and encashment of dividend warrants but also eliminates dependence on postal system, loss / damage of dividend warrants in transit and correspondence relating to revalidation / issue of duplicate dividend warrants.

Kindly note that as per the directives of Securities and Exchange Board of India (SEBI), in respect of shareholders holding shares in dematerialised form, dividend shall be paid through ECS (where such facility is available) directly into the bank account furnished by the shareholders to their respective Depository Participant at the time of opening the Demat Account, provided that bank particulars and MICR details are made available to the Company in the beneficiary positions provided by NSDL & CDSL. **Such shareholders therefore need not submit the mandate form provided on the reverse of this letter but should ensure that the Bank particulars submitted to their respective Depositories are correct and valid.** In case it is desired to receive dividend in an account other than the one specified while opening the Demat Account, such shareholders may please inform the same to their respective Depository Participant immediately. The details informed to the Company or its Share Transfer Agent will not be considered in such cases.

Kindly note that the ECS / Bank Mandate instructions should be under the signature of the shareholder(s) as per specimen lodged with the Company.
