KMCH - A Pioneer in Healthcare

Our commitment to provide responsive, compassionate and centric healthcare with human touch is reflected by the excellent clinical outcome provided at affordable cost to every patient. Our hospital follows the value of serving in devotion with a sense of responsibility and contributing towards sustainable community healthcare development in the society. KMCH with its Western Approach and an 'Indian Touch' has transformed into the most trusted Multispeciality Hospital in the City of Coimbatore. The relentless service of KMCH in the past 26 years has taken health care to the most modern levels in the region catering to urban and rural population.

As another financial year closes, we look to the future with excitement. The last year has been a truly stupendous year in terms of break-throughs for the hospital. The hospital acquired the Da Vinci Surgical Robot - a first in the state of Tamilnadu after Chennai and also successfully performed wide variety of surgeries. The team of surgeons involved in the surgery made KMCH proud when Dr. Prashant Vaijyanath, Cardiothoracic surgeon, performed one of the first robotic surgeries in the country and Dr. A. Ganesan, Dr. Kuppurajan and others started routinely performing a wide array of GI and uro surgeries. Dr. Prashant Vaijyanath along with Dr. Thomas Alexander also

did two cases of trans-catheter aortic valve implantation using the pre-crimped valves, another first in the country. Another significant achievement is the first Heterotopic Heart Transplant (a first in Asia) performed by Dr. Prashant Vaijyanath and his team.

The transplant team has been continuously outdoing themselves and last year, they performed the first Domino Transplant, where the liver of one patient having a metabolic disease was transplanted to an elderly gentleman and replaced by a young person's liver, thus giving a new lease of life to both patients in the same sitting. Domino transplants are rare and again is a first in this part of the country.

The Renal Transplant Program continues to be busy with patients coming from all over the country and KMCH has become the single center with the largest experience in steroid-free transplants. KMCH also performs combined liver and kidney transplants and conducts transplant programs with different blood groups.

The hospital has also been seeing a steady growth in the number of international patients visiting the hospital. This year, in addition to patients coming from the African countries, Middle-East and Nepal, we had a patient from Cambodia with a hole in the heart who was treated successfully by the Department of Cardiac Surgery.

Another program that is growing rapidly at Kovai Medical Center and Hospital is the Rapid Response Team and treatment for stroke. The current treatment guideline for stroke states that any patient with stroke who arrives in the hospital before six hours should be treated both by drugs and by mechanical removal of the clot in a neuro-angiographic suite. KMCH is a leader in neuro-intervention and is the only center in this region with a dedicated biplane neurovascular lab with facilities to do CT scanning within the Cath Lab itself. The team, comprising of neurologists, neuro-anesthetists and critical care treated multiple patients by using this state-of-the-art technology this year. Keeping in line with the philosophy of the

hospital "Making the impossible possible," the first Mobile Stroke Unit in the country was ordered with Schiller Healthcare. This is the first unit of its kind an ambulance, built like an Intensive Care unit incorporating a CT scanner. Once all approvals are ready, the Mobile Stroke Unit will be available for people in and around Coimbatore. When it becomes operational, a stroke patient can get their diagnosis right outside their residence or nursing home and then can be shifted to KMCH for necessary treatment. As leaders in providing excellent healthcare we hope to see the unit dispensing treatment to the local population thus proving our leadership in Mobile stroke treatment.

KMCH under the leadership of Dr.Rupa Renganathan for the first time in Coimbatore started a novel procedure where non-cancerous tumors of the breast can be removed through a pinhole surgery. The procedure, which is termed as Vacuum-Assisted Biopsy, is a boon for young women where the tumour can be removed without any scar under local anaesthesia.

The Department of Neuro-Surgery has ordered for a state-of-the-art Neuro-Endoscopic System and Navigation System, both of which will enable them to move into more complex and difficult surgeries with precision.

KMCH played the host to the Second Annual Conference of the Society of Neuro-Intervention, which is the frontline society for treating diseases in the blood vessels of the brain including stroke through catheters inserted from the groin or arm. The conference was attended by more than 250 of the key neuro-interventional doctors of the country and had 10 of the world's leading interventional neuro-radiologists as the faculty where they shared their experience in the current management of stroke and bleeding into the brain.

Receiving awards has become a common practice in KMCH. This year, the center was awarded Best Multi Speciality Hospital - 2016 by Media group, Best Private Hospital - 2016 by FICCI, Best Swatch Bharat Award - 2016, Best CSR Activities - 2016, Green Hospital - 2016 by AHPI, Best Brand in the Region 2017 and Quality beyond accreditation 2017 by AHPI.

**ANNEXURE - III****PARTICULARS REGARDING CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND EXPENDITURE****Energy Conservation**

Energy conservation continues to receive priority attention at all levels. Your company undertakes all efforts to conserve and optimize the use of energy with continuous monitoring, improvement in maintenance and distribution systems and through improved operational techniques.

Your company has implemented an Energy Management System through which the volume of electricity consumed is monitored and recorded with the help of software and the areas which consume high units of electricity are identified and alternate actions have been taken to reduce the power consumption.

Movement sensors have been fitted in the bathrooms of the patient rooms. The lights are operated based on the human movement. Street lights and advertisement sign boards are controlled by timers. The above steps have yielded a considerable amount of savings in electricity consumption.

Also equipments with 5 star energy ratings are alone used.

Phasing out of CFL lamps to LED lights have also been undertaken. It is estimated that this step would yield an annual savings of nearly ` 2,03,000/-

Your company has deployed 5 new ambulances, replacing the older ones for better fuel efficiency & emission control. All the vehicles operated for the company are in line with pollution control regulations. Periodic maintenance is undertaken for complying with prescribed norms and better vehicle efficiency.

Making the most out of the waste

Your company has a waste management system. Under this, the bio-degradable food wastes (solid & liquid) are decomposed and biogas is produced. This gas is captively consumed as a cooking fuel in your hospital canteen. Hence considerable amount of expenditure on LPG is reduced.

Your company has a Sewage treatment plant which removes the toxic effluents from the sewage water and the treated water is used for horticulture.

Technology Absorption

Over the years, your Hospital has brought in enhanced life-saving equipments. Your Hospital is constantly involved in improving the patient care by adapting to innovative technologies. In its continuous endeavour to serve the patients better and to bring healthcare of international standards within the reach of every individual, your hospital has introduced the latest technology in clinical care and surgical procedures across various departments of the hospital. A couple of milestone investments include the addition of a Mobile Stroke Unit and the Da-Vinci surgery machine (Robotic Surgery).

Apart from the above, your Hospital has also invested in Video Endoscopy, Hemodialysis, Ventilator, Surgical Light, X-ray system and other equipments to the tune of ` 1917.26 Lakhs.

Foreign Exchange Earnings & Outgo**(i) Earnings in Foreign Currency**

Earnings in foreign currency during the year ended March 31, 2017 : Nil (Previous Year : Nil)

(ii) Expenditure in Foreign Currency

Expenditure in foreign currency during the year ended March 31, 2017 was ` 238.94 Lakhs (Previous Year : ` 1970.38 Lakhs).

MANAGEMENT DISCUSSION AND ANALYSIS

HOSPITAL'S PERFORMANCE MANAGEMENT

Healthcare organizations operating in today's global economy are faced with increasing competitive and regulatory pressures, and a heightened level of public scrutiny. In such a market environment, there is a pressing need for shrinking decision cycles where improved, faster and more accurate decision-making enables organizations to create a competitive advantage.

Hospital management has seen a drastic change over the years. Traditionally, hospitals were managed by select stakeholders like doctors, entrepreneurs and trusts, who had a say in the decision-making at an operational and board level. There is a paradigm shift in the priorities of managing a hospital today compared to those in the past from focusing not only on the growth story but also more on the performance of the hospital in terms of clinical, operational and financial parameters. Focus on the bottom line has increased and so have the efforts to improve patient experience by providing quality patient care and treatment.

Hospitals have become more conscious towards performance. Professionalism in management and better cost control can help the hospital in achieving better results as well as offer cost-effective treatment to patients, thus providing a win-win outcome for investors, medicine practitioners and patients. Indicators like return on capital employed (ROCE); earnings before interest, tax, depreciation and amortization (EBITDA); internal rate of return (IRR); and price earnings (PE) multiples are tracked to see how healthy an organization is. Operational parameters like patient satisfaction index, patient turnaround time and clinical management information system (MIS) data are also tracked regularly.

HEALTHCARE GROWTH AND DEVELOPMENT

India's phenomenal economic growth in the last decade has improved overall health standards in the country. But it has also brought to light the inequities and inefficiencies of our healthcare industry. Our Tier 3 cities and rural areas have very limited access to good quality healthcare. The poor conditions in these cities and villages make it imperative for us to act on improving the healthcare delivery system. Today, millions of Indians cannot use healthcare services because of their financial constraints. 70% of the payments in India are out-of-pocket (direct payments). This percentage is even higher for people below the poverty line. The first step towards solving the financial hardships faced by the poor is to move away from out-of-pocket payments at the time of utilizing services to prepayment for health service. (Source: PWC)

STRONG GROWTH IN HEALTHCARE EXPENDITURE OVER THE YEARS

Healthcare has become one of India's largest sectors both in terms of revenue and employment. The industry is growing at a tremendous pace owing to its strengthening coverage, services and increasing expenditure by public as well as private players. During 2008-20, the market is expected to record a CAGR of 16.5 per cent. The total industry size is expected to touch USD160 billion by 2017 and USD280 billion by 2020. (Source: KPMG)

SCOPE OF GROWTH

Currently, India stands at a cross-road of high-end, multi-specialty private healthcare services on one end and lack of doctors, support staff, medicines and facilities at the other. India is expected to rank amongst the top three healthcare markets in terms of incremental growth by 2020. High-end facilities and education platforms are concentrated near metropolitan centres. India has emerged as a hub for R&D activities for international players due to its relatively low cost of clinical research. Conducive policies for encouraging FDI, tax benefits, favorable government policies coupled with promising growth prospects have helped the industry.

FUTURE PROSPECTS

India is a land full of opportunities for players in the healthcare services industry. The country has also become one of the leading destinations for high-end diagnostic services with tremendous capital investment for advanced diagnostic facilities, thus catering to a greater proportion of population. Besides, Indian medical service consumers have become more conscious towards their health upkeep. (Source: The Mark Health Saver)

LIFESTYLE DISEASES AND GROWING AWARENESS

The purported rise of lifestyle diseases in India is expected to boost industry sales figures. Increased incidences such as heart disease, obesity and diabetes have contributed to rising healthcare spending by individuals. Growing health awareness and precautionary treatments coupled with improved diagnostics are resulting in an increase in hospitalization. Indian system of healthcare, Ayurveda has unique therapies which are beneficial for treatment of many chronic lifestyle disorders and thus attracting more number of patients to avail these services in India. (Source: India Opportunities)

GROWING IN-PATIENT / OUT-PATIENT AND DIAGNOSTIC MARKET

Over 2015-20, the In-Patient market is expected to grow at a CAGR of 13%. And the out-Patient market is expected to grow at CAGR of 10%. As of 2016, the inventory of all bio-medical equipment stood around 7,56,750 worth USD 697.21 million in 29,115 health facilities of India. Over 2012-22, diagnostic market is expected to grow at a CAGR of 20.4 per cent to USD 32 billion from USD 5 billion in 2012. Diagnostic market is split between imaging and pathology with 30 per cent and 70 per cent share respectively.

STRONG GOVT. POLICY SUPPORT CRITICAL IN DEVELOPING THE SECTOR

Encouraging the Private Sector

Benefits of Section 10(23) of The Income Tax Act, 1961 extended to financial institutions that provide long term capital to Hospitals of 100 beds or more.

Government is encouraging the PPP model to improve availability of healthcare services and provide healthcare financing.

Encouraging investments in rural areas

The benefit of section 80-IB has been extended to new hospitals with 100 beds or more that are set up in rural areas; such hospitals are entitled to 100 per cent deduction on profits for 5 years Tax Incentives.

All healthcare education and training services are exempted from service tax. Increase in tax holiday under section 80- IB for private healthcare providers in non metros for minimum of 50 bedded hospitals.

250 per cent deduction for approved expenditure incurred on operating technology enables healthcare services such as tele-medicine, remote radiology.

Income tax exemption for 15 years for domestically manufactured medical technology products (National Health Policy 2017).

Primary aim is to inform, clarify, strengthen and prioritize the role of the Government in shaping health systems in all its dimensions- investments in health, organization of healthcare services, prevention of diseases and promotion of good health through cross sectoral actions, access to technologies, developing human resources, encouraging medical pluralism, building knowledge base, developing better financial protection strategies, strengthening regulation and health assurance.

Incentives in the Medical Travel Industry

Incentives and tax holidays are being offered to hospitals and dispensaries providing health travel facilities. Senior citizens above 80 years of age will be allowed deduction of USD 491 towards medical expenditure if they are not covered under health insurance.

OPPORTUNITIES

Healthier citizens build a healthier nation and this sector has the ability to propel GDP growth in multiple ways - both directly and indirectly.

As an Employment generator: With a rise in ageing population and growing disease burden, the demand for healthcare services is expected to increase manifold. In order to meet this demand, the sector calls for a greater number of healthcare practitioners and skilled labour, thereby creating more direct and indirect job opportunities in the coming years.

As a productivity enhancer: Health is an important constituent of human capital. Investing in healthcare can have a positive impact across various spectrums of the economy. It can not only enhance labour productivity by increasing their physical capacities, such as endurance and strength, but also augment mental capacities, such as reasoning ability and cognitive functioning. Thus, health is expected to have far-reaching effects on productivity of both unskilled and skilled manpower.

As a forex generator: India is fast emerging as one of the leading destinations for international patients, owing to technological advancement, improvements in quality of care imparted, international accreditation programs run by medical institutes, enhanced skill sets of medical staff and its cost arbitrage. This has consequently encouraged the inflow of foreign exchange, helping strengthen our position in the international market. Health experts have indicated that India can grab this opportunity and target GDP share of around two per cent in 10 years from now through medical tourism.

As a driver for innovation and entrepreneurship: Innovation and entrepreneurship can be instrumental in driving the economy's growth. With the advent of alternate and innovative healthcare models, such as wellness centers, diabetes clinic, day care centers, diagnostic chains, among others, the entrepreneurial spirit in the sector has heightened. This in turn is expected to create employment opportunities, enhance productivity and increase export potential of healthcare services.

THREATS

a) Technological Advancements

The year 2016 witnessed a revolution in healthcare technology with innovations in medical devices, software and changes in healthcare administration. (Source: ReferralMD) Some of the advancements include,

- i. **Robotic Nurse Assistant** - A robot replaces human being for lifting the patient from or to bed, wheel chair etc.
- ii. **Remote Patient Monitoring** - Remote Patient monitoring collects wide varieties of health data and transmits them to health professionals to off-site specialized clinics / centers / hospitals for various diagnosis / treatments thus making the entire process cost effective.
- iii. **Light Bulbs that Disinfect and Kill Bacteria** - The technology of using visible light that continuously disinfect the environment and bolsters the infection prevention efforts.

- iv. **Electronic Underwear Preventing Bedsores** - The electric underpants deliver a small electrical charge every ten minutes. The effect is the same as if the patient was moving on their own, it activates muscles and increases circulation in that area, and effectively eliminates bed sores, thereby saving lives.
- v. **Long Lasting Batteries for Medical Device & Wearables** - With the need for power-hungry devices, there comes innovation in the form of new technologies that will help provide the world with long lasting and fast charging batteries.

With the outcome of these technological advancements, there comes a need for adapting into the new technologies to stay competitive in the market. Hence evolution needs to be carried out as a continuous process.

b) **Manpower Attrition Ratio**

The hospital industry relies heavily on trained healthcare professionals for delivering quality healthcare services. Among the challenges facing the industry is the high turnover of healthcare professionals leading to a global shortage of nearly 7.2 million healthcare workers that is expected to increase to 12.9 million by 2035. The shortage of skilled workers in hospitals has led to sub-optimal levels of patient care, increased patient mortality, increased medical errors, etc. Better remuneration, ideal working conditions abroad, high-stress levels, increased workload and reduced job satisfaction are some of the significant factors identified causing turnover in healthcare professionals. CHALLENGES IN INDIAN HEALTH CARE SECTOR

India is the second most populous country in the world. The death rate has declined but birth rates continue to be high in most of the states.

India faces the twin epidemic of continuing/emerging infectious diseases as well as chronic degenerative diseases. The former is related to poor implementation of the public health programs, and the latter to demographic transition with increase in life expectancy. Economic deprivation in a large segment of population results in poor access to health care. Poor educational status leads to non-utilization of scanty health services and increase in avoidable risk factors. (Source: pitt.edu)

Poor infrastructure, shortage of a skilled workforce and lack of standards impact the quality of care. With a 22% shortage of primary health centres (PHCs) and 32% shortage of community health centres (CHCs), it is estimated that 50% of beneficiaries travel more than 100 km to access quality care. India has only 1.1 beds per 1,000 populations in India compared to the world average of 2.7 beds per 1,000 populations. India still accounts for 16% of the global share of maternal deaths and 27% of global newborn deaths. Deaths continue to occur due to communicable diseases, with 22% of global TB incidence in India. India's non-communicable disease (NCD) burden continues to expand and is responsible for around 60% of deaths in India. (Source: NAT Health)

MEDICAL TOURISM IN INDIA

Over the years, India has grown to become a top-notch destination for medical value travel because it scores high over a range of factors that determines the overall quality of care. From quality of therapy, range of procedural and treatment options, infrastructure and skilled manpower to perform any medical procedure with zero waiting time, the list of benefits of travelling for medical treatment in India are many.

The high-end healthcare system in India is as good as the best in the world. India maintains not only a robust accreditation system but also a large number of accredited facilities. These set of approved hospitals in India can provide care at par or above global standards.

EXPANSION PLAN

Medical Council of India (a statutory body established by Government of India for establishing and maintaining standards for medical education) in January 2017 has amended the eligibility criteria by permitting Companies registered under Companies Act, 1956 to establish medical college institutions. This amendment in the regulation has opened a huge opportunity for KMCH. The Board is of the opinion that starting a medical college now will be ideal, considering the present opportunity thrown open by Medical Council India. The Board feels that this opportunity should be exploited at the earliest, ahead of the Chennai Hospital Project. KMCH possesses the requisite infrastructure - Land area, Technology and Manpower. The cost of the project is estimated to be ` 500 Crores approximately.

We are contemplating to commence the construction by the year 2017-18 provided the necessary approvals from the appropriate authority are obtained in time.

RISK MANAGEMENT

Risk management is the identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events or to maximize the realization of opportunities. Risk management's objective is to assure uncertainty does not deflect the endeavor from the business goals. Your company has a risk management committee to identify the risks, assessing the vulnerability, identify the ways to reduce the risks and prioritizing the risk reduction measures. This committee is headed by the Managing Director.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal control, as defined in accounting and auditing, is a process for assuring achievement of an organization's objectives in operational effectiveness and efficiency, reliable financial reporting, and compliance with laws, regulations and policies. Internal control involves everything that controls risks to an organization. Your company has appointed an independent firm of chartered accountants to review the adequacy of internal control systems, reliability of financial statements and compliance with laws and regulations.

INTERNAL FINANCIAL CONTROLS UNDER SECTION 134(5)(e) OF THE COMPANIES ACT, 2013

Internal financial controls means the policies and procedures adopted by the company for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information.

The company has engaged with M/s. Astral Consulting Limited (Astral) for reviewing the existing process and mapping them with risks & controls and ensure that they are adequate, for improving the process and controls wherever it is observed that process is slack and for testing the Internal controls so formed on regular basis and ensure that processes are working effectively.

Adequate systems and processes, commensurate with the size of the company and of its businesses are put in place to ensure compliance with the provisions of all applicable laws and such systems and processes are operating effectively.

CAUTIONARY STATEMENT

**INDEPENDENT AUDITORS' REPORT****To the Members of Kovai Medical Center and Hospital Limited****Report on the Standalone Financial Statements**

We have audited the accompanying standalone financial statements of **Kovai Medical Center and Hospital Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls and ensuring their operating effectiveness and the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2017, its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- (1) As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- (2) As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e. On the basis of written representations received from the directors as on March 31, 2017, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, we give our separate Report in "Annexure 2".

- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note No. 32 on Contingent Liabilities to the standalone financial statements;
 - (ii) The Company did not have any long-term contracts including derivative contracts. Hence, the question of any material foreseeable losses does not arise;
 - (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - (iv) The company has provided requisite disclosures in the financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016. ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Kovai Medical Center & Hospital Limited on the standalone financial statements for the year ended 31st March 2017]

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kovai Medical Center & Hospital Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTE NO 1.
A. NATURE OF OPERATIONS

Kovai Medical Center and Hospital Limited was incorporated in the year 1985 and commenced its hospital operation in the year 1990 with the flagship of Multi-Speciality Hospital at Coimbatore and has thereafter set up the City Center, Erode Center, Erode Speciality and Suler Center. The company's equity shares are listed in Bombay Stock Exchange.

B. SIGNIFICANT ACCOUNTING POLICIES:
(i) ACCOUNTING CONVENTION

The financial statements have been prepared to comply in all material respects with the accounting standards specified under section 133 of the Companies Act read with Rule 7 of the companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The Financial Statements have been prepared under the historical cost convention on an accrual basis. This accounting policy has been consistently applied by the company with those used in the previous year.

(ii) USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Difference between the actual amounts and the estimates are recognized in the year in which the events become known / are materialized.

(iii) PROPERTY, PLANT AND EQUIPMENT

Property, Plant and Equipment (PPE) being fixed assets are tangible items held for use or for administrative purposes and are measured at cost less accumulated depreciation and any accumulated impairment. Cost comprises of the purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates and any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management. Financing costs relating to acquisition of assets which take substantial period of time to get ready for intended use are also included to the extent they relate to the period up to such assets are ready for their intended use. Items of stores and spares that meet the definition of PPE are capitalized at cost and depreciated over its useful life.

The Carrying amount of an item of PPE is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of Property, Plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(iv) DEPRECIATION

Depreciation on Property, Plant and Equipment (PPE) are provided under straight line method as per the useful lives and manner prescribed under Schedule II to the Companies Act, 2013.

The Company has used the following useful lives to provide depreciation on its Property, Plant and Equipment

Particulars	Useful life (No. of Yrs)
I. Buildings	
a) Building (other than factory buildings) RCC Frame Structure	60
b) Building (other than factory buildings) other than RCC Frame Structure	30
c) Fences, wells, tube wells	5
d) Other (including temporary structure, etc.)	3
II. Plant & Machinery	
a) Electrical Machinery, X-ray and electro therapeutic apparatus and accessories thereto, medical, diagnostic equipments, namely, Cat-scan, Ultrasound Machines, ECG Monitors, etc.	13
b) Plant and Machinery used in medical and surgical operations - Other Equipments	15 10
c) Electrical Installations and Equipment	
III. Furniture and fittings	10
General furniture and fittings	5
IV. Office equipments	
V. Computers and data processing units	6
a) Servers and networks	3
b) End user devices, such as, desktops, laptops, etc.	
VI. Motor Vehicles	10
a) Motor cycles, scooters and other mopeds	8
b) Motor buses, motor lorries, motor cars and motor taxies other than those used in a business of running them on hire.	

Where the cost of a part of the PPE is significant to the total cost of the PPE and if that part of the PPE has a different useful life than the main PPE, the useful life of that part is determined separately for depreciation.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The depreciation method applied to an asset is reviewed at each financial year-end and if there has been a significant change in the expected pattern of consumption of future economic benefits embodied in the asset, depreciation is charged to reflect the changed pattern.

(v) INTANGIBLE ASSETS AND AMORTIZATION

Intangible assets are recognised only if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

Computer software licenses are capitalised on the basis of costs incurred to acquire and bring to use the specific software. Operating software is capitalised and amortised along with the related fixed asset. Other software is amortised, on a straight line method, over a period of three years & five years based on management's assessment of useful life.

(vi) IMPAIRMENT OF ASSETS

The carrying amounts of assets are reviewed, as at each balance sheet date, to determine if there is any indication of impairment based on internal / external factors. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows as a cash generating unit are discounted to the present value. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an extent occurring after the impairment loss was recognised.

The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(vii) BORROWING COSTS

Borrowing Costs include interest and other costs incurred in connection with borrowing of funds. Borrowing Costs attributable to the acquisition or construction of qualifying assets are capitalized as part of such assets. All the other borrowing costs are charged to revenue. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale.

(viii) INVESTMENTS

Current Investments are carried at lower of cost and market value. Long Term Investments are stated at cost. Provisions for diminution in value of long-term investments are made, if the diminution is other than temporary.

(ix) LEASES
Where the company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the company is the lessor

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Asset subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss.

(x) INVENTORIES

- a) Inventories are valued at lower of cost and estimated net realizable value.
- b) Cost is arrived at on First-in-First Out (FIFO) basis.
- c) Stores & Spares which do not meet the definition of Property, Plant and Equipment are accounted as inventories.
- d) Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated costs necessary to make the inventory saleable.

(xi) FOREIGN CURRENCY TRANSACTIONS

- a) Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.
- b) Foreign currency monetary items are reported using closing foreign exchange rate. Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of transaction.
- c) Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.
- d) Premium or discount on forward exchange contracts arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

(xii) REVENUE RECOGNITION

The Company generally follows the Mercantile system of accounting and recognise the Income and Expenditure on an accrual basis except those with significant uncertainties. Revenue is recognized to the extent that it is probable that the economic benefit will flow to the company and the revenue can be reliably measured.

Operating Income

- a) The income by way of Doctors' Consultancy Fees and the consequent liability towards Doctor's consultation charges are considered as accrued as and when the amounts are finalized and certainty of recovery from Patients is established.
- b) The insurance claims are accounted as and when the claims are settled or accepted by the insurance company whichever is earlier.
- c) Revenue from sale of dietary items / pharmacy items are recognized as and when the services are rendered / goods sold.

Income from Sponsorships

Revenue is recognized as and when the services are rendered at the center.

Income from Academic services

Revenue is recognized on Straight Line basis on the completion of such services over the duration of the course.

Income from Interest / dividend

- a) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.
- b) Dividend income is recognized as and when the right to receive payment is established.

(xiii) TAXES ON INCOME

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act 1961, and based on the expected outcome of assessments/appeals.

Deferred tax is recognized on timing differences between the accounting income and the taxable income for the year, and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are recognized and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and Deferred tax liabilities are offset if a legally enforceable right exist to set off current tax assets against current tax liabilities and deferred tax assets/deferred tax liabilities relate to same taxable entity and same taxation authority.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal income tax during the specified period

(xiv) RETIREMENT BENEFITS

- a) Payments to defined contribution schemes are charged as expense as and when incurred.
- b) Liabilities with regard to the Gratuity plan are determined by actuarial valuation, performed by an independent actuary, at each Balance sheet date using the projected unit credit method.
- c) Actuarial gains and losses arising from experience adjustments and change in actuarial assumptions are recognized in the Statement of Profit and Loss in the period in which they arise.
- d) Post employment and other long term benefits which are defined benefit plans are recognized based on the present value of the obligation determined in accordance with Accounting Standard (AS) - 15 on "Employee Benefits".

(xv) PROVISIONS

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value unless otherwise required by the standard and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(xvi) CONTINGENT LIABILITIES AND ASSETS

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent Assets are neither accounted for nor disclosed.

(xvii) EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes if any) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares (if any) are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period are adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and consolidation of shares if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(xviii) CASH & CASH EQUIVALENTS

Cash flow is reported using indirect method, whereby net profit before tax is adjusted for the effects of transaction of a non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow comprises regular revenue generating, investing and financing activities of the company. Cash and cash equivalents in the balance sheet comprise of cash at bank and in hand and short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. The Company considers all highly liquid investments with an initial maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of Kovai Medical Center and Hospital Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **Kovai Medical Center and Hospital Limited** (hereinafter referred to as "the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2017, their consolidated profit and their consolidated cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the Company so far as it appears from our examination of those books.
- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d. In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014;
- e. On the basis of written representations received from the directors of the Holding Company as on March 31, 2017 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act;
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, we give our separate Report in "Annexure".
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note No. 32 to the consolidated financial statements;
 - (ii) The Group did not have any material foreseeable losses on long term contracts including derivative contracts;
 - (iii) There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary company.

- (iv) The Holding Company and its subsidiary companies, have provided requisite disclosures in its financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016. Based on audit procedures performed by us, we report that the disclosures are in accordance with the books of account maintained by the Holding Company and its subsidiary company (Refer Note No. 38 to the consolidated financial statements).

**ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT**

[Referred to under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of **Kovai Medical Center & Hospital Limited** on the consolidated financial statements for the year ended 31-03-2017]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of the Group, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Group, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing specified, under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTE NO 1.
A. NATURE OF OPERATIONS

Kovai Medical Center and Hospital Limited was incorporated in the year 1985 and commenced its hospital operation in the year 1990 with the flagship of Multi-Speciality Hospital at Coimbatore and has thereafter set up the City Center, Erode Center, Erode Speciality and Suler Center. The company's equity shares are listed in Bombay Stock Exchange.

The Wholly owned subsidiary company - Idhayam Hospitals Erode Limited, is also engaged in the business of healthcare services.

B. SIGNIFICANT ACCOUNTING POLICIES
(i) BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been prepared to comply in all material respects with the accounting standards specified under section 133 of the Companies Act read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The Consolidated Financial Statements have been prepared under the historical cost convention on an accrual basis. This accounting policy has been consistently applied by the company with those used in the previous year.

(ii) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements relate to Kovai Medical Center and Hospital Limited ("the Company") and its wholly owned Subsidiary Company-Idhayam Hospitals Erode Limited. The Consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the Company and its subsidiary Companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealised profit or losses in accordance with Accounting Standard (AS) 21 - "Consolidated Financial Statements".
- b) The difference between the cost of investment in the subsidiaries over the net assets at the time of acquisition of shares in the subsidiaries is recognised in the financial statements as Goodwill or Capital Reserve as the case may be.
- c) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements

(iii) ACCOUNTING OF INVESTMENTS

Investments other than in subsidiaries and associates have been accounted as per Accounting Standard (AS) 13 - "Accounting for Investments".

(iv) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment (PPE) are tangible items held for use or for administrative purposes and are measured at cost less accumulated depreciation and any accumulated impairment. Cost comprises of the purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates and any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management. Financing costs relating to acquisition of assets which take substantial period of time to get ready for intended use are also included to the extent they relate to the period up to such assets are ready for their intended use. Items of stores and spares that meet definition of PPE are capitalised at cost and depreciated over its useful life.

The Carrying amount of an item of PPE is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of Property, Plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(v) DEPRECIATION

Depreciation on Property, plant and equipment (PPE) are provided under straight line method as per the useful lives and manner prescribed under Schedule II to the Companies Act, 2013.

The Company has used the following useful lives to provide depreciation on its Property, Plant and Equipment

Particulars	Useful life (No. of Yrs)
I. Buildings	
a) Building (other than factory buildings) RCC Frame Structure	60
b) Building (other than factory buildings) other than RCC Frame Structure	30
c) Fences, wells, tube wells	5
d) Other (including temporary structure, etc.)	3
II. Plant & Machinery	
a) Electrical Machinery, X-ray and electro therapeutic apparatus and accessories thereto, medical, diagnostic equipments, namely, Cat-scan, Ultrasound Machines, ECG Monitors, etc.	13
b) Plant and Machinery used in medical and surgical operations - Other Equipments	15
c) Electrical Installations and Equipment	10
III. Furniture and fittings	
General furniture and fittings	5
IV. Office equipments	
V. Computers and data processing units	
a) Servers and networks	6
b) End user devices, such as, desktops, laptops, etc.	3
VI. Motor Vehicles	
a) Motor cycles, scooters and other mopeds	10
b) Motor buses, motor lorries, motor cars and motor taxies other than those used in a business of running them on hire.	8

Where the cost of a part of the PPE is significant to the total cost of the PPE and if that part of the PPE has a different useful life than the main PPE, the useful life of that part is determined separately for depreciation.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The depreciation method applied to an asset is reviewed at each financial year-end and if there has been a significant change in the expected pattern of consumption of future economic benefits embodied in the asset, depreciation is charged to reflect the changed pattern.

(v) INTANGIBLE ASSETS AND AMORTIZATION

Intangible assets are recognised only if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

Computer software licenses are capitalised on the basis of costs incurred to acquire and bring to use the specific software. Operating software is capitalised and amortised along with the related fixed asset. Other software is amortised, on a straight line method, over a period of three years & five years based on management's assessment of useful life.

(vi) IMPAIRMENT OF ASSETS

The carrying amounts of assets are reviewed, as at each balance sheet date, to determine if there is any indication of impairment based on internal / external factors. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows as a cash generating unit are discounted to the present value. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an extent occurring after the impairment loss was recognised.

The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(viii) BORROWING COSTS

Borrowing Costs include interest and other costs incurred in connection with borrowing of funds. Borrowing Costs attributable to the acquisition or construction of qualifying assets are capitalized as part of such assets. All the other borrowing costs are charged to revenue. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale.

(ix) INVESTMENTS

Current Investments are carried at lower of cost and market value. Long Term Investments are stated at cost. Provisions for diminution in value of long-term investments are made, if the diminution is other than temporary.

(x) LEASES
Where the company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the company is the lessor

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Asset subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss.

(xi) INVENTORIES

- a) Inventories are valued at lower of cost and estimated net realizable value.
- b) Cost is arrived at on First-in-First Out (FIFO) basis.
- c) Stores & Spares which do not meet the definition of Property, Plant and Equipment are accounted as inventories.
- d) Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated costs necessary to make the inventory saleable.

(xii) FOREIGN CURRENCY TRANSACTIONS

- a) Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.
- b) Foreign currency monetary items are reported using closing foreign exchange rate. Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of transaction.
- c) Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.
- d) Premium or discount on forward exchange contracts arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

(xiii) REVENUE RECOGNITION

The Company generally follows the Mercantile system of accounting and recognise the Income and Expenditure on an accrual basis except those with significant uncertainties. Revenue is recognized to the extent that it is probable that the economic benefit will flow to the company and the revenue can be reliably measured.

Operating Income

- a) The income by way of Doctors' Consultancy Fees and the consequent liability towards Doctor's consultation charges are considered as accrued as and when the amounts are finalized and certainty of recovery from Patients is established.
- b) The insurance claims are accounted as and when the claims are settled or accepted by the insurance company whichever is earlier.
- c) Revenue from sale of dietary items / pharmacy items are recognized as and when the services are rendered / goods sold.

Income from Sponsorships

Revenue is recognized as and when the services are rendered at the center.

Income from Academic services

Revenue is recognized on Straight Line basis on the completion of such services over the duration of the course.

Income from Interest / dividend

- a) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.
- b) Dividend income is recognized as and when the right to receive payment is established.

(xiv) TAXES ON INCOME

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act 1961, and based on the expected outcome of assessments/appeals.

Deferred tax is recognized on timing differences between the accounting income and the taxable income for the year, and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are recognized and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and Deferred tax liabilities are offset if a legally enforceable right exist to set off current tax assets against current tax liabilities and deferred tax assets/deferred tax liabilities relate to same taxable entity and same taxation authority.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal income tax during the specified period

(xv) RETIREMENT BENEFITS

- a) Payments to defined contribution schemes are charged as expense as and when incurred.
- b) Liabilities with regard to the Gratuity plan are determined by actuarial valuation, performed by an independent actuary, at each Balance sheet date using the projected unit credit method.
- c) Actuarial gains and losses arising from experience adjustments and change in actuarial assumptions are recognized in the Statement of Profit and Loss in the period in which they arise.
- d) Post employment and other long term benefits which are defined benefit plans are recognized based on the present value of the obligation determined in accordance with Accounting Standard (AS) - 15 on "Employee Benefits".

(xvi) PROVISIONS

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value unless otherwise required by the standard and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(xvii) CONTINGENT LIABILITIES AND ASSETS

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent Assets are neither accounted for nor disclosed.

(xviii) EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes if any) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares (if any) are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period are adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and consolidation of shares if any. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(xix) CASH & CASH EQUIVALENTS

Cash flow is reported using indirect method, whereby net profit before tax is adjusted for the effects of transaction of a non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow comprises regular revenue generating, investing and financing activities of the company. Cash and cash equivalents in the balance sheet comprise of cash at bank and in hand and short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. The Company considers all highly liquid investments with an initial maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.
