Commenting on the performance for the quarter and financial year, in a joint statement, Mr. Ajay Shriram, Chairman & Senior Managing Director, and Mr. Vikram Shriram, Vice Chairman & Managing Director, said:

“We are happy to report a satisfactory performance for the quarter and for the year. All our businesses have emerged stronger and more competitive as a result of steps taken over the last few years.

Our Chlor-Alkali business has become stronger with economies of scale and substantial improvement in power efficiencies. The planned capacity expansion and setting up of facilities for chlorine based chemicals will make this business further strong.

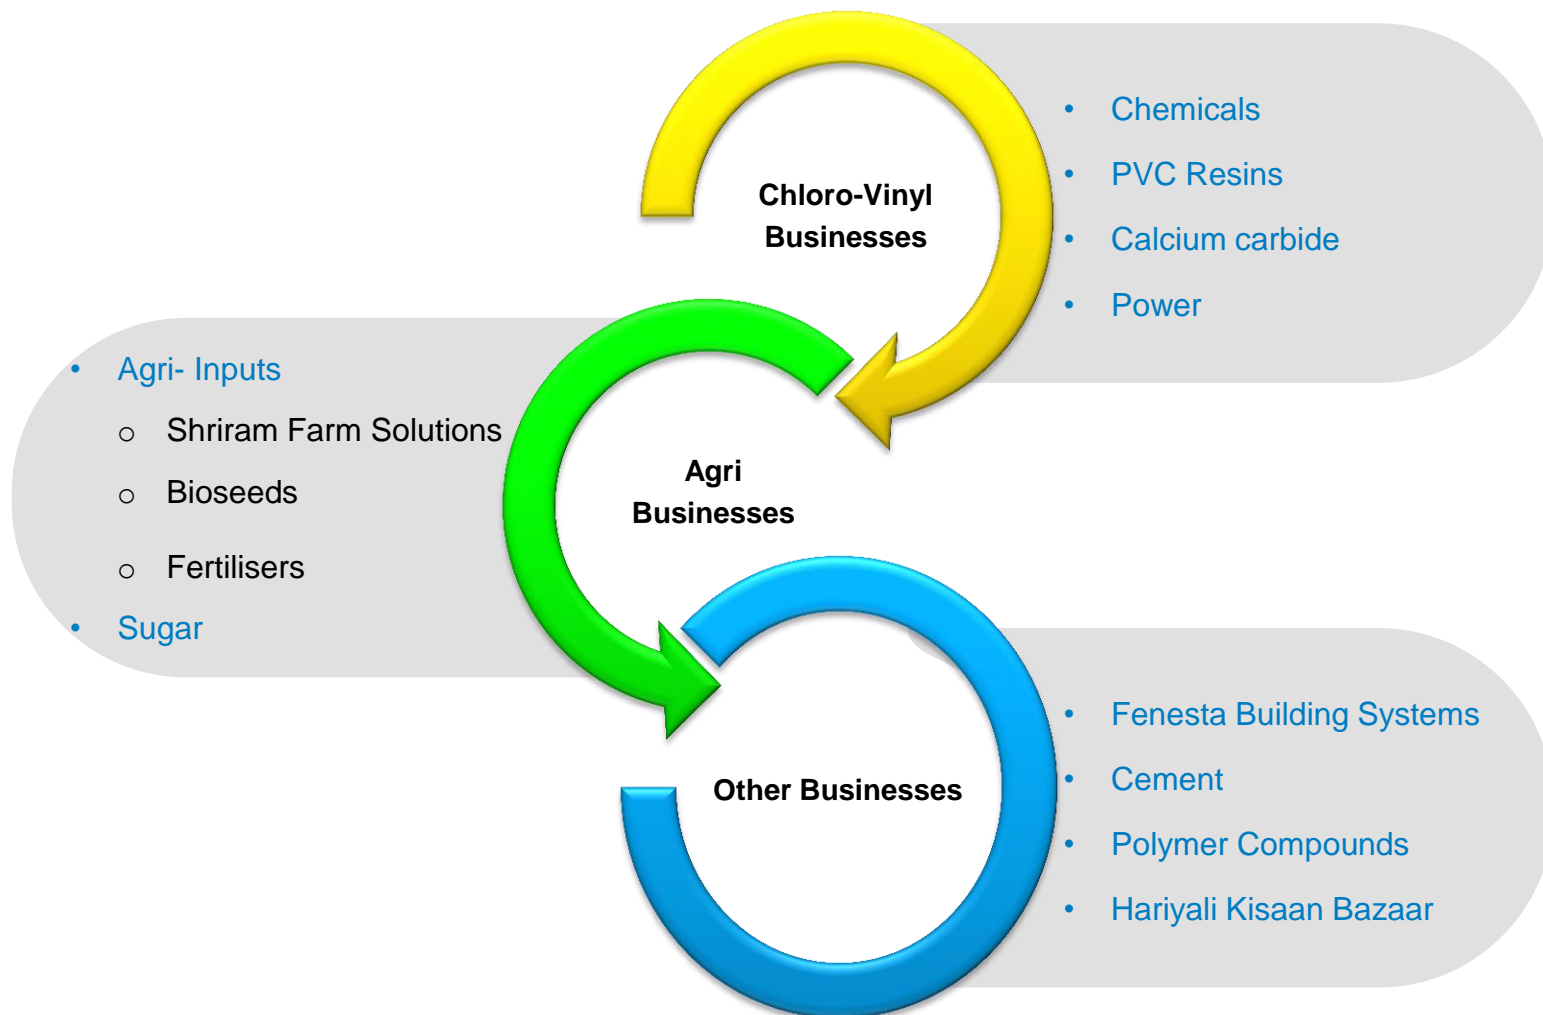

Sugar business is experiencing difficult price situation with prices significantly below cost. Industry has been pursuing with government for immediate support as well as a rational policy framework. There is need for urgent action in this regard.

Over last few years we have taken several steps to strengthen our Sugar business. The production volume has almost doubled. The level of integration has gone up with increase in power generation capacity & commissioning of distillery. We plan to take further steps for both volume growth and integration, to strengthen this business.

Fenesta is registering good growth and we are taking steps to strengthen the business further.

Overall we are confident of sustained growth with stronger business portfolio going forward.”
