Directors' Report

'ANNEXURE D'

Information as required under the Companies (Accounts) Rules, 2014.

A. CONSERVATION OF ENERGY.

The Company has successfully maintained ISO 50001 EnMS (Energy Management Systems), which was recertified by TUV-SUD Germany across all its units, which sustained adoption of energy conservation as a Company-wide culture.

Our continuous endeavour and focus on energy savings and constant thirst to conserve natural resources have resulted in group energy savings of 4.3% in terms of unit/Kg, which is significant as it amounts to conserving energy resources.

To achieve the above objectives, various projects were undertaken in a systematic manner under the Corporate Energy Conservation Cell as listed below:

- 1. Installed 400KW Rooftop Solar Power Generation System, which helped reduce Carbon Emission by 443 tons.
- 2. Installed energy efficient screw chiller at Bubble-Guard plant and saved 10% energy on 3000T m/c as compared to scroll chillers.
- 3. Installed IR heaters for Bubble-Guard extruder for energy saving.
- 4. Reduction in specific energy consumption by 4% helped to reduce Carbon Emission of 1336 tons.
- 5. The on-going partnership with BETA Wind Energy Farms Private Limited was optimized for its units consumption leading to lower billing by TNEB and reduction of Carbon Emission by 5693 tons.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENT OPPORTUNITIES, THREATS, RISKS, CONCERNS AND OUTLOOK:-

2017-2018 has been an eventful year overall for the Indian Economy with long awaited nationwide rollout of GST. Disruptions and anxiety due to perceptions, certain lack of clarity and overall adaptation of HSN based tax rates, though affected the Business in 2nd/ 3rd quarter, have now been overcome and settled.

While other measures of the Government, namely, the enactment of the Real Estate (Regulation and Development) Act, 2016 (RERA) and implementation of the Insolvency and Bankruptcy Code, 2016 (IBC) shall play a positive role for the economy over a period of time.

The improvement seen in the Indian Industrial Production (IIP) numbers since last couple of months suggest that the Indian economy has now moved on a recovery path which is a good indicator.

The Indian economy is poised to grow at a rate of 7% in 2018-2019, after an estimated 6.6% growth in 2017-2018.

At Company level going forward it is our conviction that the transparent policies and level playing field provided by the GST regime, along with the stringent statute compliance with initiatives like E-way bill implementation, will further help the growth of organised sector due to reduction of unethical practices which had led to unfair and unjust competition in the past.

Plastic Division

The **Plastic Business** has achieved a volume growth of 2% and value growth of 8%. During the financial year 2017-2018 it has achieved total turnover of ₹ 185,638 lacs as compared to ₹ 172,370 lacs in the previous year.

During the financial year 2017-2018, the **Furniture Business** recorded a growth of nearly 6% in value terms. The furniture division sales include the Moulded Furniture business, the Ready Furniture business - which offers a range of over 450 products with a combination of metal chairs/ office chairs manufactured in-house and traded products across all segments of home and office categories like bedroom, dinning, desking and storage, living and the Mattress business.

In the year gone by, your Company has introduced several new products to stay ahead of the curve in the highly competitive furniture domain, the objective clearly being to provide innovative products which will enhance the offerings and also improve the top and bottom line of both the Channel Partners and the Company. These innovations were basically centered around better aesthetics, innovative designs and space-saving attributes. The new introductions by the Company are well accepted by trade partners and post October, 2017 the Company could register a volume growth of around 8% over the previous financial year. To keep up the momentum, your Company is planning to invest in the range of differentiated products in all the verticals in the financial year 2018-2019 to fill in product gaps and bring freshness in the product offerings. The distribution base spread across every district of our country will increase the visibility quotient to the remotest rural market and this coupled with our ability to manage complex supply chain equations at a lower cost as compared to the industry norms would be our clear "right to win" and will help the division to grow consistently over double digits in the coming years. The strong network of 40 plus depots and nearly 300 plus sales staff assisted by a robust SCM system which links the multi locational production facilities to deliver our products efficiently helped us in not only enhancing the market penetration further but also improved our timely fill rate to the general trade, modern trade and E-commerce portals across the country. This would continue to be our focus area in the coming period.

In the coming year the Company is geared up to improve the indigenisation initiative through local sourcing and selective backward integration especially in the metal, sofa and MDF category of products. The core focus of leveraging our visibility continues through our focus on commissioning franchise stores across geographies. These stores would be showcasing all the 3 verticals and the plan would be to add on 10 FOFOs in addition to the already existing 44 Nilkamal Home Ideas and Furniture Ideas Stores.

Nilkamal's focus on 3 verticals i.e. Moulded Furniture, Ready Furniture and Mattress has helped us to develop a unique business model in the country as it essentially serves the same network of distributors and retailers thus making it easier for them to source all types of furniture requirements of their customer in the Furniture domain through one major principal. This in a way is a winning solution for the Channel Partners as this takes care of their aspiration of both top line growth and profitability. With the visibility equation established, the Company proposes to continue investing in ATL initiatives like TV advertisement on national channels to increase the brand awareness for all the 3 verticals. We believe that this will augment the already strong recall of Nilkamal brand accrued from over 6 Crores. household of Moulded Furniture base build over nearly 3 decades.

Stability in crude prices, strengthening of our currency will help in development of the market for the Company's products in short and medium term. However, any adverse fluctuations or uncertainties can be a cause for concern.

Revenues of **Material Handling Business** for FY 2017-2018 grew by 7% y-o-y, which for joint ventures Nilkamal Bito Storage Systems Private Limited grew by 22% and for Cambro Nilkamal Private Limited grew by 20%.

Nilkamal Limited

In order to improve service delivery times and reduce logistic cost, the Company has enhanced storage capacities at its Sinnar and Silvassa plants and also setup Mega Warehouses near Auto Hubs in North (Malpura), South (Bangalore) and West (Vithalapur).

We are also investing in machineries to increase our production capacities in Roto and Injection moulding and moulds of growth segments for wider range of pallets and waste management products based on a focused market research and product development program to add value to our product offerings, strengthening our brand positioning as a "One Stop Shop for Material Handling Solutions". Nilkamal was accorded "CLEAN AWARD" by The Economic Times for Company's waste management products. Our offering of complete intralogistics solutions would grant us strong growth in business based on buoyant growth in sectors such as automotive, engineering, fisheries and food processing.

Our 'Go to Market' through our direct sales model, with 400 plus Pan India sales force has been further strengthened by increased usage of technological customer relationship solutions (CRM Software) integrated with our SAP ERP to drive sales force productivity. We have implemented key account management to deepen customer penetration and capture a larger share of their purchases in our product segments and also started use of data analytics to identify and tap into expanded markets to broaden customer base. We have expanded use of BI (Business Intelligence), machine learning tools to help us increase efficiency in warehouse stocking, logistics and accounts receivable's management. Efficiencies in these will directly lead to better cash flows and reduction in related costs.

Most importantly, a program "Fit for growth" has been instituted as a comprehensive manpower productivity improvement exercise to map and improve our processes by reducing complexities and use of technology with an aim to improve manpower productivity.

Immediate to medium term concerns are, rising crude price, impacting raw material prices and disruptions in agriculture sector due to climatic changes which pose as challenge to revenue growth and profitability.

Lifestyle Furniture, Furnishing and Accessories Division:

We constantly live by our values of relentlessly serving our customers by bringing to them, the latest and the best.

With 17 large format retail stores and 11 Shop-in-Shop stores in 14 cities, the brand has a retail space spread of nearly 2.76 lakh square feet. A fully functional website (www.at-home.co.in) and presence across leading online market places helps fulfill the needs of the digital customer.

During FY18, @home's year-on-year growth was at 2%(same store sales). The steep GST rate implementation and changes had an impact on the consumer sentiment at large, but our stores still delivered an overall growth compared to previous year. The business achieved ₹ 21,478 lacs of revenue compared to previous year ₹ 23,294 lacs. Negative difference in revenue is due to attribution of sales from the Institutional business and Nilkamal E-commerce vertical to other divisions within the Nilkamal business. In spite of this lower turnover, @home business continued to remain profitable at corporate level.

The offline furniture market is dominated by the organised players with only a few national organised retail chains. This structure of the market could see some changes in the medium to long term on account of compliances required under the GST regime for the unorganised players.

For this financial year, there is a keen focus on store expansion by the 'franchise' route. We have signed two franchise stores in Tier 2 cities and a few others are in pipeline. Omni-channel customer experience also occupies an important space in the brand's strategy for this financial year. A focus on driving digital engagement and digital influence shall help drive business, both online and offline. This would also include enhancing the web experience for a customer and building an assortment specifically for the @home digital customer.

A watch-out for the business in FY19 could be the play by the online marketplaces in the 'home' segment. An investment in the 'home' segment is likely to create a conducive market for the online transactions in Tier 2 and Tier 3 cities. However, this could also help us gain more e-commerce sale on account of presence across leading marketplaces.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NILKAMAL LIMITED

Report on the Audit of the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Nilkamal Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and summary of the significant accounting policies and other explanatory in formation (herein after referred to as "standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit (including other comprehensive income), changes in equity and cashflows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safe guarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and

Independent Auditors' Report

give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31st March 2018, its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Annexure A to the Independent Auditors' Report – 31st March 2018

(Referred to in our report of even date)

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of the Company on the standalone Ind AS financial statements for the year ended 31st March 2018, we report the following:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The Company has a regular programme of physical verification of its fixed assets by which the fixed assets are verified by the management according to a phased programme designed to cover all the items over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with the programme, the Company has physically verified certain fixed assets during the year and we are informed that no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties as disclosed in Note 1 to the standalone Ind AS financial statements, are held in the name of the Company other than those disclosed in the table below:

| Asset class | No of cases | Gross Block (Rs in Lakhs) | Net block (Rs in Lakhs) | Remarks |
|---------------|----------------|------------------------------|----------------------------|---|
| Freehold land | 1 | 0.68 | | Pending completion of the relevant |
| Buildings | 28 | 255.19 | 239.96 | formalities of some of the fixed assets which vested in the Company pursuant to the scheme of amalgamation, such assets continue to be in the name of the erstwhile amalgamated companies |

- (ii) The inventory, except for goods in transit and stocks lying with third parties, has been physically verified by the management at reasonable intervals during the year. In our opinion, the frequency of such verification is reasonable. In respect of stocks lying with third parties at the year-end, written confirmations have been obtained. The discrepancies noticed on verification between the physical stocks and the book records were not material and have been adequately dealt with in books of account.
- (iii) According to the information and explanations given to us, the Company has not granted any loans to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act'). Accordingly, paragraphs 3 (iii) (a) and (b) of the Order are not applicable to the Company.
- (iv) In our opinion and according to the information and explanation given to us, the Company has not granted any loans during the year or provided any guarantees or security to the parties covered under Section 185 of the Act. The Company has complied with the provisions of Section 186 of the Act in respect of the investments made by the Company.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted deposits from public in accordance with the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148 (1) of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records with a view to determine whether they are accurate or complete.

Annexure B to the Independent Auditor's Report – 31st March 2018 on Standalone Ind AS Financial Statements

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Nilkamal Limited ("the Company") as of 31st March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining anunderstanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance withauthorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act.

(3) General reserve

General reserve forms part of the retained earnings and is permitted to be distributed to shareholders as part of dividend.

(3) Cash flow hedge reserve

For hedging foreign currency exposure risk, the Company uses forward contract which is also designated as cash flow hedges. To the extent these hedges are effective; the change in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amount recognised in the cash flow hedging reserve is reclassified to profit or loss when the hedged item affects profit or loss.

(4) Remeasurements of the net defined benefit Plans Remeasurements of the net defined benefit Plans comprises actuarial gains and losses and return on plan assets (excluding interest income).

32 Significant accounting policies

a) Basis of preparation of Financial Statements:

The Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the section 133 of the Companies Act 2013("the 2013 Act"), read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, and Companies (Indian Accounting Standards) Rules, 2016. The financial statements were authorised for issue by the Company's Board of Directors on 11th May 2018.

All the assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained the operating cycle to be 12 months.

Functional and presentation currency:

These Standalone financial statements are presented in Indian rupees, which is the Company's functional currency. All amounts have been rounded off to two decimal places to the nearest lakh, unless otherwise indicated.

Historical cost convention:

The Standalone financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities(including derivative instrument) that are measured at fair value;
- defined benefit plans plan assets measured at fair value

b) Use of Estimates and Judgements:

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the balance sheet and statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

Determination of the estimated useful lives of Property Plant and Equipment

Useful lives of property plant and equipment are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II for plant and machinery and dies and moulds, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

Recognition of deferred tax assets

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

Recognition and measurement of other provisions

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

Discounting of long-term financial assets / liabilities

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities/assets which are required to subsequently be measured at amortised cost, interest is accrued using the effective interest method.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Company determines whether the arrangement is or contains a lease.

At inception or on reassessment of an arrangement that contains a lease, the Company separates payments and other consideration required by the arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Company concludes for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset; subsequently, the liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the Company's incremental borrowing rate. And in case of operating lease, treat all payments under the arrangement as lease payments.

• Segment reporting

Operating segments are reported in a manner consistent with the internal reporting. The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

Fair value of financial instruments

Derivatives are carried at fair value. Derivatives includes foreign currency forward contracts and interest rate swaps. Fair value of foreign currency forward contracts are determined using the fair value reports provided by respective merchant bankers. Fair value of interest rate swaps are determined with respect to current market rate of interest.

Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3:* inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

c) Standards issued but not yet effective

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Ministry of Corporate Affairs ("MCA"), on March 28th 2018, through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the new standard for revenue recognition and amended certain existing Ind ASs which are effective for annual periods beginning on or after 1st April 2018.

Ind AS 115- Revenue from Contract with Customers:

Ind AS 115 will supersede the existing revenue recognition standard 'Ind AS 18 – Revenue'. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The Company is evaluating the requirements of the Ind As 115 and the effect on the standalone financial statements is being evaluated.

Ind AS 21- The effect of changes in Foreign exchange rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration.

The amendment will come into force from 1st April 2018. The Company does not expect the effect of this on the standalone financial statements to be material based on preliminary evaluation."

d) Property, plant and equipment:

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.

Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in profit or loss.

Items such as spare parts, stand-by equipments and servicing that meets the definition of property, plant and equipment are capitalised at cost and depreciated over the useful life.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

e) Depreciation:

 Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except for plant and machinery and Dies and moulds which is based on technical evaluation. Management believes that these useful lives best represent the period over which management expects to use these assets. Hence the useful life for plant and machinery of 10 years and for Dies and Moulds of 6 years for continuous running is different from the useful life as prescribed under Part C of Schedule II of the Companies Act 2013;

Useful life of property plant and equipment are reviewed at each balance sheet date and adjusted prospectively, if appropriate.

- Cost of leasehold land is amortised over the period of lease;
- Depreciation on addition to assets or on sale /discardment of assets, is calculated pro rata from the date of such addition or upto the date of such sale/discardment, as the case may be;
- Assets like mobile phones, telephone instruments, etc. are fully depreciated in the year of purchase / acquisition;
- Individual assets except assets given on lease acquired for less than ₹15,000/- are depreciated entirely in the year of acquisition.

f) Intangible Fixed Assets

Intangible assets, which are acquired by the Company and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

g) Amortisation:

Software (Intangible assets) are amortised over their estimated useful lives on a straight line basis but not exceeding the period of 36 months.

Useful life of Intangible assets are reviewed at each balance sheet date and adjusted prospectively, if appropriate.

h) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and, interest rate swaps and currency options; and embedded derivatives in the host contract.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Cash Flow Hedges

The Company uses derivative financial instrument such as forward contracts and cross currency interest rate swaps to hedge its foreign currency risks and interest rate risks. Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the Statement of Profit and Loss, except for the effective portion of cash flow hedge, which is recognised in Other Comprehensive Income and accumulated in Cash Flow Hedge Reserve included in the Reserves and Surplus while any ineffective portion is recognised immediately in the Statement of Profit and Loss.

For the purpose of hedge accounting, hedges are classified as:

Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability.

Cash flow hedges when hedging exposure to variability in cash flows that is either attributable to particular risk associated with a recognised asset or liability.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash

flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedge accounting is discontinued from the last testing date when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on such hedging instrument recognised in Cash Flow Hedge Reserve is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in Cash Flow Hedge Reserve is transferred to Statement of Profit and Loss for the year.

Financial Assets

Classification

The Company shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables. For more information on receivables, refer to Note 47.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Notes to the Standalone Financial Statements

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

Financial liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

i) Valuation of Inventories:

Inventories of Raw Materials, Packing Materials, Stores and Spares, Work-in Progress, Traded goods and Finished goods are valued 'at cost and net realisable value' whichever is lower. Cost comprises all

cost of purchase, appropriate direct production overheads and other costs incurred in bringing the inventories to their present location and condition. The excise duty in respect of the closing inventory of finished goods is included as part of the finished goods. Cost formulae used is 'Weighted Average Cost'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Company. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of inventories are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

j) Employee Benefits:

Short Term Employee Benefits

All employee benefits payable within twelve months of rendering the service are recognised in the period in which the employee renders the related service.

Post Employment / Retirement Benefits

Contribution to Defined Contribution Plans such as Provident Fund, Employees' State Insurance Corporation, etc., are charged to the Statement of Profit and Loss as incurred.

Defined Benefit Plans – The present value of the obligation under such plans, is determined based on an actuarial valuation by an independent actuary at the end of each year, using the Projected Unit Credit Method. In the case of gratuity, which is funded, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

Remeasurement of net defined benefit liability, which comprises actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any excluding interest), are recognized immediately in other comprehensive income.

Other Long Term Employee Benefits

Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

k) Foreign Exchange Transactions:

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate as at the date of the transaction.

I) Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

m) Recognition of Income and Expenditure:

i) Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when significant risks and rewards of ownership in the goods are transferred to the buyer. Revenues are recognized when collectability of the resulting receivable is reasonably assured.

- ii) Income from Services is recognised on completion of service.
- iii) Revenue/Income and Cost/Expenditure are accounted on accrual as they are earned or incurred, except in case of significant uncertainties.
- iv) Benefit on account of entitlement to import duty-free raw materials under advance license is estimated and accounted in the year of export as an adjustment to raw material consumption, provided there is a reasonable degree of certainty with regard to its ultimate realisation.
- v) Liability for excise duty payable on stock in bonded warehouse at the year-end is provided for.
- vi) Dividend income and keyman insurance policy refund is recognised when the right to receive the income is established.
- vii) Interest income is recognised on an effective interest rate basis.
- viii) Product warranty expenses are determined / estimated and provided for on the basis of the past experience of the Company.
- n) Leases :

Lease payments

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Lease assets

Assets held by the Company under leases that transfer to the Company substantially all of the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to that asset.

Assets held under other leases are classified as operating leases and are not recognised in the Company's statement of financial position.

o) Impairment of non-financial assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets, such reversal is not recognised.

p) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with remaining maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and shortterm deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

q) Taxation:

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- **b)** intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax asset / liabilities in respect of on temporary differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of temporary differences that originate during the tax holiday period but reverse after the tax holiday period are recognised.

r) Government Grants:

Grants received from the government are recognized at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with the conditions.

Government grants related to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and netted off with the expense in the statement of profit and loss.

Government grants related to purchase of property plant and equipment are recognised as deferred income and are credited to profit or loss on a straight line basis over expected life of the related asset and presented within other income.

s) **Provisions, Contingent Assets and Contingent Liabilities:**

Provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost. A provision for onerous contracts is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

B. Measurement of fair values

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used.

| Туре | Valuation technique |
|---------------------|--|
| Forward contracts | The fair value is determined using forward exchange rates at the reporting date. |
| Security Deposits | The valuation model considers present value of expected payments discounted using an appropriate discounting rate. |
| Interest rate swaps | Present value of the estimated future cash flows based on observable yield curves |

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's Risk Management framework. The Board of Directors have adopted an Enterprise Risk Management Policy framed by the Company, which identifies the risk and lays down the risk minimization procedures. The Management reviews the Risk management policies and systems on a regular basis to reflect changes in market conditions and the Company's activities, and the same is reported to the Board of Directors periodically. Further, the Company, in order to deal with the future risks, has in place various methods / processes which have been imbibed in its organizational structure and proper internal controls are in place to keep a check on lapses, and the same are been modified in accordance with the regular requirements.

The Audit Committee oversees how Management monitors compliance with the Company's Risk Management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by the internal auditors.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Further for domestic sales, the company segments the customers into Distributors and Others for credit monitoring.

The Company maintains security deposits for sales made to its distributors. For other trade receivables, the company individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the Company makes specific provisions against such trade receivables wherever required and monitors the same at periodic intervals.

The Company monitors each loans and advances given and makes any specific provision wherever required. The Company establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and loans and advances.

Derivatives

The derivatives are entered into with bank counterparties with good credit ratings.

Loans and Advances:

The Company held Loans and advances of ₹ 3,199.59 lakhs as on March 31 2018 (Previous year ₹ 3,164.08 lakhs). The loans and advances are in nature of rent deposit paid to landlords, bank deposits with maturity more than twelve months and others and are fully recoverable.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

As of 31st March, 2018 and 31st March, 2017 the Company had unutilized credit limits from banks of ₹ 8,209 lakhs and ₹ 12,819 lakhs respectively.

The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement.

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

Currency risk

The Company is exposed to currency risk on account of its borrowings and other payables in foreign currency. The functional currency of the Company is Indian Rupee. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the foreign Currency against the Indian Rupee at 31st March would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

| | 31st Mar | 31st March, 2018 | | ch, 2017 | |
|-------------------|----------------|---------------------------------------|--------|----------------|--|

| | 22.67 | (22.67) | 46.83 | (46.83) | |

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. The interest rate profile of the Company's interestbearing financial instruments as reported to the management of the Company is as follows.

| /∓ | : | | (h c) |
|----|---|-----|-------|
| 7) | m | lar | chs) |

| Total | 9,290.75 | 8,280.56 |

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

| (₹ | in | lakhs) |
|----|----|--------|
|----|----|--------|

| Particulars | Profit | Profit or (loss) | | |
|-----------------------------|-----------------|------------------|--|--|

| Variable-rate instruments | (92.91) | 92.91 | | |
| Cash flow sensitivity (net) | (92.91) | 92.91 | | |
| March 31, 2017 | | | | |
| Variable-rate instruments | (82.81) | 82.81 | | |
| Cash flow sensitivity (net) | (82.81) | 82.81 | | |

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

48 Capital Management

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using debt to equity ratio.

49 Employee Benefits

The Company contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The contributions to the Provident Fund and Family Pension Fund of certain employees are made to a Government administered Provident Fund and there are no further obligations beyond making such contribution.

The Company recognised ₹ 583.27 lakhs for year ended 31 March 2018 (Previous year ₹ 523.52 lakhs) provident fund contributions in the Statement of Profit and Loss.

The contributions payable to these plans by the Company are at rates specified in the rules of the schemes. (ii) **Defined Benefit Plan:**

Gratuity

The Company participates in the Employees Gratuity scheme, a funded defined benefit plan for qualifying employees. Gratuity is payable to all eligible employees on death or on separation / termination in terms of the provisions of the Payment of Gratuity Act, 1972.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31st March, 2018. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

D. Defined benefit obligations

i. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

| | 31st March, 2018 | 31st March, 2017 |
|--|---|---|
| Discount rate | 7.70%p.a. | 6.85%p.a. |
| Expected Rate of Return on Plan Assets | 7.70%p.a. | 6.85%p.a. |
| Salary escalation rate | 7.00%p.a. | 7.00%p.a. |
| Employee Turnover | 5.00%p.a. | 5.00%p.a. |
| Mortality rate | Indian Assured Lives Mortality (2006-08) Ult. | Indian Assured Lives Mortality (2006-08) Ult. |

Assumptions regarding future mortality have been based on published statistics and mortality tables.

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation as follows.

| | | | | (₹ in lakhs) |
|---|----------|----------|----------|--------------|
| | 31st Mar | ch, 2018 | 31st Mar | ch, 2017 |
| | Increase | Decrease | Increase | Decrease |
| Discount rate (1% movement) | 1,451.09 | 1,749.98 | 1,273.98 | 1,554.45 |
| Future salary growth (1% movement) | 1,749.49 | 1,449.04 | 1,552.70 | 1,273.03 |
| Rate of employee turnover (1% movement) | 1,592.41 | 1,585.62 | 1,401.23 | 1,404.54 |

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Expected future cash flows

The expected future cash flows in respect of gratuity as at 31st March, 2018 were as follows.

Expected contribution

The expected contributions for defined benefit plan for the next financial year will be in line with the contribution for the year ended March 31, 2018, i.e. ₹ 180 lakhs

| Expected future benefit payments | <u>(</u> ₹in lakhs) |
|----------------------------------|---------------------|
| 31st March, 2019 | 73.22 |
| 31st March, 2020 | 80.81 |
| 31st March, 2021 | 84.13 |
| 31st March, 2022 | 61.30 |
| Thereafter | 340.99 |

Compensated Absences:

The Compensated Absences is payable to all eligible employees for each day of accumulated leave on death or on resignation. Compensated Absences debited to Statement of Profit and Loss during the year amounts to ₹ 230.36 lakhs (Previous year ₹ 220.48 lakhs) and is included in Note 28 - 'Employee benefits expenses'. Accumulated non-current provision for leave encashment aggregates ₹ 536.65 lakhs (Previous year ₹ 512.47 lakhs) and current provision aggregates ₹ 314.98 lakhs (Previous year ₹ 282.13 lakhs).

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NILKAMAL LIMITED

Report on the Audit of Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Nilkamal Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its jointly controlled entities, which comprise the Consolidated Balance Sheet as at 31st March 2018, the Consolidated Statement of Profit and Loss, Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement, for the year then ended, including a summary of significant accounting policies and other explanatory information (together hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its jointly controlled entities and for preventing and detecting frauds and other irregularities: the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for assessing the ability of the Group and of its jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group and of its jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Group and its jointly controlled entities to cease to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 1 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Consolidated Auditor's Report

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and jointly controlled entities, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its jointly controlled entities as at 31st March 2018, and their consolidated profit (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

Other Matter

We did not audit the financial statements/financial information of four subsidiaries, whose financial statements reflect total assets of Rs.5,462.88 lakhs as at 31st March 2018, total revenues of Rs. 6,442.93 lakhs and net cash inflows amounting to Rs. 427.23 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. The consolidated Ind AS financial statements also include the Group's share of net profit of Rs. 289.98 lakhs for the year ended 31st March 2018, as considered in the consolidated Ind AS financial statements, in respect of one jointly controlled entity, whose financial statement/ financial information have not been audited by us. These financial statements/financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and jointly controlled entity and our report in terms of sub-section (3) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries and jointly controlled entity is based solely on the reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and jointly controlled entities, as noted in the 'other matter' paragraph, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.
 - d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Holding Company as on 31st March 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and jointly controlled entities incorporated in India, none of the directors of the Group companies and jointly controlled entities incorporated in India is disqualified as on 31st March 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiary companies and jointly controlled entities in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure A"

Nilkamal Limited

Consolidated Auditor's Report

- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and jointly controlled entities, as noted in the 'Other matter' paragraph:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and jointly controlled entities- Refer note 35a to the Consolidated Ind AS Financial Statements;
 - ii. The Group and its jointly controlled entities did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31st March 2018;
 - iii. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies and jointly controlled entities incorporated in India during the year ended 31st March 2018; and
 - iv. The disclosures in the consolidated Ind AS financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31st March 2018. However amounts as appearing in the audited consolidated Ind AS financial statements for the period ended 31st March 2017 have been disclosed.

Annexure A to Independent Auditor's Report of even date on the consolidated Ind AS financial statement of Nilkamal Limited – 31st March 2018

(Referred to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March 2018, we have audited the internal financial controls over financial reporting of Nilkamal Limited (hereinafter referred to as "the Holding Company") and its jointly controlled entities, which are Companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, and its jointly controlled entities which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Nilkamal Limited

Opinion

In our opinion, the Holding Company and its jointly controlled entities, which are companies incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to 1 jointly controlled entity which is company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India. Our opinion is not qualified in respect of this matter.

Nature and purpose of reserves

1) Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act.

2) General reserve

General reserve forms part of the retained earnings and is permitted to be distributed to shareholders as part of dividend.

3) Cash flow hedge reserve

For hedging Foreign Currency Exposure risk, the Group uses forward contact which is also designated as cash flow hedges. To the extent these hedges are effective; the change in fair value of the hedging instrument is recognized in the cash flow hedging reserve. Amount recognized in the cash flow hedging reserve is reclassified to profit or loss when the hedged item affects profit or loss.

4) Remeasurements of the net defined benefit Plans

Remeasurements of the net defined benefit Plans comprises actuarial gains and losses and return on plan assets (excluding interest income).

5) Foreign Currency Translation Reserve

The foreign currency translation reserve represents all exchange differences arising from translation of financial statements of foreign operations.

34 Significant accounting policies

a) Basis of preparation of consolidated Financial Statements:

The Consolidated Financial Statements comprise the financial statements of Nilkamal Limited ("the holding Company") and its subsidiaries ("the holding Company and its subsidiaries together referred as the Group") and the group's interest in joint ventures. Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the section 133 of the Companies Act 2013 ("the Act"), and read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015 and Companies (Indian Accounting Standards) Rules 2016. The financial statements were authorised for issue by the Holding Company's Board of Directors on 11th May 2018.

All the assets and liabilities have been classified as current or non current as per the Group's normal operating cycle and other criteria set out in Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalent, the Group has ascertained the operating cycle to be 12 months.

b) Principles of Consolidation:

The consolidated financial statements comprise the financial statements of Nilkamal Limited ("the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred as "the Group") and the group's interest in joint ventures.

Subsidiaries

Subsidiaries are all entities (including special purpose entities) that are controlled by the Company. Control exists when the Company is exposed to, or has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. The financial statements of the Company and its subsidiaries and jointly controlled entity have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances as mentioned in those policies.

Upon loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in the Consolidated Statement of Profit and Loss. If the Company retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee depending on the level of influence retained.

Joint ventures (equity accounted investees)

Joint arrangements are those arrangements over which the Company has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Investments in associates and jointly controlled entities are accounted for using the equity method (equity accounted investees) and are initially recognized at cost. The carrying value of the Company's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The Company does not consolidate entities where the non-controlling interest ("NCI") holders have certain significant participating rights that provide for effective involvement in significant decisions in the ordinary course of business of such entities. Investments in such entities are accounted by the equity method of accounting. When the Company's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to zero and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

Transactions eliminated on consolidation: Intra-Group balances and transactions, and any unrealized income and expenses arising from intra-Group transactions, are eliminated in full while preparing these consolidated financial statements. Unrealized gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Company's interest in the investee.

The financial statements of the subsidiaries and the jointly controlled entities used for the purpose of consolidation are drawn upto the same reporting date as that of the Holding Company, i.e. 31 March 2018. The Subsidiary Companies and Joint ventures considered in the consolidated financial statements are:

"Non-Controlling interest" represents the amount of equity attributable to Non-Controlling shareholders at the date on which investment in the subsidiary is made and its share of movements in the equity since the date the parent subsidiary relationship comes into existence.

* These companies are private companies limited by shares formed under section 8 of the Companies Act, 2013. No dividend can be proposed and paid to the shareholder by these companies. In the event of winding up or dissolution of these companies, after the satisfaction of all its debts and liabilities, any property whatsoever shall be given or transferred to some other institution(s) having object similar to the objects of these companies, to be determined by the members of these companies at or before the time of dissolution or in default thereof by the High Court. The carrying amount of the assets and liabilities included within the consolidated financial statements to which these restrictions apply is ₹ 295.55 lakhs, and ₹ 100.06 lakhs.

Functional and presentation currency

These financial statements are presented in Indian rupees in lakhs, which is the Holding Company's functional currency. All amounts have been rounded off to two decimal places to the nearest lakh, unless otherwise indicated.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.

Historical cost convention

The Consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain consolidated financial assets and liabilities (including derivative instrument) that are measured at fair value;
- defined benefit plans plan assets measured at fair value

c) Use of Estimates and Judgements:

The preparation of consolidated financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the consolidated balance sheet and consolidated statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

• Determination of the estimated useful lives of Property, plant and equipment

Useful lives of Property plant and equipment are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II for plant and machinery and dies and moulds, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

Recognition of deferred tax assets

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

Recognition and measurement of other provisions

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

• Discounting of long-term financial assets / liabilities

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities/assets which are required to subsequently be measured at amortised cost, interest is accrued using the effective interest method.

• Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether the arrangement is or contains a lease.

At inception or on reassessment of an arrangement that contains a lease, the Group separates payments and other consideration required by the arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset; subsequently, the liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the Group's incremental borrowing rate. And in case of operating lease, treat all payments under the arrangement as lease payments.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting. The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the Group as a whole.

• Fair value of financial instruments

Derivatives are carried at fair value. Derivatives includes foreign currency forward contracts and interest rate swaps. Fair value of foreign currency forward contracts are determined using the fair value reports provided by respective merchant bankers. Fair value of interest rate swaps are determined with respect to current market rate of interest.

Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).
- If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.
- The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

d) Standards issued but not yet effective

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Ministry of Corporate Affairs ("MCA"), on March 28, 2018, through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the new standard for revenue recognition and amended certain existing Ind AS which are effective for annual periods beginning on or after April 1st, 2018.

Ind AS 115- Revenue from Contract with Customers:

Ind AS 115 will supersede the existing revenue recognition standard 'Ind ASs 18 – Revenue'. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The Group is evaluating the requirements of the Ind As 115 and the effect on the Consolidated Financial Statements is being evaluated.

Ind AS 21- The effect of changes in Foreign exchange rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration.

The amendment will come into force from 1st April, 2018. The Group does not expect the effect of this on the financial statements to be material based on preliminary evaluation."

e) Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

- a) Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- c) The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in consolidated profit or loss.

Items such as spare parts, stand-by equipments and servicing that meets the definition of property, plant and equipment are capitalised at cost and depreciated over the useful life

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

f) Depreciation

- Depreciation on Property, plant and equipment is provided on the straight-line method over the useful lives of assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except for plant and machinery and Dies and moulds which is based on technical evaluation. Management believes that these useful lives best represent the period over which management expects to use these assets. Hence the useful life for plant and machinery of 10 years and for Dies and Moulds of 6 years for continuous running is different from the useful life as prescribed under Part C of Schedule II of the Companies Act 2013;
- Useful life of property plant and equipment are reviewed at each balance sheet date and adjusted prospectively, if appropriate
- Cost of leasehold land is amortised over the period of lease;
- Depreciation on addition to assets or on sale /discardment of assets, is calculated pro rata from the date of such addition or upto the date of such sale/discardment, as the case may be;
- Assets like mobile phones, telephone instruments, etc. are fully depreciated in the year of purchase / acquisition;

Individual assets except assets given on lease acquired for less than ₹15,000/- are depreciated entirely in the year of acquisition.

g) Intangible Fixed Assets

Intangible Fixed assets, which are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

h) Amortisation

Software (Intangible assets) are amortised over their estimated useful lives on a straight line basis but not exceeding the period of 36 months.

Useful life of Intangible assets are reviewed at each balance sheet date and adjusted prospectively, if appropriate

i) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and, interest rate swaps and currency options; and embedded derivatives in the host contract.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Cash Flow Hedges

The Group uses derivative financial instrument such as forward contracts and cross currency interest rate swaps to hedge its foreign currency risks and interest rate risks. Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the Statement of Profit and Loss, except for the effective portion of cash flow hedge, which is recognised in Other Comprehensive Income and accumulated in Cash Flow Hedge Reserve included in the Reserves and Surplus while any ineffective portion is recognised immediately in the Statement of Profit and Loss.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability.
- Cash flow hedges when hedging exposure to variability in cash flows that is either attributable to particular risk associated with a recognised asset or liability.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedge accounting is discontinued from the last testing date when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on such hedging instrument recognised in Cash Flow Hedge Reserve is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in Cash Flow Hedge Reserve is transferred to consolidated statement of Profit and Loss for the year.

Financial assets

Classification

The Group shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables. For more information on receivables, refer to Note 46.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily de recognised (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

Financial liabilities

Classification

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

j) Valuation of Inventories:

Inventories of Raw Materials, Packing Materials, Stores and Spares, Work-in Progress, Traded goods and Finished goods are valued 'at cost and net realisable value' whichever is lower. Cost comprises all cost of purchase, appropriate direct production overheads and other costs incurred in bringing the inventories to their present location and condition. The excise duty in respect of the closing inventory of finished goods is included as part of the finished goods. Cost formulae used is 'Weighted Average Cost'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Group. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of inventories are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

k) Employee Benefits:

All employee benefits payable within twelve months of rendering the service are recognised in the period in which the employee renders the related service.

Contribution to Defined Contribution Plans such as Provident Fund, Employees' State Insurance Corporation, etc., are charged to the consolidated Statement of Profit and Loss as incurred.

Defined Benefit Plans – The present value of the obligation under such plans, is determined based on an actuarial valuation by an independent actuary at the end of each year, using the Projected Unit Credit Method.. In the case of gratuity, which is funded, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

Remeasurement of net defined benefit liability, which comprises actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any excluding interest), are recognized immediately in other comprehensive income.

Other Long Term Employee Benefits

Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected

to be paid as a result of the unused entitlement as at the year end. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the consolidated Statement of Profit and Loss in the year in which they arise.

I) Foreign Exchange Transactions:

Transactions in foreign currencies are translated into the respective functional currencies of the Group at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated using the exchange rate at the date of the transactions.

Translation of financial statements of foreign entities

On consolidation, the assets and liabilities of foreign operations are translated into ₹ (Indian Rupees) at the exchange rate prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in Foreign Currency Translation Reserve. On disposal of a foreign operation, the component of Foreign Currency Translation Reserve relating to that particular foreign operation is reclassified to Consolidated Statement of Profit and Loss.

m) Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

n) Recognition of Income and Expenditure:

- i) Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when significant risks and rewards of ownership in the goods are transferred to the buyer. Revenues are recognized when collect ability of the resulting receivable is reasonably assured.
- ii) Income from Services is recognised on completion of service.
- iii) Revenue/Income and Cost/Expenditure are accounted on accrual as they are earned or incurred, except in case of significant uncertainties.
- iv) Benefit on account of entitlement to import duty-free raw materials under advance license is estimated and accounted in the year of export as an adjustment to raw material consumption, provided there is a reasonable degree of certainty with regard to its ultimate realisation.
- v) Liability for excise duty payable on stock in bonded warehouse at the year-end is provided for.
- vi) Dividend income and keyman insurance policy refund is recognised when the right to receive the income is established.
- vii) Interest income is recognised on an effective interest rate basis.
- viii) Product warranty expenses are determined / estimated and provided for on the basis of the past experience of the Group.

o) Leases

i. Lease payments

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

ii. Lease assets

Assets held by the Group under leases that transfer to the Group substantially all of the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to that asset.

Assets held under other leases are classified as operating leases and are not recognised in the Group's statement of financial position.

p) Impairment of non-financial assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the consolidated Statement of Profit and Loss, to the extent the amount was previously charged to the consolidated Statement of Profit and Loss. In case of revalued assets, such reversal is not recognised.

q) Cash and cash equivalents

Cash and cash equivalent in the consolidated balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

r) Taxation:

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if, the Group:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;

temporary differences related to investments in subsidiaries and associates to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

(₹ in lakhs)

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax asset / liabilities in respect of on temporary differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of temporary differences that originate during the tax holiday period but reverse after the tax holiday period are recognised.

s) Government grants

Grants received from the government are recognized at their fair value where there is reasonable assurance that the grant will be received and the Group will comply with the conditions.

Government grants related to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and netted off with the expense in the consolidated statement of profit and loss.

Government grants related to purchase of property plant and equipment are recognised as deferred income and are credited to profit or loss on a straight line basis over expected life of the related asset and presented within other income.

t) Provisions, Contingent Assets and Contingent Liabilities:

Provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost. A provision for onerous contracts is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

A contingent asset is not recognised but disclosed in the consolidated financial statements where an inflow of economic benefit is probable.

Note: The Excise and Service Tax, Sales Tax and Income Tax demands are being contested by the Group at various levels. The Group has been legally advised that it has a good case and the demands by the authorities are not tenable. Future cash flows in respect of these are determinable only on receipt of judgements / decisions pending with various forums/ authorities.

b) Commitments

Provision is estimated for expected warranty claim in respect of products sold during the year based on past experience regarding defective claim of products and cost of rectification or replacement. It is expected that most of this cost will be incurred over next 12 months which is as per warranty terms.

Other provisions are provisions in respect of probable claims, the outflow of which would depend on the cessation of the respective events.

B. Measurement of fair values

Valuation techniques and significant unobservable inputs

The following tables show the valuation techniques used in measuring Level 2 and Level 3 fair values, as well as the significant unobservable inputs used.

Financial instruments measured at fair value

| Туре | Valuation technique |
|----------------------------------|--|
| Fixed rates long term borrowings | The valuation model considers present value of expected payments discounted using an appropriate discounting rate. |
| Forward contracts | The fair value is determined using forward exchange rates at the reporting date. |
| Security Deposits | The valuation model considers present value of expected payments discounted using an appropriate discounting rate. |
| Interest rate swaps | Present value of the estimated future cash flows based on observable yield curves |

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's Risk Management Policy framework. The Board of Directors have adopted an Enterprise Risk Management Policy framed by the Company, which identifies the risk and lays down the risk minimisation procedures. The Magement reviews the Risk Management Policies and systems on a regular basis to reflect changes in market conditions and the Company's activities, and the same is reported to the Board of Directors periodically. Further, the Group, in order to deal with the future risks, has in place vrious methods / processes which have been imbibed in its organisational structure and proper internal controls are in place to keep a check on lapses, and the same are been modified in accordance with th regular requirements.

The audit committee oversees how management monitors compliance with the Company's Risk Management Policies and procedures, and reviews the adequacy of the Risk Management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal auditors.

ii. Credit risk

Credit risk is the risk of financial loss to the group if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the group's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The group's exposure to credit risk is influenced mainly by the individual characteristics of each customer in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the group grants credit terms in the normal course of business.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the group's standard payment and delivery terms and conditions are offered. Further for domestic sales, the group segments the customers into Distributors and Others for credit monitoring.

The group maintains security deposits for sales made to its distributor For other trade receivables, the company individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the group makes specific provisions against such trade receivables wherever required and monitors the same at periodic intervals.

The group monitors each loans and advances given and makes any specific provision wherever required.

The group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and loans and advances.

The gross inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to the financial liabilities which are not usually closed out before contractual maturity. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payable and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

Currency risk

The Group is exposed to currency risk on account of its borrowings and other payables in foreign currency. The functional currency of the Group is Indian Rupee (₹). The Group uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

The currency profile of financial assets and financial liabilities as at 31st March, 2018, 31st March, 2017 are as below: (₹ in lakhs)

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Foreign Currency against the Indian Rupee (₹) at 31st March would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

| | 31st Mar | ch, 2018 | 31st Mar | ch, 2017 |
|-------------------|---------------|-------------------------|----------|-----------|
| | Profit | or loss | Profit | or loss |
| Effect in INR | Strengthening | Strengthening Weakening | | Weakening |

Interest rate risk:

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. The interest rate profile of the Company's interestbearing financial instruments as reported to the management of the Company is as follows.

| | | (₹ in lakhs) |
|--------------------------|------------------|------------------|
| | 31st March, 2018 | 31st March, 2017 |
| Borrowings | | |
| Fixed rate borrowings | - | 14.83 |
| Variable rate borrowings | 9,316.61 | 8,280.56 |
| Total | 9,316.61 | 8,295.39 |

Fair value sensitivity analysis for fixed-rate instruments

The Group does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

The Group manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Under theses swaps, the Group agrees with other parties to exchange, the difference between fixed contract rates and floating rates interest amounts calculated by reference to the agreed notional principal amounts.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

| | | (< IN IAKIS) | | |
|-----------------------------|------------------|-----------------|--|--|
| | Profit or (loss) | | | |
| | 100 bp increase | 100 bp decrease | | |
| 31st March, 2018 | | | | |
| Variable-rate instruments | (93.17) | 93.17 | | |
| Cash flow sensitivity (net) | (93.17) | 93.17 | | |
| 31st March, 2017 | | | | |
| Variable-rate instruments | (82.81) | 82.81 | | |
| Cash flow sensitivity (net) | (82.81) | 82.81 | | |
| - | | | | |

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

47 Capital Management

For the purpose of the group's capital management, capital includes issued capital and other equity reserves. The primary objective of the group's Capital Management is to maximise shareholders value. The group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using Adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances

48. Employee Benefits

The Group contributes to the following post-employment defined benefit plans.

(i) Defined Contribution Plans:

The contributions to the Provident Fund and Family Pension Fund of certain employees are made to a Government administered Provident Fund and there are no further obligations beyond making such contribution.

The Group recognised ₹ 644.35 lakhs (Previous year: ₹ 598.67 lakhs) Provident fund contributions in the Statement of Profit and Loss.

The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

(ii) Defined Benefit Plan:

Gratuity

The Company participates in the Employees Gratuity scheme, a funded defined benefit plan for qualifying employees. Gratuity is payable to all eligible employees on death or on separation / termination in terms of the provisions of the respective applicable Gratuity rules.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31st March, 2018. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

D. Defined benefit obligations

Notes to the consolidated financial statements

i. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

| | 31st March, 2018 | 31st March, 2017 |
|--|-------------------|------------------|
| Discount rate | 7.70%-10.50% p.a. | 6.85%-11% p.a. |
| Expected Rate of Return on Plan Assets | 7.70%p.a. | 6.85%p.a. |
| Salary escalation rate | 7.00%-10 % p.a. | 7.00%-10 % p.a. |
| Employee Turnover | 5.00% -10 % p.a. | 5.00% -10 % p.a. |
| Mortality rate | Indian Assured | Indian Assured |
| | Lives Mortality | Lives Mortality |
| | (2006-08) Ult. | (2006-08) Ult. |

Assumptions regarding future mortality have been based on published statistics and mortality tables.

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation as follows.

| | 31st March, 2018 | | 31st March, 2017 | |
|------------------------------------|------------------|----------|------------------|----------|
| | Increase | Decrease | Increase | Decrease |
| Discount rate (1% movement) | 1,451.09 | 1,749.98 | 1,273.98 | 1,554.45 |
| Future salary growth (1% movement) | 1,749.49 | 1,449.04 | 1,552.70 | 1,273.03 |
| Rate of employee turnover (1% | 1,592.41 | 1,585.62 | 1,401.23 | 1,404.54 |
| movement) | | | | |

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Expected future cash flows

The expected future cash flows in respect of gratuity as at March 31, 2018 were as follows

Expected contribution

The expected contributions for defined benefit plan for the next financial year will be in line with the contribution for the year ended 31 March, 2018: ₹ 180 lakhs

Expected future benefit payments

| | ₹ In lakhs |
|------------------|------------|
| 31st March, 2019 | 73.22 |
| 31st March, 2020 | 80.81 |
| 31st March, 2021 | 84.13 |
| 31st March, 2022 | 61.30 |
| Thereafter | 340.99 |

Compensated Absences:

The Compensated Absences is payable to all eligible employees for each day of accumulated leave on death or on resignation. Compensated Absences debited to Statement of Profit and Loss during the year amounts to ₹ 230.36 lakhs (Previous Year ₹ 220.48 lakhs) and is included in Note 30 - 'Employee benefits expenses'. Accumulated non-current provision for leave encashment aggregates ₹ 536.65 lakhs (Previous Year ₹ 512.47 lakhs) and current provision aggregates ₹ 314.98 lakhs (Previous Year ₹ 282.13 lakhs).

49. Hedge accounting

The Group's risk management policy is to hedge its estimated foreign currency exposure in respect of highly probable forecast purchases and foreign currency borrowings. The Holding Company uses forward exchange contracts to hedge its currency risk and cross currency interest rate swap to hedge its interest rate and currency risk related to foreign currency borrowings. Such contracts are generally designated as cash flow hedges.

The Holding Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The Company assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting changes in the cash flows of the hedged item using the hypothetical derivative method.
