**ANNEXURE- VI****MANAGEMENT DISCUSSION AND ANALYSIS****Industry Structure and Developments**

Biaxially Oriented polypropylene (BOPP) films, a part of flexible packaging industry has emerged as one of the most popular high growth films in the world over a period of time. It plays a vital role in protecting and extending the shelf life of the end products ranging from biscuits, drugs, medicines, processed and semi-processed foods, vegetables, edible oils, etc. BOPP Films have become a preferred choice over various other substitutes available in the market like plastics, waxed papers and aluminum foils because of its characteristics of better shrinkage, stiffness, transparency, salability, recycleability etc. Global demand is increasing because of growth prospects in Asia particularly in China, India and Indonesia. India's economic growth coupled with rising middle class who looks for more sophisticated packed food and consumer goods, augur well for the growth of the industry.

Presently BOPP Films Industry is growing at a rate of 8-9% p.a. but with the increased demand of high-end packed products and with innovation of new applications, the BOPP Film industry is going to grow at a faster pace in the coming years. The revival of the Global economies will push the demand further.

Your Company established an ultra modern BOPP Film Project with a capacity of 30000 tpa, in the state of Madhya Pradesh. The Company is selling its products in domestic as well as export markets and has established its brand. Presently the company is exporting goods to United kingdom, United Arab Emirates, Bangladesh, Turkey, Oman, Tanzania, Nepal, Slovak Republic etc. The Company has performed reasonably well during the year under review. We assure you that continuous efforts will be made to further improve the performance of the Company.

**Opportunities and Threats**

The growing sale of packed food and rapid growth of retail market, has enabled the BOPP Films industry to register a reasonable growth. It has become a mature sector for various associates involved such as

processors, packaging manufactures, raw material suppliers and end -user industries which include personal/domestic care products, manufactures of food & beverages and pharmaceuticals etc. The rapid urbanization, increasing health consciousness, changing food habits of people, who prefer packed foods, the demand of BOPP Films is going to rise in domestic as well overseas markets. The changing demographic trends and growth in the organized retailing will further push the BOPP Film Industry. Moreover India's large population is receptive to use of healthy and packaged food which in turn will result into continuous demand for BOPP films.

Besides the yield advantage of BOPP Films over polyester films have also had its impact in driving the market to shift from polyester films to BOPP Films. The large converters have already started working in this direction. This will give further impetus to growth of flexible packaging and will translate into new business opportunities for Industry.

Though the flexible packaging segment is growing but the per capita consumption is still very low as compared to the developed countries like US and European Union. In spite of witnessing a reasonable growth the BOPP Films industry is not immune from normal business threats and challenges. We would like to inform you that company's product demand is sensitive to changes in industry capacity and output level, changes in consumer demand & global economic conditions. Because of the competitive plastic films business, company faces stiff competition both from international as well as domestic manufactures. The industry continues to be plagued by the problems of over capacity, short term over supply as well as raw material prices. Any significant change in the said factors will impact the performance of the Industry.

**Segment wise or product wise performance**

The disclosure requirements of Accounting Standard 17, issued by the Institute of Chartered Accountants of India are not applicable as the main business activities of the company fall under single segment.

**Future Outlook**

The future outlook of the BOPP Films industry seems to be reasonably good as the growth driver of the yester

years are still present in the Asian markets especially India. This will give a further push to the demand for the BOPP Films. With the coming of new segment of liquid packing which includes flexible pouches, tetra packs, coated products etc, the company finds new business opportunities to grow. Your company is looking at the future with optimism and shall be expanding its business activities into new areas, in due course of time so that it can make use of available opportunities and emerge as fully integrated flexible packaging company.

**Risk and Concerns**

The company's main source of income will be from selling of BOPP film, a substrate in packaging material in plain and metalized form to further converters. Any adverse impact on the operations of the packaging converters may impact the company's revenues and its profitability. Likewise the business economic cycle can also affect the fortune of the company in both ways.

Polypropylene is the main raw material for the manufacture of BOPP film. Any change in the raw material prices and finished product prices may affect the performance of the company in both ways.

**Internal Control Systems and their adequacy**

The company has adequate internal control systems and procedures which commensurate with the nature of its business and the size of its operations. The internal control system are adequate to ensure that all assets and resources of the company are safeguarded and protected against loss from unauthorized use or disposition and all transactions are authorized, recorded and reported correctly. The company also ensures compliance with all statutes and regulatory policies and guidelines.

Further the company is also having internal audit department which carries out audit work throughout the year. The main objective of such audit is to test the adequacy and effectiveness of internal control systems laid down by the Management and to suggest improvement in the systems.

Besides, an audit committee consisting of three non executive directors has been constituted. All the significant audit observation and follow up action thereon are taken care of by the audit committee. The audit committee met four times during the financial year

under review.

**Financial/operation performance**

#### **Inherent Limitations of Internal Financial Controls Over**

#### **Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **ANNEXURE-A TO THE AUDITORS' REPORT**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting of **Nahar Poly Films Limited** ("the Holding Company") and its associate company, as of that date.

#### **Management's Responsibility for Internal Financial Controls**

The Respective Board of Directors of the Holding Company and its associate company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Holding Company and its associate company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
