## 3M Posts First-Quarter Sales of \$7.4 Billion and GAAP EPS of \$2.05

First-Quarter Highlights:

- Company adopts new FASB accounting standard, which added \$0.10, net, to EPS
- Operating income margins up 1.3 percentage points year-on-year to 24.1 percent
- Organic local-currency sales growth declined 0.8 percent
- Increased free cash flow 20 percent year-on-year to $\$ 946$ million
- Increased first-quarter per share dividend by 8 percent, $58^{\text {th }}$ consecutive year of increases

3M (NYSE: MMM) today reported first-quarter earnings of $\$ 2.05$ per share, an increase of 10.8 percent versus the first quarter of 2015 . Sales declined 2.2 percent year-on-year to $\$ 7.4$ billion. Organic local-currency sales declined 0.8 percent while acquisitions, net of divestitures, added 1.6 percent to sales. Foreign currency translation reduced sales by 3.0 percent year-on-year.

Operating income was $\$ 1.8$ billion and operating income margins for the quarter were 24.1 percent, up 1.3 percentage points year-on-year. First-quarter net income was $\$ 1.3$ billion and the company converted 74 percent of net income to free cash flow.

On March 30, 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-09 for the accounting of employee share-based payments. 3 M elected to adopt this new guidance ahead of the mandatory 2017 effective date for all U.S. public companies. The adoption of this ASU resulted in a first-quarter tax benefit to earnings of $\$ 0.10$ per share, net of tax cost related to global cash optimization actions. Over the remainder of 2016, the company is planning to take further such actions, and as a result its full-year tax rate and earnings per share guidance remains unchanged.

3M paid $\$ 672$ million in cash dividends to shareholders and repurchased $\$ 1.2$ billion of its own shares during the quarter.

Organic local-currency sales growth was 6.2 percent in Health Care, 2.8 percent in Consumer and 2.4 percent in Safety and Graphics, with declines of 1.9 percent in Industrial and 11.7 percent in Electronics and Energy. On a geographic basis, organic local-currency sales growth was 4.2 percent in Latin America/Canada, 1.7 percent in EMEA (Europe, Middle East and Africa) and 0.3 percent in the U.S., with a decline of 5.6 percent in Asia Pacific.
"Our team continued to execute the 3M playbook and delivered another solid operational performance in the first quarter," said Inge G. Thulin, 3M's chairman, president and chief executive officer. "We expanded 3M's profitability, improved our cash flow generation, and increased margins over a full percentage point. At the same time, we continued to invest in the business - including opening a new, world-class laboratory in the United States - while returning cash to our shareholders."

For full-year 2016, 3M maintained its forecast for earnings per share in the range of $\$ 8.10$ to $\$ 8.45$ with organic local-currency sales growth of 1 to 3 percent. 3 M also continues to expect its tax rate to be in the range of 29.5 to 30.5 percent and free cash flow conversion in the range of 95 to 105 percent.

## Forward-Looking Statements

This news release contains forward-looking information about 3M's financial results and estimates and business prospects that involve substantial risks and uncertainties. You can identify these statements by the use of words such as "anticipate," "estimate," "expect," "aim," "project," "intend," "plan," "believe," "will," "should," "could," "target," "forecast" and other words and terms of similar meaning in connection with any discussion of future operating or financial performance or business plans or prospects. Among the factors that could cause actual results to differ materially are the following: (1) worldwide economic and capital markets conditions and other factors beyond the Company's control, including natural and other disasters or climate change affecting the operations of the Company or its customers and suppliers; (2) the Company's credit ratings and its cost of capital; (3) competitive conditions and customer preferences; (4) foreign currency exchange rates and fluctuations in those rates; (5) the timing and market acceptance of new product offerings; (6) the availability and cost of purchased components, compounds, raw materials and energy (including oil and natural gas and their derivatives) due to shortages, increased demand or supply interruptions (including those caused by natural and other disasters and other events); (7) the impact of acquisitions, strategic alliances, divestitures, and other unusual events resulting from portfolio management actions and other evolving business strategies, and possible
organizational restructuring; (8) generating fewer productivity improvements than estimated; (9) unanticipated problems or delays with the phased
implementation of a global enterprise resource planning (ERP) system, or security breaches and other disruptions to the Company's information technology infrastructure; (10) financial market risks that may affect the Company's funding obligations under defined benefit pension and postretirement plans; and (11) legal proceedings, including significant developments that could occur in the legal and regulatory proceedings described in the Company's Annual Report on Form 10-K for the year ended Dec. 31, 2015. Changes in such assumptions or factors could produce significantly different results. A further description of these factors is located in the Annual Report under "Cautionary Note Concerning Factors That May Affect Future Results" and "Risk Factors" in Part I, Items 1 and 1A. The information contained in this news release is as of the date indicated. The Company assumes no obligation to update any forward-looking statements contained in this news release as a result of new information or future events or developments.

| Free Cash Flow | 2016 |  | 2015 |
| Net cash provided by operating activities | \$ 1,260 | \$ | 1,080 |
| Purchases of property, plant and equipment | (314) |  | (291) |
| Free Cash Flow (b) | \$ 946 | \$ | 789 |
| Free Cash Flow Conversion (b) | 74 |  | 66 \% |

(b) Free cash flow and free cash flow conversion are not defined under U.S. generally accepted accounting principles (GAAP). Therefore, they should not be
considered a substitute for income or cash flow data prepared in accordance with U.S. GAAP and may not be comparable to similarly titled measures used by other companies. The Company defines free cash flow as net cash provided by operating activities less purchases of property, plant and equipment. It should not be inferred that the entire free cash flow amount is available for discretionary expenditures. The Company defines free cash flow conversion as free cash flow divided by net income attributable to 3 M . The Company believes free cash flow and free cash flow conversion are useful measures of performance and uses these measures as an indication of the strength of the company and its ability to generate cash.

| Net Debt | $\begin{array}{cc} \text { March 31, December 31, March 31, } \\ 2016 & 2015 \\ 2015 \end{array}$ |  |  |

| Net Debt (c) | \$ 9,611 \$ | 8,872 \$ | 3,744 |

(c) The Company defines net debt as total debt less the total of cash, cash equivalents and current and long-term marketable securities. 3M considers net debt and its components to be an important indicator of liquidity and a guiding measure of capital structure strategy. Net debt is not defined under U.S. GAAP and may not be computed the same as similarly titled measures used by other companies.

| Working Capital Index | March 31, December 31, March 31, |

| Net Working Capital Turns (d) | 2016 |
| 2015 |  |
| 2015 |  |
| 2015 |  |

(d) The Company uses various working capital measures that place emphasis and focus on certain working capital assets and liabilities. 3M's net working capital index is defined as quarterly net sales multiplied by four, divided by ending net accounts receivable plus inventory less accounts payable. This measure is not recognized under U.S. GAAP and may not be comparable to similarly titled measures used by other companies.

Effective in the first quarter of 2016, 3M made a product line reporting change involving two of its business segments in its continuing effort to improve the alignment of its businesses around markets and customers.

The change between business segments was as follows:

- Elements of the electronic bonding product lines were previously separately reflected in the Electronics Materials Solutions Division (Electronics and Energy business segment) and the Industrial Adhesives and Tapes Division (Industrial business segment). Effective in the first quarter of 2016, certain sales and operating income results for these electronic bonding product lines in aggregate were equally divided between the Electronics and Energy business segment and Industrial business segment. This change resulted in a decrease in net sales for total year 2015 of $\$ 33$ million in the Industrial business segment offset by a corresponding increase in the Electronics and Energy business segment.

The financial information presented herein reflects the impact of the preceding product line reporting change between business segments for all periods presented. Refer to 3M's Current Report on Form 8-K furnished on March 15, 2016, for additional supplemental unaudited historical business segment net sales and operating income information.
