

FOR A LEAP FORWARD

JM Financial Limited
Annual Report 2013-14

A Rubik's Cube is an appropriate tool for problem solving. The search for the perfect orientation requires one to understand the different ways it can move. There is one correct solution, amid a multitude of combinations and paths. Focus, commitment and persistence are required for the effort.

At JM Financial, we use the same persistent and innovative problem-solving approach to create long-term value for our clients and the wider stakeholder community.

India is poised to move forward on the path of recovery. Optimism and ambition for growth is expected to fuel investment growth. We, being one of the leading players in the financial services landscape, are ready to take a leap forward to leverage opportunities coming our way.

Our dynamism will position us well to take a leap forward and create more value for our clients, investors, employees and other stakeholders in the coming years.

Our Core Values

Client focus

We always put the interest of our clients before our own. Understanding our client needs, seeking new opportunities for them, addressing them and delivering unique solutions as per their expectations is imperative to us. The success of our clients is the biggest reward for us.

Teamwork

We believe extensive teamwork is what makes it possible for us to work together towards a common goal. We value and respect each individual's commitment to group effort.

Implementation

Our expertise, experience and continuous focus on the quality of execution ensure effective implementation of our strategies.

Integrity

Integrity is fundamental to our business. We adhere to moral and ethical principles in everything we do as professionals, colleagues and corporate citizens. Our reputation based on our high standards of integrity is invaluable.

Innovation

We understand our clients' needs and develop solutions for the most complex or the simplest financial transactions, whether for individuals or institutions. Creativity and innovation are driving factors in everything we do. Therefore, we encourage new ideas that help us address unique opportunities.

Partnership

Our relationship with all our stakeholders reflects our spirit of partnership. Clients see us as trusted advisors, shareholders see us as partners and employees see us as family. We respect, trust and support all our stakeholders.

Performance

We believe in the development of our human resource and continuously hone our skills by setting higher targets of performance for ourselves. We strive to attract, develop and retain the best talent in the industry and also ensure they get their well-deserved rewards.

Our Clients Speak

Mr. Vinay Tanna

Corporate Finance M&A Director | DIAGEO

On behalf of the entire deal team at Diageo, I would like to take this opportunity to sincerely thank JM Financial team for their incredible support and advise throughout this landmark transaction. JM Financial offered us a perfect blend of necessary local expertise alongwith international standards of execution and thereby ensuring smooth consummation of a truly multi-faceted and highly complex transaction. We thank JM Financial for playing an integral role in ensuring success of this important transaction and we look forward to work together on matters of mutual interest in future.

Mr. Timothy Bowe

Chief Executive Officer, Foliage, Inc.

We worked with the JM Financial team in Singapore for the strategic sale of Foliage Inc. It was a great experience interacting with the dedicated team of senior professionals, led by Prakash Chellam from Singapore, that they had formed to work on the transaction. We were impressed with their deep understanding of the technology domain and their ability to reach international buyers. The efforts of Prakash and his team made the transaction happen. We wish the firm much success in its endeavors.

Mr. Ramesh Kumar Jain

Chairman cum Managing Director, Pasupati Spinning & Weaving Mills Limited

Besides being a strong brand to be associated with, our experience with JM Financial ARC has been memorable and rewarding. The personal, specialised and dedicated handling of the restructuring exercise by JM Financial ARC has at all times benefitted us in reviving the state of affairs of our Company by restructuring the debt to a sustainable level and guidance for the BIFR approval including conversion of debt into equity. JM Financial's continuous efforts have timely turned around the non-performing image of our Company with re-listing of our equity shares on the Stock Exchange, in which JM Financial ARC also has a significant stake.

Mr. CK Ranganathan

Founder Chairman, Cavinkare

JM Financial has helped us at a critical juncture in our growth story. JM Financial is a consummate corporate match-maker who got the best of the investors across the table who understood the FMCG business and were capable of adding value to the company apart from just infusing capital. Right from the Information Memorandum phase the JM Financial team clearly understood the innovation DNA of Cavinkare, provided honest and objective feedback about the strengths and weaknesses of the company, helped us to articulate a compelling story for the investors and evaluate various investor term sheets. Needless to say we at Cavinkare are thoroughly satisfied with the professional approach of JM Financial.

Mr. K N Prithviraj

Administrator of the Specified Undertaking of the Unit Trust of India

We are extremely happy that with JM Financial's efforts, SUUTI has been able to sell part of its holding of Axis Bank shares through bulk trade. We thank the JM Financial team for their efforts in this regard.

Mr. Y. Kiran

Associate Director, Dr Reddys Laboratories Ltd

Our interaction with the Corporate Wealth team has been long-standing and fruitful over the years. Appreciate their proactive approach and value-add.

Mr. Sanjay Chhabria

Managing Director, Wadhwa Developers

It has been a pleasure to work with JM Financial, an institution which believes in building relationships and maintaining them. The institution clearly understands the industry and the developer's needs which makes it delightful to work with them.

Mr. Vinod Kumar

Managing Director, Metallurgical Products (India) Private Limited

I consider it my pleasure to put on record the professional approach adopted by your co-directors and vice presidents. Since your finance team also has technical educational background, it was extremely easy for us to relate to them and discuss in depth our project and the scope of scaling up the same. Although our present business relation has come to an end, we shall be contacting you as and when we are looking for additional finance and advice in related matters.

Item no. 9

Mr. Nimesh Kampani has been, and is, the Chairperson of the Company as well as its Managing Director.

Section 203 of the Companies Act, 2013 ('the Act'), which came into force from April 1, 2014, provides that unless the Articles of Association of the Company provide otherwise, an individual shall not after April 1, 2014 be appointed/reappointed as Chairperson of the Company as well as its Managing Director or Chief Executive Officer at the same time.

The existing Articles of Association of the Company do not provide that the Chairperson of the Company can also be its Managing

Director or Chief Executive Officer at the same time, as there was no such requirement under the Companies Act, 1956.

Having regard to the provisions of the newly enacted Section 203, it is proposed therefore to alter the Articles of Association to insert a new Article 143A after the present Article 143, providing for the Chairperson of the Company to be also appointed, and to act as, the Managing Director or Chief Executive Officer of the Company at the same time. The proposed new Article 143A has been set out in extenso in the text of the Special Resolution at item no. 9 of the Notice.

The alteration of the existing Articles of Association in the manner provided in the Special Resolution at item no. 9 of the Notice would require to be approved by a Special Resolution of the members in general meeting in terms of Section 14 of the Act. Hence, the Special Resolution.

A copy of the Company's Articles of Association will be available for inspection at the registered office of the Company between 2.00 p.m. and 4.00 p.m. on any working day (Monday to Friday), up to the date of the Annual General Meeting.

The Board of Directors commends passing of the Special Resolution proposed at item no. 9 of the Notice.

DIVIDEND

The Board of Directors at its meeting held on January 29, 2014 had declared an interim dividend of ₹0.45 per equity share of ₹1/- each, which was paid to the members on February 14, 2014. Your Directors are now pleased to recommend a final dividend of ₹0.55 per share for the financial year 2013-14. With this recommendation, the total dividend for the financial year 2013-14 works out to ₹1.00 per share (Previous year ₹ 0.90 per share). The total outgo on account of interim and final dividend would be ₹75.60 Crore for the financial year 2013-14 as against ₹67.77 Crore in the previous year. The total amount of dividend distribution tax, on a consolidated basis, is ₹13.58 Crore as against ₹15.94 Crore in the previous year.

The final dividend, if declared at the ensuing Annual General Meeting, will be paid on and from July 5, 2014 to those members whose names appear in the Register of Members at the close of the business hours on June 26, 2014. In respect of shares held in dematerialised form, dividend will be credited to the bank account of the members as per the data furnished by the Depositories as at the close of business hours on June 26, 2014.

FINANCIAL PERFORMANCE

Consolidated

The consolidated turnover of JM Financial Group stood at ₹1,006.67 Crore for the financial year ended March 31, 2014 as against ₹1,042.23 Crore for the previous year. The group made a net profit of ₹209.53 Crore for the year ended March 31, 2014 as compared to the net profit of ₹182.92 Crore in the previous year. Despite a lower consolidated turnover during the current year as compared to the previous year, the consolidated net profit was higher indicating improved earning margin.

The consolidated financials reflect the cumulative performances of various businesses of JM Financial Group that are housed in various subsidiaries and associates. Detailed discussion about these businesses is contained in the Management Discussion and Analysis section forming part of this report.

Standalone

Being a Core Investment Company, most of our revenue is in nature of income on investments.

The turnover of the Company on a standalone basis stood at ₹87.16 Crore for the year ended March 31, 2014 as against

₹56.19 crore in the previous year. The Company made a net profit of ₹71.05 Crore for the year ended March 31, 2014 as compared to the net profit of Rs. 44.81 Crore in the previous year.

SHARE CAPITAL

Issue of shares arising out of Employee Stock Option Scheme

Management Discussion and Analysis

GLOBAL ECONOMIC CONDITIONS – RESURGENCE WITH CONTINUING DOWNSIDE RISKS

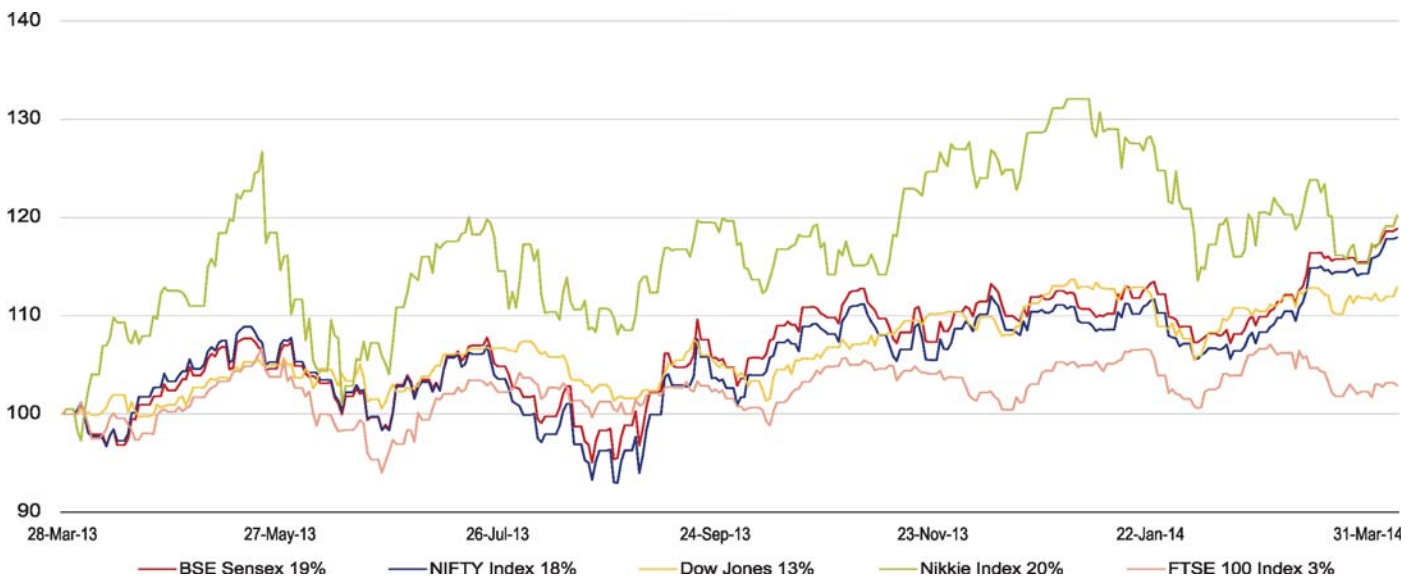

Global growth was subdued in the first half of FY 2013-14. The sluggishness was driven to a large extent by counterbalancing of improvement in some advanced economies, especially the US and Japan with appreciably weaker domestic demand and slower growth in several key emerging market economies, including China and India as well as by a more protracted recession in the euro area. New risks to global recovery had also arisen from fiscal discord in the US and uncertainties arising from expectations related to withdrawal from unconventional monetary easing by advanced economies.

The global activity broadly strengthened during the second half of FY 2013-14 largely on account of recovery in the advanced economies. Economic expansion in the US was gaining firmer footing and would further aid recovery in global activity and trade. However, activity in many emerging market economies disappointed in a less favorable external financial environment, although they continued to contribute more than two-thirds of global growth. Their output growth is expected to be lifted by stronger exports to advanced economies and currency depreciation. However, tightening monetary policy and financial conditions in the event of faster than anticipated withdrawal of monetary accommodation by advanced economies could pose a risk for emerging markets. There are risks to activity from lower-

than-expected inflation in advanced economies and geo-political risks. Overall, the balance of risks, while improved, remains on the downside.

The global inflation remains benign with stagnant labour markets and stable commodity prices. However, upside risks to global crude oil prices remain from rising geo-political uncertainties in oil producing regions. Inflation has continued to be low in advanced economies as well as large emerging markets aided by high unemployment and large spare capacities. In the emerging markets the inflation remained high, though tightening of monetary policy and weakening output are expected to help generate disinflationary momentum. The divergent trends in inflation between advanced economies and emerging markets pose an added risk to global growth.

The International Monetary Fund (IMF) in its World Economic Outlook has projected the global growth to strengthen from 3.00% in 2013 to 3.10% in 2014 and 3.90% in 2015. In advanced economies, growth is expected to increase to about 2.25% in 2014-15, an improvement of about 1.00% compared with 2013. Key drivers are a reduction in fiscal tightening, except in Japan, and still highly accommodative monetary conditions. Growth is expected to be strongest in the United States at about 2.75%. Growth is projected to be positive but varied in the euro area: stronger in the core, but weaker in countries with high debt (both private and public) and financial fragmentation, which will both weigh on

domestic demand. In emerging market and developing economies, growth is projected to pick up gradually from 4.70% in 2013 to about 5.00% in 2014 and 5.25% in 2015. Growth will be helped by stronger external demand from advanced economies, but tighter financial conditions will dampen domestic demand growth. The global recovery is still fragile despite improved prospects and significant downside risks remain.

Stock markets of advanced nations continued to perform remarkably well in FY 2013-14. The Dow Jones Industrial Average closed the year at 16,546 after touching a high of 16,577 and a low of 14,537 during FY 2013-14, up 13% YoY. Japan's Nikkei 225 rose 20% YoY to close at 14,827 after touching a high of 16,291 and a low of 12,003 during FY 2013-14. UK's FTSE 100 touched a high of 6,866 and a low of 6,029 during FY 2013-14 Index and closed at 6,597 a rise of 3% YoY. Back in India, the BSE Sensex was up 19% YoY after touching an all time high of 22,386 and a low of 17,906 during FY 2013-14. The Nifty also touched an all time high of 6,704 and dropped to low of 5,285 during FY 2013-14, closing at 6,704 up 18% YoY. The comparative movements of the above indices is given on previous page.

INDIAN ECONOMY

India's economic growth rate in the FY 2013-14 is estimated at 4.9%, a faster pace than in the previous year (4.5% in FY 2012-13), mainly on improved performance in the agriculture and allied sectors. The latest estimate of 4.9% for FY 2013-14 implies that the pace of economic expansion improved in the second half, given that GDP grew 4.6% in the April-September 2013 period. However, this growth is significantly lower in comparison to the decade average of 7.6% during FY 2004-05 to FY 2013-14.

As per the Advance Estimates for FY 2013-14, the Central Statistical Office (CSO) has projected a growth rate of 4.6% in agriculture and allied sectors, up from 1.4% a year earlier. Manufacturing, however, is expected to register a contraction of 0.2% in FY 2013-14 compared with growth of 1.1% in the previous year. According to the advance estimates, the services sector, including finance, insurance, real estate and business services sectors, is likely to grow 11.2% this year compared with 10.9% in FY 2012-13. Mining and quarrying is likely to contract 1.9%, compared with a 2.2% decline in production a year ago. Growth in construction is likely to improve to 1.7% from 1.1% in FY 2012-13. According to the CSO's advance estimates, growth in electricity, gas and water production is likely to improve to 6% in FY 2013-14 from 2.3% in FY 2012-13. The trade, hotel, transport and

communication sectors are projected to grow by 3.5% as against 5.1% in FY 2012-13. Community social and personal services growth would be better at 7.4% compared with 5.3% in FY 2012-13.

Fiscal balances further improved with Government's fiscal deficit likely to fall to 4.6% of GDP in FY 2013-14 from 5.2% of GDP in FY 2012-13, this was marginally lower than the budgeted 4.8%. Fiscal deficit is projected to be at 4.1% of the GDP for the FY 2014-15. However, it is important to note that fiscal consolidation as envisaged is subject to risks; especially with respect to lower tax revenues if the economy does not grow on expected lines.

In response to the adjustment of rupee exchange rate, disincentivising on gold imports and improvement in global trade India's Current Account Deficit (CAD) at US\$ 128 billion during April - February FY 2013-14 was 29% lower than that of US\$ 180 billion during the same period in FY 2012-13. The CAD - GDP ratio in Q3 of FY 2013-14 narrowed 0.9% from 6.5% in Q3 of FY 2012-13. CAD in FY 2013-14 is expected to be around 2% of GDP. The narrowing of CAD in FY 2013-14 is due to higher exports as well as moderation in imports. The exchange rate was relatively volatile during FY 2013-14 averaging Rs. 60.50 per US\$ after touching an all-time low of Rs 68.36 per US\$ on August 28, 2013. Foreign exchange reserves were US\$ 303.67 billion at the end of March 2014.

While the global environment remains challenging, policy action in India has rebuilt buffers to cushion it against possible spillovers from global economy. A moderate paced recovery is likely to shape in FY 2014-15 with support from rural demand, a pick-up in exports and some turnaround in investment demand. Growth will also depend on the outcome of the general elections and the willingness of the next government at the centre to follow the reforms agenda which is essential both for a revival of the investment cycle and financing of our high deficits.

INFLATION

The inflation indices showed a divergent trend during the FY 2013-14. The Wholesale Price Index (WPI) moderated over the course of the year while the Consumer Price Inflation (CPI) continued to remain stubbornly high during the first half of FY 2013-14, mainly due to high food inflation and upward revisions in fuel prices. Risks also arose from high wage growth and rising costs of transport,

Management Discussion and Analysis (contd.)

education and health services. Inflation declined significantly from December 2013 onwards, both in terms of CPI and WPI, driven by falling food prices which had firmed up during April-November 2013. Despite moderation, CPI continued to remain high near 10% with inflation excluding food and fuel components also remaining persistent at 8%. Non-food manufactured products WPI remained subdued due to output gap, though it increased in the latter half of FY 2013-14 due to cost push pressures. The annual rate of inflation, based on monthly WPI, stood at 5.70% (provisional) for the month of March 2014 over March 2013. The provisional annual inflation rate based on CPI for March 2014 was 8.31% as compared to 10.39% in March 2013.

MONETARY CONDITIONS

The deployment of credit to industries moderated in FY 2013-14, even as credit to agriculture and allied activities, services and personal loans picked up. There was marked easing in liquidity conditions in Q1 of FY 2013-14, which broadly remained in line with policy objectives. Broad money (M3) growth remained in line with the indicative trajectory. The easing course of monetary policy was disrupted by 'tapering' fears in May 2013 that caused capital outflows and exchange rate pressures amid unsustainable CAD, as also renewed inflationary pressures on the back of the rupee depreciation and a vegetable price shock. The policy was recalibrated and availability and cost of rupee liquidity was tightened in July 2013, with a view to restoring stability to the foreign exchange market. The Reserve Bank resorted to exceptional policy measures to maintain liquidity conditions such that volatility in the forex market is contained. The short-term interest rates were raised by increasing the Marginal Standing Facility (MSF) rate by 200 bps and curtailing liquidity available under the Liquidity Adjustment Facility (LAF) since July 2013. However, to facilitate adequate credit to productive sectors, significant primary liquidity injection was provided via LAF, MSF, OMOs and standing facilities. As orderly conditions were restored in the currency market by September 2013, the Reserve Bank quickly moved to normalise the exceptional liquidity and monetary measures by lowering the MSF rate by 150 bps in three steps. However, with a view to containing inflation that was once again rising, the policy repo rate was hiked by 75 bps in three steps. The Reserve Bank has maintained a tight monetary policy stance but has desisted from stiff tightening keeping in mind the weak state of economy. It has been evolving its policy action with rapidly changing financial and macroeconomic conditions.

As on March 31, 2014, CRR was at 4%, SLR at 23%, repo rate at 8%, reverse repo at 7% and MSF/bank rate at 9%.

CAPITAL MARKETS

SECONDARY EQUITY MARKET

Indian equity markets, in line with global trends, were affected by the expectation of market participants in May 2013 regarding the 'tapering' of the monthly bond purchase programme of US. However, with the US Federal Reserve deciding to wait for more evidence on the progress to be sustainable before adjusting its bond buying programme and a slew of investor-friendly measures taken by RBI and the government, the investors' sentiment have got a fillip. As a result, Indian markets have emerged as one of the better performing markets in the world. The BSE Sensex was up 19% YoY after touching an all time high of 22,386 and a low of 17,906 during FY 2013-14. The Nifty also touched an all time high of 6,704 and dropped to low of 5,285 during FY 2013-14, closing at 6,704 up 18% YoY. The surge in the markets can be attributed to improved liquidity in the last quarter and the confidence and the strength in the market on the hope that a stable government will be formed at the Centre.

During FY 2013-14, Foreign Institutional Investors invested ₹79,709 Crore (₹1,40,033 Crore in FY 2012-13) in the Indian markets while selling debt instruments worth ₹28,060 Crore (invested ₹28,334 Crore in FY 2012-13), down by 70% from ₹1,68,367 Crore (₹1,40,033 Crore in equity and ₹28,334 Crore in debt) in FY 2012-13. Most of the FII investments came in the last quarter of FY 2013-14.

The total market capitalisation of the companies listed on BSE Limited (BSE) and National Stock Exchange of India Limited (NSE) as on March 31, 2014, stood at ₹74,15,296 Crore and ₹72,77,720 Crore respectively as compared to ₹63,87,887 Crore and ₹62,39,035 Crore as on March 31, 2013. The average daily turnover during FY 2013-14 on the cash segment of BSE marginally dropped to ₹2,078 Crore as compared to ₹2,195 Crore during previous year and that of NSE rose to ₹11,189 Crore compared to ₹10,833 Crore during FY 2012-13. The volumes on the derivatives segment increased in FY 2013-14 compared to the previous year. On NSE the average daily turnover increased to ₹1,52,237 Crore during FY 2013-14 as compared to ₹1,26,639 Crore during FY 2012-13; the volumes of derivatives segment on BSE increased from ₹28,769 Crore in FY 2012-13 to ₹36,731 Crore in FY 2013-14.

Total PE exits decreased to ₹16,429 Crore (79 deals) in FY 2013-

ASSET RECONSTRUCTION

Asset quality continues to be a major concern for Scheduled Commercial Banks (SCBs). The Gross NPA ratio of SCBs increased to 4.20% of the total advances as at end September 2013 from 3.40% of March 2013. The restructured standard advances also increased to 6.00% of total advances as at end September 2013 from 5.80% of March 2013. Overall the stressed advances rose significantly to 10.20% of total advances as at end September 2013 from 9.20% of March 2013. To control the deteriorating asset quality in the banking system, the Reserve Bank of India implemented several developmental measures during FY 2013-14 including improvement in the system's ability to deal with corporate

distress and financial institution distress by strengthening financial restructuring as well as debt recovery process.

The sales and research teams have received very good client reviews and we rank among the top ten brokers with many domestic mutual funds and insurance companies.

During the year, we hosted a number of investor meets, road shows and conferences including:

- Conference in Singapore in August 2013, attended by 81 investors and 21 corporates.
- The flagship India conference, hosted in Mumbai in November 2013 with participation of 71 corporates and 286 investors.
- Conference in New York in March 2014, attended by 50 investors and 15 corporates.

Our **Investment Advisory and Distribution** business focuses on research based investment advisory, broking and distribution catering to corporates, ultra high net-worth and high net-worth investors, banks and institutions. We offer a wide range of products and services to our clients ranging from broking services for equity, derivatives, fixed income products, portfolio management services and distribution of financial products including public issues, mutual funds, alternative assets, corporate bonds and fixed deposits products. We operate in open architecture model for

Management Discussion and Analysis (contd.)

distribution and are among the largest distributors of third party products.

Our investment advisory business has three main divisions: **Wealth Management, Equity Brokerage and Independent Financial Distribution.**

The Wealth Management Group caters to ultra high net-worth and high net-worth investors, corporates, banks and institutions. We follow the asset allocation model and provide a complete range of financial and custody solutions to clients including family office, advisory and execution services.

The Equity Brokerage Group offers research based equity advisory and trading services to high net-worth individuals and corporate investors. Retail clients are serviced through a network of branches/franchisees. The Investment Advisory business has its presence in 116 top cities in India through its branches and franchisee network. The combination of branches and franchisee has helped us in achieving a de-risked business model and a widespread presence.

Independent Financial Distribution (IFD) division has a network of over 8,500 active Distributors who distribute various financial products such as mutual funds, fixed deposits, IPOs, bonds etc. In the public issues of equity and fixed income securities, we have mobilised around ₹3,700 Crore during the year with a market share of 6.38% in the non-institutional category (i.e. Retail and HNI) and are among the top 3 players in terms of mobilisation in equity public issues. We also mobilised approx ₹3,400 Crore in various company fixed deposits and fixed income products during the year and have established a clear leadership position in this segment.

In the Commodity Broking business our focus is to provide research based advice to clients on bullion, base metals, crude and other commodities. The commodity business was performing well at the start of the year but during the second quarter of FY 2013-14, we consciously reduced our commodity business due to debacle of National Spot Exchange Limited (NSEL). NSEL suspended its trading and settlement operations from July 31, 2013. We had an outstanding amount to be recovered from NSEL of ₹15.43 Crore on account of arbitrage book as on March 31, 2014. Our clients had also invested in NSEL and had an outstanding recoverable amount of ₹63.88 Crore from NSEL as on the said date. We have filed a criminal complaint against NSEL and other entities with the Economic Offences Wing (EOW). The NSEL incident and precautionary actions initiated by us expectedly resulted in decline

of the trading volumes on both MCX and NCDEX during the year, which has also adversely impacted our revenues and profitability. We have written off an amount of ₹15.43 Crore receivable from NSEL on account of our own arbitrage book.

INTERNATIONAL BUSINESS

We have established subsidiaries/step down subsidiaries in Mauritius, Singapore, Indonesia and USA to cater and service overseas clients/investors and carry out permitted business activities in these jurisdictions.

JM Financial Singapore Pte Ltd. (JM Financial Singapore) received the Capital Markets Services (CMS) Licence from the Monetary Authority of Singapore (MAS) in January 2014. During the year, JM Financial Singapore successfully completed the transaction of advising US based Foliage Inc. on its sale to French company Altran SA. JM Financial Singapore has achieved break even in the very second year of its operations.

FUND BASED ACTIVITIES

The **Fixed Income** business continued its thrust on lending against mortgages and wholesale securities backed loans to select corporates. The loan book of fixed income business increased from ₹1,624 Crore at the end of FY 2012-13 to ₹1,943 Crore at the end of FY 2013-14. The treasury book stood at ₹534 Crore at the end of the financial year. During the year, we transacted in Government securities and Non SLR securities.

The **Securities Backed Financing** activities cover IPO Funding, Loan against Shares/Margin Funding, ESOP Financing, Loan against Commodities and Sponsor Financing. During the year, we also started offering Loan against Property. The level of activities in the IPO Funding was subdued during the year, except in respect of few IPOs. Fresh financing of ₹1,230 Crore was done during the year in equity/debt issuances as compared to ₹1,432 Crore in the previous year.

Our NBFC has been very selective and has remained focused on the asset quality and net interest margins (NIM). Our NIM on lending book has increased during the year.

We have maintained focus on credit quality and interest margins from our lending portfolio. CRISIL re-affirmed the "CRISIL A1+" (highest grading) rating for the short-term debt program which indicates a very strong degree of safety with regard to timely payment of financial obligations. CRISIL also re-affirmed "CRISIL

AA- / Stable” rating for long term NCD issuance and bank loan rating, which indicates high degree of safety with regard to timely payment of interest and principal on the instrument. Both instruments are considered to carry very low credit risk.

We will expand our focus on lending business with the imminent investment of upto USD 100 mn out of the funds to be raised and managed by Mr. Vikram Pandit and Mr. Hari Aiyar.

The **Asset Reconstruction** business, engaged in acquisition of non-performing and distressed assets (NPAs) from Banks and Financial Institutions (FIs) completed its five full years of operations. The strategy of acquisition of corporate and retail portfolios and focussed resolution/ recovery was continued during the FY 2013-14.

The asset reconstruction industry during the year saw a boost in the acquisition activity owing to the regulatory push and the incentives granted by the Reserve Bank of India. During the FY 2013-14, the asset reconstruction companies in India have made non-performing asset acquisitions involving acquisition cost of more than ₹20,000 Crore.

During the year, we concluded 18 transactions with outstanding dues of around ₹6,048 Crore acquired by issuing Security Receipts worth ₹2,638 Crore, thereby taking the total outstanding dues acquired to ₹12,026 Crore at a gross consideration of ₹3,967 Crore. Resolution strategies were initiated for majority of the assets acquired. As of March 31, 2014, accounts worth ₹499 Crore were restructured and Security Receipts worth ₹74 Crore held by us and other investors were redeemed during the year after which the outstanding Security Receipts stood at ₹3,647 Crore as on March 31, 2014.

ALTERNATIVE ASSET MANAGEMENT

JM Financial India Fund (the Fund) is a private equity fund, focused on providing growth capital to dynamic, fast growing companies in India. The Fund has fully drawn down and deployed its corpus and has made investments in companies in various business segments and at different stages of life-cycle. During the year, the Fund distributed monies from sale of one of its investments and also completed merger of one of its portfolio companies. The Fund has Assets under Management (AUM) of ₹855 Crore as at March 31, 2014. The Fund is presently working closely with its portfolio companies in helping them grow their businesses as well as to seek exit opportunities.

JM Financial Property Fund (the Fund) is a real estate fund

focussed on investing in residential, commercial, retail and hospitality development assets in India at project level as well as in real estate development companies. The Fund has two schemes; one dedicated for the domestic Indian investors and the second dedicated for the offshore investors. Both schemes are fully invested. The Fund has Assets under Management (AUM) of ₹333 Crore as at March 31, 2014.

During the year, significant progress was made in realising some of the investments of the Fund. The amount of distribution made by JM Financial Property Fund-I, the domestic scheme, as of March 31, 2014 now aggregate 37.6% of the capital contribution received by it. JM Financial Property Fund-II also made its first realisation during the year for distribution aggregating 13.7% of its capital contribution. Total amount distributed/available for distribution by the Fund stood at 26.6% as on March 31, 2014.

The Fund continues with its focus towards working on realisation from the portfolio companies. Realisation from two of the portfolio companies in which exit agreements have been executed are further scheduled in 2014-15 while negotiations are ongoing in a few other cases.

ASSET MANAGEMENT

At JM Financial Mutual Fund, we offer a wide range of investment options that cover the entire risk spectrum, catering to the diverse needs of the Institutional and the Non-institutional Investors.

As reported earlier, SEBI has framed a long-term policy for Mutual Funds in India, which inter alia includes enhancing the reach of mutual fund products, promoting financial inclusion, tax treatment, obligation of various stakeholders, increasing transparency, etc. This move is expected to benefit the Mutual Fund Industry in the years to come. At JM Financial Mutual Fund, we are keen to take advantage of the potential growth in the mutual fund industry.

The average assets under management of JM Financial Mutual Fund decreased marginally to ₹6,559 Crore (₹459 Crore in Equity/Balanced schemes and ₹6,100 Crore in Debt/Liquid schemes) in the FY 2013-14 from ₹6,579 Crore (₹554 Crore in Equity/Balanced schemes and ₹6,025 Crore in Debt/Liquid schemes) in FY 2012-13.

ANALYSIS OF FINANCIAL PERFORMANCE

The global economic scenario in the FY 2013-14 continued to be fraught with challenges. Major emerging economies witnessed slower growth on account of weak domestic demand.

Management Discussion and Analysis (contd.)

The Indian economy also continued to face several challenges almost throughout the year and the year shall be reckoned as a period of slowest growth in recent times. Unrelenting uncertainty in the environment emerging from near absence of action on policy front, persistent inflationary pressures, resultant high interest rates and absence of resolution on key issues in several core sectors virtually halted investments.

During the year, the Indian Rupee depreciated considerably. Besides adverse economic climate, factors such as excessive import of gold and other external imbalances contributed to this unexpected development making the cost of imported goods dearer.

However, over recent months, India has taken substantive measures to narrow external and fiscal imbalances, tightening monetary policy, move forward on structural reforms, and address market volatility. Moreover, the year turned out to be constructive enough for the Indian equity market. The Indian equity market witnessed fresh life time highs in light of expected governance improvement after the general elections.

The consolidated gross income of the Company stood at ₹1,006.67 Crore as against ₹1,042.23 Crore in the previous year. Earnings before interest, depreciation and tax during the year stood at ₹603.30 Crore as against ₹643.01 Crore, in the previous year. The Profit before and after tax stood at ₹280.16 Crore and ₹209.53 Crore respectively as against the Profit before tax of ₹253.93 Crore and Profit after tax of ₹182.92 Crore in the previous year.

Fees and commission earned during the year were ₹246.32 Crore as against ₹219.15 Crore during the previous year, constituting 24.47% of the total revenue. In reflection of the depressed secondary market activities and progressively reducing cash market turnover percentage, brokerage income earned during the year was ₹94.16 Crore as against ₹107.61 Crore during the previous year, constituting around 9% of the total revenue. Interest and other income on fund based activities continued to be a major contributor of the gross revenue at ₹488.47 Crore as against ₹470.50 Crore during the previous year, constituting around 49% of the total revenue. We continued enhanced focus on this segment while keeping a close watch on risk management. Revenue from treasury operations and investment income was ₹177.72 Crore as against ₹244.97 Crore during the previous year, representing around 18% of the total revenue.

The following table describes consolidated expenditure that the group has incurred:

(₹ in Crore)

Particulars	For the Year ended	
	March 31, 2014	March 31, 2013
Employee benefits expense	203.16	197.99
Finance costs	307.83	376.92
Depreciation and amortisation expenses	15.24	12.16
Other expenses	200.28	201.23
Total	726.51	788.30

EMPLOYEE BENEFITS EXPENSE

The increase in employee costs by about 2.60% is mainly on account of normal yearly increments and due to expansion of international operations.

FINANCE COST

The lower finance cost is on account of reduction in the borrowings during FY 2013-14. We consciously reduced borrowings and used our own funds for the purpose of lending. Further, due to scaling down of our arbitrage activities, we reduced our borrowings, leading to further reduction in finance costs.

DEPRECIATION AND AMORTISATION EXPENSE

The increase in depreciation and amortisation expenses was mainly on account of the assets of CR Retail Malls (India) Limited which was included in consolidation of accounts during the FY 2013-14 and also on account of ongoing capital expenditure.

OTHER EXPENSES

Other expenses comprise sub-brokerage, fees & commission and administrative costs. The sub-brokerage, fees & commission mainly relates to secondary market and distribution business. We strived to maintain these expenses at the same level as in the previous year. Administrative costs mainly comprise expenses incurred on rent, legal & professional fees, information technology, manpower, membership & subscription, rates & taxes, travelling, hotel & conveyance, electricity, communication, printing & stationery, provisions and write-off.

The segment wise break-up of revenues and results on a consolidated basis are as follows:

On a standalone basis, the Company earned a gross income of ₹87.16 Crore during the year as against ₹56.19 Crore in the previous year. The gross income includes ₹65.34 Crore on account of dividend received from subsidiaries as against ₹42.35 Crore in the previous year. The profit before tax stood at ₹74.77 Crore as against ₹48.75 Crore in the previous year and the profit after tax stood at ₹71.05 Crore as against ₹44.81 Crore in the previous year.

Details of various taxes borne and paid and various taxes deducted/collected and paid by the Company, its subsidiaries and associate companies, in prior years as well as FY 2013-14 are given on page no. 5 of this annual report. The group has made a provision of

₹79.98 Crore towards corporate income taxes during the year (previous year ₹74.93 Crore) representing 6.74 % increase as compared to previous year.

While India has tremendous potential to sustain a high-growth and inclusive economy, the appropriate policy action needed to achieve the same, has to be addressed on priority. We continue to remain committed in building a strong financial service franchise.

OUTLOOK AND STRATEGY

After the economic slowdown in the previous years, India's growth is now gaining momentum. The outlook for the Indian economy has improved over the past few months with cautiously positive business sentiments, improved consumer confidence, expectations of a modest recovery in growth and decline in inflation. The recovery is likely to be supported by investment activity picking up due to part resolution of stalled projects and improved business and consumer confidence. The risks in the external sector have lowered, allowing monetary policy to focus on its core concern of lowering inflation and supporting growth. The narrowing of the Current Account Deficit (CAD) in FY 2013-14 followed a lower trade deficit due to higher exports as well as moderation in imports. With this background and possibility of a stable and pro-reforms government at the centre, the Indian capital market is expected to perform well as is visible in current rally which has taken the markets to all time high levels.

With strengthening of the economy and the country's growth prospects looking positive, we continue to be optimistic about the Company's opportunities and potential profit avenues in the financial services sector. However, the growth curve may not move steadily upwards in the short to medium term, multiple challenges would tamper the speed of growth in various businesses. Given the inherent linkage of most of our business with the economy and capital markets, our financial performance is subject to fluctuations depending on the pace of economic growth and activity in the capital market.

Given the growth prospects, we seek to consolidate our position as one of the premier financial services group in India. Our strategy for achieving this goal is to keep deepening our portfolio of financial services and products, provide effective financial solutions, effective risk management and build a business model that is well diversified across financial market activities with unique strengths in each business. We will continue to focus on our clients and endeavor to deliver unique solutions to their satisfaction and ensure accountability, transparency, professionalism and risk containment.

Management Discussion and Analysis (contd.)

We will continue to expand our portfolio in NBFC business, Asset Reconstruction business and capitalize on the advisory and funds raising opportunities thrown up by the growing economic activity in India as well as on the international front. Similarly, we would also look at opportunities for our fund management businesses both in Mutual Fund and Alternative Asset Management. We are also in the process of promoting the Distressed Assets Fund with an initial target capitalisation of US\$ 100mn.

As a part of our strategy to expand internationally, the Group had established its presence in Singapore, Indonesia and USA. Our corporate finance advisory arm set up in Singapore has received Capital Markets Services Licence for its corporate financial advisory activities. This will enable the Group to target a broader category of investors in overseas market. We are in the process of obtaining licenses required from local regulators to carry on financial services activities in other jurisdictions as well.

As a part of the evolution strategy of the Group, the Company had made an application to the Reserve Bank of India (RBI) for a banking licence. However, in March 2014 the RBI granted the in principle approval for setting up bank only to two entities which did not include us. RBI has advised publicly that the other applicants can make application for a banking licence in future based on the policy that will be announced by RBI.

OPPORTUNITIES AND THREATS

OPPORTUNITIES

As reported earlier, with the improvement in the outlook of the Indian economy and global growth prospects over the past few months and possibility of a stable and pro-reforms government at the centre, the Indian capital market is expected to perform well as is visible in current rally which has taken the markets to all time high levels.

This along with the focus of the government on financial inclusion will present ongoing opportunities for financial intermediaries to spread and benefit from the investment culture across the country. The following factors present specific opportunities across our businesses:

- i Focus on reforms will provide opportunities for sustainable growth of Indian economy leading to investment/capital requirement;
- ii Globalization - corporates are looking at expanding in overseas/domestic markets through mergers & acquisitions;

- iii Acquisitions/consolidations/restructuring by corporates provides greater opportunities for corporate advisory business;
- iv Focus on financial inclusion will lead to wider participation from all levels of investors;
- v Growing mid-size segment of corporate activity where the need for customized solutions is particularly high;
- vi Favourable demographics like huge middle class, larger younger population with more disposable incomes and investible surplus and change in their attitude from wealth protection to wealth creation;
- vii Low penetration of financial services and products in India; and
- viii Regulatory reforms aiding greater participation by all classes of investors.

THREATS

The performance of capital market in India has a direct correlation with the prospect of economic growth and political stability. With the Indian growth declining in the past year or two, the level of confidence of corporates has gone down which in turn has an impact on their expansion plans with the result that investment activity is at one of its lowest. Lack of determined action from Government to jump-start investment cycle and carry on the reforms may continue to affect the financial services sector. Despite great opportunities, there are significant factors presenting threats to our businesses viz.

- i Uncertainty of political situation in the country leading to concerns of diffused focus on growth and reforms;
- ii Slowing economy, tight monetary policy and continued high inflation leading to decelerating investment demand;
- iii Regulatory changes across the world impacting the landscape of business;
- iv Increased competition from local and global players operating in India;
- v Attrition of employees caused by strong demand from ever increasing number of market participants;
- vi Continuous downward pressure on the fees, commissions and brokerages caused by heightened competition and willingness of most players to deliver services at very low fees; and
- vii Risks arising from reduced ability of corporates to generate sustained revenue to service loans given by our NBFC in a timely manner.

RISKS AND CONCERN

Risk is an integral part of the business and we aim at delivering superior shareholder value by achieving an appropriate balance between risks and returns. The financial services industry is subject to continuously evolving legislative and regulatory environment due to increasing globalisation, integration of world markets, newer and more complex products & transactions and an increasingly stringent regulatory framework. As a result, today's operating environment demands a rigorous and integrated approach to risk management. The ability to manage risks across geographies, products, asset classes, customer segments and functional departments is of paramount importance for the hindrance free growth of the organisation. The inability to manage these risks can cause irreparable damage.

Though the Company, on a standalone basis derives its income mainly from dividends and other income categories and is not directly exposed to risks, the major risks for JM Financial arises primarily out of the risks associated with the businesses of various companies within the group.

Regulatory framework, focused on maintaining controls on domestic businesses but even inadvertently creating more favourable regulatory environment for global entities operating in India is a matter of concern. We actively participate in dialogue in industry bodies and with regulators to point these out and to recommend appropriate changes.

Timely and effective risk management is of prime importance to

our continued success. We believe that risk assessment is the first step in a sound risk management procedure. We, at JM Financial, have developed comprehensive risk management policies and processes to deal with the risks that are encountered in conducting business activities in an effective manner.

A team of experienced and competent professionals at business level as well as group level identify and monitor the risks on an ongoing basis and evolve processes/systems to monitor and control the same to contain the risks to minimum levels. Ongoing monitoring by our officials help in identifying risks early. A risk event update report is periodically placed before the Board of Directors of the Company. The Directors review the risk update reports and the course of action taken or to be taken to manage and mitigate the risks. Additionally, independent Internal Audit firms, not from within the JM Financial Group, are appointed to review and report on the business processes and policies in all operating companies of the group. The report of internal auditors is reviewed and discussed by the Audit Committee of the respective operating companies including the Company to review compliance with the set processes and any risk events.

Being in the financial services sector, we are primarily exposed to various risks like credit risk, market risk, liquidity risk, operations risk, regulatory and compliance risks, reputation risk, competition risk, business continuity risk and general risks arising out of various macro-economic factors. The above risks are discussed in detail below:

Risk Type	Risk Description	Risk Mitigation
Credit Risk	Credit risk is the risk of failure of our borrowers to meet their financial obligations to us in accordance with agreed terms.	A comprehensive credit approval and review process by the senior most team, extensive credit appraisal, proper documentation, periodic reviews, etc., is conducted in order to mitigate the credit risk. The loan portfolio is monitored on an ongoing basis post disbursement of funds.
Market Risk	The risk that overall market or asset class will change in value when impacted by economic conditions or other factors that may modify characteristics specific to a particular stock, bond, commodity, currency or other collateral. The value of investments are vulnerable to factors such as changes in economic conditions, interest rates, exchange rates, credit spreads, investor sentiments, developments in global markets, availability and cost of capital, international and domestic political events and acts of war or terrorism.	Our portfolios and collaterals/securities are continuously monitored to minimize the impact of market risk.

Management Discussion and Analysis (contd.)

Risk Type	Risk Description	Risk Mitigation
Liquidity Risk	Liquidity and solvency are very critical to our business. Liquidity risk is the current and prospective risk to earnings or capital arising from an organisation's inability to meet its obligations when they fall due without incurring unacceptable losses.	We have a strong financial position and all our businesses are adequately capitalised, have good credit rating and appropriate credit lines available to address liquidity risks. We also maintain sufficient part of our capital in liquid assets to manage any sudden liquidity needs.
Operational Risk	The risk of loss that arises from shortcomings or failures in internal processes or systems and arises on account of inadequate systems, controls or human errors.	We manage the operational risks through well defined operational processes, policies and systems which are reviewed on a periodical basis. Regular audits by internal auditors ensure that the operating teams adhere to the defined processes and policies.
Regulatory and Compliance Risk	The risk arising out of a change in laws and regulations governing our business. It could also arise on account of inadequate addressal of regulatory requirements or differences in interpretation of regulations vis-à-vis the regulators.	We have a team of experienced professionals reporting to Group Head – Compliance, Legal & Company Secretary which ensures compliance with applicable laws, rules, regulations and guidelines affecting our businesses. The team also monitors on a continuous basis the regulatory changes and evaluates the impact and prospects they present for our businesses.
Reputation Risk	Reputation Risk is related to the trustworthiness of the business. It is the current or prospective risk to business, earnings and capital arising from adverse perception of our Company and/or its practices on the part of various stakeholders.	We conduct our business with high levels of diligence, using best practices and in fair and transparent manner and endeavour to disseminate timely information to the clients, shareholders, investors and regulators.
Competition Risk	Strong growth prospects combined with liberalization of financial services sector have prompted the entry of newer foreign and domestic financial services companies thereby increasing the competition faced by us. This also increases the risk of attrition of key personnel to our competitors.	Our strong brand image, wide and ever expanding distribution network, diversified and innovative suite of products and services, fair and transparent business practices enable us to differentiate ourselves from our competitors.
Business Continuity Risk	The disruption in the conduct of business in the event of incidents like fire, natural calamity, breakdown of infrastructure, acts of terrorism etc. In such cases, we are exposed to the risk of loss of data, clients and/or business that can adversely affect our financial results.	We have in place Business Continuity Plan (BCP) to mitigate the impact of any such exigencies. We continuously test check the processes laid out under the BCP and review the same.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

There is a robust mechanism in place designed to provide a high degree of assurance regarding effectiveness and efficiency of internal control systems commensurate with the nature of business and to safeguard against all the types of risks involved. These controls ensure maintenance of proper accounting controls, monitoring of operations, protection and conservation of assets and compliances with applicable laws and regulations. We have documented procedures covering various financial and operating functions.

Our internal control systems are continuously monitored and reviewed by the senior management and are adequately supported by extensive internal audits conducted by independent internal auditors. All our operating subsidiaries are subject to internal audits to assess and improve the effectiveness of risk management, control and governance process. Significant deviations are brought to the notice of the Audit Committee of the Board of the respective companies and corrective measures are recommended for implementation.

The Audit Committee of the Board of Directors review the existing audit procedures and internal systems of control on an ongoing basis keeping in mind the organisation's requirements, growth prospects and ever evolving business environment. They also review the internal audit findings and recommendations and ensure that corrective measures are implemented. This system enables us to capture a precise reflection of the organisation's position at all times and also facilitates timely detection and plugging of anomalies by various business groups.

CORPORATE SOCIAL RESPONSIBILITY

We believe that business has a responsibility beyond its basic responsibility to its shareholders; a responsibility to a broader constituency that includes its key stakeholders: customers, employees, NGOs, government - the people of the communities in which it operates.

At JM Financial, it is our endeavour to work towards accomplishing these responsibilities and serious efforts are channelized in this direction. We have an organised structure in the form of two philanthropic arms—the JM Financial Foundation established in the year 2001 and the Kampani Charitable Trust established in the year 1982, to support an array of socio-economic, educational and health initiatives.

The Foundation identifies and works alongside several NGOs on a number of out reach programs in various fields such as education, health and disaster relief.

Over the years, the objectives of the Foundation have also expanded. JM Financial Foundation believes in strengthening and uplifting the lesser privileged communities.

Education

We believe that education is the key to empowering the poor and helping them cross the poverty barrier. With this as our vision, we have tried contributing significantly by partnering with various NGOs to help provide access to quality education and offer scholarships to children at the bottom of the socio economic pyramid.

The Foundation works closely with a residential school which houses tribal children and which offers educational and sports facilities up to class XII.

We also promote girl child education by providing academic, material and social support that allows them to access quality education and to attend school with dignity.

The Foundation has partnered with professionals to work with children with developmental disabilities particularly Autism. We also support schools that run programs for children coming from diverse socio-economic backgrounds and disabilities.

Entrepreneurship promotion

As an extension of our focus on education, we believe that development of entrepreneurship is very important part of the long term goal of nation building. In our endeavor to support the objective of development of entrepreneurship, JM Financial, together with a few like-minded entities, supports the initiative called VentureStudio of Ahmedabad University.

Health Initiatives

The Foundation has associated with partners to provide the needy with effective medical treatment free or at a subsidised cost. The health initiatives include rehabilitation of the physically challenged, treatment for cancer patients, free health camps for the underprivileged, promotion of alternate medicine like Ayurveda, etc.

When it comes to pediatric care, we have supported liver transplant for underprivileged children, which is an extremely specialised and

Management Discussion and Analysis (contd.)

expensive procedure. A ventilator has also been donated to a pediatric ICU, so as to benefit a large number of children, who otherwise are unable to access one.

Vocational Training

The Foundation backs the under privileged youth by equipping them with vocational skills to enable them to become economically independent and start life afresh.

We support a project that enables underprivileged youth like school dropouts by offering them vocational training courses, viz. Computers, Designing, Carpentry, Tailoring, Beautician, etc.

Disaster Relief

Through our partners, we have worked extensively to help rehabilitate those affected by the Uttarakhand floods. In the drought hit regions of Maharashtra, we helped provide relief measures by way of providing for water tankers for the people. Fodder camps were also organized to help them sustain their livestock.

Others

Apart from the above, we have supported activities related to promotion of sports, animal welfare, promotion of culture, women empowerment, wildlife conservation, solar lighting in villages, etc.

Project Drishti

Under this project, all glossy magazines are accumulated and sent to the Kamla Mehta School for the blind at regular intervals. The paper from these magazines is used for preparing reading and learning material in Braille.

Sparsh

This is the employee volunteering initiative at JM Financial. Employees help the lesser privileged aged members of society through the SPONSOR A GRAN program of Helpage India and mentor children from Akanksha by counseling them on career options, self-confidence, academic help, etc. Employees have come together to form 'Team Wavloli' – they visit the Wavloli Ashram School at Pali, Maharashtra and interact with the tribal children. Recently, a field trip to the Nehru Planetarium was organized for these children.

Joy of Giving

JM Financial celebrates the "Joy of Giving Week" every year.

Typically the Joy of Giving week entails the following activities –

- 1) Joy Boxes are placed at our office premises through the week. Employees are encouraged to place various items such as clothes, stationary, household items, etc, which are donated to Goonj, an NGO dedicated to the re-distribution of such items to the needy across India.
- 2) Blood Donation camps were organised across the offices of the Group in Mumbai.
- 3) Paraplegic Foundation - a display of an array of items for sale such as envelopes, candles, table linen, etc all made exclusively by paraplegics, was organised and received an excellent response from employees

Walkathon

We organize the JM Financial Walkathon, which is an annual event, where we invite clients and employees to pledge their support and to walk for a better future of the under-privileged. The Walkathon also serves as a fund-raiser where we invite contributions towards the various causes supported by the JM Financial Foundation.

The funds raised from the Walkathon are utilized towards various initiatives across the year, which focus on the betterment of various segments of the communities. This year, the Walkathon was held on Sunday, February 9, 2014.

Report on Corporate Governance

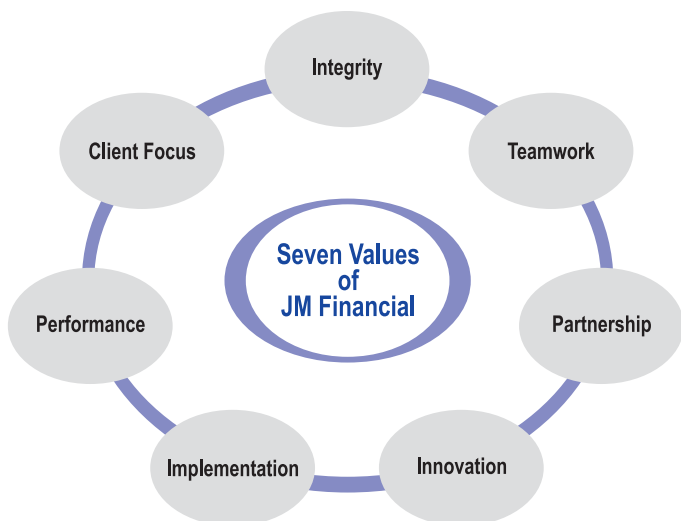

1. CORPORATE GOVERNANCE

Corporate Governance is about commitment to values, ethical business conduct and about considering all stakeholders' interest in conduct of business. Transparency and accountability are the two basic tenets of Corporate Governance. Your Company continues to lay great emphasis on the broad principles of Corporate Governance. JM Financial Group's philosophy on Corporate Governance is stated below:

PHILOSOPHY OF JM FINANCIAL ON CORPORATE GOVERNANCE

At JM Financial, we believe in adopting the 'best practices' followed in the area of Corporate Governance across various geographies. We emphasize the need for transparency and accountability in all our businesses, in order to protect the interests of our stakeholders.

Corporate Governance is a continuous journey towards sustainable value creation for all the stakeholders, which is driven by following values:

Our vision is to be the most trusted partner for every stakeholder and we are committed to provide fair, transparent and equitable treatment to our stakeholders.

Our core value system is guided by the principles of accountability, transparency, timely disclosure and dissemination of price sensitive information and matters of interest to the investors ensuring compliance with the applicable acts, laws, rules and regulations and conducting business in a best ethical manner. Accordingly,

Corporate Governance stands on the aforesaid broad pillars of transparency, fairness in action, accountability and responsibility towards all the stakeholders.

Securities and Exchange Board of India has issued guidelines on the Corporate Governance for all listed companies through Clause 49 of the Listing Agreement. At JM Financial, we are not only committed to follow the prescribed corporate practises embodied in various regulatory provisions but also the best international practises. We also believe that good governance practises flow from the culture and mindset of the top management and percolate down in the organisation.

Independent Auditors' Report

on the Standalone Financial Statements

TO THE MEMBERS OF JM FINANCIAL LIMITED

Report on the Financial Statements

- 1 We have audited the accompanying financial statements of JM Financial Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

- 2 Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") which continues to be applicable even under the provisions of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

- 3 Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4 An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
- 5 We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

- 6 In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
 - a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
 - b) In the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
 - c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 7 As required by the Companies (Auditors' Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure, a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 8 As required by section 227(3) of the Act, we report that:
 - a. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d. in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the applicable Accounting Standards referred to in sub-section (3C) of section 211 of the Act;
 - e. on the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act

Significant Accounting Policies

and Notes to Financial Statements

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention on an accrual basis and in accordance with the generally accepted accounting principles in India and as per the provisions of the Companies Act, 1956 ('the Act') and the accounting principles generally accepted in India and comply with the Accounting Standards notified under the Act (which continues to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated 13th September, 2013 issued by the Ministry of Corporate Affairs), and the relevant provisions of the Act.

1.2 Use of estimates

The preparation of financial statements is in conformity with Indian Generally Accepted Accounting Principles, which require the management to make estimates and assumptions, that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and differences between actual results and estimates are recognised in the periods in which the results are known/materialised.

1.3 Revenue recognition

Dividend income is recognised when the right to receive the dividend is established.

Interest income is recognised on accrual basis.

Fees income is recognised on accrual basis in accordance with agreements/arrangements.

1.4 Fixed assets and depreciation

Owned tangible assets

Tangible fixed assets are stated at original cost of acquisition less accumulated depreciation and impairment losses. Cost comprises all costs incurred to bring the assets to their present location and working condition.

Depreciation on tangible fixed assets is provided, on a pro-rata basis for the period of use, on the Straight Line Method (SLM), based on rates as per the management's estimate of useful life of the fixed assets, or at the rates prescribed in Schedule XIV to the Act, whichever is higher, as per the following table:

Assets	Useful Life
Office premises	61 years
Furniture and fixtures	10 years
Office equipment	5 years
Computers and software	5 years
Leasehold improvements	10 years or lease period whichever is lower
Motor Vehicles	5 years

Assets costing ₹5,000/- or less are fully depreciated in the year of acquisition.

Owned intangible assets

Intangible fixed assets are stated at cost of acquisition or internal generation, less accumulated amortisation and impairment losses. An intangible asset is recognised, where it is probable that the future economic benefits attributable to the assets will flow to the enterprise and where its cost can be reliably measured. The depreciable amount of the intangible assets is allocated over the best estimate of its useful life on a straight line basis.

The Company capitalises software and related implementation costs where it is reasonably estimated that the software has an enduring useful life. Software is depreciated over management estimate of its useful life not exceeding 5 years.

Leased assets

Assets acquired under finance lease are capitalised at the inception of lease at the fair value of the assets or present value of minimum lease payments whichever is lower. These assets are fully depreciated on a straight line basis over the lease term or its useful life whichever is shorter.

1.5 Impairment of assets

An asset is considered as impaired when on the balance sheet date there are indications of impairment in the carrying amount of the assets, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the assets' net selling price and value in use). The carrying amount is reduced to the level of recoverable amount and the reduction is recognised as an impairment loss in the statement of profit and loss.

1.6 Investments

Investments are classified as non-current (long term) or current. Non-current investments are carried at cost, however, provision for diminution in the value of non-current investments is made to recognise a decline, other than temporary, in the value of investments. The provision for diminution in the value of the quoted non-current investments is made to recognise the decline at lower of cost or market value, determined on the basis of the quoted prices of individual investment. Provision for diminution in the value of unquoted non-current investments is made as per the management's estimate of fair value. Current investments are carried at lower of cost or fair value.

1.7 Employee benefits

Defined contribution plan

The Company makes defined contribution to the provident fund, which is recognised in the statement of profit and loss on an accrual basis.

Defined benefit plan

The Company's liability under the Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method. Actuarial gains and losses are recognised in the statement of profit and loss as income or expense respectively. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields on the date of balance sheet on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

Short term employee benefits

Short term employee benefits are recognised as expense at the undiscounted amount in the statement of profit and loss for the year in which the related services are rendered.

1.8 Taxation

Tax expense comprises current tax and deferred tax.

Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax for timing difference between the book and tax profits for the year is accounted for, using the tax rates and laws that apply substantively as on the date of balance sheet. Deferred tax assets arising from timing differences are recognised to the extent there is reasonable certainty that these would be realised in future.

Deferred tax assets, in case of unabsorbed losses and unabsorbed depreciation, are recognised only if there is virtual certainty that such deferred tax asset can be realised against future taxable profits.

At each balance sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future

Notes

to Financial Statements

taxable income will be available against which such deferred tax assets can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

1.9 Operating leases

Leases, where significant portion of risk and reward of ownership are retained by the lessor, are classified as operating leases and lease rentals thereon are charged to the statement of profit and loss.

1.10 Employee stock option scheme

The stock options granted are accounted for as per the accounting treatment prescribed by the Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999, whereby the intrinsic value of the option is recognised as deferred employee compensation. The deferred employee compensation is charged to the statement of profit and loss over the period of vesting. The employee stock option outstanding account, net of any unamortised deferred employee compensation, is shown separately as part of Reserves.

1.11 Foreign currency transactions

Transactions in foreign currency are recorded at rates of exchange prevailing on the date of transaction. Foreign currency monetary items are reported using closing rate of exchange at the end of the year. The resulting exchange gain/loss is reflected in the statement of profit and loss. Other non-monetary items, like fixed assets, investments in equity shares, are carried in terms of historical cost using the exchange rate at the date of transaction.

1.12 Provisions, contingent liabilities and contingent assets

Contingent liabilities are possible but not probable obligations as on the balance sheet date, based on the available evidence. Provisions are recognised when there is a present obligation as a result of past event; and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on best estimate required to settle the obligation at the balance sheet date. Contingent assets are not recognised in the financial statements.

2.23 CONTINGENT LIABILITY

Contingent liability in respect of income tax demands for various years disputed in appeal is ₹37,964.57 Lakh (previous year ₹311.74 Lakh). During the year, the Company received a notice of demand from the income tax department pursuant to the completion of fresh adjudication by the assessing officer for the assessment year 2008-09. The additional tax liability arising out of the aforesaid notice, net of relevant deferred tax liability is ₹37,282.45 Lakh, inclusive of interest of ₹15,587.00 Lakh. The demand of additional tax is mainly on account of income tax department treating the long term capital gain on sale of equity shares held in joint venture company with Morgan Stanley as taxable under the head “Business Income” and not under the head “Capital Gains”.

The Company has challenged the above assessment order before the appellate authority.

CAPITAL COMMITMENTS

Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances) is ₹70.42 Lakh (previous year ₹65.42 Lakh).

2.24 EMPLOYEE STOCK OPTION SCHEME (ESOS)

The Employee Stock Option Scheme (‘the Scheme’) provides for grant of stock options to the eligible employees and/or directors (‘the Employees’) of the Company and/or its subsidiaries. The Scheme is in accordance with the Securities and Exchange Board of India (Employees Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999. The Stock Options are granted at an exercise price, which is either equal to the fair market price of the underlying equity shares, or at a premium, or at a discount to market price as may be determined by the Compensation Committee of the Board of the Company.

During the financial year, the Compensation Committee of the Board has granted stock options under Series 6, to the Employees that will vest in a graded manner, which are to be exercised within a specified period. The Committee has granted 36,45,774 options (previous year 73,02,669 options) at an exercise price of ₹1/- per option to the Employees.

The details of options are as under:

	For the year ended March 31, 2014	For the year ended March 31, 2013
Outstanding at the beginning of the year	2,70,52,907	2,21,49,273
Add: Granted during the year	36,45,774	73,02,669
Less: Exercised and allotted during the year	37,28,835	17,45,162
Less: Forfeited/cancelled during the year	Nil	Nil
Less: Lapsed during the year	17,91,833	6,53,873
Outstanding at the end of the year	2,51,78,013	2,70,52,907
Exercisable at the end of the year	1,36,35,863	80,74,281

The Company follows intrinsic value based method of accounting for determining compensation cost for its stock-based compensation scheme.

The estimated fair value of each stock option granted in Series 6 and 5 is mentioned in the table below. The fair value has been calculated by applying Black-Scholes-Merton model as valued by an independent valuer. The model inputs were the share price at respective grant dates, exercise price of ₹1/-, volatility of 54.64% to 58.06% (previous year 60.04% to 61.90%), dividend yield of 2.16% (previous year 1.48%), expected term of options in the range of 4 years to 5 years (previous year 4 years to 5 years), and a risk-free interest rate of 7.53% to 7.60% (previous year 8.36% to 8.37%).

Notes (contd.)

Details of options granted during the current and previous financial years based on the graded vesting and fair value of the options are as under:

% of Options to be vested	No. of Options Granted		Vesting date		Fair value per option (₹)	
	Current year	Previous year	Current year	Previous year	Current year	Previous year
33.33%	12,15,258	24,34,223	May 6, 2014	April 16, 2013	15.64	13.57

Independent Auditors' Report

on the Consolidated Financial Statements

To the Board of Directors of JM Financial Limited

1. We have audited the accompanying Consolidated Financial Statements ("CFS") of JM Financial Limited ("the Company") and its Subsidiaries and Associates (collectively referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at March 31, 2014, the Consolidated Statement of Profit and Loss and Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

2. Management is responsible for the preparation of these CFS that give a true and fair view of the Consolidated Financial Position, Consolidated Financial Performance and Consolidated Cash Flows of the Company in accordance with accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the CFS that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these CFS based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the CFS are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the CFS. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the CFS, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the CFS that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the CFS.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

6. In our opinion and to the best of our information and according to the explanations given to us, the CFS give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (a) in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
 - (b) in the case of the Consolidated Statement of Profit and Loss, of the profit of the group for the year ended on that date; and
 - (c) in the case of the Consolidated Cash Flow Statement, of the cash flows of the group for the year ended on that date.

Other Matter

Included in this CFS are Assets of ₹5,259.40 crore as at March 31, 2014, Revenues of ₹974.16 crore and Net Cash Outflows of ₹63 crore of the subsidiaries and Profits of ₹3.45 crore of the associate for the year then ended, which have not been audited by us. These have been audited by other auditors whose reports have been furnished to us, and our opinion so far as it relates to the amounts included in respect of these entities, is based solely on reports of those respective auditors. Our opinion is not qualified in respect of this matter.

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The Consolidated Financial Statements (CFS) comprises the financial statements of JM Financial Limited ("Company") and its subsidiaries and associate companies (herein after referred to as "Group companies" and together as "Group"). The financial statements are prepared under the historical cost convention on an accrual basis and in accordance with the generally accepted accounting principles in India and as per the provisions of the Companies Act, 1956 ('the Act') and the accounting principles generally accepted in India and comply with the Accounting Standards notified under the Act (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated 13th September, 2013 of the Ministry of Corporate Affairs), and the relevant Provision of the Act.

1.2 Use of estimates

The preparation of financial statements is in conformity with Indian Generally Accepted Accounting Principles which require the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates and differences between actual results and estimates are recognised in the periods in which the results are known/materialised.

1.3 Principles of consolidation

The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis as per AS 21 - "Consolidated Financial Statements" by adding together similar items of assets, liabilities, income and expenses and after eliminating intra-group balances and transactions.

Investments in Associate companies which have been accounted under the equity method as per AS 23 - "Accounting for Investments in Associates in Consolidated Financial Statements".

The net profit of the subsidiaries for the year attributable to the share of minority interest is identified and adjusted against the income in the CFS in order to arrive at the net income attributable to the interest of shareholders of the Company. Similarly the amount attributable to the share of minority interest in net assets of consolidated subsidiaries is identified and presented in the CFS, separate from the liabilities and the equity of the Company.

The excess/deficit of cost to the Company of its investment over its portion of net worth in the consolidated entities at the respective dates on which investment in such entities was made is recognised in the CFS as goodwill/capital reserve on consolidation.

1.4 Revenue recognition

Revenue is recognised at the point when there is reasonable certainty of its ultimate realisation/collection.

Revenue from Investment Banking business, which mainly includes the lead manager's fees, selling commission, underwriting commission, fees for mergers, acquisitions and advisory assignments and arrangers' fees for mobilising funds is recognised when services for the transactions are determined to be completed or when specific obligations are determined to be fulfilled as set forth under the terms of engagement.

Commission income for executing clients' transactions in the secondary market in 'Cash' and 'Futures and Options' segments are recognised on the trade date.

Brokerage earned from primary market operations, i.e., procuring subscription from investors for public offerings of companies are recorded on determination of the amount due to the company, once the allotment of securities is completed. Brokerage earned for mobilising bonds, fixed deposits for companies and funds for mutual funds from investors is recorded on monthly, quarterly or annual basis as set forth in terms of the engagement.

Income from structured products including processing fees, income from depository participant business and income from portfolio management services are recognised when the services are determined to be completed.

Dividend income is recognised when the right to receive the dividend is established.

Interest income is recognised on accrual basis.

1.5 Fixed assets and depreciation

Owned tangible assets

Tangible fixed assets are stated at original cost of acquisition less accumulated depreciation and impairment losses. Cost comprises all costs incurred to bring the assets to their present location and working condition.

Depreciation on tangible fixed assets is provided on a pro-rata basis for the period of use, on the Straight Line Method (SLM) based on rates as per management's estimate of useful life of the fixed assets, or at the rates prescribed in Schedule XIV to the Act whichever is higher, as per the following table:

Assets	Useful Life
Office premises	61 years
Leasehold building	61 years or lease period whichever is lower
Furniture and fixtures	10 years
Office equipment	5 years
Computers and software	5 years
Leasehold improvements	10 years or lease period whichever is lower
Motor Vehicles	5 years

Assets costing ₹5,000/- or less are fully depreciated in the year of acquisition.

Owned intangible assets

Intangible fixed assets are stated at cost of acquisition or internal generation, less accumulated amortisation and impairment losses. An intangible asset is recognised, where it is probable that the future economic benefits attributable to the assets will flow to the enterprise and where its cost can be reliably measured. The depreciable amount of the intangible assets is allocated over the best estimate of its useful life on a straight line basis.

The Group capitalises software and related implementation costs where it is reasonably estimated that the software has an enduring useful life. Software is depreciated over management estimate of its useful life not exceeding 5 years.

Leased assets

Assets acquired under finance lease are capitalised at the inception of lease at the fair value of the assets or present value of minimum lease payments whichever is lower. These assets are fully depreciated on a straight line basis over the lease term or its useful life whichever is shorter.

1.6 Impairment of assets

An asset is considered as impaired when on the balance sheet date there are indications of impairment in the carrying amount of the assets, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the assets net selling price and value in use). The carrying amount is reduced to the level of recoverable amount and the reduction is recognised as an impairment loss in the statement of profit and loss.

1.7 Investments

Investments are classified as non-current (long term) or current. Non-current investments are carried at cost, however, provision for diminution in the value of non-current investments is made to recognise a decline, other than temporary, in the value of investments. The provision for diminution in the value of the quoted non-current investments is made to recognise the decline at lower of cost or market value, determined on the basis of the quoted prices of individual investment. Provision for diminution in the value of unquoted non-current (long term) investments is made as per the management's estimate. Current investments are carried at lower of cost or fair value.

1.8 Securities held as a result of underwriting/stock-in-trade

These securities are valued at lower of cost or market value. Any reduction in the carrying amount of securities and any reversals of such reductions are charged or credited to the statement of profit and loss.

1.9 Employee benefits

Defined contribution plan

The Group makes defined contribution to the provident fund, which is recognized in the statement of profit and loss on an accrual basis.

Defined benefit plan

The Group's liabilities under the Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method. Actuarial gains and losses are recognised in the statement of profit and loss as income or expense respectively. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields on the date of balance sheet on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

Short-term employee benefits

Short-term employee benefits are recognised as expense at the undiscounted amount in the statement of profit and loss for the year in which the related services are rendered.

1.10 Taxation

Tax expense comprises current tax and deferred tax.

Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the provisions of Income Tax Act, 1961.

Deferred tax for timing difference between the book and tax profits for the year is accounted for, using the tax rates and laws that apply substantively as on the date of balance sheet. Deferred tax assets arising from timing differences are recognised to the extent there is reasonable certainty that these would be realised in future.

Deferred tax assets, in case of unabsorbed losses and unabsorbed depreciation, are recognised only if there is virtual certainty that such deferred tax asset can be realised against future taxable profits.

At each balance sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

1.11 Arbitrage activities

In the course of its arbitrage activities, the Group enters into transactions in the Cash-Future Arbitrage and the Index Arbitrage.

The Group has adopted the recognition and measurement principles enunciated in AS 30 - "Financial Instruments: Recognition & Measurement" to the extent it is not inconsistent with the 'Accounting Standards' notified by the Companies (Accounting Standards) Rules 2006, for the arbitrage transactions of the Group, encompassing purchase of equity shares in the cash market and selling the same in the futures market, selling of equity shares borrowed under Securities Lending and Borrowing Segment and buying the same in futures market and sale/purchase of Nifty futures, sale/purchase of equity futures of Nifty scrips, sale/purchase of Nifty/equity stock options, etc. These are considered to be part of a portfolio of identified financial instruments that are managed as part of that group and are acquired principally for the purpose of selling/repurchasing in the near term, and hence these are treated as financial assets 'held for trading'. Accordingly, if the net difference is a loss (being an unrealised loss), provision is made for the same in the statement of profit and loss and if the net difference is a gain (being an unrealised gain), credit is not taken for the same on the principle of prudence.

1.12 Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost

Notes

to Financial Statements

of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to the statement of profit and loss.

1.13 Operating leases

Leases, where significant portion of risk and reward of ownership retained by the lessor, are classified as operating leases and lease rentals thereon are charged to the statement of profit and loss.

1.14 Employee stock option scheme

The stock options granted are accounted for as per the accounting treatment prescribed by the Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999, whereby the intrinsic value of the option is recognised as deferred employee compensation. The deferred employee compensation is charged to the statement of profit and loss over the period of vesting. The employee stock option outstanding account, net of any unamortised deferred employee compensation, is shown separately as part of Reserves.

1.15 Foreign subsidiaries

The operations of foreign subsidiaries are considered as non-integral and have been converted in ₹ at the following exchange rates:

Revenue and expenses: At the average exchange rate during the year.

All assets and liabilities: At the exchange rate prevailing at the end of the year.

The resultant translation exchange difference has been transferred to currency translation reserve.

1.16 Foreign currency transactions

Transactions in foreign currency are recorded at rates of exchange prevailing on the date of transaction. Foreign currency monetary items are reported using closing rate of exchange at the end of the year. The resulting exchange gain/loss is reflected in the statement of profit and loss. Other non-monetary items, like fixed assets, investments in equity shares, are carried in terms of historical cost using the exchange rate at the date of transaction.

1.17 Provisions, contingent liabilities and contingent assets

Contingent liabilities are possible but not probable obligations as on the balance sheet date, based on the available evidence. Provisions are recognised when there is a present obligation as a result of past event; and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on best estimate required to settle the obligation at the balance sheet date. Contingent assets are not recognised in the financial statements.

Notes:

- i) JM Financial Insurance Broking Private Limited became wholly owned subsidiary of JM Financial Limited on March 28, 2014.
- ii) JM Financial Limited has acquired 100% stake in FICS Consultancy Services Limited (FICS) on March 28, 2014. Accordingly, FICS has become its wholly owned subsidiary of the Company.
- iii) The financial statements of CR Retail Malls (India) Limited were so far not consolidated in accordance with the provisions of AS 21 since the equity stake therein was intended to be held temporarily till its disposal. From July 1, 2013 the financial statements of the said company have been consolidated as it has been decided to continue to hold the economic interest in the said company.

2.30 CONTINGENT LIABILITY

Contingent liability in respect of income tax demands for various years disputed in appeal is ₹389.26 Crore (previous year ₹12.84 Crore). During the year, the Company received a notice of demand from the income tax department for the assessment year 2008-09 pursuant to the completion of fresh adjudication by the assessing officer. The tax liability arising out of the aforesaid notice, net of relevant deferred tax liability is ₹372.82 Crore, inclusive of interest of ₹155.87 Crore. The demand of tax is mainly on account of income tax department treating the long term capital gain on sale of equity shares held in joint

venture company with Morgan Stanley as taxable under the head “Business Income” and not under the head “Capital Gains”. The Company has challenged the above assessment order before the appellate authority.

Disputed demands of service tax authorities is ₹1.24 Crore (previous year ₹1.24 Crore).

Clawback obligation towards JM Financial Property Fund I for probable shortfall in meeting the hurdle rate is ₹nil (previous year ₹1.25 Crore).

2.31 CAPITAL COMMITMENTS

The estimated amount of contracts remaining to be executed on capital account and not provided for is ₹1.08 Crore (previous year ₹1.35 Crore).

Uncalled liability on account of commitment to subscribe to investment is ₹0.29 Crore (previous year ₹0.29 Crore).

2.32 EMPLOYEE STOCK OPTION SCHEME (ESOS)

The Employee Stock Option Scheme (‘the Scheme’) provides for grant of stock options to the eligible employees and/or directors (‘the Employees’) of the Company and/or its subsidiaries. The Scheme is in accordance with the Securities and Exchange Board of India (Employees Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999. The Stock Options are granted at an exercise price, which is either equal to the fair market price of the underlying equity shares, or at a premium, or at a discount to market price as may be determined by the Compensation Committee of the Board of the Company.

During the financial year, the Compensation Committee of the Board has granted stock options under Series 6, to the Employees that will vest in a graded manner, which are to be exercised within a specified period. The Committee has granted 36,45,774 options (previous year 73,02,669 options) at an exercise price of ₹1/- per option to the Employees.

The details of options are as under:

	For the year ended March 31, 2014	For the year ended March 31, 2013
Outstanding at the beginning of the year	2,70,52,907	2,21,49,273
Add: Granted during the year	36,45,774	73,02,669
Less: Exercised and allotted during the year	37,28,835	17,45,162
Less: Forfeited/cancelled during the year	Nil	Nil
Less: Lapsed during the year	17,91,833	6,53,873
Outstanding at the end of the year	2,51,78,013	2,70,52,907
Exercisable at the end of the year	1,36,35,863	80,74,281

The Company follows intrinsic value based method of accounting for determining compensation cost for its stock-based compensation scheme.

The estimated fair value of each stock option granted in Series 6 and 5 is mentioned in the table below. The fair value has been calculated by applying Black-Scholes-Merton model as valued by an independent valuer. The model inputs were the share price at respective grant date, exercise price of ₹1/-, volatility of 54.64% to 58.06% (previous year 60.04% to 61.90%), dividend yield of 2.16% (previous year 1.48%), expected term of options in the range of 4 years to 5 years (previous year 4 years to 5 years), and a risk-free interest rate of 7.53% to 7.60% (previous year 8.36% to 8.37%).

Notes (contd.)

Details of options granted during the current and previous financial years based on the graded vesting and fair value of the options are as under:

% of Options to be vested	No. of Options Granted		Vesting date		Fair value per option (₹)	
	Current year	Previous year	Current year	Previous year	Current year	Previous year
33.33%	12,15,258	24,34,223	May 6, 2014	April 16, 2013	15.64	13.57
33.33%	12,15,258	24,34,223	May 6, 2015	April 16, 2014	15.49	13.50
33.33%	12,15,258	24,34,223	May 6, 2016	April 16, 2015	15.35	13.42
	36,45,774	73,02,669				

Based on the valuation report applying Black-Scholes-Merton model, the expense arising from stock option scheme on the basis of fair value method of accounting is ₹10.36 Crore (previous year ₹9.76 Crore). Accordingly, had the compensation been determined using the fair value method instead of intrinsic value, the Company's net profit would have been increased by ₹0.56 Crore (previous year ₹0.53 Crore) and accordingly basic and diluted earnings per share as reported would have been adjusted after giving effect to the stock-based employee compensation amounts as under:

	As reported		As adjusted
