JM Financial Limited

Quarter and Year ended March 31, 2019 – Results update

May 2, 2019

Safe Harbour

This presentation and the following discussion may contain “forward looking statements” by JM Financial Limited (“JM Financial” or “JMFL” or the “Company”) that are not historical in nature. These forward looking statements, which may include statements relating to future results of operations, financial condition, business prospects, plans and objectives are based on the current beliefs, assumptions, expectations, estimates and projections of the management of JMFL about the business, industry and markets in which JMFL operates.

These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and other factors, some of which are beyond JMFL’s control and difficult to predict, that could cause actual results, performance or achievements to differ materially from those in the forward looking statements.

Such statements are not and should not be construed as a representation of future performance or achievements of JMFL. In particular, such statements should not be regarded as a projection of future performance of JMFL. It should be noted that the actual performance or achievements of JMFL may vary significantly from such statements.

The Financial Results of the Company commencing from April 1, 2018 are being prepared in accordance with the applicable Indian Accounting Standards, whereas the Financial Results till March 31, 2018 were being prepared as per the applicable Indian GAAP. Due to the above change, figures for the period prior to March 31, 2018 appearing in other corporate presentation/document are not comparable with the figures post April 1, 2018.

Key implications on financial statements upon migration to Ind AS

Expected Credit Loss (ECL)

Under the ECL model, the loan loss provision is made on the basis of the loan book's historical loss experience and future expected credit loss depending on the credit quality assessment. ECL adjustment has had a negative impact on our networth and on this financial year's profits

Amortization of fee income and cost under effective interest rate (EIR)

Fees generated on loans originated and the corresponding costs including processing fees incurred on borrowings have been amortized over the life of the loan / period of service. This has resulted in temporary deferral of revenue and cost recognition. This has resulted in a negative impact on our networth and a marginal negative impact on our profits for this financial year

Fair value implications on financial assets

On the date of transition, all financial assets have been recorded in the balance sheet at fair value. The impact of fair valuation of financial assets, post initial recording in the balance sheet has been accounted through the statement of profit and loss. FVTPL has had a positive impact on our networth

Consolidation of trusts in the Distressed Credit Business

The trusts where we have a controlling interest have been consolidated after fair valuing the assets held by each of those trusts. This has had a positive impact on our networth

Segment re-classification

As per Ind AS, considering that the views of the management have precedence over the erstwhile risks and rewards model, segments have been reported based on management's evaluation of financial information for allocating resources and assessing performance

Distressed Credit – Asset Reconstruction

Business Overview

Long Term Credit Rating of AA- and Short Term Credit Rating of A1+ by ICRA & CARE. Comfortable gearing of 1.99x** as on March 31 2019

This business has multiple income streams like Management Fees, Interest income and Upside / Yield

Current AUM of ~Rs 14,044 Cr as on March 31 2019 comprising Corporate Accounts and Corporate/SME/ Retail Portfolios

Business related activities such as Financial & Legal due diligence for acquisitions, resolutions etc. are conducted by only in-house resources. We also use the services of Industry specific experts/consultants/firms

Focus on restructuring and revival of Corporate accounts.

Long Term Positive Drivers

- Rollout of Corporate Insolvency Resolution Process (CIRP) under Insolvency & Bankruptcy Code 2016 (IBC) has brought out a sea change in the resolution of distressed asset space in India. Fear of losing Companies under IBC is forcing promoters to come forward for amicable solutions.

- There is an increasing urgency being shown by Government and Regulators to clean up the books of Banks. In almost all policy initiatives ARCs are recognised as important stakeholders for this purpose.
- Banks in the past have been keen to sell large NPAs to ARCs on cash basis to expedite their Recovery Plans
- JMFARC is actively evaluating opportunities arising out of companies undergoing CIRP under IBC-NCLT. The code also allows ARCs to submit a resolution plan acting as a stronger tool for ARCs to deal with NPA situation.
- A number of Funds/Foreign Investors are keen to co-invest and collaborate with JMFARC which would facilitate participating in larger deals and appropriate risk sharing. We have also closed few deals with investors for our existing portfolio.
