## Way Forward

## Way Forward

- Expecting the consumer sentiments to remain modest due to rising inflation and low weddings in Q3
- However, we expect the sentiments to improve towards the end of Q3 led by wedding season in $1^{\text {st }}$ half of CY19
- For Q3, we are expecting high single digit revenue growth and EBITDA margin improvement by 100 bps over previous year
- Store rollout plan in line with our strategy of asset light expansion, with majority of new stores based on franchise model
