Earnings Presentation

DISCLAIMER

This presentation may contain statements which reflect the management's current views and estimates and could be construed as forward looking statements.

The future involves certain risks and uncertainties that could cause actual results to differ materially from the current views being expressed.

Potential risks and uncertainties include such factors as general economic conditions, foreign exchange fluctuations, competitive product and pricing pressures and regulatory developments.

- > In the current quarter, the demand conditions remained soft with inflation impacting consumption
- Recent softening of commodity costs, good monsoon and increased construction activity augurs well for the future
- > Going forward we remain cautiously optimistic on improving demand conditions
- We continue to invest in our brands, supply chain, digital infrastructure, and distribution to deliver consistent and volume led profitable growth.

PERFORMANCE OVERVIEW

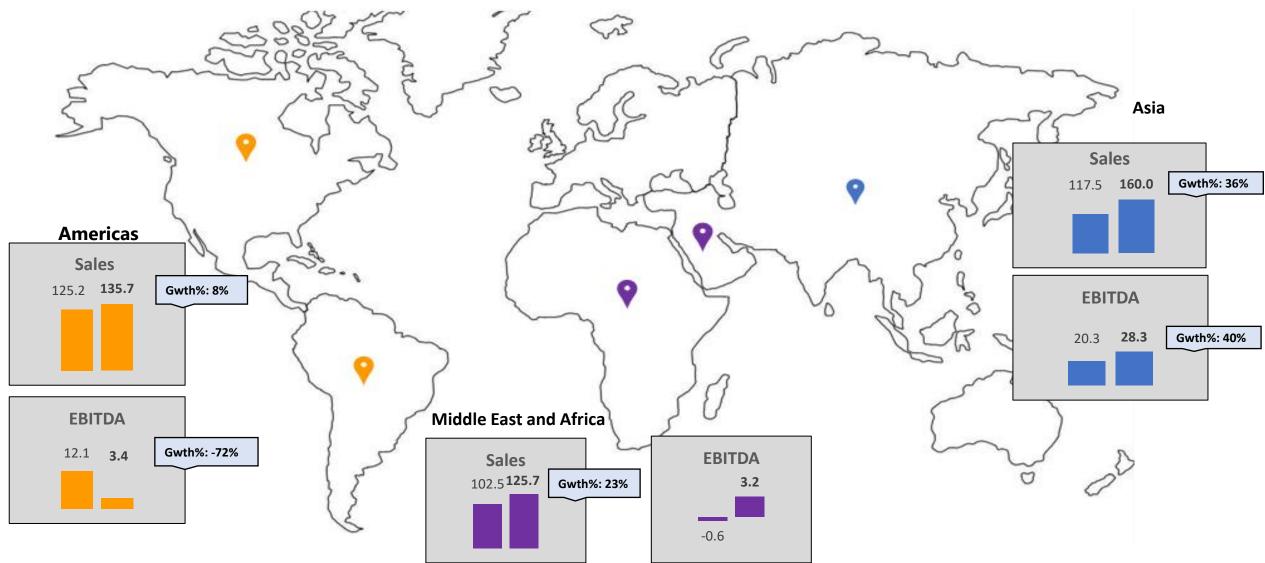

- > First half registered robust sales growth aided by strong volume growth across categories and geographies.
- Growth was broad based across C&B and B2B segments with both segments reporting double digit volume growth, enabled by distribution expansion, innovation, responsive supply chain and digital initiatives.
- The revenue growth in Q2 FY23 of 15% was largely led by pricing and mix; Urban market grew faster than Rural region.
- Margins continue to be impacted owing to raw material inflation, weaker currency and high-priced inventory. Mat Cost as a % to Net Sale is higher by 436 bps YOY and 74 bps sequentially.
- > Control in costs below gross margin enabled to maintain EBITDA margin at the same level of previous quarters.
- International Subsidiaries witnessed good sales growth, but EBITDA remained under pressure due to higher input costs.
- Domestic subsidiaries maintained positive momentum with C&B subsidiaries continuing to deliver industry leading growth and margins whilst B2B subsidiaries reduced losses significantly.
