Chairman's Message

Dear Shareholders,

Over the last three years since 2015-16, NFL has tried to reinvent itself in terms of its priorities with twin objective of helping the farmers getting all products and services under one roof and creating increased value for our shareholders with these efforts.

During a Corporate Introspection in the year 2015, it was realised that to thrive, even to survive, company must be able to rapidly transform itself or to be contended with a linear growth with its traditional approach. Accordingly, the business priorities were carefully chosen and executed through a combination of core renewals. As a result of this paradigm shift, your company successfully increased its non-urea business from 1 % in 2014-15 to 15 % in 2017-18 with an expanded product line which includes Urea, DAP, MoP, NPK, APS, Bentonite Sulphur, Compost, Bio Fertilizers, Seeds and Agro Chemicals besides increased sale of various types of Industrial products.

Your Company performed commendably against the backdrop of a challenging fertilizer industry scenario. The primary fertilizers sale in country saw a growth of around 2% in 2017-18, due to low systemic inventory maintained by the fertilizer companies in view of pan-India implementation of Direct Benefit Transfer (DBT). The overall sales for Urea and Non-urea fertilizers have grown at a rate of 2%, after a 7% decline witnessed in 2016-17. With nationwide implementation of Direct Benefit Transfer (DBT), the working capital cycle of the industry was also disturbed due to the shift

in subsidy payment from point of dispatch to point of sale to farmers. The build-up of input tax credits under GST also lead to increase in working capital requirement of the industry owing to different rate of taxation on fertilizers and taxation on inputs. The innovative effort of the Government to pack the urea in 45 Kg. bag in place of earlier 50 Kg. bag in the light of increased effectiveness of Neem Coated Urea is likely to bring down urea consumption. The consumption of organic fertilizers like compost will take off with inclination of the Government to promote its use.

Though the year gone by was marked by challenges on several fronts, your company has maintained its best-ever performance even in 2017-18, the third successive year in a row. The company recorded its best-ever production by prilling more than 38 Lakh MT Urea with 118% capacity utilization. Other than best production, your company crossed 43 Lakh MT fertilizer sale figure for the first time this year.

To increase its market share in fertilizers with the aim of strengthening top and bottom line, your company imported significant volume of fertilizers like DAP, MoP, NPK, APS, Bentonite Sulphur to the tune of 4.59 Lakh MT, an increase of more than 100% over the previous year. Your company also imported 4.01 Lakh MT of urea on Govt. account during 2017-18. With the starting of own production of Bentonite Sulphur plant at our Panipat Unit, your company has added another product in its basket in 2017-18. These efforts finally paid off as growth in the overall business was well supported by the robust growth witnessed in the new segments and your company recorded its best-ever turnover of Rs. 8,928 crore in

2017-18, an increase of 16.8% over the previous year.

Riding on the highest-ever sale of urea and traded fertilizers, your company witnessed improved profitability and PBT went up to Rs. 335 crore in 2017-18, the best-ever in last fifteen years. This is after keeping the provisions of Rs. 246 crore for pay revision and increase in the gratuity ceiling. The non-urea segment has significantly helped the company in increasing the profitability as the income from this segment has risen tenfold from just 1.5% in 2014-15 to 15 % in 2017-18.

Your company is focusing on segments other than fertilizers considering them as future growth catalysts. The Company is scaling up its seed production under Seed Multiplication Programme (SMP) to provide certified quality seeds to farmers under its brand name. The company has increased its seed sowing area tenfold to 2100 hectares in 2017-18 from 198 hectares in 2015-16. The company has also developed a 16 acre dedicated R&D farm at Nangal Unit which exclusively produces best quality foundation seeds from breeder seeds by ensuring best isolation techniques to avoid any varietal impurities. Your company also sees potential in its Agro chemicals Business as sale of Rs. 10 crore was recorded in this segment in 2017-18 against Rs. 50 Lakh in 2016-17.

Our strategy is to maintain our strengths in Urea production and marketing while growing the Imports and Agri Business. We are investing in some of the projects for growth and sustainability. To meet the strict energy norms applicable from 2020-21, your company is already in the process of implementing energy saving schemes at all its plants with a total investment of Rs. 1000 crore.

As you are aware, your company is setting up a new urea plant at Ramagundam through a JV Company, RFCL. The unique feature of this project is that it is being set up with the lowest project cost in the country for similar capacity. The project has picked up pace and hectic construction activities are going on. Though there would be delay of few months due to delay in procurement of few critical equipments and a major delay in commissioning of gas pipeline. Your company has, however, started strengthening its marketing network in southern states with an objective to prepare itself to market

Ramagundam urea. Your company is also extending its HR expertise to RFCL by supplying experienced technical manpower from NFL in addition to recruitment and training of fresh manpower of RFCL under a Manpower Management Agreement, which will also generate revenue for the company in next five years for these services. Your company is also earning revenue by leveraging its HRD infrastructure in plants for long term technical training to the manpower of leading fertilizer companies from outside India. To bring improvement and transparency in various business processes, your company is implementing ERP based Integrated Software Solution.

Your company is also re-aligning its working and priorities to achieve rapid socio-economic transformation of the country in line with the Country's "Vision 2022". The company has undertaken an elaborate exercise for redefining its role and functioning and has finalized an action plan for the same. Your Company is aspiring to be amongst Top 100 Companies of India by the year 2022 based on its growth projections.

In this eventful journey of your company in the midst of volatile business environment, I express my gratitude for your continued support and unshaken faith in our endeavours.

I would like to place on record my sincere appreciation to the Board of Directors for their guidance. I would also take the opportunity to acknowledge the support of Deptt. of Fertilizers, Statutory Authorities, Vendors and other stakeholders for their invaluable contribution in shaping the growth of your company.

I would also like to thank all my colleagues in company for their unflinching dedication, commitment and contribution to take NFL forward. The team strived tirelessly to deliver the best-ever results for three years in a row.

With the confidence reposed by all of you, we are looking forward to continue on our vision in a manner that develops trust and enhances the long term value for all stakeholders.

With best regards,

Sincerely,

Board's Report

To,

Dear Members,

On behalf of the Board of Directors of your Company, I have the pleasure in presenting the 44th Annual Report on the business and operations of the Company together with the Audited Financial Statements including Consolidated Audited Financial Statements of the Company for the Financial Year 2017-18 and the Auditors' Reports and comments on the accounts by the Comptroller & Auditor General of India (C&AG).

During the year 2017-18, Company achieved a turnover of ₹ 8928.29 crore as against ₹ 7643.36 crore achieved during the previous year. The turnover was higher by ₹ 1284.93 crore mainly due to higher sale of urea (by 1.58 LMT) and traded fertilizers (by 1.73 LMT) and rise in gas prices by 20.15%. Company has achieved Profit Before Tax of ₹ 334.83 crore as compared to ₹ 324.88 crore of the previous year.

Energy consumption at all units was within energy norms fixed by GOI under New Urea Policy 2015. Nangal, Panipat and Bathinda Units achieved ever lowest energy consumption during 2017-18.

The energy consumption per MT of Urea at NFL plants during 2017-18 was as follows :

Gcal/MT/Urea

Units	Pre-set Norms (w.e.f. 01.06.2015)	Actual Energy	
		2017-18	2016-17
Nangal	7.095	6.819	7.012
Panipat	7.614	6.761	7.112
Bathinda	7.479	6.859	6.924
Vijaipur I	5.904	5.753	5.784
Vijaipur II	5.569	5.372	5.364

Agriculture Extension Activities

Agriculture is the main source of livelihood for the farmers, which include crops, animals and allied activities. Agriculture Extension Activities are being undertaken by your Company by educating farmers on efficient use of all agro-inputs along with total know-how on improved and scientific methods of cultivation.

Dealers/Retailers are important link between the Company and the farmers. They are key change agents in motivating farmers to use fertilizers in a balanced manner. During the year 2017-18, 58 Dealer's/Retailer's Orientation Programmes were conducted and more than 5000 dealers/retailers were facilitated by upgrading their knowledge regarding fertilizer/agro products and improved crop practices so that latest information can be disseminated to farmers at point of purchase. Information on Bio-fertilizers and City Compost has also been given in each and every training programme.

Your Company has always laid emphasis on upliftment of farming community by educating them on various aspects of crop production, animal husbandry and other allied agriculture sectors. 57 Farmer Training programmes were organized during 2017-18 and more than 3500 farmers got benefited. Through these educational programmes, farmers were sensitized to issues related to soil fertility status including deficiency of various nutrients, their remedy to increase fertilizer use efficiency and maximize yields. The farmers have also been educated on benefits of long term usage of Bio-fertilizers and City Compost through these programmes.

Agriculture Universities, Research Stations, Krishi Vigyan Kendras (KVKs) are the knowledge centers for latest farming techniques, new and high yielding crop varieties, innovative technologies in agriculture and allied agriculture sectors etc. During the year, an opportunity was given to the farmers to practically visit the above places by organizing farmers visit to nearby Agriculture University/Research Station/ KVK. More than 500 farmers got benefitted through 8 programmes during the year 2017-18.

During the year, 2017-18, 89 and 85 demonstrations had been laid out at farmers' fields to demonstrate long term benefits of use of Bio-fertilizers and City Compost, respectively on crop growth and yield as compared to farmer's own practices. The demonstrations are being continued on the same locations and the same pattern during the year 2018-19 so that long term benefits of use of Bio-fertilizers and City Compost can be shown to the farmers.

Your Company is playing a vital role in supporting farmers by undertaking soil analysis for macro and micro nutrients through its 6 Static and 4 Mobile Soil Testing Labs (MSTLs) in various states. Based on the analysis, farmers are advised on soil fertility management through rational use of manure, fertilizers and other inputs to make agriculture more productive and sustainable. During the year, more than 26,000 soil samples were collected analyzed for macro and micro nutrients and recommendations were given to the farmers. To strengthen the soil testing services, Company has plans to purchase 05 new Mobile Soil Testing Labs for the States of UP, MP, Haryana and Telangana.

During the year 2017-18, your Company continued its endeavour to render soil testing services at the farmers' doorstep by organizing soil testing campaigns. During these campaigns, services of our Mobile Soil Testing Vans and laboratory staff were suitably utilized for collecting soil samples by demonstrating the correct method of sampling to the farmers and by offering on the spot soil analysis and advisory on the basis of soil test results. 26 such campaigns were organized in the States of Punjab, Haryana, Rajasthan, HP, J&K, UP, Bihar and Jharkhand and more than 19000 farmers got benefitted by these programmes.

Agricultural Exhibitions and Krishi Melas aim to bring stake holders from all disciplines of Agriculture like farming, livestock, dairy, import and export, poultry and horticulture sectors under one roof and provide opportunity to demonstrate their products, exchange their views and share ideas for the growth, sustainability and development of these vital sectors of our economy. Participation in agro exhibitions and University Kisan Melas is a very effective way to communicate directly with the farmers and also to interact with the scientists and experts from various agricultural fields. During the year 2017-18, your Company participated in 36 Krishi Melas/Agriculture Exhibitions organized by leading Agriculture Universities, Agriculture Departments etc. in the States of Punjab, Haryana, UP, Uttarakhand, Bihar, MP, Rajasthan and J&K.

As per guidelines of Department of Fertilizers (DoF) and with the objective to provide all the agricultural inputs and services to the farmers under one roof along with soil testing and advisory services, 100 Kisan Suvidha Kendras (KSKs) were opened by your Company all across its marketing territory. Through these KSKs more than 10 thousand soil samples were collected, analyzed through Company's Static and Mobile Soil Testing Labs and reports were given to the farmers. More than 80000 leaflets on NFL products and various crops were also distributed to farmers through programmes organized in these KSKs.

Recently as per DoF's directive, company has procured POS (Point of Sale) machines for retailers & successfully deployed them. Several training programmes for retailers were organized in association with state agriculture departments for implementing POS machines and for starting system of retail sale to farmers through AADHAR authentication on these POS machines. This has brought fertilizer retailers & farmer community on the digital platform. This initiative would certainly facilitate Government's vision of DBT (Direct benefit transfer) to farmer.

In order to achieve the vision of Digital India / Digital Payments India, a series of training programme were organized throughout various Units/Offices of the company to familiarize and educate the employees, contract workers etc. with the concept of digital payments and demonstration were also given on usage of various payment apps and wallets. In addition, company has also encouraged digital payments at various shops in its townships and has undertaken steps to ensure that POS is installed in the shops, guest house & hospital of townships. At the company level all payments are being released / received through digital means. The company had already adopted e-procurement and e-tendering for procurement process. The company has also taken initiatives in inculcating e-payments in tendering procedures.

NFL had also implemented e-meetings software for paperless board meetings & Audit committee meetings whereby board agendas & relevant information is available to board of directors on their portable devices in digital form.

Company has state of the art Video Conferencing at all its Plants, Zonal Offices & Corporate Office. In order to have optimum utilization of WAN links & Internet leased lines, Link Load balancers are provided at all locations of the company. In order to mitigate cyber threats, intrusion prevention & ransom ware attacks UTM based security appliances are installed. Company has also revamped its data centre to provide multiple redundancies to maximize uptime of business applications.

Management Discussion and Analysis (MDA)

State of Indian Economy, Agriculture and Manufacturing Sector

The Indian economy is gaining momentum after necessary steps taken by the Indian government like NPA resolution, banks recapitalization, and push towards affordable housing and inducing funds for enhancing the income of farmers to address the problem of rural distress. A number of reforms undertaken by current government recently like implementation of GST, bankruptcy & insolvency code etc. towards ease of doing business is also helping to attract foreign investment in the country. However, rising oil prices is of a concern as it may create inflationary pressure in the economy and also widen trade deficit.

As per Asian Development Bank (ADB), India's economic growth is likely to pick up to 7.3 per cent during 2018-19 on the back of improved rural consumption and a modest rise in private investment while the debilitating effects of demonetization and Goods and Services Tax (GST) implementation dissipate. As per credit rating agency CRISIL also, after two sub-par years, interjected by demonetization and rollout of goods and services tax (GST), growth is seen recuperating to a respectable 7.5 per cent next fiscal.

Union Budget for 2018-19 was also focused primarily on turning around the rural distress through diversification of farm activity to areas like floriculture, animal husbandry, fisheries and dairy farming and insulating farm income from crop price fluctuations to some extent.

Fertilizer Industry Structure & Developments

Fertilizer industry in India operates in public, private and co-operative sector, with the private sector occupying a larger share in the manufacturing capacity. Fertilizers sector being highly energy & capital intensive, cost of fertilizers is unavoidably high. In order to ensure availability of fertilizers to the majority of the small & marginal farmers at affordable prices, this sector is highly regulated and controlled by Gol for pricing and distribution of fertilizers. At present, Urea prices are highly subsidized and administered under New Urea policy-2015 whereas P & K Fertilizers are partially decontrolled and subsidy is disbursed based on the nutrient content available in the particular fertilizer under Nutrient Based Subsidy introduced by Gol w.e.f. 01-04-2010.

In case of Urea, MRP is fixed by Gol which is currently fixed at ₹ 5360 per MT which is around one third of the current cost of production / imported price.

Apart from domestic production, Gol is also importing Urea through three canalizing agencies viz. MMTC, STC and M/s IPL while import of DAP, MoP and other complex Fertilizers is de-canalized. During 2017-18, NFL & RCF were also allowed to import Urea in government account for a period of three months.

The country, during the year has produced Urea production of 24.0 Million tons and imported 6.0 million tons to meet the total consumption of 30 million tons of Urea in the country. Under vision 2022 of New India, all out efforts are being made to revive the closed Urea plants in the country in a time bound manner to make the country self-reliant in Urea by 2022.

The introduction of pooling of gas mechanism in the year 2015-16 has been consistently helping ensuring delivery of gas at uniform and lower price to Fertilizer companies to enable them to make Urea production beyond re-assessed capacity and helping to contain the requirement of working capital to some extent.

The availability position of Urea in the market remained quite comfortable and probably no shortage of Urea was felt by the farmers during last three years in a row. With an aim to cut down the consumption of Urea, Gol has recently introduced a policy on rationalizing the size of the Urea bags and introduced 45 kg bag of Urea replacing existing 50 kg bag from 1st May 2018.

The government has rolled out DBT system for fertilizer subsidy across all states w.e.f. 1.3.2018. Under the fertilizer DBT system, 100% subsidy on various fertilizer grades is being released to the fertilizer companies, on the basis of actual sales made by the retailers to the beneficiaries. This would ensure timely and adequate supply of fertilizers to the farmers, reduce leakage and also reduce the government's subsidy burden, releasing resources to plough back into agriculture in a way that can help a greater number of poor farmers. Under DBT scheme, subsidy on Fertilizers would be transferred directly to the manufacturers on sale of fertilizers through Point of Sale Machines at retailers' level.

The imbalanced use of fertilizers due to highly subsidized Urea continues to be a big challenge in the country and needs to be addressed on priority. On this front, Gol has been distributing Soil health cards to all the farmers to enable them to get information about nutrients level in the soil to make judicious use of fertilizers through soil and seed testing facilities at retail outlets of fertilizer companies. Fertilizer companies have been marketing city compost and organizing awareness programs for the farmers to boost the use of city compost to improve soil quality and increase yield of crop in line with a policy of the government on city compost under the Swachh Bharat Abhiyan.

Many challenges being faced by Fertilizer Industry which need to be addressed include delay in payment of subsidy due to inadequate subsidy budget of the Gol for Fertilizers, over regulations and procedural delays, unviable investment by Industry on energy saving schemes to meet the stiff energy norms fixed under New Urea Policy (NUP-2015) without any dispensation from Gol, Implementation of DBT which may further

aggravate the problem of working capital due to change of subsidy payment from supply to sale. Lack of availability of domestic gas, increasing trend in the price of RLNG and lower price of Urea in international market is also adversely impacting the profitability of the Urea manufactures.

The fertilizer industry is highly vulnerable to the adverse climatic conditions as year 2015-16 had witnessed deficient rainfall during two consecutive seasons which badly impacted the fertilizer industry during 2016-17 due to carrying forward of higher inventory of fertilizers and selling expenses. However, Rainfall during 2017-18 remained normal and also expected to be normal during 2018-19 according to the meteorological predictions.

As a result of the above challenges, further investment in the sector is not coming up especially from private companies despite Government's "Make in India" initiative. Bringing Urea in to NBS policy regime and de-canalization of import of Urea could be some positive steps in this direction.

Opportunities & Threats

Opportunities

- ✓ Leverage of existing marketing network for undertaking trading and other businesses.
- ✓ Opportunity for New Investments abroad in NPK.
- ✓ Scaling up of production & sale of certified seeds.
- ✓ Scope for Increase in capacity utilization of Nitric Acid & Ammonium Nitrate Plants at Nangal.
- ✓ Manufacturing of Customized, Fortified, Water Soluble & Liquid Fertilizers for balanced fertilization.
- ✓ Manufacturing of Agro Chemicals.
- ✓ Marketing of Urea produced by RFCL/ HURL.
- ✓ Manufacturing Di-Nitrogen Tetroxide for ISRO.

Threats

- ✓ Lower international price of Urea restricting additional production.
- ✓ Inadequate subsidy budget of the Government.
- ✓ Increased Government regulations & procedures.
- ✓ Strict energy norms w.e.f. 2020-21 under NUP-2015.
- ✓ Inadequate availability of domestic natural gas.
- ✓ Adverse demand supply scenario of Fertilizers due to adverse agro Climatic condition.
- ✓ Volatility in prices of Industrial Products.
- ✓ Decontrol of Urea.

Segment wise or product wise performance

Urea

The Company has achieved the **ever highest Urea production of 3810250 MT** with an overall capacity utilization of 117.9% during 2017-18 against previous best production of 3810054 MT achieved during 2016-17 (CPLY).

On the sales front, the company has achieved ever best sale of Fertilizers of **43.09 Lakh MT** which includes sale of 39.16 LMT of Urea, 3.82 LMT of imported Fertilizers & 0.11 LMT of Compost surpassing previous best of 39.78 LMT during 2016-17 which includes sale of 37.58 LMT of Urea, 2.17 LMT of imported Fertilizers & 0.03 LMT of Compost.

Industrial Products

During 2017-18, the company exhibited ever best sales performance of Industrial Products (IP) comprising of Nitric Acid, Ammonium Nitrate, Sodium Nitrate and Sodium Nitrite & Technical Surplus Ammonia. The company registered a record sale of Nitric Acid of 69403 MT during 2017-18 surpassing previous best of 67949 MT during 2016-17. The company also recorded ever best production of Ammonium Nitrate to the tune of 11299 MT over the last five years surpassing 8989 MT during 2016-17.

In terms of revenue generation from production and sale of Industrial products, the company achieved sale of Industrial Products (IP) comprising of Nitric Acid, Sodium Nitrate & Sodium Nitrite etc. & Technical surplus Ammonia to the tune of ₹164 crore against CPLY of ₹188 crore. Sale value was lower due to lower price realization from sale of Nitric Acid due to availability of imported Nitric Acid at cheaper rates.

Bio-fertilizers

The company sold 496 MT of Bio-Fertilizers (Solid & Liquid) to the tune of ₹1.43 crore as against 545 MT of ₹ 2.39 crore during CPLY.

Import & sale of Fertilizers

There has been a growth of over 76% in fertilizers import business of the company during 2017-18. The company sold 3.82 LMT of imported fertilizers including DAP, MoP, APS and Complex (NPK) worth ₹1102 crore during 2017-18 as against 2.17 LMT of imported fertilizers worth ₹ 659 crore during 2016-17.

Apart from the above, NFL also imported 4.01 LMT of Urea in government account from Iran during 2017-18 as State Trading Enterprise (STE).

Domestic Trading of Agro Products

The company has registered a total revenue of ₹ 26.92 crore towards trading of various agro products such as seeds, pesticides & compost during the year against ₹ 16.51 crore during CPLY.

Sale Composition

Item	% of total revenue		% Increase / (Decrease)
	2017-18	2016-17	
Urea	85	88	(3.41)
Non-Urea	15	12	25

Owing to shift in strategy of the company, the composition of gross sale of the company has undergone visible change. Against the Urea (main product) contribution of 95% in the overall revenue of the company during 2015-16, Urea contribution has reduced to 85% while contribution of non-Urea business has increased to 15% during 2017-18.

Projects completed / underway

Revival of Ramagundam Plant of FCIL through Joint Venture with EIL & FCIL

NFL, in association with EIL and FCIL have formed a Joint Venture (JV) Company as Ramagundam Fertilizers & Chemicals Limited (RFCL) to revive the old FCIL plant at Ramagundam with annual installed capacity of 12.71 LMT of Urea and with a total estimated project cost of ₹ 5254 crore. The foundation stone laying ceremony of the Ramagundam Plant was held on 07.08.2016 through the hands of Hon'ble Prime Minister.

JV Company was formed with initial equity participation of 26% each of NFL and EIL and 11% of FCIL. Later on Government of Telangana was inducted for 11% equity. For remaining untied equity portion, process of inducting HTAS consortium for equity participation of 11.7% and GAIL for 14.3% is under finalization by RFCL.

NFL and RFCL has entered into Manpower Management Consultancy (MMC) agreement on 24th November 2017. As per agreement, recruitment of manpower for RFCL (fresh as well as experienced) is under progress by NFL. As and when required, experienced employees of NFL are being deployed in RFCL on secondment basis. In addition to this, NFL shall be leveraging its existing marketing network to sell 100% Urea to be produced by this JV Company. The project is expected to be completed by June 2019. Construction work at the project site is in advance stage of completion.

Bentonite Sulphur Plant at Panipat Unit

In order to meet the demand of Bentonite Sulphur to address the issue of Sulphur deficiency in soil and to improve the top & bottom line, company has commissioned a Bentonite Sulphur plant of 25000 MTPA Capacity in December 2017 at Panipat Unit. After commissioning, 718 MT of Bentonite Sulphur was produced during 2017-18, out of that 254 MT dispatched & sold.

Muriate of Potash plant in Little Rann of Kutch

In spite of best effort, the company could not collect the mixed salt raw material of desired specifications and therefore further action on production of MoP through pilot plant of M/s. CSMCRI, Bhavnagar could not be taken up and therefore this project had to be shelved by the company.

Setting-up of Di-Nitrogen Tetroxide (N₂O₄) Production Plant on Build-Own-Operate-Supply (BOOS) model for supply to M/s ISRO

In a tendering process by Indian Space Research Organization (ISRO) for establishing the Di-Nitrogen Tetroxide Production Plant (NPP) for supply of the product to them, NFL had emerged as L1 bidder. After receipt of Letter of Intent (LOI) from ISRO, a Memorandum of Understanding (MOU) was signed between NFL and ISRO on 04.05.2017.

Subsequently, three day deliberations were held at NFL CO Noida in May 2017 to finalize the terms of Tri-Partite Agreement (TPA) wherein officials from NFL, ISRO and M/s. ROSOBORONEXPORT Russia (Technology provider) participated. Certain commercial issues remained

un-settled in the meeting. Further, to finalize and conclude the TPA, a joint Team of NFL, ISRO and Department of Space (DOS) visited Russia in 1st week of April, 2018. Most of the pending issues have been settled during the deliberations. However, in view of the limitations in financing channel, ISRO/DOS has been requested to explore alternate technology provider.

Integrated Energy Saving Projects

The stringent energy norms which were to be implemented w.e.f. 01.04.2018 under New Urea Policy-2015 have been extended for further period of 2 years i.e. till 31st March 2020 with a penalty of 2% & 5% for financial years 2018-19 and 2019-20 respectively. The penalty is equivalent to percentage energy difference between existing NUP Energy norms and Target Energy norms of NUP-2015.

To meet revised energy norms at Panipat, Bathinda & Nangal, work has been awarded on 01.02.2018 to M/s Thermax for installation of GTG-HRSG. The total revised project cost has been worked out as ₹ 674.56 crore against estimated project capital cost of ₹ 696.74 crore. The above shall bring down the energy consumption of Urea to less than 6.4 Gcal/MT of Urea. Zero date of project is 01.02.2018 and projects are scheduled to be completed by 30.11.2019.

However, Gol has been requested for retention of existing NUP norms in respect of Panipat, Bathinda and Nangal Units for a period of at least 5 years post implementation of the project to recover the investment.

To meet revised energy norms at Vijaipur-I, following schemes are being implemented to bring down the energy consumption by 0.20 Gcal/MT Urea at an estimated cost of ₹ 158.83 crore.

1. Revamp of Synthesis gas Compressor and turbine of Ammonia –I plant
2. Switchover from Process condensate stripping process from low pressure to medium Pressure in Ammonia-I

Future Projects

Setting-up of DAP / NPK plant through JV route at Bathinda

In order to widen its products portfolio and to diversify from Urea manufacturing, NFL intends to set-up a DAP / NPK plant of 1250 MTPD capacity at Bathinda in collaboration with HMEL. HMEL is a joint venture company of HPCL and Mittal Energy Limited, having 48.8% stake each along with 2.4% stake by Financial Institutions. Before going further on the project, for feasibility study of the project, PDIL has been selected for preparation of Techno-Economic Feasibility Report. Based on the feasibility report of PDIL, future action shall be planned.

Industrial Safety, Ecology & Pollution Control

Company strives to achieve excellence in improving employees occupational and personal health by minimizing health hazards and providing model facilities. Company has well equipped hospitals at all the Units. In addition to that the employees have also access to specialized medical services wherever required. Employees also undergo periodic medical examinations.

Company remained focused towards achieving sustained energy efficiency operations of its ageing manufacturing facilities while maintaining pollution free environment and process safety. All manufacturing units continue to be ISO 9001-2008, ISO 14001-2004 and OHSAS-18001 compliant which reflects company's commitment to Quality, Environment and Occupational Health and Safety.

In order to monitor the level of emission and effluent discharge from all the units, all the units have installed on-line monitoring system both for effluent and emission discharges. Online monitoring system is integrated with Central and State Pollution Control Boards in order to monitor the level of pollutants on continuous and real time basis.

Unit level Health and Safety Committees have been constituted at all the Units to address health and safety issues. Quarterly review meetings are conducted regularly at all Units. Modern methods and latest technologies such as 'International Sustainable Rating System', 'Total Quality Management' and 'Hazard and Operability Study', (HAZOP) were implemented in various units to improve the process safety.

To safeguard the plants from emergencies like Fire, Explosion and Toxic gas release, "On site Emergency Disaster Plan" and "Off-site Emergency plan" are available at Units. These plans aim to train people act efficiently and confidently in emergency with minimum damage to humans and assets. The procedures are regularly reviewed and updated by carrying out surprise mock drills. Performance of each mock drill is evaluated and reviewed to bring improvements in the systems. Visits of Local Authorities and central agencies such as National Disaster Management Authority are regularly conducted in order to remain updated on safety related issues in all the plants. All the units are having their "Disaster Management Quick Response Team" to address the incidents that may occur outside the factory area for transportation of Liquid Ammonia and Chlorine Gas.

Efficiency of Coal fired Boilers at Nangal, Bathinda and Panipat Units is being improved by using various techniques such as use of coal additives. This will help to reduce consumption of fossil fuel.

Afforestation has been adopted in all the Units to improve the environment surrounding the Units. A total of about 20,000 tree saplings were planted in and around various Units leaving a cleaner and greener earth for future generation. The cumulative plantation since commencement is about 8 lakhs for all the units.

To increase the sub soil water level, all the units are under process of installation of Rain Water Harvesting system. During the year, 5 rain water harvesting systems were installed in Units. This would help in conservation of water, increase underground water table and also increase greenery in the surroundings.

Outlook

- ✓ Maximization of Urea production in energy efficient manner.
- ✓ Production of new products like Bentonite Sulphur, Agro Chemicals, DAP, Water soluble Fertilizer, Seeds etc.
- ✓ Production and sale of quality & certified seeds in own brand name through seeds multiplication program.
- ✓ Import and sale of Fertilizers like Urea, DAP, MoP and complex fertilizers.
- ✓ Domestic trading of Agro Products like Pesticides, Weedicides, Compost, Seeds etc.
- ✓ Maximization of production of Industrial Products including Ammonium Nitrate.
- ✓ Marketing of Ramagundam Urea.
- ✓ Manpower Management Consultancy for Ramagundam plant.
- ✓ Dividend from Ramagundam JV.
- ✓ Production of N₂O₄ for ISRO under BOOS model.
- ✓ Setting up a Fertilizer Plant abroad in a joint venture mode & under buy back arrangement
- ✓ Leasing out idle assets of the company.
- ✓ Rationalization of existing manpower and new recruitment of manpower to meet the short fall arising out of massive retirements and future growth of the company.

Risk & Concerns

The major risk & concerns of NFL are outlined below:

- ✓ Dependence on subsidy. Higher Interest cost due to delay in receipt of subsidy.
- ✓ Low operating margins in Urea due to tight regulations.
- ✓ Bathinda, Nangal and Panipat being old Plants consuming high energy.
- ✓ Dependence of Nangal Unit on external power.
- ✓ Poor coal quality.

Risk Management Policy

The chemical fertilizer industry is operated in a hazardous environment and faces many risks including those related to health, safety and environment in addition to general business & financial risks. In order to mitigate them, the company has a comprehensive Risk Management Policy which is regularly reviewed and a periodical review of the risks, procedures and strategies is undertaken. Risks are analyzed at the highest level by a Board level Audit Committee and efforts are made in a planned way to obviate the risks either fully or to minimize their impact.

Internal Control Systems and their adequacy

The Company has a sound and effective system of internal controls that ensures compliance with statutory requirements, regulations and implementation of various policies and guidelines. The Company has a well-defined Delegation of Powers in place, which lays down the powers for different managerial levels to facilitate faster decision making. The various policies, procedures and guidelines are continuously reviewed to improve effectiveness of the systems.

The Company has a full-fledged Vigilance Division to oversee that the guidelines of the Government and the rules/procedures of the company are strictly adhered/ implemented in all matters. The Vigilance Division conducts regular inspection of various activities in Manufacturing Units, Zonal Offices and other Offices for taking corrective/preventive action.

Financial Performance

During the year, Company achieved turnover of ₹ 8928.29 crore (including subsidy of ₹ 5934.55 crore) compared to ₹ 7643.36 crore of the CPLY (including subsidy of ₹ 4958.15 crore). Sales turnover is mainly higher due to higher sale quantity of Urea by 1.58 lakh MT, traded Fertilizer by 1.73 lakh MT and increase in average gas price to USD 9.66/MMBTU during the FY 2017-18 as compared to USD 8.04/MMBTU during CPLY i.e. increase of 20.15%.

Company earned profit before tax of ₹ 334.83 crore (CPLY ₹ 324.88 crore) and profit after tax of ₹ 212.77 crore (CPLY ₹ 208.16 crore). The increase in profit is mainly attributed to increase in contribution from Urea due to higher sale of Urea beyond re-assessed capacity, increase in profit from traded goods, increase in contribution from Industrial products, saving in energy consumption, decrease in depreciation charges etc. There has been an adverse impact on the profitability of the company during the year mainly due to increase in salary wages mainly due to provision for pay revision and provision for actual liability for EL/HPL.

The short-term borrowings of the company as at 31st March, 2018, stood at ₹ 2890.43 crore including cash credit utilization, short-term loans, working capital demand loan etc. (₹ 3153.73 crore as at 31st March, 2017). The short-term borrowings are lower as compared to CPLY due to better realization of subsidy as compared to CPLY and decrease in working capital requirement.

Analysis of the Financial Performance of the Company:

Section E:

Principle-wise Performance

Principle 1: (Practicing Good Corporate Governance) :

The company is committed to the adoption of best practices in the area of Corporate Governance and believes that good corporate governance is much more than complying with legal and regulatory requirements. Good governance facilitates effective management and enables company to maintain a high level of transparency and business ethics as well as to maximize the value for all its stakeholders.

The NFL's objectives in this principle can be summarized as:

- ✓ To ensure ethical conduct at all levels across its value chain
- ✓ To protect and enhance shareholder's value.
- ✓ To protect the interest of all other stakeholders such as customers, employees and society at large
- ✓ To ensure transparency and integrity in communication and to make available full, accurate and clear information to all concerned.
- ✓ To ensure accountability for performance and customer service and to achieve excellence at all levels.
- ✓ Empower employees coupled with accountability at all the levels to ensure better performance and effective corporate governance

The company has laid down a well-defined Code of Conduct for its Directors on the company's Board and its Core Management. This Code of Conduct attempts to set forth the guiding principles on which the company operates and conducts its daily business with its stakeholders, government and regulatory agencies and anyone else with whom it is connected. To get further details, the code can be easily accessed at the company's website. The company has also set in place various policies, with due approval from its Board encompassing the entire gamut of its performance and operations. The company's Business Responsibility Policy also covers aspects related to ethics, bribery and corruption.

Principle 2: Product Lifecycle Sustainability (Safety & Sustainability of Goods & Services)

The ultimate goal of sustainability in this context is a closed-loop product lifecycle, in which all elements that go into production of a product are reused, recycled or remanufactured rather than discarded.

The company has been manufacturing and marketing Urea and other allied products in a responsible manner for decades and established consistent commitment to productive economic activity and sustainability.

In line with the objectives to achieve safer & sustainable operations, the company has undertaken / implemented the following measures / schemes for achieving the above objectives:

- a) All the plants of NFL are certified under ISO-9001, ISO-14001 and OHSAS-18001 for compliance and maintenance of quality, environment and occupational health and safety management respectively which ensure that all the goods and services procured, manufactured and delivered by NFL comply with the principles of labour practices, human rights, ethics, occupational health, safety and environment.
- b) The company has revamped old energy intensive Fuel Oil based plants located at Panipat, Bathinda & Nangal for feedstock changeover from Fuel Oil to environmental friendly fuel i.e. natural gas during 2012-13 & 2013-14. This has resulted in significant reduction in energy consumption and carbon footprints. Boilers at these plants were also modified for change of support fuel from Fuel Oil to Natural gas.
- c) Carbon Di-oxide Recovery (CDR) plant established at Vijaipur Unit for recovery of CO₂ gas from flue stack leading to higher Urea production and lower carbon footprints.
- d) Purge Gas recovery System installed at Vijaipur-II to reduce possible NO_x emissions during 2015-16.
- e) NO_x emissions (gaseous effluent) from Nitric Acid plant at Nangal Unit being converted in to saleable products viz. Sodium Nitrate & Sodium Nitrite.
- f) 100% Neem Coated Urea under production since 2015-16 which is contributing to the improvement in overall Urea use efficiency in the country.
- g) Roof Solar Power plants of 100 KW set up at its Corporate Office, Noida and Bathinda Unit.
- h) All the Manufacturing Units have state of the art effluent treatment plants for treatment of solid, liquid and gaseous effluents. The treated liquid effluent is being recycled / reused for the horticulture purpose in the township.
- i) Vermi compost being produced at Nangal and Vijaipur Units using township waste for captive consumption. Production & Sale of Vermi compost on commercial basis from Nangal Unit is also been explored.
- j) Replaced large size energy intensive motors with state-of-the-art new machines including variable frequency drives to reduce unproductive energy consumption.

- k) Replacing conventional lights (Florescent Tube Lights) with LED lights at Plants / Offices. The company is expected to replace 100% conventional lights with LEDs by 2018-19.
- l) Apart from the above, the company has also lined up LSTK contract for setting up Gas Turbine Generators (GTGs) with Heat Recovery Units (HRUs) at its three plants at Panipat, Bathinda & Nangal in order to save energy consumption and carbon footprints.
- m) Promoting balanced use of fertilizers through training to the farmers and dealers and arranging soil testing / soil health cards to the farmers to check deterioration of soil quality.
- n) Promoting use of compost to improve soil quality and crop yield.

Principle 3: Employee Well Being

NFL believes that workforce is the greatest asset that propels the growth engine. Employees are considered as "Change Catalysts" and the Company nurtures and channelizes the expertise and talent of people for growth, performance, feedback, motivation and training. The achievements and efforts are appreciated, acknowledged & rewarded.

The Company is also in the process of assessing capability maturity level of the employees under People Capability Maturity Model (PCMM) with an aim to enhance employees satisfaction and communication process.

Employee Strength

The Company had 3430 employees as at the end of FY2017-18, of which 200 are female employees and 39 persons with disabilities. Adequate representation has been given to the employees belonging to SC/ST/OBC communities. In order to meet the shortfall in man power at all the levels due to massive retirements in the company, the company is recruiting manpower at entry level/ lateral basis.

Employee Benefits

The vision of the Company for its human resource is to create an enabling environment to enhance the efficiency of the organization. The aim is to encourage the employees to perform to their best ability by a system of proper placements and incentives, while creating an atmosphere of trust and a feeling that the organization cares about the well being and personal aspirations of the employees. This helps align personal aspirations with professional goals and also helps to enhance efficiency. The Company runs multiple benefit schemes for its employees like provident fund, gratuity, pension, medical benefits, concessionary interest rates on loans, scholarships to employees' children, executive health check-up etc.

Freedom of Association

The company has the following Employees' Unions /Officers Associations:

- a) National Fertilizers Employees Union (NFEU) for all the 4 Manufacturing Units, Corporate Office and Marketing division which are recognized under Industrial dispute Act (ID Act 1947)
- b) Confederation of all the above 6 recognized Unions (CCRU).
- c) Officers Associations at all the above 6 locations and Federation of these officers Associations (FOA).
- d) SC/ST Association at each Unit for periodical meetings with Management for redressal of the grievances of SC/ST employees.
- e) Coordination Committee of SC/ST associations at Corporate Office.
- f) Plant level Committees giving equal representation of the Employees Unions.

Apart from above, NFL supports the participative culture in management through various activities / forums like suggestion scheme, Welfare, safety, interactions between Management and employees on various issues during the year.

Human Rights

Certificate on Corporate Governance

To,
The Members,
National Fertilizers Limited,

We have examined the compliance of conditions of Corporate Governance by National Fertilizers Limited for the year ended 31st March, 2018, as prescribed in Regulations 17 to 27, 46 (2) (b) to (i) and para C, D and E of Schedule V of Chapter IV of Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter called as "SEBI (LODR) Regulations, 2015") (erstwhile Clause 49 of the Listing Agreement) and guidelines on Corporate Governance for Central Public Sector Enterprises issued by Department of Public Enterprises (DPE), Government of India.

The compliance of conditions of Corporate Governance is the responsibility of the management of the Company. Our examination has been limited to review of procedures and implementations thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance as stipulated in the said clause and guidelines. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us and based on representations made by the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulations 17 to 27, 46 (2) (b) to (i) and para C, D and E of Schedule V of Chapter IV of SEBI (LODR) Regulations, 2015 (erstwhile Clause 49 of the Listing Agreement) and DPE Guidelines on Corporate Governance except:

- i) Regulation 17(1) of SEBI (LODR) Regulations, 2015 (erstwhile Clause 49 II (A) (1) & (2) of the Listing Agreement) and Para 3.1.2 & 3.1.4 of the DPE Guidelines on Corporate Governance require that in case the Chairman is an Executive Director, at least half of the Board should comprise of Independent Directors and shall have a woman Director on its Board. At present, the Board of Directors of the Company is headed by an Executive Chairman. Accordingly, the number of Independent Directors should have been at least 50% of the Board members, however, during the year, Company did not have required number of Independent Directors on its Board.
- ii) Regulation 17(10) of SEBI (LODR) Regulations, 2015, (erstwhile Clause 49 (II) (B)(5) (c) of listing Agreement) that required: Performance evaluation of Independent Directors shall be done by the entire Board of Directors.
- iii) Regulation 25(4)(a) and (b) of SEBI (LODR) Regulations, 2015, that required: Independent Directors in their meeting shall review the performance of non-independent directors and the Board as a whole; review the performance of the Chairperson of the company.
- iv) As per provisions of Section 134(3)(p) of the Companies Act, 2013, that required: formal annual evaluation by Board of its own performance and its Committees and individual Directors shall be done by the entire Board of Directors.

The Independent Directors met on 11.07.2017 and 28.03.2018 whereas inter-alia the review of performance of the Board as a whole was made. Further, at the said meeting, the Independent Directors also assessed the quality, quantity and timeliness of flow of information, as required under Regulation 25(4) (c) of SEBI (LODR) Regulations, 2015.

The appointment of functional Directors, part-time official Directors as well as Independent Directors on the Board of NFL is made by Government of India (GOI). Further, terms & conditions of appointment as well as tenure of Directors are also decided by GOI and there is a well laid down procedure for evaluation of functional Directors and C&MD by Administrative Ministry.

We further state that such compliance certificate is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

DISCLOSURE OF PARTICULARS WITH RESPECT TO CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNING & OUTGO

1. Details of Production and Energy consumption

All Units of NFL produced beyond their reassessed capacity and contributed to the company achieving its ever best annual production of 38.10 lakh Metric Tonnes of Urea during the financial year 2017-18, which is 118% of the reassessed capacity.

Nangal Unit produced 5.43 lakh MT achieving a capacity utilization of 113.4%. Bathinda Unit produced 5.62 lakh MT achieving a capacity utilization of 110%. Panipat Unit produced 5.60 lakh MT achieving a capacity utilization of 109.5%. Vijaipur unit as a whole produced 21.45 lakh MT of urea during the year. Vijaipur I & Vijaipur II achieved a capacity utilization of 121.5% and 126.6% of their reassessed capacity respectively.

The energy consumption per MT urea at NFL plants during 2017-18 is as follows:

Nangal	6.819 Gcal/MT
Panipat	6.761 Gcal/MT
Bathinda	6.859 Gcal/MT
Vijaipur I	5.753 Gcal/MT
Vijaipur II	5.372 Gcal/MT

NFL Units at Panipat, Bathinda and Nangal achieved ever best lowest plant energy consumption.

2. Energy Conservation Measures

Commitment to achieve lowest possible energy consumption is one of the foremost goals of the company. Taking this forward, at Bathinda Unit, S-200 synthesis converter has been re-installed in parallel to S-300 to further bring down the energy consumption by 0.0155 Gcal/MT of Urea with an estimated cost of ₹ 0.85 Crore.

At Nangal, Natural Gas pressure was being let down at GAIL (India) terminal followed by continuous operation of NG compressor at NFL end. After persuasions with GAIL (India), the let down system at GAIL (India) terminal was replaced and NG compressor at NFL end was bypassed in Annual Turn Around in April, 2017 which resulted in energy saving of 0.025 Gcal/MT of Urea.

Preventive maintenance practices have been adopted for reducing the downtime leading to improved energy consumption. Vijaipur II Unit achieved on-stream efficiency of around 88% while Bathinda, Nangal, Panipat and Vijaipur I Units achieved an on-stream efficiency of more than 91 %.

3. Technology Absorption

- In order to improve efficiency of coal fired boilers, trial run of use of coal additives were made by each of the Units. Based on the results of the trial runs done at Units, it was observed that combustibles in fly ash reduce leading to improvement in boiler efficiency. Thus coal additive is being used at Panipat & Nangal Unit while procurement of coal additive is in progress at Bathinda Unit.
- Owing to vintage prilling tower at Panipat & Bathinda Units and prill size being smaller in comparison to modern day plants, proposal for new Prilling Tower is under consideration along with Urea revamp. This shall minimize the energy consumption besides reduction in emission & improved quality.
- At Nangal, issue regarding the power failure was taken up with M/s BBMB. The rectification of DC voltage control of Generator was done at M/s BBMB end and Joint inspections of overhead line from BBMB to factory were carried out which resulted in three power failure tripping in FY 2017-18 as compared to eight tripping in FY 2016-17.
- To meet revised energy norms as stipulated in New Urea Policy-2015 at Panipat, Bathinda & Nangal, work has been awarded on 01.02.2018 to M/s Thermax for installation of GTG-HRSG after obtaining approval from Board in its meeting held on 31.01.2018. The total revised project cost has been worked out as ₹ 674.56 crore against estimated project capital cost of ₹ 696.74 crore. The above shall bring down the energy consumption of Urea to less than 6.4 Gcal/MT of Urea. Zero date of project is 01.02.2018 and projects are scheduled to be completed by 30.11.2019.

- To meet revised energy norms as stipulated in New Urea Policy-2015 at Vijaipur-I, following schemes are being implemented to bring down the energy consumption by 0.20 Gcal/MT Urea.
 1. Revamp of Synthesis gas Compressor and turbine of Ammonia –I plant
 2. Switchover from Process condensate stripping process from low pressure to medium Pressure in Ammonia-I

4 Foreign Exchange Earnings/Outgo

The foreign exchange earnings by way of trade margins during the year were NIL. The foreign exchange outgo by way of imports and other expenses amounted to ₹ 958.60 crore

Report on Safety, Environment and Sustainable Development

Inclusive and sustainable development is the need of the hour in view of increasing climatic changes and rising disparities in the society at large. Company has taken various initiatives for adopting best practices for health safety and environment management, energy conservation and social up-liftment of society.

Health, Safety and Environmental Consciousness:

Company strives to achieve excellence in improving employees occupational and personal health by minimizing health hazards and providing model facilities. Company has well equipped hospitals at all Units. In addition to that the employees have also access to specialized medical services wherever required. Periodic medical examinations health checkup of all employees is being done as per occupational health policy.

Company remained focused towards achieving Sustained energy efficiency operations of its ageing manufacturing facilities while maintaining pollution free environment and process safety. All manufacturing units continue to be ISO 9001-2008, ISO 14001 and OHSAS-18001 certified which indicate Company's commitment to quality, Environment and Occupational Health and Safety.

To tackle climate change Company remained focused towards achieving a low carbon society, reducing emission level and effluent discharge from the units. All the units have installed On-line monitoring system both for effluent and emission discharge. On-line monitoring systems are already integrated with Central and State Pollution Control Board in order to monitor the level of pollutants on continuous basis.

Quarterly review meeting are conducted regularly at all units to review Health and Safety issues. Modern method and latest technologies such as 'International Sustainable Rating system', 'Total Quality Management' and 'Hazard and Operability Study' have been implemented in various units to improve process safety. For updating knowledge of employees regular training programs are conducted at units and employees are being sent outside for attending Safety programs.

To safeguard the plants from emergencies like Fire, Explosion and Toxic gases, "On site Emergency Disaster Plan" are available in the units. This plan aims to train people and act efficiently and confidently in emergency with minimum damage to humans and asset. The procedures are regularly reviewed and updated at the company by carrying out surprise mock drills. Performance of each mock drill is evaluated and reviewed to bring improvements in the system. Visits of local Authorities and central agencies such as National Disaster Management Authority are regularly conducted in order to remain updated on safety related issues in all the plants. All the units are having their "Disaster Management Quick Response Team" to address the incidents that may occur outside the factory area for transportation of liquid Ammonia, Chlorine Gas and Ammonium Nitrate.

To protect, restore and promote sustainable use of trees and trial ecosystem, afforestation has been adopted in all units to improve the environment surrounding the units. A total of 11600 tree saplings were planted in and around various units during 2017-18 for cleaner and greener earth for future generation. The cumulative plantation since commencement is about 8.32 lakhs for all the units.

All units of NFL are under process of installation of Rain Water Harvesting System to increase the sub soil water level. Five (05) rain water harvesting system were already installed in units. This would help in conservation of water, increase in underground water table and increase greenery in the surroundings.

Use of Green Power :

Company is committed to promote ecologically sustainable growth by utilizing cleaner fuel i.e. Natural Gas for power generation at its units, presently using coal for power generation. NFL is in the process of installing GTG (Gas turbo Generator) by November 2019 along with heat recovery steam generation (HRSG) at Nangal, Bathinda & Panipat Units for reducing the energy consumption and CO₂ emission of plants.

To ensure affordable, reliable, sustainable and modern energy for the community, about 50 Nos. of solar street light have been installed in nearby village of all NFL Units. During 2017-18 about 5900 conventional lights were replaced with eco-friendly LED lights in NFL units.

Development of Sustainable Product :

Neem Coated Urea: During 2017-18 the total production of Neem Coated Urea was 38.10 lakh MT. Neem Coated Urea is useful for slow release of Nitrogen in soil as compared to normal Urea. Further, it acts as a bio-pesticide for crops.

Manufacturing of Bio fertilizers: Bio Fertilizers more commonly known as microbial inoculants are artificially multiplied cultures of certain soil organisms that can improve soil fertility and crop productivity. Besides accessing nutrients, bio fertilizers control soil borne diseases and improve the soil health and soil properties. Bio fertilizers help in effective use of Chemical Fertilizers for higher yields.

Company is currently producing three types of bio fertilizers in both powder and liquid base i.e. Rhizobium, Azetobactor and PSB. To increase the shelf life of Bio Fertilizers, NFL is gradually shifting from Powder Bio Fertilizers to Liquid Bio Fertilizers. This has resulted in less use of lignite, which is used as a carrier for Powder Bio Fertilizers. This has also resulted in lesser use of Natural resources. During 2017-18, the sale of Liquid & Powder Bio Fertilizers was 496 MT.

NFL is committed to Government of India's dream of Swachh Bharat Mission by marketing of 11624 MT of city compost sourced from manufacturers located in various states during 2017-18. City Compost is a soil conditioner which is produced out of bio-degradable waste. Compost from city garbage would not only provide carbon and primary/secondary nutrients to soil but also help in keeping the city clean. Use of City Compost is also undertaken by NFL in the adopted villages in the states of Haryana and Madhya Pradesh. NFL is further working to increase trading business in this fields.

Procurement made from Micro and Small Enterprises (MSEs) during 2017-18

Public Procurement Policy for Micro and Small Enterprises (MSEs) was notified by the Government under the Micro, Small and Medium Enterprises Development Act, 2006 which stipulates that 20% of total annual procurement of goods and services shall be made by all Central Ministries / Departments / CPSUs from Micro & small Enterprises (MSEs). Within this percentage, a sub total of 4% procurement is to be made from MSEs owned by SC/ST entrepreneurs. This Policy has become mandatory w.e.f. 01.04.2015.

Clause no. 12(2) of Ministry of MSME Order, 2012 inter alia stipulates that Central Ministries or Departments or Public Sector Undertakings can be considered for exemption from 20 % target of mandatory procurement from MSEs on case to case basis.

NFL has requested Ministry of Micro, Small and Medium Enterprises through Ministry of Chemicals & Fertilizers for waiver to NFL from mandatory procurement of 20 % from MSEs, for following items required for fertilizer business, since the same are not available from MSEs:

- Raw Materials (Natural Gas/RLNG etc.).
- Traded products (DAP, Bentonite Sulphur, seeds, pesticides etc.).
- Power and fuel (Coal etc.).
- Petrol, Diesel, Lubricants etc.
- OEM spares (Proprietary/Imported).
- High tech items, services and consultancies, etc.

NFL has taken following actions to maximize procurements from MSEs:

- i. Items identified for procurement from MSEs at respective plants have been displayed on NFL website www.nationalfertilizers.com. All other items which are being procured at our units are also displayed on NFL website for prequalification of Vendors, for wider participation by suppliers including MSEs.
- ii. Enabling provisions have been made in Purchase Manual for providing purchase preference for participating MSEs including SC/ST bidders in case they match L1-Price as per Procurement Policy.
- iii. Units have been instructed to buy exclusively from MSEs their requirements of 358 items reserved for procurement from MSEs.
- iv. Nodal officers have been appointed for respective Units to help/provide hand holding support to MSEs.
- v. During FY 2017-18, Vendor Development Programme was organized by Vijapur unit. Further, another Vendor Development Programme exclusively for SC/ST entrepreneurs was organized by Panipat Unit. The representative of Nangal Unit attended National level Vendor Development Program cum buyer-seller meet organized by MSME Development Institute, at Ludhiana.

With concerted efforts NFL has been able to achieve a percentage of 25.04 % during 2017-18 from MSEs, out of total procurement of Goods and Services excluding Raw materials, traded products, Power & Fuel, and other goods/services which cannot be procured from MSEs.

The details of the procurement of Goods and Services made by Company during 2017-18 are as below:

₹ in crore

Sr. No.	Particulars	Annual procurement Target for the year 2017-18	Target achieved for the year 2017-18
I.	Annual procurement of Goods and Services*.	335.00	554.53
II.	Total value of Goods and Services procured from MSEs (including MSEs owned by SC/ST entrepreneurs)	67.00	138.88
III.	Total Value of Goods and Services procured from only MSEs owned by SC/ST entrepreneurs).	13.40	1.52
IV	%age of procurement of Goods and Services from MSEs (including MSEs owned by SC/ST entrepreneurs) out of total procurement.	20.00 %	25.04 %
V.	%age of procurement of Goods and Services from only MSEs owned by SC/ST entrepreneurs out of total procurement.	4.00 %	0.27 %

Company is committed to the development of employees belonging to reserved categories. An Implementation Cell is already functional in all Units / Offices of the Company to oversee the implementation of Presidential Directives on Reservation Policy for SCs/STs/ OBCs. Liaison Officer of appropriate status has been appointed in each Unit/Office to ensure due compliance of orders and instructions pertaining to reservation. The programmes on implementation of Presidential Directives were held at Units from time to time and SC/ST employees were deputed for such programmes conducted by external agencies. During 2017-18, 3262 man-days training (in-house as well as external training programmes) was imparted to SC/ST employees. A statement showing representation of employees belonging to Scheduled Caste / Scheduled Tribes / Other Backward Classes / Persons with disabilities is appended as Annexure to this report.

We have also examined compliance with the applicable clauses of the following:

- (a) Secretarial Standards issued by the Institute of Company Secretaries of India - Generally complied with.
- (b) Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- (c) DPE Guidelines on Corporate Governance for CPSE.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above, subject to the following observations:

1. Compliance of Regulation 17(1) of Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Clause 3.1.4 of the DPE Guidelines on Corporate Governance for Central Public Sector Enterprises w.r.t. appointment of requisite no. of Independent Directors on the Board of the Company.
2. Compliance of Regulation 17(10) & 25(4) of Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 w.r.t. performance evaluation of the Directors.

We further report that the Board of Directors of the Company has to be constituted in terms of the provisions of the Companies Act, 2013, DPE Guidelines and Regulation 17(1) of the Securities Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015. The number of independent directors on the Board is less than 50% of the original strength of the Board. Furthermore, the Company is not compliant with provisions of appointment of requisite number of Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Generally, adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes, wherever required.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, there were no specific events/actions having a major bearing on the Company's affairs in pursuance of the above referred laws.

Management's Reply to the observations of Secretarial Auditor for the financial year 2017-18

Sr.No.	Secretarial Auditors' Observations	Management's Reply
1.	Compliance of Regulation 17 (1) of Securities Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015 and Clause 3.1.4 of the DPE Guidelines on Corporate Governance for Central Public Sector Enterprises w.r.t. appointment of requisite no. of Independent Directors on the Board of the Company.	<p>National Fertilizers Limited (NFL) is a Government Company under the administrative control of the Department of Fertilizers (DoF). The Directors of the Company are appointed by the Government of India. The remuneration and tenure of Directors are also fixed by GOI.</p> <p>The Company is requesting from time to time, DoF for appointment of Independent Directors on the Board of the Company.</p>
2.	Compliance of Regulation 17(10) Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Section 149(8) of Companies Act, 2013 read with Clause VII & VIII of Schedule IV of the Companies Act, 2013 w.r.t. performance evaluation of the Directors.	<p>(a) Regulation 17(10) & 25(4) of SEBI (LODR) Regulations, 2015 and the Code for Independent Directors pursuant to Section 149 (8) of the Companies Act, 2013 requires the performance evaluation of Independent Directors to decide their continuance or otherwise. However, the MCA vide its notification dated 5th June, 2015 notified exemptions applicable to Government Companies from the provisions of the Companies Act, 2013 which inter-alia provides that Sub Sections (2), (3) & (4) of Section 178 regarding appointment, performance evaluation and remuneration shall not apply to Directors of the Government Companies.</p> <p>(b) It is further submitted that MCA vide notification dated 5th June, 2015 has also notified that in case of government companies Section 134(3) (p) shall not apply in case the directors are evaluated by the Ministry or department of the Central Government which is administratively in charge of the Company.</p> <p>(c) The appointment of Chairperson, Functional Directors, Part-time Official Directors as well as Part-time non-Official Directors (Independent Directors) on the Board of NFL is made by Government of India (GOI). Further, terms & conditions of appointment as well as tenure of all directors are also decided by GOI and there is a well laid down procedure for evaluation of performance of Chairperson and Functional Directors by Administrative Ministry.</p> <p>(d) Performance evaluations to which the Government Companies and their Directors are subjected to are as follows:</p> <p>(i) All the functional Directors (through C&MD) and C&MD are accountable to the Board and the Administrative Ministry.</p> <p>(ii) For monitoring the performance of the Company, a performance Memorandum of Understanding (MoU) is entered between the Company through C&MD of the respective Company and the Administrative Ministry through Secretary of the Ministry. This MoU is negotiated by Department of Public Enterprises, NITI Aayog, Ministry of Statistics & Programme Implementation and the Administrative Ministry officials. Targets are set for various MoU parameters. The performance of the Company vis-à-vis MoU indicates the overall performance of the Board and individual Directors.</p>

		<p>Performance of the Company is reviewed on quarterly basis through Quarterly Review Meetings by the Administrative Ministry, where detailed deliberations are held with respect to various administrative parameters</p> <p>(iii) Performance of the Company is also evaluated by Department of Public Enterprises annually by assigning performance ratings to the Company on the MoU parameters. In evaluating the performance of the General Managers, Executive Directors, Functional Directors and C&MD major weightage is given to MoU rating. Variable pay of functional Directors is regulated on performance of the Company w.r.t. MoU parameters.</p> <p>(iv) Annual performance appraisal of the C&MD and Functional Directors is reviewed by the Secretary of the Administrative Ministry and accepted by Concerned Minister.</p> <p>(v) Tenure of Functional Directors and C&MD are fixed by Government of India. Their tenures are further extendable on performance review by the Administrative Ministry</p> <p>(vi) All the government companies are also subject to regular review by various Parliamentary Committees on different subjects.</p> <p>In view of the above and performance evaluation mechanism already in place, the performance evaluation of the Chairperson, Functional Directors and Part-time Official Directors was not carried out.</p> <p>However, the Independent Directors in their separate meetings held on 11.07.2017 and 28.03.2018 inter-alia reviewed the performance of the Board as a whole.</p> <p>(e) In view of the exemption granted by MCA vide Notification No. GSR463(E) dated 05.06.2015, no performance evaluation of the Independent Directors was required to be carried out.</p>

INDEPENDENT AUDITOR'S REPORT

To the Members of

National Fertilizers Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of National Fertilizers Limited ('the Company'), which comprise the balance sheet as at 31st March 2018, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the Auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st March, 2018, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of National Fertilizers Limited (“the Company”) as of 31 March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Enclosed: Directions and Sub-Directions U/s 143(5) are attached

AUDIT REPORT OF NATIONAL FERTILIZERS LIMITED FOR THE YEAR 2017 -2018 PURSUANT TO DIRECTIONS UNDER SECTION 143(5) OF THE COMPANIES ACT, 2013.

I. Directions for the year 2017-18

1. Whether the Company has clear title/lease deeds for freehold and leasehold respectively? If not, please state the area of freehold and leasehold land for which title/lease deeds are not available..

Company has clear title/lease deeds for freehold and leasehold land respectively except in the following cases :

Freehold Land/Location	Area (in acres)
Bhatinda Unit	14.261 Acres
Vijaipur Unit	1250.254 Acres
Alwar	0.164 Acres

2. Whether there are any cases of waiver/ write off of debts/loans/interest etc., if yes, the reasons thereof and the amount involved.

During FY 2017-2018, amount of Rs. 0.05 crore has been written off due to non-recovery after exhausting all efforts by the management.

3. Whether proper records are maintained for inventories lying with third parties & assets received as gift/grants from the Govt. or other authorities.

The Company has maintained proper record for its inventories lying with third parties. There are no cases of assets received as gift/ grants from Government or other authorities.

II. Sub-Directions under section 143(5) of Companies Act 2013 for the year 2017-18

1. Trade Receivables – Subsidy

Whether subsidy received/recoverable from Government of India has been properly accounted for as per claims admitted.

The subsidy received/recoverable from Government of India has been properly accounted for as per accounting policy of the company which states that

“Price and Freight Subsidy is measured based on principle/notifications received from Fertilizer Industry Coordination Committee (FICC) an office of Government of India which regulates such subsidy and the bills are raised based on such notification. Escalation/ De-escalation in notified rates is estimated taking into account the effect of guidelines, policies, instructions and clarifications given by the Government. The difference, if any based on final notification received is treated as current year income or expenditure and the effect of change in estimate, if material, is disclosed separately.”

2. Whether subsidy received during the year has been reconciled with subsidy disbursed by the Government of India.

The subsidy received during the year has been reconciled with the subsidy disbursed by the Government.

3. Impact of revision of subsidies for Fertilizer Product viz NPK, Ammonium Sulphate and imported MoP in valuation of closing stock may be stated.

The company has not purchased / imported Ammonium Sulphate / imported MoP during FY 2017-18. The company had imported NPK during the FY 2017-18.

The closing stock of NPK imported by the company during FY 2017-18 have been valued at cost of procurement being lower than net realizable value therefore there is no impact of revision of subsidy in valuation of closing stock.

Land

1. State the area of land under encroachment, if any, and briefly explain the steps taken by the company to remove the same.

Out of total land 2578 acres at Nangal Unit, land measuring 325.70 acres at Nangal had been symbolically possessed by the Punjab Government on 29.10.1998. Though the ownership of the entire land including 325.70 acres vests with the Company, however, the physical possession of 325.70 acres of land is with its erstwhile owners. The Company had filed a Civil Writ Petition No. 4446 of 2000 in Punjab & Haryana High Court and the matter is sub-judice.

Notes to the Financial Statements and Significant Accounting Policies

1. Company Overview and Significant Accounting Policies

1.1 Company Overview

National Fertilizers Limited (the 'Company') is a company limited by shares, incorporated and domiciled in India. The Company is engaged in production and marketing of Neem Coated Urea, Bio-Fertilizers (solid & liquid) and other allied Industrial products like Ammonia, Nitric Acid, Ammonium Nitrate, Sodium Nitrite and Sodium Nitrate. The Company is also engaged in trading of Imported and Domestic Fertilizers, Compost, Seeds, Agro Chemicals and other Agro products. The registered office of the company is located at New Delhi, India. The Government of India is the principal shareholder of the Company. The shares of the Company are listed on National Stock Exchange ("NSE") and the Bombay Stock Exchange ("BSE"), India.

The Financial Statements for the year ended 31 March 2017 were prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013.

The financial statements are approved for issue by the Company's Board of Directors on **02-05-2018**.

1.2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2.1 Basis of preparation

(a) Compliance with Ind AS

The financial statements prepared on accrual basis, as a going concern, comply in all material aspects with Indian Accounting Standards (IndAS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015](as amended) and other relevant provisions of the Act.

The financial statements up to year ended 31 March 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

(b) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) and contingent consideration that is measured at fair value.
- assets held for sale -measured at the lower of carrying amount and fair value less cost to sell; and
- defined benefit plans — plan assets measured at fair value

1.2.2 Use of estimates

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates and judgments affect the application of accounting policies and the reported amount of assets and liabilities, the disclosure of contingent assets and contingent liabilities at the date of financial statements and the reported amount of revenue and expenses during the period. Application of accounting policies that require critical accounting estimates involving judgments have been disclosed in note (1.2.3).

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of change in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

1.2.3 Critical Accounting Estimates and judgments

(a) Property Plant and Equipment:

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the

time the asset is acquired. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(b) Revenue Recognition

Price and Freight Subsidy is measured based on principle/ notifications received from Fertilizer Industry Coordination Committee (FICC) an office of Government of India which regulates such subsidy and the bills are raised based on such notification. Escalation/De-escalation in notified rates is estimated taking into account the effect of guidelines, policies, instructions and clarifications given by the Government. The difference, if any based on final notification received is treated as current year income or expenditure and the effect of change in estimate, if material, is disclosed separately.

1.2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Refer note 48 for segment information presented.

1.2.5 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Statement of Profit and Loss except in case of long term liability relating to acquisition of fixed assets acquired upto March 31, 2016, where the same are adjusted to carrying amount of such assets.

Foreign exchange gains and losses regarded as an adjustment to borrowing costs are charged in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/ (losses).

1.2.6 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty. Revenue is recognised net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

Revenue in respect of sale of goods is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria's for revenue recognition have been met.

Sale of scrap/ waste materials is recognized on disposal.

1.2.7 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase / acquisition of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented as deduction from related depreciation expenses.

Interest subsidy received/receivable from Government for changeover of Ammonia Feed Stock Conversion Project from FO/ LSHS to Gas is recognized in the Statement of Profit and Loss and is being deducted in reporting the related expense.

1.2.8 Income tax

Income tax comprises current and deferred income tax. Income tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or directly in equity, respectively. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in Joint Ventures where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.2.9 Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised where the carrying value of an asset to be replaced is not separately identifiable it is derecognized on estimated/technical report basis. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives which are aligned to useful life specified under Schedule II of the Companies Act, 2013 except for certain items of plant and machinery which are depreciated as below:

- | | |
|------------------------------------------------------|----------|
| a) Reformer Package and Instrumentation: | 15 years |
| b) Heat Exchangers, pumps, turbines and CO2 Booster: | 20 years |

In respect of Plant and Machinery, Computer and data processing units residual value of five percent and rupee one in respect of other Fixed Assets is retained.

Leasehold land and buildings are amortized over the lease period. Buildings constructed over leasehold land are depreciated at the estimated useful life which is in line with useful life as specified under Schedule II of the Companies Act, 2013, where the lease period is beyond the useful life of the building.

Depreciation on Fixed Assets whose actual cost does not exceed five thousand rupees, are provided at the rate of 100% and residual value of Rupee one is retained.

Spares that can be used only in connection with an item of fixed asset is depreciated over a period not exceeding the useful life of the principal item.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss

within other Income.

1.2.10 Intangible Assets

Intangible Assets are stated at cost less accumulated amortization and impairment.

License and process know-how having future economic benefits is amortized on straight line method over a period of ten years or license period, whichever is less.

Software, which is not integral part of related hardware, is treated as intangible asset and amortized on straight line method over a period of five years or its license period, whichever is less.

Intangible assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

1.2.11 Capital Work in Progress

All revenue expenses incurred during Construction period, which are exclusively attributable to acquisition/construction of fixed assets, are capitalised at the time of commissioning of Assets.

Pre-project expenditure relating to Projects which are considered unviable/closed is charged off to Revenue in the year of declaration/closure.

The capital work in progress includes Construction Stores including Material in Transit/Equipment/Services etc. received at site for use in the projects.

1.2.12 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit or Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to Statement of Profit or Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases

1.2.13 Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.2.14 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks/ financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.2.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.2.16 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.2.17 Inventories - Raw materials and stores, work in progress, packaging material and finished good

Raw materials, packaging materials and stores and spares are stated at the lower of monthly weighted average cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

In case of stores and spares not moved for more than two years and upto five years, provision for obsolescence is made at five percent per annum (on straight line basis) and charged to revenue. In case of stores and spares which have not moved for more than five years/identified as surplus or obsolete, value is taken as certified by Valuers and diminution, if any is charged to revenue.

Finished and semi-finished goods are valued at lower of annual average cost inclusive of excise duty where applicable and net realizable value based on the applicable Concession/Sale Price. In warehouses carrying Finished Goods of more than one Plant, the Plant wise finished stocks are determined on first-in-first-out basis and costs worked out accordingly.

1.2.18 Investments and other financial assets

(a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses arising from fair valuation will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(b) Measurement

Initial recognition

The Company measures a financial asset at its fair value and, in the case of a financial asset not at fair value through profit or loss, at fair value including transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its financial assets:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at

fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss.

Investment in Joint Venture:

Investment in Joint venture is carried at cost in the financial statements.

(c) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 55 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(d) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(e) Derivatives

Derivatives are initially recognised at fair value and are subsequently re-measured to their fair value through profit or loss at the end of each reporting period.

1.2.19 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.2.20 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1.2.21 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

1.2.22 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the statement of Profit and Loss Account in the period in which they are incurred.

1.2.23 Employee benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the financial reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Other long-term employee benefit obligations

The Company provides following long term benefits:

- i) Leave Encashment (Earned Leave/Sick Leave/Half Pay Leave)
- ii) Long Service Award (LSA)

The liability for Leave encashment and Long term service awards are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the financial reporting period using the projected unit credit method as calculated by Actuary. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

(c) Post-employment obligations

The Company operates the following post-employment schemes:

- (i) defined benefit plans such as gratuity, provident fund, post retirement settlement benefits, social security benefits and employees' family economic rehabilitation scheme; and
- (ii) defined contribution plans such as post-employment medical plan and pension plan.

(d) Defined Benefit Obligations

The defined benefit obligation (other than Provident Fund) is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The liability or asset recognised in the balance sheet in respect of defined benefit obligations (except Provident Fund) is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, if any.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in other comprehensive income.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(e) Provident Fund

Contribution to provident fund is accounted for on accrual basis. The provident fund contributions are made by employee and company as monthly contribution equal to specified percentage of covered employee's salary to a trust administered by the Company. The trust invests in specific designated instruments as permitted by Indian Law. The interest rate payable to the members of the trust is notified by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

(f) Defined Contribution Plans

The Company has a Post-Retirement Medical Benefits (PRMB) and pension plan for its employees. The Company has taken the insurance policies to meet its obligations under these plans. Accordingly, the liability of the company is limited upto the amount of insurance premium paid. These plans have been treated as defined contribution plans. The insurance premium paid for these plans is recognised as employee benefit expense and charged in statement of profit and loss account.

1.2.24 Provisions

Provisions (other than employee benefits) are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

1.2.25 Claims

Pending settlement, claims made on underwriters /railways /others as assessed by the Company on a probable realization basis are recognized at the time of lodgment.

1.2.26 Adjustment pertaining to Prior Period

Income/Expenditure pertaining to prior period upto Rs 10.00 crores in each case subject to cumulative limit of 0.50% of sales turnover of previous year are not considered material and are included under the income/expenditure of the current year.

1.2.27 Prepaid Expenditure

Prepaid expenditure upto Rupee one lakh in each case not being considered material is included under the expenditure of the current year.

1.2.28 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.2.29 Earnings per share

(a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- (i) the profit attributable to owners of the Company
- (ii) by the weighted average number of equity shares outstanding during the financial year.

(b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- (i) the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- (ii) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

The procedure for release of subsidy has been revised with the introduction of Direct Benefit Transfer (DBT) scheme in a phased manner for various fertilizers. As per the earlier procedure 85% to 95% of subsidy to manufacturers was allowed on monthly basis based on receipt of fertilizer in the District and balance 5% (for Urea) and 10% to 15% (P&K) on confirmation of receipt of fertilizer by retailers through FMS amongst other requirements. However, the revised procedure entails 100% payment of subsidy under Direct Benefit Transfer scheme on the basis of actual sale by the retailers to the beneficiaries on weekly basis through PoS machines.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

47.1 Ind AS-19: Employee Benefits

47.1.1 General description of defined benefit schemes:

Gratuity	Payable on separation @ 15 days pay for each completed year of service subject to maximum of ₹ 20 lakhs to eligible employees who render continuous service of 5 years or more.
Leave Encashment {Earned Leave (EL) and Half Pay Leave(HPL)}	Payable on separation to eligible employees who have accumulated earned leave and half pay leave. During the service period encashment of accumulated earned leave is allowed in a financial year leaving minimum balance leave of 10 days.
Long Service Award (LSA)	Payable to employees on completion of specified years of service.
Legal heirs of deceased employees and disabled employees (separated) can opt for either of the following two schemes:	
Social Security Benefits (SSB)	Lump sum benefit payable for left over month of service limited to 60 month pay (maximum ₹ 9.00 lakhs with minimum benefits of ₹1.00 lakhs).
Employees' Family Economic Rehabilitation Scheme (EFERS)	Monthly payment along with medical and children education benefits in lieu of prescribed deposit upto the date of notional superannuation.

47.1.2 Provident Fund: The Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952.

During the year an amount of ₹ 27.05 crore (CPLY ₹ 27.09 crore) has been charged to statement of Profit and loss towards contribution by the Company.

The Provident Fund Trust set up by the Company is treated as Defined Benefit Plan since the Company has to meet the shortfall in the fund assets, if any. Further, having regard to the assets of the Fund and the Return on the Investments, the Company does not expect any deficiency in the foreseeable future. In terms of the guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of provident fund liability and determined that there is no shortfall as at 31st March, 2018.

The funds of the trust have been invested under various securities as prescribed by regulatory authorities.

(i) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of foreign currency option contracts is determined using Black Scholes valuation model.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All of the resulting fair value estimates are included in level 3.

(iii) Fair value measurements using significant unobservable inputs (level 3)

Total Financial Liabilities	4107.19	4107.19	4965.08	4965.08

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, security deposits and investment in government securities were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are observable.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are not observable.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

Note No. 56 Financial Risk Management

The company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost.	Aging analysis, Credit Analysis, Post Dated Cheques and Security Deposit.	Diversification of bank deposits, credit limits and Bank Guarantees
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash Flow Forecasting, Monitoring of Forex Risk Management Policy	Forward Foreign exchange contracts
Market risk – interest rate	Long-term borrowings at variable rates	Monitoring of Forex Risk Management Policy	Interest Rate Swap

The company's risk management is carried out by a central treasury department and marketing department under policies approved by the Board of Directors. Treasury identifies, evaluates and hedges financial risks. The board provides written principles for overall risk management, marketing manual, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, derivative financial instruments and investment of excess liquidity.

(A) Credit Risk

Credit Risk refers to the risk of default on its obligations resulting in financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 3935.28 crore and ₹ 4267.43 crore as of 31st March, 2018 and 31st March, 2017, respectively. Trade receivables mainly constitute subsidy receivable from Government of India and from sale of fertilizers to dealers. Trade receivables from dealers are partially secured. Credit risk is being managed through credit approvals, establishing credit limits and monitoring the creditworthiness of customers to allow credit terms in the normal course of business.

Breakup of Trade Receivables is as under:

Category	Party Wise breakup of Trade Receivables			
	31.03.2018 ₹ in crore	% of Total Debtors	31.03.2017 ₹ in crore	% of Total Debtors
Govt of India (Subsidy)	3696.25	93.93	4044.93	94.79
Institutional Dealers	85.96	2.18	50.6	1.18
Private Dealers	153.07	3.89	171.9	4.03
	31.03.2018	% of Debtors to Total Sales	31.03.2017	% of Debtors to Total Sales
Total Sales	8989.28	43.78	7643.36	55.83

(B) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting period:

	₹ in crore	
	31 st March, 2018	31 st March, 2017
Floating rate		
Expiring within one year (Bank Overdraft/CC Limit and other facilities)	3109.57	2046.27

The Bank Overdraft/Cash Credit (CC)/Short term loan (STL) facilities may be drawn at any time and may be called back by the bank at their discretion. The credit facilities of Banks are subject to compliance with sanctioned terms & conditions. The credit facilities have an average maturity of 1 year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

Note No. 57: Capital Management

(a) Risk management

The company's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of the capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt as per guidelines of Government of India.

Consistent with others in the industry, the company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents)
divided by

Total 'equity' (as shown in the balance sheet).

The company's strategy is to maintain Debt Equity ratio within 2.5:1. The Debt Equity ratio is as follows:

	₹ in Crores	
	31 st March 2018	31 st March 2017
Net debt	3060.71	4134.61
Total equity	1987.40	1826.64
Net debt to equity ratio (in times)	1.54	2.26

(b) Dividends

	₹ in Crores	
	31 st March, 2018	31 st March, 2017

INDEPENDENT AUDITOR'S REPORT

To the Members of National Fertilizers Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying Consolidated Ind AS financial statements of National Fertilizers Limited ('the Company') and its Jointly Controlled Companies (collectively referred to as "the Group"), which comprise the consolidated balance sheet as at 31st March 2018, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of cash flows and the consolidated statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Company's Board of Directors is responsible for preparation of these Consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (herein after referred to as "the Act") that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash flows and Consolidated changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial statements by the Directors of the company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS financial statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the Auditor considers internal financial control relevant to the Company's preparation of the Consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Consolidated Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the Consolidated financial position of the Group as at 31st March, 2018, and its Consolidated financial performance including other comprehensive income, its consolidated cash flows and the consolidated changes in equity for the year then ended.

Other Matters

We did not audit the financial statements/financial information of the following jointly controlled entities whose financial statements/financial information reflect the details given below of assets as at 31st March, 2018, total revenues and net cash flows for the year ended on that date to the extent to which they are reflected in the consolidated financial statements.

The Annexure referred to in Independent Auditor’s Report to the members of the Company on the Consolidated Ind AS financial statements for the year ended 31st March, 2018.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of National Fertilizers Limited (“the Company”) and its jointly controlled companies in India (collectively referred to as “the Group”) as of 31st March, 2018 in conjunction with our audit of the Consolidated Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the company and its jointly controlled companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’).

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to group’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Group’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors referred to in the “Other Matters” paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Group’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A group’s internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the group;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the group are being made only in accordance with authorizations of Management and Directors of the Group; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its jointly controlled companies has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to two jointly controlled companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes to the Consolidated Financial Statements and Significant Accounting Policies

1. Overview and Significant Accounting Policies

1.1 Overview

National Fertilizers Limited (the 'Company') is a company limited by shares, incorporated and domiciled in India. These are consolidated financial statements of National Fertilizers Limited and its Joint Ventures referred below for the year ended 31st March 2018

- a) Urvarak Videsh Limited, a joint venture with Krishak Bharti Co-operative Limited and Rashtriya Chemicals & Fertilizers Limited has been setup for fertilizer business and rendering consultancy services in this regard. Urvarak Videsh Limited has been declared Dormant Company.
- b) Ramagundam Fertilizers & Chemicals Limited, a joint venture with Engineers India Limited (EIL) and Fertilizer Corporation (FCIL) of India has been incorporated on 17.02.2015 for revival of closed Fertilizer Unit of FCIL at Ramagundam, Telengana, India.

The Company is engaged in producing and marketing of Neem Coated Urea, Bio-Fertilizers (solid & liquid) and other allied Industrial products like Ammonia, Nitric Acid, Ammonium Nitrate, Sodium Nitrite and Sodium Nitrate. The Company is also engaged in trading of Fertilizers, Compost, Seeds, Agro Chemicals and other Agro products. The registered office of the company is located at New Delhi, India. The Government of India is the principal shareholder of the Company. The shares of the Company are listed on National Stock Exchange ("NSE") and the Bombay Stock Exchange ("BSE"), India.

The Consolidated Financial Statements for the year ended 31st March 2017 were prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013.

The consolidated financial statements were approved for issue by the Board of Directors and authorized for issue on 02nd May, 2018.

1.2 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2.1 Basis of preparation

(a) Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] (as amended) and other relevant provisions of the Act.

The consolidated financial statements up to year ended 31st March 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

(b) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) and contingent consideration that is measured at fair value;
- assets held for sale — measured at the lower of carrying amount and fair value less cost to sell; and
- defined benefit plans — plan assets measured at fair value

1.2.2 Basis of consolidation

Joint Venture

In the consolidated Balance Sheet Interests in the joint venture are accounted for using the equity method. Under the equity method of accounting, the investment are initially being recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit or loss, and the group's share of movements in other comprehensive income of the investee in other comprehensive income.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its joint ventures are eliminated to the extent of the group's interest

in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described below.

These consolidated financial statements comprise the financial statement of National Fertilizers Limited (the "Company") and its joint ventures (JV) (the "Group"), as given in the following table:

Name of Joint Venture	Country of incorporation	Extent of Holding (%age)	
		31 st March 2018	31 st March 2017
UrvarakVidesh Limited	India	33.33%	33.33%
Ramagundam Fertilizers & Chemicals Limited	India	36.32%	49.99%

1.2.3 Use of estimates

The preparation of consolidated financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates and judgments affect the application of accounting policies and the reported amount of assets and liabilities, the disclosure of contingent assets and contingent liabilities at the date of financial statements and the reported amount of revenue and expenses during the period. Application of accounting policies that require critical accounting estimates involving judgments have been disclosed in note (1.2.4).

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of change in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the consolidated financial statements.

1.2.4 Critical Accounting Estimates and judgments

(a) Property Plant and Equipment:

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(b) Revenue Recognition

Price and Freight Subsidy is measured based on principle/ notifications received from Fertilizer Industry Coordination Committee (FICC) an office of Government of India which regulates such subsidy and the bills are raised based on such notification. Escalation/De-escalation in notified rates is estimated taking into account the effect of guidelines, policies, instructions and clarifications given by the Government. The difference, if any based on final notification received is treated as current year income or expenditure and the effect of change in estimate, if material, is disclosed separately.

1.2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Refer note 48 for segment information presented.

1.2.6 Foreign currency translation

(a) Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Statement of Profit and Loss except in case of long term liability relating to acquisition of fixed assets acquired upto 31st March, 2016, where the same are adjusted to carrying amount of such assets.

Foreign exchange gains and losses regarded as an adjustment to borrowing costs are charged in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/ (losses).

1.2.7 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty. Revenue is recognised net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

Revenue in respect of sale of goods is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria's for revenue recognition have been met.

Sale of scrap/ waste materials is recognized on disposal.

1.2.8 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to the purchase / acquisition of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented as deduction from related depreciation expenses.

Interest subsidy received/receivable from Government for changeover of Ammonia Feed Stock Conversion Project from FO/ LSHS to Gas is recognized in the Consolidated Statement of Profit and Loss and is being deducted in reporting the related expense.

1.2.9 Income tax

Income tax comprises current and deferred income tax. Income tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or directly in equity, respectively. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in Joint Ventures where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.2.10 Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised where the carrying value of an asset to be replaced is not separately identifiable it is derecognized on estimated/technical report basis. All other repairs and

maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives which are aligned to useful life specified under Schedule II of the Companies Act, 2013 except for certain items of plant and machinery which are depreciated as below:

| b) Heat Exchangers, pumps, turbines and CO2 Booster: | 20 years |

In respect of Plant and Machinery, Computer and data processing units residual value of five percent and rupee one in respect of other Fixed Assets is retained.

Leasehold land and buildings are amortized over the lease period. Buildings constructed over leasehold land are depreciated at the estimated useful life which is in line with useful life as specified under Schedule II of the Companies Act, 2013, where the lease period is beyond the useful life of the building.

Depreciation on Fixed Assets whose actual cost does not exceed five thousand rupees, are provided at the rate of 100% and residual value of Rupee one is retained.

Spares that can be used only in connection with an item of fixed asset is depreciated over a period not exceeding the useful life of the principal item.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other Income.

1.2.11 Intangible Assets

Intangible Assets are stated at cost less accumulated amortization and impairment.

License and process know-how having future economic benefits is amortized on straight line method over a period of ten years or license period, whichever is less.

Software, which is not integral part of related hardware, is treated as intangible asset and amortized on straight line method over a period of five years or its license period, whichever is less.

Intangible assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

1.2.12 Capital Work in Progress

All revenue expenses incurred during Construction period, which are exclusively attributable to acquisition/construction of fixed assets, are capitalised at the time of commissioning of Assets.

Pre-project expenditure relating to Projects which are considered unviable/closed is charged off to Revenue in the year of declaration/closure.

The capital work in progress includes Construction Stores including Material in Transit/Equipment/Services etc. received at site for use in the projects.

1.2.13 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Statement of Profit or Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to Statement of Profit or Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

1.2.14 Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable

amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.2.15 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks/ financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.2.16 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.2.17 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

1.2.18 Inventories - Raw materials and stores, work in progress, packaging material and finished goods

Raw materials, packaging materials and stores and spares are stated at the lower of monthly weighted average cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

In case of stores and spares not moved for more than two years and upto five years, provision for obsolescence is made at five percent per annum (on straight line basis) and charged to revenue. In case of stores and spares which have not moved for more than five years/identified as surplus or obsolete, value is taken as certified by Valuers and diminution, if any is charged to revenue.

Finished and semi-finished goods are valued at lower of annual average cost inclusive of excise duty where applicable and net realizable value based on the applicable Concession/Sale Price. In warehouses carrying Finished Goods of more than one Plant, the Plant wise finished stocks are determined on first-in-first-out basis and costs worked out accordingly.

1.2.19 Investments and other financial assets

(a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses arising from fair valuation will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(b) Measurement

Initial recognition

The Company measures a financial asset at its fair value and, in the case of a financial asset not at fair value through profit or loss, at fair value including transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent measurement

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its financial assets:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss.

Investment in Joint Venture:

Investment in Joint venture is carried at cost in the financial statements.

(c) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 55 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables

(d) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably

(e) Derivatives

Derivatives are initially recognised at fair value and are subsequently re-measured to their fair value through profit or loss at the end of each reporting period.

1.2.20 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.2.21 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

1.2.22 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit

or loss over the period of the borrowings using the effective interest method.

1.2.23 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the statement of Profit and Loss Account in the period in which they are incurred.

1.2.24 Employee benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the financial reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Other long-term employee benefit obligations

The Company provides following long term benefits:

- i) Leave Encashment (Earned Leave/Sick Leave/Half Pay Leave)
- ii) Long Service Award (LSA)

The liability for Leave encashment and Long term service awards are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the financial reporting period using the projected unit credit method as calculated by Actuary. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

(c) Post-employment obligations

The Company operates the following post-employment schemes:

- (i) defined benefit plans such as gratuity, provident fund, post retirement settlement benefits, social security benefits and employees' family economic rehabilitation scheme; and
- (ii) defined contribution plans such as post-employment medical plan and pension plan

(d) Defined Benefit Obligations

The defined benefit obligation (other than Provident Fund) is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The liability or asset recognised in the balance sheet in respect of defined benefit obligations (except Provident Fund) is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, if any.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in other comprehensive income.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(e) Provident Fund

Contribution to provident fund is accounted for on accrual basis. The provident fund contributions are made by employee and company as monthly contribution equal to specified percentage of covered employee's salary to a trust administered by the Company. The trust invests in specific designated instruments as permitted by Indian Law. The interest rate payable to the members of the trust is notified by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

(f) **Defined Contribution Plans**

The Company has a Post-Retirement Medical Benefits (PRMB) and pension plan for its employees. The Company has taken the insurance policies to meet its obligations under these plans. Accordingly, the liability of the company is limited upto the amount of insurance premium paid. These plans have been treated as defined contribution plans. The insurance premium paid for these plans is recognised as employee benefit expense and charged in statement of profit and loss account.

1.2.25 Provisions

Provisions (other than employee benefits) are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

1.2.26 Claims

Pending settlement, claims made on underwriters /railways /others as assessed by the Company on a probable realization basis are recognized at the time of lodgment.

1.2.27 Adjustment pertaining to Prior Period

Income/Expenditure pertaining to prior period upto ₹ 10.00 crores in each case subject to cumulative limit of 0.50% of sales turnover of previous year are not considered material and are included under the income/expenditure of the current year.

1.2.28 Prepaid Expenditure

Prepaid expenditure upto Rupee one lakh in each case not being considered material is included under the expenditure of the current year.

1.2.29 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.2.30 Earnings per share

(a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- (i) the profit attributable to owners of the Company
- (ii) by the weighted average number of equity shares outstanding during the financial year

(b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- (i) the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- (ii) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

The Total Subsidy Receivable is ₹ 3696.25 crore

The procedure for release of subsidy has been revised with the introduction of Direct Benefit Transfer (DBT) scheme in a phased manner for various fertilizers. As per the earlier procedure 85% to 95% of subsidy to manufacturers was allowed on monthly basis based on receipt of fertilizer in the District and balance 5% (for Urea) and 10% to 15% (P&K) on confirmation of receipt of fertilizer by retailers through FMS amongst other requirements. However, the revised procedure entails 100% payment of subsidy under Direct Benefit Transfer scheme on the basis of actual sale by the retailers to the beneficiaries on weekly basis through PoS machines.

47.1 Ind AS-19: Employee Benefits

47.1.1 General description of defined benefit schemes:

Gratuity	Payable on separation @ 15 days pay for each completed year of service subject to maximum of ₹ 20 lakh to eligible employees who render continuous service of 5 years or more.
Leave Encashment {Earned Leave (EL) and Half Pay Leave(HPL)}	Payable on separation to eligible employees who have accumulated earned leave and half pay leave. During the service period encashment of accumulated earned leave is allowed in a financial year leaving minimum balance leave of 10 days.
Long Service Award (LSA)	Payable to employees on completion of specified years of service.
Legal heirs of deceased employees and disabled employees (separated) can opt for either of the following two schemes:	
Social Security Benefits (SSB)	Lump sum benefit payable for left over month of service limited to 60 month pay (maximum ₹ 9.00 lakhs with minimum benefits of ₹ 1.00 lakhs).
Employees' Family Economic Rehabilitation Scheme (EFERS)	Monthly payment along with medical and children education benefits in lieu of prescribed deposit upto the date of notional superannuation.

47.1.2 Provident Fund: The Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952.

During the year an amount of ₹ 27.05 crore (CPLY ₹ 27.09 crore) has been charged to statement of Profit and loss towards contribution by the Company.

The Provident Fund Trust set up by the Company is treated as Defined Benefit Plan since the Company has to meet the shortfall in the fund assets, if any. Further, having regard to the assets of the Fund and the Return on the Investments, the Company does not expect any deficiency in the foreseeable future. In terms of the guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of provident fund liability and determined that there is no shortfall as at 31st March, 2018.

The funds of the trust have been invested under various securities as prescribed by regulatory authorities.

(i) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Notes to Consolidated Financial Statements for the year ended 31st March 2018

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
 - the fair value of foreign currency option contracts is determined using Black Scholes valuation model.
 - the fair value of the remaining financial instruments is determined using discounted cash flow analysis.
- All of the resulting fair value estimates are included in level 3

(iii) Fair value measurements using significant unobservable inputs (level 3)

The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans, security deposits and investment in government securities were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are observable.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 2 fair values in the fair value hierarchy since significant inputs required to fair value an instrument are not observable.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note No. 56 Financial Risk Management

The company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost.	Aging analysis, Credit Analysis, Post Dated Cheques and Security Deposit.	Diversification of bank deposits, credit limits and Bank Guarantees
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash Flow Forecasting, Monitoring of Forex Risk Management Policy	Forward Foreign exchange contracts
Market risk – interest rate	Long-term borrowings at variable rates	Monitoring of Forex Risk Management Policy	Interest Rate Swap

The company's risk management is carried out by a central treasury department and marketing department under policies approved by the Board of Directors. Treasury identifies, evaluates and hedges financial risks. The board provides written principles for overall risk management, marketing manual, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, derivative financial instruments and investment of excess liquidity.

(A) Credit risk

Credit Risk refers to the risk of default on its obligations resulting in financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 3935.28 crore and ₹4267.43 crore as of 31st March, 2018 and 31st March, 2017, respectively. Trade receivables mainly constitute subsidy receivable from Government of India and from sale of fertilizers to dealers. Trade receivables from dealers are partially secured. Credit risk is being managed through credit approvals, establishing credit limits and monitoring the creditworthiness of customers to allow credit terms in the normal course of business.

Breakup of Trade Receivables is as under:

Category	Party Wise breakup of Trade Receivables			
	31.03.2018 ₹ in crore	% of Total Debtors	31.03.2017 ₹ in crore	% of Total Debtors
Govt of India (Subsidy)	3696.25	93.93	4044.93	94.79
Institutional Dealers	85.96	2.18	50.6	1.18
Private Dealers	153.07	3.89	171.9	4.03
	31.03.2018	% of Debtors to Total Sales	31.03.2017	% of Debtors to Total Sales
Total Sales	8989.28	43.78	7643.36	55.83

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting period:

	₹ in crore	
	31 st March, 2018	31 st March, 2017
Floating rate		
Expiring within one year (Bank Overdraft/CC Limit and other facilities)	3109.57	2046.27

The Bank Overdraft/Cash Credit (CC)/Short term loan (STL) facilities may be drawn at any time and may be called back by the bank at their discretion. The credit facilities of Banks are subject to compliance with sanctioned terms & conditions. The credit facilities have an average maturity of 1 year.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6) (b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF NATIONAL FERTILIZERS LIMITED FOR THE YEAR ENDED 31ST MARCH 2018 AND MANAGEMENT REPLY THEREON

COMMENT	MANAGEMENT REPLY
<p>The preparation of financial statements of National Fertilizers Limited (NFL) for the year ended 31st March 2018 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 is the responsibility of the management of the Company. The Statutory Auditors appointed by Comptroller and Auditor General of India under Section 139(5) of the Act are responsible for expressing opinion on the financial statements under Section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under Section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 02 May 2018.</p> <p>I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit under section 143(6) (a) of the Act of the financial statements of National Fertilizers Limited for the year ended 31 March 2018. This supplementary audit has been carried out independently without access to the working papers of the Statutory Auditors and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records.</p> <p>Based on my supplementary audit, I would like to highlight the following significant matter under Section 143 (6) (b) of the Act which have come to my attention and which in my view is necessary for enabling a better understanding of the financial statements and the related audit report.</p> <p>A. Comments on Financial Position</p> <p>Current Liabilities</p> <p>Other Financial Liabilities (Note No. 28) ₹ 588.49 crore</p> <p>NFL included revenue of ₹ 93.74 crore arising out of non-core activities such as interest on fixed deposits, loan to employees, rental income, profit on sale of property, plant and equipment, sale of scrap and miscellaneous income in Profit before tax (PBT) and accordingly provided ₹ 21.93 crore for payment of Performance related pay (PRP) for the year 2017-18 in violation of DPE guidelines¹ which stipulates that income from non-core activities should not be considered for calculation of PBT for payment of PRP. The provision for PRP as per DPE guidelines works out to ₹ 11.29 crore.</p> <p>Non-compliance to the DPE guidelines has resulted in overstatement of other financial liabilities and understatement of profit by ₹ 10.64 crore (₹ 21.93 – ₹ 11.29 crore).</p>	<p>As per DPE circular W-02/0028/2017-DPE (WC)-GL-XIII/17 dated 03.08.2017 "The overall profits for distribution of PRP shall be limited to 5% of the year's profit accruing only from core business activities (without consideration of interest on idle cash / bank balances), which will be exclusively for executive and for non-unionized supervisors of CPSE. The ratio of break-up of profit accruing from core business activities for payment of PRP between relevant year's profit to Incremental profit shall be 65:35 to arrive at the Allocable profits and the Kitty factor."</p> <p>Govt. Audit has observed that NFL included revenue (other Income) arising from non-core activities for calculation of provision for PRP.</p> <p>NFL through its various letters to Govt Audit submitted the detailed reasons/ justification for each item of other income in line with classification of item of Income as per Guidance Note on IND AS.</p> <p>In this connection, Guidance Note on Division II- IND AS Schedule III to the Companies Act 2013 of ICAI states as under:-</p> <p><i>"Revenue from operation needs to be disclosed separately as revenue from</i></p>

¹Department of Public Enterprises circular No. W-02/0028/2017-DPE(WC)-GL-XIII/17 Dated 03.08.2017.

	<p>(a) Sale of products</p> <p>(b) Sale of services and</p> <p>(c) Other operating revenues</p> <p><i>It is important to understand what is meant by the term “other operating revenues” and which items should be classified under this head vis-à-vis under the head “Other Income”.</i></p> <p><i>The term “other operating revenue” is not defined. This would include Revenue arising from a company’s operating activities i.e. either its principal or ancillary revenue-generating activities, but which is not revenue arising from sale of products or rendering of services. Whether a particular income constitutes “other operating revenue” or “other income” is to be decided based on the facts of each case and detailed understanding of the company’s activities.</i></p> <p><i>The classification of income would also depend on the purpose for which the particular asset is acquired or held.”</i></p> <p>“Other Income</p> <p><i>The aggregate of Other Income is to be disclosed on face of the Statement of Profit and Loss. As per Note 5 of General Instructions for the Preparation of Statement of Profit and Loss ‘Other Income’ shall be classified as:</i></p> <p><i>a) Interest Income</i></p> <p><i>b) Dividend Income</i></p> <p><i>c) Other non-operating income (net of expenses directly attributable to such income).”</i></p> <p>Company is of the view that even following the classification of income as per Companies Act 2013, all items of income disclosed under “Other Income” are found to be arising from core business activities of the company, a fact, which has not been appreciated by Govt Audit. The various types of Other Income are Rent, Profit on sale of Property / Plant & Equipment, Sale of Scrap, Miscellaneous Income consisting of Dispatch Money Received, Sale of Energy certificates, Penalty / Liquidated Damages (LD), etc.</p> <p>With regard to Interest on Idle cash/bank balances it is submitted that the company is not having any idle cash/bank balances of permanent nature. On the contrary, the company is incurring interest cost on permanent higher working capital borrowings due to delay in receipt of subsidy from GoI, in view of lower budget allocation for subsidy by GOI vis-a-vis subsidy payable. The delay in payment of subsidy leads to higher working capital requirements which have to be funded through short term borrowings resulting into higher interest costs. Due to unpredictability of exact timing of receipt of subsidy from GoI, the company necessarily has to borrow to meet exigencies of operation and simultaneously around the same time, if subsidy is received, such subsidy cannot be used to repay fixed tenure borrowings, therefore such short term surplus funds are kept in term deposits to reduce the overall interest cost of short term borrowings.</p> <p>Similarly, the interest on loans (Housing loans etc.) given to employees at subsidized rates, are out of working capital borrowing of the company. The other interest is mainly in the nature of Interest charged from dealers for delayed payment of sale proceeds, etc.</p>
--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>The net finance cost pertaining to working capital after adjustment of Interest of ₹ 3.62 crore on fixed deposits for FY 2017-18 works out to ₹ 178.20 crore. Therefore no Interest Income is arising to company out of idle cash/bank balances.</p> <p>In view of difference arising in understanding and interpretation of DPE circular viz-a-viz provisions contained in the matter under Companies Act 2013, the matter has been referred to DPE for clarification vide letter dated 02.08.2018.</p> <p>Pending review, necessary reversal of provision for PRP has been made in the quarterly accounts for FY 2018-19.</p>

COMMENT	MANAGEMENT REPLY
<p>The preparation of financial statements of National Fertilizers Limited (NFL) for the year ended 31st March 2018 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 is the responsibility of the management of the Company. The Statutory Auditors appointed by Comptroller and Auditor General of India under Section 139(5) read with section 129 (4) of the Act are responsible for expressing opinion on the financial statements under Section 143 read with section 129 (4) of the Act based on the independent audit in accordance with the standards on auditing prescribed under Section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 02 May 2018.</p> <p>I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit under section 143(6) (a) read with section 129 (4) of the Act of the consolidated financial statements of National Fertilizers Limited for the year ended 31 March 2018. We conducted a supplementary audit of the financial statement of National Fertilizers Limited, (the Company) Urvarak Videsh Limited and Ramagundam Fertilizers & Chemicals Limited (Joint Ventures) for the year ended on that date. This supplementary audit has been carried out independently without access to the working papers of the Statutory Auditors and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records.</p> <p>Based on my supplementary audit, I would like to highlight the following significant matter under Section 143 (6) (b) read with section 129 (4) of the Act which have come to my attention and which in my view is necessary for enabling a better understanding of the financial statements and the related audit report.</p> <p>A. Comments on Consolidated Financial Position</p> <p>Current Liabilities</p> <p>Other Financial Liabilities (Note No. 28) ₹ 588.49 crore</p> <p>NFL included revenue of ₹ 93.74 crore arising out of non-core activities such as interest on fixed deposits, loan to employees, rental income, profit on sale of property, plant and equipment, sale of scrap and miscellaneous income in Profit before tax (PBT) and accordingly provided ₹ 21.93 crore for payment of Performance related pay (PRP) for the year 2017-18 in violation of DPE guidelines¹ which stipulates that income from non-core activities should not be considered for calculation of PBT for payment of PRP. The provision for PRP as per DPE guidelines works out to ₹ 11.29 crore.</p> <p>Non-compliance to the DPE guidelines has resulted in overstatement of other financial liabilities and understatement of profit by ₹ 10.64 crore (₹ 21.93 – ₹ 11.29 crore).</p>	<p>As per DPE circular W-02/0028/2017-DPE (WC)-GL-XIII/17 dated 03.08.2017 “The overall profits for distribution of PRP shall be limited to 5% of the year’s profit accruing only from core business activities (without consideration of interest on idle cash / bank balances), which will be exclusively for executive and for non-unionized supervisors of CPSE. The ratio of break-up of profit accruing from core business activities for payment of PRP between relevant year’s profit to Incremental profit shall be 65:35 to arrive at the Allocable profits and the Kitty factor.”</p> <p>Govt. Audit has observed that NFL included revenue (other Income) arising from non-core activities for calculation of provision for PRP.</p>

¹Department of Public Enterprises circular No. W-02/0028/2017-DPE(WC)-GL-XIII/17 Dated 03.08.2017.

	<p>NFL through its various letters to Govt Audit submitted the detailed reasons/ justification for each item of other income in line with classification of item of Income as per Guidance Note on IND AS.</p> <p>In this connection, Guidance Note on Division II- IND AS Schedule III to the Companies Act 2013 of ICAI states as under:-</p> <p><i>“Revenue from operation needs to be disclosed separately as revenue from</i></p> <p><i>(a) Sale of products</i></p> <p><i>(b) Sale of services and</i></p> <p><i>(c) Other operating revenues</i></p> <p><i>It is important to understand what is meant by the term “other operating revenues” and which items should be classified under this head vis-à-vis under the head “Other Income”.</i></p> <p><i>The term “other operating revenue” is not defined. This would include Revenue arising from a company’s operating activities i.e. either its principal or ancillary revenue-generating activities, but which is not revenue arising from sale of products or rendering of services. Whether a particular income constitutes “other operating revenue” or “other income” is to be decided based on the facts of each case and detailed understanding of the company’s activities.</i></p> <p><i>The classification of income would also depend on the purpose for which the particular asset is acquired or held.”</i></p> <p>“Other Income</p> <p><i>The aggregate of Other Income is to be disclosed on face of the Statement of Profit and Loss. As per Note 5 of General Instructions for the Preparation of Statement of Profit and Loss ‘Other Income’ shall be classified as:</i></p> <p><i>a) Interest Income</i></p> <p><i>b) Dividend Income</i></p> <p><i>c) Other non-operating income (net of expenses directly attributable to such income).”</i></p> <p>Company is of the view that even following the classification of income as per Companies Act 2013, all items of income disclosed under “Other Income” are found to be arising from core business activities of the company, a fact, which has not been appreciated by Govt Audit. The various types of Other Income are Rent, Profit on sale of Property / Plant & Equipment, Sale of Scrap, Miscellaneous Income consisting of Dispatch Money Received, Sale of Energy certificates, Penalty / Liquidated Damages (LD), etc.</p>

	<p>With regard to Interest on Idle cash/bank balances it is submitted that the company is not having any idle cash/bank balances of permanent nature. On the contrary, the company is incurring interest cost on permanent higher working capital borrowings due to delay in receipt of subsidy from GoI, in view of lower budget allocation for subsidy by GOI vis-a-vis subsidy payable. The delay in payment of subsidy leads to higher working capital requirements which have to be funded through short term borrowings resulting into higher interest costs. Due to unpredictability of exact timing of receipt of subsidy from GoI, the company necessarily has to borrow to meet exigencies of operation and simultaneously around the same time, if subsidy is received, such subsidy cannot be used to repay fixed tenure borrowings, therefore such short term surplus funds are kept in term deposits to reduce the overall interest cost of short term borrowings.</p> <p>Similarly, the interest on loans (Housing loans etc.) given to employees at subsidized rates, are out of working capital borrowing of the company. The other interest is mainly in the nature of Interest charged from dealers for delayed payment of sale proceeds, etc.</p> <p>The net finance cost pertaining to working capital after adjustment of Interest of ₹ 3.62 crore on fixed deposits for FY 2017-18 works out to ₹ 178.20 crore. Therefore no Interest Income is arising to company out of idle cash/bank balances.</p> <p>In view of difference arising in understanding and interpretation of DPE circular viz-a-viz provisions contained in the matter under Companies Act 2013, the matter has been referred to DPE for clarification vide letter dated 02.08.2018.</p> <p>Pending review, necessary reversal of provision for PRP has been made in the quarterly accounts for FY 2018-19.</p>
