

PRESS RELEASE February 3, 2018

Q3 FY18 Performance Highlights

Revenues at Rs. 538 crore, higher by 10.3%; led by 14% growth in exports EBITDA at Rs. 105 crore; PAT at Rs. 81 crore

Gurgaon, February 3, 2018: PI Industries Limited (PI), an agri-sciences company with an integrated approach to business, announced its financial results for the quarter and nine-months ended December 31, 2017.

Financial Highlights for Q3 & 9M FY2018

Particulars	Q3 FY2018 (Rs. in Crore)	Growth (%) (Y-o-Y)	9M FY2018 (Rs. in Crore)	Growth (%) (Y-o-Y)
Revenues *	538	10.3%	1,652	(1.1%)
EBITDA	105	1.5%	357	(9.9%)
PAT	81	(14.2%)	261	(19.0%)

^{*} Revenue Net of Excise Duty

Financial and Operational Commentary for the quarter and nine-months ended December 31, 2017.

Net Revenue

During Q3, revenue growth stood at 10.3% on account of revival of exports in line with planned higher deliveries earmarked in H2. The growth in exports during the quarter was at 14%, while the domestic operations grew by 3%.

Revenues in 9M FY18 were almost flat mainly on account of uneven rainfall, residual demonetization, GST impact as well as lower export shipments in H1.

EBITDA

Q3 FY18 EBITDA was at Rs. 105 crore, up by 1.5% Vs Q3 FY17. 9M EBITDA was at Rs. 357 crore with EBITDA margin of 21.6%, marginally lower due to increase in raw material costs and change in product mix.

Post-tax Earnings

Q3 FY18 PAT was at Rs. 81 crore primarily impacted by higher effective tax rate. 9M FY18 PAT stood at Rs. 261 crore.

Healthy Balance Sheet

Strong balance sheet position supported by steady cash flow generation. The business is favorably placed to fund future growth initiatives. The Company continued to be cash positive with available cash surplus of Rs. 243 crore as on 31st December, 2017.

Commenting on the performance, Mr. Mayank Singhal - Managing Director & CEO, PI Industries Limited, said:

"Q3 represents a resumption of growth in exports, complemented by excellent growth of some newly launched brands in India. Whereas short-term changes in performance reflect stresses brought by uneven agro-climatic condition in India, slowdown of global agchem demand and increase in raw material prices, we are confident of delivering strong growth in both domestic and export markets in the mid to long term with rich product / business pipeline.

Global agchem industry is showing early sign of revival with reduction in inventory levels in key markets and is expected to result in progressive acceleration in the second half of FY2019. This will restore higher growth trend in our export operations and drive initiatives to augment capacities.

Government of India's strong emphasis and focused initiatives to substantially increase the farm income is also expected to drive growth of agri-input industry in the coming years."

Outlook

PI's attractive presence in innovator-backed molecules supported by strong focus on R&D & Technology, will continue to be the foundation of growth in both domestic and export areas. A robust order book, deep product pipeline and capabilities across the value-change will continue to support a positive outlook in conjunction with expected favorable agro-climatic trends.
