CHAIRMAN'S MESSAGE

Dear Shareholders,

It gives me immense pleasure to present to you the performance of your Company in Financial Year (FY) 15. Your Company continued its strong performance as it reported revenues of Rs. 279.50 crores for the FY 15, representing growth of 22% compared to the previous year. Your Company has recorded its highest ever profits during this year. The profit after tax stood at Rs. 19.51 crore compared to Rs. 13.57 crore last year, registering a year-on-year increase of 44%.

“In FY 15, Your Company has reported the highest turnover and profits in its history”

Major regions around the world are yet to fully emerge from the after-effects of the financial crisis that shook the global economy at the end of the last decade. While some regions have rebounded faster than others, the sustainability of the recovery is still to be fully assessed as the impact of subsidies, monetary easing and management of currency exchange rates plays out. Interestingly, for a country like India the impact of these factors is not all encompassing as the impact of political stability, implementation of reforms and development of infrastructure will have equal, if not greater, bearing on its economic progress.

India is recognized as one of the leading seafood suppliers in the world and has successfully exported a record 1 million tonnes of sea food fetching a foreign exchange of \$5.5 billion during FY 15. The exports of marine products reached an all-time high of ₹ 33,442 crore crossing all previous records in quantity, rupee value and US dollar terms. Frozen shrimps continued to be the flagship product in the seafood exports accounting for a share of 34 % in quantity and 67 % of the total exports.

“Frozen Shrimps continue to be the flagship product in the high growth marine products industry in India.”

Your Company has benefitted from the increase in acreage under shrimp farming resulting in immense growth of the shrimp feed industry over the last several years. In order to drive further growth and enable widespread availability of its shrimp feed in more farming regions across the country, significant expansion plans are being implemented. On 21st May, 2015, the Board of your Company had accorded in-principle approval for the scheme of amalgamation of Pinnae Feeds Limited with the Company. This will enable Your Company to increase its shrimp feed manufacturing capacity from

35,000 metric tonnes per annum (MTPA) to 1,10,000 MTPA and will pave the way for continued volume growth going forward.

In over Twenty Five years of existence, your Company has continually strived to encourage the development of the aquaculture industry in India in a responsible, efficient and sustainable manner. In line with this approach, your Company proposes to set up hatcheries in key farming regions across the country. The focus will be to ensure that quality Vannamei seeds are made available to farmers.

“Our focus is steady: Invest, innovate, bring a smarter, more efficient approach to how we operate and be the partner that helps customers and stakeholders thrive”

In order to participate in the next wave of growth, Your Company has implemented several strategic initiatives during the year. This includes augmenting the management team to enhance the delivery of key functions, strengthening of the distribution network, and focus on the engagement with customers.

Overall, your Company is confident about the future as it is richly endowed with the requisite resources, experience, knowhow and the ambition to champion sustainable growth of the aquaculture industry.

I would like to take this opportunity to acknowledge the contribution of our employees, their dedication and commitment in making TWL a preferred name in this industry. I would also like to thank our customers, business partners, bankers, vendors and other business associates, without whose contributions we would not have enjoyed the achievements that we have shared with all of you. I would like to express my gratitude to various Central and State Government Authorities and Industry Bodies for their contribution in shaping the Industry. Finally, I thank all our stakeholders for their unstinted interest, support, faith and encouragement. I look forward to a continued partnership with all shareholders for further value creation in the coming years.

Warm Regards,

Vikramaditya Mohan Thapar
Chairman

The Financial Statements together with the Auditor's report is annexed and forms part of this report.

PERFORMANCE OVERVIEW

FY15 has been an exciting year for the Company as it achieved the highest ever Revenues and Profitability in its history. Additionally, there has been significant progress on strategic initiatives and rollout of business expansion plans. Your Company reported revenues of ₹ 279.50 crore in FY15 compared to ₹ 229.59 crore last year, registering growth of 22%. Revenue growth was achieved by steady growth in volumes of shrimp feed due to continued robust demand from farmers and stable realizations as well as sustained contribution from shrimp processing.

While there was some firming up in the price of agri-based raw materials, the Company was able to mitigate the impact through proactive sourcing and efficient production which helped to contain the rise in expenditure in line with revenue growth thereby preserving margins.

During the year the Company provided ₹ 10.73 crore for taxation as against ₹ 6.87 crore for last year. Profit after Tax for the year was ₹ 19.51 crore compared to ₹ 13.57 crore in FY14, registering a year-on-year increase of 44%. This was the highest ever PAT reported by the Company in its history. The earnings per share (EPS) for the year stood at ₹ 5.06, an increase of 16% compared to ₹ 4.37 in the previous year.

DIVIDEND AND APPROPRIATIONS

Based on the Company's financial performance and considering the profitability and cash flow, the Board had declared an interim dividend of 10% (₹ 1 per equity share) during FY15 at the meeting held on 31st July, 2014. This was subsequently paid to all the eligible shareholders. Further, the Board has recommended a final dividend of 5% (i.e. 50 Paise per equity share) at the meeting held on 21st May 2015. The same is payable on obtaining the Shareholders' approval in the ensuing Twenty Eighth Annual General Meeting. This would entail a total outflow of ₹ 6.83 Crore on account of dividend including dividend tax for FY15.

Further, ₹ 0.37 Crore was transferred to reserves during FY15.

MATERIAL CHANGES AND COMMITMENTS

At present, Pinnae Feeds Limited (PFL), which is a wholly owned Subsidiary of Karam Chand Thapar & Bros. (Coal Sales) Limited (Promoter of the Company) is manufacturing feed for your Company at their state-of-the-art plant located near Nellore, Andhra Pradesh. Their feed manufacturing capacity is 75,000 MTPA. At the meeting held on 21st May, 2015, the Board of Directors of both PFL and the Company had in-principally sanctioned the amalgamation of PFL with the Company. Pursuant to this, on consummation of the amalgamation, the feed manufacturing capacity is expected to increase from 35,000 MTPA to 1,10,000 MTPA.

Apart from the increase in capacity, this amalgamation is expected to lead to higher efficiencies due to economies of scale, enable better negotiation in sourcing of raw material and improve the availability of the Company's Products in the domestic market. The Company will also leverage the increased capacity to enhance its presence in high growth markets.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

Though the world economy continued to grow in FY15, incremental growth remains at a moderated pace as the economic performance across various regions was mixed. Several high income countries continued to struggle and emerging economies were less dynamic than in the past. The world largest economy, the US performed well in FY 15, moving away from the prolonged slowdown following the financial crisis. On the other hand, other large economies like China, Japan, most OPEC countries and large parts of Europe was faced with slow growth. The fall in commodity prices impacted the prospects of those countries which are dependent on natural resources and the challenges were intensified by weakening currency rates.

For the past two financial years, the Indian economy has been reporting growth of less than 5%. However, FY15 was an inflection point marked by the turning of the interest rate cycle and the beginning of a revival in the Indian economy. According to the Asian Development Bank, India's GDP growth was expected to be above 7% in 2015 and is expected to hit 8% in 2016, showing stable yet robust growth. In stark comparison, the global economy is only expected to grow by 3.5% in 2015 and 3.8% in 2016. With the Chinese economy slowing down due to structural changes undertaken, India is set to become the fastest growing economy in the world within the next few years. Key to this growth will be a massive increase in capital expenditure, an increase in jobs for the growing young workforce and effective inflation management.

INDUSTRY OVERVIEW

Due to a long coast line and favorable weather conditions, India has emerged as one of the leading seafood supplier in the world. Increased production of Vannamei shrimp, stringent quality control measures and an increase in infrastructure facilities for production of value added items have helped in achieving exponential growth in the aquaculture industry in India.

Exports of Marine Products have grown more than three-fold in the years 2002-03 to 2014-15. The demand for sea-food has been soaring due to appreciation of its health benefits and nutritional value of marine products. With a high unit value, seafood has been acclaimed as one of the fastest moving commodities in the world market.

India is one of the largest exporters of shrimp in the World. The trend of high prices for shrimp, globally, in recent years

have helped in making the Industry more lucrative. Frozen shrimps contribute 34% of volumes of marine exports but represents nearly 67% in value terms. The shrimp exports in the year 2014-15 were valued at \$3.7 billion, a 15.5% increase over 2013-14. The overall export of shrimp during 2014-15 was to the tune of 357,505 MT as compared to 301,435 MT in 2013-14. USA is the largest market (112,702 MT) for frozen shrimps exports in quantity terms followed by European Union (81,952 MT), South East Asia (69,068 MT) and Japan (30,434 MT).

STRATEGY & EXPANSION PLANS

The Company plans to take up various strategic initiatives such as capacity expansion, widening its distribution network and diversifying its revenue streams.

Capacity Expansion

On 21st May, 2015, the Board of Directors of the Company had accorded in-principle approval for a scheme of amalgamation of Pinnae Feeds Limited, which is also a Karam Chand Thapar Group Company.

Pinnae Feeds Limited has a state-of-the art feed manufacturing plant with a total capacity of 75,000 MT. This amalgamation would result in an increase of feed manufacturing capacity from 35,000 MTPA to 1,10,000 MTPA. Further, the amalgamation is expected to lead to higher efficiencies due to economics of scale, and improve the availability of the company's products in the domestic market.

Enhance Geographic Reach

With the increased capacity, TWL will be able to enhance the availability of its feed in key markets.

The Company is now embarking on phased geographical expansion and dealer network expansion is also underway.

Diversifying Revenue Streams

In order to diversify its revenue streams and improve its strategic positioning, the Company plans to enter more verticals within the value chain. This would enhance the Company's competitive position. In the forthcoming year, the Company plans to set up Hatcheries and get back to exports of processed shrimps.

Hatcheries

On 21st May, 2015, the Company has announced its diversification into setting up of Hatcheries. As on date, the land for setting up the first Hatchery has been procured in Andhra Pradesh. The plan is to set up a 400 million shrimp seeds Hatchery in two phases comprising of two modules of 200 million each. The first module is expected to be commissioned in the current financial year. The Company will expand the Hatchery operations going forward. These Hatcheries are expected to play an important role in enhancing the sustainability of the industry by making available good quality seeds from a trusted source.

Direct Exports

The Company plans to restart exports of processed shrimps. The Company will gradually scale up the exports in the coming years. The company is well known for its quality products in the international market.

RESEARCH AND DEVELOPMENT

The Company has a strong focus on R&D. Our world class R&D program and high technology has enabled the Company to introduce innovative shrimp feeds. Our research had led to development of feeds that travel beyond meeting the basic nutritional requirements with the objective of Improving Food Conversion Ratio (FCR), reducing visceral waste & improving yield. The Company has R&D farms to study the growth of shrimps under various conditions. The Company has also taken up efforts to train farmers and has worked with renowned research institutions in India and abroad for the benefit of industry.

SWOT ANALYSIS

STRENGTHS

The Company has been a pioneer in the aquaculture industry in India. A sustainable approach to the business with a multi-year track record has enabled the Company to successfully build a strong connection with suppliers and farmers. All of TWL's products are well received in the market. The farmers are able to recognize and appreciate the quality and value offered by our brands.

WEAKNESS

Soya, fish meal and wheat flour constitute the main raw materials for manufacturing shrimp feed. The availability of these raw materials depend on the monsoons, demand from overseas and the wild catch (Fish meal).

Shrimp farming is a risky business and prospects are affected by several factors such as seed quality, international prices, diseases, weather, seasonal patterns, etc. As many of these factors cannot be controlled, this increases the risk profile of the shrimp feed business.

OPPORTUNITIES

More waterspread area is coming under shrimp farming which presents a huge growth opportunity.

Affordability and availability of good quality shrimps will drive domestic growth With increasing disposable incomes and cold storage infrastructure, there exist a huge potential for the domestic market for shrimps.

THREATS

An outbreak of disease would directly affect the business of the Company and therefore it always stands as a major risk.

As the majority of farming is undertaken along the coast line the possibility of natural disasters like floods, tsunamis, hurricanes and cyclones can significantly impact the industry.

The capacities in the shrimp feed business have gone up many folds in the past few years. The intense competition may impact bottom line going forward.

OUTLOOK

The outlook for India's aquaculture industry remains positive. The Global demand for shrimp will continue to rise each year as the wild catch is coming down due to a variety of reasons including Global warming. The Company stands to benefit from the overall development of the industry as it has established itself well in the market and has a good product portfolio.

HUMAN RESOURCES

The Company recognizes that its people have played a big role in making what the Company is today and therefore it accords top priority to attract and retain talent. The Company puts great emphasis on training and development of its employees to enhance efficiency. The Company believes in providing a fair compensation in line with industry norms and rewards them for good performance.

RISK MANAGEMENT/INTERNAL CONTROLS

Risk management is undertaken through review of the operations by the Board and necessary steps taken by the executive management to minimize /control the same. The risks are periodically reviewed and appropriate steps taken to mitigate the same.

The Company has adequate internal control systems and procedures, with regard to all activities of the company. The internal control is supplemented by an extensive programme of internal audits, review by management. The Audit Committee reviews the report of the internal auditor and their suggestions are considered and implemented on an ongoing basis.

1.4 Fixed Assets

Fixed Assets are stated at cost of acquisition / revaluation less accumulated depreciation and impairment losses. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Financing cost relating to construction of assets are also included to the extent they relate to the period till such assets are ready to be put to use. Financing cost not relating to construction of assets are charged to the income statements.

Intangible assets acquired separately are measured on initial recognition at cost. Costs incurred towards purchase of computer software are depreciated using the straight-line method over a period of two years based on management's estimate of useful lives of such software, or over the license period of the software, whichever is shorter.

1.5 Research & Development

Research costs are expensed as incurred.

1.6 Depreciation

Depreciation has been provided on straight line method based on useful life specified in Schedule II of the Companies Act, 2013 after retaining residual value of 5% of the original cost of the assets.

1.7 Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date for any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying cost of an asset / cash generating unit exceeds its recoverable amount and is charged to Statement of Profit & Loss in the year in which the same is identified.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

1.8 Borrowing Cost

Borrowing cost incurred on construction or acquiring a qualifying asset, which takes a substantial period of time for construction, is capitalised as cost of that asset. All other borrowing cost is recognised as an expense in the period in which they are incurred.

1.9 Inventories

- (a) Raw Materials, components, stores and spares -

Lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis and includes relevant cost of bringing those materials at their present location and condition.

- (b) Work-in-Progress and Finished Goods -

Lower of cost and net realisable value. Cost includes direct materials, labour and a portion of manufacturing overheads based on normal operating capacity or actual production whichever is less.

1.10 Foreign Currency Transactions

- (a) Initial recognition

Foreign currency transactions are recorded in the reporting currency by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency, at the date of transaction.

- (b) Conversion

Foreign currency monetary items are reported using the closing rate

- (c) Exchange Difference

1.14 Taxes On Income:

Taxes On income for the current period are determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961. Deferred tax is recognized for all timing differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.
