MANAGEMENT NOTE

25 years has been a fascinating journey for all of us at Menon Bearings !

Acquiring & growing business, continuously upgrading & assimilating newer technologies & building long term relationships with marquee customers like Cummins, Tata Motors, John Deere, Honeywell, Magna, Allison, Emerson, Eaton, Mahindra, TAFE, Gabriel, Brakes India and many others.

The auto industry is highly cyclical in nature. It is necessary that we mitigate the risks & diversify across a wider spectrum to enable us to maintain a sustained momentum & profitability in our business.

Since 2010, your company has consciously embarked on diversifying from Engine Bearings Crank Shaft Parts. Due to its innate engineering competence, your company has been consistently successful in developing new parts supply to segments such as Brakes, Steering, Suspension, Axles, Transmissions, Drive trains oil & gas industry etc.

Furthermore, your company's business exposure is diversified & hedged across geographies. MBL is globally positioned, with exports of about 30% of its production to a wide range of markets.... from USA to China, France to Japan, Brazil, Mexico, Africa, Dubai, Netherlands etc. Our office at Indianapolis, USA has been catering to international OEMs & the market in the USA for more than two decades.

Apart from the cyclical nature of the auto engineering industry, the ever evolving emission norms are a major challenge to our industry. MBL has consistently succeeded in upgrading its technology & product portfolio to conform to emission norms by prevoyantly taking the right steps in time. As a part of this mission, MBL has been successful in developing Lead Free Aluminium Alloy Parts to cater to future emission norms.

Your company's Aluminium Parts division Alkop continues to perform towards consolidating its position as a Technology Player in its segment. Though the business potential for Aluminium parts is large, the market is scattered & distributed across various levels of technology & price points. In this market Alkop aims to be a niche manufacturer. To augment its technology advantage as a total solutions provider in designing developing & manufacturing high value added technology products, Alkop has invested in a heavy duty tool room for making ultra-precision tools, dies & fixtures in house. Alkop enjoys a major share of the parts it supplies to domestic and export customers.

The period since November 2018 and especially the quarter January to March 2019 was a challenging period for the auto engineering industry as a whole. However, owing to a strong diversified customer base & optimal product mix, your company was able to minimize the impact of the slowdown. No single customer contributes more than 10% to 12% of the total sales.

As regards the impact of electric vehicles on your company, it is understood that Electric technology is still in the works. Charging infrastructure, technology, pricing of the products and a variety of other factors are still a challenge. The impact of electrification, to whatever extent, initially will be more pronounced in the Passenger Commute segments such as Cars, two wheelers & three wheelers. Your company's exposure directly to these segments is less than 1% of the total sales. MBL is a leader in parts supply to heavy duty diesel parts like Mining equipment (heavy trucks, earth moving equipment), Marine Engines, Tractors, LCV, HCV, Heavy duty generator sets, industrial segments etc.

Your company has continued its efforts in adding new Customers and at the same time is increasing the wallet share of its current businesses. The company will leave no stone unturned & make every endeavor to maintain sustained profitable growth.

ANNEXURE - IV
Form No. MR-3
SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST MARCH 2019
[Pursuant to Section 204(1) of the Companies Act, 2013 and
Rule 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Menon Bearings Limited

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Menon Bearings Limited** (hereinafter called 'the Company'). The Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluation of the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2019('Audit Period') generally complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2019 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
 - (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
 - (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
 - (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings **(Not applicable to the Company during the Audit Period);**
 - (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
- (i) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (ii) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (iii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 **(Not applicable to the Company during the Audit Period);**
 - (iv) Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 **(Not applicable to the Company during the Audit Period);**
 - (v) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 **(Not applicable to the Company during the Audit Period);**
 - (vi) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (vii) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 **(Not applicable to the Company during the Audit Period);**
 - (viii) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 **(Not applicable to the Company during the Audit Period);** and
 - (ix) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements)

Regulations, 2015.

- (vi) As informed and certified by the management, there are no laws that are specifically applicable to the business activities carried on by the Company based on its section / industry.

I have also examined compliance with the applicable clause/regulations of the following:

- (i) Secretarial Standards (SS – 1 and SS – 2) issued by The Institute of Company Secretaries of India.

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, etc. mentioned above, except following:

- a. delay in filling of some e-forms with the Registrar of Companies; and
- b. delay in processing of one dematerialization request as specified under Regulation 74 (5) of the SEBI (Depositories and Participants) Regulations, 2018.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive, Non-Executive and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice were given to all directors to schedule the Board Meetings; agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committees of the Board, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

1. The Company has obtained approval of shareholders through postal ballot process result of which declared on 20th March, 2019 for:
 - a) Confirming the appointment of Mr. Gajendra Vasa, Independent Director of the Company (DIN:00461425) as per Reg. 17(1A) of the SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations 2015 as amended vide SEBI (LODR Amendment) Regulations of 2018;
 - b) appointment of Dr. Santosh Prabhu, as an Independent Director (DIN:00506595) of the Company; and
 - c) appointment of Mr. Arun Aradhya (DIN: 03052587), CFO of the Company, as a Whole Time Director of the Company.

Management Discussion and Analysis

Economy Overview:-

India's growth accelerated to an estimated 7.3 per cent in financial year 2018-19, as economic activity continued to recover with strong domestic demand. While investment continued to strengthen amid the GST harmonisation and a rebound of credit growth, consumption remained the major contributor to growth. India's growth performance has been quite impressive. Year after year it has delivered strong numbers around its potential growth.

Outlook:-

The Indian economy started the fiscal year 2018–19 with a healthy 8.2 percent growth in the first quarter on the back of domestic resilience. Growth eased to 7.3 percent in the subsequent quarter due to rising global volatility etc. Despite softer growth, the Indian economy remains one of the fastest growing and possibly the least affected by global turmoil.

Industrial Review:-

Technavio's indian auto component industry analysis has predicted that the market will grow steadily at a moderate CAGR of around 19% by 2020. Production capacity expansion outpacing domestic consumption will drive export-oriented growth in the coming years and will be one of the major factors that will have a positive impact on the component market growth in the coming years. Cost-efficient operations and acceptable quality have increased export volumes for the auto components to global OEMs (original equipment manufacturer). Moreover, recent regulations that facilitate 100% foreign direct investment in the automobile industry will attract more joint ventures and wholly owned subsidiaries. This will augment export growth to OEMs in global markets.

Factors such as the rising vendor consolidation, faster replacement market growth, increasing localization, export-oriented growth, and growing electronic content per vehicle have induced the Indian auto component segment to continue to grow much faster than the OEM segment. This, in turn, will invite more exports to OEMs from auto component manufacturers.

The auto-components industry accounts for 2.3 per cent of India's Gross Domestic Product (GDP) and employs as many as 1.5 million people directly and indirectly each. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favourable destination for investment.

The Indian auto-components industry is set to become the third largest in the world by 2025. Indian auto-component makers are well positioned to benefit from the globalisation of the sector as exports potential could be increased by up to US\$ 30 billion by 2021.

The Foreign Direct Investment (FDI) inflows into the Indian automotive* industry during the period April 2000 – December 2018 were recorded at US\$ 20.85 billion, as per data by the Department of Industrial Policy and Promotion (DIPP).

The Indian auto-components industry can be broadly classified into the organised and unorganised sectors. The organised sector caters to the Original Equipment Manufacturers (OEMs) and consists of high-value precision instruments while the unorganised sector comprises low-valued products and caters mostly to the aftermarket category.

According to the Automotive Component Manufacturers Association of India (ACMA), the Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports

ranging between US\$ 80- US\$ 100 billion by 2026.

Achievements:

Following are the achievements of the government in the past four years:

- The FAME – India Scheme formulated by Department of Heavy Industry led to a continuous increase in registered OEMs and vehicle models. Also, the scheme enhanced the sales of electric vehicles and about 261,507 electric/hybrid vehicles were supported under the scheme up to December 6, 2018. In February 2019, the Government of India approved the FAME-II scheme with a fund requirement of Rs 10,000 crore (US\$ 1.39 billion) for FY20-22.
- Under National Automotive Testing and R&D Infrastructure Project (NATRiP) various facilities including passive safety labs comprising of crash core facility and crash instrumentations including dummies were established at ICAT-Manesar & ARAI-Pune
- To give a fresh thrust to e-mobility in public transport, Department of Heavy Industry announced the launch of public & shared mobility based on electric powertrain.

Futuristic Outlook:-

Growth indicators paint a picture of optimism for India—it might emerge as the world's fifth-largest economy by 2019, and become a USD 4.7 tn economy in 2023. Anticipation of a growing consumer class, enhanced ease of doing business, expanding infrastructure—such favourable factors could propel the country forward, and with it, India's automobile industry.

The Indian automotive OEM industry is already in a strong position. Globally, it is at the forefront of many segments—leading in two-wheelers, segment A cars, and tractors. The industry aspires to nearly triple vehicle sales by 2026, from 26 mn to 65 mn to 76 mn vehicles, across segments. These could be definitive tailwinds for the Indian automotive components industry, which has ambitions of its own by 2026—to double the contribution to manufacturing GDP with a four-fold growth in size and a six-fold growth in exports. While industry turnover has more than tripled (in Rupee terms) in the past decade, India's contribution to global turnover is approximately 3 percent. Clearly, there is substantial scope for growth in an industry being shaped by a variety of trends.

Few other trends that are favourable for the industry are as below :

- Growing working population and expanding middle class are expected to remain key demand driver.
- Relative to competitors, India is geographically closer to key automotive markets like the middle East & Europe.
- 100 per cent FDI allowed under automatic route for auto component sector.
- A cost-effective manufacturing base keeps costs lower by 10-25 per cent relative to operations in Europe and Latin America.

Concern & Threats:-

Spurious / Counterfeit products continue to attract price sensitive Replacement Market which accounts for 25-30% of total demand of bearing industry. These supplies, being of inferior quality, are unsafe in use and pose a risk to people, industry and to the economy by way of unexpected downtime and are safety hazards. In spite of industry wide efforts in educating customers and increasing awareness about the need to use safe sources of procurement, the problem continues owing to the slow legal process in punishing unscrupulous suppliers. There is an industry wide effort to control the same.

The auto component industry has been exposed to many risks of varying intensity. Important concerns and threats auto component industry is facing are:-

- Regulatory & Infrastructure Bottleneck

- Rising imports from China
- Increase in prices of input materials such as aluminium, Tin, Copper etc.
- Obsolete technologies which are not as competitive as compared to the technologies of global players which hinder the growth of Indian auto component industry.

Your Company is working continuously to mitigate these threats - leveraging its wide range of products and its Engineering capabilities and priming its sourcing and purchasing capabilities. The Company remains committed towards implementing and investing in sophisticated technology to offer enduring and efficient solutions.

Future Challenge:-

Evolving and increasingly stringent regulations could prompt changing expectations from auto component manufacturers, who might need to rethink their component production to comply with regulatory and other guidelines, such as:

- Emissions:** Enforcement of BS-VI norms by 2020, push towards EV, discussions on methanol, CNG and potentially even fuel cells
- Safety:** Mandatory ABS on cars, buses and two-wheelers, cabin safety, and roll over protection systems
- Scrappage:** Policy mandating the scrappage of old trucks impacting lead use and reverse value chain

Some challenges need to be addressed by auto components industry along with the government, are as follows:-

- Dynamic global trade policies add to the flux. International trade is often governed by factors beyond the control of individual companies or even of industries. The rise of tariff and non-tariff protection (stringent testing, quality related barriers), the existence or lack of free trade agreements with certain countries, and other government-to-government concerns could impact the business performance of auto component industry.
- Constantly shifting market dynamics due to changing manufacturing locales, customer demands, operating models and priorities
- The changing needs of OEMs, who are likely to want different, more agile and rapid component inputs as demand, timelines and processes keep shifting
- Technological improvements and discontinuities that are already starting to change revenue pools, trigger new competition and invite new forms of cooperation

The global automotive industry is staring at headwinds arising out of disruptions on account of shift in power train technology, from traditional internal combustion engines to electric and enhanced connectivity of vehicles with myriad connected features. This disruption will change the way auto industry has been operating in the last 100 years or so, ushering in both, opportunities and challenges for OEs and component manufacturers.

Auditors' Certificate on Corporate Governance

The Members Menon Bearings Limited

We have examined the compliance of conditions of Corporate Governance by Menon Bearings Limited (the Company) for the year ended on 31st March, 2019, as stipulated under Regulation 15 (2) read with Schedule V Part E of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We have been explained that no investor grievances are pending for a period exceeding one month against the Company as per the records maintained by the Company.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Independent Auditor's Report

TO
THE MEMBERS OF
MENON BEARINGS LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of MENON BEARINGS LIMITED ("the company"), which comprise the Balance Sheet as at 31 March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period.

Based on the circumstances and facts of the audit entity, in our opinion, there were no such key audit matters that required special attention or judgement by us.

Responsibilities of the Management and those charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs (financial position), profit & loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 4 of the Companies (Indian Accounting Standards) Rules, 2015.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements

office R.S. No. 176, Off No. 6C, 1st Floor, Eden Garden Comm. Complex,

are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS;

- a) of the State of affairs (financial position) of the Company as at March 31, 2019;
- b) of the Profit (financial performance including Other Comprehensive Income) for the year ended on that date;
- c) of the Cash Flows for the year ended on that date; and
- d) of the Changes in Equity for the year ended on that date

Report on other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of Sub-section (11) of Section 143 (3) of the Companies Act, 2013 we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143 (3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books
- c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account
- d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 4 of the Companies (Indian Accounting Standards) Rules, 2015.
- e) On the basis of written representations received from the directors as on 31 March, 2019, taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2019, from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rule, 2014, in our opinion and to best of our information and according to the explanations given to us :

- i. The Company does not have any pending litigations which would impact its financial position.
- ii. The Company did not have any long-term contracts including derivatives contracts of which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure B to Independent Auditor's Report

The Annexure referred to in our Report of even date to the members of Menon Bearings Limited on the accounts of the Company for the year ended 31st March, 2019

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Menon Bearings Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (hereinafter "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls, and both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that;

- I. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- II. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- III. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on;

- i. existing policies and procedures adopted by the Company for ensuring orderly and efficient conduct of business.
- ii. continuous adherence to Company's policies.
- iii. existing procedures in relation to safeguarding of Company's fixed assets, investments, inventories, receivables, loans and advances made and cash and bank balances.
- iv. existing system to prevent and detect fraud and errors.
- v. accuracy and completeness of Company's accounting records; and
- vi. existing capacity to prepare timely and reliable financial information.

Notes on Accounts for the year ended on 31st March, 2019

Note No. 1

SIGNIFICANT ACCOUNTING POLICIES

I. Basis of Preparation :

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed by Ministry of Corporate Affairs under Companies (Indian Accounting Standards) Rules, 2015, provisions of the Companies Act, 2013, to the extent notified and pronouncements of the Institute of Chartered Accountants of India.

Disclosures under Ind AS are made only in respect of material items and in respect of the items that will be useful to the users of financial statements in making economic decisions.

The financial statements for the year ended 31st March 2019 (including comparatives) are duly adopted by the Board on 23rd April, 2019 for consideration and approval by shareholders.

II. Summary of accounting policies :

1. Overall considerations

The financial statements have been prepared applying the significant accounting policies and measurement bases summarized below.

2. Revenue Recognition

Revenue is measured at fair value of the consideration received or receivable and net of returns, trade allowances and rebates and amounts collected on behalf of third parties. It excludes excise duty Value Added Tax, Sales Tax, Service Tax and GST.

i) Sale of Products:

Revenue from sale of products is recognised when significant risks and rewards of ownership pass to the customers, as per the terms of the contract and when the economic benefits associated with the transactions will flow to the Company.

ii) Interest Income:

Interest incomes are recognized using the time proportion method based on the rates implicit in the transaction. Interest income is included in other income in the statement of profit and loss.

3. Property, plant and equipment

i) Freehold land is stated at historical cost. All other items of Property, Plant and Equipment are stated at cost of acquisition/construction less accumulated depreciation/amortization and impairment, if any. Cost includes:

- a) Purchase Price
 - b) Taxes and Duties
 - c) Labour cost and
 - d) Directly attributable overheads incurred up to the date the asset is ready for its intended use.
- However, cost excludes excise duty, value added tax, service tax, and GST to the extent credit of the duty or tax is availed of.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

ii) Component Accounting:

The component of assets are capitalized only if the life of the components vary significantly and whose cost is significant in relation to the cost of the respective asset, the life of the component in assets are determined based on technical assessment and past history of replacement of such components in the assets. The carrying amount of any component accounted for as separate asset is derecognised when replaced.

iii) Other cost:

All other repairs and maintenance cost are charged to the statement of profit and loss during the reporting period in which they are incurred.

Profit or Losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within other income/ (loss).

iv) Depreciation and amortization:

- a) Depreciation is recognized on a straight-line basis, over the useful life of the buildings and other equipments as prescribed under Schedule II of the Companies Act, 2013.
- b) Depreciation on tangible fixed assets is charged over the estimated useful life of the asset or part of the asset as evaluated on technical assessment on straight line method, in accordance with Part A of Schedule II to the Companies Act, 2013
- c) The estimated useful life of the tangible fixed assets on technical assessment followed by the Company is furnished below:

Description	Range of Useful lives in years
Buildings	30 - 60
Plant & Equipment	10 - 15
Furniture & Fixtures	08 - 10
Office equipments	03 - 06
Vehicles	08 - 10

Material residual value estimates and estimates of useful life are assessed as required.

- d) The residual value for all the above assets are retained at 5% of the cost. Residual values and useful lives are reviewed and adjusted, if appropriate, for each reporting period.
- e) On tangible fixed assets added/disposed off during the year, depreciation is charged on pro-rata basis for the period for which the asset was purchased and used.

4) Impairment:

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's

carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In respect of assets whose impairment are to be assessed with reference to other related assets and such group of assets have independent cash flows (Cash Generating Units), such assets are grouped and tested for impairment.

Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

5) Leases:

i) Assets taken on Lease

As per the terms of lease agreements there is no substantial transfer of risk and reward of the property to the Company and hence such leases are treated as operating lease. The payments on operating lease are recognized as an expense over the lease term. Associated costs, such as maintenance and insurance, are expensed.

ii) Decommissioning charges in respect of properties like Plant and equipment, furniture fixtures and office equipment's presently located in land taken on lease are not provided for as it is impractical to estimate the sum that will be incurred at the time the lease comes to end. Further there is also likelihood of the lessor renewing the lease.

6) Financial Assets Classification and subsequent measurement of financial assets:

i) **For the purpose of subsequent measurement, financial assets are classified and measured based on the entity's business model for managing the financial asset and the contractual cash flow characteristics of the financial asset at:**

a) Those to be measured subsequently at fair value either through other comprehensive income (Fair Value through Other Comprehensive Income-FVTOCI) or through profit or loss (Fair Value through Profit and Loss-FVTPL) and;

b) Those measured at amortized cost

1. Financial assets at Amortised Cost

Includes assets that are held within a business model where the objective is to hold the financial assets to collect contractual cash flows and the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These assets are measured subsequently at amortized cost using the effective interest method. The loss allowance at each reporting period is evaluated based on the expected credit losses for next 12 months and credit risk exposure.

The Company also measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses (ECL) if the credit risk on that financial instrument has increased significantly since initial recognition

2. Financial assets at Fair Value Through Other Comprehensive Income (FVTOCI), There are no such assets

3. Financial assets at Fair Value Through Profit or Loss (FVTPL):

The Company has investment in shares which are fair valued through Profit & Loss account. Any transaction cost on the same are expensed to Profit & Loss account. The total loss due to fair valuation of shares is Rs.2,59,375/-

ii. Impairment of financial assets:

All financial assets are reviewed for impairment at least at each reporting date to identify whether there is any evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets.

iii. Derivative financial instruments and hedge accounting:

There are no such transactions.

iv. Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance based on lifetime Expected Credit Loss at each reporting date, right from its initial recognition.

v. Derecognition of financial assets

A financial asset is derecognised only when;

- a) The Company has transferred the rights to receive cash flows from the financial asset or
- b) The Company retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.
There are no such derecognitions.

7) Financial Liabilities:

i. Classification, subsequent measurement and derecognition of financial liabilities

a. Classification

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortised cost. The Company's financial liabilities include borrowings & trade and other payables.

b. Subsequent measurement

Financial liabilities are measured subsequently at amortized cost using the effective interest method. All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

c. Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

8) Inventories

Inventories are valued at lower of cost or net realizable value. Net realisable value is the estimated selling

price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale. Cost is ascertained on weighted average basis in accordance with the method of valuation prescribed by the Institute of Chartered Accountants of India.

i. Raw materials

Raw materials are valued at cost of purchase, net of duties (credit availed w.r.t taxes and duties) and includes all expenses incurred in bringing the materials to location of use.

ii. Work-in-process and Finished Goods

Work-in-process and finished goods include conversion costs in addition to the landed cost of raw materials.

iii. Stores and spares

Stores, spares and tools cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

9) Income Taxes

Tax expense recognized in the statement of profit or loss comprises the sum of deferred tax and current tax not recognized in other comprehensive income or directly in equity.

Calculation of current tax is based on tax rates in accordance with tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the liability method on temporary differences between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at reporting date. Deferred taxes pertaining to items recognised in other comprehensive income (OCI) are disclosed under OCI.

Deferred tax assets are recognized to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilized against future tax liability. This is assessed based on the Company's forecast of future earnings, excluding non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognized in full, although Ind AS 12 'Income Taxes' specifies some exemptions. As a result of these exemptions the Company does not recognize deferred tax liability on temporary differences relating to goodwill, or to its investments in subsidiaries.

10) Post-employment benefits and short-term employee benefits

i. Short term obligations:

Short term obligations are those that are expected to be settled fully within 12 months after the end of the reporting period. They are recognised up to the end of the reporting period at the amounts expected to be paid at the time of settlement.

ii. Other long term employee benefits obligations:

The liabilities for earned leave are not expected to be settled wholly within 12 months after end of the period in which the employees render the related service. They are, therefore, recognised and provided for at the present value of the expected future payments to be made in respect of services provided by employee up to the end of reporting period using the projected unit credit method. The benefits are discounted using the

market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Other Comprehensive Income (OCI).

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii. Post-employment obligation:

The Company operates the following post-employment schemes:

a) Defined contribution plan such as Gratuity & provident fund

Gratuity obligation:

The company has created The Employees Group Gratuity fund which has taken gratuity cum life insurance policy from LIC of India. Premium on said policy is calculated by LIC & Conveyed to us on the basis of Project unit credit Method. The same is accounted for in books of accounts.

Provident Fund:

The eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees salary. The provident fund contributions are made to EPFO.

Bonus Payable:

The Company recognises a liability and an expense for bonus. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

11) Provisions and contingent liabilities

i. Provisions:

A Provision is recorded when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

Provisions are evaluated at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expenses.

ii. Contingent liabilities:

Whenever there is possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability are considered as contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

iii. Contingent Assets:

The Company does not recognise contingent assets. If it is virtually certain then they will be recognised as asset. These are assessed continually to ensure that the developments are appropriately disclosed in the financial statements.

12) Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are considered for the effects of all dilutive potential equity shares.

13) Cash and Cash equivalents and Cash Flow Statement:

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments maturing within three months from the date of acquisition and which are readily convertible into cash and which are subject to only an insignificant risk of changes in value.

Cash flows are reported using the indirect method, whereby profit/(loss) before tax is appropriately classified for the effects of transactions of non-cash nature and any deferrals or accruals of past or future receipts or payments. In the cash flow statement, cash and cash equivalents include cash in hand, cheques on hand, balances with banks in current accounts and other short-term highly liquid investments with original maturities of three months or less.

14) Segment reporting:

The Company operates in one business segment namely "Auto Components". Hence reporting under this standard is not applicable.

15) Borrowing costs:

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred under finance costs. During the year, the company has capitalised borrowing costs of Rs.36,74,877.00

III. **Significant management judgment in applying accounting policies and estimation of Uncertainty**

While preparing the financial statements, management has made a number of judgments, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

(i) **Significant management judgment**

The following are significant management judgments in applying the accounting policies of the Company that have significant effect on the financial statements.

Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilized. In addition, careful judgment is exercised in assessing the impact of any legal or economic limits or uncertainties in various tax issues.

(ii) **Estimation of uncertainty**

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is mentioned below. Actual results may be different.

a. **Impairment of non-financial assets**

In assessing impairment, management has estimated economic usefulness of the assets, the recoverable amount of each asset or cash-generating units based on expected future cash flows and use of an interest rate to discount them. Estimation of uncertainty relates to assumptions about economically future operating cash flows and the determination of a suitable discount rate.

b. **Useful lives of depreciable assets**

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of assets including Intangible Assets.

c. **Inventories**

Management has carefully estimated the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by market-driven changes.

d. **Defined benefit obligation (DBO)**

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses (as analysed in Note .10).

e. **Current and non-current classification**

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.
