Strength Through Resilience

BigBloc Construction Limited
Annual Report 2024-25

Strength Through Resilience

FY25 was a year marked by consolidation, transition, and strategic choices. Yet, in the face of headwinds, BigBloc Industries demonstrated determination and a long-term mindset. We embodied Strength Through Resilience, reflecting not only in our performance in a challenging year, but also our commitment to laying a solid foundation for sustainable growth.

The broader environment remained subdued for the year under review. India's construction and infrastructure sectors witnessed temporary setbacks arising from the Union Elections in 2024, and resultant delay in infrastructure spending, and an unusually heavy monsoon that slowed project execution. In our key markets of Gujarat and Maharashtra, construction activity dipped, directly impacting volumes and our business growth.

Despite these macro challenges, we remained focused on advancing internal strategic priorities. Key among them were the modernization of our Umargaon plant and the successful commissioning of our Phase 2 expansion at Wada. These long-term investments, while impacting short-term profitability, are critical enablers of our future capacity, efficiency, and product quality.

We also broke new ground on the innovation front — launching India's first AAC Wall Panel plant and entering the high-potential construction chemicals segment. With industry-leading products now under the ZMARTBUILD WALL and NXTFIX brands, we are unlocking new verticals and markets.

Throughout FY25, our commitment to sustainability and renewable energy deepened, positioning us not just as a growth-focused organization but also as a responsible one.

As we enter FY26, we do so with strengthened capabilities, wider offerings, and sharper focus. The resilience we've shown positions us well to capture emerging opportunities and deliver long-term value.

For BigBloc, resilience is not merely about weathering storms — it's about using them as a catalyst to emerge stronger, smarter, and more future-ready.

Safe Harbour Statement

This Annual Report contains forward-looking information intended to help investors assess our future potential and make well-informed decisions. These statements, along with our periodic written and verbal communications, reflect anticipated outcomes based on the plans and assumptions of our management. Terms such as 'anticipate,' 'estimate,' 'expect,' 'project,' 'intend,' 'plan,' 'believe,' and similar expressions have been used to indicate forward-looking statements regarding our future performance.

While we consider these assumptions to be reasonable, we cannot ensure the fulfilment of these forward-looking statements. The realisation of these outcomes depends on risks, uncertainties, and potential inaccuracies in our assumptions. If any known or unknown risks or uncertainties arise, or if underlying assumptions prove incorrect, actual results may vary significantly from those anticipated, estimated, or projected. Readers are encouraged to consider these factors. We are not obligated to update forward-looking statements in light of new information, future events, or other developments.

18 Milestone Projects

At BigBloc Industries, our journey is defined by innovation, resilience, and a vision to reshape India's sustainable building materials landscape. This section offers a comprehensive look into who we are, how we've evolved over the years, and the footprints we've established across markets. From cutting-edge manufacturing facilities and advanced product lines to a growing list of trusted clients and milestone achievements, our story is rooted in continuous enhancement. FY25 proved to be a transformational year, and these insights highlight how our identity, experience, and core capabilities form the foundation upon which our future growth will soar.

Laying the Foundation of Leadership | [Who We Are](#)

Pioneers in green construction solutions

At BigBloc Construction Limited, we take immense pride in being India's leading manufacturer of AAC (Autoclaved Aerated Concrete) blocks and related products, with a total production capacity of 1.3 million cubic metres annually. Our products are transforming the green building materials industry by combining sustainability with cutting-edge innovation.

Our flagship product, AAC blocks, marketed under the brand name NXTBLOC, represent the future of sustainable and eco-friendly construction. Known for their strength, lightweight structure, thermal insulation, soundproofing, fire resistance, and environmental benefits, these blocks are manufactured using non-toxic materials. Their cost-advantage, energy-saving properties and eco-friendly nature make them the building blocks of sustainability in modern construction.

As part of our commitment to green practices, we've expanded our portfolio to include AAC Wall Panels to be marketed under the brand 'ZMARTBUILD WALL by NXTBLOC' through a joint venture with Siam Cement Group, enhancing our offerings to cater to the growing needs of the sustainable construction and infrastructure sectors.

We've also expanded our portfolio to construction chemicals including semi-premix high-quality mortar for AAC block jointing and bonding and ready-mix cement plaster, marketed under our NXTFLIX and NXTPLAST.

Unrivalled manufacturing excellence

We operate 4 state-of-the-art manufacturing units strategically located in Umargaon - Vapi; Kapadvanj - Ahmedabad, Wada - Palghar, and Ramosadi - Kheda. This geographic advantage ensures efficient market access and proximity to key raw materials such as fly ash, a by-product of thermal power plants.

Our Wada - Palghar plant, with a capacity now expanded from 250,000 to 500,000 cubic metres per annum (CBM PA), is now India's largest single-location AAC block facility, highlighting our leadership in the industry.

Empowering a greener tomorrow

Sustainability is at the heart of everything we do. We are committed to advancing green and sustainable building practices. Our vision is to empower the construction and infrastructure industry to embrace eco-friendly materials and sustainable methodologies. Additionally, our efforts & initiatives to generate carbon credits from our facilities align with our journey towards carbon neutrality, reaffirming our commitment to environmental stewardship. After our 450-kilowatt solar installation at our Umargam plant, we have followed it up with commissioning the 625-kilowatt system at Wada - taking tangible steps toward reducing our carbon footprint. The total installed solar power capacity across BigBloc and its subsidiaries site stands at 2,375 kW.

We are the only Company in the AAC industry to generate carbon credits.

Our emergence

Emerging from the legacy of Mohit Industries Limited, a notable player in fabric and textured yarn manufacturing for over 40 years, BigBloc Construction was demerged to focus exclusively on AAC block production. This strong foundation of quality, innovation, and industry expertise continues to drive our results. By delivering superior products and embracing innovation, we aim to reshape the way India builds its future buildings.

In FY25, we proudly achieved the distinction of becoming one of the largest AAC block manufacturers in the country, driving the shift toward a more sustainable and efficient construction ecosystem.

The path to industry leadership

Over the years, BigBloc Construction has evolved from a visionary idea into a market leader, driven by a commitment to innovation, sustainability, and excellence. Our journey, marked by strategic milestones and ground-breaking achievements, mirrors our resolve to reshape the building materials industry through advanced AAC block solutions and sustainable building practices.

The formative years

2010-2015

As one of India's earliest AAC manufacturers, we recognised the transformative potential of sustainable building materials.

2010

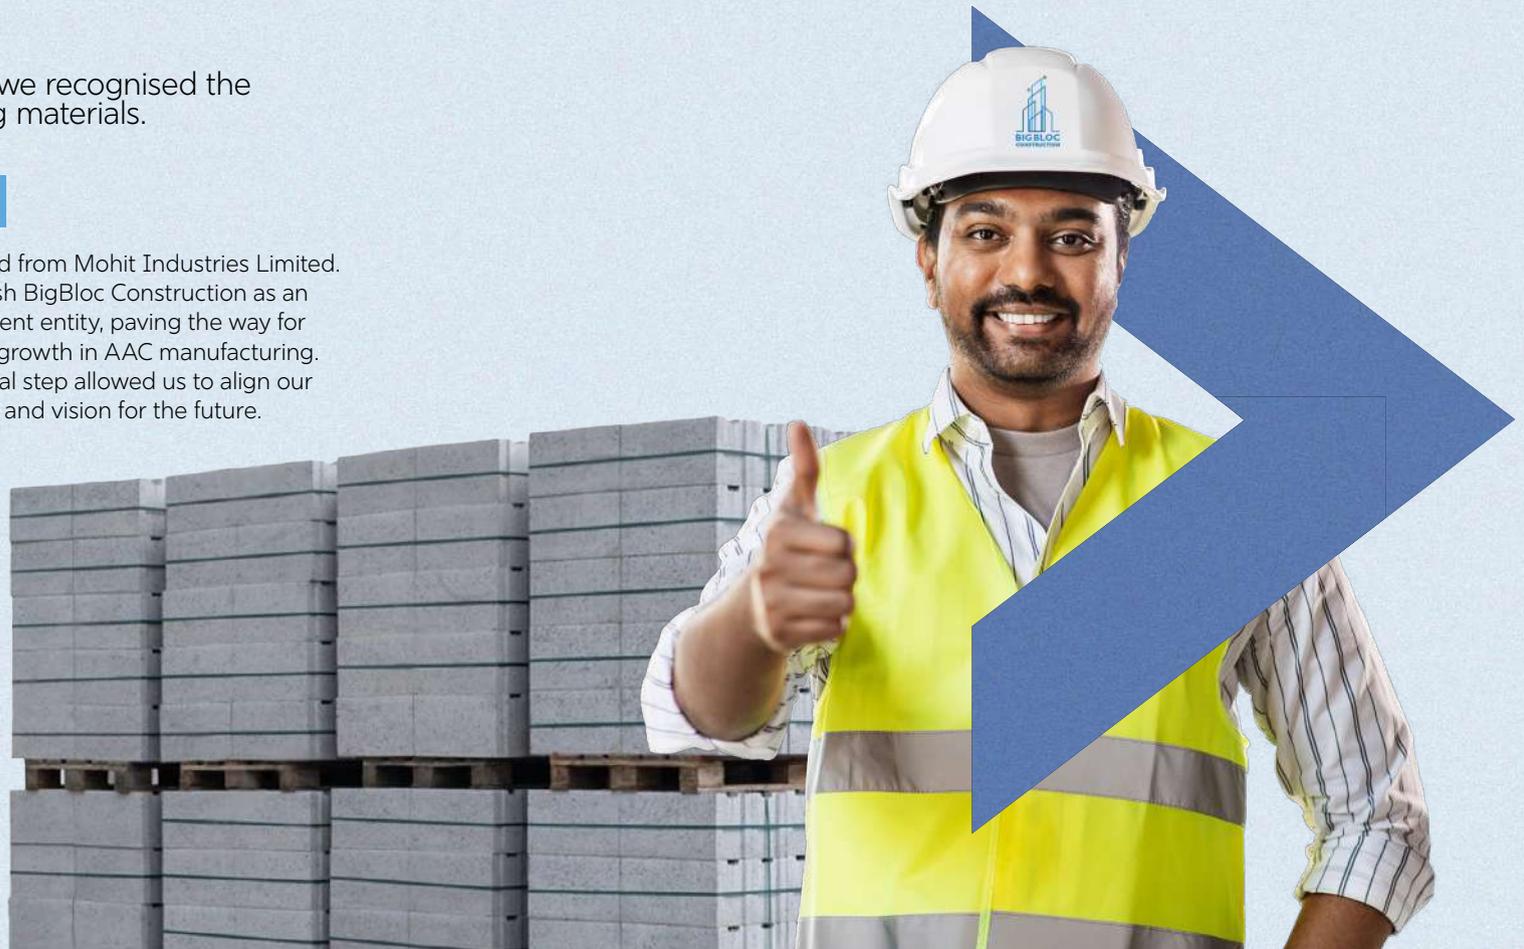

Launched our journey in AAC block manufacturing as a subsidiary of Mohit Industries Limited. Our first unit in Palghar, Maharashtra, with a capacity of 100,000 CBM PA, marked us as one of India's early AAC manufacturers.

2015

Demerged from Mohit Industries Limited to establish BigBloc Construction as an independent entity, paving the way for focussed growth in AAC manufacturing. This pivotal step allowed us to align our resources and vision for the future.

2012

Divested the initial unit, and reinvested in operations with the establishment of a cutting-edge AAC block manufacturing facility in Umargaon, Gujarat, creating a capacity of 300,000 CBM PA. This strategic move set the stage for scalability and operational efficiency.

Strategic growth period

2016-2020

A period defined by expansions, acquisitions, and a commitment to strengthening our market presence and operational excellence.

2016

Successfully listed on both NSE and BSE, opening avenues for greater investor confidence and transparency, enhancing accessibility to our stakeholders and value creation.

2020

Enhanced capacity at StarBigBloc to 250,000 CBM PA through de-bottlenecking efforts, showcasing our operational efficiency and reaffirming our agility in responding to rising market demand.

2019

Acquired a sick unit, Hilltop Concrete Private Limited (subsequently renamed StarBigBloc Building Material Private Limited), with a 200,000 CBM PA capacity in Kapadvanj near Ahmedabad, and revitalised operations with an initial production capacity of 2,00,000 cubic metres per annum.

Setting new industry benchmarks

2021-2025

An era of transformative partnerships, technological advancements, and record-breaking capacity expansions, solidifying our leadership in sustainable construction solutions.

2021

Entered into a strategic joint venture with SCG International Corporation Co. Limited (Siam Cement) of Thailand, a leading name in the South East Asian construction materials industry, to leverage advanced technologies and expand our offerings.

2024

Commenced operations at the JV plant with SCG at Ramosadi, elevating our total manufacturing capacity to 1 million CBM PA.

2023

Achieved a major milestone by commercialising Phase 1 of the Wada Plant, increasing our manufacturing capacity to 825,000 CBM PA. Began groundwork for a new era with the JV plant at Ramosadi, further enhancing production capabilities.

2025

Completed the Phase 2 expansion of the Wada Plant to 500,000 CBM PA, making it India's largest single-location AAC manufacturing facility. Acquired 57,500 sq. mts. of land in Madhya Pradesh to expand AAC Blocks business in central India, further ventured into manufacturing of construction chemicals.

Laying the Foundation of Leadership | **Manufacturing Facilities**

Infrastructure that shapes the future

Our manufacturing facilities form the backbone of our operations and success. Strategically located and equipped with state-of-the-art technology, they empower us to lead the way in producing high-quality, sustainable building materials that serve the diverse needs of the construction industry. These facilities not only showcase our advanced capabilities but also position us as a multi-location, multi-market player with exposure to diverse realty markets.

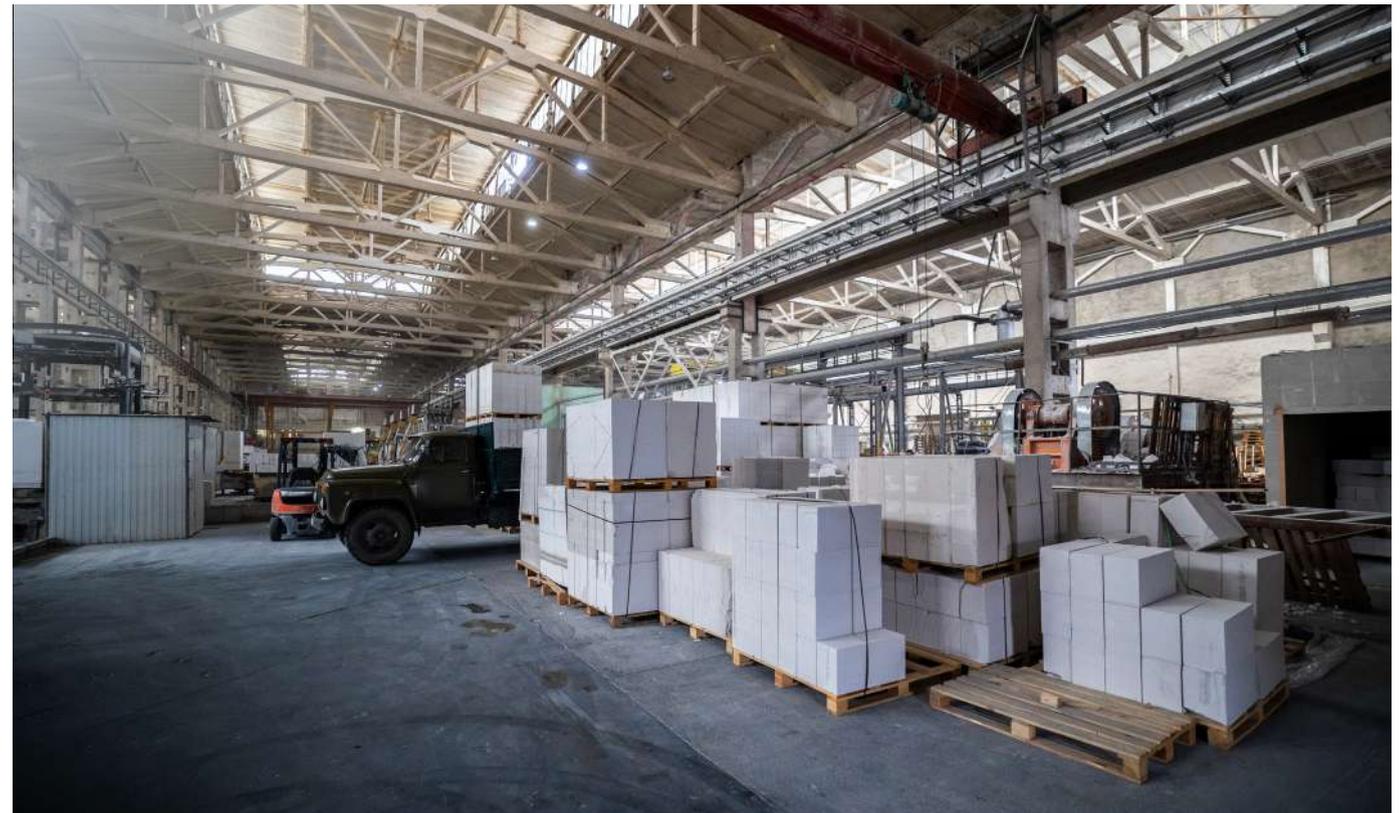

By leveraging our robust infrastructure, strategically located facilities, and commitment to innovation, we are poised to meet the evolving demands of the construction industry. Our efforts align with our vision of driving sustainable building practices and delivering long-term value to all stakeholders.

With the commissioning of Phase II at our Wada plant, we have emerged as the largest AAC manufacturer in India by capacity - with consolidated installed capacity of **1,300,000 CBM per annum.**

Strategic locations. Efficient operations.

Our manufacturing units are strategically located in Umargaon, Kapadvanj, Wada and Ramosadi, ensuring access to key real estate and construction markets in western and central India. Proximity to thermal power plants for raw materials such as fly ash streamlines our supply chain, enhances cost efficiency, and reinforces our commitment to sustainable sourcing.

By placing our facilities near significant markets and critical resources, we ensure seamless distribution, timely delivery, and the ability to serve diverse customer demands effectively.

Sustainability is not only ingrained in our products, but also in our operations. We take pride in being the first Company in India to register and operate AAC plants under the carbon credit registry. This milestone reflects our commitment to reducing our environmental footprint and promoting eco-friendly construction practices.

Further, we are actively advancing renewable energy adoption, with total installed solar power capacity across BigBloc and its subsidiaries sites to the tune of 2,375 kW. These initiatives demonstrate our dedication to energy efficiency and sustainable manufacturing.

State-of-the-art infrastructure

Our facilities are designed to uphold the highest standards of quality and operational efficiency, with cutting-edge technology and innovative processes at their core. The joint venture with Siam Cement Group (SCG) has added to our product capabilities with a dedicated facility producing AAC wall panels, with a capacity of 250,000 CBM PA.

Recent highlights include the commissioning of Phase II at our Wada, Palghar plant, increasing consolidated capacity to 1,300,000 CBM PA, and the successful technology upgrades at our Umargaon facility. These advancements ensure that we remain at the forefront of the industry in terms of both capacity and technological innovation.

Our Palghar (Wada) plant, now expanded from 250,000 to 500,000 CBM PA, stands as India's largest single-location AAC block facility, reaffirming our industry leadership.

**Operational highlights FY25****Capacity utilization**

Operating at 59% capacity utilisation of the expanded capacity.

Capacity expansion

Commissioned Wada, Palghar Phase II, bringing our total capacity to 1,300,000 CBM per annum.

JV operations

The 'Siam Cement BigBloc Construction Technologies Private Limited' facility gained traction, with an important order win from Tata Projects for AAC wall panels.

Sustainability milestones

Completed solar installations at Wada (625 kW) after the one at Umargaon (450 kW), the total installed solar power capacity across BigBloc and its subsidiary sites now stands at 2,375 kW.

Technology upgrades

Successfully upgraded our Umargaon plant, resuming operations with an improved technological framework in October 2024.

Future plans

With an ambitious expansion strategy, we aim to continue our leadership as one of the largest AAC manufacturers in India. Our plans include:

- Continued capacity expansions across existing and new facilities, with a new location planned in Madhya Pradesh to cater to central India markets
- Introduction of advanced technologies resulting in innovative product offerings, latest ones being the foray into construction chemicals
- Strengthening our sustainability framework with efforts such as renewable energy initiatives and carbon reduction efforts

Laying the Foundation of Leadership | **What We Offer**

The cornerstone of contemporary construction

AAC Blocks

We offer products that reflect the perfect synergy of innovation, quality, and sustainability. Our flagship offering, NXTBLOC AAC (Aerated Autoclaved Concrete) blocks, represents the future of construction, providing unmatched strength, thermal insulation, sound absorption, and fire resistance.

AAC blocks are created through a meticulous process that involves steam-curing a mix of sand or pulverised fuel ash (PFA), cement, lime, and an aeration agent. This high-pressure steam-curing process in autoclaves results in a product that is physically and chemically stable, yet incredibly lightweight compared to traditional bricks. With a density just one-third that of traditional red bricks, AAC blocks redefine construction standards.

What truly sets AAC apart is its unique structure. Its myriad tiny, non-connecting air bubbles give the blocks exceptional insulating properties, making them an ideal choice for energy-efficient and environmentally responsible construction.

Strength, sustainability, and so much more

Our NXTBLOC AAC blocks combine cutting-edge technology with sustainability to offer a host of unparalleled benefits:

Strength with lightness

Despite their lightweight nature, AAC blocks deliver robust structural performance, reducing overall construction load

Thermal insulation

Superior insulating properties help regulate indoor temperatures, reducing the need for additional cooling or heating

Sound absorption

Enhanced acoustics for quieter, more comfortable living and working spaces

Fire resistance

Unmatched fire safety for added peace of mind

Eco-friendly

Made from natural, non-toxic materials, AAC blocks contribute to a greener environment and energy-efficient buildings

A versatile range of AAC solutions

We offer two types of AAC blocks tailored to diverse construction needs:

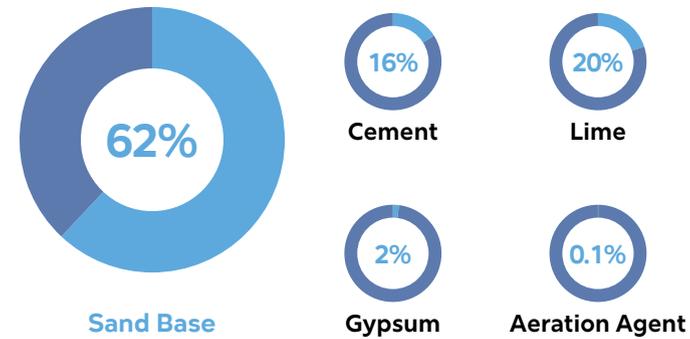

Fly Ash AAC Blocks

- Lightweight with superior compressive strength
- Porous structure ensures excellent fire resistance
- An eco-friendly replacement for red clay bricks, fully compliant with IS norms

Sand-based AAC Blocks

- Lightweight with a smooth finish
- High durability and superior insulating properties
- Three times lighter than traditional red bricks, enabling easier handling and quicker construction

The choice of forward-thinking builders

In an era where sustainability is no longer optional but essential, AAC blocks offer a smart, future-ready alternative to conventional materials like burnt clay bricks. By choosing AAC, builders and developers not only contribute to a greener planet but also unlock cost efficiencies, reduced project timelines, and enhanced profitability.

Shaping a sustainable future

We are proud to lead the charge in promoting sustainable building practices. AAC blocks, with their energy-efficient properties and reduced carbon footprint, align perfectly with our vision of responsible construction. At BigBloc, we believe in building not just for today but for generations to come.

By embracing AAC blocks, we are shaping a future where construction meets innovation and sustainability in perfect harmony.

What makes AAC blocks the ideal choice?

AAC (Autoclaved Aerated Concrete) blocks embody a superior blend of sustainability, efficiency, and innovation. With unmatched benefits that redefine construction standards, our AAC blocks deliver a value proposition that caters to modern building needs.

 **Save costs, maximise returns**

AAC blocks revolutionise construction economics by significantly reducing costs without compromising quality. Their lightweight nature reduces the dead load of buildings, cutting structural steel requirements by up to 20% and cement consumption by up to 20%. With a size 8-10 times larger than conventional bricks, AAC blocks minimise the number of joints, saving up to 66% on mortar.

Their dimensional accuracy and smooth surface eliminate the need for extensive plastering, requiring only a thin skim coat of putty or POP. These features accelerate construction timelines, enhance cost efficiency, and maximise saleable area - a winning advantage for realtors and developers.

 **Strength that endures earthquakes**

AAC blocks are engineered for seismic resilience, offering robust strength and stability. Their lightweight composition reduces structural stresses, enabling buildings to better withstand seismic loads compared to traditional brick constructions.

 **Built to save energy**

AAC blocks excel in thermal insulation, maintaining comfortable indoor temperatures by keeping interiors warm in winters and cool in summers. This translates to a 25% reduction in air-conditioning costs, contributing to energy-efficient and eco-conscious buildings. AAC blocks are 100% green building materials, earning them a coveted place in LEED-certified constructions.

**Non-combustible nature**

With a fire resistance capacity of up to 1,200°C, AAC blocks act as a formidable barrier against fire hazards. Their non-combustible nature ensures superior safety for occupants, making them indispensable in modern fire-resistant constructions.

**Green buildings, redefined**

AAC blocks are a tribute to our commitment to sustainability. Made from natural, non-toxic materials, they utilise fly ash - a by-product of thermal power plants - as a key raw material, effectively recycling waste and reducing environmental impact. Unlike conventional bricks, AAC blocks avoid using red soil, preserving vital natural resources and preventing deforestation.

With two-thirds of their weight comprising fly ash, AAC blocks also contribute to carbon sequestration, making them an eco-friendly alternative to traditional construction materials.

**Lighter. Larger. Faster.**

Weighing 50% less than traditional bricks, AAC blocks are easier to handle, cut, and shape, ensuring superior workability. Their larger size and fewer joints streamline construction processes, reducing labour and logistics costs. This makes AAC blocks the preferred choice for projects demanding precision and speed.

**Peace of mind from pests and sounds**

AAC blocks, composed of inorganic materials, are immune to pest infestations, including termites and rodents. Additionally, their porous structure offers exceptional sound insulation, making them ideal for noise-sensitive environments such as hospitals, studios, and hotels.

**Built to last**

Our AAC blocks have a compressive strength of 3 to 5 N/mm², far exceeding that of conventional bricks. This ensures lasting durability and structural integrity for generations, solidifying their position as a reliable construction material.

**Defying moisture. Amplifying space.**

AAC blocks feature macro-pores that limit water absorption, providing superior resistance to moisture-related damage. Their insulation and water barrier properties allow the use of thinner blocks (6" exterior walls instead of 9"), increasing floor space by 3-5% - a significant advantage for space-conscious designs.

**Rejection rate and installation efficiency**

The rejection rate for AAC blocks is 10-15% lower than that of red bricks. Additionally, one AAC block is equivalent in area to approximately 8-10 standard clay bricks, which further reduces the rejection rate and speeds up the construction process. AAC blocks allow for 2.5 times faster installation than red bricks, enhancing project timelines and reducing labour costs.

To add to this, Bigbloc's consistently maintains a rejection rate of less than 2%, significantly lower than the industry average of 4-5%, driven by stringent quality control processes and automation-led manufacturing

Multiple needs. One solution.

Our AAC blocks are suited for a wide range of applications, including residential, industrial, and commercial buildings like hotels, offices, hospitals, schools, and more. Their superior heat insulation, lightweight nature, and durability make them ideal for both interior and exterior construction in high-rise structures.

AAC Wall Panels

In our pursuit of innovation and offering the latest in building materials technology, we have introduced another product category - AAC Wall Panels - a ground-breaking advancement in green building materials that redefines the standards of construction. Designed to meet the evolving demands of the modern world, AAC Wall Panels deliver unparalleled performance, versatility, and sustainability. They stand as a definitive choice for forward-thinking builders, offering enhanced efficiency, technical superiority, and eco-friendliness.

Next-generation green building material

AAC Wall Panels are composite materials crafted from a precise mix of cement, lime, and silica sand, reinforced with two-way welded steel mesh treated for superior rust resistance. They come in ranges from 8 to 20 feet long as per customer requirements and are produced through a high-temperature manufacturing process and steam curing, these panels emerge as a next-generation green building solution, combining exceptional technical and functional benefits.

Whether used for external and internal non-load-bearing walls, roof slabs, or floor systems, AAC Wall Panels are the ultimate building material for commercial, industrial, and residential construction projects.

Our complementary product offerings

AAC Wall Panels are rapidly becoming the material of choice for construction projects due to their:

NXTPLAST Ready Mix Cement Plaster:

A ready-to-use solution that ensures a superior finish and durability

NXTFIX Semi-Premix Mortar: Designed for precision bonding and enhanced construction efficiency

NXTGRIP Tile Adhesive: Upcoming product range in tile adhesion

**Versatility and performance**

AAC Wall Panels are rapidly becoming the material of choice for construction projects due to their:

**Wide application**

Perfect for walling, roofing, and flooring across diverse building types, including homes, offices, factories, and retail spaces

**Precision engineering**

Their structural design and dimensional accuracy ensure seamless integration into construction projects, enabling faster installation and reduced labour costs

**Adaptability to heightened demands**

Rising costs of traditional materials and the need for quicker construction timelines make AAC Wall Panels a high-performing alternative

Why AAC Wall Panels?

AAC Wall Panels from Siam Cement BigBloc Construction Technologies (JV) stand as a transformative solution for modern construction challenges. Combining structural excellence, unmatched cost-efficiency, fireproofing, acoustic performance, and water resistance, our AAC Wall Panels offer a superior alternative to conventional building materials. Designed with sustainability and durability in mind, they are reshaping how we approach construction, ensuring safety, efficiency, and long-term value.

In-built structural strength

AAC Wall Panels redefine the benchmarks for structural excellence. Unlike traditional AAC blocks, which require additional beams, columns, and reinforcements, AAC Wall Panels come ready-to-install with no need for extra structural support. Their robust cellular structure and corrosion-protected steel reinforcement ensure load-bearing strength and durability while speeding up construction timelines and lowering costs. With AAC Wall Panels, projects move faster, safer, and more efficiently.

Economical in nature

Cost savings are built into every aspect of AAC Wall Panels. Their lightweight and thin profile reduce overall wall loads by 33-50%, cutting total structural costs by up to 20%. Unlike traditional materials, AAC Wall Panels eliminate the need for plastering, saving on additional decoration costs. This seamless integration of affordability and performance makes AAC Wall Panels the financially prudent choice for forward-thinking builders.

Time saved. Quality assured.

AAC Wall Panels simplify and accelerate construction with easy-to-handle, lightweight materials and precise dimensions. Their fast installation process reduces project timelines significantly, minimising labour and material costs while ensuring superior quality with fewer errors, such as cracks or hollow spots.

Raising the bar in fire safety

Safety takes precedence with AAC Wall Panels. Offering a fireproof duration of approximately four hours for 100mm thick panels, they surpass typical construction fire-resistance benchmarks. Withstanding temperatures over 1600°C, they release no smoke or toxic gases during a fire, providing a safer environment for occupants. Double-layer, bi-directional steel reinforcements further enhance their resistance to collapse, ensuring protection against the rapid spread of fires.

Sound solutions

For spaces that demand quiet and privacy, AAC Wall Panels deliver an exceptional Sound Transmission Class (STC) rating of up to 40.8dB for 100mm panels. Their innovative design, featuring large surface areas and interlocking grooves, ensures superior sound insulation, making them ideal for residential, commercial, and industrial spaces where noise control is critical.

Water and moisture resistance

The millions of microscopic air cells within AAC Wall Panels make them highly resistant to capillary water flow. This superior water and moisture resistance guarantees durability, even in challenging weather conditions, ensuring a lifespan of 50-80 years. Whether exposed to damp environments or heavy rainfall, AAC Wall Panels remain a reliable choice for long-term performance.

Enhanced aesthetics and build efficiency

AAC Wall Panels bring construction efficiency and aesthetics together. Their smooth finishes and high dimensional accuracy eliminate the need for extensive plastering, while their lightweight design simplifies logistics. Builders can achieve visually appealing, high-quality finishes with minimal effort and reduced costs.

Thermal control for comfort

AAC Wall Panels excel in thermal insulation, helping to maintain optimal indoor temperatures and reduce energy consumption. This makes them ideal for construction projects focused on energy efficiency and environmental sustainability.

Sustainability at the core

As a green building material, AAC Wall Panels embody our commitment to sustainability. By leveraging renewable and recyclable materials in their production, they reduce the reliance on environmentally taxing resources. These energy-efficient panels align perfectly with global goals for sustainable construction, enabling builders to meet eco-conscious standards without compromising quality.

One panel. Endless possibilities.

From exterior and interior walls to roofing and flooring, AAC Wall Panels adapt seamlessly to a wide range of construction needs. Their lightweight nature and customisable properties make them suitable for residential, commercial, and industrial buildings. Whether for non-load-bearing walls or intricate designs, AAC Wall Panels offer unmatched versatility for modern architectural demands.

Where relationships build resilience

Our journey is defined by strong partnerships - collaborations that fuel our growth and reinforce the foundations of landmark structures. Whether supporting residential towers, commercial complexes, major infrastructure, or community-focused government projects, our clients rely on us to provide sustainable, innovative, and premium-quality building materials.

Prestigious partnerships across verticals

Real estate - Elevating skylines with sustainable solutions

Our esteemed partnerships with leading names in the real estate industry speak volumes about the trust placed in our AAC blocks and panels. These sustainable materials are the backbone of premium residential and commercial developments, providing unmatched durability and enhanced project efficiency. With each project, we are redefining quality benchmarks and contributing to the development of eco-friendly urban landscapes.

Brand Partnerships - Precision and sustainability in every solution

We take pride in our partnerships with leading cement brands who rely on us for white-labelling solutions in AAC Blocks. Renowned for precision, strength, and sustainability, our products are indispensable for advanced manufacturing processes and construction applications that demand nothing short of perfection.

Construction - Strengthening public infrastructure

The trust of top-tier construction firms highlights our reputation as a dependable provider of high-performance solutions for large-scale infrastructure projects. Our materials meet stringent industry standards, enabling seamless execution of ambitious ventures. From infrastructure projects to multi-modal transportation hubs, we are proud to contribute to the success of India's most ambitious construction projects.

Government bodies - Partnering on nation-building projects

In collaboration with government agencies, we are contributing to the development of robust public infrastructure, addressing critical needs while adhering to the highest standards of quality and compliance. From community-centric projects to nationwide initiatives, our solutions are shaping sustainable and inclusive growth for the nation.

Creating a legacy of excellence

We take pride in being a trusted partner for India's leading realtors and construction companies. Our superior-quality, eco-friendly AAC blocks have redefined the construction industry by offering sustainable alternatives to traditional building materials. Through our commitment to quality and sustainability, we have fostered enduring relationships with over 100 esteemed developers, contributing significantly to India's evolving construction landscape.

With a portfolio of over 2,000 executed projects and a robust pipeline of 1,500+ ongoing projects, we continue to strengthen our presence across key Indian markets, including Gujarat, Maharashtra, Madhya Pradesh, and Rajasthan.

Shaping iconic developments

Our expertise and commitment to excellence have been instrumental in the successful execution of several landmark projects across the country.

Strategic Focus in a Changing Landscape | Brand Insights

Building brands that build sustainably

Our brands are committed to quality, innovation, and sustainability. We deliver building materials designed to address the evolving requirements of the construction sector, establishing our position as a reliable industry partner. Each product line demonstrates precise engineering and a thorough understanding of construction needs, supporting the transition to more sustainable practices.

The brands within our portfolio reflect our focus on advancing efficiency and sustainability in construction. From the durability of NXTBLOC to the technology of ZMARTBUILD, our products contribute to the development of modern and resilient infrastructure.

NXTBLOC AAC blocks

The foundation of sustainable construction

Our flagship product, NXTBLOC AAC blocks, redefines the benchmarks of modern building materials. Designed to offer unmatched performance, NXTBLOC stands out with exceptional strength, lightweight properties, superior thermal insulation, sound absorption, and unparalleled fire resistance. These blocks are not only environmentally friendly but also cost-effective, making them the preferred choice for sustainable and efficient construction.

The NXTBLOC logo, inspired by minimalistic block designs, signifies the reliability and sturdiness that our products deliver. With NXTBLOC, we aim to set new industry standards while reinforcing our commitment to high-quality, eco-conscious solutions.

NXTFIX Semi-premix mortar Strength in every bond

NXTFIX, our premium block joining mortar, represents a leap forward in construction efficiency. This semi-premix mortar, made of cement, graded sand, and specialised polymers, ensures superior strength, water retention, and stability. Unlike conventional methods, NXTFIX reduces joint thickness to just 2-3 mm, enabling a more precise and cost-effective application.

The NXTFIX logo, featuring closely knit letters in 'FIX', reflects the secure and durable bonds it creates. Designed for seamless use with AAC blocks, NXTFIX enhances construction speed, minimises material wastage, and ensures lasting strength - transforming how structures are built.

NXTPLAST Ready mix cement plaster A smarter way to plaster

With NXTPLAST ready mix plaster, we redefine the plastering process by replacing traditional site-mix methods. This ready-to-use cement mix, enriched with high-quality polymer additives, offers superior bonding, excellent coverage, and significant time savings.

The NXTPLAST logo, with its green accents, represents protection and durability. Ideal for both internal and external applications, it ensures a perfect finish on AAC block walls, fly ash block walls, and concrete block walls. By simplifying the plastering process, NXTPLAST allows builders to achieve precision and efficiency, tailored to the needs of modern construction projects.

ZMARTBUILD solutions

Co-branded excellence with SCG International

ZMARTBUILD WALL by NXTBLOC, our collaborative brand with SCG International, showcases the combined expertise of two industry leaders. Through this partnership, we deliver innovative co-branded products like AAC Wall Panels, setting new benchmarks in sustainability and performance.

The ZMARTBUILD logo embodies the synergy between BigBloc and SCG, highlighting our joint dedication to quality and environmental stewardship. These solutions meet stringent industry standards while supporting green construction practices, demonstrating our shared vision of creating a better, more sustainable future.

Strategic Focus in a Changing Landscape | Strategic partnership

A collaboration with a bold vision

In 2021, we embarked on an ambitious journey by joining hands with Siam Cement Group (SCG) of Thailand, forming a landmark strategic partnership. We formed a Joint Venture i.e., Siam Cement BigBloc Construction Technologies Private Limited, where BigBloc Construction holds 52% and SCG International holds the balance 48%, this collaboration represents a harmonious blend of complementary strengths and shared vision for sustainable growth.

This strategic partnership with SCG marks a defining moment for BigBloc Construction. Together, we are not just providing innovative, eco-friendly, and high-performance building solutions; we are building a sustainable future for the construction industry in India and beyond.

Founded in 1913 by royal decree under His Majesty King Rama VI, SCG stands as an example of excellence in Southeast Asia's construction industry. Ranked 2nd in the 2021 Forbes list, SCG has cemented its reputation as a leader in cement, building materials, chemicals, and packaging. Listed on the Stock Exchange of Thailand since 1975, SCG exemplifies a commitment to innovation, sustainability, and delivering exceptional solutions.

With over a century of expertise and an extensive global presence, SCG brings unparalleled technical know-how and innovative prowess to this partnership. Their vast experience in producing AAC Wall Panels perfectly complements our AAC block manufacturing capabilities, enabling us to redefine construction standards in India.

Key benefits of our partnership

Enhanced market presence

By combining SCG's brand leadership and BigBloc's market acumen, we are expanding our reach into untapped markets. This collaboration unlocks a broader customer base, allowing us to drive growth in India's dynamic and burgeoning construction sector.

Facilitating market entry

This JV paved the way for SCG's seamless entry into India's rapidly growing building materials market, promoting a vibrant exchange of expertise and technology. This mutually rewarding collaboration empowers both to leverage their respective strengths, fostering economic growth and driving innovation.

A shared commitment to sustainability

The JV reinforces our commitment to environmentally responsible construction, leveraging SCG's proven sustainability practices to align with global green building trends.

Unmatched technical expertise

SCG's deep technical knowledge and BigBloc's on-ground market expertise create a perfect synergy for learning and sharing best practices. Together, we are enhancing product quality, optimising operations, and introducing ground-breaking construction solutions tailored for India's needs.

Global platform for growth

With SCG's extensive network and global standing, we are placing BigBloc's product portfolio on the international map. This collaboration not only elevates our growth trajectory but also positions us as a global player in the building materials space.

Strategic Focus in a Changing Landscape | Our Empowering Advantages

Devoted to sustainability. Driven by innovation.

Our firm commitment to excellence is supported by a robust set of strengths that drive our growth, differentiation, and leadership in the sustainable building materials industry. These core capabilities empower us to meet the demands of a rapidly evolving market while upholding our dedication to sustainability, innovation, and customer satisfaction.

Revolutionary product offerings

Our product portfolio reflects our commitment to sustainable construction solutions, whether it is AAC blocks, panels and others. These products embody our innovation-first approach, driving sustainable construction practices across the industry. Our products are not only good for the environment, but cost-effective too.

Unmatched expertise in operations

Our experienced team of professionals brings unparalleled expertise to every aspect of our operations. From establishing greenfield plants to modernising existing facilities and turning around underperforming units, our team ensures seamless execution and operational excellence. This wealth of knowledge fuels our ability to innovate and grow while optimising our manufacturing assets.

Robust logistics network

Efficient logistics is critical to maintaining our leadership position. With a fleet of over 72-75 trucks, we ensure timely delivery of supplies and seamless transportation operations. Our Company-owned fleet currently manages 30-35% of our total transportation needs, ensuring prompt service and strengthening customer trust. This efficient logistics network is integral to fulfilling orders and maintaining high service standards.

Comprehensive sales and distribution strength

Our expansive sales and distribution network allows us to cater to a diverse clientele, including:

- **Developers:** Direct sales to marquee developers
- **Cement companies:** Long-standing clients such as ACC and Ambuja Cement
- **Government bodies:** Supplies to organisations like CIDCO
- **Large projects:** Direct marketing for high-profile projects like Lodha Palava

Our strategy is supported by direct marketing efforts, a strong network of distributors, and an advanced credit profiling system for customers. With a Direct Developer Relationship Team, we maintain strong connections with over 50% of the top seven developers in Mumbai, ensuring a solid market presence and driving growth.

Pioneering sustainable manufacturing

We take immense pride in being the first Indian Company to register and operate manufacturing plants under the carbon credit registry. Currently, we generate ~60,000 to 65,000 carbon credits annually, with the potential to achieve a cumulative 200,000 to 225,000 units. By aligning our operations with environmentally responsible practices, we are not only reducing our carbon footprint but also contributing to a greener future for the construction industry.

Strategic joint venture advantage

Our collaboration with SCG International - Thailand's largest cement and building materials Company, is a cornerstone of our JV success. This marquee partnership brings cutting-edge technical expertise and advanced resources to the table, enabling us to introduce innovative and sustainable building materials to the Indian market. Together, we are unlocking the untapped potential of the AAC block market in India and solidifying our position as an industry leader.

Strategic Focus in a Changing Landscape | **Growth Blueprint**

Innovate. Expand. Excel.

We already are one of the leading AAC block manufacturers in India. Along with leadership, our growth blueprint is inspired by our clear approach to be India's most trusted and preferred supplier of sustainable building materials. With growth & sustainability as our cornerstones, we have devised a strategic roadmap that leverages emerging opportunities, strengthens our capabilities, and delivers long-term value to our stakeholders.

Key tenets of our roadmap

Expanding our footprint

We are actively targeting new markets across India to meet the increasing demand for sustainable construction materials. While Western India continues to be our stronghold, we are strategically expanding in Central India by leveraging our robust distribution network and forming key partnerships. To that end, we have recently acquired a land parcel in Madhya Pradesh to set up a manufacturing facility in future. These efforts will help us establish a stronger presence in regions with growing demand for AAC blocks and green building materials.

Scaling up manufacturing excellence

To meet the rising demand for AAC blocks, we are committed to upgrading and expanding our manufacturing facilities. By investing in state-of-the-art technology, timely upgradation & modernisation of facilities and executing strategic expansion projects, we aim to improve operational efficiency, enhance product quality, and align with the latest industry standards.

Diversifying our range of products

Our expertise in building materials has driven us to go beyond AAC blocks. We have introduced a diverse range of products, including AAC Wall Panels, block jointing mortar, tile adhesives, gypsum plaster, and other construction chemicals. Continuing this diversification will transform us into a comprehensive one-stop solution provider, catering to evolving customer needs and reinforcing our competitive position in the industry.

Strengthening market reach

We are shifting our focus beyond institutional sales to build a robust retail presence. By organising dealer meets, running targeted marketing campaigns, and expanding our dealer network, we aim to reach new customers, enhance product awareness, and deepen market penetration. These initiatives will strengthen our customer engagement while broadening our sales base.

**Building trust and loyalty**

Our strong customer relationships in Western India are the foundation of our success. By prioritising exceptional service, personalised support, and ongoing communication, we are not only retaining customers but also fostering long-term partnerships. This customer-centric approach will further solidify our position as a trusted supplier of sustainable building materials.

**Investing in Innovation**

Innovation is the cornerstone of our growth strategy. By investing resources in new product development and introductions, along with continuously enhancing product quality, we strive to deliver cutting-edge building material solutions that keep us ahead of emerging industry trends.

**Empowering growth through people**

We are focused on attracting top talent and nurturing a skilled workforce through continuous training and development programmes. This commitment to fostering a culture of innovation and excellence ensures that our team is equipped to drive our growth ambitions forward.

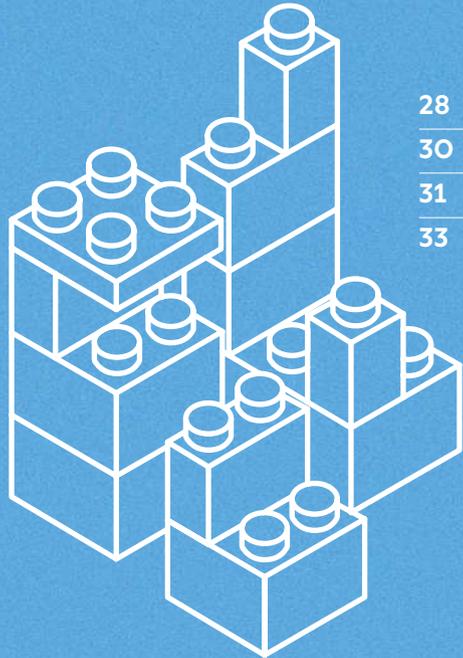

**Elevating brand equity**

Through targeted campaigns and strategic advertising initiatives, we are enhancing our brand visibility and credibility. These efforts aim to establish NXTBLOC and its associate brands as a trusted and respected name in the building materials industry, further strengthening our market position and stakeholder trust.

Resilient Performance, Responsible Execution

This year challenged many assumptions, yet it also validated the strength, adaptability, and commitment of BigBloc's leadership and teams. This section encapsulates our performance across financial, operational, and sustainability metrics. It includes reflections from our leadership, key indicators of our financial health, and a detailed snapshot of ESG and green energy initiatives. As stewards of responsible growth, we believe true performance lies not just in numbers, but in our ability to rise above external pressures, drive innovation, and operate sustainably for stakeholders and society alike. These insights reinforce our belief: resilience today builds the success stories of tomorrow.

Foundations for a New Era

We commissioned the Phase 2 expansion project at our Wada facility, operated via our wholly owned subsidiary. With this capacity addition, our cumulative production capability has reached an impressive 13 lakh cubic meters per annum.

Dear Shareholders,

I am pleased to connect with you as we reflect on our performance for last year. FY25 has been a year of transition and consolidation — a year in which our Company navigated challenges, executed notable expansion projects, and continued to lay the foundation for future growth.

Navigating a Challenging Macroeconomic Backdrop

To begin, it is important to recognize the multiple external and internal factors that weighed on our performance this year. The macroeconomic setting for India's construction sector remained subdued, shaped by a confluence of events that impacted project execution and demand across the building materials industry.

The general elections in India in 2024 led to a temporary slowdown and stalling of several infrastructure projects, as stakeholders awaited policy continuity and clarity. This was paired with a noticeable deceleration in fund flows and disbursements for ongoing infrastructure work undertaken by the Government — further constraining activity levels in the sector. Prolonged monsoon conditions, especially across our core markets in Western India, caused logistical bottlenecks, site operation delays, and supply chain disruptions. Collectively, these factors exerted downward pressure on demand for building materials, including AAC blocks and allied products.

In our micro-markets, particularly in Gujarat and Maharashtra, we observed that site activity and on-ground execution across many geographies lagged relative to prior years. This has had a direct bearing on our volumes and operational performance.

Expansion and Operational Priorities

Alongside these industry-wide headwinds, BigBloc Industries also undertook key internal initiatives that, while essential for our medium and long-term trajectory, did impact our short-term performance. In FY25, we carried out a planned capacity shutdown at our Umargaon plant for technology upgradation and modernization. This temporary closure, between May and October 2024, led to lower production and capacity utilization for the year. However, I am pleased to share that the plant has since resumed operations, swiftly scaling up output with improved efficiency and better product quality. The modernization efforts at Umargaon have positioned us well for sustained competitive advantage as market conditions improve.

Simultaneously, we commissioned the Phase 2 expansion project at our Wada facility, operated via our wholly owned subsidiary. With this capacity addition, our cumulative production capability has reached an impressive 13 lakh cubic meters per annum — solidifying our standing as one of the largest AAC capacity holders in the country. Notably, the Wada plant now boasts a single-location annual capacity of 5 lakh cubic meters, making it the largest facility of its kind in India. These substantial investments underscore our commitment to scaling responsibly and seizing emerging opportunities in the market.

It is important to acknowledge that such significant CAPEX projects, while essential for future growth, did impact our near-term profitability due to increased OPEX, Depreciation and Finance Costs, thus rebasing our cost structure.

Additionally, the confluence of capacity shutdowns and subdued market conditions led to a fall in overall capacity utilization to 59% in FY25, weighing on our profit margins. However, with these projects now completed, we anticipate a steady recovery in FY26 as new capacities are utilized and market conditions improve.

Financial Performance

Reflecting these dynamics, our Revenue from Operations in FY25 stood at ₹225 crore, down from ₹243 crore in FY24 — a reduction driven primarily by plant shutdowns and tepid market conditions. EBITDA for the year was ₹29 crore, compared to ₹56 crore last year, marking a 48% decrease that stems from lower overall capacity utilisation and front-loaded expenses of new projects. Our Profit After Tax (PAT) stood at ₹3.2 crore, reflecting the higher Depreciation and Finance Costs incurred alongside lower plant utilization.

On the operational front, we observed flattish sales volume, with 6,03,101 cubic meters for the year despite the broader challenges facing the sector.

Innovation and Market Leadership

One of our proudest achievements in FY25 has been the launch of India's first AAC Wall Plant at Kheda, Gujarat, through our joint venture SIAM Cement BigBloc Construction

Technologies. This is a major step forward in product innovation and industry leadership. The plant has already secured orders from multiple states and, notably, was selected by Tata Projects for Micron's upcoming semiconductor unit in Sanand — an early indicator of market acceptance and trust.

The AAC Wall Panel products, marketed under the brand ZMARTBUILD WALL by NXTBLOC, have received prestigious test certifications from IIT and ARAI, further cementing our reputation for quality and performance. We are the only Company in India capable of supplying 20-foot wall panels, previously an imported product, thereby opening new vistas for the domestic industry and reducing our nation's reliance on imported high-end building materials.

Building on this momentum, we are proactively marketing these new wall panel products and engaging in discussions with leading contractors and multinational firms. Our team is focused on optimizing the Kheda plant's utilization by pursuing bulk orders and contracts.

In parallel, we have ventured into the manufacturing of construction chemicals at our Umargaon facility, expanding our portfolio into a fast-growing and high-potential segment. Our construction chemicals line will soon offer products like block jointing mortar, ready-mix plaster, and tile adhesive — engineered to improve

construction efficiency and overall building durability. We have launched our new NxtFix tile adhesive alongside the trusted NxtFix and NxtPlast brands, all designed to deliver superior performance, ease of use, and lasting strength for varied construction needs.

Commitment to Sustainability

Environmental responsibility is core to our business strategy. This year, we furthered our green energy initiatives by initiating an 800-kilowatt rooftop solar system at our subsidiary StarBigBloc's facility. Additionally, a 1,350-kilowatt solar rooftop project is underway at our new JV factory. With these additions, BigBloc's cumulative captive renewable capacity will reach 3,475 kilowatts, enabling us to meet 35-40% of our energy needs through renewable power. This transition reinforces our sustainability ethos and also strategically positions us for future cost efficiencies.

Positioned for Renewal and Growth

As we step into FY26, we remain optimistic. Our expanded capacities, new product introductions like Wall Panels and construction chemicals, will expand our addressable market and enhance our competitive advantages. The growing industry preference for AAC blocks — owing to its cost-efficiency, sustainability, and superior performance — gives us confidence in the structural demand outlook of this industry.

Having weathered a year of transition and investment, BigBloc is now better equipped than before to capitalize on the upturn in the construction & infrastructure sector. Utilizations are expected to improve, profitability should recover as plant operations normalize, and our product innovations are poised to set new benchmarks across the building materials industry.

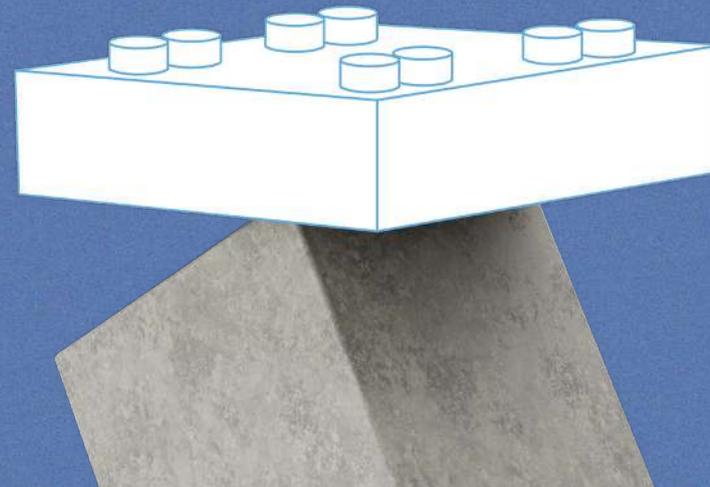

In closing, I express my heartfelt gratitude to our shareholders for their continued support and trust. I also commend our employees, whose dedication and perseverance continue to propel BigBloc forward. Together, we look toward a brighter, more sustainable, and more innovative future.

Warm Regards,

Narayan Sitaram Saboo
 Chairman & Executive Director

Building a greener tomorrow

Sustainability is at the core of our mission and the foundation of our operations. Every decision, from process design to product development, reflects our commitment to environmental stewardship, responsible resource management, and sustainable growth. Through continuous innovation and conscious integration of green practices, we're not just meeting today's needs – we're creating solutions for a more sustainable tomorrow.

Renewable Energy Adoption

We have made robust investments in renewable energy to minimize our ecological impact:

- **BigBloc Construction** operates a 2.85 MW solar rooftop system, reducing reliance on non-renewable energy and significantly shrinking our carbon footprint.
- **StarBigBloc Building Material** (Subsidiary) is set to install an 800 KW DC solar rooftop system, advancing our clean energy agenda.

Carbon Credit Leadership

We lead the industry in carbon credit generation and registration:

- BigBloc Construction has achieved ~34,000 emission reduction credits annually, verified on the Verra Registry.
- Our large-scale projects in the Company & its subsidiary are registered for extensive carbon credit issuance, underlining our commitment to fighting climate change and supporting global carbon reduction efforts.

Product Carbon Impact & Material Innovation

- The AAC blocks produced by BigBloc are estimated to have product emissions of roughly 8 tonnes of CO₂ equivalent per cubic meter per day, which enables us to monitor and continually reduce our product's environmental impact.
- Fly ash, a waste by-product from thermal power plants, is reclaimed and transformed into essential raw material for our building products. This approach not only reduces landfill burden but also advances the principles of a circular economy and supports sustainable resource management.
- Being a sustainable substitute to red clay bricks, the use of AAC Blocks helps prevent soil erosion and negates the harmful effects of topsoil depletion often caused by traditional clay brick manufacture.

Advancing Green Building & Sustainability Partnerships

- In collaboration with SCG International Thailand, we have built India's first AAC Wall Panels plant compliant with global green building standards, reinforcing our leadership in sustainable construction and boosting India's green infrastructure.
- Our products actively help builders, architects, and engineers meet and exceed benchmarks set by global sustainability certifications, including LEED. By providing eco-friendly building materials, we're enabling greener buildings with energy and water efficiencies.

Our Vision for a Sustainable Future

Efficient Resource Usage

Every aspect of our process - from energy and water to raw materials - is optimized for sustainability.

Waste Minimization

We uphold a zero-waste ethos, achieving efficiencies in water reuse and material recycling.

Pollution Reduction

Our clean energy and innovative material use strategies substantially reduce emissions and environmental harm.

Setting Industry Benchmarks

Through meticulous planning, technology integration, and efficient operations, we continually set new standards for environmental responsibility in building material manufacturing. These comprehensive measures ensure that every project and product actively contributes to a healthier planet — helping to shape a more resilient and sustainable built environment for generations to come.

Visionaries steering our growth

Our journey towards excellence and innovation is steered by a team of visionary leaders. With diverse expertise spanning industries, our Board of Directors and Senior Management Team bring strategic foresight, operational excellence, and an unwavering commitment to sustainable growth. Their leadership fuels our mission to revolutionise the construction industry while maintaining strong financial and ethical foundations.

Board of Directors

Mr. Narayan Sitaram Saboo
Chairman & Executive Director

A seasoned industry expert, Mr. Narayan Saboo brings over 37 years of experience in the textile sector and more than a decade in the AAC block industry. His deep understanding of business strategy and operations is instrumental in driving our growth. As an active participant in social welfare initiatives and a member of the Surat Textile Association, his leadership fosters a strong foundation for BigBloc's continued success. He holds an LLB degree.

Mr. Naresh Sitaram Saboo
Managing Director

With 28 years in the textile industry and extensive experience in AAC block manufacturing, Mr. Naresh Saboo plays a pivotal role in shaping BigBloc's strategic direction. His expertise in selecting cutting-edge technology and optimising production processes ensures efficiency and excellence across all our operations.

Mr. Mohit Narayan Saboo
Director & CFO

A qualified Chartered Accountant, Mr. Mohit Saboo brings over 10 years of experience in corporate taxation, finance, and accounts. As our CFO, he ensures sound financial decision-making, reinforcing the Company's fiscal health and long-term sustainability.

Management Discussion and Analysis

Economic overview

Indian economy

The Indian economy remained resilient and continued its strong growth trajectory in FY25. India retained its position as the fastest-growing major economy in the world, with the real GDP estimated to expand by 6.4% in 2024-25. The projected growth for the Indian economy in the range of 6.3% to 6.8% for 2025-26, underpinned by a robust domestic consumption base, strengthening investment activity, improving global trade prospects, and continued focus on macroeconomic stability. The rise in per capita income, reflective of an improving standard of living, further underscores this momentum.

From a sectoral standpoint, the performance has been balanced across agriculture, industry, and services. Agriculture, while contributing a smaller share to overall GVA, is expected to grow by a healthy 3.8% in 2024-25, owing to favourable monsoon conditions, record foodgrain and horticulture production, and strength in allied sectors like livestock and fisheries. The industrial sector, including manufacturing and construction, is estimated to have expanded by 6.2% during the year, supported by a revival

India retained its position as the fastest-growing major economy in the world, with the real GDP estimated to expand by 6.4% in 2024-25.

in private sector investment and robust public infrastructure spending. Manufacturing, despite facing external headwinds from global demand moderation, maintained its trajectory due to improved capacity utilisation and the government's Production Linked Incentive (PLI) schemes. The services sector once again emerged as the main engine of economic activity, with projected growth of 7.2%. Significant gains were seen in travel, tourism, finance, business services, and digital platforms, which also helped buoy exports of services and employment levels.

Inflation showed signs of moderation, with headline CPI inflation easing to 4.9% during April-December 2024. The RBI's monetary policy actions, including a calibrated shift from a withdrawal-of-accommodation stance to a more neutral approach, were effective in anchoring inflation expectations. While food inflation, especially for vegetables and pulses, remained a concern, core inflation trended downward. Fiscal and monetary coordination played a vital role in maintaining macroeconomic stability. The banking sector, as per RBI's assessments, remains well-capitalized and robust. Gross non-performing assets (NPAs) declined to a 12-year low of 2.6%, and the Capital-to-Risk-Weighted Assets Ratio stood at 16.7%, indicating enhanced financial health and improved credit discipline.

Management Discussion and Analysis

On the employment front, indicators improved significantly. The unemployment rate fell to 3.2% in 2023-24, with increased labour force participation rates and formalisation of jobs, especially in MSMEs and services. Rising government investment in social infrastructure, including education, healthcare, and housing, further supported the recovery in rural and informal sectors. As per the Economic Survey, government expenditure on social services grew at an annual average of 15% between FY21 and FY25. Public health spending increased, while the out-of-pocket expenditure by households declined, indicating improved access and affordability.

Looking ahead, India's medium-term growth prospects remain promising. The momentum is expected to continue, provided macro-prudential stability is preserved, and structural reforms are implemented to stimulate private investment and job creation. The Survey emphasizes deregulation, improvement in ease of doing business, and developing the capacity of small and medium enterprises (SMEs) as essential to achieving sustained high growth. Risks to the outlook include global uncertainties, supply chain disruptions, commodity price shocks, and potential volatility in financial markets. However, with a solid foundation, strong macro fundamentals, and sustained policy support, India remains on track to achieve its vision of becoming a \$5 trillion economy in the near term and a developed nation by 2047.

Indian construction industry

India's construction industry in 2025 remains a cornerstone of national development, powering job creation, accelerating urbanisation, and underpinning long-term economic ambitions despite a transitory slowdown linked to the 2024 general elections. Robust policy support, continued private participation, and rapid technology adoption have positioned the sector for durable, broad-based expansion through the remainder of the decade.

Demand Scenario Across Segments

Residential Construction

Demand for housing continues to surge, supported by favourable demographics, urban income growth, and expanded eligibility under housing subsidy schemes. Approvals under Pradhan Mantri Awas Yojana-Urban (PMAY-U) climbed steadily through 2024, with completions gaining pace thanks to streamlined central-state coordination. Developers report stronger absorption in both affordable and mid-segment categories, particularly in tier-2 cities.

Commercial and Institutional Buildings

Office, retail, and hospitality pipelines have rebounded, partly driven by global capability centres (GCCs) expanding footprints in Bengaluru, Hyderabad, and Pune. Data-centre demand has also intensified due to India's fast-growing digital economy and comprehensive data-localisation rules.

Infrastructure

Transport infrastructure remains the anchor of public investment. Road agencies achieved a record-high daily highway construction rate in Q4 FY25 after the post-election resumption of tendering activity. Parallel momentum is evident in metro rail extensions, regional rapid transit systems, and new-generation Vande Bharat trainset deployments. Energy infrastructure is dominated by large-scale renewables, pumped-hydro storage, and green hydrogen pilot projects, all benefitting from production-linked incentive (PLI) schemes.

General Elections Impact and Slowdown

The 2024 general elections imposed a Model Code of Conduct (MCC) moratorium that temporarily curtailed new project awards and slowed disbursements. Labour mobility was also disrupted as workers returned to native districts to vote.

- **Roads:** National Highway construction progress fell sharply during April–May 2024 but surpassed pre-election baselines by November 2024 after agencies cleared the back-log.
- **Urban missions:** Municipal bodies deferred large-ticket approvals until after poll results, causing short-term slippages in Smart Cities Mission timelines.
- **Private CAPEX:** Board decisions on major greenfield industrial sites were postponed, though final investment decisions largely materialised in H1 FY2025 once political continuity was confirmed.

Despite the early-year lull, annual output growth closed the fiscal year in positive territory as project execution regained speed.

Growth Drivers

1 Government Capital Expenditure

Union budgets continue to prioritise infrastructure, with ministries receiving double-digit increases in outlay for highways, railways, and urban affairs. Schemes such as Gati Shakti integrate logistics across rail-road-port-airport networks, reducing project fragmentation and accelerating clearances.

2 Urbanisation and Demographic Tailwinds

More than two-thirds of India's incremental GDP is expected to originate from urban regions this decade, pulling sustained demand for housing, utilities, and social infrastructure. The youthful workforce and rising middle-class incomes sustain vibrant demand for residential, retail, and leisure assets.

3 Technological Adoption

Indian contractors lead Asia-Pacific peers in the breadth of digital tools deployed, including Building Information Modelling (BIM), drone-based surveying, and predictive analytics for fleet management. A recent industry survey shows over half of large contractors integrating artificial intelligence into project-management dashboards, trimming rework and enhancing safety outcomes.

4 Financing Innovations

Infrastructure Investment Trusts (InvITs) and Real Estate Investment Trusts (REITs) have unlocked recycling of operating assets, funnelling capital into new projects without over-stretching balance sheets. Simultaneously, the SWAMIH-I fund's latest tranche has expanded completion financing for stuck residential projects, reinforcing sectoral stability.

Government Initiatives and Policy Framework

National Infrastructure Pipeline (NIP)

The NIP now covers thousands of projects across 37 subsectors, with digital dashboards enhancing transparency for investors and citizens alike. Energy transition assets account for an expanding share of the pipeline, consistent with India's updated nationally determined contributions (NDCs).

Housing and Urban Affairs

Enhanced interest-subsidy slabs and expanded tenure under PMAY have widened beneficiary coverage, while new urban reform conditionalities encourage states to implement progressive rent control and transit-oriented development regulations.

Sustainability and Green Construction

The Energy Conservation Building Code (ECBC) mandates stepped-up efficiency benchmarks, with state-specific amendments creating uniform compliance mechanisms. Introduction of a Green Steel classification incentivises lower-carbon materials in large public tenders.

Digital Governance

The "one-map, one-platform" asset-mapping initiative integrates satellite imagery, cadastral overlays, and BIM models, shortening site-selection cycles and streamlining right-of-way negotiations. Automated and Intelligent Machine-aided Construction (AI-MC) guidelines now prescribe telematics-enabled earth-moving equipment for National Highway projects to ensure quality and accountability.

Future Outlook and Strategic Directions

Execution Pipeline Post-2025

Policy continuity following the election outcome, combined with the next-cycle infrastructure pipeline, supports a multi-year execution runway. Though raw-material cost volatility and skilled-labour gaps remain challenges, margin profiles are expected to stabilise through wider adoption of digital procurement and modular construction techniques.

Technology and Innovation Road-map

Adoption of digital twins for asset lifecycle management is accelerating, providing real-time insights into performance and maintenance needs. Early commercial deployments of 3D-printed concrete components and robotics-enabled rebar tying have begun in select metros, signalling rapid maturation of advanced construction technologies.

Sustainability Imperatives

Climate resilience is increasingly integral to project appraisal, with hydrological modelling and material circularity assessments embedded in financing agreements. India has climbed into the top three globally for gross floor area under LEED certification, showcasing the sector's growing emphasis on sustainable outcomes.

Risk Landscape

Key vulnerabilities include commodity-price surges, tightening global liquidity, climate-related disruptions, and permitting bottlenecks at sub-national levels. Mitigation levers involve hedging strategies for key inputs, diversification of funding sources, and further rationalisation of compliance workflows under single-window systems.

Conclusion

With sustained policy support, broad-based demand, and rapid technological upgrading, India's construction sector in 2025 stands well-positioned to deepen its contribution to economic growth, employment, and climate-aligned infrastructure without relying on speculative market-size figures. The industry's capacity to navigate election-related pauses, price shocks, and regulatory complexity underscores an increasingly sophisticated ecosystem primed for durable expansion through the remainder of the decade and beyond.

Industry Overview

Indian AAC Market

The Indian autoclaved aerated concrete (AAC) block market is witnessing strong momentum, driven by the evolving landscape of the construction and infrastructure sectors. AAC blocks are increasingly being preferred over traditional red clay bricks due to their economic, environmental, and performance-related advantages. It also has a competitive edge over bricks because brick prices have increased significantly over the past ten years in comparison to AAC blocks. Brick prices have surpassed 5,500 per cbm, while AAC block costs are approximately 4,000 per cbm.

Lower raw material costs, such as cement, lime, aluminum powder, and notably fly ash sourced from thermal power plants, further enhance their viability. Moreover, AAC blocks facilitate faster construction timelines, reduce dead load, and offer long-term energy savings through superior thermal insulation, making them a preferred choice across residential, commercial, and infrastructure projects.

Government policy has been a major enabler of AAC adoption. Large-scale housing initiatives like the Pradhan Mantri Awas Yojana (Urban and Gramin), 'Housing for All by 2024', and other institutional schemes such as Police Housing and Kanya Shiksha Parishar are driving demand for cost-effective and environmentally friendly building materials. As per estimates, India is expected to construct approximately 60 million new homes over the next seven years, with a projected investment of USD 1.3 trillion in housing development. The extension of PMAY-Gramin further reinforces the sector's growth outlook.

The AAC segment also aligns well with the broader national agenda of sustainable construction. AAC blocks are lightweight, non-toxic, soundproof, and resistant to fire, termites, and earthquakes. Their production incorporates industrial waste products like fly ash, slag, and ceramic residues, contributing to circular economy practices and environmental preservation. These attributes are especially relevant as urbanization accelerates and environmental concerns influence material selection in real estate and infrastructure development.

Market growth is expected to remain robust, with a projected CAGR of 15–18% over the next five years. The demand is being propelled by three key segments: affordable and mid-income residential housing, commercial buildings such as hospitals and hostels, and infrastructure projects like airports, metro stations, and educational institutions. AAC blocks' performance benefits, ranging from up to 4-hour fire resistance and 25–30% HVAC energy savings to superior sound insulation, position them as an ideal material for modern construction requirements.

Management Discussion and Analysis

Despite its advantages, the AAC industry faces certain structural challenges. These include the need for skilled labor to ensure precise installation due to lower compressive strength, relatively higher costs when factoring in transportation, and sensitivity to prolonged moisture exposure. Additionally, availability can be region-specific, potentially impacting project timelines and cost efficiencies.

Nevertheless, the outlook for the Indian AAC block market remains highly promising. With increasing awareness, evolving building norms, and the ongoing shift towards sustainable construction materials, AAC is poised to play a significant role in reshaping India's built environment. Industry leaders are also expanding capacities and diversifying product offerings to capture the anticipated growth across geographies and applications.

Global AAC Market

The global market for autoclaved aerated concrete (AAC) blocks is undergoing significant transformation, driven by the growing emphasis on sustainable construction practices, energy efficiency, and rapid urban development. AAC, a lightweight and environmentally friendly building material, is increasingly being adopted worldwide due to its superior thermal insulation, fire resistance, acoustic performance, and ease of installation. Its versatile application across residential, commercial, and infrastructure projects has made it an attractive alternative to traditional masonry materials, particularly in regions prioritizing green building solutions and fast-paced construction.

The demand for AAC blocks is particularly strong across Asia-Pacific, the Middle East, Europe, and parts of Africa and Latin America. These regions are witnessing a construction boom led by urbanization, infrastructure investment, and policy shifts toward energy-efficient building norms. Countries such as China, Germany, the UAE, Vietnam, and Thailand are not only key consumers but also major producers of AAC blocks,

with robust domestic demand as well as export-oriented production capacities. China, in particular, has emerged as a dominant player in the global AAC space, leveraging cost competitiveness and scale to cater to various export markets.

The global AAC market is projected to grow at a CAGR of 6–8% through 2027, supported by government regulations encouraging eco-friendly construction, rapid industrialization, and the rising adoption of prefabricated building technologies. Green building certification programs such as LEED, BREEAM, and IGBC are further driving interest in AAC blocks due to their environmental credentials and contribution to energy savings over the lifecycle of buildings. Moreover, rising awareness about indoor comfort and sustainability among end-users is encouraging builders and contractors worldwide to integrate AAC in their construction value chains.

Despite this upward trend, the global AAC industry faces a few structural and operational challenges. These include the high initial investment required for setting up AAC manufacturing facilities, complexities in logistics due to product fragility, and the need for technical know-how during installation. Additionally, regional disparities in raw material availability, such as fly ash, lime, and aluminum powder, impact cost competitiveness in certain geographies. Emerging economies that lack sufficient thermal power plants may face limitations in sourcing fly ash, a key component in AAC manufacturing.

Another factor shaping the global AAC landscape is the increasing self-sufficiency of many countries in AAC production. Several nations that were once reliant on imports are now establishing domestic manufacturing units, impacting the export dynamics of traditional AAC-exporting countries like India. While this trend promotes regional resilience and reduces construction costs in local markets, it also intensifies global competition and pressures exporters to maintain quality standards, optimize logistics, and offer competitive pricing.

Innovation and product diversification are emerging as key themes, with manufacturers introducing advanced variants of AAC such as reinforced panels, pre-coated blocks, and integrated insulation systems. Coupled with digital design tools and modular construction technologies, AAC is well-positioned to remain an integral part of the global shift toward efficient and sustainable building materials.

In summary, the global AAC market continues to present robust growth opportunities, driven by urban expansion, sustainability mandates, and evolving construction practices. However, strategic investments in capacity building, product innovation, and regional adaptability will be critical for companies seeking to consolidate or expand their presence in this dynamic industry.

Management Discussion and Analysis

Company overview

BigBloc Construction Limited has quickly established itself among India's foremost manufacturers of AAC blocks and related building materials. Initially a part of Mohit Industries Limited, the Company became independently demerged in 2015 with a strong commitment to excel in sustainable building materials. Today, BigBloc operates 4 advanced manufacturing facilities located at Umargaon (Vapi), Kapadvanj (Ahmedabad), Wada (Palghar), and Ramosadi (Kheda, via its Joint Venture entity), making it one of the nation's largest AAC producers with a total output capacity of 13 lakh cubic meters annually.

BigBloc's ambitions extend beyond production excellence. Its goal is to be a dominant industry leader by supplying superior-quality, sustainable construction materials. Over the past year, the Company has expanded its product range to include innovative solutions such as AAC Wall Panels and Construction Chemicals, positioning itself as a comprehensive supplier of building material solutions.

The Company is dedicated to furthering green and sustainable initiatives in the construction and infrastructure industries, aiming to help create a brighter future. With a strong emphasis on innovation, efficient operations, and customer-centricity, BigBloc remains focused on delivering high-quality products tailored to the evolving demands of its market.

FY25 performance discussion

FY25 was a year of consolidation for the Company, marked by tepid operational momentum amid a challenging macroeconomic environment. Revenue from Operations stood at ₹225 Crores, compared to ₹243 Crores in FY24. EBITDA declined by 48%, from ₹56 Crores in FY24 to ₹29 Crores in FY25. Profit After Tax (PAT) stood at ₹3 Crores, as against ₹31 Crores in FY24, reflecting a decline of 90%.

On the operational front, sales volume recorded a marginal growth of 0.5% YOY, reaching 6,03,101 cubic metres. Notably, the Company successfully completed the capacity expansion at its Wada plant, doubling its annual capacity from 2,50,000 to 5,00,000 cubic metres — positioning us for future growth and improved supply chain responsiveness.

Outlook

As we enter FY26, BigBloc Industries is poised for a recovery and growth following a year of strategic investments and temporary headwinds. With key expansion projects now completed, most notably the capacity enhancement at our Wada facility and modernization of the Umargaon plant, we are well-equipped to

improve capacity utilization and operational efficiency. Our cumulative production capacity stands at a notable 13 lakh cubic meters per annum, positioning us to meet growing demand as the construction and infrastructure sectors regain momentum.

Management Discussion and Analysis

Encouragingly, our new product verticals, particularly the AAC wall panels and construction chemicals, are gaining early traction in the market.

The successful commissioning of India's first AAC Wall Panel plant and its selection for a few marquee projects signal a new chapter in innovation-led growth. As we scale the Kheda facility and expand our chemical product portfolio, we expect these high-margin offerings to significantly enhance our revenue mix going forward.

Sustainability continues to anchor our strategy, with transition to renewable energy further improving our long-term resilience. With improved industry dynamics, a diversified product base, and enhanced operational capabilities, BigBloc is well-positioned to deliver stronger growth, better profitability, and long-term value for all stakeholders in FY26 and beyond.

Risks and concerns

Risk assessment and mitigation is part of regular business practices. While many of the risk factors can be anticipated, assessed, prioritised, and mitigated through strategic planning, some are driven by broader macroeconomic forces beyond our direct influence. At BigBloc, we have implemented a comprehensive risk management system that utilises structured frameworks to safeguard shareholder interests and navigate potential challenges effectively.

Macroeconomic Risk

Our operations are influenced by economic conditions both globally and domestically. An economic slowdown, either in India or internationally, could lead to reduced demand for our products, affecting overall business performance.

Inflation and Production Cost Risk

Given the energy-intensive nature of the construction industry, even minor increases in the cost of raw materials and energy can significantly affect our margins. Therefore, it is critical for us to closely monitor and control these expenditures.

Financial Risk

We are subject to various financial uncertainties, such as changes in interest rates, fluctuations in foreign exchange rates, and volatility in commodity prices. Sudden shifts in these variables may adversely impact our profitability and financial health.

Credit Risk

There is a potential risk of financial loss if a counterparty fails to meet its contractual obligations. Effective evaluation and control of credit risk are crucial to protect our financial stability and maintain a healthy balance sheet.

Legal and Regulatory Risk

Adhering to legal and regulatory frameworks is a top priority for us. Any lapse in compliance or inadvertent breaches could result in substantial penalties, legal complications, and reputational harm. We continuously work to cultivate a strong compliance culture across the organisation.

Human Resource Risk

Our growth is deeply connected to the skills and dedication of our workforce. Risks related to talent acquisition, retention, employee performance, or workforce disruptions can negatively impact our operations. To mitigate this, we focus on fostering a positive work culture and attracting top-tier talent to support our long-term goals.

Internal control systems and their adequacy

BigBloc has implemented a strong and comprehensive internal control framework aimed at safeguarding our assets and ensuring accurate authorisation, documentation, and reporting of all transactions. This system is supported by clearly defined policies, guidelines, and procedures that are regularly reviewed and monitored. To strengthen the system further, we conduct routine internal audits carried out by our skilled in-house team.

These audits offer key insights and suggestions for continuous enhancement. Oversight is provided by the audit committee, which ensures that our control mechanisms remain robust and effective. Maintaining transparent financial records and a high level of accountability remains central to our business operations.

Environment, Health, and Safety (EHS)

We are deeply committed to the health and safety of our employees as well as to protecting the environment. We have proactively developed and implemented a range of policies designed to foster a safe, healthy, and environmentally responsible workplace. These policies — focused on quality, health, and safety — guide our operational decisions and are continuously refined for maximum impact. Employee involvement is actively encouraged in shaping these policies, and we promote awareness through consistent communication, training, and development initiatives. As of March 31, 2025, BigBloc's workforce comprises 149 dedicated employees who play a vital role in advancing our EHS goals and contributing to the Company's ongoing success.

Cautionary statement

Statements in the Management Discussion & Analysis, and other sections of this report that outline the Company's objectives, projections, estimates, and expectations are forward-looking statements. Actual results may differ significantly from those expressed or implied due to various risks and uncertainties. Key factors that could influence the Company's operations include economic and political conditions in India and other countries where the Company operates. Additionally, factors such as fluctuations in interest rates, changes in government regulations and policies, tax laws, statutes, and other related factors may impact the Company's operations. The Company does not intend to update these statements.

12. The voting rights of the Members shall be in proportion to the paid-up value of their shares in the equity capital of the Company as on the Cut- off Date, being Tuesday, 23-09-2025.
13. The Company has designated the Company Secretary and Compliance Officer of the Company to address the grievances connected with the voting by electronic means. The Members can reach Company official at +91-0261-2463262-63 or compliancesecretary.nxtbloc.in .
14. The Board of Directors has appointed M/s. Dhirren R. Dave & Co. Company Secretaries, Surat, as Scrutinizer to scrutinize the remote e-voting process and voting through electronic voting system at the AGM in a fair and transparent manner.
15. The Scrutinizer shall, after conclusion of voting at the AGM, first download the votes cast at the meeting and thereafter unblock the votes cast through remote and e-voting in the presence of at least 2 (two) witnesses not in the employment of the Company and shall within two working days of conclusion of the AGM, submit a Consolidated Scrutinizer's Report of the total votes cast in favour or against, if any, to the Chairman or any KMPs of the Company who shall countersign the same and declare the results of voting forthwith.
16. The resolutions will be deemed to be passed on the AGM date subject to receipt of the requisite number of votes in favour of the resolutions. The results shall be declared within two working days of conclusion of the Annual General Meeting of the Company. The results along with Scrutiniser's Report shall be placed on the website of the Company www.bigbloc.in, website of NSDL www.evoting.nsdl.com and by filing with the Stock Exchanges. It shall also be displayed on the Notice Board at the Registered Office of the Company.
17. Members are requested to note that under Section 124 of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('IEPF Rules'), the amount of dividend remaining unpaid or unclaimed for a period of seven years from the date of transfer to Unpaid Dividend Account is required to be transferred to the Investor Education and Protection Fund ('IEPF') constituted by the Central Government of India. Further, all shares in respect of which dividends remain unclaimed/unpaid for seven consecutive years or more, are also required to be transferred to designated Demat Account of the IEPF Authority. All the shareholders who have not claimed/encashed their dividends in the last seven consecutive years from FY 2018-19 and onwards are requested to claim the same. The concerned members are requested to verify the details of their unclaimed amounts, if any, from the website of the Company and write to the Company's Registrar before the same becoming due for transfer to the IEPF.
18. In respect of the physical shareholding, in order to prevent fraudulent transactions, members are advised to exercise due diligence and notify the Registrar of any change in their addresses, telephone numbers, e-mail ids, nominees or joint holders, as the case may be. The Securities

and Exchange Board of India ('SEBI') has mandated submission of Permanent Account Number ('PAN') by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form are requested to submit their PAN details to the Registrar.

19. Pursuant to the Listing Regulations, shares of a listed entity can only be transferred in demat form w.e.f. April 1, 2019 except in cases of transmission or transposition. Therefore, shareholders are encouraged in their own interest to dematerialize their shareholding to avoid hassle in transfer of shares and eliminate risks associated with physical shares. Members can write to the Registrar in this regard.
20. **Information in respect of unclaimed dividend pertaining to the subsequent financial years when due for transfer to the said fund is given below:**

Financial Year	Date of declaration of Dividend	Unclaimed amount as on 31 st March, 2025	Date of Transfer to Unpaid Dividend Account	Proposed date for transfer to IEPF

- iii. Renewal/Exchange of securities certificate;
- iv. Endorsement;
- v. Sub-division/Splitting of securities certificate;
- vi. Consolidation of securities certificates/folios;
- vii. Transmission;
- viii. Transposition.

24. Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, shares of a listed entity can only be transferred in demat form. Therefore, shareholders are encouraged in their own interest to dematerialize their shareholding to avoid hassle in transfer of shares and eliminate risks associated with physical shares. Members can write to the Registrar in this regard.

Law provides voting rights to all members proportionate to their holding in the Company. Bigbloc Construction Limited encourages the members to exercise their voting rights and actively participate in the decision-making process.

25. **Remote E-Voting:**

Pursuant to Section 108 of the Act, rule 20 of the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the Listing Regulations, the Company is pleased to provide the facility of voting by electronic means viz. 'remote e-voting' (e-voting from a place other than venue of the AGM) through CDSL, for all Members of the Company to enable them to cast their votes electronically, on the resolutions mentioned in the Notice of 10th AGM of the Company. The remote e-voting period begins on Saturday, 27-09-2025, at 9:00 A.M. and ends on Monday, 29-09-2025, on 5:00 P.M.(IST).

During this period, Members of the Company, holding shares either in physical form or in dematerialized form as on the Cut-off Date i.e. Tuesday, 23-09-2025, may cast their votes electronically. The remote e-voting module shall be disabled after 5:00 p.m. (IST) on Tuesday, 23-09-2025. The facility for electronic voting system, shall also be made available at the 10th AGM.

The Members attending the AGM, who have not cast their votes through remote e-voting, shall be able to exercise their voting rights at the AGM. The Members who have already cast their votes through remote e-voting may attend the meeting but shall not be entitled to cast their votes again at the AGM.

The Members desirous of voting through remote e-voting are requested to refer to the detailed procedure given hereinafter. Once the vote on a resolution is cast by a Member, the Member shall not be allowed to change it subsequently.

1. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available for 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
2. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
3. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and the Circulars issued by the Ministry of Corporate Affairs dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with National Securities Depository Limited (NSDL) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-Voting system as well as venue voting on the date of the AGM will be provided by NSDL.
4. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at NXTBLOC.IN. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively and the AGM Notice is also available on the website of NSDL (agency for providing the Remote e-Voting facility) i.e. www.evoting.nsdl.com.

Notes:

THE INSTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND JOINING GENERAL MEETING ARE AS UNDER:

The remote e-voting period begins on Saturday, 27-09-2025 at 09:00 A.M. and ends Monday, 29-09-2025 at 05:00 P.M. The remote e-voting module shall be disabled by NSDL for voting thereafter. The Members, whose names appear in the Register of Members/Beneficial Owners as on the cut-off date i.e. Tuesday, 23-09-2025, may cast their vote electronically. The voting right of shareholders shall be in proportion to their share in the paid-up equity share capital of the Company as on the cut-off date, being Tuesday, 23-09-2025.

Explanatory statement setting out material facts under Section 102 of the Companies Act, 2013

ITEM NO. 3: TO APPOINT STATUTORY AUDITORS OF THE COMPANY

The Members of the Company at the 5th Annual General Meeting of the Company held on Friday, 18th September, 2020 had approved the re-appointment of M/s. RKM & Co., Chartered Accountants (Firm Registration No. 108553W) as the Statutory Auditors of the Company to hold office for a term of 5 (five) consecutive years from the conclusion of said AGM till the conclusion of the 10th AGM. They will complete their two consecutive terms as Statutory Auditors of the Company on conclusion of this AGM. The Board of Directors of the Company (the Board), at its meeting held on 30th May, 2025, considering the experience and expertise and based on the recommendation of the Audit Committee, has proposed to the Members of the Company, appointment of M/s. Rajendra Sharma & Associates, Chartered Accountants (Firm Registration number:108390W) as Statutory Auditors of the Company in place of M/s. RKM & Co. The proposed appointment is for a term of 5 (five) consecutive years from the conclusion of 10th AGM till the conclusion of the 15th AGM on payment of such remuneration as may be mutually agreed upon between the Board of Directors and the Statutory Auditors, from time to time. The proposed remuneration to be paid to the Auditors for the FY 2025-26 is ₹ 3.75 Lakhs for Statutory Audit and ₹ 1.10 Lakhs for Tax Audit. The said remuneration excludes applicable taxes and out of pocket expenses. The Company has received written consent from M/s. Rajendra Sharma & Associates and a certificate that they satisfy the criteria provided under Section 141 of the Act and that the appointment, if made, shall be in accordance with the applicable provisions of the Act and Rules framed thereunder. As required under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, M/s. Rajendra Sharma & Associates, has confirmed that they hold a valid certificate issued by the Peer Review Board of ICAI. None of the Directors or other Key Managerial Personnel and their relatives, are concerned or interested (financially or otherwise) in this Resolution. The Board recommends the Ordinary Resolution set out at Item No. 03 for the approval of Members.

ITEM NO. 4: TO AUTHORIZE THE BOARD OF DIRECTOR FOR GIVING LOAN OR GUARANTEE OR PROVIDING SECURITY IN CONNECTION WITH LOAN AVAILED BY ANY OF THE COMPANY'S SUBSIDIARY(IES) OR ANY OTHER PERSON SPECIFIED UNDER SECTION 185 OF THE COMPANIES ACT, 2013

The Company may have to render support for the business requirements of its Subsidiary Companies or Associate or Joint Venture or group entity or any other person in whom any of the Director of the Company is deemed to be interested (collectively referred to as the "Entities"), from time to time. However, owing to certain restrictive provisions contained in Section 185 of the Companies Act, 2013 ('the Act'), the Company was unable to extend financial assistance by way of loan to such Entities. The Board of Directors seek consent of the Members by way of a Special Resolution pursuant to Section 185 of the Act, 2013 as amended for making loan(s) or providing financial assistance or providing guarantee or securities in connection with the loans taken or to be taken by the Entities for the capital expenditure of the projects and/or working

capital requirements including purchase of fixed assets as may be required from time to time for the expansion of its business activities and other matters connected and incidental thereon for their principal business activities.

The Members may note that Board of Directors would carefully evaluate proposals and provide such loan, guarantee or security through deployment of funds out of internal resources/accruals and/or any other appropriate sources, from time to time, only for principal business activities of such Entities. The Board of Directors recommend the resolution given in this Notice for your approval as a Special Resolution.

None of the Directors, Key Managerial Personnel of the Company or any of their relatives, are concerned or interested in the above proposed resolution, except to their equity holdings and Directorships in the Company, if any.

ITEM NO. 05: APPOINTMENT OF SECRETARIAL AUDITORS PURSUANT TO REGULATION 24A OF LISTING REGULATIONS, AS AMENDED VIDE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) (THIRD AMENDMENT) REGULATIONS, 2024 (AMENDMENT), THE APPOINTMENT OF SECRETARIAL AUDITORS:

The Board of Directors at its meeting held on 30th May, 2025, based on the recommendation of the Audit Committee, approved the appointment and remuneration of M/s. Dhirren R Dave & Co., Practicing Company Secretaries having UIN: P1996GJ002900, as the Secretarial Auditors of the Company to hold office for a term of 5 (five) years commencing from financial year 2025-26 till the financial year 2029-30. M/s. Dhirren R Dave & Co., Practicing Company Secretaries have given their consent to act as Secretarial Auditors of the Company and confirmed that their aforesaid appointment, if made, would be within the prescribed limits under the Act and rules framed thereunder and SEBI Listing Regulations, 2015. Pursuant to the provisions of Regulation 24A(1) (1A) of the SEBI Listing Regulations, 2015, M/s. Dhirren R Dave & Co., Practicing Company Secretaries have confirmed that they are not disqualified to be appointed as Secretarial Auditors of the Company.

Proposed Fee: The proposed fee to the Secretarial Auditors as determined by the Board in consultation with Secretarial Auditors, on recommendation of Audit Committee, from time to time.

The proposed fee is based on knowledge, expertise and industry experience possessed by them. The fees for any other professional work including certifications will be in addition to the audit fee and will be decided by the management in consultation with the Auditors.

ITEM NO. 11: TO COSIDER AND APPROVE THE MATERIAL RELATED PARTY TRANSACTION(S) FOR THE FY 2025-26 WITH (A) STARBIGBLOC BUILDING MATERIAL LIMITED AND (B) SIAM CEMENT BIG BLOC CONSTRUCTION TECHNOLOGIES PRIVATE LIMITED

Context and Statutory provisions:

In terms of Regulation 23 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, ('SEBI Listing Regulations'), as amended, any transactions with a related party shall be considered material, if the transaction(s) entered into/to be entered into individually or taken together with the previous transactions during a financial year exceeds ₹ 1,000 crore or 10% of annual consolidated turnover of the Company as per the last audited financial statements of the Company, whichever is lower, shall require prior approval of shareholders by means of an ordinary resolution. The said limits are applicable, even if the transactions are in the ordinary course of business of the concerned company and at an arm's length basis. Further, Regulation 2(1)(zc) of the SEBI Listing Regulations defines a Related Party Transaction ('RPT') to include a transaction involving a transfer of resources, services or obligations between (i) a listed entity or any of its subsidiaries on one hand and a related party of the listed entity or any of its subsidiaries on the other hand, as well as (ii) a listed entity or any of its subsidiaries on one hand and any other person or entity on the other hand, the purpose and effect of which is to benefit any related party of the listed entity or any of its subsidiaries, regardless of whether a price is charged or not.

The listed entity shall provide the Audit Committee with the information as specified in the Industry Standards on "Minimum information to be provided for review of the Audit Committee and members for approval of a related party transaction", while placing any proposal for review and approval of an RPT.

In the above context, Resolution under Item no. 11 is placed for the approval of the Members of the Company. Further, for the purpose of calculating the total amount of proposed RPTs as a percentage of annual consolidated turnover of Bigbloc Construction Limited and/or annual standalone turnover of the subsidiary company (as applicable) as of the immediately preceding financial year, we have considered FY 2024-25 as the 'preceding financial year'.

Background, details and benefits of the transaction:

Starbigbloc Building Material Limited (SBL) and Siam Cement Big Bloc Construction Technologies Private Limited (SIAM) are the subsidiaries of the Company.

Annexure to the Notice

Both Subsidiaries and the Company are in the same line of business where the entities intend to leverage benefits of synergy in business integrations, process and systems. The Company has entered into various transactions with both the subsidiaries in previous financial years. To ensure continuity of operations at the Company for sustenance of its business and to take advantage of the existing business synergies and Company's focus towards enhancing the production capacity of Bigbloc Construction Limited, the Company proposes to enter into similar transactions, the Company seeks members approval for the following related party transactions:

Sr. No.	Nature of Transaction	Amount (₹)
1. Other Information

Reasons of loss or inadequate profits

The Company's temporary losses are attributable to a combination of factors, including the planned shutdown for plant upgradation and ongoing capacity expansion initiatives, which impacted production efficiency. Additionally, heightened market competition exerted pressure on margins, while the continued slowdown in the real estate sector led to reduced demand, collectively affecting overall profitability.

Steps taken or proposed to be taken for improvement

The Company has set up a management team to recover claims outstanding from various clients. Further, Company has taken steps to reduce overheads substantially by concentrating its attention on manpower, material, financial cost and other administrative expenses to improve profitability. With the streamlining operations, expected improvement in overall business scenario and healthy order book position, the Company would definitely grow in the coming years.

2. REAL ESTATE AND CONSTRUCTION INDUSTRIES DURING THE YEAR:

In recent years, the construction industry in India has changed significantly, with a growing focus on innovative and sustainable materials. One such material that is making a big impact in residential building projects is Autoclaved Aerated Concrete (AAC) blocks.

Autoclaved Aerated Concrete (AAC) block is a low-maintenance precast building material with excellent thermal insulation and durability. The heat-insulating properties of AAC blocks keep the building cooler and prevent outside heat from entering, resulting in significant savings on air conditioning costs. AAC blocks also guarantee savings in foundation load, structural steel consumption, and mortar consumption.

The AAC blocks industry in India is currently experiencing rapid growth, fuelled by a significant shift toward green construction practices and government initiatives promoting sustainability. With increased awareness of the long-term benefits of using energy-efficient and lightweight building materials, builders and developers are increasingly turning to AAC blocks as a viable alternative to traditional red bricks. The market, valued at approximately INR 6,500 Crores in 2023, is projected to reach INR 11,500 Crores by 2027, reflecting a healthy CAGR of 15.3%. This growth is underpinned by factors such as the rising demand for affordable housing, the pursuit of soundproof and environmentally friendly buildings, and favourable government policies that incentivize green construction. Despite India's standing as the world's second-largest block manufacturer with around 150-180 unorganized manufacturing plants primarily located in Western India, AAC blocks currently account for only about 10% of the overall market, compared to 85% for traditional red bricks, indicating a vast potential for further expansion. From the total valued market almost 38-40 Crores is being export to the other countries. The investments in this area is getting increased because of the increasing demand in construction site and additional industrial areas.

3. SHARE CAPITAL

During the year under review, the authorized share capital of the company has increased from ₹ 15,00,00,000/- divided into 7,50,00,000 equity shares of ₹ 2.00 each to ₹ 30,00,00,000/- divided into 15,00,00,000/- equity shares of ₹ 2.00 each on 24th August, 2024. The Company has made bonus issue of equity shares in the ratio of 1:1 and has allotted 7,07,87,875 equity shares of ₹ 2.00 each on 13th September, 2024.

Further, during the year under review, the Company has not issued convertible warrant nor has granted any stock options and nor sweat equity.

16. COMMITTEES OF THE BOARD

The Board of Directors has the following Committees as on March 31, 2025:

- a) Audit Committee
- b) Nomination and Remuneration Committee
- c) Stakeholders' Relationship Committee
- d) Corporate Social Responsibility Committee
- e) Risk Management Committee

The details of the Committees of the Board along with their composition, number of meetings and attendance at the meetings are provided in the Corporate Governance Report forming part of this Annual Report FY 2024-25.

17. MEETINGS OF MEMBERS

During the year under review, 9th Annual General Meeting of the Company was held on 7th August, 2024 virtually. No Extra Ordinary General Meeting was held during the financial year.

18. AUDITORS & REPORTS OF THE AUDITORS

a) Statutory Auditor

Pursuant to the provisions of Section 139 and other applicable provisions, if any, of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014 (including any statutory modification(s) re-enactment(s)/amendment(s) thereof, for the time being in force), M/s. RKM & Co., Chartered Accountants (Firm Registration No. 108553W) were re-appointed as the Statutory

Auditors of the Company to hold office for their second term from the conclusion the 5th Annual General Meeting till the conclusion of 10th Annual General Meeting to be held in the year 2025. They will complete their two consecutive terms as Statutory Auditors of the Company on conclusion of this 10th AGM. The Board of Directors of the Company (the Board), at its meeting held on 30th May, 2025, considering the experience and expertise and based on the recommendation of the Audit Committee, has proposed to the Members of the Company, appointment of M/s. Rajendra Sharma & Associates, Chartered Accountants (Firm Registration number: 108390W) as Statutory Auditors of the Company in place of M/s. RKM & Co. The proposed appointment is for a term of 5 (five) consecutive years from the conclusion of 10th AGM till the conclusion of the 15th AGM on payment of such remuneration as may be mutually agreed upon between the Board of Directors and the Statutory Auditors, from time to time.

There was no instance of fraud during the year under review, which required the Statutory Auditors to report to the Audit Committee and/or Board under Section 143(12) of Act and Rules framed thereunder.

The Auditor's Report does not contain any modified opinion and is self-explanatory; hence, no further comments are deemed necessary.

However, certain adverse remarks have been included in the Companies (Auditor's Report) Order (CARO), 2020 under Clause (ii)(b), Clause (vii)(a), Clause (ix)(d) and Clause (xvii). The management's explanations for these observations are as follows:

Clause (ii)(b) – Differences in Quarterly Bank Submissions:

The difference between amounts as per books of accounts and amounts reported in quarterly statement filed with bank is because stock statements are filed with bank before updation/ finalization of accounts for quarterly limited review/audit of the accounts. Hence, debtors, creditors and stock are reported on adhoc basis with bank without complete updation of books of accounts.

Clause (vii)(a) – Statutory Dues:

The Company has deducted Professional tax from Employees' salaries. In some cases, the same has not been deposited with the concerned department. The management will deposit the same upon receipt of such demand from the concerned department.

Clause (ix)(d)- Utilisation of Funds

The Company had upgraded its factory at Umargaon through under a pre-planned and temporary technology upgradation related shutdown since 18th May 2024 till 15th Oct 2024. Further, the Company had made investments and advanced Long term loans to its Subsidiary Companies, Siam Cement Big bloc Construction Technologies Private Limited and Bigbloc Building Elements Private Limited. The same was funded through a mix of Long term and Short term funds. We are

maintaining sufficient liquidity and a strong credit profile to meet the working capital requirements arising from the event of short-term sources falling due for payment.

Clause (xvii)- Cash Losses

The Company's factory at Umargaon was under a pre-planned and temporary technology upgradation related shutdown since 18th May 2024 till 15th Oct 2024. However, overheads like salaries, utilities, interest etc were being incurred. Further, there was loss on sale of old fixed assets to the tune of ₹ 44.13 lakhs. We expect to stabilize our cash flows and improve working capital efficiency in the upcoming quarters.

b) Secretarial Auditor

In terms of the provisions of Section 204 of the Companies Act, 2013 read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Board has appointed Dhirren R. Dave & Co., Practicing Company Secretaries, Surat, Gujarat to conduct the secretarial audit of the Company for the financial year 2024-25. The Secretarial Audit Report for the financial year 2024-25 is annexed as **Annexure 'A'** to the Director's Report.

As per regulation 24A of SEBI (LODR) regulation, 2015 as amended from time to time, your Company's unlisted material subsidiary viz. Starbigbloc Building Material Limited and Bigbloc Building Elements Private Limited have undertaken Secretarial Audit for the financial year 2024-25. Copy of Secretarial Audit Report of Starbigbloc Building Material Limited and Bigbloc Building Elements Private Limited are enclosed as **Annexure 'B'** and **Annexure 'C'** respectively. The Secretarial Audit Report of your Company and its unlisted material subsidiary Starbigbloc Building Material Limited and Bigbloc Building Elements Private Limited do not contain any qualification, reservation or adverse remark.

c) Cost Auditor

Your Company is not required to maintain cost records as specified by the Central Government under Section 148(1) of the Companies Act, 2013. The provision of cost audit does not apply to your Company.

19. INTERNAL FINANCIAL CONTROL SYSTEMS, ITS ADEQUACY AND RISK MANAGEMENT

Internal Financial Control and Risk Management are integral to the Company's strategy and for the achievement of the long-term goals. Company's success as an organisation depends on its ability to identify and leverage the opportunities while managing the risks. In the opinion of the Board, the Company has robust internal financial controls which are adequate and effective during the year under review.

Your Company has an effective internal control and risk-mitigation system, which is constantly assessed and strengthened with new/revised standard operating procedures. The Company's internal control system is strong and commensurate with its size, scale and complexities of operations.

Ms. Anjana Parwal, Chartered Accountant was the internal auditor of the Company for the FY 2024-25.

Business risks and mitigation plans are reviewed and the internal audit processes include evaluation of all critical and high risk areas. Critical functions are reviewed rigorously, and the reports are shared with the Management for timely corrective actions, if any. The major focus of internal audit is to review business risks, test and review controls, assess business processes besides benchmarking controls with best practices in the industry.

The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of the internal control systems and are also apprised of the internal audit findings and corrective actions. The Audit Committee suggests improvements and utilizes the reports generated from a Management Information System integral to the control mechanism. The Audit Committee and Risk Management Committee of the Board of Directors, Statutory Auditors and Business Heads are periodically apprised of the internal audit findings and corrective actions.

Pursuant to the requirement of LODR, the Company has formed Risk Management Policy to ensure appropriate risk management within its systems and culture. The Company operates in a competitive environment and is generally exposed to various risks at different times such as technological risks, business risks, operational risks, financial risks, etc. The Board of Directors of the Company periodically review the Risk Management Policy of the Company so that the Management can control the risk through properly defined network.

The Company has the Risk Management Committee which oversees on the Company's risks and is responsible for reviewing the effectiveness of the risk management plan or process. Risk management is embedded within the Company's operating framework and the Company has a well-defined, internal financial control structure. During the year under review, these controls were evaluated and no material weaknesses were observed in their design or operations.

The Company endeavours to continually sharpen its risk management systems and processes in line with a rapidly changing business environment. During the year under review, there were no risks which in the opinion of the Board threaten the existence of the Company. However, some of the risks which may pose challenges are set out in the Management Discussion and Analysis Report which forms part of this Annual Report.

Independent Auditor's Report

To,
 The Members of
BIGBLOC CONSTRUCTION LIMITED

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying standalone financial statements of **Bigbloc Construction Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
1	<p>Revenue from sale of goods</p> <p>Revenue is measured net of discounts, incentives, rebates etc. given to the customers on the Company's sales. The Company recognizes revenues when control of the goods is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. In determining the sales price, the Company considers the effects of rebates and discounts.</p> <p>The terms of sales arrangements, including the timing of transfer of control, the nature of discount and rebates arrangements and delivery specifications, create complexity and judgment in determining sales revenues and accordingly, it was determined to be a key audit matter in our audit of the standalone financial statements.</p>	<p>Principal Audit Procedures:</p> <p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> Considered the appropriateness of Company's revenue recognition policy and its compliance in terms of Ind AS 115 'Revenue from contracts with customers'; Assessed the design and tested the operating effectiveness of internal controls related to sales and related rebates and discounts; Performed sample tests of individual sales transaction and traced to sales invoices, sales orders and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales arrangements;

BASIS OF OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

OTHER INFORMATION

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's management and Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud and error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Independent Auditor's Report

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may be reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent Auditor's Report

Annexure "B" to the Independent Auditor's Report of Even date on the Financial Statements of Bigbloc Construction Limited for year ended on 31st March, 2025

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

OPINION

We have audited the internal financial controls over financial reporting of **Bigbloc Construction Limited** ("the Company") as of 31 March 2025 in conjunction with our audit of financial statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Commensurate to the size and nature of the business, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection

of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

For the year ended 31st March, 2025

1. CORPORATE INFORMATION

Bigbloc Construction Limited ('the company') is a public limited company domiciled in India, with its registered office situated at Office No. 908, 9th Floor, Rajhans Montessa, Dumas Road, Magdalla, Surat - 395007. The Company has been incorporated under the provisions of the Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and BSE Limited in India.

The company is primarily engaged in manufacture, sale and marketing of AAC Blocks.

2. BASIS OF PREPARATION

Statement of Compliance

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended, read with section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act.

The financial statements are approved for issue by the Companies Board of Directors on 30.05.2025.

Functional and presentation of currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (i.e., the "functional currency").

The financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.

Historical Cost Convention

The financial statements have been prepared on a historical cost basis except for following items which are measured on alternative basis on each reporting date.

Items Basis	Measurement
Equity Instruments at FVOCI	Fair Value
Net defined benefit (asset)/Liability	Present Value of Defined benefit

Use of significant accounting estimates, judgements and assumptions

The preparation of financial statements requires the management to make estimates and assumptions considered in reported amounts of assets and liabilities (including contingent

liabilities) and the reported income and expenses during the year. The management believes that estimates used in preparation of financial statements are prudent and reasonable. Future results could differ due to these estimates and the difference between actual results and the estimates are recognised in the periods in which these gets materialized.

Assumptions and estimation

Information about assumptions and estimation uncertainties that have significant risk of resulting in a material adjustment in the year ending 31st March 2025 is included in the following notes:

Note 20 – Valuation of deferred tax liability/assets;

Note 35 – Contingent liabilities;

Note 41 – Measurement of defined benefit obligations: key actuarial assumptions;

Note 4 – Useful life of the Property, Plant and Equipment;

Note 5 – Useful life of the Intangible assets.

3. MATERIAL ACCOUNTING POLICIES

3.1 Presentation and disclosure of financial statements

All assets and liabilities have been classified as current and non-current as per Company's normal operating cycle and other criteria set out in the division II of Schedule III of the Companies Act, 2013, for a Company whose financial statements are made in compliance with the Companies (India Accounting Standards) Rules, 2015. Deferred tax liabilities are classified as non-current liabilities.

Based on the nature of business and their realization in cash and cash equivalents, 12 months has been considered by the Company for the purpose of current/non-current classification of assets and liabilities.

3.2 Property, plant and equipment

i) Under the previous GAAP, property, plant and equipment were carried at historical cost less depreciation and impairment losses, if any. On transition to Ind AS, the Company has availed the optional exemption under Ind AS 101 and accordingly it has used the carrying value as at the date of transition i.e. 1st April 2016 as the deemed cost of the property, plant & equipment under Ind AS.

- ii) Subsequent to transition date, property, plant and equipment are stated at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. Cost of property, plant and equipment includes non-refundable taxes and duties, borrowing cost directly attributable to the qualifying asset and any directly attributable costs of bringing the asset to its working condition for its intended use.
- iii) Capital work-in-progress comprises of cost incurred on property, plant and equipment not yet ready for their intended use at the Balance Sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

3.3 Depreciation on property, plant and equipment

- a) Depreciation on property, plant and equipment (other than freehold land and capital work in progress) is provided on SLM over the useful life of the relevant assets net of residual value whose life is in consonance with the life mentioned in Schedule II of the Companies Act, 2013.
- b) In the case of assets purchased, sold or discarded during the year, depreciation on such assets is calculated on pro-rata basis from the date of such addition or as the case may be, upto the date on which such asset has been sold or discarded.
- c) Depreciation on addition has been provided from the date of putting the assets into use.

3.4 Investment properties

Investment properties are measured at cost, including transaction costs.

3.5 Intangible assets

- i) Under the previous GAAP, intangible Assets acquired separately are measured on initial recognition at cost. Following initial recognition intangible assets are carried at cost less any accumulated amortization. On transition to Ind AS, the Company has availed the optional exemption under Ind AS 101 and accordingly it has used carrying value as at the date of transition i.e. 1st April 2016 as the deemed cost of intangible assets under Ind AS.
- ii) Subsequent to transition date, Intangible Assets acquired separately are measured on initial recognition at cost. Following initial recognition intangible assets are carried at cost less any accumulated amortization. Intangible assets are recognised only if it is probable that the future economic benefits attributable to the asset will flow to the enterprise and the cost of asset can be measured reliably.

3.6 Inventories

Inventories are measured at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- i) **Raw Materials, Packing Materials & Stores & Spares:** Costs include cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Costs is determined based on FIFO Basis.
- ii) **Finished Goods and Work in Progress:** Costs include cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Costs is determined based on FIFO basis.

Disclosure regarding change on cost formula:

During the year, the Company changed its method of inventory valuation from the Weighted Average Method (WAM) to the First-In-First-Out (FIFO) method. The management believes that the FIFO method results in more relevant and reliable presentation of the cost of inventories and better reflects the current economic conditions affecting inventory turnover.

The change in accounting policy has been applied prospectively from April 1, 2024, as it was impracticable to determine the retrospective impact on prior periods due to the unavailability of detailed historical inventory records required to recalculate cost using the FIFO method.

Consequently, the carrying amounts of inventories in the comparative period have not been restated. The impact of the change on the current year's financial statements has been appropriately recognized. The management is further of view that impact of such change in earlier inventory valuation is not material.

3.7 Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with bank and other short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

3.8 Statement of cash flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash generated from/(used) in operating, investing and financing activities of the Company are segregated.

3.9 Trade receivables

Trade receivables are carried at their transaction price, as they do not contain a significant financing component and are repayable within a short credit period, generally not exceeding 90 days.

The Company has assessed that the time value of money impact is immaterial and accordingly has not applied the effective interest rate method. Trade receivables are classified and measured at amortized cost in accordance with Ind AS 109 – Financial Instruments. The Company uses the simplified approach for impairment assessment, as permitted under Ind AS 109, whereby lifetime expected credit losses are recognized based on historical loss experience and forward-looking information.

3.10 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. These are initially recognized at transaction value and are measured subsequently at amortized cost. However, as the time between recognition and settlement is short and the impact of discounting is immaterial, the Company has not applied the effective interest rate method.

3.11 Investments and other financial assets

Classification and measurement:

The Company classifies its financial assets in the following measurement categories:

- i) Those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss).
- ii) Those measured at amortised cost.
- iii) Those measured at carrying cost for equity instruments of subsidiary companies and joint venture company. The classification depends on the business model of the Company for managing financial assets and the contractual terms of the cash flows.

(i) Financial assets at amortised cost

A financial asset shall be measured at amortised cost if both of the following conditions are met:

- (a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and

- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, less any impairment loss.

Trade receivables, security deposits, cash and cash equivalents, Loans given, employee and other advances and eligible current and non-current assets are measured at Amortized Cost.

(ii) Equity instruments at FVTOCI

All equity instruments are measured at fair value. The Company subsequently measures all investments in equity instruments other than subsidiary, joint venture and associate companies/entities and joint operation at fair value. The Company has elected to present fair value gains and losses on such equity investments in other comprehensive income and there is no subsequent reclassification of these fair value gains and losses to the Standalone Statement of Profit and Loss.

Investments in subsidiary companies, associate companies and joint venture company are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiary companies, associate companies and joint venture company, the difference between net disposal proceeds and the carrying amounts are recognised in the Standalone Statement of Profit and Loss.

3.12 Borrowings

Borrowings are initially recognized at fair value, net of transaction costs, and are subsequently measured at amortized cost using the effective interest rate method.

3.13 Revenue from contract with customer

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Sale of goods and rendering of services

Revenue from the sale of products is recognised at the point in time when control is transferred to the customer. Revenue is measured based on the transaction price, which is the consideration, net of customer incentives, discounts, variable considerations, payments made to customers, other similar charges, as specified in the contract with the customer. Additionally, revenue excludes taxes collected from customers, which are subsequently remitted to governmental authorities.

Service income is recognised on rendering of services based on the agreements/arrangements with the concerned parties.

The Company has determined that the revenues as disclosed in Note 28 are disaggregated into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability.

Other Income

Interest income in respect to all the Debt Instruments and deposits which are measured at cost or at fair value through other comprehensive income, is recorded using effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. Interest Income is included in Other Income in the statement of profit and loss.

3.14 Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. As at the Balance Sheet date, foreign currency monetary assets and liabilities are translated at closing exchange rate. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss.

Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

3.15 Employee Benefits

(i) Short-term employee benefits

Short Term employee benefits payable within 12 months of service such as salaries, wages, bonus, ex-gratia, medical benefits, etc, are recognised in the year in which the employees render the related service and are presented as current employee benefit obligations. Termination benefits are recognised as an expense as and when incurred.

(ii) Post-employment obligations

(a) Defined benefit plan

(A) Gratuity

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability recognised in the Standalone Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. There is no plan assets created by the company against this defined benefit obligation.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows with reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation

The interest cost is calculated by applying the discount rate at the beginning of the period to the balance of the defined benefit obligation. This cost is included in employee benefit expense in the Standalone Statement of Profit and Loss.

Reasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in other comprehensive income. They are included in retained earnings in the Statement of changes in equity and in the Standalone Balance Sheet.

The defined benefit obligation was not recognized until current year. Hence, obligation pertaining to preceding year has been recognized in Retained earnings as Prior Period item in Statement of Changes in Equity.

Notes forming part of Standalone Financial Statements

For the year ended 31st March, 2025

(b) Defined Contribution plan

The contributions to defined contribution schemes such as contribution to provident fund and employees state insurance scheme are charged as an expense to the Standalone Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as defined contribution schemes as the Company has no further defined obligations beyond the monthly contributions.

3.16 Borrowing Cost

Borrowing Costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of Cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged the Statement of Profit & Loss.

3.17 Taxes on income

Tax expenses for the year comprises of current tax, deferred tax charge or credit and adjustments of taxes for earlier years. In respect of amounts adjusted outside profit or loss (i.e. in other comprehensive income or equity), the corresponding tax effect, if any, is also adjusted outside profit or loss.

Provision for current tax is made as per the provisions of Income Tax Act, 1961.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, and deferred tax assets are recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

3.18 Goods & Services Tax (GST)

GST credit received on purchases is reduced from respective item of purchases. GST on Sales is credited to Payable account and differential amount, if any, is paid. Thus, the company has followed exclusive method of accounting whereby purchases, sales and stock is shown exclusive of GST and accounted for in separate Account.

3.19 Provisions and contingent liabilities

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources.

Equity Security includes only shares of Co-operative bank. The equity instruments of Co-operative Bank is not listed on stock exchange and are not tradable security. Further, share have been purchased due to banking relation with said bank and as per Co-operative bank policy only face value of shares is paid back at time of closure of relationship. Hence, equity security with Co-operative bank is taken at face value only as no amount above it can be realized by the company.

B. Financial risk management:

The Group has exposure to the following risks arising from financial instruments:

- (i) credit risk
- (ii) liquidity risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework.

The board of directors has established the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Company, through its management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The financial risk disclosures presented are only illustrative and reflect the facts and circumstances of the Group. In particular, Ind AS 107 requires the disclosure of summary quantitative data about an entity's risk exposures based on information provided internally to an entity's key management personnel, although certain minimum disclosures are also required to the extent that they are not otherwise covered by the disclosures made under the 'management approach' above.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investments in debt securities.

The carrying amounts of financial assets and contract assets represent the maximum credit exposure.

Impairment losses on financial assets and contract assets recognised in profit or loss were NIL.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's objective when managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

50. ADDITIONAL REGULATORY INFORMATION

(i) The Company does not have any charges or satisfaction of charges which is yet to be registered with Registrar of Companies beyond the statutory period in respect of loans taken/repaid during the year.

(ii) Borrowings from banks or financial institutions on the basis of security of current assets

The material differences in amount of quarterly statement/return filed with Bank and as per books of accounts as given below:

(Amount in ₹ Lakhs)

Quarter	Name of Bank	Particulars of Securities Provided	Amount as per Books of accounts	Amount reported in Quarterly statement/return	Amount of Difference	Reasons for Material difference
December, 2024	AXIS Bank Ltd.	Inventory	843.85	838.19	(5.66)	Note No. 1 below
December, 2024	AXIS Bank Ltd.	Trade Payable for Goods	229.42	234.25	4.83	Note No. 1 below
March, 2025	AXIS Bank Ltd.	Inventory	593.10	591.67	(1.43)	Note No. 1 below
March, 2025	AXIS Bank Ltd.	Trade Payable for Goods	223.03	208.55	(14.47)	Note No. 1 below

Note on Explanation for difference in amount as per Books of accounts and amount reported in quarterly statement/return filed with bank:

- The difference between amounts as per books of accounts and amounts reported in quarterly statement filed with bank is because stock statements are filed with bank before updation/finalization of accounts for quarterly limited review/audit of the accounts. Hence, debtors, creditors and stock are reported on adhoc basis with bank without complete updation of books of accounts.

Independent Auditor's Report

To,
 The Members of
BIGBLOC CONSTRUCTION LIMITED

Report on the Consolidated Financial Statements

OPINION

We have audited the accompanying Consolidated financial statements of **Bigbloc Construction Limited** ('the Holding Company') and its subsidiaries (collectively referred to as "the Company" or "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss including other comprehensive income, the Consolidated Cash Flow Statement, the consolidated Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

as at March 31, 2025 and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

BASIS OF OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates entities in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by ICAI and the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Sr. No.	Key Audit Matter	How our audit addressed the key audit matter
1	<p>Revenue from sale of goods</p> <p>Revenue is measured net of discounts, incentives, rebates etc. given to the customers on the Group's sales. The Group recognizes revenues when control of the goods is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods. In determining the sales price, the Group considers the effects of rebates and discounts.</p> <p>The terms of sales arrangements, including the timing of transfer of control, the nature of discount and rebates arrangements and delivery specifications, create complexity and judgment in determining sales revenues and accordingly, it was determined to be a key audit matter in our audit of the standalone financial statements.</p>	<p>Principal Audit Procedures:</p> <p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> Considered the appropriateness of Group's revenue recognition policy and its compliance in terms of Ind AS 115 'Revenue from contracts with customers'; Assessed the design and tested the operating effectiveness of internal controls related to sales and related rebates and discounts; Performed sample tests of individual sales transaction and traced to sales invoices, sales orders and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales arrangements;

OTHER INFORMATION

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's management and Board of Directors are responsible for the preparation of the consolidated financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates entities is responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's and Board of Directors' of the Holding Company use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group (Holding company and subsidiaries) to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/"CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information

and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiary company included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are following qualifications or adverse remarks in these CARO Reports:

Sr. No.	Name	CIN	Holding Company/ Subsidiary/ Associate/ Joint Venture	Clause Number of CARO Report which is qualified or adverse
1	Bigbloc Construction Limited	L45200GJ2015PLC083577	Holding Company	Clause (ii) (b); (vii) (a); (ix) (d) and (xvii)

Based on our examination, which included test checks and that performed by the respective auditors of the subsidiaries, which are companies incorporated in India whose financial statements have been audited under the Act, the Company and its subsidiaries have used accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and the respective auditors of above referred subsidiaries did not come across any

instance of the audit trail feature being tampered with and the audit trail has been preserved by the Group as per the statutory requirements for record retention.

However, as per audit report of one of subsidiary Company viz. Siam Cement Bigbloc Construction Technologies Private Limited, the audit trail feature (edit log) was not enabled by the said company in preceding year and audit trail has not been retained by the said company in respect of preceding year.

Independent Auditor's Report

Annexure "A" to the Independent Auditor's Report of Even date on the Consolidated Financial Statements of Bigbloc Construction Limited for year ended on 31st March, 2025

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

OPINION

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2025, we have audited the internal financial controls over financial reporting of Bigbloc Construction Limited ("the Company" or "the Group") and its subsidiary company which is the company incorporated in India, as of 31st March, 2025.

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its subsidiaries have maintained in all material respects, adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these Consolidated Financial Statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Respective Board of Directors of the Holding Company and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section

143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Commensurate to the size and nature of the business, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

The company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements

due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1. CORPORATE INFORMATION

Bigbloc Construction Limited ('the company') is a public limited company domiciled in India, with its registered office situated at Office No. 908, 9th Floor, Rajhans Montessa, Dumas Road, Magdalla, Surat - 395007. The Company has been incorporated under the provisions of the Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and BSE Limited in India.

The company is primarily engaged in manufacture, sale and marketing of AAC Blocks.

2. BASIS OF PREPARATION

Statement of Compliance

The Consolidated financial statements of the Company have been prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended, read with section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act.

The financial statements are approved for issue by the Companies Board of Directors on 30.05.2025.

Functional and presentation of currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (i.e., the "functional currency").

The financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.

Basis of measurement

The financial statements have been prepared on a historical cost basis except for following items which are measured on alternative basis on each reporting date.

Items Basis	Measurement
Equity Instruments at FVOCI	Fair Value
Net defined benefit (asset)/Liability	Present Value of Defined benefit obligation

Use of significant accounting estimates, judgements and assumptions

The preparation of financial statements requires the management to make estimates and assumptions considered in reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that

estimates used in preparation of financial statements are prudent and reasonable. Future results could differ due to these estimates and the difference between actual results and the estimates are recognised in the periods in which these gets materialized.

3. MATERIAL ACCOUNTING POLICIES

3.1 Principles of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31st March 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidated Financial Statements

3.2 Consolidation procedure:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements.

Ind AS - 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group's investment in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

3.3 Goodwill/Capital Reserve on consolidation:

The excess of cost to the Parent company of its investment in Subsidiary Companies and Associate Companies over the Parent Company's portion of equity, at the date on which investment in Subsidiaries and Associate Companies is made, is recognized as Goodwill in the Consolidated Financial Statements.

When the cost to the Parent Company is less than the Parent Company's portion of equity, the difference is recognized in the financial statements as Capital Reserve. After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

3.4 Other Material Accounting Policies

These are set out under "Material Accounting Policies" as given in separate financial statements of Parent and subsidiary companies.

B. Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- (i) credit risk
- (ii) liquidity risk

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the risk management framework.

The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The financial risk disclosures presented are only illustrative and reflect the facts and circumstances of the Group. In particular, Ind AS 107 requires the disclosure of summary quantitative data about an entity's risk exposures based on information provided internally to an entity's key management personnel, although certain minimum disclosures are also required to the extent that they are not otherwise covered by the disclosures made under the 'management approach' above.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, loans and investments in debt securities.

The carrying amounts of financial assets and contract assets represent the maximum credit exposure.

Impairment losses on financial assets and contract assets recognised in profit or loss were NIL.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's objective when managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

March, 2025	Saraswat Co-operative Bank	Trade Receivables	1571.35	1234.20	(337.16)	Note No. 1 below

Note on Explanation for difference in amount as per Books of accounts and amount reported in quarterly statement/return filed with bank:

- The difference between amounts as per books of accounts and amounts reported in quarterly statement filed with bank is because stock statements are filed with bank before updation/finalization of accounts for quarterly limited review/audit of the accounts. Hence, debtors, creditors and stock are reported on adhoc basis with bank without complete updation of books of accounts.
