Commentating on the company's performance, **Mr Sanjay Chamria, Vice Chairman and Managing Director, Magma Fincorp Limited** said, "I feel extremely happy to share that Financial Year 2018 has been an excellent year for the Company. We are focused on financing to the bottom of the pyramid as our ABF, LAP and SME businesses provide means of earning to the rural area. While our top line grew significantly on all businesses, the collections performance was extremely heartening. The combined efforts of the team led to a great Q4 and I am confident we will be able to maintain the momentum and accelerate in FY19.

The Government is focused on uplifting the rural economy and strengthening of the agriculture sector, which coupled with the IMD's prediction of normal rainfall this year is expected to boost rural economy in FY 2019. Envisaging this vast opportunity and to make ourselves growth ready, we raised additional capital of Rs 500 crs at the beginning of the Financial Year 2019 through Qualified Institutional Placement(QIP). The QIP received overwhelming response from many renowned and marquee institutional investors. We believe that the long term trends during next few years, due to formalization of the economy and democratization of access to credit will present a tremendous growth opportunity for financial services. With rural reach, our customer centric approach, and stronger capital base, we are uniquely positioned amongst NBFCs to leverage on this opportunity." Added Mr. Chamria.
