Message from Chairman Emeritus

Mr. Ashwin Parekh, Chairman Emeritus

It is a source of great gratification to me to look back on our evolution through the years, by which we have attained our present global standing. For me, the greatest satisfaction lies in the fact that not once did we lose our focus as a Company, even in the face of difficult times and serious challenges.

Our focus has been in being innovative and inventive - in design, product development, manufacturing, and even marketing. Our spirit of adventure has paid off handsomely. Today, our position is secure and sustainable, but it is important not to become complacent. There are great opportunities ahead for both organic and inorganic growth, and in the capable hands of Chirag Parekh, I have every confidence that they will be fully realized.

Chairman & Managing Director's Message

“ Our acquisition of the UK based kitchen products distribution company, is the first major step in our vision of making Acrysil a truly global company. ”

Mr. Chirag Parekh
Chairman & Managing Director

Dear Shareholders,

Once again, I am happy to report growth accomplished, and growth ahead, in every significant dimension. We have introduced new models, and launched new categories, such as quartz washbasins. We have penetrated into new global markets, such as Finland, Australia, New Zealand, Iran and Jordan. We have installed significantly high additional capacities. We have new technologies at our command, and the fruits of intense research and product development. We have won globally coveted awards, such as the Red Dot and IF design awards. The list goes on.

Beyond all this detail, the overriding story is that we are poised to take the Company to its next level. In this endeavour, our key strength will be our people. We are putting in place talent of the highest calibre – such as, the exceptional people in the team now building our domestic appliances brand. We are giving them the tools and systems they need to be most productive and efficient, such as SAP implementation. We are creating a talent pool and a knowledge base that will elevate the Company, and sustain its growth trajectory.

That's our long-term vision for the future. But first, let's quickly review some of the milestones that we passed in 2014-15.

In terms of aesthetics, we are proud of the two new colours that we created for composite quartz kitchen sinks, named Metallico and Magnolia. And we also now have gold and silver for wash basins.

Our two plants have a combined capacity of 325000 granite kitchen sinks annually, and the floor area has been expanded by 11000 sq ft. We have also added 4000 sq ft to the storage area for finished goods.

Most importantly, we are always innovating and experimenting, and finding new avenues for growth. For example, we are trying out new combinations of ceramic and granite, which may prove to be a winner, a further growth engine. Such constant questing is a sure sign of robust health and vitality.

During the year, we acquired 74% stake in Homestyle Products Ltd., a well established UK based kitchen products distribution company. This is the first major step in our vision of making Acrysil a truly global company. This acquisition would provide us with a ready base in the premium UK market with access to a large network of distributors and retailers.

Obviously we're talking about substantial investment, driven by our confidence - in fact, our certainty - that the years ahead will bring

substantial sustainable growth.

We are already a very serious player in the kitchen segment, and are making a strong push into the bathroom domain. Our public perception has been enhanced through an aggressive presence on TV, and in social media.

Our technology and talent resources are second to none. We have time and again demonstrated our ability to bring winning products to market. Nothing is going to stop us from growing by leaps and bounds.

We have kept up the tempo of our growth at a CAGR of approximately 25% over the past four years. We continued to find acceptance in more and more markets at home and overseas. Looking ahead, we are targeting growth at an accelerated pace and with the initiatives in place so far it would be achievable. I have every confidence that we will triumph in this and more.

I thank you all for supporting and encouraging us in our journey. I would like to express my gratitude towards the Board of Directors whose support and guidance have been invaluable on our path to progress.

Thank you.

The high-end is our high endeavour

Acrsilyl is the very definition of ultra-premium style and function in kitchen components. Every product is sophisticated in styling, outstanding in operation, matchless in materials, and dependable in durability. And that's how it's known both domestically and in over 40 countries worldwide.

It's a reputation that was born in 1987, when we first began designing and manufacturing kitchen sinks of composite quartz and granite, under the 'Carysilyl' brand.

Since then, we've extended the

brand into a range of kitchen fittings, accessories and appliances – including chimneys, faucets, waste disposers, and hobs / cook tops. We've innovated with new materials, such as kitchen sinks first of hybrid steel and granite, and later entirely of stainless steel. And we've invaded new territory - namely bathrooms - beginning with washbasin bowls, and already poised to launch strikingly stylish WC seats and other fittings.

Distinguished by design, produced with precision

In most kitchens, the sink is a mundane utility, put there to serve a useful function. But if it's a Carysil sink, it's also there to catch one's eye, and impart a delightfully deluxe air to its surroundings. It combines the most contemporary international design values with timeless elegance and glamour. And it never ceases to surprise with new looks and functionalities, as in the 12 new composite quartz models we launched last year.

That's because creative styling is an ongoing activity for us. We're constantly coming up with novelties in finishes, shapes and sizes.

New contours like the numerous wash basin bowls we developed just last year.

New colours like Metallico and Magnolia for kitchen sinks, also introduced last year, along with Sani Q, a smooth new composite material used for sanitary wash basins, as well as 5 models of tiles.

And steel insert moulding, an innovative development in granite sink manufacturing.

And to do justice to both our design and performance standards, we have world-class manufacturing facilities with distinctive technologies. More

importantly, upgradation of technology is an ongoing process at Acrysil. We have introduced sophisticated equipment in our manufacturing line incorporating such new generation technology like robotics. We also have high degree of automation in our production and packaging lines. All to ensure hairline precision in manufacturing and flawless packaging.

This, and so much more, in our ceaseless pursuit of excellent design, excellently executed.

Products that wow the world...

In more than 40 countries, in the most challenging markets, Acrysil's products - under the Carysil brand as well as as third party OEMs - have carved out a premium niche. Discerning clientele succumb to their uniquely superb form and function. Our major markets are USA, France, Russia, Germany, Canada, China, UK - and, most recently, we have added Tunisia, Romania, Finland, Australia and New Zealand.

Acrysil recently acquired Homestyle Products Ltd., a well established kitchen products distribution company in the UK. Homestyle focuses on importing kitchen sinks from manufacturers and supplying to the UK market and this acquisition would set the stage for a major entry of Acrysil products in the premium UK market.

In all these demanding overseas markets, Acrysil products command pride of place as the choice of discerning buyers with an eye for craftsmanship in manufacturing and elegance in design.

...and delight domestic markets.

Acrysil is top-of-mind in India's fast-growing affluent strata... customers with both the inclination and the means to indulge their refined tastes, and their penchant for outstanding quality.

Backed by a strong presence in both TV and social media, Acrysil caters to them through nearly 800 dealers countrywide, and 58 major galleries in India's major metros and towns. Many more gallery openings are planned in the coming years, as well as numerous new launches of appliances and sanitaryware products, among others.

Not just home-owners, but also architects, interior designers, and fabricators of complete modular kitchens who have exceptional regard for Acrysil. They constitute the select few in our niche premium markets, whose numbers grow every day.

We constantly introduce new models in our product lines. This year, we launched 3D tiles for the first time in India and soon, we would be launching our range of 3D Wash Basins.

We grow right alongside, in the range and variety of our offerings, and in the high values and standards that we uphold.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economy Overview

There was a marked slowdown in global growth during the year under review. Emerging markets, especially China, were characterized by a sharp fall in growth rates. Europe and Japan continued to be under pressure all through the year, while US showed tepid signs of improvement. As a result, the year was increasingly challenging for the global economy on account of greater volatility and uncertainty. Complex forces and many country and region specific factors that affected global activity in 2014 are still shaping the medium and long-term outlook.

Growth is projected to be stronger in 2015 relative to 2014 in advanced economies, but weaker in emerging markets, reflecting more subdued prospects for some large emerging market economies. Global growth is forecasted at 3.5% in 2015 and 3.8% in 2016, with uneven prospects across the main countries and regions of the world.

The rapid decline in oil prices, the appreciation of the US Dollar and the weakening of most other currencies, especially the Euro are just a few examples of the economic factors at play. The decline in oil prices could boost activity more than expected. Geopolitical tensions continue to pose threats and risk of disruptive shifts in asset prices remain relevant. In some advanced economies, protracted low inflation or deflation also pose risks to activity.

With the formation of new and stable government in India, the economic growth is likely to get impetus from several policy reforms introduced and likely to be introduced including FDI reforms, GST, Land Acquisition Bill, amongst others. Expectations have been built on the fast tracking of reforms and it is expected to boost Indian and foreign investment in various sectors. The drop in oil prices has significantly reduced the current account fiscal deficit and inflation; and have had a positive impact on the economy.

The Indian economy is poised to grow at a faster rate with the improvement in outlook. The economy grew by 7.2% in FY15 and is expected to grow by 7.5% during the current year. In its recent India development update, the World Bank has pegged India's economic growth at 7.9% for FY17.

Industry Overview

Kitchen Sinks Industry

Kitchen sinks are rapidly transforming from being a mere plumbing fixture to a lifestyle accessory. Kitchens across the country are getting more modern, stylish and up market; and upwardly mobile consumers are demanding top of the line sinks that are not just utilitarian but also made from more durable and premium materials like composite quartz (generally referred to as granite sinks). The demand from the commercial and hospitality sector has also increased at a rapid rate.

Gobally, the largest market for premium kitchen sinks is the US where the product is classified under 'plumbing fixtures and fitting' is estimated to be worth US\$ 9 bn and expected to reach US\$ 12 bn by FY17. The US is also the largest export market for Indian kitchen sink manufacturers who export both stainless steel as well as ceramic and granite sinks to that country. Among all types,

export of granite (composite quartz) sinks has witnessed the highest growth.

The other major market for Indian granite sinks is the EU region with Germany, UK, France, Sweden and Italy being the top markets, accounting for almost one third of the total quartz sinks export from this country. (Source: Dun & Bradstreet)

Granite Sinks

The Indian sinks industry is estimated to be worth ₹ 1800 crores in CY 2014 (Dun & Bradstreet industry report). The report estimates that the total market for sinks will reach approx. ₹ 3100 crores in the next couple of years. The market has a mix of large number of both organized and unorganized players and the demand comes from both residential and commercial segments.

Stainless Steel kitchen sinks are the most popular form while granite sink demand is growing with increasing product awareness and aggressive marketing by companies who portray the product as a lifestyle accessory rather than a mere kitchen fixture.

The adoption of granite sinks in the domestic market has been slow primarily on account of premium pricing and lack of product awareness. Premium pricing has restricted the appeal to high networth households and in this segment as well the penetration of granite sinks is low due to lack of product awareness.

Exports account for the major market for Indian granite sink manufacturers and the export market has increased by 23% per annum for the past 5 years (FY10 to FY15).

Acrysil is among the select few manufacturers in the world that manufacture granite sinks of the highest international standards with state-of-the-art, closely guarded, technology. It is the dominant Indian player in the global granite sinks industry.

Stainless Steel Sinks

Stainless Steel sinks are the most popular form of sinks in the country and the market is characterized with a multitude of players including large, small, multinational, regional, local as well as unorganized sector. The rapid growth and demand has led to hundreds of regional brands springing up across the country and competing with major national brands.

Seeing a significant opportunity here, Acrysil ventured into the stainless steel sinks segment, targeting the premium consumers in India and abroad. The company's strategy has been extremely successful and it has been able to make a significant dent in both domestic as well as international markets. This has been the result of significant investments in R&D and implementation of contemporary new designs and introduction of innovative new products like stainless steel sinks with micro radius technology.

Kitchen Appliances

The premium domestic kitchen appliances demand is largely catered to by multinational companies. The bulk of the demand is from urban markets and the competition is highly fragmented with no brand enjoying clear dominance. The fragmented nature of the sector also makes it challenging to estimate the total market size. The market for modular kitchen in India is estimated to grow at a

rate exceeding 30% as more home owners demand kitchen units equipped with modern amenities and appliances thereby giving a tremendous boost to the kitchen appliances segment.

This segment is evolving rapidly and Acrysil has made a foray and is optimistic of becoming a very significant player in this segment. Acrysil's entry into this segment has been most encouraging and with its capabilities in innovation, research and development and design, the company is aiming at becoming a major player in this segment.

Operational Review

Granite Sinks

Acrysil has been steadily increasing its installed capacity of granite sinks to meet the growing demand and to benefit from economies of scale. Its granite sinks capacity has multiplied several times from 30,000 sinks per annum in FY93 to 275,000 sinks per annum in FY14 and further to 325,000 per annum in FY15.

The new facilities incorporate expanded floor area as well as state-of-the-art machinery including sophisticated equipment for machining of sinks, conversion of dry cutting machining to wet cutting machining. Washing automation line for kitchen sinks (wash before packaging) and automated packing line.

During the year the company introduced new models. The Company also developed two new colours as per the requirements of its export customers.

Acrysil's quartz sinks with steel moulding, a revolutionary product incorporating steel moulding in granite for the first time, as also started making waves as the product is introduced in different markets in the world.

During the year the company extended its global footprint to several new markets including countries like Finland, Australia, New Zealand, Iran, Jordan, Tunisia and Romania. The major growth in exports came from the North American market and with two new products developed for customers in Middle East, UK, and Scandinavian countries, Acrysil looks forward to accelerating its growth in these markets.

The total sales of sinks increased by 7.43% from 211350 Nos. in FY14 to 227050 Nos. in FY15 boosted up a strong offtake in both

export and domestic markets. The total granite sinks exports during FY15 stood at ₹84.82 crore while domestic sales accounted for ₹14.56 crores.

Stainless Steel Sinks

Unlike most stainless steel sink manufacturers, Acrysil caters to high-end premium segment that is willing to pay premium for superior quality, designing and finish.

With its innovative products and new technology like micro radius and square sinks, it should be able to make a dent in this market as well. The acquisition of a distribution company in the UK which outsources stainless steel sinks and sells to the top customers in that country will also give a major boost to export of stainless steel sinks.

During the year under review, the domestic sales of stainless steel sinks increased by 23.45% from 21229 Nos. in FY14 to 26207 Nos. in FY15.

Kitchen Appliances

Acrysil's entry in the kitchen appliances market has been impressive and its diversified range include faucets, hoods and chimneys, hobs and cook tops, ovens and microwave ovens, food waste disposers and wine chillers has found growing acceptance from the discerning Indian consumers. With its foray into this segment, Acrysil is the only company that is poised to become a significant player in the overall kitchen segment.

During the year Acrysil expanded the appliances range and started manufacturing and assembling hoods and hobs inhouse which will give the Company a great edge on not just price but also on quality and delivery fronts.

To its ever growing range of kitchen appliances, the company is adding further innovative products like barbeque grillers.

The total sales of kitchen appliances in the domestic market in FY15 stood at ₹ 6.79 crores while exports which has just commenced stood at ₹ 46 lakhs.

To expand its bathroom product line further, Acrysil has entered the segment of tiles. Unlike conventional tiles, these tiles are made from Sani-Q and have built-in strength at both surface level and its core. Acrysil has introduced 3D quartz tiles for the first time in the country and will shortly launch the whole range of bathroom products like toilets, WCs, etc.

Acrysil's Sternhagen bathroom suites will take bathroom designs to a new level and to showcase this, the company plans to open showrooms – 'Sternhagen Suite', which will showcase the Sternhagen range of products and serve as an experience centre for prospective customers.

In line with that vision, the company plans to open 'Sternhagen Experience Centres' showcasing Sternhagen bathroom products in many parts of the country.

Acquisition of UK Kitchen Sinks and Tap Company

During the year Acrysil acquired 74% stake in the UK based kitchen sinks distribution company Homestyle Products Ltd. The acquisition was made by Acrysil UK Ltd., Acrysil's wholly owned subsidiary in the UK.

Homestyle Products Ltd. is in the business of importing and marketing kitchen sinks primarily in the UK market and deals in faucets and allied products to provide holistic solutions to its customers. This company had a topline of GBP 2.35 million for the year ended 30th June, 2014.

This investment marks the entry of Acrysil into the premium U.K. market for kitchen sinks and accessories.

The acquisition will open up the UK market for Acrysil in a big way not only for its own line of products but also products that it can outsource from quality third party vendors and supply to the UK market.

Brand Building and Marketing

Acrysil lays great importance on brand building and marketing activities and investment in these activities gathered pace during the year.

At Acrysil, brands are created differently. The process begins with the understanding of customer needs and aspiration, their spending power and the aesthetics of the product. These understandings are then connected with the Company's core beliefs to arrive at the unique attributes of the Carysil brand.

The Carysil brand is exemplary, not just when it comes to functional fulfillment, they are designed to deliver much more.

Similarly, the Sternhagen brand for Acrysil's bathroom products are unique in many respects. Not only our Sternhagen products extremely durable as they are made out of high strength composite quartz but also incorporate technology and designs that take the whole bathroom experience to a new level.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR YEAR ENDED 31st MARCH, 2015**SIGNIFICANT ACCOUNTING POLICIES****BASIS OF PRESENTATION OF FINANCIAL STATEMENTS**

The consolidated financial statements relate to Acrysil Limited (“the Company”) and its subsidiaries (collectively referred to as “the Acrysil Group”).

The Financial Statements have been prepared in accordance with the recognition and measurement principles laid down in the Accounting Standards specified under section 133 of the Companies Act 2013 read with Rule 7 of the Companies (Accounts) Rules 2014 and other accounting principles generally accepted in India and are based on historical cost convention on an accrual basis.

The financial statements of the subsidiaries used in the consolidation are drawn up to the same reporting date as that of the parent company, i.e. year ended 31st March 2015.

The consolidated financial statements present the consolidated accounts of the Company along with its following subsidiaries:

		Proportion of Ownership Interest as at 31st March 2015
1	Acrysil Steel Limited	93.84%
2	Sternhagen Bath Private Limited	84.90%
3	Acrysil Appliances Limited	100.00%
4	Acrysil GmbH, Germany	100.00%
5	Acrysil UK Limited - United Kingdom	100.00%
6	Home Style Products Limited - UK (a step-down subsidiary)	74.00%

PRINCIPLES OF CONSOLIDATION

The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of the assets, liabilities, income and expenses, after fully eliminating there from intra-group balances and intra-group transactions as per Accounting Standard (AS) - 21 “Consolidated Financial Statements”. Intra group balances and intra group transactions and unrealized profits are eliminated in full.

The financial statements of the Company and its subsidiary companies have been consolidated using uniform account policies for like transactions and other events in similar circumstances.

The difference between the cost of investment in the subsidiaries, and the Company’s share of net assets at the time of acquisition of share in the subsidiaries is recognized in the financial statement as Goodwill. Minority Interest in the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately from liabilities and equity of the Company’s shareholders.

Minority interest in the net assets of consolidated subsidiaries consists of:

- The amount of equity attributable to minority at the date on which investment in a subsidiary is made; and
- The minority share of movements in equity since the date parent subsidiary relationship came into existence.

Minority interest’s share of net profit/(loss) for the year of consolidated subsidiaries is identified and adjusted against the profit after tax of the Acrysil Group.

The Company has disclosed only such policies and notes from the individual financial statements, which fairly present the needed disclosures. Lack of homogeneity and other similar considerations made it desirable to exclude some of them, which in the opinion of the management, could be better viewed, when referred from the individual financial statements.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.
