The financial statements have been prepared under historical cost convention and on accrual basis. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year except for change in the accounting policy for depreciation in respect of tangible assets other than factory building and plant and machinery as mentioned in note no 10.

(b) Uses of estimates

The presentation of financial statements in conformity with the generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may diverge from these estimates.

The above benefits are classified as 'Defined contribution schemes' as the company has no further defined obligations beyond the monthly contributions.
2. **Defined Benefit Plan :** Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Past services are recognised on a straight line basis over the average period until the amended benefits become vested. Actuarial gain and losses are recognised immediately in the statement of profit and loss account as income or expense. Intangible assets are amortized over the useful life of the asset.

(p) Impairment of assets

In accordance with Accounting Standard (AS-28) on impairment of assets, at each balance sheet date, the management reviews the carrying amount of assets in each cash generating unit to determine whether there is any indication that those assets were impaired, if any such indication exists, the recoverable amount of the asset is estimated in order to determine: i. 31) The company has unabsorbed depreciation and carried forward loss under income tax laws. Hence deferred tax assets have not been recognised as there is no virtual certainty supported by convincing evidence that there will be sufficient future taxable income against which such deferred tax assets can be realised.

32) During the current year, the Company has revised its accounting policy in respect of depreciation method on tangible assets, other than factory building and plant and machinery, from 'written down value method' to 'straight line method' over the expected useful life of the assets. The management is of the opinion that this change in accounting policy would result in a more appropriate presentation of the financial statements. As a result of this change, depreciation has been calculated retrospectively on straight line method and accordingly the Company has recorded reversal of depreciation expense amounting to ` 2,63,04,366 /- pertaining to previous years in the current year's statement of profit & loss (also refer note no 10).

The Company has also revised the estimate useful life of assets, except plant and machinery, as prescribed in schedule II of the Companies Act, 2013. The carrying value of assets where the remaining useful life was determined to be nil as on April 1, 2014 has been fully depreciated during the year and an amount of ` 2,66,95,100/- has been adjusted against the opening balance of profit and loss account in the balance sheet under reserves and surplus.

Consequent to the above changes, the depreciation expense in the statement of profit and loss for the year is lower by ` 85,87,580/- (excluding depreciation written back in respect of previous year).

33) Discontinuing operations

During the year, pursuant to the agreement with Kopran Research Laboratories Limited ("the Subsidiary Company") on 25th March, 2015, the Company has transferred its Mahad Undertaking ('Active Pharmaceutical Ingredients business'), which is a part of pharmaceutical segment, to the subsidiary company on a slump sale basis for a consideration of ` 110 Crores on closing date 30th March, 2015.

33) Disclosure as per Accounting Standard 18 (AS-18) "Related Party Disclosure" issued by the Institute of Chartered Accountants of India

i) Key management personnel

Shri Ajit Jain - Director and Chief Operating Officer

ii) The company has entered into transactions with related parties as listed below during the period under consideration. Full disclosure has been made and the board considers such transactions to be in normal course of business and at rates agreed between the parties. Details of transactions, with related parties are as follows :

Particulars	Year ended 31st March, 2015	Year ended 31st March, 2014
Key Management Personnel :		
Remuneration paid to personnels	1,77,19,767	86,97,360

- 34) In the opinion of the Board, current assets and loans and advances are approximately of the value stated if realised in the ordinary course of business. The provision for all known and determined liabilities are adequate and not in excess of the amounts reasonably required. The balances of few creditors are subject to their confirmation.
- 35) a) The Company has taken certain office/factory premises on operating lease basis. Lease payments in respect of such leases recognised in statement of profit and loss account ` 2,56,54,076/- (Previous year ` 2,05,64,605/-).
- b) Except for escalation contained in certain lease arrangements providing for increase in the lease payment by specified percentage / amounts after completion of specified period. Further the lease terms do not contain any exceptional / restrictive covenants other than prior approval of the lessee before the renewal of lease.
- c) There are no restrictions such as those concerning dividend and additional debt other than in some cases where prior approval of lesser is required for further leasing. There is no contingent rent payment.
- 36) During the current year, the Parent Company and the subsidiary company KRLL have revised their accounting policy in respect of depreciation method on tangible assets, other than factory building and plant and machinery, from 'written down value method' to 'straight line method' over the expected useful life of the assets. The management is of the opinion that this change in accounting policy would result in a more appropriate presentation of the financial statements. As a result of this change, depreciation has been calculated retrospectively on straight line method and accordingly the Company has recorded reversal of depreciation expense amounting to ` 4,57,81,348 /- pertaining to previous years in the current year's statement of profit & loss (also refer note no 12).
- The Company has also revised the estimate useful life of assets, except plant and machinery, as prescribed in Schedule II of the Companies Act, 2013. The carrying value of assets where the remaining useful life was determined to be nil as on April 1, 2014 has been fully depreciated during the year and an amount of ` 4,57,81,348/- has been adjusted against the opening balance of profit and loss account in the balance sheet under reserves and surplus.
- Consequent to the above changes, the depreciation expense in the statement of profit and loss for the year is lower by ` 85,87,580/- (excluding depreciation written back in respect of previous year).
- 37) The subsidiary company 'KRLL' had developed two New Chemical Entities – KNC-6 and KNC-1206, over the earlier years, which was carried at cumulative value of ` 18,92,40,572/- as Capital WIP. Company's operations would now have a focus on product/process development of Active Pharmaceutical Ingredients. Therefore the company has now decided not to invest further in the new chemical entities in the near future. In view of the above, the management has decided to write off the Capital WIP of ` 18,92,40,572 /- invested over the years in the research of the new chemical entities.
- 38) In the absence of information regarding the status under Micro, Small and Medium Enterprises Development Act, 2006 amounts due to such enterprises have not been disclosed separately under sundry creditors. Kopran Research Laboratories Ltd. is in the process of compiling the additional information required to be disclosed under the Micro, Small and Medium Enterprises Development Act, 2006. The management does not envisage any material impact on the financial statement in this regard, which has been relied upon by the auditors.
- 39) The balances of unsecured loans, loans & advances and sundry creditors of Kopran Research Laboratories Ltd. are subject to the confirmation and consequential reconciliation/adjustments arising there from, if any. The management, however, does not expect any material variation.
- 40) The financial statements of the subsidiary company 'KRLL' have been prepared on the basis that the company is going concern. However having regard to the fact there are significant accumulated losses, the ability of company to continue as going concern is significantly dependent on the improvement of company's future operation and financial support from the holding company. Holding company has confirmed that necessary financial support will be provided as required.
- 41) Previous years' figures have been regrouped wherever necessary.
