Management Discussion and Analysis

(A) Global Outlook:

The global pharmaceutical market has reached a milestone of \$1 trillion in 2014. It is estimated to reach US\$ 1.3 trillion by 2018, growing at a CAGR of 4-7% between 2014 and 2018.

The global generics market was valued at US \$ 168 billion in 2013 and expected to reach US\$283 billion by 2018, growing at a CAGR of 11%. Generics will account for over 50% of the incremental growth between 2013 and 2018. Generic drugs take a much bigger market share in China, Russia, Brazil, India and other emerging markets, while branded drugs will continue to form almost two-thirds of global spending in the developed markets like US, Japan and five major European Markets (Germany, France, Italy, Spain and UK).

Pharmaceutical spending in the developed markets stood at approximately US\$ 620 billion in 2013. It is estimated to grow at a Compound Annual Growth Rate (CAGR) of 3-6% during 2014-2018 to reach US\$ 766-796 billion by 2018. Among the developed markets, the US will see the largest per capita spending increase from 2013 to 2018. Pharmaceutical spending in the emerging markets stood at approximately US\$ 243 billion in 2013. It is estimated to grow at a CAGR of 8-11% during 2014-2018 to reach US\$ 358-388 billion by 2018.

The Company perceives opportunities arising out of aging population and rising life expectancy, rising per capita income in emerging economies, access to modern healthcare system, increase penetration of generics in emerging markets, expires of Patent in developed markets etc.

However, the threats remain for continuous Price erosion of generic drugs and Stringent regulatory requirements.

(B) Company strategy :

The developed markets of US, Europe and emerging markets will remain the focus on the organizational dash board for generics. Company is striving to create an impact in all these key markets. Company is planning to file 10 ANDAs by 2017 and is working on partnership model with other Pharmaceutical companies to mitigate the risk for launch in US Market. Company has triggered the upgradation of the manufacturing site to comply the regulatory requirements of USFDA. Company is also developing 5 dossiers for EU Markets and would focus mainly on Licensing and Supply of the developed products. Company has also signed several contracting manufacturing projects with European partners. Company is also developing 20 new products to register and launch in several emerging markets from 2017 onwards.

• Risks and concerns

The Pharmaceutical Industry normally faces risks and concerns pertaining to Regulatory Authorities.

Our company has been duly audited by various Regulatory Authorities including UK Medicines and Healthcare Products Regulatory Agency (UK MHRA), South Africa Medicines Control Council (MCC), Australia Therapeutic Goods Administration (TGA) and various other countries from the Non-Regulated markets.

• Internal control systems and their adequacy.

- Dependence only on oral dosage forms
- Narrow product portfolio
- Limited manufacturing capacity
- Delay in USFDA approval of manufacturing site
- Delay in ANDA approvals

• Segment-wise or product-wise performance

The company has two Plants – i.e. Penicillin based Formulations and General products. As such, the majority of the turnover comes from Antibiotics – both Penicillin based and Non-Penicillin based. Nearly, 40% of our sales are to South Africa.

• Discussion on financial performance with respect to operational performance.

The turnover of the company was ₹18,814 lacs with a profit of ₹ 1,143 lacs.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kopran Limited ("the Company") as of 31st March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

31) The company has unabsorbed depreciation and carry forward of losses under income tax laws. Hence deferred tax assets have not been recognised as there is no virtual certainty supported by convincing evidence that there will be sufficient future taxable income against which such deferred tax assets can be realised.

32) During the previous year, the Company revised its accounting policy in respect of depreciation method on tangible assets, other than factory building and plant and machinery, from 'written down value method' to 'straight line method' over the expected useful life of the assets. The management is of the opinion that this change in accounting policy would result in a more appropriate presentation of the financial statements. As a result of this change, depreciation was calculated retrospectively on straight line method and accordingly the Company recorded reversal of depreciation expense amounting to ₹ 2,63,04,366/- pertaining to earlier years in the previous year's statement of profit & loss (also refer Note no 10).

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2016, we have audited the internal financial controls over financial reporting of **Kopran Limited** ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other matters

Our aforesaid reports under Section 143 (3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

(m) Earning per share

In accordance with the Accounting Standard -20 (AS-20) "Earning Per Share" issued by the Institute of Chartered Accountants of India, earning per share is computed by dividing the profit after tax with the weighted average number of shares outstanding, at the year end. For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

(n) Income tax

Tax expense comprises of current tax, deferred tax charge or credit. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. The deferred tax charged or credit is recognised using prevailing enacted or substantively annexed tax rate where there is unabsorbed depreciation or carry forward losses, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Other deferred tax assets are recognised only to the extent there is reasonable certainty of realisation in future. Deferred of tax assets / liabilities are reviewed as at each balance sheet date based on developments during the period.

(o) Intangible assets

Intangible assets are recognised only when it is probable that the future economic benefits that are attributable to the asset will flow to the Company and the cost of such assets can be measured reliably. Intangible assets are stated at cost less accumulated amortization and impairment loss, if any. All costs relating to the acquisition are capitalized. Intangible assets are amortized over the useful life of the asset.

(p) Impairment of assets

An asset is treated as impaired as and when the carrying cost of the asset exceeds its recoverable value. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cashflows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less cost of disposal. An impairment loss is charged off to the statement of profit and loss account in the year in which the asset is identified and impaired. The impaired loss recognised in prior accounting periods is reversed if there has been a change in the estimate of the recoverable value.

(q) Contingencies and provisions

A provision is recognised when the Company has a present obligation as a result of past event. It is probable that an outflow of resources embodying economic benefit will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate of the expenditure required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

(r) Cash and cash equivalents / cash flow statement

All highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, are considered to be cash equivalents. cash flow statement is prepared as per 'indirect method' specified under AS 3 cash flow statements.

(s) Operating lease

33) The company has unabsorbed depreciation and carry forward of losses under income tax laws. Hence deferred tax assets have not been recognised as there is no virtual certainty supported by convincing evidence that there will be sufficient future taxable income against which such deferred tax assets can be realised.

34) During the previous year, the Company revised its accounting policy in respect of depreciation method on tangible assets, other than factory building and plant and machinery, from 'written down value method' to 'straight line method' over the expected useful life of the assets. The management is of the opinion that this change in accounting policy would result in a more appropriate presentation of the financial statements. As a result of this change, depreciation was calculated retrospectively on straight line method and accordingly the Company recorded reversal of depreciation expense amounting to ₹4,57,81,348/- pertaining to earlier years in the previous year's statement of profit & loss.
