Develop niche and blockbuster products:

- Developing complete range of Carbapenams to solidify the Company's position in the segment
- Developing Anti-thrombosis and Anti-diabetic portfolio

Improve facility and enhance capacity:

- Undertaking upgradation and expansion of 3 blocks at Mahad facility in Q4 to cater the increasing demand of existing products and manufacture new molecules that are being developed
- The planned expansion will result in shut down of certain plants for some period in March/April
- However we do not anticipate any adverse effect on our sales in Q4
- Developing Panoli site as an intermediate facility, which is expected to be operational by Q2/Q3 FY 2021-22

US Market:

- Plan to capture major share of the US Atenolol market in the next two years
- To achieve this feat, the Company is actively engaged with major players in the US for supply of Atenolol
- Plans to file DMFs for all new products being developed

Penetrate deeper in Regulated markets:

Plans to file DMFs for all new molecules in Regulated markets, thereby gaining a significant share in the market
