# From Redefining to Realising Sustainability

Sustainability has become central to how businesses define value, resilience, and long-term growth today. As the world moves towards more conscious consumption, stricter environmental norms, and sharper investor scrutiny, the onus is on enterprises to align intent with action, and ambition with accountability.

For Aarti Drugs, sustainability has moved beyond conventional boundaries to become a strategic lever for innovation, competitiveness and long-term resilience. We have redefined our approach by linking environmental stewardship with operational excellence: from achieving zero liquid discharge (ZLD) across multiple facilities to investment in captive solar power and co-generation to reduce our carbon footprint and energy dependence. What began as a vision is now a structured, measurable framework that guides our investment decisions, enables entry into regulated markets, and reinforces our future-readiness.

We are translating this redefined vision into tangible progress through cleaner, more efficient manufacturing, R&D that enhances both new and legacy molecules, expansion into regulated global markets enabled by fresh certifications, and greenfield projects that sharpen our competitive edge. These advances are anchored in deep investments in our people, ensuring safe, inclusive workplaces, and in community programmes that revive essential infrastructure, restore natural ecosystems, and generate sustainable livelihoods. This ensures that our progress creates lasting value for the ecosystems we serve.

This phase of our journey is defined by clarity of purpose, elevated benchmarks, and disciplined execution. **From Redefining to Realising Sustainability** is our commitment to embedding purpose into performance: ensuring that every initiative delivers value for stakeholders, society, and the planet, while positioning us for the next era of responsible growth.

About the Company

# From Foundation to Future

Aarti Drugs Limited (also referred to as 'Aarti Drugs', 'The Company' or 'We'), a proud member of the Aarti Group, has been a key player in the pharmaceutical sector since 1984. We are a leading manufacturer of Active Pharmaceutical Ingredients (APIs), specialty chemicals, and intermediates with a presence in over 100 countries and a leadership position in several high-volume molecules across global markets. Our growth is anchored in a deep commitment to innovation, uncompromising quality standards and strong in-house R&D capabilities that support both process optimisation and new product development.

## OUR MISSION

Seek global market leadership

Focus on growth and development of the product

Continue to create winning culture, operating in highest standards of ethics and values with co-operation among competitors

Strive for excellence in customer service, quality and R&D

## OUR VISION

We shall become the first-choice vendor of bulk drugs and achieve a leadership position by:

Assuring consistent quality and timely delivery at competitive price

Providing customised solutions and service to meet changing requirements of customers

Aim at customer orientation through continuous technology upgrade, high business ethics, and new product development

Adopt processes supported by proven technologies, which are cost effective and safe

Our Presence

# From Local Roots to Global Reach

We began our journey with a clear purpose: to deliver high-quality pharmaceutical ingredients and formulations. Over the years, we have expanded our footprint across international markets while staying true to our core values. Today, our presence spans over 100 countries, but our commitment remains consistent: to operate responsibly, manufacture sustainably, and create value across borders with the same integrity that has guided us since inception.

Chairman, Managing  
Director & CEO

### From Resilience to Realisation: Building the Next Chapter of Growth

At Aarti Drugs, our journey has always been defined by the ability to adapt, innovate, and grow with purpose. Over the past year, we made measured and strategic strides towards building a stronger, more competitive, and more sustainable organisation. Capacity expansion in high-growth therapies, deeper backward integration, key regulatory clearances, and an accelerated R&D pipeline have all contributed to reinforcing our market position and strengthening our readiness to seize emerging opportunities.

The operating environment, however, remained demanding. Global pharmaceutical demand was uneven, raw material prices experienced a sharp correction after a prolonged inflationary cycle, and regulatory requirements became more stringent across geographies. These developments created short-term pressures on pricing and order visibility in select markets. Yet, by drawing on our integrated operations, agile supply chain, and rigorous cost discipline, we mitigated these challenges and laid the foundation for more profitable, sustainable growth in the years ahead.

### Operating Environment and Strategic Response

The pharmaceutical industry, across both APIs and formulations, is experiencing a structural shift towards elevated quality and compliance benchmarks. Stricter pharmacopeial norms, detailed impurity profiling, and advanced carcinogenicity assessments are reshaping global manufacturing standards. In formulations, particularly in regulated markets, product registrations and ongoing compliance audits have become

### The pharmaceutical industry, across both APIs and formulations, is experiencing a structural shift towards elevated quality and compliance benchmarks

significantly more rigorous, demanding the same discipline, investment, and operational agility as our API operations. These developments align well with our long-standing focus on quality, regulatory readiness, and process excellence across all segments.

In FY 2024-25, we addressed these shifts by strengthening backward integration to enhance cost efficiency, supply security and margin stability, aligning production schedules with evolving market realities to ensure service reliability, and investing in advanced process optimisation and impurity profiling to consistently meet global quality benchmarks. A major milestone during the year was the lifting of the US FDA import alert on our Tarapur API facility. This clearance not only restores access to the US API market, but also reinforces our credentials in high-value, regulated geographies for both APIs and formulations, including Western Europe, Canada, and Latin

America. These markets offer longer product lifecycles, higher compliance barriers, and better margins, all of which support our strategic focus on deepening our regulated market presence. We are actively diversifying our client portfolio by exploring new markets, expanding our customer base, and entering emerging sectors. This diversification is enhancing portfolio resilience and supporting long-term, sustainable profitability.

### Operational Progress & Portfolio Evolution

Our operational agenda in FY 2024-25 struck a deliberate balance between near-term delivery and long-term strategic positioning. Brownfield investments supported the scale-up of high-demand APIs for existing clients, while also creating capacity to onboard new customers across domestic and export markets. We further expanded our specialty segment offering with the introduction of products for skincare therapy, enabling us to tap into adjacent markets where our chemistry strengths can deliver distinctive value.

On the greenfield front, our Sayakha facility in Gujarat commenced trial production of anti-diabetic APIs and intermediates. Designed to strengthen backward integration, reduce dependency on external raw materials, and improve cost

## Our theme for the year reflects a clear and measurable shift from vision to execution. Sustainability is now deeply embedded within our operations, influencing decisions from energy sourcing to community engagement

competitiveness, the plant's location within an emerging pharmaceutical hub offers distinct advantages in terms of logistics and supplier proximity. Our Tarapur greenfield project, focussed on producing an import-substitute API aimed at competing with Chinese manufacturers, encountered scale-up challenges during the year. Despite this, it is expected to stabilise in FY 2025-26, unlocking a key profitability lever and enhancing supply security for our customers. Total capital expenditure during the year was ₹ 177 Crores, directed towards capacity expansion, greenfield commissioning and select sustainability-linked initiatives; part of a multi-year capex cycle that is intended to be continued at a similar pace over FY 2025-26 and FY 2026-27. This disciplined investment programme, funded primarily through the combination of internal accruals and borrowings, ensures that every rupee deployed contributes meaningfully to both immediate operational expansion and long-term strategic preparedness.

Our R&D pipeline remains a strategic growth driver. With 15 oncology products under development alongside antifungal, cardiac, diabetic, and dermatology therapies, we are deliberately expanding into high-

growth, high-margin therapeutic areas. Oncology launches are expected to begin contributing from FY 2025-26, with full commercial scale achieved by FY 2026-27. Our approach strikes a balance between innovation for new molecules and optimisation of established ones, ensuring both near-term market impact and long-term portfolio resilience.

### Financial Performance and Levers for Improvement

Our FY 2024-25 revenue stood at ₹ 2,403 Crores, compared to ₹ 2,533 Crores in the previous year, reflecting subdued global demand, pricing corrections in the API segment, and a lag in procurement cycles across certain international markets. Domestic volumes in key therapies registered strong growth, partially offsetting export market softness and reaffirming the resilience of our presence in India.

EBITDA was recorded at ₹ 303.4 Crores, with margins at 12.6%. Profit After Tax (PAT) stood at ₹ 168.1 Crores with a margin of 7%. While the topline faced pressure, profitability was underpinned by operational efficiency gains,

stabilisation of raw material prices in the second half of FY 2024-25, and disciplined working capital management. Improvements in yield performance, tighter procurement cycles, and increased utilisation of in-house intermediates provided an additional buffer: measures we believe will continue to support margin expansion in the years ahead.

### From Redefining to Realising Sustainability

Our theme for the year reflects a clear and measurable shift from vision to execution. Sustainability is now deeply embedded within our operations, influencing decisions from energy sourcing to community engagement. In FY 2024-25, we entered into an agreement with Prozeal Green Power to commission a solar power plant that will meet the electricity needs of our manufacturing facilities in Gujarat and Maharashtra; achieved Zero Liquid Discharge compliance across multiple facilities; deployed co-generation systems for simultaneous steam and power generation; and expanded forestry and afforestation programmes to help offset our carbon emissions. Tree plantation has now become a regular aspect of our CSR initiatives.

These initiatives go beyond environmental compliance. They enhance cost efficiency, lower energy-related risks, and strengthen our ESG credentials with customers and regulators alike. Our EcoVadis Silver rating, placing us in the 89<sup>th</sup> percentile globally, affirms the strength of our ESG practices and bolsters our credibility with international customers. As ESG performance becomes an increasingly important criterion in supplier selection, this recognition reinforces our ability to secure and retain high-value contracts, making sustainability a direct contributor to our competitive advantage.

### Strategic Priorities and Outlook

Our strategic priorities are anchored in four pillars: margin expansion through deeper backward integration and optimal capacity utilisation; export growth by leveraging regulatory clearances to enter and expand in high-value markets; portfolio diversification into high-growth therapeutic categories such as oncology, diabetology, antifungals, and dermatology; and sustainability leadership through renewable energy adoption, efficiency gains, and community impact initiatives. Recent regulatory milestones, including

ANVISA approval for an antifungal product and EU-GMP certification for select facilities validate our ability to meet the most rigorous global quality and compliance standards, opening access to compliance-intensive markets and further strengthening our positioning with international customers. In parallel, we are enhancing our enterprise-wide risk management framework, with focussed interventions on supply chain resilience, regulatory preparedness and currency exposure management, to safeguard business continuity and protect margins in an increasingly volatile external environment.

For FY 2025-26, we are targeting double-digit revenue growth and EBITDA margins of 14-15%, supported by capacity ramp-up at Sayakha, stabilisation at Tarapur, the onboarding of new customers in regulated markets, and the commercialisation of new product registrations. This growth will be underpinned by our disciplined capital allocation strategy, maintaining prudent capex levels, funded primarily through internal accruals, thereby preserving a strong balance sheet and ensuring the financial agility to seize emerging opportunities.

## Our People: The Foundation of Our Growth

What has remained constant throughout every phase of our journey is our people. From our founding team to plant operators, engineers, researchers, and business leaders, our people have been the driving force behind our progress. As we evolved, so did our approach to building empowered, future-ready teams.

### Closing Note

The progress we have made this year demonstrates that resilience in the face of change is built on foresight, agility, and disciplined execution. As we move forward, our focus remains clear - to create long-term value for our stakeholders while making a meaningful contribution to community health and environmental sustainability.

I extend my gratitude to our shareholders for their trust, to our Board for their guidance, and to our employees for their unwavering commitment and expertise. Together, we are building not just a stronger company, but laying the foundation for a stronger, more sustainable future.

Yours Sincerely,

**Shri Prakash M. Patil**

Product Portfolio

# Delivering Solutions, Designed for a Sustainable Future

Our product portfolio reflects our commitment to innovation, therapeutic relevance, and advanced manufacturing. By continuously enhancing our offerings across APIs, formulations, and specialty segments, we are developing a robust, forward-looking pipeline. This strategic diversification not only strengthens our market presence, but also ensures we remain agile and responsive to the evolving global healthcare needs.

Recognised as a leading API producer with a diverse portfolio of over 50 molecules, including antibiotics, antiprotozoal, anti-inflammatory, anti-diabetic, antifungals and cardioprotectant

## Strategic Initiatives

### Anti-Diabetic

#### Leading Metformin Manufacturer

With a production capacity of over 1,450 TPM, we are acknowledged as one of the foremost Metformin producers worldwide.

#### Broadening Product Range

The launch of Gliptins will amplify our market presence and fortify our competitive edge in the anti-diabetic segment.

Ranked as the global leader in the production of 5 key molecules

#### Expanding Production Capacity

We are planning a brownfield expansion of an additional 350 TPM to align with the growing market demand.

#### Enhancing Efficiency

Backward integration initiatives are in progress to optimise operations and drive sustained growth.

Installed capacity of 45,511 MTPA

### Antiprotozoal

#### Domestic Market Strength

A targeted brownfield expansion will raise production capacity by 40%, enhancing our footprint in India.

#### Global Expansion

Secured regulatory approval for marketing products in China, paving the way for entry into new international markets.

#### Focussed Growth

Incremental capacity expansions and advancements in downstream products are set to drive sustained growth in this segment.

## Vitamins and Anti-Inflammatory

### Infrastructure Advancements

A multi-purpose facility is under construction to cater to the stringent demands of highly regulated markets.

### Capacity Enhancement

Brownfield expansions in progress are expected to contribute ₹ 35-50 Crores annually, depending on product selection.

### Regulatory Preparedness

Anticipating a re-inspection by the US FDA as part of ongoing efforts to meet global compliance standards.

## Antifungals

### Strengthened Global Standing

Recent capacity expansions reinforce our leadership position in the international anti-fungals market.

## Formulations

Through our wholly owned subsidiary, Pinnacle Life Science Private Limited, we manufacture a diverse range of formulations at our advanced facility in Baddi, Himachal Pradesh, which has recently earned the prestigious US FDA certification. This state-of-the-art plant prioritises extensive R&D to drive continuous technological innovation and new product development, enabling us to deliver safe, pure, and effective patient-centric medicines that meet stringent regulatory standards. By integrating automation and advanced analytics, we consistently achieve manufacturing excellence, uphold the highest ethical standards, and advance meaningful breakthroughs in formulation development.

Delivering safe and dependable medicines across 90 countries, with new launches in the Oncology, Cardiovascular, and Anti-Infective segments

UKMHRA / PICS approved

Installed capacity of 3 billion units tablets and 300 million units capsules

## Strategic Initiatives

### Expanding Reach

With a strong presence in the US, EU, and Canadian markets, we are actively expanding into Asia, Africa, and LATAM regions, while continuing to pursue new registrations in export markets and government tenders.

### Global Registration Growth

Actively expanding into new territories alongside toll manufacturing of formulations, we have filed 330 registrations across 16 geographies and established foreign subsidiaries namely Pinnacle Chile SpA and Pharma Go SpA to capitalise on emerging opportunities.

## Specialty Chemicals, Intermediates, and Others

- Benzene Sulfonyl Chloride
- Derivatives of Chlorosulphonation Chemistry
- Other Products

Supplying intermediates for antibiotics, antifungals, anti-inflammatory, and cardiovascular products to API manufacturers through backward integrated processes

Installed capacity of 13,742 MTPA

## Strategic Initiatives

### Enhanced Capabilities

Ongoing incremental expansions in chloro-sulphonation facilities are enabling us to address rising demand efficiently.

### Future Growth Plans

A greenfield project is in the pipeline to further augment our specialty chemicals portfolio.

# From Research to Realisation

Our R&D efforts are strategically focussed on developing differentiated, high-impact products that address evolving therapeutic needs. By investing in advanced technologies, deepening scientific capabilities, and aligning innovation with market relevance, we are translating ideas into market-ready solutions.

We are strongly supported by an in-house project management team that ensures our new product developments are efficiently scaled to commercial implementation. Our current pipeline includes 15 oncology products under development, alongside antifungal, cardiac, diabetic, and dermatology therapies, areas that offer high growth potential and strong margins in global markets. Our focus now extends to developing next-generation formulation products for key regulated markets such as Europe, the US, Australia, Brazil, Canada, and Chile, with the goal of achieving Day 1 launches. All new developments are integrated with backward-linked API capabilities, ensuring competitive cost structures and early-stage compliance with stringent pharmacopeial and regulatory standards.

Looking ahead, we plan to expand our R&D capabilities further into complex semi-solid dosage forms like creams and ointments, as well as oral liquids. By embedding regulatory readiness into the development cycle and aligning launches with market-specific approval pathways, including ANVISA, EU-GMP and US FDA requirements, we aim to accelerate time-to-market and optimise the commercial window for high-value products.

## Key Strategies

# From Direction to Differentiation

In a rapidly evolving industry, having a clear direction is just the beginning. At Aarti Drugs, we are translating this strategic clarity into tangible advantages: from diversifying our product portfolio and entering new markets to enhancing operational efficiency and investing in innovation. These focussed actions are not only driving our growth, but also establishing a strong, differentiated position within an increasingly competitive global landscape.

## Key Strategies

## Progress for FY 2024-25

## Diversified Product Mix

Range of products across various therapeutic categories, formulations, and markets to mitigate risk.

- New product launches in the Formulations segment
- Continued expansion of product offerings across therapeutic categories and formulations
- R&D underway for a diverse pipeline of new products

## Diversified Client Mix

We serve a broad spectrum of clients across sectors and regions, reducing dependency on any single customer or market condition.

- Actively working to reduce dependence on top 10 clients through market diversification
- The US FDA approval further expands our access to international export markets

## Key Strategies

## Progress for FY 2024-25

## Capitalising on High Entry Barriers

The API manufacturing sector is a tough space for new entrants, given its complex landscape, strict regulatory requirements, high capital investments, and long development cycles. With our decades of experience, we continue to stay ahead by consistently improving our processes, investing in R&D, strengthening our compliance frameworks, and building on our deep industry expertise. This focus helps us strengthen our leadership position and sustain our competitive edge in the pharmaceutical sector.

- Maintained a strong regulatory portfolio, including CEP for Metformin and filings in regulated markets

## Backward Integration

Integrated facilities ensure reliable raw material supply, mitigate risks, and enable cost synergies through economies of scale and quality control. This approach enhances operational efficiency, speeds up product time-to-market, and strengthens our competitive position.

- Continued investments in brownfield API expansion with cost optimisation as a key focus
- Continued focus on integrated operations supporting cost efficiency

## Expanding Our Capabilities

Market share and footprint expansion through greenfield and brownfield projects in Tarapur, Maharashtra, and Gujarat, enhancing production capabilities and managing operational risks.

Leveraging existing infrastructure to improve efficiencies, scale production, and explore new markets, driving growth and strengthening our competitive edge.

- Capex of ₹ 177 Crores incurred, focused on capacity expansion and new product development
- Commissioned greenfield and brownfield expansions across APIs and formulations
- Pinnacle Life Science added 30% capacity via brownfield expansion; commercial contribution expected in FY 2025-26
- R&D centres in Turbhe and Tarapur drove product innovation and pipeline growth
- Ramping up of production at the Tarapur greenfield project for Salicylic Acid

## Stakeholder Engagement

# From Dialogue to Shared Direction

Stakeholder engagement forms the basis of collaborative progress. We believe that meaningful dialogue with our stakeholders fosters mutual understanding, builds trust, and drives long-term value creation. Through structured interactions, feedback mechanisms, and transparent communication, we actively listen to the voices that shape our ecosystem, including employees, customers, suppliers, regulators, investors, and communities. These ongoing conversations enable us to integrate diverse perspectives into a shared strategic direction, ensuring our actions reflect both business objectives and broader environmental, social and governance priorities.

## Environment

# From Reducing Impact to Creating Value

We are reshaping the way we interact with the environment, not just by reducing our footprint, but by proactively contributing to a more sustainable future. From embracing renewable energy and ZLD systems to enhancing energy efficiency and driving resource conservation, our actions are grounded in long-term environmental stewardship. Sustainability is no longer a goal on the horizon; it is a responsibility we uphold every day through consistent, measurable action.

## Material Topics Identified

Climate Change, Energy, and Emission Management

Sustainable Supply Chain and Responsible Procurement

Water and Wastewater Management

Waste and Hazardous Materials Management

## Energy Management

As part of our broader commitment to sustainability and operational efficiency, we continue to implement energy-focussed interventions across our facilities. These efforts are aimed at reducing our carbon footprint, lowering energy costs and advancing cleaner, more responsible manufacturing practices.

### Key initiatives include:

- Installation of waste heat recovery systems to capture and reuse heat from industrial processes

- Installation of coal-fired boilers in place of briquette-fired ones to enhance combustion efficiency and energy output
- Ongoing transition to solar energy systems to replace conventional steam boilers
- Adoption of Mechanical Vapour Recompression (MVR) in evaporation processes to reduce energy consumption

## Strategic Investment in Captive Solar Power for Long-term Sustainability

In line with our commitment to green energy and cost optimisation, we have entered into a Share Subscription and Shareholders' Agreement with Prozeal Green Power Private Limited. This initiative aims to develop and operate a captive solar power plant for our facilities in Gujarat and Maharashtra. The plants are expected to generate 50.83 million renewable energy units annually, resulting in estimated annual savings of ₹ 15.25 Crores and a reduction of 36,394 tonnes of CO<sub>2</sub> emissions. This partnership not only supports our sustainability goals but also strengthens long-term energy security and improves operational efficiency.

## Water Resource Management

Recognising the vital importance of water as a precious resource, we have implemented several initiatives to conserve it and manage effluents responsibly. These efforts are designed to enhance resource recovery and minimise environmental impact.

### Key initiatives include:

- Adoption of ZLD systems to recycle and reuse wastewater within operations
- Installation of ATFD/Dry distillation equipment for effective waste concentration and volume reduction
- Construction of a new effluent treatment plant (ETP) to ensure safe and compliant wastewater treatment
- Implementation of techniques to recover valuable materials from effluent waste to boost resource efficiency

- Creation of effluent underground storages to improve liquid waste containment and management.

## Waste Management

As part of our commitment to reducing environmental impact, Aarti Drugs adopts a proactive approach to waste minimisation. We have implemented sustainable packaging practices, including the shift from plastic to paper bags for bulk API packaging, and the replacement of HDPE drums with fibre drums. These initiatives substantially reduce our dependence on plastic, helping to prevent waste from reaching landfills and marine ecosystems.

## Sustainable Sourcing

We are committed to fostering a responsible and transparent supply chain. We conduct comprehensive

vendor assessments for our key suppliers using a structured ESG-focused questionnaire. This enables us to evaluate their alignment with environmental, social, and governance standards, and advances our transition towards more responsible sourcing practices.

To further enhance supplier engagement, we provide ongoing training anchored in the Global Reporting Initiative (GRI) principles, aimed at promoting awareness of sustainable practices and reinforcing our shared commitment to ethical business conduct.

Our efforts have been recognised globally, with Aarti Drugs achieving an EcoVadis sustainability rating in the 89<sup>th</sup> percentile. This distinction highlights our continuous progress in integrating sustainability across our operations and value chain, and aligning our business practices with globally recognised standards.

Social

# From Outreach to Impact

Social responsibility is a continuous journey for us rooted in empathy, inclusion, and long-term commitment. We have moved beyond outreach programmes to foster enduring partnerships with communities, uplift livelihoods, and create meaningful impact. From health and education to skill development and employee well-being, our initiatives are designed to empower, sustain and grow in collaboration with the communities we serve.

## Material Topics Identified

Community Impact, Relations, and Development

Product Safety

## Employee Health and Safety

Ensuring the health and safety of our workforce is a top priority. We conduct regular safety assessments, including Hazard and Operability Study (HAZOP) and Hazard Identification and Risk Assessment (HIRA), to proactively identify and mitigate risks. With a well-established Health and Safety Policy, we provide ongoing training, supported by routine audits to evaluate effectiveness. Our comprehensive safety framework, covering everything from incident management to near-miss reporting, fosters a culture where employees actively participate in upholding

and enhancing safety standards. We continue to invest in advanced safety equipment and have laid out a roadmap for strengthening process safety across our operations.

## Human Rights

Upholding human rights is integral to our values and business conduct at Aarti Drugs. The Company requires all stakeholders, customers, suppliers, and business partners, to respect fundamental human rights and honour the dignity, customs, beliefs, and cultural heritage of the communities it engages with. We actively identify and assess human rights risks, taking preventive measures to avoid infringements.

## Product Safety

We are committed to upholding the highest standards by implementing stringent quality control systems, prioritising employee safety training, and continuously monitoring our production processes to ensure every product meets rigorous safety benchmarks. Our commitment to compliance with regulatory standards reinforces the trust our customers place in us. By upholding these practices, we not only prioritise safety but also align with our core values, ensuring that we deliver safe, reliable, and sustainable products to the market.

## CSR Activities

At Aarti Drugs, we believe that we can only grow if everyone grows with us. For this, we have undertaken initiatives to work towards creating a culture of inclusivity within the Company and helping the communities uplift themselves.

CSR has never been a mandate; it has been our mindset. Decades before CSR became law, we were already working shoulder-to-shoulder with communities to create strong foundations through education and healthcare. We began by providing quality education and essential healthcare to remote areas, ensuring

that our surrounding communities not only coexisted but also thrived. Our work made learning more accessible and lives more secure.

Over time, we realised that scale comes from partnership. That is why we began collaborating with local NGOs and changemakers, combining their grassroots knowledge with our commitment. This model helped us expand our reach, responsibly, and with deeper roots.

## CSR Policy

We have a CSR Policy, approved by the Board that guides our initiatives at Aarti Drugs in line with the Companies Act, 2013. Through the

Aarti Foundation and various other NGOs, we focus on empowering local communities by addressing needs in education, skill development, healthcare initiatives, tribal and rural development, livelihood support, housing assistance, and creating local employment opportunities.

## Focus Areas

## Education and Skill Development

Ongoing CSR initiatives across five schools for the last several years have positively impacted over 1,500 students.

Education is central to achieving sustainable development and driving social upliftment. Our initiatives in education and skill development focus on empowering underserved communities by ensuring access to quality learning, vocational training, and career-building opportunities. By strengthening school infrastructure, expanding digital education, and providing industry-relevant skills, we are enabling young people to fulfil their potential and shape positive change in their communities.

### Infrastructure Development Initiatives

We undertook infrastructure development initiatives across various schools and institutions, establishing new facilities and upgrading existing ones, including the repair and repainting of the Zilla Parishad School at Tarapur.

### Scholarships and Grants

Under our CSR initiatives, we provide scholarships to deserving students to pursue higher education, while routinely distributing notebooks and school uniforms to those in need.

## Healthcare

During the year, we advanced healthcare accessibility by providing medical grants through our implementing partners. In collaboration with BPNI Maharashtra, we supported breastfeeding and complementary feeding (IYCN) counselling across six municipal hospitals in Mumbai, KEM, LTMG (Sion), BYL Nair, Dr. R.N. Cooper, Dr. Ambedkar, and Chhatrapati Shivaji Maharaj Hospital (Kalwa), with twenty lactation counsellors and consultants regularly visiting these facilities.

Supplying medicines to the Primary Healthcare Centre at Tarapur is our routine CSR activity.

## Green Environment and Water Conservation

Our initiatives, from water conservation projects to extensive tree plantations, have strengthened environmental sustainability while positively impacting thousands of lives. These efforts not only help preserve natural resources but also foster greener, healthier surroundings for communities. By combining conservation with community engagement, we continue to create lasting environmental benefits.

Initiative	Location	Amount Spent (₹ in lakhs)
Removal of silt from water distribution channels - Naam Foundation	Beed, Parbhani and Nanded District, Maharashtra	60
Tree Plantation - Direct Expenses	Nearby factory locations at Tarapur and Sarigam	22.21

## Water Conservation

We funded the project implemented by Naam Foundation for removal of silt from the water distribution channels of the Paithan right and left canals in Beed, Parbhani and Nanded district of Maharashtra. The water to these canals is sourced from Jayakwadi Dam at Paithan.

Nearly 1,83,000 hectares of agricultural land is irrigated by Paithan Dam  
Benefitting around 2,00,000 farmers

### Impact of Project

- Continuous water supply will be ensured for all beneficiary farmers from 18 villages located along the canal.
- It will help increase underground water level.

### Field Impact

- Water Availability: The positive effects show that water has reached the tail villages for the first time.
- Crop Yields: There will be potential increases in crop yields due to enhanced water management.
- Collaboration: Strengthened collaboration and communication between villages are enabling smoother and more efficient canal water distribution.

### Environmental Impact

- Ground water level will increase by 1 to 2 m.
- Increase in well and borewell water levels.

### Direct Impact

District	Number of Beneficiaries	Acres of land under irrigation in the project
Beed	94,000+	43,000
Nanded		29,000
Parbhani		26,500

## Tree Plantation

Miyawaki forests are multi-layered forests built with native plants, with the potential to turn into a full-fledged dense forest in a span of 3-5 years. This is a very effective and quick technique for urban reforestation.

We are currently transforming a garbage dumping area near Karajgam Talav in Tarapur, Maharashtra, into a Miyawaki forest through extensive tree planting efforts. We have also undertaken tree plantation drives at multiple locations near our factories in Tarapur and Sarigam.

## Housing Aid, Tribal and Rural Development

We supported around 150 families with housing aid worth ₹ 63 lakhs, building safer, permanent homes for nomadic communities in Gujarat and underprivileged urban youth in Mumbai. Our Projects, like VSSM's pucca homes and Kutch Nav Nirman Abhiyan, ensure that the most vulnerable communities have a place to call home, with stability and dignity.

# Management Discussion and Analysis

## Global Economy

The global economy in CY 2024 and CY 2025 is navigating a phase of moderate yet uneven growth amid persistent challenges. Global GDP is projected to slow from 3.3% in CY 2024 to approximately 3% in CY 2025. Geopolitical tensions, including the Russia-Ukraine conflict and unrest in the Middle East, alongside trade policy uncertainties, lingering inflation, supply chain disruptions, and tighter financial conditions have dampened investment sentiment and increased volatility, particularly across major economies such as the US, China, and parts of Europe. This situation was exemplified by the new tariffs imposed by the US, including a 10% baseline US duty on all imports announced in early April 2025. However, later that month, the administration declared a 90-day suspension of these higher tariffs, maintaining only the 10%

base rate for most countries during this negotiation period. The 90-day pause was originally set to expire in July 2025 but has been extended to August 1, 2025, warning that countries failing to reach agreements would then face the higher tariff rates outlined in earlier announcements. With the pause now lifted, recent developments have sparked unrest as the United States imposes higher tariff rates on a wide range of goods from multiple countries.

(Source: <https://www.oecd.org/en/about/news/press-releases/2024/12/economic-outlook-global-growth-to-remain-resilient-in-2025-and-2026-despite-significant-risks.html>)

These trade policy developments have added to global economic uncertainty, weighing on business sentiment and investment decisions. Despite these headwinds, the global economy has shown resilience. Policymakers remain focused on managing inflation while supporting sustainable growth.

Much of the momentum stems from robust domestic demand in regions such as South Asia and Latin America. Flexible monetary policies and strong performance in the services sector have further aided economic stability.

Looking ahead, growth is expected to diverge across regions. Emerging economies are likely to outpace advanced ones over CY 2025 and CY 2026, driven by rising productivity, strong consumer demand, and investments in sectors like manufacturing, consumer goods, agriculture, infrastructure, and real estate. Developing economies are projected to maintain steady growth of around 4%, while advanced economies face slower expansion amid structural shifts and evolving policy landscapes.

## Indian Economy

Amid a challenging global landscape, India remained one of the world's fastest-growing major economies, charting a stable growth trajectory. The Indian economy is projected to expand by 6.5% in FY 2024-25, a moderation from the 9.2% growth recorded in the previous financial year, yet reflective of its underlying strength. This resilience is powered by buoyant domestic demand, strong public and private investment, a favourable demographic profile, and increasing consumption. This is particularly evident in rural areas, where a strong monsoon has boosted agricultural output and incomes.

(Source: <https://mospi.gov.in/dataviz-annual-estimates-gdp>)

Inflationary pressures eased significantly, with headline inflation averaging at around 4.6% in FY 2024-25, remaining comfortably within the Reserve Bank of India's (RBI) target band. In response, the RBI adopted an accommodative monetary policy stance, cutting rates for the first time in nearly five years. The repo rate was lowered gradually, reaching 5.5% in June 2025, from 6.25% in February 2025. Following this move, the RBI shifted its monetary policy stance from accommodative to neutral.

Consumer spending continued to anchor economic growth, with Private Final Consumption Expenditure (PFCE) surging to 7.3% in FY 2024-25, up from 4% in the preceding financial year. Government expenditure further supported this momentum, with Government Final Consumption Expenditure (GFCE) estimated at ₹

33,03,119 Crores in FY 2024-25, driving demand and sustaining economic activity across key sectors.

(Source: <https://www.pib.gov.in/PressReleasePage.aspx?PRID=2090875&utm>)

Sector-wise, India continues to deliver a broad-based performance. The services sector is on track to grow at 7.2%, propelled by strong momentum in IT and financial services. The nationwide rollout of 5G and accelerated digital transformation are unlocking new growth avenues for technology-led industries. Meanwhile, the agriculture sector remains a vital pillar of the

economy, with record Kharif crop yields contributing to higher rural incomes and expanded market reach.

India's forward-looking investments in renewable energy and digital infrastructure are further strengthening its economic foundation. These strategic priorities are not only supporting near-term growth but also laying the groundwork for long-term competitiveness and sustainable development.

## Global Pharmaceutical Industry

The global pharmaceutical industry continues to exhibit strong momentum, fuelled by expanding healthcare coverage, increased public health spending, and ongoing investments in research and development. In CY 2024, the global market was valued at approximately USD 1,653.7 billion and is projected to reach USD 1,746.4 billion in CY 2025. Looking ahead, the market is expected to clock in a CAGR of 6.1% from CY 2025 to CY 2030.

(Source: <https://www.grandviewresearch.com/industry-analysis/pharmaceutical-market-report>)

Several structural and technological trends are shaping this growth. One of the most significant drivers is the increasing prevalence of chronic, non-communicable diseases (NCDs), which now account for nearly 74% of global deaths. An ageing global population is further contributing to the rising demand for long-term treatment and care. Additionally, greater awareness and government-driven vaccination programmes have enhanced preventive care access, particularly in emerging economies.

(Source: <https://ncdalliance.org/why-ncds/NCDs>)

Innovations in biotechnology such as cell and gene therapies and allogeneic cell therapies, the rise of personalised medicine, expansion of telemedicine, e-pharmacies, and

digital health platforms and growth in biopharmaceuticals and biosimilars are revolutionising treatment pathways. The integration of artificial intelligence (AI) in drug discovery and clinical trials has also accelerated the development timeline, optimising both efficacy and cost. Other emerging technologies such as 3D printing in drug manufacturing, the increasing adoption of combination therapies, and advancements in mRNA-based vaccines continue to transform the pharmaceutical landscape.

## Indian Pharmaceutical Industry

India has cemented its position as a significant contributor to the global pharmaceutical value chain. The domestic pharmaceutical market is currently valued at USD 58 billion, a revision of an earlier forecasted figure. The industry is projected to grow substantially, reaching USD 120-130 billion by 2030, with India's share in the global pharmaceutical market expected to touch 5%. Looking further ahead, the sector is on track to reach USD 400-450 billion by 2047, reflecting sustained momentum in the sector.

(Source: <https://www.india-briefing.com/news/why-indias-pharmaceutical-industry-remains-poised-for-growth-in-2025-35988.html/>)

A notable transformation is underway as the industry shifts from a manufacturing-led 'Make in India' strategy to a more innovation-focused 'Develop in India' model. Indian companies are ramping up investments in novel drug development, biotechnology, and advanced research, reflecting a long-term commitment to global competitiveness. The industry's global footprint now spans over 200 countries, with growing international regulatory recognition and increasing investments in formulation research and biosimilars.

(Source: <https://www.investindia.gov.in/sector/pharmaceuticals>)

The Indian Government has launched several targeted initiatives to foster innovation, self-reliance, and global competitiveness in the pharmaceutical and MedTech sectors. The Production Linked Incentive (PLI) Scheme for Medical Devices and the Scheme for Strengthening of Pharmaceuticals Industry (SPI) aim to boost domestic manufacturing capabilities and reduce import dependence for critical inputs.

The Scheme for Promotion of Research and Innovation in Pharma MedTech Sector (PRIP) encourages deeper

investments in R&D, formulation development, and biotechnology. Additionally, the Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP) is widening access to affordable generic medicines across the country through an expanding network of retail outlets.

India remains a global hub for high-quality, affordable generics, supplying 20% of the world's generic drug demand. Both rural and urban markets are gaining strategic attention, with efforts to bridge gaps in healthcare access through telemedicine, mobile health units, and affordable treatment initiatives.

### Domestic Pharmaceutical Market

India's domestic pharmaceutical market stands as one of the world's largest and fastest-growing, driven by robust demand for affordable medicines, a strong manufacturing base, and a rapidly expanding healthcare sector. Increasing healthcare awareness, rising incomes, and government initiatives to enhance access and affordability, continue to play a pivotal role in meeting the country's diverse medical needs while emerging as a global hub for generic drugs and vaccines.

The Indian domestic pharmaceutical market posted an 8.4% year-on-year growth in FY 2024-25, primarily driven by therapies targeting chronic conditions. Chronic therapies grew by 9.9%, driven primarily by a 10.7% rise in cardiac treatments, followed by a 7.9% increase in anti-diabetic drugs.

Meanwhile, acute therapy segments such as anti-infectives and respiratory drugs witnessed moderate growth at 6.3%, due to post-pandemic normalisation and stricter prescription

regulations. The domestic market continued to benefit from strategic advancements in R&D, the Strengthening of Pharmaceuticals Industry (SPI) scheme for funding research and upgrading laboratories to enhance global competitiveness, improved healthcare infrastructure such as the launch of Bulk Drug Parks, and various government reforms. Noteworthy policies, such as the push for universal health coverage and the encouragement of generic drug usage, have created a more conducive environment for industry growth.

### Export Pharmaceutical Market

India remains the world's largest supplier of generic medicines and has cemented its position as a reliable partner in global healthcare. Pharmaceutical exports touched USD 30.47 billion in FY 2024-25, marking a 9.4% increase from the previous fiscal year. Monthly exports consistently range between USD 2-3 billion, indicating sectoral stability and sustained international demand.

(Source: [https://pharmexcil.com/uploadfile/Hand\\_Book\\_14\\_06\\_2025\\_final.pdf](https://pharmexcil.com/uploadfile/Hand_Book_14_06_2025_final.pdf))

<https://www.pib.gov.in/PressReleasePage.aspx?PRID=2122016>)

The United States continues to be the leading export destination, accounting for more than one-third of India's total pharmaceutical exports, followed by key markets such as the UK, Brazil, France, and South Africa.

India's export performance has been further boosted by diversification into new geographies, an expanded product portfolio including drug formulations and biologics (which make up 75% of export value), and strong participation in global public health initiatives.

(Source: [https://pharmexcil.com/uploadfile/Hand\\_Book\\_14\\_06\\_2025\\_final.pdf](https://pharmexcil.com/uploadfile/Hand_Book_14_06_2025_final.pdf))

India plays a vital role in global vaccine supply chains, supplying 20% of global generic drug demand and fulfilling a significant portion of UNICEF's and WHO's vaccine requirements. These achievements reflect the industry's ability to deliver quality products at scale, reinforcing India's image as the 'pharmacy of the world.'

## Company Overview

Aarti Drugs Limited ('Aarti Drugs' or 'The Company'), established in 1984, is a well-established name in the pharmaceutical industry, specialising in the production of Active Pharmaceutical Ingredients (APIs), pharmaceutical intermediates, and speciality chemicals. A part of the Aarti Group, an industrial conglomerate, Aarti Drugs offers a diverse product range of more than 50 compounds, serving therapeutic areas including antibiotics, antiprotozoals, anti-inflammatories, antidiabetics, and antifungals. With a stronghold in the API segment, the Company also operates Pinnacle Life Science Private Limited, its wholly owned subsidiary focused on formulation development.

The Company follows an adaptable manufacturing model that combines internal capabilities with strategic outsourcing to maintain flexibility and scale. Its multi-purpose manufacturing units are designed to handle varying batch sizes, from small-scale to multi-tonne production, allowing it to meet a wide spectrum of market demands. The Company's R&D strength is anchored by its centres in Turbhe, Navi Mumbai, dedicated to complex generic formulations, and in Tarapur, Maharashtra, which focuses on API process innovation. These facilities, strategically located near major industrial corridors, enable efficient operations and ensure reliable delivery of high-quality pharmaceutical products.

### Highlights for the Year

#### Operational Scale-up at Tarapur Greenfield Project

The Salicylic Acid plant at Tarapur has commenced operations and is gradually scaling up production and is targeting a cumulative capacity of ~1,600 tonnes per month by the end of FY 2025-26. This is expected to contribute meaningfully to long-term profitability.

#### Investment in Green Energy through Solar SPV

The Company has entered into an agreement with Prozeal Green Power Private Limited and acquired a stake of 26.25% each in Prozeal Green Power Nine Private Limited and Prozeal Green Power Six Private Limited, a Special Purpose Vehicle (SPV) for setting up captive solar power plants in Gujarat and Maharashtra. Aarti Drugs will invest ₹ 9.70 Crores

in a phased manner under this arrangement. The initiative, aligned with the Company's sustainability goals, is expected to generate 50.83 million renewable energy units annually, resulting in estimated annual savings of ₹ 15.25 Crores and a reduction of 36394 tonnes of CO<sub>2</sub> emissions.

## Research and Development

Aarti Drugs' R&D capabilities are anchored by a highly qualified team comprising doctorates, postgraduates, science graduates, and engineering technicians. Their core focus lies in driving process innovation, enhancing product quality, and developing new molecules to support future growth. The Company's R&D centres are recognised by the Department of Scientific and Industrial Research (DSIR), underscoring its technical strength and compliance with national benchmarks.

The Tarapur-based R&D facility houses a pilot plant designed for kilo-scale pharmaceutical production. This DSIR-accredited facility supports process optimisation, scale-up studies, and seamless technology transfer from lab-scale to commercial manufacturing. Backed by dedicated project managers and collaborations with academic experts from institutions like the Institute of Chemical Technology (ICT) and CSIR, Aarti Drugs ensures timely and efficient commercialisation of its innovations.

## Subsidiaries

Aarti Drugs Limited operates through three strategic subsidiaries and one step-down subsidiary, each expanding the Company's reach and capabilities:

#### Pinnacle Life Science Private Limited

Based in Baddi, Himachal Pradesh, Pinnacle Life Science Private Limited, a material subsidiary of Aarti Drugs, is a wholly owned entity focused on pharmaceutical formulations. It has played a key role in expanding our footprint in Latin America, select African nations, and parts of Asia, contributing a significant share of revenue through export registrations and government tender participation.

#### Pinnacle Chile SpA and Pharma Go SpA (step-down subsidiary through Pinnacle Chile SpA)

Operating from Santiago, Chile, these subsidiaries are dedicated to promoting formulation products, actively participating in both public tenders and private contracts across the region.

Together, these entities support Aarti Drugs' broad portfolio of over 50 compounds across major therapeutic categories.

#### Aarti Speciality Chemicals Limited

Located in Mumbai, this subsidiary engages in manufacturing, trading, and processing of speciality chemicals and pharmaceutical products, enhancing Aarti Drug's backend integration and product depth.

## Distribution Network

Aarti Drugs has built a robust global distribution network that supports its presence in over 100 countries. The Company primarily ships products directly by air or sea, ensuring cost-efficient logistics for bulk volumes. For smaller shipments, it leverages trusted distributor partnerships. To mitigate financial risk, Aarti Drugs conducts stringent credit evaluations of clients and, in higher-risk cases, collaborates with European trading partners. The Company also safeguards its receivables through trade credit insurance, making its distribution system not only expansive but also resilient and financially sound.

## Financial Highlights

Revenue for FY 2024-25 stood at ₹ 2,403.4 Crores as against ₹ 2,532.6 Crores for FY 2023-24, reflecting a 5% YoY decline. EBITDA for FY 2024-25 was ₹ 303.4 Crores compared to ₹ 320.5 Crores in FY 2023-24, down 5% YoY, with an EBITDA margin of 12.6% for FY 2024-25. PAT stood at ₹ 168.1 Crores in FY 2024-25, as against ₹ 171.6 Crores in FY 2023-24, registering a 2% YoY decline, with a PAT margin of 7.0%.

### Key Financial Ratios

Note:

1. There is no significant change (i.e., change of 25% or more as compared to FY 2023-24) in the other key financial ratios.
2. The above ratios are calculated on the basis of the consolidated financial statement.

### Segmental Performance Highlights FY 2024-25 (Revenue Mix)

## Outlook

Aarti Drugs is poised for a promising future bolstered by strategic initiatives aimed at expanding capabilities and enhancing offerings, with the commitment to investing in new technologies, which positions the Company uniquely to capitalize on the growth opportunities within the pharmaceutical and specialty chemicals sectors.

During FY 2024-25, the Company incurred a capex of Rs. 177 Crores. Significant progress has been achieved on the greenfield project at Saykha, Gujarat, dedicated to backward integration of the antidiabetic product along with a few other intermediates. Trial production

has already commenced and is expected to stabilise soon.

This development is expected to contribute significantly to the Company's long-term profitability. This initiative is designed to reduce the reliance on external raw materials, thereby enhancing the Company's supply chain reliability. By focusing on the internal sourcing of key inputs, Aarti Drugs expect to drive incremental margin expansion, positioning it for sustained success in the future.

Tarapur Greenfield project, which initially faced some teething issues, has largely overcome them, with the Company now focussing on a phased scale-up in production.

These initiatives are not just about immediate gains; they are designed to collectively strengthen the Company's operational resilience. By implementing these strategies, Aarti Drugs is positioning itself for sustainable long-term growth, ensuring that the Company remains competitive and robust in the face of external pressures.

As Aarti Drugs navigates the current geopolitical challenges in the broader operating environment, it remains imperative that the Company focusses on enhancing its profitability through disciplined cost control and efficient supply chain management.

## Human Resources

At Aarti Drugs, people are valued not just as resources, but as individuals with unique skills, aspirations, and potential. The Company is committed to creating a workplace culture that nurtures personal growth alongside professional development. Through its Human Resources Division, Aarti Drugs ensures equitable

opportunities for learning, career advancement, and cross-functional exposure. As of March 31, 2025, the Company had 1,284 permanent employees at its manufacturing plants and administrative office which includes 1,152 males and 132 females.

Regular training programmes, seminars, and leadership development

initiatives are conducted to enhance skills and encourage continuous learning. The Company's focus on inclusivity, empowerment, and capability-building fosters a collaborative environment that drives performance and long-term organisational success.

## Environment, Health and Safety

Aarti Drugs continues to advance its sustainability agenda by strengthening waste management, promoting efficient water usage, and reducing its carbon footprint. The implementation of Zero Liquid Discharge (ZLD) systems across multiple facilities ensures complete recycling of treated wastewater. Use of dual-fired boilers in greenfield plants optimises fuel use and lowers emissions, while waste-to-energy practices and waste heat recovery systems further enhance energy efficiency.

Aarti Drugs leverages advanced technologies like ATFD, ATFE, FBC boilers, MEE, and MVR systems to ensure optimal resource utilisation. On the health and safety front, the Company promotes a culture of safety through regular training on PPE usage, firefighting, first aid, and emergency response, supported by Civil Defence and the Bombay Productivity Council. All EHS systems are aligned with ISO standards (ISO 9001:2008, ISO 14001, ISO 45001, and ISO 9002), reflecting a strong commitment to global safety and environmental benchmarks.

To reduce plastic usage, the Company has shifted to environmentally friendly packaging such as paper bags, fibre drums, and jumbo bags. Tree plantation drives and green cover maintenance are regularly undertaken to support biodiversity and carbon sequestration.

The Company's strong commitment to sustainability is also reflected in its EcoVadis score, which places it in the 89<sup>th</sup> percentile globally.

## Internal Controls

Aarti Drugs places strong emphasis on maintaining a robust internal control framework that underpins its operational integrity and corporate governance. The Company has established a structured system of internal controls designed to safeguard assets, ensure accurate financial reporting, and prevent any form of misconduct. These controls are regularly reviewed and refined by the Audit Committee to remain aligned with evolving business needs.

To further strengthen its governance practices, periodic internal audits are conducted by an independent Chartered Accountancy firm. The findings are closely reviewed by the Audit Committee, which addresses any identified gaps and drives continual improvements across processes and compliance mechanisms.

The Company is committed to safeguarding assets, preventing and detecting fraud or errors, providing accurate and complete accounting

records and preparing timely and reliable financial reports. Any deviations are promptly reported to management, allowing for swift corrective action to ensure business continuity and maintain risk at manageable levels. This internal control framework is crucial for maintaining smooth and uninterrupted business operations.

## Cautionary Statement

This Management Discussion and Analysis contains 'forward-looking statements' that are subject to risks and uncertainties. Actual outcomes may differ materially from those projected due to changes in economic conditions, government policies, regulatory environments, taxation laws, and other external factors beyond the Company's control.

### DETAILS OF CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

#### 1. CONSERVATION OF ENERGY:

##### a. Energy Conservation Measures Taken:

The Company continues its policy of giving priority to energy conservation measures including regular review of energy generation, consumption and control on utilisation thereof. The various measures taken during the year includes:

- We have installed 2 Units of MVR system for Ofloxacin acid & SBS as well to achieve the zero liquid discharge. It has a significantly lower steam requirement than conventional evaporation set up.
- We have conducted regular energy and steam audits to check and improve the performance of equipment running in plant and utility.
- We installed a condensate recovery system & flash vessel, deaerator for waste heat recovery as a measure for energy efficiency.
- We have installed Condensate contamination detection system with a polishing unit for boiler feed water quality.
- We are installing a 1900 kW back pressure turbine for co-generation power plant at the G-61 plant.
- We are thoroughly monitoring the cooling tower chemicals dosing, algae growth due to which corrosion in the system is reduced. We have achieved significant energy savings from this.
- We have installed a Freon based chilling plant operating on screw & scroll compressors and achieved significant energy savings.
- We have installed a Reverse osmosis system for product concentration. It has much lower energy requirements as compared to regular evaporation set up.
- We have undertaken the solar group captive model as means to switch over to green and clean energy. The said solar farm is under development stage.
- We are going for agro based multifuel fired boiler to reduce conventional fuel consumption.
- Conducted trials of automatic vertical press filters on various products and got the better quality product as compared to the conventional filtration equipment.
- Conducted trials of ARDC for the solvent/ organic extraction from the product/ effluent stream. It has better efficiency and requires less footprint than conventional set up.

##### b. Additional Investment & Proposals, if any, being implemented for reduction of consumption of energy

Measures for reduction in energy consumption includes:

- We are planning to install the continuous sludge dryers to reduce the moisture content in the effluent streams disposed to the MWML
- We are planning to install the mechanical boosters in place of the existing steam jet ejectors. This will help in reduction of the steam consumption. Also effluent load will be reduced and product recovery will be improved due to steady vacuum.

### Consumption Per Unit of Production:

Since the Company manufactures different types of bulk drugs and its intermediates, it is not practicable to give consumption per unit of production.

## 2. TECHNOLOGY ABSORPTION, ADAPTATION & INNOVATION:

- **Methyl amine derivative:** Work is going on to develop Methyl amine derivative like MMAHCl, DMAHCl, TMAHCl & Choline Chloride solution aimed at expanding our product line and enhancing core chemical synthesis portfolio. This will help us to offer new Chemical / pharmaceutical solutions, meeting emerging market needs.
- **Metformin HCl:** Alternative process with Eco-friendly solvent technologies is developed, aligned with sustainable manufacturing practices and going to be commercialised soon. The process has improved yield, quality and decreased hazardous waste. Impurities in the product are also reduced.
- Also developed the process for the development of the formaldehyde resin from the metformine hydrochloride effluent stream.
- **Norfloxacin:** To optimise products from raw material an alternate process is developed from starting raw material DCFBCL. Innovation in process optimisation will help us to reduce total cost of manufacturing and increase supply chain resilience.
- **Salicylic Acid:** Salicylic Acid process commercialised with absorption of chemical synthesis technologies. It is Safe, Competitive with existing manufacturers and environment friendly.
- Developed a process of recovering phenol from the effluent stream using ARDC.
- Trials of adsorption of phenol on resins to remove the traces of it from the effluent stream are under progress.
- Improvement in various down stream product of Salicylic Acid like PHBA, Octyl Salicylate, Methyl Salicylate, Aspirin, benzoyl salicylate, Hexyl Salicylate, Methyl Paraben, Ethyl Paraben, Propyl Paraben etc in research laboratory are in progress to expand our product offering.
- **Thiophene & Derivative:** Technology absorption along with market survey is in progress to add sizable shipment in the list of product.
- Innovating with thiophene derivatives aims to diversify our product line and capitalise on market opportunities, driving revenue growth and market expansion.
- **Ciprofloxacin HCl:** Continuous process of manufacturing of ciprofloxacin using flow reactors is under process and ready to commercialise in near future. This will increase capability to streamline our manufacturing process. This will increase production efficiency and yield.

## ANNEXURE - E (CONTD.)

- **Teneligliptin:** Intermediate required for manufacturing of Teneligliptin like PPZ derivative, butyl ester development is under process.
- **Vildagliptin:** Intermediate required for manufacturing of Vildagliptin like Carbonitrile, Adamantanone development is under process.
- **Enrofloxacin:** Development of continuous processes is in process.
- **L-canitine intermediate:** Process Development of CPT i.e. L-canitine intermediate done at lab scale.
- **Alpha lipoic acid:** Process development done at lab and pilot level up to intermediate stage. Final product process development for further yield improvement is in process.
- **Fluconazole inter-mediates:** Fluconazole epoxy mesylate & Fluconazole epoxy free base intermediate with market specification developed. Process optimisation with improved quality and yield done.
- New process development with the zero or minimum effluent either by recycling it or by recovering byproducts from it, is under progress.
- Taurine and n-pentyl glycol process literature survey is under progress.

## 3. RESEARCH AND DEVELOPMENT (R&D)

The Company's R&D centre at plot no. E-1, MIDC Industrial Area, Tarapur, recognised by department of science and Industry Research, Government of India, carries on R&D activities for developing technology, scale-up and its transfer to manufacturing location for commercialisation of APIs and intermediates as well.

### (A) Specific areas in which R&D carried out by the Company during the FY 2024-25

The focus area of the Company's R&D effort during FY 2024-25 includes:

- **Metformin HCl:** Alternative process with Eco-friendly solvent technologies is developed, aligned with sustainable manufacturing practices and going to be commercialised soon. The process has improved yield, quality and decreased hazardous waste. Impurities in the product are also reduced.
- **Salicylic Acid:** Salicylic Acid process commercialised with absorption of chemical synthesis technologies. It is Safe, Competitive with existing manufacturers and environment friendly.
- **Ciprofloxacin HCl:** Continuous process of manufacturing of ciprofloxacin with the flow reactors is developed and ready to commercialise in near future.

# CORPORATE GOVERNANCE REPORT

The Company's Report on Corporate Governance for the financial year ended March 31, 2025 is in compliance with the principles of Corporate Governance as prescribed in Regulation 34(3) read with Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "Listing Regulations")

## COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Our corporate governance is a reflection of our value system, encompassing our culture, policies, and relationships with our stakeholders. Care, Integrity and Excellence are key to our corporate governance practices and performance, and ensure that we gain and retain the

trust of our stakeholders at all times. Corporate governance is an ethically-driven business process that is committed to values aimed at enhancing an organisation's capacity to create wealth. This is ensured by taking ethical business decisions and conducting business with a firm commitment to values, while meeting stakeholders' expectations. These Governance Practices help enhancement of long-term interest of Stakeholders and also help to align with our strategy 'Growth with sustainability for a sustainable growth'.

The Board fully appreciates the need for increased awareness for responsibility, transparency and professionalism in management of the Organisation. We understand that corporate governance is a journey rather than a destination, and as such, we are committed to continuous improvement.

## CORPORATE GOVERNANCE TORCH BEARERS

The Company's Corporate Governance torch bearers include Chairman, Board of Directors, Committees, Independent Directors, Company Secretary and Auditors.

## BOARD OF DIRECTORS:

The primary role of the Board of Directors ("the Board") is that of trusteeship - to protect and enhance shareholders value. The Board have a fiduciary responsibility to ensure that the Company's actions and objectives are aligned to sustainable growth and long-term value creation.

The Board is also responsible for:

- long-term business plan & strategy and monitoring its implementation.
- enhancing shareholders value and overseeing the interests of all stakeholders through effective management.
- monitoring the effectiveness of the Company's Corporate Governance practices.

## CORPORATE GOVERNANCE REPORT (CONTD.)

- d. exercising effective control on the functioning of the Company to ensure fulfilment of stakeholder expectation and long-term value creation.
- e. monitoring various code, policies and reviewing internal control systems, including internal financial controls with reference to financial statements.

The Directors take active part in the deliberations at the Board and Committee meetings and provide guidance and advice to the management on various aspects of business, governance, compliance etc.

### CHAIRMAN:

The Chairman is responsible for fostering and promoting the integrity of the Board while nurturing a culture where the Board works harmoniously for the long-term benefit of the Company and all its stakeholders. The Board and its Committees provide effective governance to the Company. The Chairman takes a lead role in managing the Board and facilitating effective communication among the Directors.

### BOARD COMMITTEES:

The Board has delegated its functioning in relevant areas to designated Board Committees to effectively deal with complex or specialised issues. For further details, see the section titled "Board Committees" in this report.

### INDEPENDENT DIRECTORS:

Considering the requirement of skill sets on the Board, eminent persons having an independent standing in their respective fields / professions and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee, for appointment, as an Independent Director on the Board. The Independent Directors plays a vital role in strengthening the Governance standards across the organisation by exercising their professional competencies.

### COMPANY SECRETARY:

The Company Secretary plays a key role in;

- Ensuring that the Board procedures are followed and reviewed regularly,
- Assisting and advising the Board on exercising the best Corporate Governance Practices,
- Providing to the Board Members collectively or individually such guidance, as they may require, with respect to their duties, responsibilities and powers,

- Reporting to the Board on Regulatory Compliances, functioning of robust framework and ensuring mitigation of regulatory risks to the best possible extent, and
- Acting as interfaces between the Company and regulatory authorities for governance matters.

### AUDITORS:

An auditor is responsible for ensuring that the organisation complies with relevant laws, regulations, and best practices. This includes reviewing financial statements, accounting policies, principles & procedures, corporate filings, and other disclosures to ensure that they are accurate, complete, and transparent.

The Board of Directors, its Committees, Chairman, Company Secretary, Executive Management, External Auditors and Internal Auditors basically determine the integrity and security of the Corporate Governance structure.

A Company's growth is inseparable from a concrete governance structure.

### BOARD OF DIRECTORS

The Board is entrusted and empowered to oversee the management, direction and performance of the Company.

### 26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Climate Change, Energy & Emission Management	Risk & Opportunity	There are risks associated with climate change such as manufacturing losses due to climate events but also offers opportunities for innovation in sustainability.	Develop climate resilience strategies and reduce carbon footprint.	Positive and Negative
2.	Sustainable Supply Chain & Responsible Procurement	Risk & Opportunity	Efficient sourcing reduces costs and environmental impact, while poor practices can lead to supply chain disruptions.  Ensuring suppliers adhere to social standards mitigates risks related to labour practices and human rights violations.	Implement stringent supplier assessments and sustainable sourcing practices.  Regular audits and collaboration with suppliers to improve environmental performance.  Imparting training on Sustainable Procurement to the key strategic suppliers.	Positive and Negative

3.	Water and wastewater management	Risk & Opportunity	Effective water management ensures resource availability and reduces environmental impact, while poor management can lead to scarcity and regulatory issues.	Implement water saving technologies and practices.  Implemented a mechanism for Zero Liquid Discharge (ZLD). Presently, 9 API manufacturing facilities out of 11 are operating on ZLD basis and remaining 2 are connected to Common Effluent Treatment Plant (CETP) for further treatment.  Further, developed Water policy to promote conservation and effective management of water resources.	Positive and Negative
4.	Waste and hazardous Materials management	Risk & Opportunity	Waste generated from our operations consists of hazardous as well as nonhazardous waste. Efficient waste management reduces environmental impact and compliance risks while offering opportunities for resource recovery.	Implement comprehensive waste reduction and recycling programmes.  Adopted following methods and techniques to manage and dispose of waste material generated at site for preventing pollution, conserving natural resources, protecting human health environment:  - Reduction at source - Hazardous waste management - Waste-to-energy - Landfilling - Recycling - Incineration	Positive and Negative
5.	Occupational Health & Safety	Risk	As a responsible manufacturing Company, it is responsibility of the Company to safeguard the health and safety of individuals.  Ensuring occupational health and safety prevents workplace accidents, reduces absenteeism, and complies with regulations.	Implement robust health and safety programmes and training.  Provision of various safety trainings, safety initiatives and mock drills to ensure proactive hazard identification and risk management.	Negative

7.	Product Safety	Risk	Ensuring product quality and safety protects consumer health, complies with regulations, and maintains reputation of the Company. Any deficiency in the product quality and safety has high adverse impacts like loss of revenue, reputational damage and regulatory actions.	Implement rigorous quality control and safety testing procedures.  Company is focusing in its QA and QC function.	Negative
8.	Corporate Governance	Risk & Opportunity	Compliance with laws and regulations is essential to have a good corporate image, smooth operations and create long term stakeholder value. Ethical breach or non-compliances can affect stakeholder trust and regulatory action. Strong corporate governance facilitates responsible decision-making and financial transparency, vital for investor attraction.	Implement comprehensive compliance programmes and regular audits.  Periodical review of Corporate Governance norms to improve the governance standards and compliance with such standards by the Company.  Further, Board and Audit committee ensures conflicts of interest are effectively prevented and mitigated crucially.	Positive and Negative
9.	Business Ethics	Risk	Upholding high ethical standards mitigates risks related to legal issues and reputational damage.	Implement robust ethics training and compliance programmes.  We have in place stringent and comprehensive Code of Conduct and policies to ensure ethical behaviour at all levels.	Negative
10.	Economic Performance	Risk & Opportunity	Strong economic performance ensures business viability, while poor performance can threaten sustainability.	Implement robust financial management and strategic planning.	Positive and Negative

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORTING (CONTD.)

**PRINCIPLE 2: Businesses should provide goods and services in a manner that is sustainable and safe**

### Essential Indicators

- Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.**

	FY 2024-25	FY 2023-24	Details of improvements in environmental and social impacts
R&D	11%	7.06%	Note 1
Capex	10.85%	18.29%	Note 2

#### Note 1:

The Company's investments in Research and Development (R&D) have driven significant environmental advancements, highlighting its dedication to sustainable innovation and eco-friendly practices:

#### Vacuum Oven (121 L):

- Energy Conservation:** Incorporating vacuum ovens into R&D activities has helped reduce overall energy usage, which in turn lowers greenhouse gas emissions and contributes to a reduced carbon footprint.
- Minimised Waste Generation:** Operating at lower temperatures helps preserve material quality during processing, thereby reducing material wastage and conserving valuable resources.

#### Refrigerator/Freezer (400 L):

- Lower Emissions:** The use of energy-efficient refrigeration systems decreases power consumption, supporting the reduction of greenhouse gas emissions and enhancing overall energy savings.
- VOC Management:** Proper storage of volatile substances helps limit the emission of volatile organic compounds (VOCs), leading to improved indoor air quality and safer laboratory conditions.

#### Fume Hood (3900 mm W x 11000 mm D x 1580 mm H):

- Enhanced Air Quality:** Fume hoods effectively control and capture hazardous gases, vapors, and dust during lab operations, preventing their release into the environment.
- Environmental Compliance:** Using fume hoods helps to ensure adherence to environmental and occupational safety regulations, safeguarding both employee well-being and the surrounding ecosystem.

#### Ultrasonic Cleaning Bath:

- Efficient Water Usage:** Compared to traditional cleaning methods, ultrasonic baths use significantly less water, supporting water conservation efforts.
- Reduced Chemical Usage:** This method minimises the need for strong chemical agents, lowering the chemical load and promoting a cleaner, more sustainable operation.

#### Overall Impact:

These R&D infrastructure upgrades reflect the Company's commitment to sustainable innovation. By focusing on energy efficiency, resource conservation, and pollution control, the Company strengthens its environmental responsibility while maintaining operational excellence and industry leadership.

#### Note 2:

The Company's capital investments have brought about substantial environmental and social benefits, underscoring its commitment to sustainability and responsible business practices. Key benefits include:

- Improved Energy Efficiency and Emission Control:** Upgrades such as replacing boiler smoke tubes and enhancing condenser systems have significantly increased operational efficiency. These improvements have led to reduced fuel usage and lower greenhouse gas emissions, contributing to efforts to combat climate change and advance toward a low-carbon economy.

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORTING (CONTD.)

- Sustainable Solvent Recovery and Waste Handling:** The integration of solvent recovery units and dedicated storage for solid waste has helped decrease emissions of Volatile Organic Compounds (VOCs) and reduced hazardous waste generation. This environmentally responsible approach promotes pollution control, conserves resources, and supports a cleaner ecosystem.
- Fire Safety and Emission Monitoring:** Advanced fire hydrant systems and real-time stack monitoring equipment helps to prevent environmental hazards and control pollutant emissions. These systems reinforce regulatory compliance, safeguard air quality, and protect community health.
- Closed-loop Systems and Efficient Cleaning Methods:** The implementation of closed SCADA-based systems and ultrasonic cleaning technologies reduces VOC emissions and lowers water usage. These eco-conscious practices are aligned with environmental norms and promote efficient and responsible use of water.
- Co-Generation and Optimised Emission Dispersion:** The use of co-generation boilers enables simultaneous production of heat and power, ensuring optimal use of waste heat. High-elevation chimney designs aid in the effective dispersion of gases, minimizing environmental and health impacts at the ground level.
- Reverse Osmosis for Efficient Water Management:** Reverse osmosis technology helps conserve water while also reducing reliance on chemical treatment. This dual benefit enhances sustainable water management and supports long-term resource conservation.
- Cleaner Air with Air Preheaters and Scrubbers:** Air preheaters reclaim heat from flue gases, reducing energy demand, while scrubbers capture airborne pollutants, thereby improving air quality. These technologies contribute to reduced environmental impact and healthier conditions for workers and nearby populations.
- Employee Health and Safety Enhancements:** The establishment of occupational health centres and provision of safety equipment like Self-Contained Breathing Apparatus (SCBA) sets demonstrate a strong commitment to employee safety. These initiatives promote a healthier workforce, reduce medical risks, and improve workplace productivity.

**Conclusion:** The Company's capital investments are generating tangible environmental and social benefits. By adopting advanced, sustainable technologies and prioritizing responsible practices, the Company supports environmental protection, efficient resource use, and employee well-being. These efforts are closely aligned with ESG values, strengthening the Company's position as a trusted and accountable industry leader in the eyes of stakeholders and investors.

- Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes, we have developed a set of questionnaires as part of our Integrated Management System to evaluate critical suppliers. These questionnaires include certain criteria related to sustainability. Vendors are assessed based on their responses. We have policies in place such as Supplier Code of Conduct and Responsible Procurement Policy that comprehensively cover ESG issues.

- If yes, what percentages of inputs were sourced sustainably?**

Most of the Company's raw materials, which during the FY account to approx. ~24% of the total purchase, are sourced from leading Indian and multinational companies which have their own sustainability targets and goals. The Company works closely with its suppliers throughout its value chain to ensure they align with its ESG objectives and priorities.

- Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.**

Aarti Drugs is dedicated to adopting waste management practices that go beyond regulatory compliance. We have proactively implemented various measures to reduce waste generation and ensure that all waste is handled in an environmentally responsible way. Our approach is guided by the following key principles:

- Plastic Waste (Including Packaging):**

We follow a systematic process of collection and segregation of plastic waste, as per the classifications outlined in the Plastic Waste Management Rules. All plastic waste generated at our site is sorted accordingly and stored in

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORTING (CONTD.)

a designated area before being sent to certified plastic recyclers. These recyclers convert the plastic into reusable materials.

Additionally, we practice internal reuse by reusing plastic bags for the same materials and re-purposing containers for storage. Our plastic waste management fully adheres to Extended Producer Responsibility (EPR) requirements.

### b) E-Waste Management:

We have established dedicated E-waste collection points within the facility. Before disposal, all data-containing devices are thoroughly wiped to ensure the safe handling of sensitive information. The E-waste is then handed over to authorised recyclers for proper processing and material recovery. We maintain a detailed inventory of E-waste generated and stored to ensure traceability and accountability.

### c) Hazardous Waste Management:

Hazardous waste is managed with utmost care and is stored in a dedicated hazardous waste storage area within the premises. Disposal is carried out strictly in accordance with the routes and agencies approved by the Pollution Control Boards, and in full compliance with the Hazardous and Other Wastes (Management and Trans-boundary Movement) Rules, 2016. Disposal records are maintained digitally and are readily accessible to the regulatory authorities.

We also ensure timely adoption of any updates or amendments to applicable environmental regulations, reinforcing our commitment to sustainable and compliant waste management.

### d) Fly Ash Disposal:

Fly ash generated from our boiler operations is collected and stored in a designated covered storage area to prevent environmental contamination. It is then supplied to authorised agencies such as brick-making units for productive reuse. All transportation and disposal of fly ash are conducted in compliance with the guidelines issued by the State Pollution Control Boards, ensuring zero adverse impact on the environment.

We also ensure timely adoption of any updates or amendments to applicable environmental regulations, reinforcing our commitment to sustainable and compliant waste management.

## 4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, the entity falls under the scope of Extended Producer Responsibility (EPR). A plastic waste management plan, in alignment with EPR guidelines, has been submitted to the Pollution Control Board under the categories of Brand Owner and Importer.

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORTING (CONTD.)

### PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

#### Essential Indicators

#### 1. Describe the processes for identifying key stakeholder groups of the entity.

Our company has a process for identifying key stakeholder groups that is based on the following steps:

- We define the Company's business and its operations. This helps us to identify the groups of people who are most directly affected by the Company's activities.
- We identify the groups of people who have a vested interest in the Company's success. These groups of people are likely to be the most important stakeholders, as they have the potential to impact the Company's performance.
- We assess the influence and impact of each stakeholder group. This helps us to prioritise our stakeholder engagement efforts.
- We develop a stakeholder engagement strategy. This strategy helps us to build relationships with our stakeholders and to ensure that we are meeting their needs.

We have identified the following key stakeholder groups:

**Employees:** Employees are the lifeblood of our company, and they play a critical role in our success. Employees are also the most directly affected by the Company's activities, so they are likely to be one of the most important stakeholder groups.

**Customers:** Customers are the people who buy our products or services. Customers are also the ones who are most affected by the quality of our products or services. Therefore, customers are another important stakeholder group that we need to consider.

**Suppliers:** Suppliers provide us with the raw materials and other inputs that we need to produce our products or services. Suppliers are also affected by the Company's activities, as they may be impacted by the Company's demand for their products or services.

**Investors and shareholders:** Investors and shareholders are the people who own the Company. They are interested in the Company's performance, as they want to see their investment grow in value. Therefore, investors and shareholders are another important stakeholder group that we need to consider.

**Communities:** The communities in which we operate are also important stakeholders. These communities are affected by the Company's activities, as they may be impacted by the Company's pollution or its impact on the local economy.

**Government and regulatory bodies:** Government and regulatory bodies are also important stakeholders, as they have the power to regulate the Company's activities. We need to work with government and regulatory bodies to ensure that we are in compliance with the law.

We believe that these stakeholder groups are the most important to our company's success. We will continue to engage with these groups in order to build strong relationships and to ensure that we are meeting their needs.

#### 2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

#### 5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, we have established a comprehensive Zero Liquid Discharge (ZLD) system. At present, 9 out of our 11 API manufacturing units operate on a ZLD basis, ensuring that all wastewater is treated and reused within the facility. The remaining 2 units are connected to a Common Effluent Treatment Plant (CETP) for appropriate external treatment.

Our key manufacturing sites are equipped with advanced infrastructure to support ZLD, including Multiple Effect Evaporators (MEE), Mechanical Vapour Recompression (MVR) systems, Effluent Treatment Plants (ETP), and on-site distillation units. These technologies enable us to treat and recycle wastewater effectively.

Wherever effluent discharge is applicable, we ensure that the treated water complies with all relevant environmental regulations. This reflects our commitment to sustainable operations and responsible water management.

### 10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Aarti Drugs Limited follows robust waste management practices with a strong focus on reducing waste sent to landfill. Our approach aims to prevent pollution, conserve natural resources, and protect human health and the environment.

#### a) Reduction at Source:

We minimise hazardous waste generation at its origin by:

- Recycling reactants to the maximum possible extent

## BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORTING (CONTD.)

- Improving processes through research and development
- Using reusable products
- Reducing packaging material

### b) Hazardous Waste Management:

We adopt specialised practices such as:

- Using dedicated facilities for different waste categories
- Following safe handling procedures, including labelling of hazardous waste bags and drums
- Implementing the manifest system as per MPCB guidelines

### c) Waste-to-Energy:

Hazardous waste with high calorific value is segregated and sent to cement industries for energy recovery through incineration.

### d) Landfilling:

Hazardous waste with low calorific value and meeting landfill criteria is sent to CHWTSDF facilities for safe disposal, where it is buried and covered with soil.

### e) Recycling:

Waste with reusable potential is recovered and reused wherever feasible.

### f) Incineration:

Hazardous waste requiring controlled incineration is sent to CHWTSDF facilities for safe disposal through incineration.

### 11. ## INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF

**AARTI DRUGS LIMITED**

**Report on the Audit of the Standalone Financial Statements**

### OPINION

We have audited the accompanying standalone financial statements of **Aarti Drugs Limited** (the "Company"), which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss (including the statement on Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the financial statements (including summary of the material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025 and its profit, and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response

### INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information to the extent made available for our verification as on the date and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference

to standalone financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of accounts.
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.
  - e) On the basis of the written representations received from the directors taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
 

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer note no 30 to the standalone financial statements.
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor, Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of its knowledge and belief as disclosed in note no 47(g) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

- (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in note no 47(i) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. As stated in note no 11.6 to the standalone financial statements
  - (a) The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with Section 123 of the Act.
  - (b) The Company has not proposed final dividend in the previous year; hence Section 123 of the Act, is not applicable in this regard.

- vi. Reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014, and proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from 1st April 2023.

Based on our examination which included test checks, the Company has used accounting software for maintaining books of account which has a feature of recording audit trail (edit log) facility. However, in the absence of any control report showing operations of audit trail feature throughout the year, we are unable to comment on the same. Further, the feature of recording audit trail was not enabled at the application layer of the accounting software used for maintaining general ledgers for master fields and database level to log any direct changes for the accounting software used for maintaining the books of accounts.

In addition, in the absence of any control reports showing the records of any instances of tampering of the audit trail feature and preservation of such audit trail (edit logs) as mentioned above, we are unable to comment whether the audit trail feature has been tampered with and whether the same has been preserved.

## ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Aarti Drugs Limited of even date)

**Report on the Internal Financial Controls under Clause (i) of subsection 3 of Section 143 of the Companies Act, 2013 (the “Act”)**

### OPINION

We have audited the internal financial controls with reference to standalone financial statements of **Aarti Drugs Limited** (the “Company”) as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31 March 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

### MANAGEMENTS’ RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s Management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements based on our audit. We conducted

our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

## ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT (CONTD.)

- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

### INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur

and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

### CORPORATE INFORMATION:

Aarti Drugs Limited ("the Company") is a public limited company incorporated and domiciled in India. Its equity shares are listed on Bombay Stock Exchange and National Stock Exchange. The registered office of Company is located at Plot No N-198, M.I.D.C, Tarapur, Village-Pamtermbhi, Dist. Palghar, Maharashtra - 401506 and is incorporated under the provisions of the Companies Act applicable in India.

The Company is primarily involved in manufacturing and marketing of Active Pharmaceutical Ingredients (API), Pharma Intermediates and Specialty Chemicals.

The financial statements have been authorised for issue by the Board of Directors at their meeting held on May 06, 2025

### Note: 1 Material Accounting Policies and Accounting Estimates and Judgements

#### 1) Basis of preparation:

##### Statement of Compliance

The Standalone Financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013, Companies (Indian Accounting Standards) Rules, 2015 as amended and relevant provisions of the Companies Act, 2013 including presentation and disclosure requirements of Division II of Schedule III of the Act as amended from time to time

Accordingly, the Company has prepared these Financial Statements which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss for the year ended March 31, 2025, the Statement of Cash Flows for the year ended March 31, 2025 and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as 'Standalone Financial Statements')

##### Classification of Assets and Liabilities:

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non - current classification of assets and liabilities.

The Statement of Cash flows have been prepared under Indirect Method.

##### Basis of Measurement

The financial statements have been prepared on a historical cost convention on the accrual basis, except for certain financial instruments that are measured at fair value, viz employee benefit plan assets.

##### Functional and presentation currency

The financial statements are presented in Indian Rupees which is the functional currency of the Company and all values are rounded to the nearest lakhs, except when otherwise indicated.

##### Use of estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, Judgement & Assumptions. These estimates, judgements & assumption affect the application of accounting policies and the reported amounts of assets & liabilities, the disclosures of contingent assets & liability at the date of the financial statement & reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgements. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and, if material, their effects are disclosed in the notes to the financial statements.

##### The following are areas involving critical estimates and judgements:

Jugements:

- Leases
- Estimation of income tax payable and income tax expense in relation to an uncertain tax position
- Provisions and Contingencies

Estimates:

- Impairment
- Accounting for Defined benefit plans
- Useful lives of property, plant and equipment and intangible assets - Fair Valuation of Financial instruments
- Valuation of inventories

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

### 2) Revenue recognition:

#### Revenue from contract with customer

Ind AS 115 applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. Ind AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. It also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

- (i) Sale of goods: Revenue from sale of goods is recognised when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations. Income from services rendered is recognised based on agreements/ arrangements with the customers as the service is performed and there are no unfulfilled obligations. The Company recognises revenue from goods sold and services rendered at Transaction Price which is the amount of consideration the Company expects to be entitled to in exchange for transferring promised goods or services to a customer, excluding the amounts collected on behalf of a third party. The Transaction price is net of discounts, sales incentives, rebates granted, returns, sales taxes, GST and duties and any other recoverable taxes.

Generally, in case of domestic sales, performance obligations are satisfied when the goods are dispatched or delivery is handed over to transporter, revenue from export of goods is recognised at the time of Bill of lading or airway bill or any other similar document evidencing delivery thereof.

- (ii) Interest Income: Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principle outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

- (iii) Dividend income: Dividend income is recognised when the right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

- (iv) Export benefits: Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

### 3) Property, plant and equipment (PPE):

All items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost of PPE comprises its purchase price (including the costs of materials / components, cost of acquisition, installation or construction) net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets including exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs and such other incidental costs that may be associated with acquisition or creation of the asset ready for its intended use.

When significant parts of plant and equipment are required to be replaced at intervals, the same is depreciated separately based on their specific useful lives. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred.

Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest.

Capital expenditure on property, plant and equipment for research and development is classified under property, plant and equipment and is depreciated on the same basis as other property, plant and equipment.

An item or part of PPE is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit & Loss as and when the asset is derecognised.

#### Intangible Assets:

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment. Administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets. Intangible development costs are capitalised as and when technical and commercial feasibility of the asset is demonstrated and future economic benefits are probable.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

#### Research and Development:

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:-

- development costs can be measured reliably;-
- the product or process is technically and commercially feasible;
- future economic benefits are probable; and
- the Company intends to and has sufficient resources to complete development and to use or sell the asset.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated

impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

#### Depreciation:

Depreciable amount of all items of property, plant and equipment is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation for Property, plant and equipment are provided on straight line method, over the useful life of the assets, as specified in Schedule II to the Companies Act, 2013.

#### Leasehold Land is amortised over the tenure of lease.

Property, plant and equipment which are added / disposed off during the year, depreciation is provided on pro-rata basis.

The asset's residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively; if appropriate an asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

#### Impairment

The Company assesses at each reporting the carrying amounts of its property, plant and equipment, intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. Impairment loss, if any, is provided to the extent that the carrying amount of assets exceeds their recoverable amount. Recoverable amount is higher of net selling price of an asset or its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

#### Non-current assets held for sale

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach), which include unobservable inputs. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" and its recoverable amount at the date of the subsequent decision not to sell. Recoverable amounts of assets reclassified from "Held for Sale" have been estimated using the Management's assumptions.

### 4) Inventories:

Raw materials, packing materials, store & spares, traded goods and Work in progress are valued at the lower of cost and net realisable value. The cost of Raw materials, packing materials, store & spares and traded goods includes all cost of purchase, duties and taxes (other than those subsequently recoverable from the tax authorities) and all other cost incurred in bringing the inventory to its present location and conditions. Cost is arrived on moving stock on FIFO basis.

Finished goods are valued at lower of cost and net realisable value. The cost of finished goods and Work in progress have been computed to include all cost of purchases, cost of conversion, appropriate share of fixed production overheads based on normal operating capacity and other related cost incurred in bringing the inventories to their present condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. Slow and non-moving material, obsolesces, defective inventory are provided for and valued at net realisable value.

Goods and material in transits are valued at cost incurred upto to the date of balance sheet.

### 5) Retirement and other employee benefits:

#### Defined contribution plans

Payments to defined contribution plans are charged as an expense as they fall due. Payments made to state managed retirement benefit schemes are dealt with as payments to defined contribution schemes where the Company's obligations under the schemes are equivalent to those arising in a defined contribution retirement benefit scheme.

#### Defined benefit plans

For defined benefit retirement schemes the cost of providing benefits is determined using the

Projected Unit Credit Method, with actuarial valuation being carried out at each balance sheet date. Re-measurement gains and losses of the net defined benefit liability/ (asset) are recognised immediately in other comprehensive income. The service cost and net interest on the net defined benefit liability/ (asset) is treated as a net expense within employment costs. Past service cost is recognised as an expense when the plan amendment or curtailment occurs or when any related restructuring costs or termination benefits are recognised, whichever is earlier. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value plan assets.

### 6) Foreign Currency Transactions:

Transaction denominated in foreign currencies is recorded at the exchange rate that approximates the actual rate prevailing at the date of the transaction. Monetary item denominated in foreign currency remaining unsettled at the year-end are translated at year end rates. Differences arising on settlement or conversion of monetary items are recognised in statement of profit and loss. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transactions. Premium in case of forward contracts is dealt with in the Profit and Loss Account proportionately over the period of contracts. The exchange differences arising on settlement/ translation are dealt with in the Statement of Profit and Loss.

### 7) Leases (as a lessee):

The company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any,

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following: –

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

### 8) Income Taxes:

Income tax expense comprises of current tax expense and deferred tax expenses.

Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items

that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### Current income tax:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act of the respective jurisdiction. The current tax is calculated using tax rates that have been enacted or substantively enacted, at the reporting date.

#### Deferred tax:

Deferred tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred tax liabilities are recognised for all taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

### 9) Borrowing Costs:

Borrowing costs include interest, other costs incurred in connection with borrowing and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to the interest cost. General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

are substantially ready for their intended use or sale. Premium in the form of fees paid on refinancing of loans are accounted for as an expense over the life of the loan using effective interest rate method. All other borrowing costs are recognised in the Statement of profit and loss in the period in which they are incurred.

### 10) Provisions and Contingent Liabilities and Contingent Assets

#### Provisions:

Provisions for legal claims, chargeback and sales returns are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

#### Contingent Liabilities:

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

#### Contingent Assets

Contingent Assets are not recognised in the financial statements. Contingent Assets if any, are disclosed in the notes to the financial statements

### 11) Financial assets, financial liabilities, equity instruments and impairment of financial assets

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

#### Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets. The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

#### Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

#### Equity Investments

All equity investments (excluding the investments in Subsidiaries) in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

#### Investment in subsidiaries

Investment in subsidiaries are measured at cost less impairment loss, if any.

#### Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method. Other financial liabilities (including loans and borrowings, bank overdrafts and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and amounts paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost on initial recognition.

Interest expense (based on the effective interest method), foreign exchange gains and losses, and any gain or loss on derecognition is recognised in the Statement of Profit and Loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments

#### De-recognition of Financial Instruments:

The Company derecognises a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for de-recognition under Ind AS 109. In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognise such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognises an associated liability. The financial asset and the associated liability

are measured on a basis that reflects the rights and obligations that the Company has retained.

A Financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in the Statement of Profit and Loss

#### Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

#### Impairment of Financial Assets:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of all Financial Assets subsequent to initial recognition other than financial assets measured at fair value through profit and loss (FVTPL). The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward-looking estimates are analysed. For other financial assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk since its initial recognition. If there is significant increase in credit risk since its initial recognition full lifetime ECL is used. The impairment losses and reversals are recognised in Statement of Profit and Loss. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

### 12) Events after the reporting period

Events after the reporting period are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are approved by the Board of Directors in case of a company, and, by the

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

corresponding approving authority in case of any other entity for issue.

### Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period); and
- those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period).

### 13) Cash and cash equivalents

For the purpose of presentation in the Balance sheet, Cash and Cash equivalents comprises cash at bank and on hand and other short-term, highly liquid investments with an original maturity (or with an option to or can be readily converted or liquidated into cash) of three months or less, which are subject to an insignificant risk of changes in value. Cash and Cash

Equivalents consist of balances with banks which are unrestricted for withdrawals and usages.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash at bank and on hand and other short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### 14) Recent Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

### 36. CAPITAL MANAGEMENT:

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is debt divided by total capital. Debt is calculated as loans and borrowings plus lease liabilities

### 37. FINANCIAL RISK MANAGEMENT:

The Company's principal financial liabilities comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company is exposed to credit risk, market risk and liquidity risk. The Company's senior management oversees the management of these risks.

#### Company has exposure to following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

#### I. Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and mutual funds, foreign exchange transactions and other financial instruments.

#### Credit risk management.

To manage the credit risk, the Company follows an adequate credit control policy and also has an external credit insurance cover with ECGC policy & HDFC ERGO General Insurance Company Limited. The requirement of assessing the impairment loss on trade receivables does not arise, since the collectability risk is mitigated. Bank balances are held with banks and majority of other security deposits are placed majorly with government/statutory agencies.

Less: Provision written off	0.00	0.00
Less : Provision Reversed	99.17	63.73
Closing Provisions	469.72	226.34

#### II. Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt, and overdraft from banks at an optimised cost. Working capital requirements are adequately addressed by internally generated funds. Trade receivables are kept within manageable levels.

#### Liquidity Risk Management

The Company's corporate treasury department is responsible for liquidity and funding as well as settlement. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

### III. Market Risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices– will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

The Company's activities are expose to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates.

#### Foreign currency risk

The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities in exports and imports which is majorly in US dollars. Hence, to combat the foreign currency exposure, the Company follows a policy wherein the net sales are hedged By forward Contract.

## INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF  
**AARTI DRUGS LIMITED**

**Report on the Audit of the Consolidated Financial Statements**

### OPINION

We have audited the accompanying Consolidated financial statements of **Aarti Drugs Limited** (the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including the statement on Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year ended on that date and notes to the consolidated financial statements (including summary of the material accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025 and its consolidated profit, and consolidated total comprehensive income,

consolidated changes in equity and its consolidated cash flows for the year ended on that date.

### BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

### INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information to the extent made available for our verification as on date of this report and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of directors of the companies included in the Group are also responsible for overseeing the Company's financial reporting process.

### AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### OTHER MATTERS

- I. Financial Results of Subsidiaries not audited by us.

We did not audit the financial statements/financial information of 1 foreign subsidiary, whose financial statements/financial information reflect total assets of Rs. 6,174.34 Lakhs as at 31 March 2025, and total

revenues of Rs. 4,521.39 Lakhs and total net loss after tax of Rs. 123.04 Lakhs and cash outflow (net) of Rs. 246.75 Lakhs for the year ended 31 March 2025 as considered in the consolidated financial statements. These financial statements/financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of Sub-Sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditors.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/financial information certified by the Management.

Our opinion is not modified in respect of the above matters.

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- As required by Section 143(3) of the Act, based on our audit we report that:
  - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
  - In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with respective underlying books of accounts of holding company and its subsidiaries maintained for the purpose of preparation of the consolidated financial statements maintained for the purpose of preparation of the Consolidated Financial Statements.

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2025 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements of the Group and the operating effectiveness of such controls, refer to our separate Report in **"Annexure A"**.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Consolidated Financial Statements disclose the impact of pending litigations on its consolidated financial position of the Group – Refer note 30 to the consolidated financial statements.
  - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor, Education and Protection Fund by the Holding Company and its subsidiary companies.
  - iv. (a) The Management of the Holding Company and its subsidiaries which are companies incorporated in India, whose Financial Statements have been audited under the Act, have represented that, to the best of its knowledge and belief, other than disclosed in note no 40(g) to the consolidated financial statements, no funds have been advanced or loaned or invested

(either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The respective Management of the Holding Company and its subsidiaries which are companies incorporated in India, whose Financial Statements have been audited under the Act, have represented, that, to the best of its knowledge and belief, other than disclosed in note no 40(i) to the consolidated financial statements, no funds have been received by the Holding Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Holding Company and its subsidiaries which are companies incorporated in India, whose Financial Statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

## INDEPENDENT AUDITOR'S REPORT (CONTD.)

- v. As stated in note no 11.6 to the standalone financial statements,
  - (a) The interim dividend declared and paid by the Holding Company during the year and until the date of this audit report is in accordance with Section 123 of the Act.
  - (b) The Holding Company has not proposed final dividend in the previous year; hence Section 123 of the Act, is not applicable in this regard.
- vi. Reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014, and proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from 1st April 2023.

Based on our examination which included test checks, the Company and its Indian subsidiaries have used accounting softwares for maintaining books of account which have a feature of recording audit trail (edit log) facility. However, in the absence of any control report showing operations of audit trail feature throughout the year, we are unable to comment on the same, except for one of the subsidiary companies wherein it is operated throughout the year and is not tempered with. Further, the feature of recording audit trail was not enabled at the application layer of the accounting software used for maintaining general ledgers for

master fields and database level to log any direct changes for the accounting software used for maintaining the books of accounts.

In addition, in the absence of any control reports showing the records of any instances of tampering of the audit trail feature and preservation of such audit trail (edit logs) as mentioned above, we are unable to comment whether the audit trail feature has been tampered with and whether the same has been preserved.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/"CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Holding Company and its subsidiaries included in the consolidated financial statements, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

## ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Aarti Drugs Limited of even date)

Report on the Internal Financial Controls under Clause (i) of subsection 3 of Section 143 of the Companies Act, 2013 (the "Act")

### OPINION

We have audited internal financial controls with reference to consolidated financial statements of Aarti Drugs Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (together referred to as "the Group") as of 31 March 2025 in conjunction with our audit of the consolidated financial statements of the Group for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in the Other Matters paragraph, the Holding Company and its subsidiaries, which are incorporated in India, have, in all material respects, an adequate internal financial and such internal financial controls with reference to consolidated financial statements were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### MANAGEMENTS' RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company and its subsidiaries are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Holding Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements include obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to consolidated financial statements.

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability

## ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT (CONTD.)

of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Group's assets that could have a material effect on the consolidated financial statements.

### INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial

statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### OTHER MATTERS

Our aforesaid reports under Section 143(3)(i) of the Act, on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates to financial statements of subsidiary companies, to the extent applicable, are based on the corresponding reports of the auditors of such company.

Our opinion is not modified in respect of this matter.

### Note: 1 Material Accounting Policies and Accounting Estimates and Judgements

#### 1) Basis of preparation:

##### Statement of Compliance

These financial Statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013, Companies (Indian Accounting Standards) Rules, 2015 as amended and relevant provisions of the Companies Act, 2013 including presentation and disclosure requirements of Division II of Schedule III of the Act as amended from time to time.

Accordingly, the Group has prepared these Financial Statements which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss for the year ended March 31, 2025, the Statement of Cash Flows for the year ended March 31, 2025 and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as 'Consolidated Financial Statements')

### Classification of Assets and Liabilities:

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non - current classification of assets and liabilities.

The Statement of Cash flows have been prepared under Indirect Method.

### Basis of Measurement

The financial statements have been prepared on a historical cost convention on the accrual basis, except for certain financial instruments that are measured at fair value, viz employee benefit plan assets.

### Functional and presentation currency

The financial statements are presented in Indian Rupees which is the functional currency of the group and all values are rounded to the nearest lakhs, except when otherwise indicated.

### Use of estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, Judgement & Assumptions. These estimates, judgements & assumption affect the application of accounting policies and the reported

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

amounts of assets & liabilities, the disclosures of contingent assets & liability at the date of the financial statement & reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgements. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and, if material, their effects are disclosed in the notes to the financial statements.

The following are areas involving critical estimates and judgements:

Judgements:

- Leases
- Estimation of income tax payable and income tax expense in relation to an uncertain tax position
- Provisions and Contingencies

Estimates:

- Impairment
- Accounting for Defined benefit plans
- Useful lives of property, plant and equipment and intangible assets - Fair Valuation of Financial instruments
- Valuation of inventories

### Principles of Consolidation:

- The Consolidated Financial Statements have been prepared in accordance with Indian Accounting Standard (Ind AS) 110 - Consolidated Financial Statements.
- The Consolidated Financial Statements are prepared using the Financial Statements of the Parent Company and Subsidiary Companies drawn up to the same reporting date i.e March 31, 2025. Subsidiary Companies are all the entities over which the Group has control. Subsidiary companies are consolidated on the date on which control is transferred to the Group. The Group re assesses whether or not it controls an investee if facts and circumstances indicate that there are one or more changes to elements of control described above.

- In case of Foreign Subsidiary revenue items are consolidated at the average rate prevailing during the period. All Assets (except Fixed Assets) and liabilities are converted at the rates prevailing at the end of the year. In case of Fixed Assets the same is consolidated at the rate applicable in the year of acquisition of the said assets. Any exchange difference arising on consolidation is recognised as Translation difference in Reserves & Surplus.

### (iv) Process of Consolidation

- Combine like items of assets, liabilities, other equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intra group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any interest retained in the form of subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the statement of profit and loss.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

(v) Non Controlling Interest in net profits of consolidated subsidiaries for the year is identified and adjusted against the income in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance sheet separately.

(vi) As far as possible the consolidated financial statements have been prepared using uniform Accounting Policies for like transactions and other events in similar circumstances. Differences in Accounting Policies if any will be disclosed separately.

### (2) Revenue recognition:

#### Revenue from contract with customer

Ind AS 115 applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. Ind AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. It also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

(i) **Sale of goods:** Revenue from sale of goods is recognised when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations. Income from services rendered is recognised based on agreements/ arrangements with the customers as the service is performed and there are no unfulfilled obligations. The Group recognises revenue from goods sold and services rendered at Transaction Price which is the amount of consideration the Group expects to be entitled to in exchange for transferring promised goods or services to a customer, excluding the amounts collected on behalf of a third party. The Transaction price is net of discounts, sales incentives, rebates granted, returns, sales taxes, GST and duties and any other recoverable taxes.

Generally, in case of domestic sales, performance obligations are satisfied when the goods are dispatched or delivery is handed over to

transporter, revenue from export of goods is recognised at the time of Bill of lading or airway bill or any other similar document evidencing delivery thereof.

(ii) **Interest Income:** Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principle outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(iii) **Dividend income:** Dividend income is recognised when the right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

(iv) **Export benefits:** Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

### 3) Property, plant and equipment (PPE):

All items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost of PPE comprises its purchase price (including the costs of materials / components, cost of acquisition, installation or construction) net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, including relevant borrowing costs for qualifying assets including exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs and such other incidental costs that may be associated with acquisition or creation of the asset ready for its intended use.

When significant parts of plant and equipment are required to be replaced at intervals, the same is depreciated separately based on their specific

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

useful lives. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred.

Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest.

Capital expenditure on property, plant and equipment for research and development is classified under property, plant and equipment and is depreciated on the same basis as other property, plant and equipment.

An item or part of PPE is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit & Loss as and when the asset is derecognised.

#### Intangible Assets:

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the Group and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment. Administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets. Intangible development costs are capitalised as and when technical and commercial feasibility of the asset is demonstrated and future economic benefits are probable.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

#### Research and Development:

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:-

- development costs can be measured reliably;-
- the product or process is technically and commercially feasible;
- future economic benefits are probable; and
- the group intends to and has sufficient resources to complete development and to use or sell the asset.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

#### Depreciation:

Depreciable amount of all items of property, plant and equipment is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation for Property, plant and equipment are provided on straight line method, over the useful life of the assets, as specified in Schedule II to the Companies Act, 2013.

Leasehold Land is amortised over the tenure of lease, Property, plant and equipment which are added / disposed off during the year, depreciation is provided on pro-rata basis.

The asset's residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively; if appropriate an asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

#### Impairment

The Group assesses at each reporting the carrying amounts of its property, plant and equipment, intangible

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

assets to determine whether there is any indication that those assets have suffered an impairment loss. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. Impairment loss, if any, is provided to the extent that the carrying amount of assets exceeds their recoverable amount. Recoverable amount is higher of net selling price of an asset or its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

### Non-current assets held for sale

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach), which include unobservable inputs. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured

at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" and its recoverable amount at the date of the subsequent decision not to sell. Recoverable amounts of assets reclassified from "Held for Sale" have been estimated using the Management's assumptions.

### 4) Inventories:

Raw materials, packing materials, store & spares, Traded goods and Work in progress are valued at the lower of cost and net realisable value. The cost of Raw materials, packing materials, store & spares and traded goods includes all cost of purchase, duties and taxes (other than those subsequently recoverable from the tax authorities) and all other cost incurred in bringing the inventory to its present location and conditions. Cost is arrived on moving stock on FIFO basis.

Finished goods are valued at lower of cost and net realisable value. The cost of finished goods and Work in progress have been computed to include all cost of purchases, cost of conversion, appropriate share of fixed production overheads based on normal operating capacity and other related cost incurred in bringing the inventories to their present condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. Slow and non-moving material, obsolesces, defective inventory are provided for and valued at net realisable value.

Goods and material in transits are valued at cost incurred upto to the date of balance sheet.

### 5) Retirement and other employee benefits:

#### Defined contribution plans

Payments to defined contribution plans are charged as an expense as they fall due. Payments made to state managed retirement benefit schemes are dealt with as payments to defined contribution schemes where the Group's obligations under the schemes are equivalent to those arising in a defined contribution retirement benefit scheme.

#### Defined benefit plans

For defined benefit retirement schemes the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuation being carried out at each balance sheet date. Re-measurement gains and losses of the net defined benefit liability/ (asset) are recognised immediately in other comprehensive income. The service cost and net interest on the net defined benefit liability/ (asset) is treated as a net expense within employment costs. Past service cost is recognised as an expense when the plan amendment or curtailment occurs or when any related restructuring costs or termination benefits are recognised, whichever is earlier. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value plan assets.

### 6) Foreign Currency Transactions:

Transaction denominated in foreign currencies is recorded at the exchange rate that approximates the actual rate prevailing at the date of the transaction. Monetary item denominated in foreign currency remaining unsettled at the year end are translated at year end rates. Differences arising on settlement or conversion of monetary items are recognised in statement of profit and loss. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transactions. premium in case of forward contracts is dealt with in the Profit and Loss

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

Account proportionately over the period of contracts. The exchange differences arising on settlement/ translation are dealt with in the Statement of Profit and Loss.

### 7) Leases (as a lessee):

The group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, group's incremental borrowing rate. Generally, the group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following: –

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the group is reasonably certain to exercise, lease payments in an optional renewal period if the group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the group's estimate of the amount expected to be payable under a residual value guarantee, or if group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of -use asset has been reduced to zero.

The group presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

### 8) Income Taxes:

Income tax expense comprises of current tax expense and deferred tax expenses.

Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### Current income tax:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act of the respective jurisdiction. The current tax is calculated using tax rates that have been enacted or substantively enacted, at the reporting date.

#### Deferred tax:

Deferred tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred tax liabilities are recognised for all taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

### 9) Borrowing Costs:

Borrowing costs include interest, other costs incurred in connection with borrowing and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to the interest cost. General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Premium in the form of fees paid on refinancing of loans are accounted for as an expense over the life of the loan using effective interest rate method. All other borrowing costs are recognised in the Statement of profit and loss in the period in which they are incurred.

### 10) Provisions and Contingent Liabilities and Contingent Assets

#### Provisions:

Provisions for legal claims, chargeback and sales returns are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

#### Contingent Liabilities:

Contingent liabilities are disclosed when there is a possible obligation arising from past events,

the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

#### Contingent Assets

Contingent Assets are not recognised in the financial statements. Contingent Assets if any, are disclosed in the notes to the financial statements

### 11) Financial assets, financial liabilities, equity instruments and impairment of financial assets

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired.

#### Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

financial assets. The Group has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

#### Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

#### Equity Investments

All equity investments (excluding the investments in Subsidiaries) in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. If the group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the group may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

#### Investment in subsidiaries

Investment in subsidiaries are measured at cost less impairment loss, if any.

#### Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method. Other financial liabilities (including loans and borrowings, bank overdrafts and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and amounts paid or received that form an

integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost on initial recognition.

Interest expense (based on the effective interest method), foreign exchange gains and losses, and any gain or loss on derecognition is recognised in the Statement of Profit and Loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments

#### De-recognition of Financial Instruments:

The Group derecognises a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for de-recognition under Ind AS 109. In cases where Group has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Group continues to recognise such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Group also recognises an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

A Financial liability (or a part of a financial liability) is derecognised from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in the Statement of Profit and Loss

#### Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the group after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received net of direct issue cost.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (CONTD.)

### Impairment of Financial Assets:

In accordance with Ind AS 109, the Group uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of all Financial Assets subsequent to initial recognition other than financial assets measured at fair value through profit and loss (FVTPL). The Group uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward-looking estimates are analysed. For other financial assets, the Group uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk since its initial recognition. If there is significant increase in credit risk since its initial recognition full lifetime ECL is used. The impairment losses and reversals are recognised in Statement of Profit and Loss. ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

### 12) Events after the reporting period

Events after the reporting period are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are approved by the Board of Directors in case of a group, and, by the corresponding approving authority in case of any other entity for issue.

### Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period); and
- those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period).

### 13) Cash and cash equivalents

For the purpose of presentation in the Balance sheet, Cash and Cash equivalents comprises cash at bank and on hand and other short-term, highly liquid investments with an original maturity (or with an option to or can be readily converted or liquidated into cash) of three months or less, which are subject to an insignificant risk of changes in value. Cash and Cash Equivalents consist of balances with banks which are unrestricted for withdrawals and usages.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash at bank and on hand and other short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### 14) Recent Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.
