Management Commentary

“We are thrilled to announce that we have delivered another quarter demonstrating robust performance. Our highest quarterly sales reached ~INR 586 crores. Our dedication to delivering high-quality products has resulted in an increase in market share from existing customers and the addition of new customers. Positive momentum was observed in all our major regions. The US market grew by around 16% QoQ, mostly as a result of new product launches and the strengthening of our OTC portfolio. Our efforts toward building capabilities and capacity for the acquired Teva Pharma manufacturing facility are on track and we have also started filing DMF for backward integration. Looking ahead, we are optimistic about our strategic initiatives which will drive our future growth and sustainable long-term shareholder value.”

Financial Highlights Q3FY24 – YoY Performance

₹ Cr.	Q3FY24	Q3FY23	YoY Growth %	YoY Performance
Revenue	586.1	479.8	↑ 22.2%	Revenue growth is being driven by market share gains, new launches, addition of new customers, an increase in our share with existing customers, and incremental contributions from the acquired Teva facility
Gross Profit	313.3	240.3	↑ 30.4%	Gross Profit growth is mainly on account of a reduction in rates of a few raw materials compared to last year and a better product mix
Gross Margin %	53.5%	50.1%		
EBITDA	133.0	76.6	↑ 73.6%	Consistent improvement in EBITDA margins is due to operating leverage, cost optimization, and reduction in raw material prices.
EBITDA Margin %	22.7%	16.0%		
PAT	83.0	62.3	↑ 33.2%	Improvement in PAT margin is lower than the improvement in EBITDA margin y-o-y as there is an increased tax rate in the UK from 19% last year to 25% in the current year
Net Profit Margin %	14.0%	12.5%		

Financial Highlights Q3FY24 – QoQ Performance

₹ Cr.	Q3FY24	Q2FY24	QoQ Growth %	QoQ Performance
Revenue	586.1	531.2	↑ 10.3%	The US and North American markets grew by ~16% QoQ, led by growth due to new product launches and an increase in market share from existing products.
Gross Profit	313.3	278.5	↑ 12.5%	Reduction in the price of key raw materials, moderate price erosion for Rx products, and better product mix led to an increase in gross profit
Gross Margin %	53.5%	52.4%		
EBITDA	133.0	113.9	↑ 16.8%	Improvement in EBITDA margins is due to operating leverage, consistent cost optimization initiatives, and reduction in raw material prices. However, freight costs have surged compared to last quarter due to ongoing sea route disruptions.
EBITDA Margin %	22.7%	21.5%		
PAT	83.0	83.9	↓ -1.1%	The decrease in PAT margin is due to a decrease in other income in the quarter which is mainly led by the provision of mark-to-market loss in foreign exchange.
Net Profit Margin %	14.0%	15.2%

Roadmap for the future

Roadmap for the future

Consistent Growth in Topline and Profitability

Strengthening the OTC Business

- Aim to capture a significant part of the multi-billion-dollar OTC opportunity. According to IQVIA, Global OTC Size in 2022 is \$176 billion.
- Marksans's OTC segment grew at CAGR of 18% (from FY17-FY23) Majority of revenue in OTC comes from manufacturing and selling store brands (private label manufacturing) for key retailers in key regions
- Marksans is the most preferred and growing store brand low-cost manufacturing partner

Backward Integration for sustained margin development

- Aim to expand Gross & EBITDA margin through backward integration
- Marksans is in the process of Backward integration, and API manufacturing for captive consumption of our top molecules

Supplement growth through acquisitions

- Marksans will follow calibrated inorganic growth approach
- Expansion in growing markets and EU through acquiring front-end marketing and distribution companies is the focus area
- Marksans has a strong balance sheet to support the growth

Continued product launches through a healthy product pipeline

- Strong product pipeline followed by successful launches led by continued focus on R&D
- Strong pipeline of more than 76 products.

The OTC Opportunity (1/2)
