Management's Message

Commenting on the performance for Q4 & FY2015, Mr. Vivek Saraogi, Managing Director, Balrampur Chini Mills Limited (BCML), said:

"The sugar industry is witnessing one of its worst crises owing to the huge increase in sugar production this season which led to low sugar prices. In addition, unreasonably high sugarcane prices fixed by state governments further impacted the industry. Given the large disparity in raw material and end product prices, sugar operations were highly unviable in the current season. This resulted in cane arrears across India reaching unprecedented levels of over ₹ 21,000 crore. Similarly, our sugar segment's performance was adversely impacted. The performance of the distillery and cogeneration divisions have been positive with both reporting improved sales volumes and realizations.

Linking of sugarcane prices with sugar realizations is the only sustainable solution that can restore the industry's health, which will ultimately benefit all key stakeholders. We remain hopeful that the Central and State governments will address industry concerns soon."

Company Highlights

- ❑ BCML crushed 5.41 crore quintals of cane in Q4 FY15 as against 5.69 crore quintal in Q4 FY14
 - ✓ Recovery for the quarter was higher at 9.93% as compared to 9.91% during the same period
- ❑ Cane crushed for FY15 stood at 8.06 crore quintals as against 7.73 crore quintal in FY14
 - ✓ Recovery for the year was higher at 9.83% as compared to 9.77% during the same period
- ❑ Healthy contribution to overall performance from Distillery and Con-generation segments on account of better sales volumes and realizations
