Commenting on the performance for Q4 & FY2018, Mr. Vivek Saraogi, Managing Director, Balrampur Chini Mills Limited (BCML), said:

"The sugar industry is currently going through a challenging period owing to a record domestic production which has severely depressed sugar prices. Given the large disparity in sugarcane costs and realisations, sugar operations have become unviable. This has resulted in cane arrears across India reaching levels of over Rs. 22,000 crore.

Urgent steps are required to be taken both by the Central and State Government owing to crisis being encountered by the industry which is not just sentimental rather "real" and only solution is to reduce the sugar inventory as quick as possible for clearance of cane dues and to have a economical and rationale cane price across India."
