The deemed venue of the AGM will be the Registered Office of the Company.
2. In compliance with applicable provisions of the Act read with the MCA Circulars and the Listing Regulations, the AGM of the Company is being conducted through VC/OAVM. In accordance with the Secretarial Standard-2 on General Meetings issued by the Institute of Company Secretaries of India (“ICSI”) read with Clarification/Guidance on applicability of Secretarial Standards - 1 and 2 dated 15th April, 2020 issued by the ICSI, the proceedings of the AGM shall be deemed to be conducted at the Registered Office of the Company which shall be the deemed venue of the AGM.
3. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.
4. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
5. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
6. The company has appointed M/s. Vivek Surana & Associates, Practicing Company Secretaries, as Scrutinizer of the company to scrutinize the voting process.
7. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting’s agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.
8. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at www.bhaskaragro.com. The Notice can also be accessed from the websites of the Stock Exchange i.e., BSE Limited at www.bseindia.com. The AGM Notice is

BHASKAR AGROCHEMICALS LIMITED.

also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM) i.e., www.evotingindia.com.

9. Since the AGM will be held through VC/OAVM Facility, Proxy form, Attendance Slip and the Route Map is not annexed in this Notice.

THE INSTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING AND E- VOTING DURING AGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

- (i) The remote e-voting period begins on 26.09.2025 at 09.00 A.M and ends on 28.09.2025 at 05.00 P.M. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) 22.09.2025 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

ANNEXURE – 3 MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Management Discussion and Analysis Report:

(a) Industry structure and developments:

The global economy continued to experience volatility during FY 2024-25, impacted by persistent inflationary pressures, global supply chain disruptions, and geopolitical tensions. According to IMF projections, global growth is estimated at 3.0% in 2024 and is expected to stabilize at 3.2% in 2025.

India retained its position as one of the fastest-growing major economies, with GDP growth projected at 6.7% in FY 2024-25.

The Indian agrochemical sector maintained strong growth momentum, driven by robust export demand and steady domestic consumption. The market size is estimated to have reached USD 36.5 billion, marking a growth rate of 10-12%. Technological advancements, including precision farming, drone-based spraying, IoT-enabled monitoring, and AI-driven crop protection, have continued to drive efficiencies and improve agrochemical utilization.

(b) Opportunities and Threats:

1. Opportunities

- Supportive government policies including PM-Kisan, soil health initiatives, crop insurance schemes, and higher minimum support prices.
- Rising adoption of biopesticides and sustainable farming practices, accounting for 15-18% of the domestic market.
- Growing awareness and training programs promoting responsible use of agrochemicals.

2. Threats

- Higher inventory levels in certain regions, leading to pricing pressures.
- Volatility in raw material prices due to global supply disruptions.
- Fluctuations in export demand from key international markets.
- Increasing competition from both domestic and multinational players.

3. Segment-wise / Product-wise Performance

During FY 2024-25, the Company achieved a revenue of Rs.9059.33 Lakhs compared to Rs.6,668.67 Lakhs in FY 2023-24, registering a 35.85% growth.

Profit after tax stood at Rs. 389.70 Lakhs against Rs.174.18 Lakhs in the previous year, reflecting improved operational efficiencies and better cost optimization strategies.

4. Outlook

The management remains committed to expanding product offerings, strengthening relationships with domestic and international customers, and leveraging emerging opportunities in biopesticides and export markets. However, given the highly competitive market environment, the Company maintains a cautiously optimistic outlook for FY 2025-26.

5. Risks and Concerns

The Company follows a structured Risk Management Framework to identify, monitor, and mitigate potential risks, including:

- Market Risks – Demand fluctuations and competitive pricing pressures.
- Operational Risks – Supply chain disruptions, raw material shortages, and production delays.
- Regulatory Risks – Changes in government policies and environmental regulations.
- Financial Risks – Currency volatility and interest rate fluctuations.

BHASKAR AGROCHEMICALS LIMITED.

6. Internal Control Systems and Adequacy

The Company has robust internal control systems designed to safeguard assets, ensure accuracy of accounting records, and enhance operational efficiency. Regular internal audits and system audits are conducted, and findings are reviewed by the Audit Committee. Corrective actions are implemented promptly to strengthen overall governance and compliance.

7. Discussion on Financial Performance

The detailed financial performance has been presented in the Board's Report under the section 'Financial Summary and Highlights'.

8. Human Resources and Industrial Relations

The Company continues to focus on talent retention, training, and employee welfare. As on 31st March 2025, the Company has 130 permanent employees, compared to 114 employees in the previous year. Employee engagement initiatives, skill development programs, and safety awareness sessions were conducted to enhance workforce efficiency and morale.

9. Significant Changes in Key Financial Ratios

INDEPENDENT AUDITOR'S REPORT

To

The Members of

Bhaskar Agrochemicals Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Bhaskar Agrochemicals Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.No.	Key Audit Matter	Auditor's Response
1	Valuation of inventories	Principal Audit Procedures
	Finished goods are valued at lower of cost or net realizable value. Considering that there is always a volatility in the selling price of the agro-chemicals, which is dependent upon various market conditions, determination of net realizable value for these chemicals involves significant management judgement.	Our principal procedures included the following, but were not limited to: a) Evaluated the design and tested operating effectiveness of internal controls over inventory valuation of finished goods. Tested the valuation of finished goods on sample basis and verified the bill of materials and tested overhead absorption;
	Therefore, it has been considered as a key audit matter.	

- b) Understood and evaluated the process relating to determination of net realizable value of finished goods;
- c) Obtained the market information for the fair values and compared them with the rates considered by the management in determining the fair values.
- d) Assessed the appropriateness of disclosures in financial statements in accordance with the applicable financial reporting framework.
- 2 Appropriateness of the Expected Credit Loss ("ECL") provision in respect of trade receivables carried at amortized cost:
(Refer Note 9 and Note 48.1(b) to the Ind AS financial statements)
- The Company has trade receivables aggregating to Rs. 226853.35 Thousands as at March 31, 2025, in respect of which the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, and recognises expected lifetime losses from initial recognition of the receivables. The provision for ECL as at March 31, 2025 is Rs. 4895.46 Thousands.
- This is determined as a key audit matter as determination of the ECL provision involved application of judgment by Management in respect of matters such as maximum contractual period of credit risk and probability of credit loss given the significant number of aged receivables from customers.
- Our principal procedures included the following, but were not limited to:
- a) Understanding and evaluating the design and testing the operating effectiveness of controls in respect of ECL provision for trade receivables carried at amortised cost.
- b) Reading of the underlying sale orders and invoices, as applicable to understand the nature of trade receivables, and the dates on which the payments fall due.
- c) Assessing the appropriateness of the credit loss provisioning methodology used by the Management, which involves the use of historical trends such as cash collection, performance of the current year against historical trends and the level of credit loss over time
- d) Based on the above procedures performed, we did not find any significant exceptions to the ECL provision recognised in respect of trade receivables carried at amortized cost.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report and Business Responsibility Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of

BHASKAR AGROCHEMICALS LIMITED.

adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ♦ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ♦ Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- ♦ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- ♦ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ♦ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The balance sheet, the statement of profit and loss including other comprehensive income, the cash flow statement and statement of changes in equity dealt with by this report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

BHASKAR AGROCHEMICALS LIMITED.

Report on Internal Financial Controls Over Financial Reporting

Annexure “B” to the Independent Auditor’s Report of even date on the Financial Statements of Bhaskar Agrochemicals Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Bhaskar Agrochemicals Limited** (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company is a public limited Company incorporated and domiciles in India and has its registered office at D.No-1-90/C, Office Unit-608, 1 TO 6, 6th Floor Gowra Fountain Head, Madhapur Shaikpet Hyderabad 500 081 TG. It's shares are listed on the Bombay Stock Exchange. It has got the manufacturing facility in Yadadri Bhuvanagiri District of Telangana, and is engaged in manufacturing mainly formulation of Agro Chemicals.

The standalone financial statements are approved for issue by the Company's Board of Directors on May 26, 2025.

2 Accounting policies

This note provides a list of the accounting policies adopted in the preparation of these standalone financial Statement. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation and compliance with IND AS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Amendment Rules, 2016 (as amended from time to time) and other relevant provisions of the Act. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited standalone financial statements have been discussed in the respective accounting policies mentioned herebelow. The Standalone Financial statements have been prepared on an accrual basis under the historical cost convention except for the following that are measured at fair value as required by relevant Ind AS.

> Certain financial assets and liabilities are measured at fair value (Referred accounting policy on financial instruments)

> Defined benefit and other long term Employees Benefit.

Current versus non current classification

All the assets and liabilities have been classified as current and non current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

2.2 Uses of Estimates and judgments

The preparation of Financial Statements in conformity with the generally accepted accounting principles requires management to make estimates and assumption that affect the reported amounts of assets and liabilities, revenue and expenses, the accompanying disclosures and disclosure of contingent liabilities. The estimates and assumptions used in accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements are reviewed on an ongoing basis. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Any revision to accounting estimates is recognised prospectively in current and future periods. Refer Note 2.21 for detailed discussion on Significant accounting judgments, estimates and assumptions.

2.3 Measurement of Fair Values

The accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of

NOTES TO THE ACCOUNTS

Ind AS, including the level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - Quoted price (unadjusted) in active markets for identical assets or liabilities
- Level 2 - inputs other than quoted price included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Property Plant and Equipment and Depreciation

a) Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost includes taxes, duties, freight and other incidental expenses directly related to acquisition/construction and installation of the property, plant and equipment. Any trade discounts and rebates are deducted in arriving at the purchase price.

b) Subsequent expenditure related to an item of property, plant and equipment are added to its book value only if it is probable that the future benefits associated with the item will flow to the entity ;and the cost associated with item can be measured reliably.

c) Capital work-in-progress includes property, plant and equipment not ready for their intended use and related incidental expenses and attributable interest.

d) Expenditure during construction period:

Expenditure (direct & indirect) incurred during the construction period which are attributable to acquisition /construction of PPE, will be capitalized with the respective Plant, Property & Equipment at the time of commissioning of such assets.

e) Advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as "Other Non-Current Assets".

f) The estimated useful life of assets are as follows:

Building	30 years
Plant and equipment	15 years
Electrical Installations	10 years
Furniture and fixtures	10 years
Vehicles	8 years
Office equipment	5 years
Computer and data processing equipment	3 years

g) Depreciation on tangible property, plant and equipment has been provided on on Straight Line Method. Depreciation is provided on a pro-rata basis, i.e. from the date on which asset is ready for use. Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

h) Items of property, plant and equipment that are held for disposal are stated at the lower of their net book value and net realizable value and are shown separately under other current assets in the financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss.

i) An item of property, plant and equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Gains / losses arising from disposal are recognised in the Statement of Profit and Loss.

j) The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

BHASKAR AGROCHEMICALS LIMITED.

NOTES TO THE ACCOUNTS

2.5 Intangible Assets

a) Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any.

b) Subsequent expenditure related to an item of intangible assets are added to its book value only if it is probable benefits from the existing asset beyond its previously assessed standard of performance.

c) Intangible assets that are ready for use are amortized on a straight line basis over a period of estimated useful life of 6 years.

The Company believes that the technically evaluated useful lives, different from Schedule II of the Companies Act, 2013, best represent the period over which these assets are expected to be used.

d) An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an item of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of such item of intangible asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

e) Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

2.6 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is higher of an asset's fair value less costs of disposal and its value in use. The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28., the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

2.7 Borrowing Costs

Borrowing cost directly attributable to acquisition and construction of qualifying assets (Qualifying asset is an asset which necessarily takes substantial period to get ready to use or sale) should be capitalised as part of the cost of such assets up to the date when such assets are ready for intended use or sale.

All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs are interest and other costs that the company incurs in connection with the borrowing of funds and is measured with reference to the Effective Interest Rate (EIR) applicable to the respective borrowing. Borrowing cost include interest costs measured at EIR.

2.8 Non Current Assets classified as held for sale

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

The criteria for held for sale classification is regarded met only when the assets (or disposal group) is available for

NOTES TO THE ACCOUNTS

immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal group), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset (or disposal group) to be highly probable when:

- ▶ The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- ▶ An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- ▶ The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- ▶ The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- ▶ Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets (or disposal group) held for sale are measured "higher of an asset's fair value less costs of disposal and its value in use. Assets and liabilities (or disposal group) classified as held for sale are presented separately in the balance sheet.

2.9 Inventories

- a) Inventories are valued at lower of cost or net realizable value on an item-by-item basis.
- b) Finished goods manufactured and work in progress are valued at the lower of cost and net realisable value. Cost of finished goods and work in progress is determined by considering direct materials, labour costs, conversion costs, including an appropriate share of fixed production overheads based on normal operating capacity and other related costs incurred in bringing the inventories to their present condition and location.
- b) Raw materials and packaging materials are valued at lower of cost and net realizable value. Cost includes purchase price, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. In determining the cost, first in first out method is used.
- c) Goods in transit are valued at cost which represents the cost incurred up to the stage at which the goods are in transit.
- d) Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.
- e) Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.10 Cash and Cash Equivalents

Cash comprises of cash at bank and on hand and cash equivalents comprise of short-term bank deposits with an original maturity of three months or less.

Cash Flow Statement

Cash flows are reported using indirect method as set out in IND AS 7, "Statement of Cash Flows", whereby profit/(loss) before tax is adjusted for the effects of transactions of non cash nature and deferrals of accruals of past or future cash receipts or payments. The cash flows from operating, Investing and financing activities of the Company are segregated based on the available information.

2.11 Revenue Recognition

- a) Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to the performance obligation. The transaction price of goods sold and services rendered is net off variable consideration on account of various discounts and schemes offered by the company as a part of contract and taxes.
- b) Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.
- c) Interest income is recognized on a time proportionate basis, taking into account the amount outstanding and the rates applicable. For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate method to the net carrying amount of the financial assets.

NOTES TO THE ACCOUNTS

2.12 Income Tax

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and Minimum Alternate Tax (MAT) credit entitlement.

a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

b) Deferred Tax

“Deferred tax is recognised in respect of temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in equity.

Deferred tax assets and liabilities are offset only if: a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

c) Minimum Alternate Tax

MAT is recognised as an assets only when & to the extent there is convencing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit became eligible to be recognised, it is credited to the statement of profit & loss & is considered as (MAT credit entitlement). The Company review the same at each Balance Sheet date & writes down the carrying amount of MAT credit entitlement to the extent there is no longer convencing evidence to the effect that the comapny will pay normal income tax during the specified period. MAT credits are in the form of unused tax credits that are carried forwarded by the Company for a specified period of time, hence, it is presented as Deferred Tax Assets.

2.13 Employees Benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

NOTES TO THE ACCOUNTS

b) Other long-term employee benefit obligations

I. Defined contribution plans

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss. **Employee's State Insurance Scheme:** Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

II. Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise. The gratuity benefit is funded with the Life Insurance Corporation of India (LIC).

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

Compensated absences :

The short term provision for compensated absences has been calculated on actual basis, based on the balance of unutilised leave available, and can be encashed at the end of the year as per the Company's policy.

2.14 Foreign Currency Transactions

a) Functional and presentation currency

Initial recognition - Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount, the exchange rate between the functional currency and the foreign currency at the date of the transaction.

The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

b) Transactions and balances

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.15 Provisions and Contingencies

a) A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made. Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

BHASKAR AGROCHEMICALS LIMITED.

NOTES TO THE ACCOUNTS

2.16 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2.17 Earnings per Shares

Basic EPS is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity share outstanding during the year. For the purpose of calculating diluted EPS the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares

2.18 Operating Cycles

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products/ activities of the Company, the management has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.19 Financial Instruments

a) Financial Assets

i) Recognition and initial measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value through profit and loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss. However, Trade receivables that do not contain a significant financing component are measured at transaction price.

ii) Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Financial assets at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the statement of profit and loss.

Financial assets at fair value through profit (FVTPL)

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial instruments measured at fair value through other comprehensive income (FVTOCI)

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

NOTES TO THE ACCOUNTS

iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

i) Recognition and initial measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial liability is initially measured at fair value, in case of financial liability which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction costs are attributed to the issue of a financial liability.

ii) Subsequent measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

iii) Derecognition

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability is extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv) Setting off financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Derivative Financial Instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any changes therein are generally recognised in the profit and loss account.

2.20 Contributed equity

Equity shares are classified as equity share capital.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.21 Material accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

BHASKAR AGROCHEMICALS LIMITED.

NOTES TO THE ACCOUNTS

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit plans such as gratuity is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future.

These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.

The principal assumptions are the discount and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis.

2.22 Segment reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the Company's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices. Unallocable items includes general corporate income and expense items which are not allocated to any business segment. Segment Policies:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

2.23 Standards that became effective during the year

Ministry of corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting standards) Rules as issued from time to time. For the year ended March 31 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the company.

2.24 Rounding off amounts

All amounts disclosed in financial statements and notes have been rounded off to the nearest thousand as per requirement of Schedule III of the Act, unless otherwise stated.

2.25 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

(B) Defined Benefit Plans

44(B)(1) Gratuity

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

NOTES TO THE ACCOUNTS

(i) The principal assumptions used in determining gratuity for the Company's plans are shown below:

PARTICULARS	31st March, 2025	31st March, 2024
Discount rate	6.93%	7.23%
Salary rise	8.00%	8.00%
Normal Retirement Age	60	60
Attrition Rate	5.62%	5.78%

The estimates of future salary increases, considered in the actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The overall expected rate of return on assets is determined based on the actual rate of return during the current year. The plan assets have been invested in Insurance managed funds.

ii) Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation as shown below.

PARTICULARS	31st March, 2025	31st March, 2024
Increase in		
Discount rate (1% movement)	6,215.36	5,156.07
Future salary growth (1% movement)	7,029.65	5,804.90
Withdrawal rates (1% movement)	6,521.21	5,402.90
Decrease in

Future salary growth (1% movement)	6,172.33	5,119.32
Withdrawal rates (1% movement)	6,632.37	5,483.27

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

47. RISK MANAGEMENT

Financial Risk Management objectives & Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies.

The Company's activity expose it to market risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company.

The Company's financial risk management policy is set by the Managing Director and governed by overall direction of Board of Directors of the Company.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rate, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivable, payables and loan and borrowings.

2	Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
3	Market risk-foreign exchange	Future commercial transactions recognised financial assets and liabilities not denominated in INR.	Cash flow forecasting Sensitivity analysis	Foreign exchange contracts

47.1 Credit Risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assess financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period.

To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business
- Actual or expected significant changes in the operating results of the counterparty
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- Significant increase in credit risk on other financial instruments of the same counterparty.

The company categorises financial assets based on the assumptions, inputs and factors specific to the class of financial assets into High-quality assets, negligible credit risk; Quality assets, low credit risk; Standard assets, moderate credit risk; Substandard assets, relatively high credit risk; Low quality assets, very high credit risk; Doubtful assets, credit-impaired.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than one year past due. Where loans or receivables have been written off, the Company continues engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit or loss.

b) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. The company's exposure to the risk of changes in the market interest rate relates primarily to the company's long term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The Company manages the liquidity and fund requirements for its day to day operations like working capital, suppliers/buyers credit.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. Borrowings issued at fixed rates exposes to fair value interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

	31st March, 2025	31st March, 2024
Floating rate instruments		
Financial Liabilities - measured at amortised cost		
Term loan from banks	20,716.67	11,200.00
Working capital facilities from bank	1,18,374.54	1,03,454.88
Fixed rate instruments

Loan from Directors (Unsecured)	33,622.97	11,319.99
Total	1,79,865.89	1,31,943.23

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

NOTES TO THE ACCOUNTS

Cash flow sensitivity analysis for variable-rate instruments

The risk estimates provided assume a change of 25 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date assuming that all other variables, in particular foreign currency exchange rates, remain constant.. The period end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity (net)	Profit or loss	
	25 bp increase	25 bp decrease
31-Mar-25		
Variable rate loan instruments	449.66	-449.66
31-Mar-24		
Variable rate loan instruments	329.86	-329.86

47.3 a) Market Risk

Market risk is the possibility of losses that may be incurred by the company due to factors that affect the overall performance of the company – such as foreign exchange rates, interest rates, recessions etc. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily due to the fluctuations in the rate of interest for borrowings from banks, recession in the market, foreign exchange rate fluctuation etc.

b) Currency Risk
