Independent Auditor's Review Report on Unaudited Standalone Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

To,
**The Board of Directors of
Patanjali Foods Limited**

1. We have reviewed the accompanying statement of unaudited standalone financial results of Patanjali Foods Limited ("the Company") for the quarter ended 30th June, 2025 ("the statement"), attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Regulation"), as amended.
2. This statement, which is the responsibility of the Company's management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting (Ind AS 34) as prescribed under section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on the statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the statement is free of material misstatement. A review is limited primarily to inquiries of Company personnel and an analytical procedure applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited standalone financial results, prepared in accordance with the applicable accounting standards and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular no. CIR/CFD/CMD1/44/2019 issued by the Securities and Exchange Board of India under Regulation 33 (8) of the Listing Regulations, as amended, to the extent applicable.

6. We did not review the interim financial information/financial results of the 2 subsidiaries included in the unaudited consolidated financial results, whose interim financial information/financial results reflect total revenue of Rs. NIL, total net profit/(loss) after tax Rs. (3.24) Lakhs and total comprehensive income of Rs. Mumbai, 14th August 2025: Patanjali Foods Limited (PFL) today announced its unaudited financial results for the quarter ended 30th June 2025.

During the quarter, the inflation reduced and fell to 2.1% in the month of June, the lowest in the last three years. Despite this, the quarter witnessed a tough operating environment, mainly due to subdued urban demand and elevated competition from regional and new age D2C companies. However, the rural demand remained stable and outpaced the urban demand. Effective May 31, 2025, the Government of India halved the basic customs duty on crude palm, sunflower, and soybean oils. This change had an impact on the pricing and demand for edible oils during the quarter. Further, during the quarter, the overall demand remained subdued, particularly in non-essential and premium FMCG categories, on account of various welfare schemes by Government, offering free food items to the public along with policy for duty free import of yellow peas.

With this backdrop, the standalone performance highlights of the Company are as below:

Q1FY26 <u>Revenue from Operations</u> ₹ 8,899.70 cr.	Q1FY26 <u>FMCG (incl. HPC) Revenue</u> ₹ 2,299.69 cr.	Q1FY26 <u>Food & Other FMCG Revenue</u> ₹ 1,660.67 cr.	Q1FY26 <u>Home and Personal Care Segment Revenue</u> ₹ 639.02 cr.
Q1FY26 <u>EBITDA (total income basis)</u> ₹ 334.17 cr.	Q1FY26 <u>FMCG (incl. HPC) EBITDA</u> ₹ 206.33 cr.	Q1FY26 <u>Food & Other FMCG EBITDA</u> ₹ 86.83 cr.	Q1FY26 <u>Home and Personal Care EBITDA</u> ₹ 119.50 cr.

Key Highlights Q1FY26

- The Revenue from Operations stood at ₹ 8,899.70 cr. vs. ₹ 7,177.17 cr. in Q1FY25.
- The Gross Profit stood at ₹ 1,259.19 cr. vis – a – vis ₹ 1,017.02 cr. of the same period last year, reporting YoY growth of 23.81%. The Gross Profit Margin (on Total Income basis) stood at 14.13%.
- Advertising and Sales Promotion expenses accounted for 0.72% of Revenue from Operations.
- The Home and Personal Care segment, which was integrated in November 2024, recorded EBITDA contribution in the overall EBITDA of 35.98%. The synergies have started to unlock, giving various opportunities to drive efficiencies and growth.
- The Company's PAT stood at ₹ 180.39 cr. with a 2.02% PAT margin.
- As of June 30th, 2025, the Company had its presence in 27 countries. In Q1FY26, the export revenues stood at ₹39.34 cr.
- The revenue from the Wind Turbine Power Generation segment was ₹ 11.87 cr. on account of increased generation registered during the current quarter.
- In FY25, palm oil prices were volatile, and for a substantial period, the price of palm oil remained higher than soybean and sunflower oils, which impacted the demand. However, in Q1FY26 there was a notable shift:
 - An excess supply of palm oil in the global market occurred due to escalating geopolitical tensions, primarily in the Middle East. This led to trade destocking, which pushed the palm oil prices down.
 - Additionally, in India there was a reduction in basic custom duty on crude palm oil, sunflower oil, and soybean oils and also narrowing the price gap with refined oil imports.
 - Primarily, these factors collectively resulted in palm oil becoming more competitively priced than sunflower and soybean oils, a reversal from the earlier trend.
 - Though the prices of palm oil remained higher on a YoY basis, the sequential drop improved affordability for both institutional and retail consumers, the effect of which will be seen in coming quarters. Edible oil brands are reducing their pack grammages for lowering the price points in order to suit the consumer's affordability.
- Urban consumption patterns reflected a shift toward lower-priced or smaller packs, with many consumers opting for regional brands. For the company, smaller SKUs and value packs play a crucial role in addressing this downtrading trend. Early results have been promising, especially for the foods portfolio and have shown signs of a turnaround and volume-led recovery. Pocket friendly pricing has led to early green shoots in urban demand. Also, initiatives such as the Samriddhi Urban Loyalty Program has started yielding traction with repeat orders and brand availability in key urban stores.
- Similar to the previous quarter, the industry witnessed accelerated migration of volumes from General Trade to newer formats such as Modern Trade, E-Commerce, and Quick Commerce. The Company continued building stronger channel ecosystems and undertook channel-specific supply chain enhancements.

- In Q1FY26, various initiatives were undertaken by the Company to enhance its distribution architecture:
 - Establishing new direct outlets with focus on middle India cluster.
 - Expansion of rural reach through Super Stockist network program, Grameen Vitrak Program initiatives and setting up of new Grameen Arogya Kendras as Rural India continues to anchor volume.
- During the quarter, inflation eased, with CPI declining from 3.2% in April 2025 to 2.1% in June 2025 and averaged ~2.7% for Q1FY26. If this benign inflation trend continues, coupled with RBI's liquidity injection, fiscal incentives, and favorable monsoons, there may be a revival in consumption in coming months. We anticipate the second half of FY26 to be strong from a demand standpoint.

Food & Other FMCG

- The segment generated revenue of ₹ 1,660.67 cr. in Q1FY26, contributing 18.46% to the Revenue from Operations. Overall subdued demand, particularly in non-essential and premium FMCG categories, coupled with various welfare schemes offering free food items to the public, and seasonal impact led to a degrowth in revenue on YoY basis.
- In spite of the challenging scenario of tepid overall market demand, various government welfare initiatives, etc. our EBITDA margins continue to be in line sequentially and the segment generated ₹ 86.83 cr. in EBITDA for the quarter.
- Textured Soya Products' sales posted quarterly revenue of ₹ 139.69 cr. registering a growth of 36% sequentially. Further, despite early monsoons in most of India, beverages recorded a growth of 7% sequentially followed by 14% YoY.
- Biscuits recorded revenue of ₹ 451.40 cr. in Q1FY26. This marked 8.24% YoY growth.
 - The Company's ₹1,000 cr. * brand in the biscuits category, 'Doodh', registered sales of ₹ 304 cr. in Q1FY26, registering a 15% YoY growth.
 - The 'Nariyal' brand biscuits saw continued momentum, contributing significantly to overall sales.
- As part of the revised strategy for Ghee, the quarterly sales stood at ₹ 256.98 cr., a 23% YoY growth.
- Company's products continue to generate demand in the overseas market leading to export to 16 countries in the current quarter with Ghee, Biscuit, Juices, Textured Soya Protein, Staples registering continued demand.
- Nutraceuticals achieved quarterly sales of ₹ 17.31 cr., marking YoY growth of 37.60%. This was due to increased consumer acceptance, backed by strong advertising and product repositioning initiatives.
- During the quarter, the company launched new products across India, such as Cholesterol Care Liquid and Ortho Care Liquid. These wellness-driven formulations have seen strong traction, especially across Patanjali Mega Stores and modern retail.
- Revenue from the consumer staples portfolio was ₹ 616.05 cr., impacted due to government's intervention and policy for duty free import of yellow peas. The share of staples to the overall Food and Other FMCG segment stood at 37% in the current quarter which was 48% in Q1FY25 and 46% in Q4FY25.

*FY 2024-25 revenue.

- The Company faced competition from local and other D2C brands. To counter this, the Company has taken initiatives such as value packs, different SKUs and strengthening retail distribution to improve shelf presence and consumer access.

Home & Personal Care Business (HPC)

- The HPC business segment continues to witness healthy sales contribution in Q1FY26 at Rs. 639.02 cr., anchored by Dental Care at ₹ 332.18 cr., Skin Care at ₹ 157.21 cr., Home Care contributed ₹ 91.61 cr. and the balance being attributed to Other product categories, including Hair Care.
- The EBITDA generated by the segment amounted to ₹ 119.50 cr., well within the Company's internal benchmarks.
- Flagship brands Dant Kanti, Kesh Kanti, Saundarya, and other brands continue to deliver promising results with Dant Kanti continuing to lead driven by increased consumer preference for herbal oral care solutions. The Company is now focusing on premiumization of the Dant Kanti portfolio by scaling saliency of Dant Kanti Advanced, Sensitive, Aloe Vera, Red, Medicated Gel, and Toothbrushes.
- During the quarter the company exported its products to 9 countries and continues to make inroads towards expanding its export market. Danti Kanti continues to evoke demand from the overseas market.
- As contribution to the overall business steadily increases, HPC is on track to emerge as a core driver of long-term growth and profitability.

Edible Oil

- In Q1FY26, the segment had sales of ₹ 6,685.86 cr., with a YoY growth of 25.34%. Of this, the branded edible oils contributed around 72%.
- Branded Mustard Oil and sunflower oil registered exponential growth sequentially, followed by double digit growth on YoY basis. The company is reaping the benefits of aggressive brand promotion at the regional and national level along with focused expansion on distribution reach.
- The segment's quarterly EBITDA was ₹ 119.10 cr., with a corresponding margin of 1.78%. Margins were impacted during the quarter considering custom duty changes, Inventory Valuation Adjustments leading to and impacting the overall Cost of Goods Sold coupled with lower sales of Premium Edible Oils, in sharp contrast to exceptional growth of sales of premium edible oil on YoY basis.
- The allocated area stood at 6.63 Lakh hectares on June 30, 2025 and the area under oil palm plantation reached 92,133 hectares, with 43.44% of the area in the prime yielding phase (7-25 years).
