Hester Biosciences Limited

30th Annual Report 2016-17

From Products to Solutions

Building the company around sustainability

Hester Biosciences Limited is one of the leading animal healthcare companies in India. The Company is leveraging its research and manufacturing experience of the last two decades to expand into new geographies, which is transitioning the company from addressing poultry needs to livestock requirements. By capitalising on a recovering livestock segment, the Company reported its 17th straight year of profitable growth, validating the robustness of its business model.

Overview**

Corporate Identity

Hester Biosciences Limited is one of India's leading animal healthcare companies and the country's second largest poultry vaccine manufacturer. It has been engaged in the animal health industry since the last two decades. Headquartered in Ahmedabad, Gujarat, Hester has a state-of-the-art manufacturing facility for products ranging from vaccines, health products to diagnostics. The company also commissioned a new facility in Nepal, which commenced in November 2016, to complement its Indian operations.

Hester's products are marketed through a pan-India network and are also exported to 25 countries around the world, with registration processes underway for more markets.

The Company's product range covers poultry vaccines, poultry health products, large animal vaccines and large animal health products, establishing it as a committed animal healthcare company, with products for each sector in poultry and livestock healthcare. The product portfolio consists of over 49 vaccines and 35 health products.

Hester is WHO GMP, GLP, ISO 9001, ISO 14001 and OHSAS 18001-certified. The Company's R&D department is recognised and approved by the DSIR (Department of Scientific & Industrial Research) for in-house development.

CARE has upgraded our long-term credit rating from "BBB+" to "A-" and short-term credit rating from "A3+" to "A2" on 12 January 2017.

The Company's shares are listed and traded actively on BSE Limited and National Stock Exchange of India Limited. As on 31 March 2017, the Company's market capitalisation was ₹6.49 bn.

Mission

Better health for human beings through healthier animals

Vision

Building the future on a foundation of excellence

Business Segments

Hester's business divisions offer the following:

- Live vaccines
- Inactivated vaccines
- Health products
- Disinfectants and Sanitisers

Live and inactivated vaccines help in immunisation against major veterinary diseases of economical importance.

Health products facilitate the prevention and cure of diseases, besides addressing growth promotion.

Health-aid products such as disinfectants and water sanitisers help towards maintaining hygiene standards.

Hester also offers the following services:

Seromonitoring for poultry farms

Using scientific tools for precise diagnosis helps poultry farmers towards better flock management, which, in turn, improves profitability.

Mastitis prevention for cattle farms

Mastitis is one of the biggest challenges for cattle farmers. Our specialised teams, equipped with diagnostic tools as well as solutions towards the prevention and cure of mastitis, are one of our USPs.

Journey Through the Years

1983

Rajiv Gandhi started the distribution of poultry medicines and feed additives in the name of Rajiv & Associates (proprietary concern) in Mumbai, covering the districts of Thane and Raigadh.

1986

Started distribution activities throughout India. Rajiv & Associates became the number one distributor in Western India for poultry health products.

1987

Rajiv Gandhi formed Hester Pharmaceuticals Private Limited, with the objective to acquire the exclusive marketing rights of overseas brands for the Indian market.

1990

Hester Pharmaceuticals signed an exclusive marketing agreement with Ghen Corporation, Japan, for its range of poultry feed additives and with Maine Biological Laboratories (MBL), USA, for its range of poultry vaccine.

1993

The Company signed a technical and financial collaboration agreement with MBL, to manufacture poultry vaccines in India.

1994

Hester Pharmaceuticals was converted from private to public limited followed by an IPO, in which it allotted shares to MBL in lieu of technical and financial collaboration agreements.

1997

The Company commenced the marketing of locally produced poultry vaccines.

2000

For the first time, the Company reported a nominal net profit.

2003

The Company terminated the financial and technical collaboration with MBL.

2005

The Company declared a dividend for the first time.

2007

The Company expanded its manufacturing capacity four fold.

2008

The Company changed its name to Hester Biosciences Limited.

2010

The Company was awarded 'The Best Animal Vaccine Company' by The New Economy, UK.

2012

The Company launched poultry and large Animal Health Products divisions.

2013

The Company received the WHO-GMP certification and DSIR registration for the in-house R&D unit. Hester embarked to set up an animal vaccine manufacturing unit in Nepal.

2016

Nepal unit completed trial operations and began commercial manufacturing in November.

Financial Highlights

REVENUE (₹ mn)

HIGHER REVENUES

(₹ mn)

1,232.16

Definition

Sales growth after deducting excise duties.

Why we measure

This measure reflects the result of our ability to understand market trends and service customers with corresponding products, superior technologies and competent supply chain management.

Performance

Our aggregate sales increased by 22.13 per cent to ₹1,232.16 mn in FY 17, which compared favourably with the overall growth of the industry.

Value impact

Creates a robust growth engine on which to build profits.

EBIDTA (₹ mn)

HIGHER EBIDTA

(₹ mn)

409.29

Definition

Earning before the deduction of fixed expenses (interest, depreciation, extraordinary items and tax).

Why we measure

It is an index that showcases the company's ability to optimise business operating costs despite inflationary pressures, which

can be easily compared with the retrospective average and sectoral peers.

Performance

The company reported a 22.56 per cent increase in its EBIDTA in FY 17, an outcome of painstaking efforts of its team in improving operational efficiency.

NET PROFIT (₹ mn)

HIGHER NET
PROFIT (₹ mn)
248.43

Definition

Profit earned during the year after deducting all expenses and provisions.

Why we measure

It highlights the strength of the business model in generating value for its shareholders.

Performance

The company's net profit grew every single year through the last 17 years.

The company reported a 29.24 per cent increase in its Net Profit in FY17 – reflecting the robustness and resilience of the business model in growing shareholder value despite external vagaries.

Value impact

Adequate cash pool available for reinvestment, accelerating the growth engine

EBIDTA MARGIN (per cent)

HIGHER EBIDTA
MARGIN (per cent)
33.22

Definition

EBIDTA margin is a profitability ratio used to measure a company's pricing strategy and operating efficiency. The higher the operating margin, the better for the company.

Why we measure

The EBIDTA margin gives an idea of how much a company earns (before accounting for interest, depreciation and taxes) on each rupee of sales.

Performance

The company reported a 12 bps increase in EBIDTA margin in FY 17. This was the result of enriching its product basket with superior products and a higher improved operating efficiency across the business.

Value impact

Demonstrates adequate buffer in the business, which, when multiplied by scale, enhances surpluses

ROCE (per cent)

HIGHER ROCE
(Per cent)
24.06

Definition

This is a financial ratio that measures a company’s profitability and the efficiency with which its capital is employed in the business.

Why we measure

ROCE is a useful metric for comparing profitability across companies based on the amount of capital they use, especially in capital-intensive sectors.

Performance

The company reported a 337 bps increase in ROCE in FY 17 – a showcase of prudently investing every rupee in profitable spaces that generate higher returns for shareholders.

Value impact

Enhanced ROCE can potentially drive valuations and perception

DEBT-EQUITY RATIO (in times)

LOWER DEBT-EQUITY RATIO
(in times)
0.33

Definition

This is derived through the ratio of debt to net worth (less revaluation reserves).

Why we measure

This is one of the defining measures of a company’s financial health, indicating the ability of the company to remunerate shareholders over debt providers (the lower the gearing the better). In turn, it indicates the ability of the company to sustain growth in profits, margins and shareholder value.

Performance

The company’s gearing improved from 0.46 in FY15 to 0.33 in FY17. We recommend that this ratio be read in conjunction with net debt/operating profit (declining, indicating a growing ability to service debt).

Value impact

Enhanced shareholder value by keeping the equity side constant; it enhanced flexibility in progressively moderating debt cost

AVERAGE DEBT COST (per cent)

LOWER DEBT COST
(Per cent)
7.74

Definition

This is derived through the calculation of the average cost of the total debt on the company's books.

Why we measure

This indicates our ability in convincing bankers and other debt providers of the robustness of our business model, translating into a progressively lower debt cost (potentially leading to higher margins).

Performance

The company's debt cost progressively declined from a peak 10.17 per cent in FY16 to 7.74 per cent in FY17. We recommend that this ratio be read in conjunction with our rising interest cover (rising, indicating higher liquidity).

Value impact

Enhanced cash flows; strengthened credit rating for successive declines in debt cost

INTEREST COVER (in times)

HIGHER INTEREST COVER
(in times)
11.27

Definition

This is derived through the division of EBIT by interest outflow.

Why we measure

Interest cover indicates the company's comfort in servicing interest, the highest the better.

Performance

The company strengthened its interest cover from 7.74 in FY16 to 11.27 in FY17.

Value impact

Enhanced cash flows

**Strategic
Overview**

Company Strengths

Product Mix

Hester offers 45 types of poultry vaccines in single and combination varieties, three types of large animal vaccines and a large range of medicines, feed supplements and disinfectants for poultry as well as for large animals. The Company's products have a mix between volume and value proportions.

Geographical Presence

Hester has a pan-India presence. It enjoys an attractive 35 per cent market share in India for poultry vaccines. Exports account for 12 per cent of the revenues, which cover Asian and African countries. Product registration activities are underway in over 12 countries. The Company is attractively placed to capitalise on the FAO's Global PPR disease Eradication Program in sheep and goat, thereby contributing towards better human health as well as towards improving the economical condition of livestock keepers in Asian and African countries. Besides the conventional marketing and distribution activities, Hester also works with partners in rural India to create a model to facilitate mass vaccination for the backyard poultry, cattle, sheep and goat population with the objective to improve the living standards of backyard farmers. The current initiative in this segment covers Chhattisgarh, Jharkhand and Odisha, wherein, with the help of GALVmed, a Scottish NGO, Hester has created a unique distribution and a vaccine administration network in the backward districts of these states.

Cutting-edge Infrastructure

Hester has two plants, one located in Gujarat and one in Kathmandu, Nepal. The Gujarat plant is the largest single location animal biological manufacturing facility in Asia, created to benchmarked international quality and compliance standards. Being an R&D intensive company, the R&D unit in Gujarat is approved by The Department of Scientific and Industrial Research (DSIR) and the Ministry of Science and Technology.

Regulatory Approvals

The Company already exports its products to quite a few countries. In FY17, the Company submitted 60 dossiers in 12 countries through Hester India and three dossiers in three countries through Hester Nepal. Hester received registration approval of 22 vaccines in three countries and also cleared the Ethiopian International Drug authority inspection. Going forward, the Company expects regulatory inspections and approvals from a few countries in the current financial year.

Sustainable Growth

Hester is committed to sustainable development. The Company conforms to the ISO 14001 Environmental Management System standard to minimise its environmental impact, lower the risk of pollution related incidents, achieve operational improvements and ensure compliance with relevant legislations. The Company has been awarded a certificate from the Gujarat Pollution Control Board for its disposal of contaminated water and waste without harming the environment.

Intellectual Capital

The Company has a strong research culture and its R&D center is based in the Ahmedabad plant. Hester is working on recombinant poultry vaccines, possibly the first to do so in the country. Recombinant vaccines significantly lower the risks of biohazards during manufacturing and can protect against at least two diseases at once, lowering the number of vaccine administrations needed. The Company plans to protect its intellectual capital with patents once the products are successfully developed.

Research & Development

The Hester R&D center at The Ahmedabad plant is DSIR- approved. A team of 13 scientists is a part of the R&D unit, which is engaged in developing and commercialising acquired as well as in-house developed technologies. Developing products requires funding, manpower and equipment. Hester is adequately equipped to handle research needs to engineer stable biological products, which meet with all the prerequisite government regulations as well as keep in mind human and animal safety.

Global Footprint

Hester has a global reach in quite a few countries and has regulatory approvals ongoing in more than 20 countries. Hester is aiming to create a distribution and a marketing infrastructure in Africa. This infrastructure, while addressing the demand of the poultry and dairy industry, will have a focus towards reaching vaccines, medicines

and health products to small and marginal livestock holders in African countries. The initiative towards servicing marginal livestock holders is being supported by The Bill & Melinda Gates Foundation, to whom we have committed to create a sustainable distribution channel for marginal livestock holders. The Company is also working with GALVmed and with ILRI (International Livestock Research Institute) in Africa to assist with the development

Hester's Global Reach

Managing Director's Review

I am pleased to present the performance of your Company for 2016-17.

Your Company reported the 17th straight year of profitable growth, wherein the percentage increase in profit after tax was higher than the percentage increase in the company's revenues. The performance of your Company during the year under review indicated a certain maturing, reflected in operational consistency and the optimism of better days.

2016-17 in Retrospect

Your Company reported net sales of ₹1,232.16 million in FY17 compared to ₹1,008.92 million in the previous year, a growth of 22.13 per cent. Domestic sales grew 20.95 per cent whereas exports strengthened 44.01 per cent. Your Company recorded a net profit after tax of ₹248.43 million in FY17 as against ₹192.23 million in the previous year, a growth of 29.24 per cent on account of operational improvements, prudent product mix changes and credit control.

The result was that your Company reported a profit growth of 29.24 per cent that was higher than the revenue growth of 22.13 per cent, which we believe distinguishes companies that possess robust and sustainable business models.

Concurrent with this increase in revenues and profits was an increase in our EBIDTA margin by 12 bps from 33.10 per cent in FY16 to 33.22 per cent in FY17. I am particularly pleased that the year's performance validated that we made a superior use of resources, reflecting in our ROCE strengthening from 20.69 per cent to 24.06 per cent.

Industry Scenario and Hester's Outperformance

Your Company's sustained outperformance was achieved despite prevailing challenges.

The ₹660 billion Indian poultry sector encountered an

acute shortage in cold chain and allied transportation infrastructure. Limited slaughtering and processing facilities affected exports. Besides, numerous disease outbreaks like 'bird flu' were reported; avian influenza outbreaks were reported in Tripura, Kerala, Karnataka, Haryana, Punjab and Odisha, which impacted supply, affected realisations and impacted cash flows.

Challenges notwithstanding, the industry achieved volume growth of 6 per cent in CY16, with broiler meat production volumes increasing to 3.9 million tonnes compared to 3.7 million tonnes in CY15. Poultry is the major meat source in India with a meat consumption share of 28 per cent as against 14 per cent just ten years ago. Poultry outpaced competitors like beef, veal and buffalo meat. High mutton prices, religious restrictions on beef and pork, and limited availability of fish outside coastal regions helped enhance poultry meat relevance and consumption.

Interestingly, India's per capita poultry meat consumption of around 3.6 kg per year is still low compared to the global average of around 17 kg per year. The National Institute of Nutrition recommends that a balanced diet should contain 30 gram of eggs/day (i.e. 180 eggs per annum) and 30 grams of meat daily (11 kg per annum), auguring better prospects.

The average rearing cycle for broilers in the country is 35-40 days to a weight of 1.8 to 2.2 kg. India's feed conversion ratio has improved significantly from 2.2 in the 1990s to 1.65 today. Feed costs constitute approximately 60-70 per cent of the total production cost. Average farm broiler realisations for FY17 at ₹70/kg were better than ₹67/kg in FY16, while average broiler production cost at ₹64/kg in FY17 was almost 5-7 per cent lower than the FY16 levels, given the sharp decline in soymeal prices in the second half of FY17. There was a year's delay in commissioning our ₹433.96 million Nepal plant for a variety of reasons that comprised political instability, natural calamity, inputs shortage and internal issues.

Your Company continued to prioritise the need to do good business than engage in mere revenue accretion. For

Rajiv Gandhi
CEO & Managing Director

a company where a majority of the customers are rural, your Company focused on quality sales marked by timely receivables. In a business marked by nearly SKUs covering around 50 products, your Company continued to strengthen inventory management. In a business that potentially addresses a range of animal health issues, your Company selected to concentrate on specific segments, narrowing its focus and generating related efficiencies.

The result was something that we have always emphasised: that it is better to do good business over any kind of business. The result was that our business gravitated towards the value-added; even as external market realities remained competitive, the large animal business revenue grew 61.84 per cent and export earnings strengthened 5.72 times.

Your Company commenced commercial production in its Nepal plant and submitted batches to the African centralised quality control laboratory. The Company bagged an FAO tender to commence PPR production. As a forward-looking company, your Company invested ₹79.94 mn in research in India, which was about 6.49 per cent of revenues. I must take this opportunity to indicate that in the last four years, your Company invested ₹367.85 mn in research facilities, apparatus and recruitment, strengthening its position as a serious research-driven veterinary products company. It would be relevant to indicate that a disproportionately large proportion of the investment is being made in the area of recombinant vaccines, the next frontier for the business.

Segment Review

Poultry Vaccines: The poultry industry witnessed significant improvements in FY17, catalysed by lower feed costs and higher broiler and table egg realisations. The Company's manufacturing facility at Mehsana produced 3.43 bn doses of live and inactivated vaccines, in addition to ELISA & PCR diagnostic kits. The Company developed and started the marketing of NDV and IBV ELISA kits for sero-monitoring of poultry and PCR molecular diagnostic kits for a variety of diseases. These kits will help towards an accurate diagnosis of diseases or virus strains in broiler, thereby inducing corrective action. Poultry vaccine

sales were ₹1,043.33 million in FY17, comprising 85 per cent of the Company's revenues.

Poultry Health Products: Your Company markets health products such as medicines, feed supplements and disinfectants. To ensure timely supplies as well as exercise a higher control on quality, the Company acquired a controlling interest in an animal health products manufacturing company. This impact is expected to be seen in FY18. While we do not envisage a higher profitability due to this, this surely would ensure smooth product supplies. Sales from poultry health products were ₹36.80 million, accounting for 3 per cent of the Company's revenues.

Large Animal Vaccines: Your Company manufactured three vaccines in the large animal healthcare segment, namely Brucella Abortus vaccine, Goat Pox vaccine and Peste Des Petits Ruminants (PPR) vaccine for the Nigerian and Sungri strain. PPR is a highly contagious disease that affects sheep and goat in over 70 countries. The Food and Agriculture Organisation (FAO) and World Organisation for Animal Health (OIE) launched a global programme for the eradication of PPR by 2030. Hester is participating in PPR tenders to supply the vaccine to various countries. Sale from large animal vaccines stood at ₹68.23 million, amounting to 5 per cent of the total revenues. The Company will continue to focus on strengthening its large animal vaccine segment by developing new vaccines.

Large Animal Health Products: The Company outsourced the manufacture of large animal health products on a loan license basis. But the investment in a facility manufacturing veterinary health products will have an impact on the supplies of large animal health products similar to that of poultry health products. Sales of H83.80 million from this sector accounted for 7 per cent of the total revenues. Hester continues to focus on this value-added segment in line with increasing demand for livestock health products.

Strengthening the Business

Over the last year, your Company selected to strengthen the business in various ways. Your Company embarked on the exercise of building a distribution network in Africa. The company entered Tanzania and Kenya, invested in prudent recruitments, strengthened its managerial

bandwidth to address the prospects arising out of each country and intends have adequate distribution bandwidth in at least three countries by September 2017. This patient expansion is in line with our conviction that your Company would like to extend deep roots in each geography before extending horizontally across the rest of the continent. It would be pertinent to indicate that Africa occupies a large strategic priority for your Company on account of Africa's large animal and cattle population, which is extensively under-addressed.

Your Company had committed in the previous report that its animal diagnostic business would be commissioned by the last quarter of FY17. This commissioning was delayed and extended into the first quarter of FY18. This launch has now been finalised in July 2017. Your Company is optimistic that this business represents the next frontier; there is a growing priority for proactive and advance diagnostics over symptomatic diagnostics. This extension will moderate the room for trial and error in animal health care, evolving animal and cattle owners towards accurate curative preventive medication.

Your Company is optimistic of prospects in the advance diagnostics space, given the fact that India accounts for the largest head-count in the world and the fifth largest poultry population on the one hand and a low level of scientific diagnosis at the other. Your Company also believes that this business represents a prudent backward integration for its business model; the business of diagnostics will, in turn, create a market for the vaccines and other products marketed by the company; an early insight into diagnostics could also prompt the company to refine its product mix in line with a change in disease patterns. Your Company has an important responsibility through this business of creating a market where virtually none exists followed by the capturing a disproportionately larger market share.

Your Company also continued the market penetration model for backyard animals in Jharkhand, Chhattisgarh and Odisha.

Outlook

Your Company has passed the stage of survival and entered a phase of sustainability. Your Company is optimistic of its prospects for a number of reasons. Your

Company derived nearly 88 per cent of its revenues from the poultry segment with only a modest share of revenues derived from the high-margin animal health segment; going forward, we believe that the rate of growth of animal health business at 61.84 per cent this year will be higher than the corporate growth average, correcting the revenue skew with cascading implications in terms of revenues and margins.

Your Company intends to grow its PPR vaccine business, leveraging its manufacturing operations within India to feed the growing national demand and leveraging its Nepal operations to service growing global demand. Your Company believes that the prospects of this business are bright; Food Agriculture Organisation has launched a plan over the next 15 years to eradicate PPR.

Your Company expects to capitalise on improved prospects for Brucella Abortus vaccine, the market for which is growing due to awareness campaigns by various states as well as the increasing demand internationally.

Your Company's business has extended from diverse Indian terrains and is now at the cusp of evolving into a globally-respected veterinary vaccines organisation through joint ventures or considering greenfield projects in emerging markets and Africa. Your Company expects to grow its large animal health business 50 per cent year-on-year, its poultry business 15 per cent and exports around 100 per cent year-on-year, reporting 30 per cent year-on-year revenue growth at attractive margins, strengthening value for all stakeholders.

Your Company strengthened its credit rating during the year under review from "BBB+" to "A-", a development that we believe will translate into a lower debt cost and enhanced corporate respect.

Your Company's principal capital expenditure projects were more or less completed last year; from this point onwards, we foresee the investments being commissioned and monetised, translating into enhanced revenues and increased margins, the foundation for sustained profitable growth.

In view of these realities, your Company expects to perform even better during the current financial year, enhancing value in the hands of all those who are invested with us.

Our Growth Model

Target

- Achieve revenue growth
- Achieve faster net profit growth
- Deliver value to shareholders

Strategy

- Focus on intensive R&D
- Develop new products
- Improve product margins
- Improve market share
- Attract diverse global clientele

Achievements, 2016-17

- Developed ELISA diagnostic kits for poultry. Seromonitoring for Newcastle Disease Virus and Infectious Bronchitis Virus is made easier with these kits.

- Developed PCR molecular diagnostic kits to detect Inclusion Body Hepatitis, Marek's Disease, Infectious Laryngotrachities, Salmonellosis and Newcastle Disease in poultry.
- Need-based diagnostics are being developed: ELISA Kits for Infectious Bursal Disease, MG/MS & Egg Drop Syndrome for poultry sero-monitoring.
- Launched PCR diagnostic kits for Chicken Anemia Virus and PPR.
- Launched two vaccines and five health products for the poultry sector.
- Launched one vaccine in the large animal sector.

Outlook

Hester is focused on the development of new diagnostic products based on ELISA and PCR; apart from that, we will be working on the development of new-generation recombinant vaccines for poultry and the development of biomolecules for animal health application.

3.0 Operational Overview

How We Do Business

At Hester, we have continuously reviewed, adapted and reinforced our business model. This proactive responsiveness in a rapidly-evolving market environment has translated into profitable growth across market cycles.

The Context of our Sector

India has been a turnaround among major economies across the last quarter of a century. This is reflected in the country's economic growth; GDP growth of 6-7 per cent makes India the fastest growing major economy. A sustained growth in incomes (and hence, disposable incomes) represents the basis of India's consumption-driven success story.

Animal Population

India accounts for the highest cattle head (cow and buffalo) count in the world. However, the country also accounts for relatively low cattle productivity, warranting an increased spending on their health.

Animal Health

Cattle represent rural wealth; the more productive the cattle, the higher the earning propensity. The result is that rural Indians are spending higher than ever in animal health, translating into a higher consumption of vaccines and health supplements.

Animal Diagnostics

The concept of animal diagnostics is relatively unappreciated in a large country like India. Most of the animal health addressal are reactive in nature, leaving a large open space for organised diagnostic intervention.

The Passion that we bring to our Business

Standard: Nothing less than world-class

Preparedness: Proactive capacity creation

Passion: Extend beyond the usual

Focus: Specialise; become the best within a chosen niche

Products: Provide a product complement – one-stop shop

Attention: Focus on the fine print of the business

Outperformance: Extend beyond prevailing benchmarks

How We Address the Sectoral Context

Vision

Hester's R&D-driven business focuses on the creation of a higher standard of products through superior processes, fetching attractive realisations. The company's research-led objective is to emerge as one of most respected veterinary product companies in the world.

Brand

Hester has evolved from the commodity end of the business to customised product development. The company offers a range of products reconciling quality and value, strengthening its objective to emerge as a world-class brand in the veterinary products segment.

Product Focus

Hester manufactures a variety of products addressing diverse needs of the poultry and large animal segments. Over the years, the Company narrowed its product mix to enhance organisational focus. Hester offers 45 types of poultry vaccines in single and combination varieties, three types of animal vaccines and a large range of medicines, disinfectants and feed supplements – a one-stop shop.

Marketing Mix

The Company's products represent a mix between volume and value proportions. Poultry division revenues decreased from 91 per cent to 88 per cent of revenues; large animal revenues strengthened from 9 per cent to 12 per cent of revenues in FY17; animal health products as a proportion of revenues was 7 per cent during the year under review. The Company plans to launch an animal diagnostics division in July 2017.

Value-Addition

Hester has been defocusing on poultry vaccine and health products and increasing its attention on large animal vaccines and health products, strengthening value-addition.

Sophisticated Infrastructure

Hester has two plants, one located in Gujarat and one in Kathmandu, Nepal. The Gujarat plant is the largest single location animal biological manufacturing facility in Asia, created in line with benchmark international quality and compliance standards. Being an R&D-intensive company, the R&D unit at Kadi is approved by Department of Scientific and Industrial Research (DSIR) and the Ministry of Science and Technology.

Geographic Coverage

Hester is a global company marketing products within and out of India. Hester markets products across India; Indian operations accounted for 88 per cent of revenues in FY17. The Company enjoys a 35 per cent share of India's poultry vaccine market. Hester's export portfolio comprises 48 products; the commissioning of the Nepal facility will make it possible to grow the company's offerings of PPR Vaccine (Nigerian 75/1 Strain). Following approvals from 20 countries, the Company is poised to extend across more international buyers. Even as delays in registration in some African countries affected export growth, the continent remains a key area of focus.

Regulatory Approvals

Hester's global business driven by exports to nine countries. In FY17, the Company submitted 60 dossiers in 12 countries. Hester already has regulatory compliance in three countries and during the year, one GMP inspection was carried out by Ethiopia.

Redeployment

The Company believes in leveraging its Balance Sheet strength to mobilize low-cost debt. This is the result of the Company's conviction that in a profitable and fast-growing business, the cost of debt is cheaper than the cost of equity.

Research & Development

The Company is R&D-driven, working on new generation recombinant vaccines that are easier to administer, address multiple diseases, have lower risks of biohazards during manufacture and enjoy high realisations. Recombinant vaccines could also replace ILT (Infectious Laryngotracheitis) and other conventional vaccines. The Company is also engaged in the monitoring of animal

disease, geographical surveillance, creation of new generation recombinant vaccines and ELISA as well as a lateral flow of diagnostic kits. The Company invested ₹79.94 million in its R&D center in Kadi. Hester is working on recombinant poultry vaccines, possibly the first in India (significantly lower biohazard risks during manufacture and protect against at least two diseases, moderating administrations).

Governance

At Hester, we believe that in a business where trust is at a premium, a committed governance foundation represents the foundation of organisational credibility. From the time the Company went into existence, it attracted Directors with proven professional standing; besides, it broad-based this Board with adequate independent Directors (four, including a Nominee Director). The Company also instituted focused committees to address specific functions, enhancing the role of informed decision-making.

Our Foundation of Intangibles

Brand

Hester's business is brand-driven. Over the decades, the company's brand generates distinctive recalls: ethical (in terms of fairness and compliances), reliable (in terms of product integrity), dependable (in terms of matching needs with customisation) and accessible (in terms of redressal).

Technologies

Hester has kept itself updated with technological changes. Though none of the current technologies held are patented, the value of these is high, considering the costs incurred in the adaptation process. Further, the Company's network is large enough for it to identify new technologies.

Intellectual Capital

Hester's business is relationship-driven. And this relationship-orientation is best driven through personnel familiarity. Hester enjoys an employee retention of 98 per cent, higher than the sectorial average. Nearly 32 per cent of the Company's employees were with the company for more than five years as on 31 March 2017

Distribution Network

Hester is present where customers are. The complement of the Company's proprietary and franchised network comprises approximately 100 customer-interfacing points across India.

The Results of our Business Model

Product Mix

Hester commands a 35 per cent share of the poultry vaccine market in India. The Company strengthened its product portfolio during the year under review, increasing its product basket to 46 live and inactivated vaccines in the poultry segment, three live vaccines in the large animal vaccines segment and a variety of healthcare products for both segments.

Profitable Growth

Hester has been a sectorial outlier across the last three decades of its existence. In a business marked by revenue volatility, Hester has not reported an operational loss in any single year across the last 17 years; in the last five years ending 31 March 2017, the Company reported 17.29 per cent revenue growth corresponded by 26.54 per cent bottom line increase - an instance of profitable growth.

Sustainability

Hester possesses a robust Balance Sheet that ensures sustainable viability. EBITDA margin was an attractive 33.22 per cent in a discounted business environment in FY17; return on capital employed was 24.06 per cent, indicating the robustness of the business engine.

Liquidity

Hester's business enjoys adequate liquidity. Net cash position was ₹119.50 million in FY17.

Valuation

Hester's business model has been validated by the markets: valuation was ₹6.49 billion as on 31 March 2017, one of the highest in India's mid-sized pure-play vaccines and animal health space.

SHARE CAPITAL

The paid-up equity share capital as on 31 March 2017 stood at ₹85.07 million.

REVIEW OF OPERATIONS

The financial year saw an increase in sales by 22 per cent and an increase in net profit after tax by 29 per cent.

The mandate for improving the bottom line was well regarded.

The business verticals continued to be:

1. Poultry vaccines
2. Poultry health products
3. Large animal vaccines
4. Large animal health products

The poultry vaccine division witnessed a growth of 19.62 per cent, an increase in sales to ₹1,022.42 million from ₹854.70 million in the previous year. The growth which was higher than budgeted, mainly came from sales through our distributor network across the country. Our growth being more than the growth of the poultry industry, has improved our market share in India.

The poultry health products division witnessed a growth of 9.20 per cent, an increase in sales to ₹36.80 million as compared to sales of ₹33.70 million in the previous year. This growth was below our budgeted figures mainly due to delay in the launch of new products. We have launched a few products in the last quarter which would show results in this financial year.

Overall, poultry divisions jointly grew at 19.22 per cent.

The large animal vaccine division achieved sales of ₹68.23 million as against ₹21.30 million in the previous year, registering a growth of 220 per cent. We launched the Brucella Abortus Live Vaccine, besides penetrating the market with the PPR vaccine.

The large animal health products division saw a growth of 15.43 per cent, an increase in sales to ₹83.80 million from ₹72.60 million. The year went in setting controls to ensure a strong foundation in terms of collection policies and rationalisation of Stock Keeping Units. The positive impact is expected to be seen in this year.

Overall, large animal divisions jointly grew at 61.84 per cent.

Exports grew by 44 per cent; an increase in sales to ₹144.31 million from ₹100.20 million in the previous year. The exports comprised mainly of poultry and large animal vaccines. In the year 2016-17 we received registration approvals for 22 poultry vaccines in three countries.

Domestic sales grew by 21 per cent.

The launch of the diagnostics division which was slated for February 2017, got postponed to June 2017. This delay was due to getting regulatory approvals. With this division now launched, we hope to generate sales as well as have a captive consumption of diagnostic kits.

The Nepal plant commenced its sales by executing an order for PPR vaccine valuing ₹13.10 million, for supplies to Africa.

During the year, CARE has upgraded our credit rating as follows:

- Long-term rating 'A- ("A" Minus)' from 'BBB+'
- Short-term rating 'A2' from 'A3'

We continue to hold the following certifications:

1. WHO - GMP
2. GLP (Good Laboratory Practices)
3. ISO 9001:2008
4. ISO 14001:2004
5. OHSAS 18001:2007
6. DSIR approved R&D centre

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31 MARCH 2017

[PURSUANT TO SECTION 204(1) OF THE COMPANIES ACT, 2013 AND RULE NO.9 OF THE COMPANIES (APPOINTMENT AND REMUNERATION OF MANAGERIAL PERSONNEL) RULES, 2014]

To,
The Members,
HESTER BIOSCIENCES LIMITED
'Pushpak' 1st Floor,
Motilal Hirabhai Road,
Panchvati Circle,
Ahmedbad 380 006

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Hester Biosciences Limited (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minutes book, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31 March 2017 generally complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minutes book, forms and returns filed and other records maintained by the Company for the financial year ended on 31 March 2017 and made available to me, according to the provisions of:

- (i) The Companies Act, 2013 ('the Act') and the rules made there under as applicable;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-Laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment and Overseas Direct Investment;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act,

1992 ('SEBI Act'):-

- (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, as amended from time to time;
- (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992 and 2015, as amended from time to time;
- (c) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (vi) Secretarial Standards issued by the Institute of Company Secretaries of India (SS – 1 and SS – 2)

I have also examined compliance with the applicable Regulations of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, pursuant to the Listing Agreement of the said Company with stock exchanges.

Further being a Pharmaceutical Company, following are some of the Acts applicable to the Company, for which examination of the relevant documents and records, on test check basis, have been carried out under:

- 1) Pharmacy Act, 1948
- 2) Drugs And Cosmetics Act, 1940 & Amendment 2008 and its Rules
- 3) Biological Diversity Act, 2002 & its Rules
- 4) The Drugs and Magic Remedies (Objectionable Advertisement) Act, 1954 and its Rules
- 5) The Drugs (Prices Control) Order 1995 (under the Essential Commodities Act)
- 6) Drug Policy 2002
- 7) Gujarat Drugs (Control) Act, 1959
- 8) The Indian Copyright Act, 1957
- 9) The Trade Marks Act, 1999

During the period under review, the Company has generally complied with all the material aspects of applicable provisions of the Acts, Rules, Regulations, Guidelines, Standards etc. mentioned above. However, the Company has spent less than the prescribed threshold limit of 2 per cent of its average net profits for the last three financial years (as calculated in accordance with

the Companies Act, 2013) towards Corporate Social Responsibility.

During the Period under review, provisions of the following Acts, Rules, Regulations, Guidelines etc. were not applicable to the Company:

- i) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Securities and Exchange Board of India (Share based employee benefits) Regulations, 2014;
- ii) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009;
- iii) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
- iv) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
- v) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; and
- vi) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of External Commercial Borrowings.

I further report that –

The Compliance by the Company of applicable financial laws, like direct and indirect tax laws, has not been reviewed in this Audit since the same have been subject to review by statutory financial auditor and other designated professionals.

I further report that –

Based on the information provided by the Company, its officers and authorised representatives during the conduct of the audit, in my opinion, adequate systems and processes and control mechanism exist in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations, standards and guidelines and general laws like various labour laws, competition law, environmental laws etc.

I further report that –

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in

the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent generally seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

During the year, all decisions in the Board Meetings were carried out unanimously.

I further report that during the audit period there were no specific events/ actions in pursuance of the above referred laws, rules, regulations, standards etc. having a major bearing on the Company's affairs, except as stated below:

- i) In the last Annual General meeting held on 29 July 2016, Company has taken approval from the its members to the issue of Equity Shares by way of private placement to Qualified Institutional Buyers or preferential allotment up to an aggregate amount of ₹75 Crores (Rupees Seventy Five Crores) However, till date the same is not materialised.
- ii) In March, 2017 the company has decided to make investment into Texas Laboratory, partnership firm by acquiring 55 per cent of stake in the firm.
- iii) The company has reappointed to Mr. Rajiv Gandhi from 1 April 2017 for a period of three years by way of passing resolution of members through postal ballot dated 22 December 2016.

Management Discussion & Analysis

GLOBAL ECONOMIC OVERVIEW

Global economic growth stagnated at around 3.1 per cent during 2016 following a deceleration in trade activities, lowered investments and political uncertainties in advanced economies. The year was marked by the United Kingdom's decision to exit the European Union and the election of Donald Trump as the American President. Consumers continued to spend cautiously as expenditure increased by 2.4 per cent in real terms over 2015, well below the corresponding increase in disposable incomes in the Asia Pacific region. Global growth is estimated to rise from 2.3 per cent in 2016 to 2.7 per cent in 2017. Growth in emerging and developing economies, too, is

expected to revive in 2017 on the back of a removal of a number of obstacles for commodity exporters and a sustained demand from commodity importers. The main factors that could possibly lead to the medium-term growth prospects across many emerging markets and developing economies are weak investments and sub-optimal productivity. Advanced economies witnessed a stronger-than-expected pick-up in growth mostly due a reduced drag from inventories and some recovery in manufacturing output. Economic activity in advanced as well as developing economies will accelerate during 2018. (Source: World Bank, Euromonitor, IMF)

INDIAN ECONOMIC OVERVIEW

India's GDP grew at a rate of 7.1 per cent in FY2016-17 vis-à-vis 8 per cent in FY2015-16. The manufacturing and construction sectors were hit by the cash crunch, thereby pulling down the real GDP growth in Q4FY17 to 6.1 per cent from 7 per cent. The GVA growth in Q4FY17 was pegged at 5.6 per cent while GVA expansion slipped sharply to 6.6 per cent in FY2016-17 from 7.9 per cent in FY2015-16. Although the demonetisation initiative had a broad-based impact on the economy during the fourth quarter, it is supposed to usher long-term benefits. The lower-than-expected real GDP growth in Q4FY17 was also due to the firming up of commodity prices, which hardened the WPI. Nominal GDP expansion touched 11 per cent compared to 9.9 per cent in FY2015-16, owing to higher inflation, especially at the wholesale level. Despite several such macroeconomic challenges, the agriculture and mining sectors managed to hold sway on the back of robust consumption levels. Thanks to a favourable

monsoon, the agricultural sector expanded by 4.9 per cent during FY2016-17, compared to a dismal 0.7 per cent in the previous year. The agricultural sector grew 4.15 per cent during FY2016-17 (significantly higher than 1.2 per cent in FY2015-16), contributing ~17 per cent of India's GVA. The country's manufacturing sector, one of high-growth sectors of the economy, contributes ~16 per cent of India's GDP. India's manufacturing sector retains the potential to touch USD1 trillion by 2025, propelled by governmental initiatives like Make in India, FDI regulation changes, and amendment of bankruptcy laws, among others. India's IIP rose from 0.7 per cent to 5 per cent during FY2016-17 (base year modified from FY2004-05 to FY2011-12). According to CARE ratings, the industrial output is expected to grow at a rate of ~6 per cent in FY2017-18. The country's forex reserves rose by USD1.1 billion to reach ~USD368 billion (as on March 24, 2017) while a widening trade shortage caused India's CAD to jump to a four-quarter high – 1.4 per cent of the GDP in Q4 from

0.6 per cent of the GDP during Q3. The services sector grew at a rate of 8.8 per cent during FY2016-17 while the performance of trade, hotels and restaurants, transport, storage and communication sectors are expected to improve during FY2017-18. OUTLOOK

The growth estimate for FY2016-17 is based on normal precipitation levels during the year as well as an expected increase in consumption, private sector participation and governmental spending. The nationwide rollout of the Goods and Services Tax in the second quarter of FY2017-18 is also expected to bolster India's GDP growth by 0.25-0.5 per cent. Consequently, the Indian economy is expected to grow at a rate of 7.6-7.8 per cent during FY2017-18. [Source: Financial Express, Business Line]

GLOBAL VETERINARY MARKET OVERVIEW

The global veterinary vaccines market was valued at USD27 billion in 2016 and is expected to grow at a CAGR of 7.9 per cent from 2016 to reach USD39.56 billion by 2021. The global animal vaccines market is valued at USD5.81 billion in 2016 and is expected to grow at a CAGR of 5.8 per cent between 2016 and 2021 to reach USD7.68 billion. Vaccination has now emerged as one of the most used medical products, protecting animals and livestock from various diseases irrespective of whether these animals are domestic or wild. These vaccinations not only help in preventing diseases but also in minimising the use of antimicrobials. Increased demand in emerging global markets, coupled with a relatively low risk of developing health products, make the animal health industry a lucrative investment opportunity. The trend is dominated by the increasing importance of poultry and livestock animals. Apart from the population explosion, rising income levels and increasing urbanisation, there is an ascent in the of global demand for meat, especially in the developing countries. Another factor contributing to the bright prospects of the industry is the upsurge in the number of pets and increasing awareness about animal health among people. Asia-Pacific is one of the major producers of animal meat and estimated to be the fastest-growing region during the forecast period. (Source: Animal health Asia, Market data forecast)

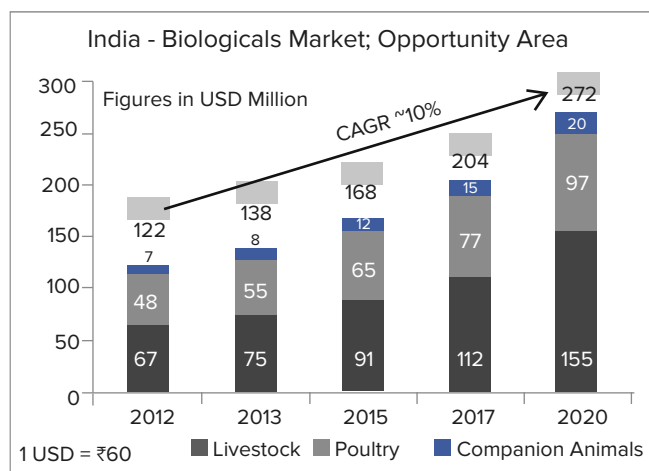

INDIAN VETERINARY MARKET OVERVIEW

The animal healthcare market in India has a great potential for growth, owing to the rising consumption of animal protein by Indians, increase in veterinary professionals and a number environment-related factors. The Indian

market for animal healthcare is pegged to expand at a healthy CAGR of 8 per cent between 2016 and 2024. Rising at this pace, the market is expected to reach a value of USD1,179.4 million by the end of 2024 from USD590 million in 2015. South India dominates this market with a share of 37 per cent. Andhra Pradesh and Karnataka have emerged as the most prominent local markets for animal healthcare in South India and are expected to present a substantial scope for growth. Among other zonal markets, North India is anticipated to witness a healthy rise over the near future. This will be due to the growing awareness about animal health, changing climatic conditions and dietary patterns leading to an increasing veterinary population. SECTORAL OPTIMISM

There were ~300 million bovines, 65.07 million sheep, 135.2 million goats and about 10.3 million pigs as per the 19th Livestock Census in the country. Emerging markets such as India show high growth opportunities as opposed to highly-saturated Western markets. India has been showing signs of increasing westernisation adapting to protein-rich high meat diet. India's total chicken meat consumption for 2017 is forecast at 4.49 million metric tonnes, up by approximately 7 per cent year-on-year. Consumption of processed chicken meat has been rising between 15-20 per cent per annum. India's per capita consumption of poultry meat is estimated at around 3.6 kilograms per year. However, with rising middle-class incomes and expansion of fast food chains, consumption of chicken meat continues to rise. India is the highest beef exporter in the world alongside Brazil with total meat production registering a growth of 8.74 per cent to 2.43 million tonnes between July and October FY2016-17, as against 2.24 million tonnes for the same period during FY2015-16. Nearly ~47.86 per cent of the meat produced came from poultry and 20.11 per cent from buffaloes.

India's broiler production during 2017 is projected to increase by ~7 per cent to 4.5 million tonnes on the back of increasing demand from the growing middle class. Egg production in 2017 is forecast to reach 84 billion, up by 5 per cent. With increase in the population of the affluent class, the number of pet animals has also increased. India has vast resource of livestock and poultry, which play a vital role in improving the socio-economic conditions of the rural masses. (Source: Indo Asian Communities, DAHD)

CORPORATE OPTIMISM

India's broiler production is estimated to go up by 7 per cent to 4.2 million tonnes, on the back of a rising domestic demand for poultry meat, increasing income levels and evolving food habits. Live market sales of broiler meat still constitutes >90 per cent of the total sales volume as consumers prefer fresh meat as opposed to processed meat. Hester derives 85 per cent of its revenues from poultry vaccines and 3 per cent of its revenues from poultry health products. Both metrics are expected to increase as consumption patterns keep evolving. The Company introduced two new poultry vaccines and five new health products in addition to sero-monitoring products, which help identify the immunity levels of broilers. The Company also offered a Brucella abortus live vaccine for large animals, which along with the PPR vaccine is expected to contribute significantly to the Company's revenues as the country aims to eradicate PPR. Hester's export presence spans 25 countries and has received approvals for 22 poultry vaccines from three more countries. The Company also cleared an Ethiopian drug regulatory inspection and was bestowed approvals by Saudi Arabian and Kenyan regulatory bodies.

GOVERNMENTAL INITIATIVES

Livestock health and disease control: The Government of India is implementing a centrally-sponsored scheme called Livestock Health & Disease Control during the 12th Five Year Plan period at a cost of ₹3,114 crore.

Assistance to states for control of animal diseases:

Under this component, assistance is provided to State Governments for the control of economically important and zoonotic diseases of livestock and poultry by immunising animals, strengthening existing veterinary production units and diagnostic laboratories and holding training workshops for veterinarians and para-veterinarians. In the first phase, 23 BSL-II laboratories will be set up under the aegis of the World Bank and 32 ISO-certified and GLP-compliant ELISA laboratories will be established.

National project on Rinderpest surveillance and monitoring:

Under the programme, State Governments are required to carry out physical surveillance through village, stock route and institutional searches to undertake surveillance of other diseases on a routine basis. Funds will be provided for strengthening veterinary services, surveillance of various diseases with a keen emphasis on Contagious Bovine Pleuro Pneumonia and Bovine Spongiform Encephalopathy, among others.

Professional efficiency development: The component envisages the establishment of a Veterinary Council of India and State Veterinary Councils in line with the tenets laid down under the Indian Veterinary Council Act, 1984. The Veterinary Council of India is mandated to impart training to veterinarians on the latest technical knowledge via continuing veterinary education programmes.

Foot and Mouth Disease control programme: To prevent economic losses due to Foot and Mouth Disease and develop herd immunity in cloven-footed animals, a location specific programme called Foot and Mouth Disease Control Programme is currently being implemented in 221 specified districts of Andhra Pradesh, Karnataka, Kerala, Tamil Nadu, Maharashtra, Goa, Gujarat, Punjab, Haryana, Delhi, Andaman & Nicobar Islands, Dadra & Nagar Haveli, Daman & Diu, Lakshadweep, Pondicherry and 16 districts in Uttar Pradesh (bifurcated to 20). The programme aims to vaccinate animals on a half-yearly basis, conduct mass awareness campaigns, identify target animals in the selected districts, carry out sero-monitoring of animals on a random basis, procure cold cabinets and FMD vaccines, assess randomly collected samples of vaccines for quality, and record animal movements in unvaccinated areas through temporary check-posts, among others.

National animal disease reporting system: Networking of animal disease diagnostic laboratories and workflow software system aims to provide necessary ICT infrastructure, software and internet connectivity to animal disease diagnostic laboratories at state or district levels across India and train concerned officials for the dissemination of data related to samples received, test conducted and results obtained.

Peste des Petits Ruminants control programme: The PPR infection causes huge losses in the rural economy, both in terms of morbidity and mortality in sheep and goats. This programme is now renamed as PPR Control Programme involves vaccination of all susceptible goats and sheep and their three subsequent generations (~30 per cent) in all the States including those covered in the first phase.

Establishment and strengthening of existing veterinary hospitals and dispensaries: The Government of India had initiated a programme for establishing new hospitals and dispensaries and strengthening of existing hospitals and dispensaries during 11th Five Year Plan period. Assuming the escalation cost of construction for new buildings of veterinary hospitals and dispensaries, a cost escalation up to 25 per cent on the original cost norms of construction without any change in the cost on equipment would be supported under the programme.

Brucellosis control programme: Brucellosis is a reproductive disease affecting livestock of zoonotic nature. Bovine brucellosis is endemic in almost all the States of India. This disease can be prevented by one-time vaccination of all eligible female calves. The Brucellosis control programme under the 12th Five Year Plan envisages vaccination of female calves between six to eight months across all states. Adult vaccination will also be taken up covering all unvaccinated female bovines in a phased manner during the 12th Five Year Plan period.

Classical Swine Fever control programme: Funds will be provided to the State Governments for vaccinating pigs in a phased manner starting with the North Eastern states. Depending on vaccine availability, the scope of the programme will be enlarged to cover the entire country.

Independent Auditors' Report

To
The Members of
HESTER BIOSCIENCES LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of HESTER BIOSCIENCES LIMITED ("the Company"), which comprise the Balance Sheet as at 31 March 2017, the Statement of Profit and Loss and Cash Flow Statement for the year ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2017 and its profits and its cash flow for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in the paragraph 3 and 4 of the order.

2. As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c. The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- e. On the basis of the written representations received from the directors as on 31 March 2017, taken on record by the Board of Directors, none of the director is disqualified as on 31 March 2017, from being appointed as a Director in terms of Section 164(2) of the Act.
- f. with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- g. With respect to the other matters to be included In the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in

our opinion and to the best of our information and according to explanations given to us :

- i) The Company doesn't have any pending litigations which would impact its financial position in its financial statements.
- ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv) The Company has provided requisite disclosures in its standalone financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8 November 2016 to 30 December 2016 and these are in accordance with the books of accounts maintained by the Company. Annexure B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Hester Biosciences Limited ('the Company') as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established

and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of the Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls

over financial reporting were operating effectively as at 31 March 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes Forming Part of Financial Statements for the year ended 31 March 2017

1 Corporate Information

Hester Biosciences Limited is a public limited company domiciled in India and listed on BSE Limited (BSE) and The National Stock Exchange of India Limited (NSE). The company is engaged in manufacturing of Poultry vaccines and Large Animal Vaccines and trading of Poultry and Large animal health products having its manufacturing set up at Merda Adraj village, Mehsana District, Gujarat.

2 Significant Accounting Policies

a BASIS OF PREPARATION:

The financial statements are prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP), accounting standards notified under section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014 to the extent applicable under historical cost convention on accrual basis.

b USE OF ESTIMATES:

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumption that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Difference between the actual results and the estimates are recognised in the periods in which the results are known/ materialised.

c REVENUE RECOGNITION:

Revenue is recognised to the extent it is probable that economic benefits will flow to the company and can be reliably measured.

Revenue from sale of products is recognised on dispatch or appropriation of goods in accordance with the terms of sale and rewards of ownership have passed to the buyer. Revenue from services are recognised as the related services are performed. Sale of goods is recorded net of returns, discounts, rebates, VAT/Sales Tax, Service Tax but inclusive of excise duty.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

d PROPERTY PLANT & EQUIPMENTS :

Tangible Assets are stated at cost, net of accumulated depreciation and accumulated impairment losses. Cost comprises of the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management. Subsequent costs related to an item of Property, Plant and Equipment are recognised in the carrying amount of the item if the recognition criteria are met.

Revaluation of Land is made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. When the fair value differs materially from its carrying amount, the carrying amount is adjusted to the revalued amount. The fair value is determined based on appraisal undertaken by a professionally qualified valuer.

Items of Property, Plant and Equipment that have been retired from active use and are held for disposal are stated at the lower of their net carrying amount and net realisable value and are shown separately in the financial statements under the head 'Other current assets'. Any write-down in this regard is recognised immediately in the Statement of Profit and Loss. An item of Property, Plant and Equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Statement of Profit and Loss.

Notes Forming Part of Financial Statements for the year ended 31 March 2017

e INTANGIBLE ASSETS & CAPITAL WORK IN PROGRESS

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives.

Cost of fixed assets not ready for their intended use before the balance sheet date is disclosed as capital work-in-progress and is carried at cost, comprising direct cost, related incidental expenses and directly attributable interest. Advances paid towards the acquisition of fixed assets outstanding as of each balance sheet date is disclosed under long term loans and advances.

f DEPRECIATION / AMORTISATION :

Depreciation on Fixed Assets is provided on Straight Line method (SLM) based on useful life of the assets as prescribed under Part-C of Schedule II to the companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II are used. The Management estimates the useful lives for such fixed assets as under:-

Particulars	Estimated Useful Life
Furniture & Fixtures	Over a Period of 9 Years
Vehicles	Over a Period of 8 Years
Plant & Machineries, Equipments, Electrical Installation & Utilities	Over a Period of 9 Years
Office Building	Over a Period of 30 Years

g IMPAIRMENT OF ASSET:

The company assesses at each Balance Sheet date whether there is any indication that any asset may be impaired. If any such indications exist, the carrying value of such assets is reduced to its estimated recoverable amount and the amount of such impairment loss is charged to Profit and Loss Account. If at the Balance Sheet date there is an indication that previously assessed impairment losses no longer exist, than such loss is reversed and the asset is restated to that effect.

h INVESTMENTS:

Investments, which are readily realisable and intended to be held for not more than a year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments. Investments in buildings that are not intended to be occupied substantially for use by, or in the operations of the Company, have been classified as Investment Properties. Investment properties are carried at cost less accumulated depreciation and accumulated impairment losses, if any.

i INVENTORIES:

Inventories include raw materials, bought out components, work-in-progress and manufactured finished goods. Finished products:

Finished products produced by the Company are valued at lower of cost and net realisable value. Cost includes direct materials, labour, a proportion of manufacturing overheads and Excise duty has been charged on finished goods.

Notes Forming Part of Financial Statements for the year ended 31 March 2017

Work in Progress:

Work in Progress is valued at cost of direct materials, labour and other Manufacturing overheads up to estimated stage of process.

Raw materials and stores and spares:

Raw materials and stores and spares are valued at Lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost is determined using First in First out (FIFO) method.

j BORROWING COSTS:

Borrowing costs that are attributable to the acquisitions or construction of fixed assets/ qualifying assets for expansion/new project are capitalised to respective fixed assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are charged to revenue in the year in which they are incurred.

k FOREIGN CURRENCY TRANSACTIONS:

- i Foreign currency transactions are recorded at the exchange rates prevailing at the time of transaction.
- ii Monetary items representing assets and liabilities denominated in foreign currencies at the balance sheet date are translated at rates prevailing on balance sheet date.
- iii Investments in equity capital of company registered outside India are carried in the Balance Sheet at the rates prevailing on the date of transaction.
- iv Any income or expenses on account of exchange difference either on settlement or on transaction other than that arising in long term foreign currency items is recognised in the Statement of Profit and Loss, for the period in which the difference takes place.

l RESEARCH AND DEVELOPMENT:

Revenue expenditure on Research and Development is charged to the Statement of Profit and Loss for the year in which it is incurred. Capital expenditure on Research and Development is shown as an addition to the fixed assets and is depreciated on the same basis as other fixed assets.

m PROVISION FOR RETIREMENT BENEFITS:

- (i) Short-Term Employee Benefits:

Short term employee benefits such as salaries, wages, leave encashment, bonus etc. are recognised as an expense and are charged to the statement of Profit and Loss for the year in which the related services is rendered.

- (ii) Post- employment benefit plans:

- a) Defined Contribution Plan:

Contribution for provident fund are accrued in accordance with applicable Statutes and deposited with the Regional Provident Fund Commissioner.

- b) Defined Benefit Plan:

The liabilities in respect of gratuity and leave encashment are determined Using Projected Unit Credit Method

Notes Forming Part of Financial Statements for the year ended 31 March 2017

with actuarial valuation carried out as at Balance Sheet date. Actuarial gains and losses are recognised in full in the Statement of Profit & loss for the period in which they occur.

Contributions in respect of gratuity are made to the Group Gratuity Scheme with Life Insurance Corporation of India. Employee benefits recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for Unrecognised past service cost and as reduced by the fair value of respective fund.

n SEGMENT REPORTING:

The company identifies primary segments based on the nature of products and market catered by each segments for which separate financial information is available and for which operating profit/loss amounts are evaluated by the company.

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for preparing and presenting the financial statements of the company as a whole. Segment-wise revenue, expenses, assets and liabilities have been identified to segment on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the company as a whole and are not allocable to specific segment on reasonable basis have been included under unallocated revenue/ expenses/ assets/ liabilities.

o EARNING PER SHARE:

Basic earning per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

p CASH AND CASH EQUIVALENTS:

Cash and cash equivalents for the purpose of cash flow statement comprise Cash on hand and balance at Bank including fixed deposits with an original maturity period of less than three months and short term investments with an original maturity of three months or less.

q TAXATION:

i. Current Tax:

Provision for Income Tax is determined in accordance with the provisions of Income Tax Act, 1961.

ii. Deferred Tax Provision:

Deferred Tax charge or credit is recognised on timing differences; being the difference between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. It is calculated using the applicable tax rates and tax laws that have been enacted by the balance sheet date. The deferred tax assets is recognised and carried forward only to the extent that there is virtual certainty that there will be sufficient future taxable income available to realise the assets. At each Balance Sheet date, recognised and unrecognised Deferred Tax Liabilities / Assets are reviewed.

iii. Minimum Alternative Tax (MAT):

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India which gives rise to future economic benefit in the form of MAT credit entitlement for adjustment of future income tax liability, is considered as an asset only when there is convincing evidence that the company will pay normal income tax within the specified period. Accordingly, MAT is recognised as an asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify. Such assets are revised at each balance sheet date.

Notes Forming Part of Financial Statements for the year ended 31 March 2017

r GRANTS:

Government grants are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants will be received. Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis.

s PROVISIONS AND CONTINGENT LIABILITIES:

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A Contingent Liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A Contingent Liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

The provident fund plan is operated by the regional provident fund commissioner, the company required to contribute a specified percentage of payroll cost to the retirement benefit scheme to fund the benefit.

The company recognised ₹ 5.19 million (P.Y. ₹ 3.95 million) for provident fund contribution in the profit and loss account. The contributions payable to this plan by the Company are at rates specified in the rules of the scheme.

b Defined Benefit Plan

The company made annual contribution to the employee’s Group Gratuity Cash Accumulation Scheme of the Life Insurance Corporation of India, a funded benefit plan for qualifying employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or a part thereof in excess of six months. Vesting occurs upon completion of five years of service.

The present value of define benefit obligation and the related current service cost were measured using the projected unit credit method as per actuarial valuation carried out at balance sheet date.

Independent Auditors' Report

To
The Members of
HESTER BIOSCIENCES LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of HESTER BIOSCIENCES LIMITED ("the Holding Company"), its subsidiary (collectively referred to as "the Company" or "the Group"), comprising the Consolidated Balance Sheet as at 31 March 2017, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under Section 133 of the Act, read with Relevant Rules of the Companies (Accounts) Rules, 2014. The Board of Directors of the Company is responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid

consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2017, and its consolidated profit and their consolidated cash flows for the year ended on that date.

Other matters

We did not audit the financial statements of subsidiary Company included in the consolidated financial results, whose financial statements reflect total assets of ₹484.40 million as at 31 March 2017, total revenue of ₹12.93 million of the year ended 31 March 2017 and total loss of ₹21.67 million as considered in consolidated financial results. These financial statements have been audited by other auditor whose report have been furnished to us by the management and our opinion on the Statement, in so far relates to the amounts and disclosures included in respect of subsidiary Company, is solely based on the report of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that :
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements.
 - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the Company so far as it appears from our examination of those books and reports of the other auditor.
 - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d. In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with

Relevant rules of the Companies (Accounts) Rules, 2014.

- e. On the basis of the written representations received from the Directors of the Holding Company as on 31 March 2017 taken on record by the Board of Directors of the Holding Company, none of the Directors of the Company, is disqualified as on 31 March 2017 from being appointed as a Director in terms of section 164(2) of the Act.
- f. with respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to explanations given to us :
 - i) The Company doesn't have any pending litigations which would impact its financial position in its financial statements.
 - ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv) The Company has provided requisite disclosures in its consolidated financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8 November 2016 to 30 December 2016 and these are in accordance with the books of accounts maintained by the Company. Refer Note 32 to the consolidated financial statements.

Annexure A to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Hester Biosciences Limited ('the Company') as of 31 March 2017 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of the Management and Directors of the Company; and (3) provide reasonable assurance regarding

prevention or timely detection of unauthorised acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

Our aforesaid reports under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting is based solely on our report on the standalone financial statement of the Holding Company for the year ended 31 March 2017, since it did not have any subsidiary, associate or jointly controlled Companies which are incorporated in India as on that date.

1 Corporate Information

Hester Biosciences Limited is a public limited Company domiciled in India and listed on BSE Limited and The National Stock Exchange of India Limited. The Company is engaged in manufacturing of “Poultry and Large Animal vaccines” and trading of “Poultry and Large Animal” health products having its manufacturing set up at Merda Adraj village, Mehsana District, Gujarat.

2 Significant Accounting Policies

a BASIS OF PREPARATION:

The financial statements are prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP), accounting standards notified under section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014 to the extent applicable under historical cost convention on accrual basis.

b USE OF ESTIMATES:

The financial statements of Company and its subsidiary have been consolidated on a line by line basis by adding together like items of assets, liabilities, incomes, expenses, after eliminating intra group transactions and any unrealised gains or losses in accordance with the Accounting Standard - 21 on “Consolidated Financial Statements” (AS 21). The financial statements of the Company and its subsidiary have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances. The excess of cost of investments in the subsidiary Company over the share of the equity of the subsidiary Company at the date on which the investment in the subsidiary Company is made is recognised as ‘Goodwill on Consolidation’ and is disclosed on the face of the Balance Sheet in the Consolidated Financial Statements. Alternatively, where the share of equity in the subsidiary Company as on the date of investment is in excess of cost of the investment, it is recognised as ‘Capital Reserve’ and shown under the head ‘Reserves and Surplus’, in the Consolidated Financial Statements.

Investment in an Associate, is reported according to the equity method i.e. the investment is initially recorded at cost in accordance with Accounting Standard 23 “Accounting for Investments in associates in Consolidated Financial Statements”. The carrying amount of the investment is adjusted thereafter for the post acquisition change in the Company’s share of net assets of the associate. The excess of cost of investment in associate, over the net assets at the date of acquisition of the investment in the associate is separately disclosed under non current investments as Goodwill.

c REVENUE RECOGNITION:

Revenue is recognised to the extent it is probable that economic benefits will flow to the Company and can be reliably measured.

Revenue from sale of products is recognised on dispatch or appropriation of goods in accordance with the terms of sale and rewards of ownership have passed to the buyer. Revenue from services are recognised as the related services are performed. Sale of goods is recorded net of returns, discounts, rebates, VAT/Sales Tax, Service Tax but inclusive excise duty.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

d PROPERTY, PLANT & EQUIPMENTS :

Tangible Assets are stated at cost, net of accumulated depreciation and accumulated impairment losses. Cost comprises of the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management. Subsequent costs related to an item of Property, Plant and Equipment are recognised in the carrying amount of the item if the recognition criteria are met.

Revaluation of Land is made with sufficient regularity to ensure that the carrying amount does not differ materially

Notes Forming Part of Consolidated Financial Statements for the year ended 31 March 2017

from that which would be determined using fair value at the balance sheet date. When the fair value differs materially from its carrying amount, the carrying amount is adjusted to the revalued amount. The fair value is determined based on appraisal undertaken by a professionally qualified valuer.

Items of Property, Plant and Equipment that have been retired from active use and are held for disposal are stated at the lower of their net carrying amount and net realisable value and are shown separately in the financial statements under the head 'Other current assets'. Any write-down in this regard is recognised immediately in the Statement of Profit and Loss. An item of Property, Plant and Equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Statement of Profit and Loss.

e INTANGIBLE ASSETS & CAPITAL WORK-IN-PROGRESS:

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives.

Cost of fixed assets not ready for their intended use before the balance sheet date is disclosed as capital work-in-progress and is carried at cost, comprising direct cost, related incidental expenses and directly attributable interest. Advances paid towards the acquisition of fixed assets outstanding as of each balance sheet date is disclosed under long term loans and advances.

f DEPRECIATION / AMORTISATION :

Depreciation on Fixed Assets is provided on Straight Line method (SLM) based on useful life of the assets as prescribed under Part-C of Schedule II to the Companies Act, 2013 except in respect of the following assets where useful life is different than those prescribed in Schedule II are used. The Management estimates the useful lives for such fixed assets as under:

Particulars	Estimated Useful Life
Furniture & Fixtures	Over a Period of 9 Years
Vehicles	Over a Period of 8 Years
Plant & Machineries, Equipments, Electrical Installation & Utilities	Over a Period of 9 Years
Office Building	Over a Period of 30 Years

g IMPAIRMENT OF ASSET:

The Company assesses at each Balance Sheet date whether there is any indication that any asset may be impaired. If any such indications exist, the carrying value of such assets is reduced to its estimated recoverable amount and the amount of such impairment loss is charged to Profit and Loss Account. If at the Balance Sheet date there is an indication that previously assessed impairment losses no longer exist, than such loss is reversed and the asset is restated to that effect.

h INVESTMENTS:

Investments, which are readily realisable and intended to be held for not more than a year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

Investments in buildings that are not intended to be occupied substantially for use by, or in the operations of the Company, have been classified as investment properties. Investment properties are carried at cost less accumulated depreciation and accumulated impairment losses, if any.

Notes Forming Part of Consolidated Financial Statements for the year ended 31 March 2017

i INVENTORIES:

Inventories include raw materials, bought out components, work-in-progress and manufactured finished goods.

Finished products:

Finished products produced by the Company are valued at lower of cost and net realisable value. Cost includes direct materials, labour, a proportion of manufacturing overheads and excise duty have been charged on finished goods.

Work-in-Progress:

Work-in-Progress is valued at cost of direct materials, labour and other manufacturing overheads up to estimated stage of process.

Raw materials, stores and spares:

Raw materials, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost is determined using First in First out (FIFO) method.

j BORROWING COSTS:

Borrowing costs that are attributable to the acquisitions or construction of fixed assets/ qualifying assets for expansion/new project are capitalised to respective fixed assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are charged to revenue in the year in which they are incurred.

k FOREIGN CURRENCY TRANSACTIONS:

- i Foreign currency transactions are recorded at the exchange rates prevailing at the time of transaction.
- ii Monetary items representing assets and liabilities denominated in foreign currencies at the balance sheet date are translated at rates prevailing on balance sheet date.
- iii Investments in equity share capital of Company registered outside India are carried in the Balance Sheet at the rates prevailing on the date of transaction.
- iv Any incomes or expenses on account of exchange difference either on settlement or on transaction other than that arising in long term foreign currency items are recognised in the Statement of Profit and Loss, for the period in which the difference takes place.

l RESEARCH AND DEVELOPMENT:

Revenue expenditure on Research and Development is charged to the Statement of Profit and Loss for the year in which it is incurred. Capital expenditure on Research and Development is shown as an addition to the fixed assets and is depreciated on the same basis as other fixed assets.

m PROVISION FOR RETIREMENT BENEFITS:

(i) Short-Term Employee Benefits

Short term employee benefits such as salaries, wages, leave encashment, bonus etc. are recognised as an expense and are charged to the statement of Profit and Loss for the year in which the related services is rendered.

(ii) Post- employment benefit plans

a) Defined Contribution Plan:

Contribution for provident fund are accrued in accordance with applicable statutes and deposited with the Regional Provident Fund Commissioner.

Notes Forming Part of Consolidated Financial Statements for the year ended 31 March 2017

b) **Defined Benefit Plan:**

The liabilities in respect of gratuity and leave encashment are determined Using Projected Unit Credit Method with actuarial valuation carried out as at Balance Sheet date. Actuarial gains and losses are recognised in full in the Statement of Profit and loss for the period in which they occur

Contributions in respect of gratuity are made to the Group Gratuity Scheme with Life Insurance Corporation of India. Employee benefits recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for Unrecognised past service cost and as reduced by the fair value of respective fund.

n SEGMENT REPORTING:

The Company identifies primary segments based on the nature of products and market catered by each segments for which separate financial information is available and for which operating profit/loss amounts are evaluated by the Company.

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. Segment-wise revenue, expenses, assets and liabilities have been identified to segment on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to specific segment on reasonable basis have been included under 'unallocated revenues / expenses / assets / liabilities.

o EARNING PER SHARE:

Basic earnings per share are calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

p CASH AND CASH EQUIVALENTS:

Cash and cash equivalents for the purpose of cash flow statement comprise cash on hand and balance at Bank including fixed deposits with an original maturity period of less than three months and short term investments with an original maturity of three months or less.

q TAXATION:

i. Current Tax:

Provision for Income Tax is determined in accordance with the provisions of Income Tax Act, 1961.

ii. Deferred Tax Provision:

Deferred Tax charge or credit is recognised on timing differences; being the difference between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. It is calculated using the applicable tax rates and tax laws that have been enacted by the balance sheet date. The deferred tax assets is recognised and carried forward only to the extent that there is virtual certainty that there will be sufficient future taxable income available to realise the assets. At each Balance Sheet date, recognised and unrecognised Deferred Tax Liabilities / Assets are reviewed.

iii. Minimum Alternative Tax (MAT):

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India which gives rise to future economic benefit in the form of MAT credit entitlement for adjustment of future income tax liability, is considered as an asset only when there is convincing evidence that the Company will pay normal income tax within the specified period. Accordingly, MAT is recognised as an asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify. Such assets are revised at each balance sheet date.

r GRANTS:

Government grants are recognised when there is reasonable assurance that the Company will comply with the

Notes Forming Part of Consolidated Financial Statements for the year ended 31 March 2017

conditions attached to them and the grants will be received. Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis.

s PROVISIONS AND CONTINGENT LIABILITIES:

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A Contingent Liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A Contingent Liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.
