3. Management Discussion & Analysis Report:

a. Industry Structure and Development:

The Government of India has taken several initiatives in the areas of infrastructure, easing the process of doing business, opening the doors to FDI, targeting inflation for monetary policy, campaigns on smart cities, urban development, encouraging start-ups, skill development etc. The impact of most of these measures can be gauged over a period of time and may not get reflected in the economic numbers immediately as they must hence be interpreted more in terms of laying a foundation for future growth. Currently, Indian economy is at a steady growth trajectory, which is expected to take a fast track growth drive due to above, riding on strong macroeconomic fundamentals, favorable business sentiments and downward trend in interest rates.

The Government of India unveiled 'Pharma Vision 2020' aimed at making India a global leader in end-to-end drug manufacture. Approval time for new facilities has been reduced to boost investments. Further, the government introduced mechanisms such as the Drug Price Control Order and the National Pharmaceutical Pricing Authority to deal with the issue of affordability and availability of medicines.

The Indian pharma industry, which is expected to outperform the global pharma industry, will emerge as the sixth largest pharmaceutical market globally by absolute size. Branded generics dominate the pharmaceuticals market, constituting nearly 80 per cent of the market share (in terms of revenues).

According to the Department of Pharmaceutical, Ministry of Chemical and Fertilizer, Government of India, the domestic Pharma market witnessed a slowdown in the ongoing financial year owing to the Government's efforts to make medicines affordable. The impact of this can be seen in the industry's financials as well. The Drugs & Pharmaceuticals industry reported poor sales performance for two consecutive quarters ended September 2016.

The industry's operating expenses rose much faster than the growth in sales. As a result, the industry's operating profit declined, the operating margin and the industry's net profit margin contracted, during the said quarter. During the decade ending 2015-16, India's drug exports grew at a CAGR of 11.9 per cent.

This growth was backed by large number of drugs going off patent, rise in the number of drug approvals and access to new markets. However, the trend, it seems, in drug exports, reversed in the ongoing financial year. During April-November 2016, drug exports fell by one per cent. This is on account of tightening of regulatory mechanism by various countries, price erosion in the US market and economic crisis in the emerging markets.

**b. Business Performance, Opportunities and Outlook:**

The Indian pharmaceutical market size is expected to grow immensely by 2025, driven by increasing consumer spending, rapid urbanisation, and raising healthcare insurance among others.

Going forward, better growth in domestic sales would also depend on the ability of companies to align their product portfolio towards chronic therapies for diseases such as cardiovascular, anti-diabetes, anti-depression and anti-cancers that are on the rise.

The Indian government has taken many steps to reduce costs and bring down healthcare expenses. Speedy introduction of generic drugs into the market has remained in focus and its effects are to be seen, in days to come. In addition, the thrust on rural health programmes, lifesaving drugs and preventive vaccines also augurs well for the pharmaceutical companies.

Demographic trends, rise in diagnosis and treatment of chronic conditions, ageing and growing population, improved access to healthcare and increasing per capita income are the factor that will drive the future demand of the pharmaceutical products in the world.

c. Risk, Concerns & Threats:

The pharmaceutical product prices in India are regulated by National Pharmaceuticals Pricing Authority (NPPA). The NPPA vide various notifications, declares the ceiling price of the formulations mentioned in NLEM (National List of Essentials Medicines), beyond which the companies are restrained to fix their products' MRP. Department of Pharmaceuticals vide its Notification dated 10th March 2016 has amended Schedule-I of DPCO, 2013 by substituting NLEM 2011 with NLEM, 2015. As per this notification, few more products have been bought under price control, while few are removed. However, the product in price control contributes a very small amount to the total revenue of your Company.

1. NPPA had served a show cause notice to your Company alleging that a Company's product was violating a NPPA's standing order. However after a Personal Hearing and detailed submission, NPPA passed a written order stating that your Company's product did not violate the standing order. Subsequently, NPPA reviewed its own order, without having any power to review, and issued show cause notices and demand notice to your Company. Your Company subsequently filed a writ petition against the demand of NPPA, at the Hon'able High Court of Bombay. The matter was settled in favor of your company. The NPPA after over a year filed a Special Leave Petition (SLP) (demanding Rs. 16.45 crore) at the Hon'able Supreme Court, where the matter is pending, after being admitted for further arguments. DPCO, 1995, explicitly debars NPPA to review its

own order, the very reason cited by Hon'able High Court of Bombay, while quashing the show cause notices and demand notice in their judgement dated 08th August, 2013 and 26th September, 2013. Your Company has been legally advised, that based on the facts and merits of the case, the demand raised by NPPA is not likely to crystallize.

2. The Ministry of Health and Family Welfare, Government of India, vide its notification dated 10th March, 2016 banned 344 Fixed Dose Combinations (FDCs) with immediate effect. Many Companies including your Company have challenged the said notifications at the Hon'ble High Court of Delhi. Your Company's seven products are affected by the said notifications which in terms of value and volume do not have substantial impact on the sales and profitability of the Company. The Hon'ble High Court, Delhi passed an order on 1st December, 2016 quashing all the notifications of the Ministry. Subsequently, they filed a special leave petition at The Hon'ble Supreme Court against said the Judgement of the Hon'ble High Court, Delhi. The matter, at present is pending at Supreme Court. The Management is of the opinion that even if the said notifications are upheld and coming in to effect, the same will not substantially impact the sales and profitability of the Company.
3. The Indian Drug Manufacturer's Association (IDMA) has appealed the honourable Prime Minister of India to not to disturb the branded generics market in India, in response to the Indian Medical Association's circular stating use of only Generic names in the prescription to be written by the Physicians in India. All major Pharmaceutical Companies, including your Company, are also engaged in manufacturing of branded Fixed Dose Combinations (FDCs) across therapeutic segment. These products from reputed Company's ensures quality as against plain generic drugs.

Any compulsion, in future, from the Government of India, with regard to mandating the physicians to prescribe only generic drugs and not the branded medicines will entail the patients to be at the mercy of chemist and they may be deprived of good quality products of reputed Companies. Moreover, this will jeopardize the pharmaceutical industry as it will eliminate brand names, which may result in loss of revenue to the industry and rendering many skilled workers unemployed.

IDMA has suggested to allow prescribing both branded and generic products together, leaving the choice to the patient to either buy generic drug or the branded quality product.

As of date, there is no clarity, in this regard, but the government's push for making available cheap medicines through its Janaushadhi programme for the mass, could lead to such a step in future. Your Company is in the process of finding various option for such a situation.

4. The constant change in policies by the Government of India and its delays in product approvals have undesirable effect on the industry.
5. Any further increase in the number of FDC's banned or in the number of National List of Essential Medicines (NLEM) drugs may hamper the sales and profitability of the Company.

Annexure-B to the Independent Auditors' Report

Referred to in paragraph 9 of the Independent Auditor's Report of even date to the members of Jenburkt Pharmaceuticals Ltd. on the standalone financial statements as of and for the year ended March 31st, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of Jenburkt Pharmaceuticals Ltd., ("the Company") as on 31st March 2017, in conjunction with our audit of standalone financial statements of the Company as of and for the year ended 31st March 2017.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

The deferred tax for timing differences between the book and tax profits for the year is accounted for, using the tax rates and laws that have been substantively enacted as of the Balance Sheet date. Deferred tax assets arising from timing differences are recognised to the extent there is reasonable certainty that these would be realised in future.

The carrying amount of deferred tax assets are reviewed at each Balance Sheet date. The Company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain, that sufficient future taxable income will be available against which deferred tax asset can be realised. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent Liabilities are not recognized but are disclosed in notes.
- ii) National Pharmaceutical Pricing Authority (NPPA) had served a Show Cause Notice to the company alleging that a company's product was violating NPPA's standing order. The matter was settled in favour of the company. The NPPA after over a year filed a Special Leave Petition (SLP) (citing demand notice for Rs. 16.45 Cr) at Hon'ble Supreme Court, where the matter is pending for hearing. The company has been legally advised, that based on the facts and merits of the case, the demand raised by NPPA is not likely to crystallise and therefore the same is not recognised.
