

Hikal Limited

Investor Presentation

June 2016

Responsible Care®
The Commitment to Sustainability

Safe Harbor

This presentation and the accompanying slides (the “Presentation”), which have been prepared by **Hikal Limited** (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the paper industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Company Overview

Leading Sustainable Technology driven company serving the Crop Protection & Pharmaceutical Industries

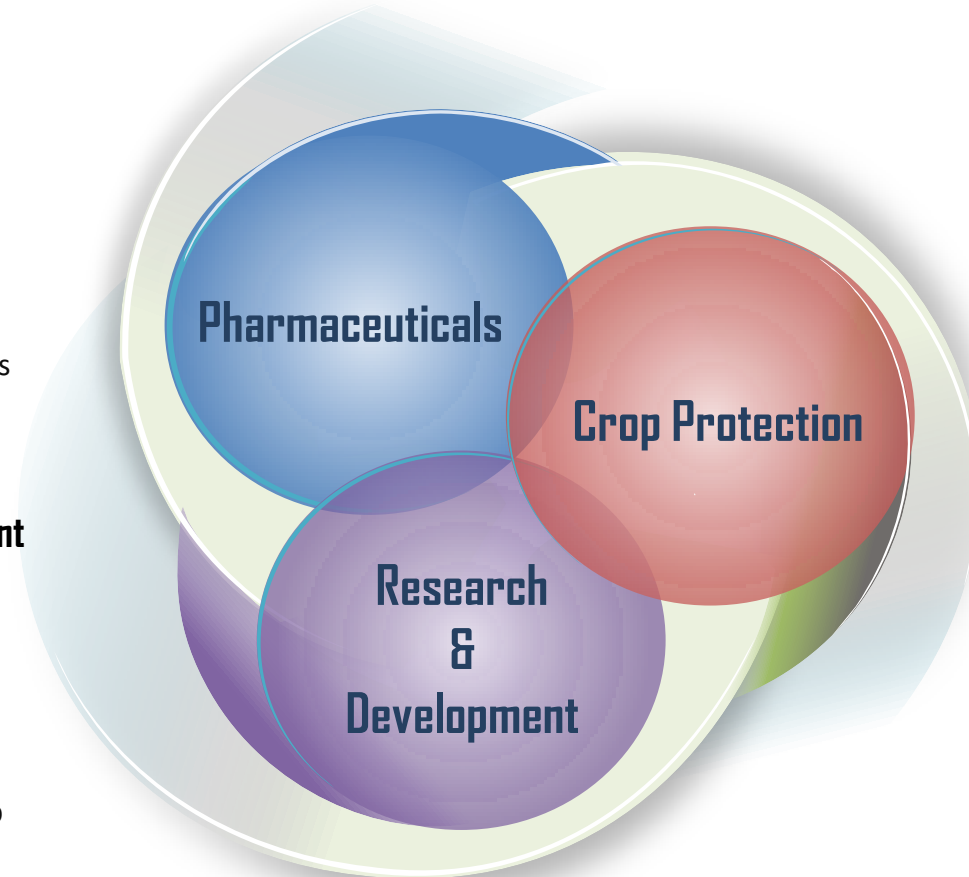

- ✓ Amongst the few Global Company to offer customized, cost effective and sustainable solutions from **R&D to Commercial Manufacturing**
- ✓ One of very few global and only Indian Company to provide APIs for both **Pharmaceuticals and Agrochemicals – Hybrid Model**
- ✓ Preferred Supplier to Large Global Customers across the **Regulated Markets**
- ✓ **First Responsible Care** custom manufacturing Life Science Company in India
- ✓ First Indian Company to be member of **Rx - 360**, a global pharmaceutical supply chain consortium for upholding world class quality standards

1 Pharmaceuticals

- Contract & Custom Manufacturing
- Generics
- Human Health
- Animal Health
- Strong Relationships with Innovators, Mid size Pharma, Biotech & Generic Companies

3 Research & Development

- Offers Right Combination of Capabilities, Quality combined with significant Cost Arbitrage
- Full development & Scale up Service to Innovator Companies , Generic & Biotech Companies

2 Crop Protection

- Custom Synthesis and Contract Manufacturing of Agrochemicals, Intermediates, Biocides and Specialty Chemicals
- Preferred Supplier to Top Crop Protection Companies

Evolution

Crop Protection

Commenced operations with a plant in Mahad.

Second Plant commissioned in Taloja along with Merck, USA

Pharmaceuticals

Diversified into pharmaceuticals business by acquiring Panoli plant from Novartis (formerly Sandoz) and drug manufacturing plant from Wintac (formerly Recon) in Bangalore

R&D

Established R&D center in Pune to focus on R&D and augment pharmaceuticals and crop protection processes

Year	Milestones
1988	Hikal is incorporated
1991	First Manufacturing site at Mahad begins operations - Signed a long term supply agreement with Hoescht India
1995	Signed a long term manufacturing and supply agreement with Merck, U.S., for a large volume Agvet Active Ingredient
1997	Manufacturing of the Active Ingredient for Merck begins at Taloja site
2000	Hikal acquires manufacturing site from Novartis in Panoli, Gujarat
2001	Acquired R&D and Manufacturing site in Bangalore. Hikal enters the Pharmaceutical business
2002	First Pharmaceutical API patent for non infringing process filed in the U.S.
2003	First new API plant commissioned at Bangalore. Multi-purpose Pharmaceutical intermediate plant commissioned at Panoli.
2005	Hikal Scientific Advisory Board formed Signed long term supply agreement with a multinational Crop Protection company
2006	Signed Long term supply contract with global innovator company for commercial supply of API's
2007	Signed long term contract API manufacturing supply agreement with a leading Animal health company
2008	IFC (World Bank) invests 8.27% equity into the company.
2009	Acoris (Research & Development Centre) becomes operational Signed Long term supply contract for an on patent molecule with a global crop protection innovator company.
2012	Hikal wins Aditya Birla Award for "Best Responsible Care Company" in India
2013	Signed a long term supply agreement for human health products with a global biopharmaceutical company
2014	Pharmaceutical Sites, Panoli & Bangalore received EU GMP Approval
2015	New Development & Launch Plant in Bangalore successfully commission for new products from the Pharmaceutical Division Company successfully commissioned Co generation Plant and Biomass boilers at all sites as part of its sustainability program

Global Regulatory Compliances

Regulatory Milestones

US FDA approval of Bangalore
Pharmaceutical manufacturing site

2004

Second successful US FDA Audit
of Bangalore facility

2008

Bangalore clears its 3rd
successful US FDA audit

2011

Panoli certified by the US FDA
Panoli & Bangalore sites receive PMDA approval

2012

Panoli & Bangalore Pharma
Sites are EU Audited

2013

2014

Successfully completed EDQM (European Directorate for Quality of Medicines)
Audit at Bangalore site
4th Successful US FDA audit for Bangalore facility

Scientific Advisory Board

Dr. Goverdhan
Mehta

- He holds a D.Sc. from the University of Marseilles, France; Ph.D. In Organic Chemistry from Pune University - National Chemical Laboratory; and a Ph.D. from Michigan State University and Ohio State University USA.
- He is a National Research Professor, Eli Lilly Chair, School of Chemistry at the University of Hyderabad and a Bhatnagar Fellow
- Padma Shri in 2000 by the President of India
- Chevalier de la Légion d'Honneur
- Fellow of the Royal Society and a member of the Scientific Advisory Committee to the Prime Minister of India

Prof.
K Nagarajan

- He is B.Sc. (Hons) in Chemistry from Loyola College, Madras, and Ph.D. from the University of Madras. He is a postdoctoral Fellow from Wayne State University, California Institute of Technology, Pasadena and Zurich University, Switzerland.
- He has held various positions as Head, Medicinal Chemistry, Ciba Research Center; Director, R&D of Searle India, among others.
- Bhatnagar Prize in Chemistry and Lifetime Research Award from the Chemical Research Society of India. Dr. K. Nagarajan spearheads the scientific efforts at Hikal.

Prof. Axel Kleemann

- He is a Ph.D. in Chemistry from the Johann Wolfgang Goethe University, Frankfurt am Main, where he is the Honorary Professor of Chemistry.
- Prof. Kleemann is the Chairman of the Board of Directors of Protagen AG and a member of the Board of Directors of several non-listed and listed biotech and fine chemical companies
- Co-author of the standard reference book, 'Pharmaceutical Substances'.

Vision

To be a leading reliable & high quality sustainable CDMO player globally

Strategy

Aggressive Growth

- Aggressive growth in Pharmaceuticals , Animal Health & Crop Protection
- Support NCE & Gx Molecules Serving a large range of Customers

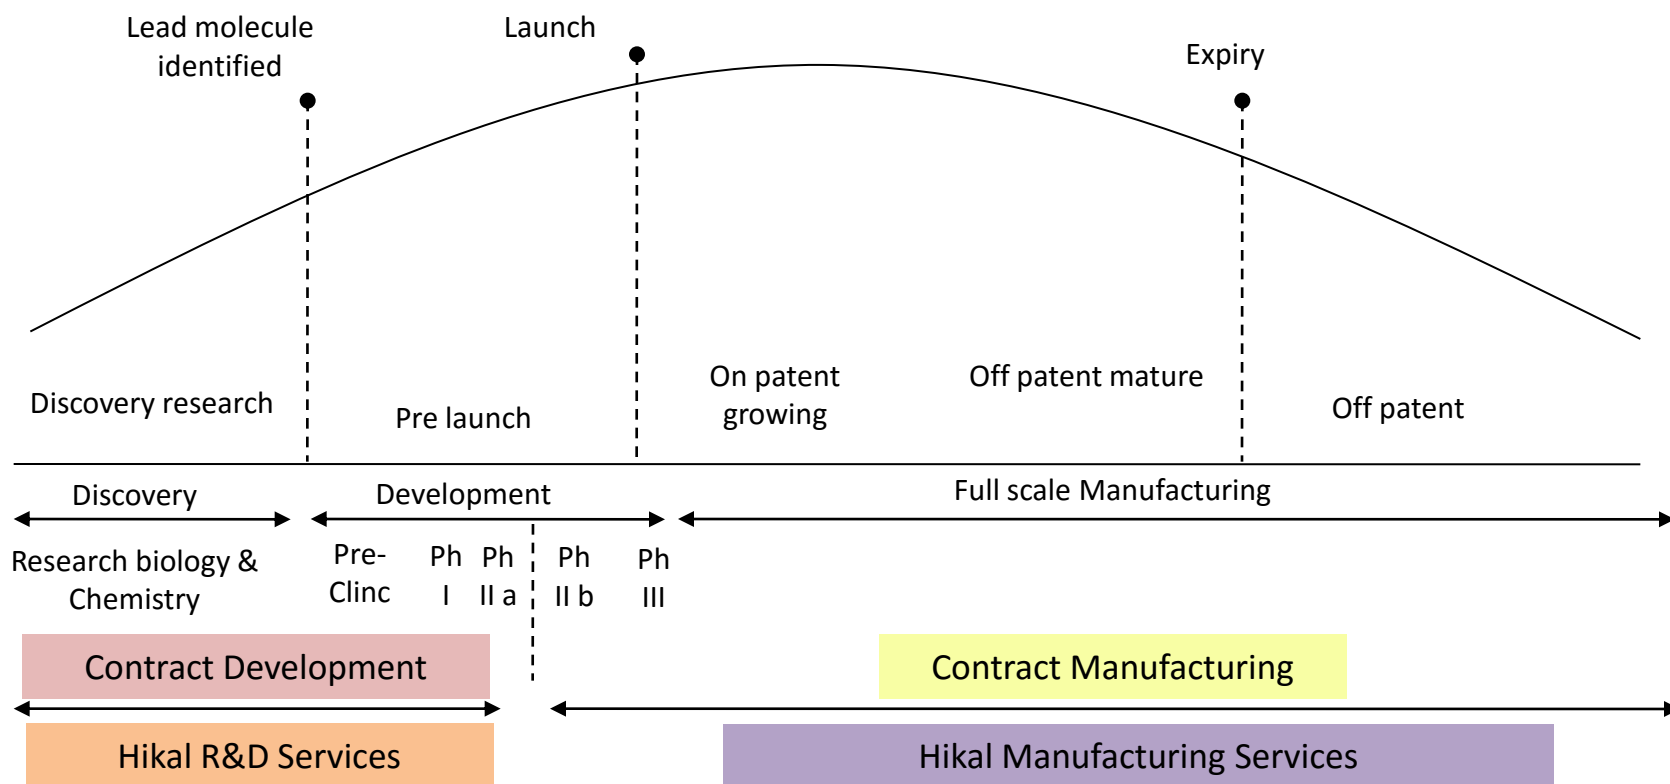

Develop Own Portfolio

- Develop own portfolio of products as next wave of Hikal growth
- Life cycle extension

Positive track record with Existing Customers to expand the Relationships and Target New Customers

Value Chain

Expertise in Custom Synthesis and Contract Research with capabilities scaling up from Gram to Kilo and Ton level of Production

Contract Development & Manufacturing

Hikal's Business Model is to provide Services and Support across the Value Chain

Pharmaceuticals

Crop Protection

Manufacturing Capabilities

Pune

R&D Center in Pune becomes operational

2009

Bangalore & Panoli

First new API plant commissioned at Bangalore. Multi-purpose pharma intermediate plant commissioned at Panoli.

2003

Bangalore

Acquired R&D and manufacturing site; enters the Pharmaceutical Business

2001

Panoli

Acquires manufacturing site from Novartis in Panoli, Gujarat

2000

Taloja

Manufacturing of the Active Ingredient for Merck begins at Taloja site

1997

Mahad

First Manufacturing site at Mahad begins operations - Signed a long term supply agreement with Hoescht India

1991

Overview

- Contract Development & Custom Manufacturing (CDMO) projects in Intermediates and APIs
- World's largest supplier of Gabapentin, API for Neuropathic use
- Developing own Generic Portfolio
- Strong Customer Relationships with Large Global Generic & Innovator Cos.

USFDA Approved Site - Bangalore

R&D, Contract, cGMP Kilo Lab - Pune

USFDA Approved Site - Panoli

Pharmaceuticals – Facility Overview

Jigani, Bangalore

- **Products :** API's & Bulk Drug Intermediates
- **Accreditations:** USFDA, KFDA, TGA, PMDA (Japan) & ISO 9001, ISO 14001, OHSAS 18001
- Offers scale up capabilities and can provide validation and launch quantities under cGMP conditions
- Audited frequently by Innovator companies from US, European and Japan
- **Debottlenecking** at two API blocks, Further scope of debottlenecking in future
- Installing a large bio-mass boiler & setting up a co-generation plant

Panoli, Gujarat

- **Products:** Bulk Drug Intermediates
- **Accreditations:** US FDA certified, PMDA (Japan)
- ISO 9001, ISO 14001, OHSAS 18001
- Manufactures cGMP Intermediates & Regulatory starting Materials.
- Audited & Approved for supply by Innovator Companies
- **Expanded capacity** for key starting raw materials
- **Evaluating further expansion** plans which would de-risk our Bangalore site for the manufacture of final APIs

Existing Contracts

European Innovator Client

- Long-term contract manufacturing agreements with a European innovator client to commercially manufacture molecules gaining momentum
- Strong Cost Position is offered by us and the molecule is expected to grow further
- Dialogues are on for several other projects which have been evaluated for commercial manufacturing

USA -based Food Ingredient Client

- The specialized product continues to do well
- Several approvals are expected in 2015-16 for new clients using the product manufactured at our facilities.
- A dedicated manufacturing line has been commissioned for this product and volumes are expected to grow in the near future

Business in Japan

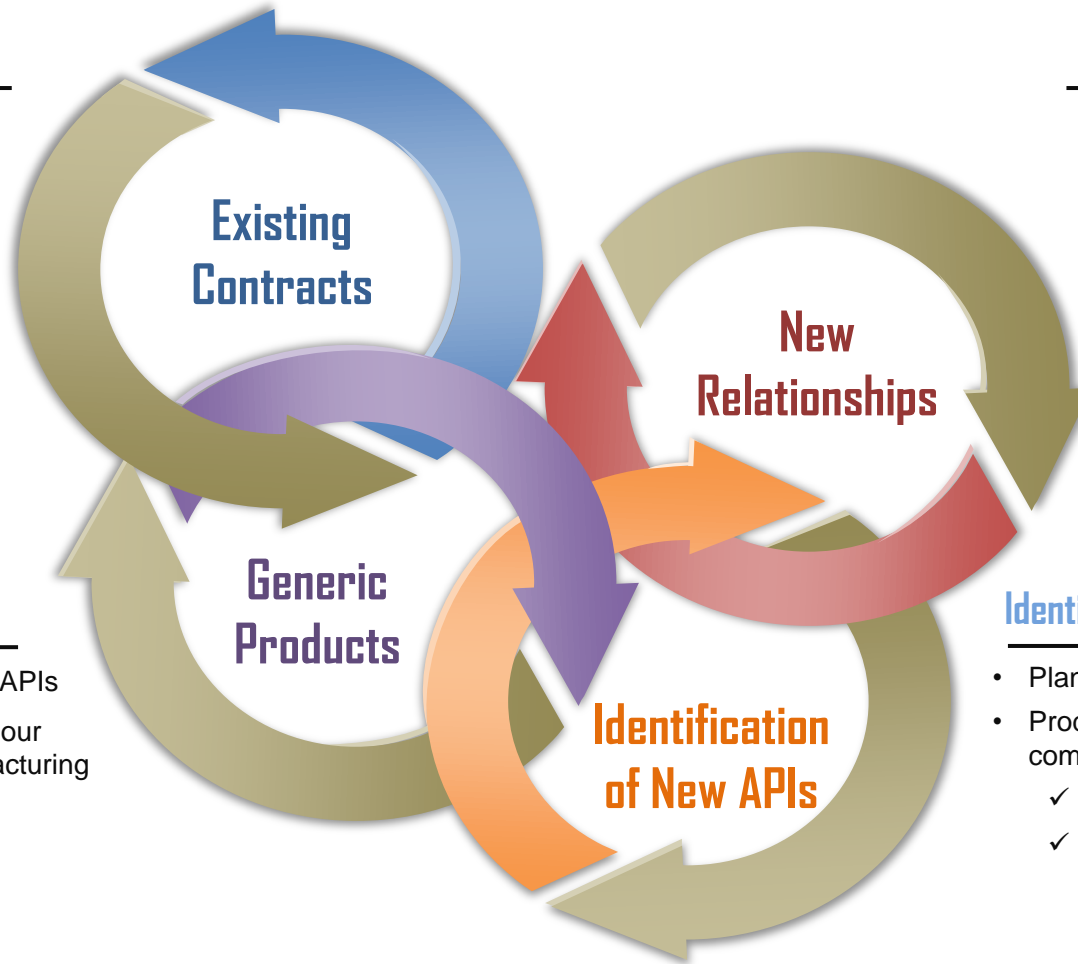

- Track record of meeting quality requirements in Japan established
- Several contract manufacturing opportunities in discussion for intermediates and advanced intermediates
- Several products that have come through R&D have also progressed to the semi-commercial stage
- Commercial manufacturing business to expand over the next few years in Japan

Existing Contracts

- Start with a specific product and expand horizontally
- European Innovator
- USA based Food Ingredient
- Japan - Several contract manufacturing opportunities

Generic Products

- Gain market share in key APIs
- Increased the volumes of our exclusive contract manufacturing clients for their molecules

New Relationships

- Added New innovator and biotech customers for early stage molecules for contract development
- Projects in various stages of clinical trials
- Approval process is lengthy & uncertain

Identifying New APIs

- Plans to file 4-5 DMFs per year
- Products selected are a combination of :
 - ✓ Clients' interest
 - ✓ Niche molecules where we have a distinct technology advantage to gain a considerable market share
- Pursuing allied niche opportunities in steroids and oncology

Overview

- Custom Synthesis and Contract manufacturing of Agrochemicals, Intermediates and Specialty Chemicals
- World's largest supplier of Thiabendazole (TBZ)
- On Patent Molecule Manufacturer
- Strong Relationships with Global Leading Agrochemical Companies
- Strong Japanese Presence

Agro Chemical Facility - Talaja

Control Room - Talaja

Agro Chemical Plant - Panoli

Crop Protection – Facility Overview

Taloja, MH

- **Products:** Crop Protection AIs & Intermediates
- **Accreditations:** ISO 9001, ISO 14001, OHSAS 18001 & ISO 17025 (GLP)
- Manufactures Fungicides, Insecticides and Intermediates.
- The site manufactures on patent active ingredients for innovator companies

Mahad, MH

- **Products:** Crop Protection AIs & Intermediates
- **Accreditations:** ISO 9001, ISO 14001, OHSAS 18001
- Manufactures Intermediates
- Audited frequently by several Fine Chemical and Multinational Companies

Key Relationships

Thiabendazole

The product is used on grapes, potatoes, tobacco and vegetables.

The wide use of this product would help the molecule to grow over several years

Versatile product used to control mold and other diseases in fruits and vegetables caused due to fungi, as an anti-parasitic to control roundworms and in materials protection

On-Patent New Generation Product

Fully commercialized in 2013 and volumes are expected to grow in the years to come as registrations come through for countries around the world

Fungicide Exclusively manufacture for a global innovator used on vegetables, potatoes & Specialty crops

It is receiving additional market approvals thereby increasing volumes

Product for Japanese Innovator

Successfully completed the lab trials of an Intermediate

Final stages to manufacture pilot plant batches which will determine the success

Successfully scaled up and provided commercial quantities for a product

Pilot Plant quantities were completed for an additional product - under patent

Product exclusively for Innovator Client

On - Patent Key Advanced Intermediate

Innovator Clients Blockbuster Product

Diversifying Products & Clients

- Several projects have been completed on development and pilot plant level
- Clients - Japanese, European and mid-size Specialty Chemical Companies
- Products - Advanced Intermediates to final Actives and are Herbicides, Fungicides and Insecticides

Capacity Expansion

- Streamlined some of our large manufacturing facilities by debottlenecking plants and improving existing processes through the support of our R&D

Proprietary Products

- Started manufacturing & selling our own products developed by our R&D such as Quinalphos, Diuron and 3,5DCA

Existing Client Relationships

- Target existing clients for additional molecules in their portfolio
- Focusing on commercializing new molecules for several clients in existing & new markets
- Select new clients based on chemistries to execute on a commercial scale and in-house technologies developed

Research Molecules in various stages of Phase II & III - Building a pipeline for future commercial supplies

Investments in R&D

Future Plans

- ▶ File 4-5 DMF's every year
- ▶ Continue to generate our own IP through Process Patents

R&D - Benefits Accrued

- Deploying R&D - Internal pipeline
 - Developed processes for several molecules using enzyme technology
 - Validated two 'green' enzymic process technologies for major API products
- 3 patents for novel routes to APIs filed
- Several significant Phase I and Phase II projects in the development pipeline
- Several animal health projects in the pipeline
- First manufacturing potential for a project in the flavor and fragrance sector

Our R & D Efforts

Crop Protection

- Majority of projects are from innovator clients in Japan and Europe
- Commercialized an insecticide for an Innovator Company
- Completed process development for an on-patent herbicide for another Innovator Client

Pharmaceuticals

- Validated an API product using enzymatic technology developed by our R&D with commercial manufacturing starting soon
- Some of the products coming off-patent shortly and are under various stages of development are Sitagliptin, Dabigatran, Lacosamide, Olmesartan and Darunavir

Animal Health

- Completed development of a topical parasitic used for dogs and cats & a veterinary medication to kill external parasites for pets for a Mid sized European Company
- Completed the process development & first pilot plant campaign for a regulatory starting material used in oral flea and tick treatment for dogs
- Steroid development
 - Two products used on livestock to increase muscle growth and appetite and a synthetic opioid analgesic used in cats and dogs are in late stage development for which client is already secured

Contract Development

- Completed the first pilot plant campaign for an intermediate of a non-regulatory starting material used for an oncology product under development
 - second pilot plant trials are under discussion with the same biotech company
- Process development and two pilot plant trials for a regulatory starting material used in the treatment of ventricular systolic heart failure has been completed
- Process development has been completed for an intermediate in Phase III trials for a Japanese innovator company used for treatment of chronic constipation

Pune,
MH

- **Provides process research of APIs and intermediates involving multi-step synthesis**
 - Successful track record in developing non-infringing processes and scaling up from lab to kilo to commercialization
- **Supports clients with:**
 - Route Scouting
 - Contract Research & Custom synthesis
 - Process Development & scale Up
 - cGMP Contract Manufacturing
- **R&D Facility offers :**
 - Troubleshooting support
 - Synthesis of Intermediates and APIs
 - Process Development

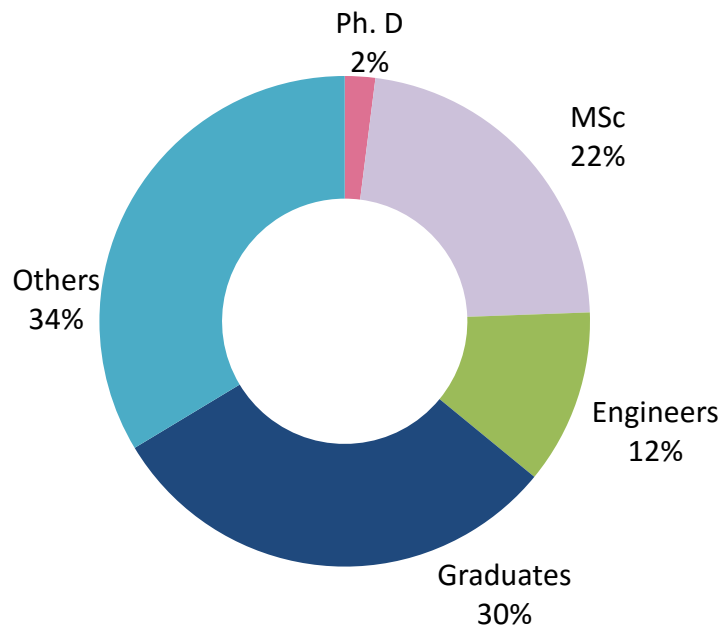

Facilities ensures seamless scale up from Lab to Commercialization

Other
Molecules

Exclusively contract
manufactured for a
leading US innovator
company

Pursuing allied niche
opportunities in
steroids

Completed the kilo lab trials
of a product which we
expect to validate in the next
financial year

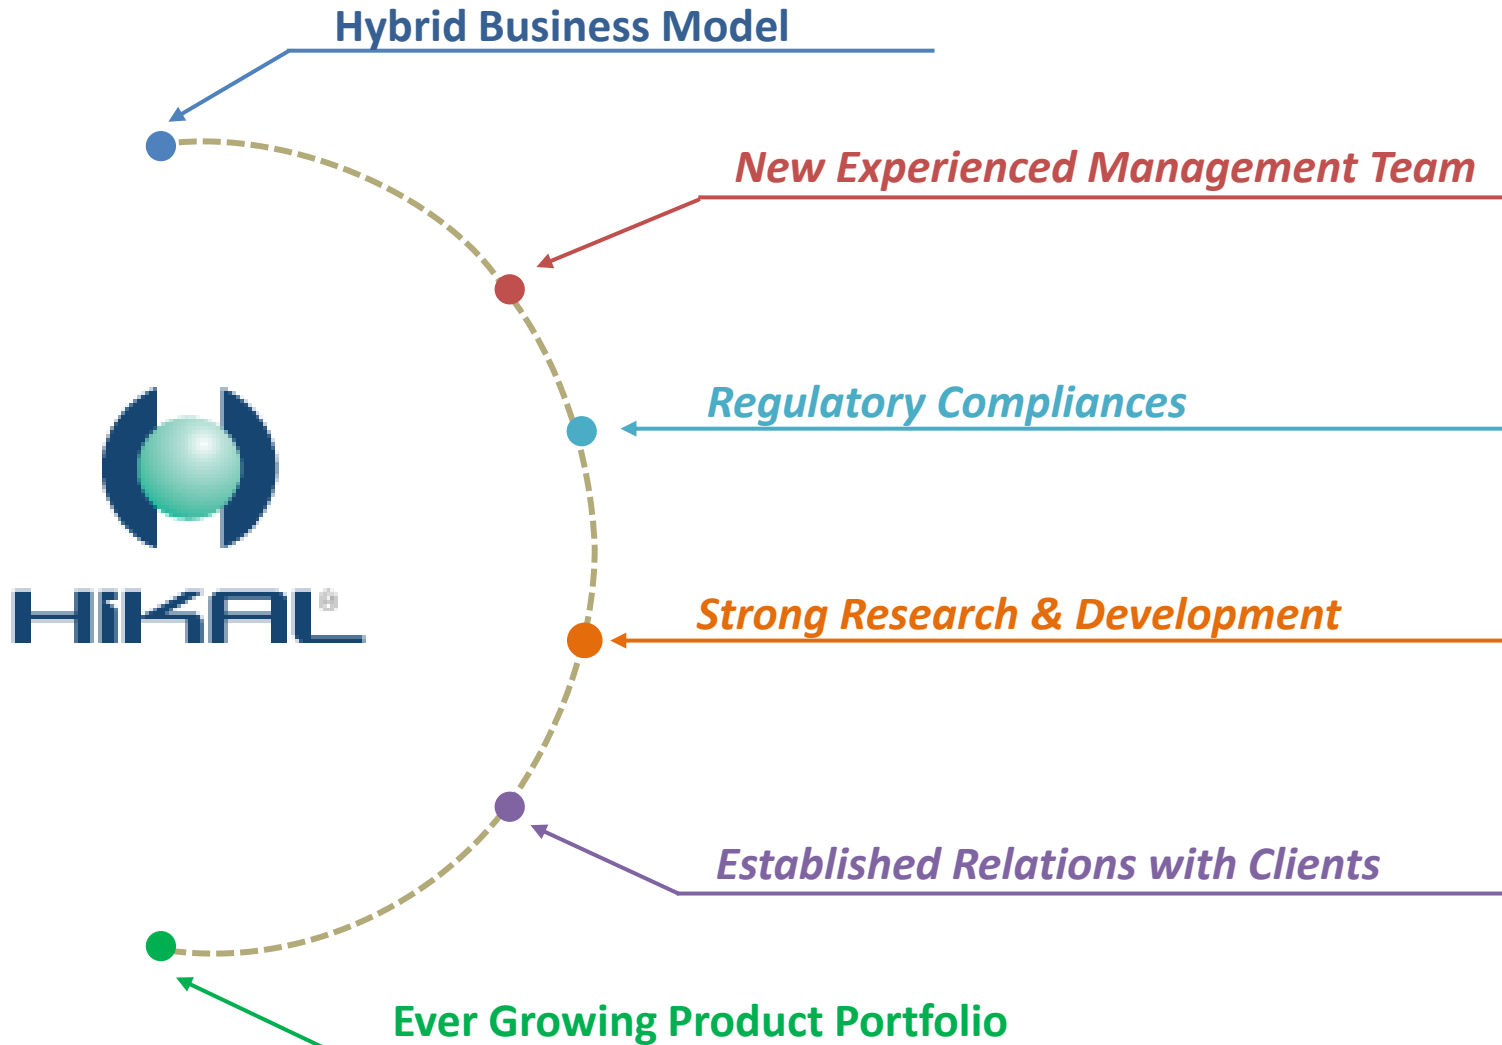

An alternative economical
route was developed for an
additional product

Completed the pilot trials of
another Animal Health
product for a leading
Japanese company

Products are a mix of
molecules coming off- patent
and new generation molecules

Lab work is in process of
completion and awaiting scale
up to the semi-commercial
stages

Key Strengths

Growth Drivers

Uniquely positioned to become an integral part of
Pharmaceutical and Crop Protection Supply Chain

Blocks Built

✓ Asset Creation

✓ Relationships

✓ Research & Development

Growth Drivers

✓ Expansion of Product Portfolio

✓ Increase in Volumes

✓ Margin Enhancement

Operational Highlights

We expect growth in both our divisions with increased volumes from our existing products which provides sustainability to Revenues

Standalone Revenues

Standalone EBITDA

Rs. Million

Operational Highlights

Higher EBITDA Margin on account of Higher Margin Products, Quality Conscious Customers and Efficient Operations

Pharmaceuticals Revenue

Crop Protection Revenue

Rs. Million

Capital Expenditure

Major Asset Creation Completed. This gives us an ability to scale-up operations rapidly by making small incremental investments

Cashflow from Operations

Capital Expenditure

Rs. Million

Standalone Profit & Loss

Rs. Million	Q4 FY2016	Q4 FY2015	Y-o-Y	Q3 FY2016	Q-o-Q
