CHAIRMAN'S STATEMENT

Shri Sanjoy Bhattacharya,
Chairman & Managing Director

Dear Shareholders,

Welcome to the 72nd Annual General Meeting of Andrew Yule & Co. Ltd. (AYCL). It is a great pleasure to connect with you all again, although this time we meet virtually. On behalf of the AYCL Board of Directors, I want to thank you once again for taking the time out to join us today. Your support and confidence in us, even in uncertain times like these, drive us to look for many ways to do more and create greater value. I hope you and your family members are remaining healthy and staying safe.

The COVID-19 pandemic is extraordinary and unprecedented. It has impacted the entire economy of the world. Nevertheless encouraging sign is that we are learning to live and work in the changed circumstances. I must salute the spirit of the Government authorities, healthcare workers, police and the public, in fighting the pandemic.

As you know, I took charge as Chairman cum Managing Director of the Company in September, 2020. Shri Debasis Jana ceased to be the Chairman & Managing Director of the Company with effect from the close of the business on 31st August, 2020 on reaching his superannuation.

Shri Partha Dasgupta, erstwhile Director (Finance); Shri Amit Varadan and Shri Arvind Kumar, erstwhile GOI Nominee Directors ceased to be Directors of the Company during the financial year 2020-21 whereas Shri Pravin L. Agrawal, erstwhile GOI Nominee Director; Dr. Dhanpat Ram Agarwal, Shri Sudhir Jhunjunwala and Smt. Sipra Goon, erstwhile Independent Director of the Company ceased to be Directors during the financial year 2019-20.

On behalf of the Board of Directors, I place on record its deep appreciation of the valuable services and guidance rendered by all of them during their association with the Company.

As you know due to lockdown, your company had to temporarily suspend operations at its units and gardens as per the directives of the Government and keeping in mind the paramount need of safety of the employees. Hence, production and dispatches partially for March, 2020 and for in April-June, 2020 suffered severally. The operations, though in a scaled down manner, have since commenced after obtaining permissions from the State authorities concerned and putting in place all safety measures including social distancing, sanitization, health check-up etc. As a result of partial lifting of restrictions, operative levels have increased but it will take more time to reach at normal capacity.

During the year ended 31st March, 2020, your Company earned total revenue of Rs.329.96 crores as against Rs.352.60 crores in 2018-19, registering a decrease of 6.42 % from the previous year. Profit before Tax (PBT) during the financial year 2019-20 stood negative at Rs.(21.25) crores (Rs.10.51 crores positive in 2018-19) and Total Comprehensive Income (TCI) stood at Rs.(15.68) crores (Rs.1.37 crores in 2018-19) after making necessary Income Tax provisions and other adjustment of losses under the category of other comprehensive income for example, adjustment of actuarial gains/losses relating to employee benefits, loss on re-measurement of investments, etc.

Your company always strives to attain highest level of Corporate Governance practices. Implementation of Integrity Pact, adoption of code of conduct and a well- defined Internal Control Framework add to the transparency of the Company's business practices. AYCL is complying with the Government Guidelines and listing regulations on Corporate Governance. However filing up of vacant posts of Director which is one of the requirements of Corporate Governance, is under process at Government level. A report on Corporate Governance compliance has been made part of the Board's Report. Your Company has been getting "Excellent" rating from Department of Public Enterprises (DPE) for complying with various norms of Corporate Governance. I am sure that the trend will continue.

Being a good corporate citizen, AYCL has always been on the forefront in extending its assistance for upliftment of the less privileged class of the society through development and improvement of the quality of life with our limited resources. AYCL has undertaken a number of CSR initiatives in the area of health, sanitation, water supply facilities, providing vocational training etc.

I am pleased to inform you that various initiatives were taken for improvement of prospects of tea operation of the Company. The Company has initiated a process for appointing dealers for packet tea to create a strong PAN India Dealer Network for Yule Tea brand. The packet tea sales counter at “Yule House” has been renovated and made more attractive. All gardens of the group are now having FSSAI License to operate and manufacture tea. With better field practices and major emphasis on increase in younger age profile of the tea bushes through vigorous uprooting & replanting programme resulting in higher crop prospects for the future years.

“Yule Tea” will focus on taking the right strategic actions and building a strong set of future-focused capabilities and platforms, to attain these opportunities. We have a strong brand, which will help us to achieve our aspirations for the future. The opportunities ahead of the Company are inspiring and motivating for all of us.

Initiatives under “Atmanirbhar Bharat Abhiyaan”

AYCL being a CPSE, is fully devoted to make “Atmanirbhar Bharat Abhiyaan” a profound success. Towards this goal it has taken several initiatives as below:

Import Substitution: Imported critical Sinter Waste Gas Fan Rotor assembly for integrated Steel Plants viz. RINL, SAIL-Bhilai, Bokaro and Durgapur, substituted with AYCL make rotors.

The Financial Statements for the year ended 31st March, 2020 have been prepared in accordance with the Indian Accounting Standards (IND-AS) notified under Section 133 of the Companies Act, 2013 read with Companies (Accounts) Rules, 2014.

2. FINANCIAL PERFORMANCE**Standalone Financial Results:**

During the year ended 31st March, 2020, your Company earned total revenue of Rs.329.96 crores as against Rs.352.60 crores in 2018-19, registering a decrease of 6.42 % from the previous year mainly due to the following reasons :

- i) Total revenue of financial year 2018-19 includes "Other Income" of one-time land acquisition compensation of Rs.5.52 crores received from Indian Oil Corporation Ltd. for acquiring land of the Company which were not there in the financial year 2019-20.
- ii) Electrical Division –Kolkata Operations of your Company is incurring continuous losses for many years as the products manufactured by it have lost the market viability due to changed demand and technology scenario. Currently the average loss of this Unit was touching almost Rs.20 crores per year out of which a sum of around Rs.16 crores was being incurred for employee benefits. At present scenario, the maximum turn-over possibility of the Unit is around Rs.40-42 crores per annum (subject to availability of necessary working capital) whereas to reach a breakeven point, expectedly a huge turn-over around Rs. 120 crores per annum is required, which in no way is possible due to aforesaid non-viability of the products. As such, this Unit has become a continuous bleeding organ for AYCL which is pulling down the overall profitability and liquidity position of the Company.
- iii) Due to ongoing merger process of Hooghly Printing Co. Ltd (HPCL) with Andrew Yule & Company Limited (AYCL), the Company is required to bear the burden of additional salary and administrative expenses and it also needs to settle HPCL's liability of more than Rs.4 crores.
- iv) For reduction of turnover in T&S Unit, Chennai for certain IR issues, and as a result, the unit is under labour strike since 19.08.2019. However, labour issues are being closely monitored and unit has started its operation with full strength from 31/08/2020.
- v) Decrease in the contribution from the Tea Segment was mainly due to market volatility, sharp increase in tea workers' wages and arrear payment amounting to Rs. 6.11 crores due to wage revision by State Govt. and resultant increase in Bonus Leave encashment, exodus of labour, resulting in shortage of workers during peak cropping months.
- vi) The financial performance is also affected due to stoppage of operations at units consequent to lockdown imposed after outbreak of corona virus. Resulting to all above, Profit before Tax (PBT) during the financial year 2019-20 stood negative at Rs.(21.25) crores (Rs.10.51 crores positive in 2018-19) and Total Comprehensive Income (TCI) stood at Rs.(15.68) crores (Rs.1.37 crores in 2018-19) after making necessary Income Tax provisions and other adjustment of losses under the category of other comprehensive income for example, adjustment of actuarial gains/losses relating to employee benefits, loss on re-measurement of investments, etc.

Consolidated Financial Results:

Your Company has recorded Revenue from Operations and other Operational Income of Rs.299.14 crores during the financial year 2019-20 (Rs.311.51 crores in 2018-19).

During the financial year 2019-20, Profit before Tax (PBT) stood at Rs.(22.74) crores (Rs.7.40 crores positive in 2018-19) and Total Comprehensive Income (TCI) stood at Rs.(16.84) crores (Rs.1.70 crores negative in 2018-19).

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

SOCIO-ECONOMIC ENVIRONMENT

The global economy witnessed a marked slowdown in 2019 with growth softening to 2.9% in 2019 from 3.6% in 2018 and 3.9% in 2017. Growth in the US economy decelerated to 2.3% during the year as against 2.9% in 2018, while expansion in the Euro area slowed down to 1.2% in 2019 from 1.9% in 2018. Emerging Markets were under pressure as well – with growth decelerating to 3.7% in 2019 against 4.5% in 2018. The COVID-19 pandemic has unleashed unprecedented disruption to human life and economic activity the world over, and has sent the already slowing global economy into a massive recessionary shock.

In retrospect, 2019-20 turned out to be one of the most challenging years for the Indian economy with GDP growth at an 11-year low (estimated at 4.2% Vs. 6.1% in 2018-19) despite a low base. On the supply side, growth in the Agriculture sector improved (4.0% in 2019-20 Vs. 2.4% in 2018-19) while Industry (0.9% Vs. 4.9%) and Services (5.5% Vs. 7.7%) sectors came under severe stress. Persistent weakness in capital formation, manifest in the decline in new project announcements, transmitted to private consumption (PFCE), which slowed down considerably to register a growth of 5.3% in 2019-20 Vs. 7.2% in 2018-19. The slowdown in consumption expenditure was attributable largely to subdued consumer sentiment, agrarian distress and low rate of rural wage growth, and tight liquidity conditions. As per latest estimates, Fiscal Deficit for 2019-20 widened to 4.6%, overshooting the Government's revised target of 3.8% and original target of 3.3%.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Tea Scenario

Building on a proud legacy of enterprise that spanned nearly two and a half centuries, India has acquired an exalted status on the global tea scenario. The country is the second largest tea producer in the world after China. Total tea production in the world has exceeded 5.90 billion kgs with India producing about 1.39 billion kg of tea. The tea industry in India is labour intensive providing employment to more than 1.1 million Indian workers, out of which almost half are women.

In 2019-20, all India crop increased by 4% over 2018-19 at 1390 M.Kgs. North India produced 57 M.kgs more whereas South India was lower by 6 M.Kgs. Orthodox production was 140 M.Kgs. In North India out of the total production of 1171 M.Kgs only 39 % was sold through the auction. Overall auction average in North India was lower by Rs. 6/- per kg.

Exports declined by 3% and stood at 248 M.Kgs. Iran & Russia were major importers followed by UAE, China, U.S.A, U.K. & Germany. Exports to Iran were higher by 74% compared to 2018.

Tea Division

The Tea Division of Andrew Yule & Company Limited continues to grow from strength to strength through its special emphasis on "Quality of its produce". Production is also on an increasing trend (barring shortfall due to covid-19 pandemic) with its planned uprooting, replanting & rejuvenation programme every year, projecting a long term sustainability and viability. Further, with the various Nationally & Internationally recognized Certifications (viz. Rain Forest Alliance, ISO 22000, Trustea, etc.) market penetration is being steadily increased every year in both domestic and overseas. The Division has also embarked on value addition by enhancing aggressive retail sales of its packet tea brands through e-commerce platform, as well as, direct sales channels.

Turnover of the Division was Rs.204.76 Crores during the year compared to Rs.198.47 Crores previous year. Tea exports during the year was 1.31 lakh Kgs with FOB value of Rs.3.51Crores (catering to markets in UK, Poland, Germany & USA) compared to 0.77 lakh Kgs with FOB value of Rs.2.21 Crores during the previous year. Own crop increased from 101.83 LKG to 104.19 LKG. The Yield / Ha. also increased from 1933.83 Kgs. to 1972.08 Kgs.

In 2019-20 PBT decreased to Rs.(-)4.41 crores from Rs.(+)6.33 crores last year even after all parameters / ratios (viz. crop, yield, sale average, exports, mandays, chemical costs etc.) being much better than the previous year. Electrical Division

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar and agricultural and domestic waste. Electricity demand in the country has increased rapidly. Indian power sector is undergoing a significant change that has redefined the industry outlook. Future economic growth will drive electricity demand in India.

The government's roadmap for achievement of 175 GW capacity in renewable energy by 2022 and the focus on attaining "Power for all" would fuel the demand for power transmission and distribution equipment.

Engineering Division

The Indian engineering sector is of strategic importance to the economy owing to its intense integration with other industry segments. With the aim to boost the manufacturing sector, the government has relaxed the excise duties on factory gate tax, capital goods, consumer durables and vehicles.

OPPORTUNITIES & THREATS

A. OPPORTUNITIES

- Marginal enhancement of crop through infilling of vacancies
- About 100 Ha of tea bushes have been uprooted and rehabilitated - which is ready for planting
- Infilling and uprooting will maximize own crop and minimize overall manufacturing cost
- Producer to Consumer - direct sales through kiosks at strategic locations for further value addition and visibility
- Maximize Retail Sale
- Maximize sale of teas through "open market" channel
- Maximize orthodox tea production in Assam Gardens for further value addition depending on market dynamics
- Factory capacity utilization by manufacturing outsourced / bought green leaf
- Increase usage of botanicals / vermicompost for better bush health and chemical cost reduction
- Strategic and aggressive selling (auction & open market sales – depending on market dynamics)
- Maximization of remunerative grades
- Time to time adoption / upgrading of "Certifications" relevant to the industry to attract importers and big domestic buyers
- Investment in irrigation for early crop
- Investment in IT for ERP to have real-time data for operational control

Electrical Division

- Electrical Division - Kolkata Operations of AYCL manufactures best Auto Voltage regulator upto 3 MVA with indigenous technology which was preferred by Indian buyers.
- Electrical Division - Chennai Operations of AYCL focuses on markets in the states of Karnataka, Tamilnadu, PSU's & Steel manufacturing customers. Estimated power transformer requirement (i.e. above 5 MVA & upto 63 MVA 132 kV Class) in Karnataka State is approximately Rs. 200 Cr/Annum and in Tamilnadu state is approximately Rs.200 crore/annum, PSU & Steel manufacturing customers is approximately Rs. 300-400 crore/annum.
- Distribution Transformer is certified for high efficiency BIS level 2 for wider market acceptance.
- Electrical Division –Kolkata Operations of AYCL has secured orders of 2750 numbers star rated transformers amounting to Rs.18.07 crores. 33% growth (by value) in order booking of Distribution Transformers in comparison to 2018-19.

- Received a prestigious order for Airforce Hanger Project for Shillong Zone for 6 nos. transformers and 2 Nos. AVR's net value of Rs.103.00 lakhs.

Engineering Division

- Proven Brand, Andrew Yule make Fan is supplying to Industries over 40 years.
- Company's name is being registered with various renowned OEMs.
- Apart from fan components, Engineering Division have standardized few bought out items i.e. RTD, Actuator, Vibration-Monitor and Plummer-block, to supply those along with fan will have a price benefit on mass quantity standard items.
- In few orders, client insisted for imported SKF Bearing Plummer block. Those are substituted by Andrew Yule design Plummer block, reducing higher price and avoiding longer delivery schedule.
- Further Engineering Division has received order for supply of replica Chinese Fan components. During design engineering, those items are substituted by standard design at much lesser cost.
- Engineering Division received few orders of retrofitting of our make fan with high efficiency Andrew Yule fan. Those resulted energy saving as national benefit. It also resulted in the increase in business.
- Updating product for cyclic operation also generated business.
- New generation Trough Withering Fan of YSBT Series developed for both way, forward and Backward movement of air to suit the requirement of Tea Industry for optimum withering of Green Leaf.
- Many EPC contractors like Thyssen Krupp, Thermax, IJT etc. have so far exported AYCL Engineering Division's Industrial Fans to 14 foreign countries.

B. THREATS

Tea Division

- Unprecedented hike in worker, sub-staff & staff wages and payment of arrear wages. Nearly 65% of the cost is attributed to salaries & wages.
- Escalation in other input costs (viz. agrochemicals, power & fuel etc.)
- Increase in pest infestations
- Social Costs
- Exodus of labour, resulting in shortage of workers during peak cropping months
- AYCL being primarily in "Bulk" tea business; sale of teas is mostly through auctions where the prices are market driven and often erodes the margin
- Uncertainty of export market due to availability of cheaper teas from Kenya, Sri Lanka etc.
- Being an agricultural industry, it is dependent on weather conditions. Adverse weather conditions can dramatically change the bottom line
- Agitations / closures also effects the Division's profitability
- If minimum wages are implemented, then substantial increase in costs is envisaged which would adversely affect the entire tea industry
- Production & revenue loss due to COVID-19 pandemic.

Electrical Division

- Strong price competitions in existing product range i.e. upto 132 KV Class due to more number of small unorganized manufacturing set ups. This makes the market more competitive and price sensitive rather than quality.
- Non upgradation of product range and existing plant set up has led to decrease in market share in long run.

- The poor installation of distribution transformers by customers coupled with lack of maintenance, overloading and vandalism leads to pre-mature failure of transformers.

Engineering Division

- Margin under stress due to competition from low cost competitors.
- Market share affected by private purchasers, selective preference of suppliers without open competitive bidding.

SEGMENT WISE PERFORMANCE

The Company is a multi-segment Company as reported in Note No. 45 in the Accounts.

Production / Manufactured Corp on the other hand, is also on an increasing trend (barring shortfall due to COVID-19 pandemic) with its planned uprooting, replanting & rejuvenation programme each year, projecting a long term sustainability / viability.

With various certifications (viz. FSSAI, Trustee, Rainforest Alliance, ISO 9001 & 22000, etc.), market penetration with Green & Specialty teas (both domestic & international) and e-commerce outlets; the Division consistently endeavors to enhance its brand equity, as well as, value addition.

Electrical Division

AYCL Chennai operation product range size (i.e. above 5 MVA & upto 63 MVA 132kV Class) will be benefitted from the Indian Power and Distribution Transformer market projected to grow at a CAGR of 3% during the next 5 years.

Engineering Division

Present Capital Goods Market scenario is not impressive. It is expected that when new projects would start coming up in India and abroad, business volume will be increasing steadily on getting more enquiries from our existing as well as from new customers.

RISK AND CONCERN

The ongoing pandemic situation in the country and the two month nationwide lockdown has affected the EPC Sector and independent electrical contractors severely. Dearth of fund and massive disruption in availability of labour has resulted in stalling of various ongoing and upcoming projects thereby creating a gap in the demand generation of power equipment. The uncertainty arising in the supply chain and surge in price of commodities like copper, aluminum CRGO and oil due to worldwide COVID-19 pandemic situation is also weakening the power equipment sector.

Salami asked for by the West Bengal Government amounting to Rs.177.67 lakhs (PY-Rs. 228.93 lakhs) as per Note No. 54 is shown under "Claims not acknowledged as debts". The matter should be resolved immediately as it disputes the Company's ownership of the tea gardens under its operation.

Also many bank accounts have authorized signatories who have retired/resigned from the Company. We have determined the matters described below to be the key audit matters to be communicated in this report.

S.N.	KEY AUDIT MATTER	AUDITORS RESPONSE
1.	Provisions and Contingent Liabilities The Company is subject to a number of legal, regulatory and tax cases for which final outcome cannot be easily predicted and which could potentially result in significant liabilities. Management's disclosures with regards to contingent liabilities are presented in Note No.36-to the Standalone Ind AS Financial Statements. The assessment of the risks associated with the litigations is based on complex assumptions. This requires use of judgment to establish the level of provisioning, increases the risk that provisions and contingent liabilities may not be appropriately provided against or adequately disclosed. Accordingly, this matter is considered to be a key audit matter.	In order to get a sufficient understanding of litigations and contingent liabilities, we have discussed the process of identification implemented by the Management for such provisions through various discussions with Company's legal and finance departments. We read the summary of litigation matters provided by the Company's/ Unit's Legal and Finance Team. We read, where applicable, external legal or regulatory advice sought by the Company. We discussed with the Company's/Unit's Legal and Finance Team certain material cases noted in the report to determine the Company's assessment of the likelihood, magnitude and accounting of any liability that may arise. In light of the above, we reviewed the amount of provisions recorded and exercised our professional judgment to assess the adequacy of disclosures in the Standalone Ind AS financial statements

If we conclude that a material uncertainty exists, we are required to draw attention in our auditors report to the related disclosures in the IND AS financial statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report .However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the IND AS financial statements, including the disclosures, and whether the IND AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, amongst other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

Referred to in Para 9(2)(f) of our report of even date:

- (1). We have audited the internal financial controls over financial reporting of Andrew Yule and Company Limited (The Company as on 31 March, 2020 in conjunction with our audit of the standalone IND AS financial statements of the Company for the year ended on that date.

Managements Responsibility for Internal Financial controls

- (2). The Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting issued by The Institute of Chartered Accountants of India (CAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to companies policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013.

Auditors Responsibility

- (3). Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and the Standards on Auditing as specified under Section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls. Those Standards and Guidance Notes require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained if such controls operated effectively in all material respects.
- (4). Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting include obtaining an understanding of internal financial controls over financial reporting, assessing a risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditors judgment, including the assessment of the risks of material misstatement of the IND AS financial statements, whether due to fraud or error.
- (5). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

- (6.) The Company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of IND AS financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of IND AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the IND AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

- (7). Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to fraud or error may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- (8) Based on our audit and the information and explanations given to us, we are of the opinion that:
- (a) The flow of financial data from divisions, units and gardens are not seamlessly integrated with Head office accounts. It involves manual interventions at various stages of accounting.
 - (b) Absence of guidelines of IT general controls and segregation of duties does not give reasonable assurance regarding fair maintenance and accurate reflection of records with reasonable details for transactions and disposition of assets of the Company.
 - (c) Since the inception of computerization, IT systems audit has not been carried out.
 - (d) IT disaster recovery plan has not been defined.
 - (e) The company has not obtained balance confirmation certificates from a considerable number of sundry debtors and creditors.
 - (f) Internal audit reports of the company for the second half of the year have not been provided to us as a result we are unable to comment on the same.

In view of the above observations, Internal financial Controls of the company as at 31 March, 2020 is inadequate with respect to its size, diversity and complexity of operations based on internal control over financial reporting criteria as stated in the Guidance Note on audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

[AS PER IND AS]

The Company considers that the assumptions used to measure its obligation are appropriate and documented. However, any changes in the assumptions may have impact on the resulting calculations. Medical Benefits measured on actual basis.

[d] Provisions and Contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, "Provisions, Contingent Liabilities and Contingent Assets". The evaluation of the likelihood of the contingent events has been made on the basis of best judgment by management regarding probable outflow of economic resources. Such estimation can change due to unforeseeable developments.

[b] In respect of any import of materials both under CIF, FOB and C&F Contracts, purchases are booked at the exchange rates prevailing on the date of Bill of Entry. NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020
[AS PER IND AS]

The current income tax is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates position taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Additional income taxes that arise from the distribution of dividends are recognized at the same time the liability to pay the related dividend is recognized and rectification has not been considered

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit/ Loss nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

[2.6] Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the leases as per the terms and conditions specified in IND AS 116. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a Lessee

Vide notification of Ministry of Corporate Affairs dated 30th March, 2019, Indian Accounting Standard (IND-AS -116) Leases has become effective for the Company from 1.4.2019. Replacing IND AS 17 (Leases). The accounting policy on Leases has been changed as per IND AS 116. The principal change of IND AS 116, Leases is change in the accounting treatment by Lessees of Leases currently classified as operating leases. Lease agreements has given rise to the recognition of right of use assets and a lease liability for future lease payments. In case of Company standards have been applied standard have been applied to only such cases wherever executed lease agreements/or Notifications issued by the concerned Lessor Government are in hands of the Company and for the balance period of such lease as on 01.04.2019, except for cases mentioned below:

In case of lease of lands from Government of Assam for the Tea Gardens in Assam, the Company, in conjunction with Indian Tea Association, has noted that, section 9 of the Assam Land and Revenue Regulation, 1886 provides a land lease, right to use, occupancy and other relevant rights subject to payment of revenue, taxes, cases and rates from time to time as may be due in respect of the said land and thus, there is no fixed or defined period of lease. As such, IND AS 116 should not accordingly be applicable in case of Assam. However, there is no financial impact on transition to IND AS 116 as the Company has not applied this standard retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application.

As a Lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020
[AS PER IND AS]

[2.7] Impairment of Non-financial Assets other than Inventories

[a] The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets of the Company. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognized in the Statement of Profit and Loss.

[b] In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

[2.8] Statement of Cash Flows

[a] Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less from the date of purchase that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost are assigned to individual items of inventory on the basis of weighted average method. Cost of purchased inventories are determined after deducting rebates & discounts. NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020
[AS PER IND AS]

[f] Export benefits against Advance Licences are considered at the time of actual consumption of the imported materials. Advance Licences in hand at the close of the year are not accounted for.

[g] Cost of Inventory which are sold during the year are recognised by way accretion/discretion of inventory.

[2.11] Financial Assets other than Investments in Subsidiaries, Associates and Joint Venture**[2.11.1] Classification**

The Company classifies its financial assets in the following measurement categories:

- * those to be measured subsequently at fair value (either through other comprehensive income or through profit and loss), and
- * those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit and loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt instruments when and only when its business model for managing those assets changes.

[2.11.2] Measurement**Equity instruments**

The Company measures all equity investments except in subsidiary & Associates at fair value. Investment in subsidiary & Associates are measured at historical cost.

[2.11.3] Impairment of Financial Assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 2.28 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach of recognizing the expected losses from initial recognition of the receivables on case to case basis as provision for impairment.

[2.11.4] Derecognition of Financial Assets

A financial asset is derecognized only when

- * The Company has transferred the rights to receive cash flows from the financial asset or
- * Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

[AS PER IND AS]

[d] Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

[e] Machinery manufactured by one Unit/Division for use in another Unit/Division are accounted for at Works/Factory cost of the Transferor Unit.

[f] The carrying amount of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. The impairment loss recognized in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

[g] Bearer Plants are transferred from Capital WIP to Fixed Assets Block of Bearer Plant after 3 years from its year of replantation. The average life of bearer plant has been considered as 70 (seventy) years for Assam and Dooars Gardens and 100 (one hundred) years for Mim Tea Estate situated at Darjeeling.

[h] The assets are considered to be unusable after getting approval of the designated technical assessment committee.

[2.17] Applicability of IND AS-41 (Biological Assets)

AYCL Tea Division plucks tea leaves for manufacturing in 7 days round. On 31st March each year it plucks the matured tea and manufactures the same. In all sections of each garden tea leaves on the bushes stands immature.

Para 10 of IND AS 41 states to recognize a Biological Asset when and only when, the fair value or the cost of the asset can be measured reliably. It is well known fact that no market exists for Green tea leaves which remains on the tea bushes and not ready for harvesting (not yet harvested). As long as the green tea leaves exist on the Tea bushes and has not reached the harvesting stage, it has no utility and cannot be used in any manner for processing of tea.

As emphasized in para 8 of IND AS 41, it would be impossible to ascertain the Fair Value of green tea leaves standing on the tea bushes. Similarly it would be impractical to ascertain the cost of such green tea leaves as any cost model for computation of cost thereof would be based on estimation and assumption, which cannot be reliably measured.

In view of the above AYCL does not recognize the Biological Assets (Green tea leaves not harvested and in a growing stage, not matured) as on the reporting date in Financial Statements.

[2.18] Capital Work-in-Progress

Expenditure incurred on assets under construction is carried at cost under Capital Work-in-Progress. Such costs comprise purchase price of assets, including duties and non-refundable taxes and other costs that are directly attributable to bringing the asset to the location and conditions necessary for it to be capable of operation in the manner indented by management.

[2.19] Intangible Assets

Costs associated with maintaining software programs are recognized as an expense as incurred. Cost of purchased software are recorded as intangible assets and amortized from the point at which the asset is available for use. Intangible assets are amortized over their best estimated useful life ranging upto three years on straight line method.

[2.20] Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value/transaction value.

[2.21] Borrowings Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020
[AS PER IND AS]

qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Any difference between the proceeds (net of transactions cost) and the redemption amount is recognized in the statement of Profit & Loss.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Borrowing costs are removed from the Balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of the Financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash asset transferred on liability assumed is recognized in the statement of Profit & Loss Account as other gains/(losses).

Other borrowing costs are expensed in the period in which they are incurred.

[2.22] Provisions, Contingent Liabilities and Contingent Assets

Provisions for legal claims, discounts, schemes and returns are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities are possible obligations that arise from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company, such obligation is disclosed as contingent liability.

Contingent Assets are possible assets that arise from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in financial statements when in flow of economic benefits is probable on the basis of judgement of management.

[2.23] Employee Benefits

[2.23.1] Short Term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

[2.23.2] Other Long Term Employee Benefit Obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. The liability or asset recognized in the balance sheet in respect of defined benefits as leave encashment, pension and gratuity plans is the present value of defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated by actuaries using the projected unit credit method. The present value of defined benefit obligations is determined by discounting the same using the market yields at the end of the reporting period on Government Bonds, that have terms approximating to the terms of the related obligation.

Net interest cost is calculated by applying the discount rate to the net balance of defined benefit obligation and fair value

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020
[AS PER IND AS]

of plan assets and the same is included in employee benefit expenses in the statement of profit and loss.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Unavailed medical benefits are measured at actual cost during a block of 3 years.

[2.23.3] Post Employment Obligations

The Company operates the following post-employment schemes :

[a] Defined benefit plan which is Gratuity.

[b] Defined contribution plan which is Provident Fund only. The Organization pay provident fund to publicly administered provident fund as per local regulations and apart from the contribution the Company has no further payment obligation and the contribution are recognized as employee benefit expense when they are due.

[c] One time medical benefits are measured at actual cost.

[2.24] Dividends

Dividends and interim dividends payable to the Company's shareholders are recognized as change in equity in the period in which they are approved by the Company's shareholders and the Board of Directors respectively.

[2.25] Earnings per Share

[2.25.1] Basic Earnings per share

Basic earnings per share is calculated by dividing :

- * The profit/loss attributable to owners of the Company.
- * By the weighted average number of equity shares outstanding during the financial year.

[2.25.2] Diluted Earnings per Share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account :

- * The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- * The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

[2.26] Financial Liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company.

The Company's financial liabilities include loans and borrowings, trade and other payables.

[a] Classification, initial recognition and measurement

Financial liabilities are recognized initially at fair value minus transactions costs and subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognized in the Statement of Profit and Loss or in the carrying amount of an asset if another standard permits such inclusion, over the period of the borrowings using the effective rate of interest.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020
[AS PER IND AS]

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

[b] Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortized cost using the EIR (Effective Interest Rate) method. Gains and losses are recognized in the Statement of Profit and Loss or in the carrying amount of an asset if another standard permits such inclusion, when the liabilities are derecognized as well through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

[c] Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

[2.27] Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Normally at initial recognition, the transaction price is the best evidence of fair value.

However, when the Company determines that transaction price does not represent the fair value, it uses inter-alia valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This categorization is based on the lowest level input that is significant to the fair value measurement as a whole :

- * Level 1-Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- * Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- * Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial assets and financial liabilities that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

We are independent of the Group in accordance with the Code of Ethics issued by The Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of The Companies act, 2013 and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with the requirement of the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

(3) Emphasis of Matter:

Without qualifying our audit report, we draw attention to the following:

- a. In the absence of IT system audit, security of accounting/operational data, recovery of data through IT disaster management system and manual intervention at crucial levels of data transfer and at the time of consolidation result in high audit risk.
- b. The absence of exercise of adequate controls in the process of maintaining the records of the companies lease deeds and title deeds enhances the audit risk.
- c. Electrical Division has not contributed an amount of Rs. 1103.36 lakhs and Engineering Division has not contributed an amount of Rs. 74.55 lakhs to the Company's gratuity fund which is utilised towards payment of gratuity to employees on retirement
- d. Provident Fund recoverable of Rs. 42.97 Lakhs (Refer note No.56 of the financial statements) pending over 10 years from PF department of Government of India has been provided for in the accounts.
- e. Lease agreement of three tea gardens namely Banarhat, Choonabhutti and Haritalguri-3 (of New Dooars and Brentford Unit of Electrical Division , Kolkata has not been renewed since long. However, lease rent is being paid by the Company. Salami asked for by the West Bengal Government amounting to Rs.177.67 lakhs (PY-Rs. 228.93 lakhs) as per Note No. 54 is shown under "Claims not acknowledged as debts". The matter should be resolved immediately as it disputes the Company's ownership of the tea gardens under its operation.
- f. All the inoperative bank accounts of the Company in its various divisions should be closed to mitigate the fraud risk. Also many bank accounts have authorized signatories who have retired/resigned from the Company. These former employees should be replaced as signatories by the officials who are currently in the employment of the Company.
- g. As per regulation 17(1) of SEBI (LODR) regulations, 2015, as amended the composition of the Board should be as follows: (i) the board of directors shall have an optimum combination of executive and non executive directors with at least one woman director (ii) where the chairperson of the listed entity is an executive director, at least half of the Board of directors shall comprise of independent directors. In the case of the company, as the CMD is an executive director, at least half of the members on the Board should be independent directors. However at present the Board consists of four whole time directors, two government nominee directors and three independent directors with no woman director. Hence as on date three more independent directors including a woman director needs to be appointed to comply with the aforesaid provision.
BSE had levied a fine of Rs.5,36,900/- for June 2019 quarter, Rs.9,06,240 /-for September 2019 quarter and Rs. 7,59,920/- for December 2019 quarter and Rs. 5,31,000/- for March, 2020 quarter (Totaling Rs. 27,34,060/-, inclusive of GST) due to non-compliance with requirements of Regulations 17 to 21 of LODR regulations which has not been paid /provided by the Company as appointment of Directors is done by the Companies administrative ministry. The company has taken up the matter with the administrative ministry and with SEBI and BSE.
- h. Hooghly Printing Company Limited (HPCL) had declared closure of its business operations with effect from 21st January, 2019 pursuant to its merger with the company. However, final approval of merger was held up by the Office of The Regional Director (Eastern Region), Kolkata vide their letter dated 08.01.2020 that the matter has been referred to NCLT under Section 232 of The Companies Act, 2013 by referring to the provisions of Section 233(5) of The Companies Act, 2013 concerning the interest of creditors. Some of the creditors were also applying under the Insolvency and Bankruptcy Code for their payment. In such situation a proposal was placed to sell of the assets of HPCL and apportion the dues between the creditors. However it was decided by the Board that since the matter is before NCLT, legal opinion needs to be taken before such sale is authorized. Hence the matter of merger is pending before such formalities are taken care of.
- i. The Company has assessed the decline in sales and effect on inventory due to the nationwide lockdown arising out of COVID 19 as per Note No 58 of the financial statements.
- j. Internal audit reports of all the gardens for the second half of the year have not been provided to us as a result we are unable to comment on the same.

1. Provisions and Contingent Liabilities		
---	--	--

The Company is subject to a number of legal, regulatory and tax cases for which final outcome cannot be easily predicted and which could potentially result in significant liabilities. Management's disclosures with regards to contingent liabilities are presented in Note No.36-to the Standalone Ind AS Financial Statements.

The assessment of the risks associated with the litigations is based on complex assumptions. This requires use of judgment to establish the level of provisioning, increases the risk that provisions and contingent liabilities may not be appropriately provided against or adequately disclosed. Accordingly, this matter is considered to be a key audit matter.

In order to get a sufficient understanding of litigations and contingent liabilities, we have discussed the process of identification implemented by the Management for such provisions through various discussions with Company's legal and finance departments. We read the summary of litigation matters provided by the Company's/ Unit's Legal and Finance Team. We read, where applicable, external legal or regulatory advice sought by the Company. We discussed with the Company's/ Unit's Legal and Finance Team certain material cases noted in the report to determine the Company's assessment of the likelihood, magnitude and accounting of any liability that may arise. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to companies policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013.

Auditors Responsibility

- (3) Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and the Standards on Auditing as specified under Section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls. Those Standards and Guidance Notes require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained if such controls operated effectively in all material respects.
- (4) Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting include obtaining an understanding of internal financial controls over financial reporting, assessing a risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditors judgment, including the assessment of the risks of material misstatement of the IND AS financial statements, whether due to fraud or error.
- (5) We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

- (a) The flow of financial data from divisions, units and gardens are not seamlessly integrated with Head office accounts. It involves manual interventions at various stages of accounting.
 - (b) Absence of guidelines of IT general controls and segregation of duties does not give reasonable assurance regarding fair maintenance and accurate reflection of records with reasonable details for transactions and disposition of assets of the Company.

 - (d) IT disaster recovery plan has not been defined.
 - (e) The company has not obtained balance confirmation certificates from a considerable number of sundry debtors and creditors.

[2.6] Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the leases as per the terms and conditions specified in IND AS 116. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a Lessee

Vide notification of Ministry of Corporate Affairs dated 30th March, 2019, Indian Accounting Standard (Ind -As -116) Leases has become effective for the Company from 1.4.2019. Replacing Ind as 17 (Leases). The accounting policy on Leases has been changed as per IndAs 116. The principal change of Ind As 116, Leases is change in the accounting treatment by Lessees of Leases currently classified as operating leases. Lease agreements has given rise to the recognition of right of use assets and a lease liability for future lease payments. In case of Company standards have been applied standard have been applied to only such cases wherever executed lease agreements/or Notifications issued by the concerned Lessor Government are in hands of the Company and for the balance period of such lease as on 01.04.2019, except for cases mentioned below:

In case of lease of lands from Government of Assam for the Tea Gardens in Assam, the Company, in conjunction with Indian Tea Association, has noted that, section 9 of the Assam Land and Revenue Regulation, 1886 provides a land lease, right to use, occupancy and other relevant rights subject to payment of revenue, taxes, cases and rates from time to time as may be due in respect of the said land and thus, there is no fixed or defined period of lease. As such, Ind As 116 should not accordingly be applicable in case of Assam. However, there is no financial impact on transition to IND AS 116 as the Company has not applied this standard retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application.

As a Lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

[2.11] Financial Assets other than Investments in Subsidiaries, Associates and Joint Venture

[2.11.1] Classification

The Company classifies its financial assets in the following measurement categories:

- * those to be measured subsequently at fair value (either through other comprehensive income or through profit and loss), and
- * those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit and loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable selection at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt instruments when and only when its business model for managing those assets changes.

[2.11.2] Measurement

Equity instruments

The Company measures all equity investments except in subsidiary & Associates at fair value. Investment in subsidiary & Associates are measured at historical cost.

[2.11.3] Impairment of Financial Assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 2.28 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach of recognizing the expected losses from initial recognition of the receivables on case to case basis as provision for impairment.

[2.11.4] Derecognition of Financial Assets

A financial asset is derecognized only when

- * The Company has transferred the rights to receive cash flows from the financial asset or
- * Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

[d] Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

[e] Machinery manufactured by one Unit/Division for use in another Unit/Division are accounted for at Works/Factory cost of the Transferor Unit.

[f] The carrying amount of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. The impairment loss recognized in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

[g] Bearer Plants are transferred from Capital WIP to Fixed Assets Block of Bearer Plant after 3 years from its year of replantation. The average life of bearer plant has been considered as 70 (seventy) years for Assam and Dooars Gardens and 100 (one hundred) years for Mim Tea Estate situated at Darjeeling.

[h] The assets are considered to be unusable after getting approval of the designated technical assessment committee.

[2.17] Applicability of IND AS-41 (Biological Assets)

AYCL Tea Division plucks tea leaves for manufacturing in 7 days round. On 31st March each year it plucks the matured tea and manufactures the same. In all sections of each garden tea leaves on the bushes stands immature.

Para 10 of Ind AS 41 states to recognize a Biological Asset when and only when, the fair value or the cost of the asset can be measured reliably. It is well known fact that no market exists for Green tea leaves which remains on the tea bushes and not ready for harvesting (not yet harvested). As long as the green tea leaves exist on the Tea bushes and has not reached the harvesting stage, it has no utility and cannot be used in any manner for processing of tea.

As emphasized in para 8 of Ind AS 41, it would be impossible to ascertain the Fair Value of green tea leaves standing on the tea bushes. Similarly it would be impractical to ascertain the cost of such green tea leaves as any cost model for computation of cost thereof would be based on estimation and assumption, which cannot be reliably measured.

In view of the above AYCL does not recognize the Biological Assets (Green tea leaves not harvested and in a growing stage, not matured) as on the reporting date in Financial Statements.

[2.18] Capital Work-in-Progress

Expenditure incurred on assets under construction is carried at cost under Capital Work-in-Progress. Such costs comprise purchase price of assets, including duties and non-refundable taxes and other costs that are directly attributable to bringing the asset to the location and conditions necessary for it to be capable of operation in the manner indented by management.

[2.19] Intangible Assets

Costs associated with maintaining software programs are recognized as an expense as incurred. Cost of purchased software are recorded as intangible assets and amortized from the point at which the asset is available for use. Intangible assets are amortized over their best estimated useful life ranging upto three years on straight line method.

[2.20] Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value/transaction value.

[2.21] Borrowings Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED
31ST MARCH, 2020 [AS PER IND AS]**

qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Any difference between the proceeds (net of transactions cost) and the redemption amount is recognized in the statement of Profit & Loss.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Borrowing costs are removed from the Balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of the Financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash asset transferred on liability assumed is recognized in the statement of Profit & Loss Account as other gains/(losses).

Other borrowing costs are expensed in the period in which they are incurred.

[2.22] Provisions, Contingent Liabilities and Contingent Assets

Provisions for legal claims, discounts, schemes and returns are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities are possible obligations that arise from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company, such obligation is disclosed as contingent liability.

Contingent Assets are possible assets that arise from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in financial statements when in flow of economic benefits is probable on the basis of judgement of management.

[2.23] Employee Benefits**[2.23.1] Short Term Obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

[2.23.2] Other Long Term Employee Benefit Obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. The liability or asset recognized in the balance sheet in respect of defined benefits as leave encashment, pension and gratuity plans is the present value of defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated by actuaries using the projected unit credit method. The present value of defined benefit obligations is determined by discounting the same using the market yields at the end of the reporting period on Government Bonds, that have terms approximating to the terms of the related obligation.

Net interest cost is calculated by applying the discount rate to the net balance of defined benefit obligation and fair value

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020 [AS PER IND AS]

of plan assets and the same is included in employee benefit expenses in the statement of profit and loss.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Unavailed medical benefits are measured at actual cost during a block of 3 years.

[2.23.3] Post Employment Obligations

The Company operates the following post-employment schemes :

[a] Defined benefit plan which is Gratuity.

[b] Defined contribution plan which is Provident Fund only. The Organization pay provident fund to publicly administered provident fund as per local regulations and apart from the contribution the Company has no further payment obligation and the contribution are recognized as employee benefit expense when they are due.

[c] One time medical benefits are measured at actual cost.

[2.24] Dividends

Dividends and interim dividends payable to the Company's shareholders are recognized as change in equity in the period in which they are approved by the Company's shareholders and the Board of Directors respectively.

[2.25] Earnings per Share

[2.25.1] Basic Earnings per share

Basic earnings per share is calculated by dividing :

* The profit/loss attributable to owners of the Company.

* By the weighted average number of equity shares outstanding during the financial year.

[2.25.2] Diluted Earnings per Share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account :

* The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

* The weighted average number of additional equity shares that would have been outstanding as summing the conversion of all dilutive potential equity shares.

[2.26] Financial Liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company.

The Company's financial liabilities include loans and borrowings, trade and other payables.

[a] Classification, initial recognition and measurement

Financial liabilities are recognized initially at fair value minus transactions costs and subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognized in the Statement of Profit and Loss or in the carrying amount of an asset if another standard permits such inclusion, over the period of the borrowings using the effective rate of interest.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020 [AS PER IND AS]

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

[b] Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortized cost using the EIR (Effective Interest Rate) method. Gains and losses are recognized in the Statement of Profit and Loss or in the carrying amount of an asset if another standard permits such inclusion, when the liabilities are derecognized as well through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

[c] Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

[2.27] Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Normally at initial recognition, the transaction price is the best evidence of fair value.

However, when the Company determines that transaction price does not represent the fair value, it uses inter-alia valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This categorization is based on the lowest level input that is significant to the fair value measurement as a whole :

- * Level 1-Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- * Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- * Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial assets and financial liabilities that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

[2.28] Financial Risk Management

The entity's activities expose it to market risk, liquidity risk and credit risk. In order to minimize effects of the above, various arrangements are entered into by the entity. The following table explains the sources of risk and how the entity manages the risk in its financial statements.

It monitors party-wise exposure and based on evaluation credit rating is allotted for each party. Thereafter a credit limit is assigned to each party depending on the solvency of the said party.

The entity considers the probability of default on ongoing basis and at each reporting period.

Micro-economic information is incorporated as part of internal rating mode

In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 60 days past due.

However, keeping in view some of the events occurring after the Balance Sheet date, any erosion in the year end value of the inventories due to impact of COVID-19 could not be foreseen as enumerated below

- As regards inventory of Tea produced, price realization could be made in Quarter 1 of the FY 2020-21 at a rate higher than the book value of inventories.
- Also for inventory of other manufactured items of other Divisions are mostly covered by inclusion of impact of COVID-19 under the force majeure clause in line with OM no. 18/4/2020-PPD dated 13.05.2020 issued by GOI, Ministry of Finance.
