Chairman's Message

AT GANESH HOUSING CORPORATION, WE HAVE ALWAYS BEEN FIRM IN OUR BELIEF AND VALUES: WE HAVE NEVER SHIFTED OUR GEOGRAPHICAL FOCUS AWAY FROM AHMEDABAD, WE HAVE CONSTANTLY ENDEAVOURED TO CREATE AND DELIVER A VALUE PROPOSITION THAT GIVES OUR CUSTOMERS THE BEST VALUE FOR MONEY.

Dear Shareholders,

Year 2014 will be remembered as a year of structural and bold reforms ushered in by a government that is determined and committed to put India back on the high-growth track. Most developed economies continued to struggle in their quest to generate higher outputs, and even a powerhouse like China saw its GDP rising by 7.4 per cent in 2014, its lowest in the last three decades. In contrast, and underpinned by the directional reforms, the Indian economy re-bounded strongly with a 7.3 per cent GDP growth rate for the fiscal year 2014-15. India re-emerged as a hot investment destination with the International Monetary Fund calling it the only bright spot in the global economy.

However, the scenario of real-estate industry in the country continued to remain depressing. The real-estate sector has been reeling under the combined effect of subdued demand and inventory pile-ups. To make matters worse, the rising burden of input costs as well as high interest rates have further pressurised all the sub-segments of the sector : residential, commercial and retail. This grim situation has lasted for over four years now, and has cast its long shadow on the real-estate sector in Ahmedabad as well. In spite of being one of the fastest growing cities in the country, the real-

estate market in Ahmedabad too was affected by these industry-wide factors that saw demand falling, resulting in oversupply of inventory, and thus, stagnation of prices.

But we felt last year was good for commercial real estate and that is the first sign since businesses, big and small, have started expansion. So, ray of hope persists in the Ahmedabad market. This year, it appears that the real-estate sector will see a turn-around.

Here is why :

1. The government has given a huge boost to the sector through regulations like notification by SEBI in respect of Real Estate Investment Trust (REIT) and the amendment to FDI rules reducing the size of minimum built-up and capital required for foreign investors. This bill bring see change in bringing long term, structural, huge capital into real estate market.
2. Initiatives like building 100 Smart Cities and Housing for All by 2020
3. Reduction in housing loan interest.

These are major initiatives that will have a positive impact on the real estate sector in India, reviving demand both from home buyers as well for office space.

With this positive outlook, let me update you on the year 2014-15 at Ganesh Housing Corporation Limited.

The key financial indicators for the year were:

₹ 251.29 Crores Sales

₹ 139.83 Crores EBIDTA

₹ 55.20 Crores PAT

The outlook for the coming year appears to be optimistic. There are firm signals that demand across sub-segments is picking up. Moreover, easing of inflation over the latter half of the year has prompted the Reserve Bank of India (RBI) to reduce interest rates, making home loans cheaper for buyers.

At Ganesh Housing Corporation, we have always been firm in our belief and values: we have never shifted our geographical focus away from Ahmedabad, we have constantly endeavoured to create and deliver a value proposition that gives our customers the best value for money. All our projects bear the signature Ganesh Housing stamp of quality, design and timely delivery. It is this strong and unshakeable adherence to our values that has shaped our growth strategy. Today, we enjoy a high level of respect and trust from our customers, which is reflected in the fact that Ganesh Housing Corporation's projects are always in demand.

This year, we have launched our most aspirational project – the Maple Tree Garden Homes, Maple Trade Centre and Maple Shopola. These projects are sure to become landmarks in the city with their first-ever open garden homes inspired by the French Alfresco style. The total value of this project is well over ₹ 1,000 crores and is expected to be completed in 3 years. At Magnet Corporate Park, over 95 per cent of the work is already completed. The location of Magnet Corporate Park right on SG Road makes it the ideal office location in Ahmedabad. This year, as demands picks up for commercial properties, Magnet Corporate Park is poised gain handsomely with an unmatched combination of location and ready-delivery.

We are also planning launch of two mega project this year : the SEZ and the Smile City. Smile City is by far the largest project of the Company. Spread over a 5-6 year period, the total value of this project is ₹ 90,000 million.

Customers First... Always

At the heart of our sustained success for the last forty four years is one of the simplest tenets – CUSTOMER DELIGHT. Simple and easy it may seem and sound, delighting the customer happens with a strict and uncompromising focus on key principles.

EXECUTION AND DELIVERY

Buying a real-estate is one of the biggest decision taken by customers in their lives. Particularly when they are buying a home, the decision is made with emotions and sentiments, with years of hard-work and savings, and a lifetime of dreams.

With so much financial and sentimental investments, execution and delivery of the project become paramount and are, in most cases, non-negotiable.

At Ganesh Housing Corporation, we understand our customers and their deep emotional connect with their real-estate investments, and that is why, Execution and Delivery for all projects are crucial and critical.

Most projects that have been developed by Ganesh Housing Corporation have been delivered in time, and as per the quality promised. There are no compromises made. That is what makes Ganesh Housing Corporation project a preferred choice for the buyers – because they are assured of quality, of construction and above-the-standard materials with in-time delivery.

TRANSPARENCY

The real-estate world today is mired by complex calculations that are aimed to deliberately complicate and confuse buyers. Unscrupulous players use this façade to hide the truth from buyers, banking upon their lack of in-depth knowledge of the laws as well as norms.

Ganesh Housing Corporation took the lead in TRANSPARENCY in the real-estate sector. It was amongst the first companies to openly disclose all details of the project to its buyers : how much actual areas would they be getting and what would be the area for common usage and amenities. All our projects today are 100 per cent transparent with buyers getting clear and exact idea of every square foot of the project.

TRUST AND FAITH

When buyers book their properties, they do so based on TRUST and FAITH in the developers. There are enough examples where this trust and faith has been broken, and buyers have suffered in terms of delays, cost-over runs, and even cost escalations.

At Ganesh Housing Corporation, we have developed an untarnished reputation with our buyers. We have one of the most enviable track-records of delivering projects in-time, within budgets and exactly as promised. This is what has sustained us and endeared us to our customers, with whom we are privileged to enjoy an extremely high level of trust and faith.

EVERY PROJECT THAT IS DEVELOPED BY US
DELIVERS THE BEST OF THE BEST TO OUR
CUSTOMERS – THE BEST LOCATION, THE
BEST CONSTRUCTION, THE BEST AMENITIES
AND THE BEST VALUE. AND IT IS PRECISELY
BECAUSE WE DELIVER THE BEST OF THE BEST

Our investors have shown steadfast commitment and conviction in us. In turn, we have always endeavoured to reciprocate their investment with continued financial success. We have always been open, transparent and responsive in all our investor communications, sharing all material development with them in a friendly and fair manner. Management Discussion and Analysis

ECONOMIC OVERVIEW

World Economy

The world economy continued with its uphill struggle in the year 2014 amidst complex geo-political factors. While growth picked up moderately in advanced economies, it remained subdued in the developing countries and emerging markets. World Gross Output (WGP) grew at 2.6 per cent in 2014, marginally higher than 2.5 per cent in 2013.

Growth of World Gross Product, 2008-2016^a

Source: UN/DESA.

^a Growth rate of 2014 is partially estimated; rates for 2015 and 2016 are forecast.

United Nations, "World economic situation and prospects as of mid-2014 (E/2014/70)", available from http://www.un.org/en/development/desa/policy/publications/ecosoc/e_2014_70_wesp_mid.pdf

Global growth during the year 2014 was uneven. In the world's largest economy, the USA, growth picked up, particularly in the latter half of the year as low oil prices led to increased consumer spending. Further, there was a marked improvement in employment rates. The US economy grew by 2.3 per cent in 2014 against 2.2 per cent in 2013. Economic activity in the EU was drastically affected by the new government in Greece that threatened to opt out of the EU. Political turmoil in Ukraine was another key factor that made the situation worse. However, in all the advanced economies, there was a marked improvement in the second half of the year due to declining oil prices that fell to sub US\$ 50 per barrel, triggering a rise in consumer spending.

GDP Growth, Actual and Projected

Contributions to Global Growth

(Source: World Bank)

There are upcoming challenges in the form of rising crude prices and US rate increases. However, factors like China's monetary easing is favourable for the world growth. Other major emerging economies like Brazil and Russia are now stabilizing after many hiccups in their political system that affected making of key decisions. Japan, with its aggressive monetary stance, is also likely to help Asian economies with cheap capital even after US starts raising interest rates.

Indian Economy

The year 2014 was a year for bold structural reforms for the Indian economy that are likely to have a profound effect in the medium and long terms. The newly elected

government at the centre initiated major reforms in core sectors like banking, defence, infrastructure and insurance. Another key development during the year 2014 was the change in method for measuring the GDP growth rate: (1) the base year was changed to 2011-12 from 2004-05 and (2) GDP will be measured henceforth on market-prices basis instead of the earlier factor-cost basis. This is in line with international practices. As a result, the revised growth rate for the fiscal year 2014 has been determined at 7.3 per cent, compared to 6.9 per cent in the previous fiscal year, as per the Indian Economic Survey 2014. Moreover, for the first time, India's total GDP will cross US\$ 2.1 trillion in FY2014.

There were many things going for India in the year 2014 that prompted the International Monetary Fund (IMF) to remark that the country was in a sweet spot. Inflation, that had been a major headache in the year 2013, tamed in 2014, particularly in the latter half of the year due to falling oil prices. From a high of over 8 per cent in the beginning of the year, retail inflation, as measured by Consumer Price Index (CPI) fell down to below 5 per cent by the end of the year.

As inflation came within manageable limits, the Reserve Bank of India (RBI) eased its monetary policy by reducing lending rates in January 2015. The Indian rupee also remained largely stable during the year.

INDUSTRY OVERVIEW

Indian Real Estate Market

The Indian real estate market has come a long way, transforming from unorganised to one of the most dynamic and organised sectors of the economy. Driven by rising population, rising income levels and rapid urbanisation, the sector has seen a huge influx of both domestic as well as foreign investors, attracted by the tremendous potential of growth.

The sector has been facing stiff challenges in the last few years as sales declined due to an overall depressed economic scenario. This was further aggravated by rising finance costs due to high interest rates, leading to an accumulation of debts as well as project delays.

However, with the election of a steady government at the centre in 2014, things have changed for the sector. The new government has initiated many forward looking and pragmatic reforms and regulations that are bound to have a long-term and positive impact on the sector. These include:

1. Notification by the Securities & Exchange Board of India (SEBI) on the Real Estate Investment Trusts (REITs) regulations making REIT more feasible by allowing internationally acclaimed investment structure in India.
2. Unveiling of initiatives like 100 Smart Cities and a commitment to Housing for All are expected to go a long way in boosting sustained investments and developments in the sector.

- Amendment to the Foreign Direct Investment (FDI) rules by reducing the minimum built-up area from 50,000 sq. mt. to 20,000 sq. mt., as well as reduction in capital requirement from US\$ 10 million to US\$ 5 million, which is to be achieved within six months from the date of commencement of the project. The exit norms have also been simplified, making it attractive for investors in the sector.

According to Department of Industrial Policy and Promotions (DIPP), the real estate sector attracted FDI worth ₹ 703 million till November 2014.

The India real estate sector comprises mainly of Residential, Commercial, Retail and Hospitality sub-segments.

Ahmedabad Real Estate Overview

The Ahmedabad real estate sector is undergoing a rapid transition and transformation. A slew of infrastructure development projects undertaken in the last few years have completely changed the real estate scenario in the city. Some of the projects that have put Ahmedabad on the global pedestal include the Bus Rapid Transit System (BRTS), Riverfront, Outer Ring Road (ORR) project and Gujarat International Finance Tech City (GIFT) at Gandhinagar which has recently been declared as the IFC (International Financial Center). GIFT be only location in India to have all the facilities and infrastructure as well as financial framework comparable to the financial hubs in the world like Singapore, Dubai, Hong Kong and Luxembourg.

The on-going metro project is one of the largest and most ambitious in the country, connecting over 17 lac commuters daily via 31 station.

These developments have changed the demographics of the city, with new areas and localities emerging as new pockets of growth and expansions. Today, localities like Sanand, Bopal, Science City, Thaltej, S. G. Highway, Satellite and Ashram Road are witnessing surge in development of both residential and commercial projects.

Residential Sector

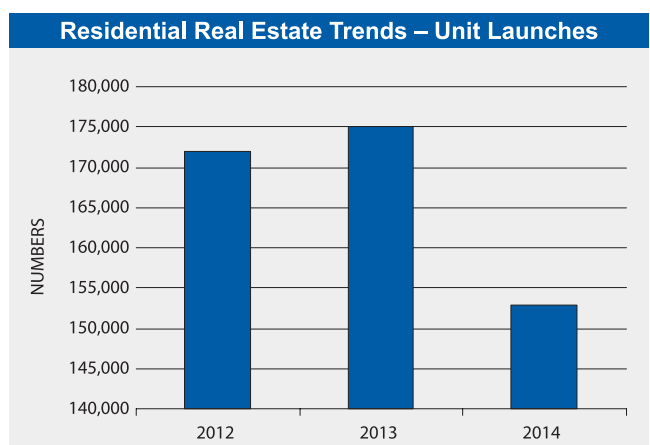

According to the India Real Estate Sector Handbook 2015 published by Grant Thornton India LLP, the year 2014 saw demand falling by 30 per cent in the seven major cities. This was largely due to a combination of high prices, higher interest rates and cautious buyer sentiments. In

response, the developers slowed down projects with a view to limit supply. There was a 25 per cent decrease in supply on a year-to-year basis in 2014 compared to 2013. The curtailing of supply mainly happened in the premium and high/mid end projects, with NCR region witnessing the steepest decline in supply. The much awaited and expected spike in demand during the festive season remained subdued.

According to a Cushman & Wakefield Research Publication of March 2015, almost 500,000 new residential units were launched between 2012 and 2014. 60 per cent of these units were in the mid-segment, while 16 per cent were in the high-segment and only 23 per cent were in the affordable-segment.

According to Knight Frank Research, the demand supply gap between launches and absorption has been narrowing consistently.

(Source: Knight Frank Research)

Note: The top six cities are Mumbai, NCR, Bengaluru, Pune, Chennai and Hyderabad

The Indian real estate sector is second largest employer after agriculture in the country and is forecast to grow at 30 per cent over the next decade, according to industry reports.

Ahmedabad Residential Sector

According to a report released by global consultants Cushman & Wakefield on 23 April, 2015, there has been a significant drop of 25 per cent drop in the number of houses constructed between January – March 2015. A total of 1,750 new housing units were constructed between January – March 2015, of which 65 percent belonged to the mid-segment and 33 per cent from the high end residential segment. The western periphery locations such as Bopal and Ambli comprised of nearly half of the total launches in the city during the quarter between January – March 2015.

On the demand side, there has been rise in unsold inventory on the back of subdued demand. This is in line with the trend in the residential real-estate sub-segment across other major cities of India, all of which have witness a drop in sales as well as launch of new units. In Bangalore, there has been 76 per cent drop in the newly launched housing units, followed by Kolkata at 67 per cent, Mumbai at 63 per cent, Delhi-NCR by 58 per cent and Chennai by 57 per cent for the same period.

However, things looked more positive in the second quarter of 2015. According to a report by Citibank, about 2,300 units were launched during the second quarter of 2015, marking an improvement of 33 per cent from the previous quarter. The launch of two projects with more than 400 units each ensured that the western region lead with 54 per

cent contribution to total unit launches. The mid segment dominated the quarterly unit launches with a 56 per cent share. Both the capital and rental values remained nearly stable across submarkets during the quarter.

Commercial Sector

The commercial real estate segment has been laden with over-supply since the last few years as developers got over optimistic about the revival of economic growth and development. According to estimates by Jones Lang Lasalle India (JLL), there was an over-supply in the range of 4 million sq.ft. to 10 million sq.ft. for office real estate till 2014, which drove up vacancy rates. However, since the latter half of 2012, developers have strategically started reducing new supply to in the range of 27 million sq.ft. to 30 million sq.ft., which helped improve consumption rates significantly.

Ahmedabad Commercial Sector

In the commercial sector too, the trend was similar to that of residential real estate sector. According to the Cushman & Wakefield report of 23 April, 2015, between January-March 2014, over 6.07 lakh sq.ft. of office space was absorbed by various business entities in the city. However, during the same three months this year, only 1.54 lakh sq.ft. of space has been absorbed, indicating a nearly 75 per cent decline in the leasing of new office spaces in the city.

Most of the decline in the commercial real-estate market in Ahmedabad has been contributed due to low demand from the IT-ITeS sector which was the driving force behind office space leases in 2014.

In the second quarter of 2015, the commercial sector witnessed around 145,200 sq.ft. registering a decline of 6 per cent as compared to the previous quarter. 96 per cent of the quarterly net absorption was contributed by Grade A developments. The absence of new completions during the second quarter amidst a fairly active transaction activity led to a 0.7 percentage points decline in all Grades vacancy level to 18.5 per cent for the second quarter.

Retail Sector

The retail sub-segment of the real estate market suffered the worst during the year. The single-most important factor to adversely affect the segment was the rapid rise of ecommerce and online retail portals. The combination of choices, offers and discounts, and the added convenience of free trials and home delivery proved to be too powerful of buyers to resist. This meant that only those malls that were well-managed with a good tenant-mix continued to attract footfalls. Malls that were not properly located and/or poorly managed suffered heavily.

One of the largest retail transaction in the real estate space was the sale of Alpha Mall to the Blackstone Group for ₹ 750 crore, which reaffirms that good quality malls will continue doing well and survive in current challenging scenario.

The compounding effect of the last couple of years led to some of Grade-B malls either converting to office spaces or witnessing high vacancy rates. While the vacancy rates in better managed malls were in the vicinity of 10 per cent, the vacancy rates shot up to 20 per cent in malls that were either poorly-built or badly-located or had an unattractive tenant mix.

Ahmedabad Retail Sector

In the retail sector, rentals in malls managed to remain stable in Ahmedabad in spite of limited enquiries and high vacancy levels. In the high-streets, rentals continued to remained stable due to limited transaction activity and owners quoting similar rates to attract retailers.

OPPORTUNITIES AND THREATS

Opportunities

1. *Strong Economic Revival*

Over the last one year, there has been a complete turnaround in the Indian economy. Spurred by bold and long-term structural reforms, confidence in the India growth story has once again been revived. All the macro indicators are pointing towards a phase of sustained positivity ahead in the next few years. Inflation has been largely tamed to benign levels, giving hope that the government will start reducing interest rates further. Moreover, falling commodity prices are likely to have a positive effect on input costs across industries, improving profitability and earnings.

2. *Real Estate Policy Reforms*

a. *Real Estate Investment Trusts (REIT)*

Securities and Exchanges Board of India (SEBI) issued a notification on REITs announcing detailed

guidelines. These guidelines clarified and cleared many ambiguous and vague areas that were hitherto creating a lot of confusion. Under the fresh guidelines, the government has cleared the way for internationally accepted investment structures in India. These guidelines are expected to give a fillip to the real estate sector as REITs play a vital role in unlocking the true value of commercial assets and allow developers with a new avenue to raise funds. REITs have proven to be critical in the success of real estate business in countries like Singapore, Hong Kong, the United States and other economies. REITs also help in creating a new investment vehicle for institutional and retail investors. REITs are expected to play a key role in the next phase of growth in the real estate sector in India.

b. *Relaxation in FDI in Retail Rules*

To encourage more FDI in the real estate sector, the government relaxed rules for FDI in construction sector by reducing the minimum built-up area from 20,000 sq. mts. to 5,000 sq. mts. The minimum capital requirements was also reduced from US\$ 10 million to US\$ 5 million.

3. *SMART Cities*

The government has announced its ambitious vision to develop 100 Smart Cities over the next twenty years and announcement of AMRUT Project with the outlay of ₹ 4,00,000 Crores is going to give big push to urban infra industry. A sum of ₹ 7,060 crores was allocated towards this in the Union Budget of 2014-15. These Smart Cities will include the construction of satellite townships near existing mega cities, upgrading existing mid-sized cities and the construction of settlement along industrial corridors. The plan also envisages development of new smart cities.

Threats

1. *Inventory Pile-Up*

The glut in demand over the last few years in the real estate sector has resulted in an inventory pile-up at all the major cities of India. According to a leading industry research firm, the combined inventory of Bengaluru, Chennai, Hyderabad, Mumbai Metropolitan Region or MMR and Delhi-National Capital Region or Delhi-NCR

is around 50 months. The situation is worst in Delhi-NCR, where the inventory pile-up reaches 83 months or seven years, while it is 50 months for MMR and Chennai, and 23 months for Pune. In case of Ahmedabad it is over 18 months.

In the mid to high-end residential segment, the inventory has come down to 30 months in the major metropolitan cities due to a bridging of the demand-supply gap.

2. *Complex and Cumbersome Regulations*

In spite of positive changes, the real estate sector is still plagued by complex procedures, permission and clearances. Depending on cities, these regulations range between 30 and 40, resulting in a huge burden of both time and cost over-runs.

3. *Financing Costs*

The real estate business is a capital intensive business that requires long-term investments in land, construction and marketing. Most developers have to borrow funds at various stages of the project. High interest rates over the last few years have adversely affected the viability of projects, not to mention pressure on profitability. Moreover, certain banks are reluctant to extend financial assistance to the developers.
