None of the Directors and Key Managerial Personnel of the Company or their relatives is, in any way, concerned or interested in the Resolution set out at Item No. V of the Notice.

Item No. VI:

Appointment of Mr. Deepak Khetarpal, (DIN: 00732804) as an Independent Director of the Company for the first term for five consecutive years:

Based on the recommendation of the Nomination and Remuneration Committee (NRC), the Board of Directors of the Company at its meeting held on 23rd August 2025 appointed Mr. Deepak Khetarpal (DIN: 00732804) as an Additional Director (Category: Non-Executive & Independent) of the Company w.e.f. 23rd August 2025.

Pursuant to the provisions of Regulation 17(1C) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), the Company is required to obtain approval of shareholders for the appointment of an Independent Director at the next general meeting or within a time period of 3 (three) months from the date of appointment, whichever is earlier.

Accordingly, in compliance with above and pursuant to the provisions of Section 161(1) of the Companies Act, 2013 ("the Act"), Mr. Deepak Khetarpal (DIN: 00732804) holds office as an Additional Director till the date of the ensuing 13th Annual General Meeting (AGM) to be held on 19th September 2025.

Mr. Deepak Khetarpal is a highly accomplished and dynamic professional, holding the distinction of being a Qualified Cost and Works Accountant (CMA) with extensive expertise spanning across Costing, Finance, Business Management, Accounting, and Income Tax. Over the course of his career, he has built a reputation for his sharp analytical skills, strategic financial acumen, and result-oriented approach, which have collectively contributed to the growth and success of the organizations he has been associated with.

The Nomination and Remuneration Committee ("NRC") and the Board of Directors are of the opinion that Mr. Deepak Khetarpal will provide valuable insights to the Company and his appointment as an Independent Director will be in the interest of the Company.

The NRC had identified skills, expertise and competencies required by the Board for the effective functioning of the Company. The selection of the new Independent Director was carried out and concluded by NRC members who were Independent Directors and not considered interested in such proposal. After considering qualifications, skillsets, experience, independence, knowledge, ability to devote sufficient time, the NRC selected and recommended to the Board, the appointment of Mr. Deepak Khetarpal as Independent Director of the Company. Further, based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors of the Company at its meeting held on 23rd August 2025 also recommended the appointment of Mr. Deepak Khetarpal (DIN: 00732804) as an Independent Director on the Board of the

Company, not liable to retire by rotation, for a term of 5 (five) consecutive years commencing from 23rd August 2025.

Mr. Deepak Khetarpal (DIN: 00732804) is not disqualified from being appointed as a Director in terms of Section 164 of the Act. The Company has received the consent and requisite declarations as per the provisions of the Act and SEBI Listing Regulations including the declaration that he meets the criteria of independence as provided under Section 149(6) of the Act and Regulation 16 of the SEBI Listing Regulations. Further, in terms of Regulation 25(8) of SEBI Listing Regulations, Mr. Deepak Khetarpal (DIN: 00732804) has also confirmed that he is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact his ability to discharge his duties.

Further, Mr. Deepak Khetarpal (DIN: 00732804) is not debarred from holding the office of Director pursuant to any Order issued by the Securities and Exchange Board of India (SEBI) or any other authority. Further, he is also registered with the Independent Director's databank maintained by the Indian Institute of Corporate Affairs (IICA). In the opinion of the Board, Mr. Deepak Khetarpal (DIN: 00732804) fulfils the conditions for his appointment as an Independent Director, as specified in the Act and SEBI Listing Regulations and is independent of the management.

Considering his expertise and knowledge, the Board considers that the appointment of Mr. Deepak Khetarpal (DIN: 00732804) as an Independent Director of the Company will be in the interest of the Company, and hence, it recommends appointment Mr. Deepak Khetarpal (DIN: 00732804) as an Independent Director of the Company for period of 5 years, not liable to retire by rotation, for a term commencing from the date of Board's approval i.e. 23rd August 2025.

None of the Directors, Key Managerial Personnel or their relatives are interested in or concerned, financially or otherwise, in passing the proposed resolution.

Items No. VII

Ratification of Remuneration payable to Cost Auditors for the Financial Year 2025-26:

The Board of Directors of the Company on the recommendation of the Audit Committee approved the appointment and remuneration of **M/s K. K. Sinha & Associates, Cost Accountants, 3396, Sector - 46C, Chandigarh- 160047** (Firm Regn. No. 100279) to conduct the audit of cost records of the Company for the financial year 2025-26, at Rs. 50,000/- per annum (Rupees Fifty Thousand Only) subject to ratification by shareholders.

In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with Rule 14(a) (ii) of The Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditor is to be ratified by the Members of the Company. Accordingly, the Members are requested to ratify the remuneration payable to the Cost Auditors during the year 2025-26 as set out in the Resolution for the aforesaid services to be rendered by them.

None of the directors or KMP or their relatives are concerned or interested in the aforesaid resolution and your board recommends the Ordinary Resolution set out at Item No. VII of the Notice for approval by the shareholders in the interest of the Company.

Item No. VIII:

Approval for Material Transactions with Related Parties:

The Members are informed that the Companies Act, 2013 aims to ensure transparency in the transactions and dealings between the Related Parties of the Company. As per the provisions of Section 188 (1) of the Companies Act, 2013 "Related Party Transactions" requires obtaining prior consent of the Board where transactions proposed to be entered into falls in the list of items referred therein and are within threshold limits prescribed under Rule 15 of Companies (Meeting of Board and its Power) Rules, 2015.

Rule 15 of Companies (Meeting of Board and its Power) Rules, 2014 requires taking prior approval of the Company by Special Resolution where transactions proposed to be entered into falls, in the list of items referred therein and are in excess of threshold limits.

Proviso to Section 188 further provides that nothing contained in Sub-section (1) of Section 188 applies where transactions are entered into by the Company in the ordinary course of business other than transactions which are not on an arm's length basis.

All transactions entered into by the Company with Related Entities are at arm's length basis and in the ordinary course of business except a few of which could be construed as not in the ordinary course of business but are at arm's length basis.

In the light of provisions of the Companies Act, 2013, the Board of Directors are authorized to determine the actual sums to be involved in the transactions and to finalize terms and conditions including the period of transactions and all other matters arising out of or incidental to the proposed transactions.

The Members are informed that no Members of the Company being a Related Party or having any interest in the Resolution as set out at Item No. VIII shall be entitled to vote on this special Resolution.

The Board of Directors recommends the Resolution set forth in Item No. VIII for approval of the Members.

Except Promoter, Directors and their relatives (to the extent of their Shareholding interest in the Company), no other Director or Key Managerial Personnel or their relatives, is concerned or interested, financially or otherwise, in passing of this Resolution.

CORPORATE GOVERNANCE REPORT
FOR THE YEAR 2024-2025

(As required under Regulation 27(2) of the SEBI (LODR) Regulations, 2015)

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

We at M K Proteins believe that Corporate Governance is about internalising and manifesting a firm commitment to the adoption of ethical practices across the Company to deliver value in all its dealings with a wide group of stakeholders at all times. Our governance philosophy is built on transparency, integrity and responsibility, ensuring that the interests of all stakeholders, associates, customers, partners and the community are protected and promoted. The Company believes that Corporate Governance is an integral means for its existence. It ensures adherence to moral and ethical values, legal and regulatory framework, and the adoption of good practices beyond the realms of law.

Our Corporate Governance is reinforced through the Company's Code of Conduct and Ethics, corporate governance guidelines, and committee charters. Our Board, management processes, audits, and internal control systems reflect the principles of our Corporate Governance.

The Company believes in abiding by the Code of Governance so as to be a responsible corporate citizen and to serve the best interests of all the stakeholders, viz., the employees, shareholders, customers, vendors and the society at large. The Company seeks to achieve this goal by being transparent in its business dealings, by disclosure of all relevant information in an easily understood manner, and by being fair to all stakeholders, by ensuring that the Company's activities are managed by a professionally competent and independent Board of Directors.

The prime focus of Companies Act, 2013, is on shareholders' democracy, higher transparency and more disclosures, E-Governance, investor protection and on Professionals' enhanced role & accountability. MANAGEMENT DISCUSSION ANALYSIS**CAUTIONARY STATEMENT**

The Management Discussion and Analysis sections contain the Company's objectives, projections, estimates and expectations may constitute certain statements, which are forward-looking within the meaning of applicable laws and regulations. The statements in this management discussion and analysis report could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting demand/supply and price conditions in the Government policies, tax regimes, forex markets, economic developments within India and the countries with which the Company conducts business, political factors and such other factors beyond the control of the Company.

COMPANY OVERVIEW:

Our Company was incorporated on June 15, 2012 in Ambala, Haryana as a Private Limited Company. In 2017 the Company was converted into Public Company and subsequently overtime got listed in NSE and then in BSE. The Company is a manufacturing and trading organization having its production/refining plant of Edible Oils. Our manufacturing process involves refining of Crude Oils to obtain Refined Rice Bran Oil, Canola Oil, Soya Bean Oil, Sunflower Oil and Rice Bran Bleached Oil. During the refining process certain by-products are also manufactured such as Rice Bran Fatty Acid Oil, Rice Bran Wax, Gums and Spent Earth which are also saleable. Further, we also import crude oils, process them and sell the finished product. We also trade in both edible and non-edible oils. Our company is focused at production of highest quality of edible oil. Our refinery is completely mechanized and today we produce rice bran oil, sunflower oil etc. with protein content, with controlled fiber free from oil residue, ash and sand & silica. This is possible only through sustained levels of cleaning, storage and monitoring arrangements. Our Company based on its extensive experience of its promoters and its standards, conforms to major specifications and customer requirements. We firmly believe in benchmark product quality, customer centric approach, people focus, ethical business practices. By way of periodical expansion, MKPL has increased its production capacity from time & again to cater to changing business environment & varied customer needs. The company's turnover has increased manifold over time and is expected to grow substantially in subsequent years.

INDUSTRY STRUCTURE, DEVELOPMENTS AND OUTLOOK

The edible oil manufacturing industry in India is highly fragmented, with numerous players catering to diverse consumer preferences and regional demands. The industry is characterized by intense competition, price volatility of raw materials, and evolving regulatory norms. Our company operates in this dynamic environment and has adapted its strategies to capitalize on emerging opportunities.

At present, India is the world's largest importer of edible oil. Over the past six decades, the per capita consumption of edible oils in India has substantially increased. It now stands at approximately 19 kg per year. Factors such as rising disposable incomes, urbanisation, evolving dietary preferences and the expansion of the food processing sector have led to a heightened demand for edible oils in India. To meet this burgeoning domestic demand, India imports approximately 16 million metric tonnes of edible oils every year. In the first seven months of the 2024-25 (November-May), imported edible oil totalling 76.77 lakh tonnes. The agricultural sector's expansion, coupled with various initiatives aimed at augmenting oilseed production nationwide is further driving the market for edible oils in India.

We have witnessed significant progress in terms of market penetration and brand recognition in the past. Our commitment to quality and continuous improvement has helped us gain customer trust and loyalty. Looking ahead, we aim to expand our distribution network, explore new product categories, and invest in technology to enhance productivity and sustainability.

The Indian economy has displayed resilience amidst global uncertainties and internal challenges. The government's focus on infrastructure development, ease of doing business, and reforms in the agricultural sector has positively impacted our industry. However, macroeconomic factors such as inflation, exchange rate fluctuations, and policy changes need to be closely monitored.

INDIAN ECONOMIC OVERVIEW

The Indian economy is one of the fastest-growing economies globally, with a significant consumer base and a robust demand for edible oils. The country's edible oil industry plays a vital role in both domestic consumption and export markets. India is the world's largest importer of edible oils, primarily due to insufficient domestic production to meet growing consumer demand. However, the sector faces challenges such as fluctuating prices, supply chain complexities, and dependence on imports for meeting domestic requirements. The Indian government has implemented various policies and initiatives to boost domestic production, reduce reliance on imports, and promote self-sufficiency in edible oil production. Key factors influencing the edible oil industry in India include population growth, rising per capita incomes, urbanization, changing dietary preferences, and government policies. The government's focus on improving agricultural productivity, promoting oilseed cultivation, and enhancing processing and refining capabilities are creating opportunities for growth within the sector.

Throughout FY 2025, India has maintained its position as the fastest growing major economy amid global headwinds. It has also emerged as an alternative to China and garnered the attention of foreign companies, who are seeking an alternative manufacturing hub outside China. The domestic economy is further being buoyed by a robust financial system that is supporting its growth dynamics.

Further, easing supply side constraints, coupled with the government's consistent emphasis on capital expenditure have facilitated economic growth. A surge in investments in the public sector and a strong banking sector has also contributed to gradual economic expansion over the years.

GLOBAL OVERVIEW

The global edible oil industry is influenced by various factors, including international trade policies, global commodity prices, consumer trends, and the competitive landscape. Edible oils are widely consumed across the world and play a crucial role in various cuisines, food processing, and industrial applications.

Major producers of edible oils on a global scale include India, China, the European Union, the United States, Indonesia, and Malaysia. Global demand for edible oils is expected to rise steadily due to population growth, increasing disposable incomes, changing dietary habits, and urbanization.

The global edible oil industry has witnessed several developments in recent years. These include advancements in refining technologies, increasing focus on sustainability and environmental concerns, emergence of healthier and premium oil variants, and shifts in consumer preferences towards non-genetically modified organisms (GMO) and organic products.

Additionally, international trade plays a significant role in the edible oil industry, with countries engaging in exports and imports to bridge supply-demand gaps. Trade policies, tariff structures, and regional free trade agreements impact the global trade dynamics of edible oils.

Considering the dynamic nature of the global economic environment and its influence on the edible oil industry, it is crucial for companies in the Indian edible oil sector to monitor and analyze global economic trends, trade policies, and competitive dynamics to make informed business decisions and remain competitive in both domestic and international markets.

Fluctuating price of raw material is one of the major challenges in the market. The fluctuation in the price is due to various reasons such as environmental factors, crop diseases, and others. A fluctuation in the price of raw materials may have an adverse impact on the growth of the market during the forecast period. However, the deficit between production and consumption of edible oils is increasing rapidly, even after importing millions of tons of oil creating more

demand for the edible oil.

Overall, while the Indian edible oil industry has numerous opportunities, it also faces threats in terms of competition from imports, availability of raw materials, government policies, and health-related concerns. However, with proper strategic planning and a focus on innovation, the industry can overcome these threats and capitalize on the growing market potential.

Risks and Concerns

In our edible oil business, majority of raw material comes from imports. Geo-political events can cause supply disruptions, exporting countries government can put restrictions on exports. Weather conditions can result in reduction of crop production.

Other operational factors include operating efficiency, product diversity, market position, and ability to secure raw material as well as the commodity price and forex-risk management systems. Risk financial position and returns metrics, capital structure, ability to generate positive cash flows from operations and the adequacy of the same in relation to its contractual debt service obligations.

There can be increase in taxes on import of crude edible oil. There can be restriction on the quantity that any Company can import. This can put a large Company like us at a disadvantage compared to our competitors.

Your Company is exposed to commodity price fluctuations in its business the edible oil prices in India are directly correlated to international oil price movements and currency movements that make profitability vulnerable to unexpected fluctuations.

Risks are an integral part of any business environment and it is essential that we create structures and processes that are capable of identifying and effectively mitigating them. For us, the risks are multi-dimensional and therefore we look at it in a holistic manner, straddling both, the external environment and the internal processes. These risks can be broadly classified into following categories: Strategic Risk, Compliance and Governance Risk, Financial Risk, Environmental Risk, Operational Risk and Social Risk.

Further, Key risks for the edible oils sector include risks from change in import-export regulations; change in the minimum support price (MSP) on oilseeds offered by the government; high dependence on monsoons and finally, the risk arising out of exchange rate fluctuations. Procurement of oilseeds at the right price and quantity, optimum utilization of

processing units, their strategic location, a strong brand name and diversification of product offerings are likely to be the key success determinants for players.

Increase in the number of competing brands in the marketplace, counter campaigning and aggressive pricing by competitors have the potential to create a disruption.

Changing consumer preference and Demand can be adversely affected due to shift in consumer preferences, especially those induced by the pandemic. Given the potential of social media, the speed of such a shift could be unparalleled.

The key determinants of business risk profile of the company are their ability to overcome the regulatory risk and agroclimatic conditions. Other operational factors include operating efficiency, product diversity, market position, and ability to secure raw material as well as the commodity price.

The profitability of edible oil companies is significantly influenced by regulatory changes and remains highly susceptible to the changes in the duty differential between import duties on crude and refined oil by the Government of India (GOI).

Also, the profitability of these companies depends on the changes in the export tax levied by exporting countries, mainly Indonesia and Malaysia (that account for most of palm oil imports).

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial statements have been prepared in compliance with the requirement of the Companies Act, 2013 and Indian Accounting Standards of India (Ind AS). During the year under review, the company reported profit of **Rs. 11,45,10,060.77** before tax adjustments as compared to profit of **Rs. 15,46,96,663.28** before tax adjustment in the previous year.

The company's revenue increased by 9.01% to **INR** during FY 2024-25 from **INR 2,67,70,59,633.37** to **INR 2,45,57,11,174.88** /- for the same period ending FY 2023-24 The decrease was attributed by lower volumes and reduced prices.

Profit after tax (PAT) registered a decline of 25%.

The company does not have any other segments.

INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

To,

**The Members of,
M. K. PROTEINS LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **M. K. PROTEINS LIMITED** ('the Company'), which comprise the Balance Sheet as at March 31, 2025 and the Statement of Profit and Loss (Including Other Comprehensive Income), the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (India Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters ("KAM") are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our audit report.

The Key audit matters	Auditor's Response
Revenue Recognition	Principal Audit Procedure
<p>Revenue is recognised when the significant risk and rewards of the ownership have been transferred to the buyer, and recovery of consideration adjusted for rebate and discounts is probable. This includes variable consideration given the customers, associated costs, and potential returns of goods, which can be reliably measured. Additionally, there is no continuing effective control or managerial involvement in respect of the goods, and the amount of revenue can be measured reliably. Revenue is recognised at the time control over goods is transferred to the customer, typically upon delivery.</p> <p>The timing of revenue recognition is significant to the reported performance of the company. However, there is a risk that revenue may get recorded before the control is transferred.</p> <p>The terms of sales arrangements, including the timing of transfer of control and historical experience create complexities that require key judgements in determining revenues. Considering these factors, we have identified revenue recognition as a key audit matter.</p>	<p>We have performed the following principal audit procedures in relation to recognised revenue, which include a combination of testing internal controls and substantive testing as under:</p> <p>Understanding the revenue recognition process, evaluating the design and implementation of Company's controls related to revenue recognition, and testing the effectiveness of such controls over revenue cut offs at year-end, including analytical procedures to assess the reasonableness of the recognised revenue.</p> <p>We tested the design, implementation, and operating effectiveness of the management's system of Controls, key application controls, and interfaces between system controls and key manual internal controls related to revenue recognition to assess the completeness of the revenue to ensure the completeness of revenue entries being recorded in the general accounting system.</p> <p>Sample-based testing was conducting on supporting documentation for sales transactions recorded during the year, including customer contracts, sales orders, sales invoices, management's control over dispatch of goods, delivery challans, discount and rebate conditions, and other related documents, ensuring compliance with credit limit terms as per the contract.</p> <p>We evaluated the appropriateness of revenue recognition policy and adequacy of disclosures in the financial statements regarding revenue recognition in accordance with the Ind AS115.</p>

Contingent liabilities relating to taxation, litigations and claims	Principal Audit Procedure
<p>Accrual for taxes and other contingencies requires management to make judgements and estimates related to issues and exposures arising from various matters, including direct or indirect taxes, claims, general legal proceedings, and other eventualities occurring in the normal course of business.</p> <p>The key judgement involves estimating provisions where they may differ from future obligations. Provisions are inherently difficult to estimate due to their dependency on numerous variables. Moreover, there is a risk that costs could be provisioned prematurely for obligations that are not yet committed, depending on the timing.</p>	<p>Understanding the process followed by the company for assessing and determining the amount of provisions and contingent liabilities and claims.</p> <p>We used our professional judgement and experience to assess the value of significant contingent liabilities considering the nature of exposures, applicable regulations, and relevant correspondence with authorities.</p> <p>We discussed the status and potential exposures related to significant litigation and claims with the company's management, including their perspectives on the likely outcome of each case and potential magnitude of exposure. We also reviewed any relevant opinions provided by advisors.</p> <p>We assessed the adequacy and appropriateness of the company's disclosures in the financial statement.</p>

Information Other than the standalone financial statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report, Management Discussion and Analysis, Corporate Governance Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including Other Comprehensive Income, Cash Flows and Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (India Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ┘ Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ┘ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference of financial statement in place and the operating effectiveness of such controls.
- ┘ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ┘ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ┘ Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatement in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure "A"**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable

2. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including other comprehensive income), the Standalone Statement of Change in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the Directors as on March 31, 2025, taken on record by the Board of Directors, none of the Directors is disqualified as on March 31, 2025 from being appointed as a Director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in **Annexure “B”**;
- (g) In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditors’ Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company does not have any pending litigations which would impact its financial statement as of March 31, 2025.
 - ii) The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.
 - iii) There were no amounts which required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv) a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Company or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Party or provide any guarantee, security or the like from or on behalf of the Ultimate beneficiaries; and
c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

- v) Based on our examination which included test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.
Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.
- vi) The Company has neither declared nor paid any dividend during the year.

ANNEXURE “A” REFERRED TO IN PARAGRAPH 1 UNDER THE HEADING OF “REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS” OF INDEPENDENT AUDITORS’ REPORT OF EVEN DATE OF M. K. PROTEINS LIMITED FOR THE YEAR ENDED MARCH 31, 2025

- (i) In respect of the Company’s Property, Plant and Equipment or Intangible assets or both:
- (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of its Property, Plant and Equipments and relevant details of Right-of-use Assets.
According to the information and explanations given to us, the Company is not having intangible assets during the year under consideration.
 - (b) As explained to us, the Company has a regular programme of physical verification of its property, plant and equipments by which all PPE are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. Pursuant to the programme, certain property, plant and equipment were physically verified by the management during the year no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and the records examined by us, the Company is not having any freehold immovable properties (i.e. land and building) in the name of the Company as at the balance sheet date other than properties where company is the lessee and the lease agreements are duly executed in favour of the lessee, hence clause 3(i)(c) of the order is not applicable.
 - (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued any of its Property, Plant and Equipment (including Right-of-use assets) or intangible assets or both during the year.
 - (e) According to the information and explanations given to us that no proceedings have been initiated during the year or are pending against the company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (4 of 1988) and rules made thereunder. Therefore, the provisions of the clause 3(i)(e) of the Order are not applicable to the Company.
- (ii)
- (a) As explained to us that, the inventory (except for goods-in-transit and stocks which have been received subsequent to year-end) were physically verified during the year by the Management at reasonable intervals. In our opinion, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No material discrepancies (i.e. 10% or more in aggregate for each class of inventory) were noticed on physical verification of inventories, when compared with the books of account.
 - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has sanctioned/availed working capital limits (Fund based and Non fund based) in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets during the year. In our opinion, and according to the information and explanations given to us, the quarterly returns or statement comprising stock and book debts statement filed by the company with such banks are in agreement with the unaudited books of account of the company of the respective quarters.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnership or any other parties during the year.
- a) According to the information and explanations given to us, the Company has not granted loan or advances in the nature of loan or provided guarantee or provided security to other entity (i.e. Subsidiaries, joint ventures, associates and other parties) during the year, and hence reporting under clause 3(iii)(a) of the order is not applicable.
 - b) In our opinion, the investment made and the terms and conditions of the grant of all loans, advances in the nature of loans, guarantees provided and security given are, prima facie, not prejudicial to the Company’s interest.
 - c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally been regular as per stipulation.
 - d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.

- e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to the same parties.
- f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) of the order is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable. The Company has not granted any loans, making investments, providing any guarantees or security to the parties covered under Sections 185 and 186 of the Companies Act, 2013.

*These amounts are net of amount paid/ adjusted under protest Rs.91.75 Lacs

- (viii) According to the information and explanation given to us, that the company has not surrendered or disclosed any amount as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961), which are unrecorded in the books of account of the company. Therefore, the provisions of the clause 3 (viii) of the Order are not applicable to the Company.

- (ix)
 - (a) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender (i.e. Banks, Financial Institution, Non Banking Financial Institution/Companies or government/state government etc.)
 - (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
 - (c) In our opinion and according to the information and explanations given to us, the company has utilized the money obtained by way of term loan Rs.133.37 Lacs during the year for the purpose for which they were obtained. However, in respect of old term loans the same have been applied for the purposes for which they were obtained.
 - (d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the company, we report that no funds raised on short-term basis have been used for long-term purposes by the company.
 - (e) According to the information and explanations given to us and on an overall examination of the financial statements of the company, we report that the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures. Accordingly, clause 3(ix)(e) of the Order is not applicable.
 - (f) According to the information and explanations given to us and procedures performed by us, we report that the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Accordingly, clause 3(ix)(f) of the Order is not applicable.
- (x)
 - (a) The company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the order is not applicable.
 - (b) During the year, the company has not raised money by way of preferential allotment or private placement of shares or convertible debenture (fully, partially or optionally convertible and hence reporting under clause 3(x)(b) of the order is not applicable.
- (xi)
 - (a) According to the information and explanations given to us, no material fraud by the Company or any fraud on the Company has been noticed or reported during the year.
 - (b) According to the information and explanations given to us, no report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year and upto the date of this report.
 - (c) As represented to us by the management, there are no whistle blower complaints received by the company during the year and upto the date of this report.
- (xii) According to the information and explanations given to us, the Company is not a nidhi company. Accordingly, clause 3 (xii) of the Order is not applicable.
- (xiii) According to the information and explanation given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statement as required by the applicable accounting standards.
- (xiv)
 - (a) In our opinion and based on our examination, the company has an internal audit system commensurate with the size and nature of its business.
 - (b) We have considered the internal audit reports of the company till date, for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, the company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the company.

- (xvi) (a) In our opinion, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
 (b) According to the information and explanations provided to us during the course of audit, the group does not have any core investment company (CIC) (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the order is not applicable.
- (xvii) In our opinion and according to the information and explanations given to us that the company has not incurred any cash losses during the current financial year and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly reporting under clause 3(xviii) of the order is not applicable.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
- (xx) (a) As per the information and explanation given to us, there are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of section 135 of the said Act. Accordingly, reporting under clause 3(XX)(a) of the Order is not applicable for the year.
 (b) There are no ongoing projects with the Company. Accordingly, reporting under clause 3(XX)(b) of the Order is not applicable for the year.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF M. K. PROTEINS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **M. K. Proteins Limited**, (“the Company”) as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion considering nature of business, size of operation and organizational structure of the entity, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note forming part of the standalone financial statements for the year ended March 31st, 2025

[1] CORPORATE INFORMATION

M. K. Proteins Limited ('the Company') is a public limited company incorporated in India in 2012. Its registered office is situated at Village Garnala, Naraingarh Road, Tehsil and Distt. Ambala (Haryana) – 134003. The Company is engaged in the manufacturing of Vegetable Refined Oil and its by-products (i.e. Rice Bran Fatty, Wax, Gums and Spent Earth etc.). The manufacturing facility is also situated at Village Garnala, Naraingarh Road, Tehsil and Distt. Ambala (Haryana). The equity shares of the Company are listed on the Main Board of both the National Stock Exchange of India Limited (NSE) and the Bombay Stock Exchange of India Limited (BSE).

[2] BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Statement of Compliance

The Standalone Financial Statements ("Financial Statements") have been prepared in accordance with the Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 ("the Act"), read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended. The Financial Statements also comply with the presentation and disclosure requirements of Division II of Schedule III to the Act, other applicable provisions of the Act, and the guidelines issued by the Securities and Exchange Board of India (SEBI). The Company has consistently applied its accounting policies across all reporting periods.

Accordingly, the Company has prepared these standalone financial statements which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flow and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information.

The financial statements are approved for issue by the Company's Board of Directors at their meeting held on May 23, 2025

b) Basis of Preparation of Financial Statement

i) Basis of Preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS), using the historical cost convention on an accrual basis, except for certain financial assets and liabilities that are measured at fair value (refer to the accounting policy on financial instruments), and the employee defined benefit obligations, which are valued actuarially at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services at the time of their acquisition. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, the company uses observable market data as far as possible. Fair values are categorized into different levels in a Fair Value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

If the inputs used to measure the Fair Value of an asset or a liability fall into different levels of the Fair Value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the Fair Value hierarchy as the lowest level input that is significant to the entire measurement.

ii) **Functional and Presentation currency**

These financial statements are presented in Indian Rupees (INR) which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

iii) **Current and Non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- ☐ Expected to be realized or intended to be sold or consumed in normal operating cycle.
- ☐ Held primarily for the purpose of trading.
- ☐ Expected to be realized within twelve months after the reporting period, or
- ☐ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ☐ It is expected to be settled in normal operating cycle
- ☐ It is held primarily for the purpose of trading
- ☐ It is due to be settled within twelve months after the reporting period, or
- ☐ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/non-current classification of assets and liabilities.

c) **New and amended standards adopted by the Company**

The Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules, as issued from time to time. On August 12, 2024, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2024, applicable from same date. The key amendments are as follows:

i) **Ind AS 117 – Insurance Contracts**

A new standard, Ind AS 117 – *Insurance Contracts*, has been introduced to establish principles for the recognition, measurement, presentation, and disclosure of insurance contracts falling within its scope. The objective of Ind AS 117 is to ensure that entities provide relevant and reliable information that faithfully represents those contracts.

ii) **Accounting for sale and leaseback transaction the books of seller–lessee–Amendments to Ind AS 116**

Guidance has been inserted regarding the accounting treatment of sale and leaseback transactions. Post lease commencement, the seller-lessee must apply Ind AS 116 for accounting the right-of-use asset and lease liability arising from the leaseback. The seller-lessee is required to calculate ‘lease payments’ or ‘revised lease payments’ in a manner that avoids the recognition of any gain or loss related to the retained right-of-use. However, this does not preclude recognition of gains or losses resulting from the partial or full termination of a lease.

These amendments did not have any material impact on the Company's financial statements. Where applicable, the impact of such amendments has been duly considered in the relevant reporting periods.

d) Use of Estimates and Judgement

The preparation of financial statements in accordance with the recognition and measurement principles of Ind AS requires management of the Company to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amount of income and expenses during the period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognized in the period in which the estimates are known or materialised.

The significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements is included in the following notes:

i) Useful lives of property, plant and equipment:

The Company is calculated depreciation on property, plant and equipments on a straight –line basis. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of property, plant and equipment as prescribed under Schedule II of the Companies Act, 2013. The lives are based of historical experience with similar assets as well as anticipation of future events, which may impact their live, such as change in technology. This reassessment may result in change in depreciation expenses in future periods.

ii) Recognition of deferred tax assets and liabilities:

Deferred tax assets and liabilities are recognised for deductible temporary differences. The Company uses judgement to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits and business development.

iii) Defined Benefit plans obligation:

The liabilities and costs for defined benefit gratuity plans and other post-employment benefits are determined using actuarial valuations. The actuarial valuation involves making assumptions relating to discount rates, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

iv) Provision for expected credit loss of trade receivables and contract assets:

The measurements of expected credit losses on financial assets are based on an assessment of collectability and involve significant management judgment, taking into account both internal and external sources of information. A substantial degree of judgment is required in evaluating the ultimate recoverability of loans and receivables, considering the past collection history of each counterparty, ongoing business relationships, and an assessment of their ability to meet repayment obligations on the designated due dates.

v) Inventories:

Inventories are stated at the lower of cost and net realizable value. In estimating the net realizable value of inventories, the Company makes an estimate of future selling prices and costs necessary to make the sale.

vi) **Provisions and contingent liabilities:**

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

vii) **Leases:**

Ind AS 116 *Leases* requires a lessee to determine the lease term as the non-cancellable period of the lease, adjusted for any extension or termination options, if the use of such options is reasonably certain. The Company assesses the expected lease term on a lease-by-lease basis and evaluates whether it is reasonably certain that any extension or termination options will be exercised. In making this assessment, the Company considers various factors, including significant leasehold improvements made during the lease term, costs associated with lease termination, and the strategic importance of the underlying asset—particularly in terms of its location and the availability of suitable alternatives. To ensure that the lease term remains reflective of current economic conditions, the Company reassesses lease terms periodically.

As the interest rate implicit in the lease cannot be readily determined, the Company uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR represents the rate of interest the Company would have to pay to borrow funds over a similar term, with similar security, to obtain an asset of comparable value to the right-of-use asset in a similar economic environment. This rate is estimated using observable inputs, such as prevailing market interest rates, when available.

II **SINGNIFICANT ACCOUNTING POLICES**

a) **Property, Plant and Equipment:**

Property, plant and equipment (other than freehold land) are stated at cost, less accumulated depreciation and accumulated impairment loss, if any. The cost of an item of Property, Plant and Equipment comprises:

- a) its purchase price, including import duties and non-refundable taxes (i.e. Excise Duty/Value added taxes/Goods and Service Tax, if any), after deducting trade discounts and rebates
- b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.
- c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.
- d) any subsequent expenditure for replacement/repair and maintenance is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company. Otherwise the same are recognised as expenditure in the statement of profit and loss when they are incurred.

Expenses directly related to the construction or acquisition of the fixed assets have been capitalized and added to the particular assets. Pre-operative expenses incurred till the date of capitalization have been apportioned on pro-rata basis. Items of fixed assets that are not yet ready for their intended use as at the balance sheet date and other pre-operative expenses to the extent not apportioned are shown under the head “Capital work in progress”.

If significant parts of an item of Property, Plant and Equipment have different useful lives, then they are accounted for as separate items (major components) of Property, Plant and Equipment and depreciated accordingly.

Any Gains or losses arising from de-recognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset on the date of disposal and are recognised in the statement of profit and loss when the asset is derecognised.

Depreciation/Amortization:

In respect of fixed assets (other than freehold land and capital work-in-progress) is calculated on straight-line basis ('SLM') based on useful lives and residual values estimated by the management in accordance with Schedule II of the Companies Act, 2013. Depreciation in respect of addition/deduction to fixed assets during the year has been charged on pro-rata basis.

Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use.

The estimated residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed and adjusted, if appropriate, at the end of each reporting period for on a prospective basis.

b) **Leases**

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

i) **Company as lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases. The Company recognises lease liabilities to make lease payments and Right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises Right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of Right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the period of the lease term. The Right-of-use assets are also subject to impairment.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. The Company's lease liabilities are presented within the Balance Sheet under Financial Liabilities (Refer Note 35).

Short-term leases

The Company applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognized as expenses.

ii) Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

c) Inventories

Inventories are measured at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including freight and other levies, transit insurance and receiving charges. The cost of inventories is determined using the First-in-First out basis. Work-in-progress and finished goods include appropriate proportion of overheads based on the normal operating capacity, wherever applicable. Cost of finished goods further includes other costs incurred in bringing the inventories to their present location and condition. Cost of stock-in-trade includes cost of purchases and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price for inventories in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be used are expected to be sold at or above cost.

d) Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the Statement of Cash Flows, Cash and Cash Equivalents includes balance with banks and demand deposits with banks with original maturities of three months or less and other short term highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

e) Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than Financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

i) **Financial assets**

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as 'Financial assets measured at amortized cost'. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Subsequent measurement

After initial recognition, financial assets are measured at fair value (either through other comprehensive income or through Profit and Loss), or amortized cost.

Debt Instruments

Debt instruments are subsequently measured at amortized cost, fair value through other comprehensive income ('FVTOCI') or fair value through Profit and Loss ('FVTPL') till de-recognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

There are three measurement categories into which the Company classifies its debt instruments.

a) Debt instruments at amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest [SPPI] are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognised in the Statement of Profit and Loss when the asset is de-recognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

b) Debt instruments at Fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss. When the financial asset is de-recognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the Statement of Profit and Loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

c) Debt instruments at Fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortized cost or FVTOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in the Statement of Profit and Loss in the period in which it arises. Interest income from these financial assets is recognised in the Statement of Profit and Loss.

Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL.

For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL.

The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in Other Comprehensive Income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Investment in equity shares, compulsorily convertible debentures and compulsory convertible preference shares of subsidiaries, associates and jointly controlled entities have been measured at cost less impairment allowance, if any.

De-recognition of financial assets

A financial asset is derecognized only when:

- ☐ the Company has transferred the rights to receive cash flows from the financial asset or
- ☐ retains the contractual rights to receive the cash flows from the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

Impairment of financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- ☐ Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, deposits, and bank balance.
- ☐ Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Income recognition (Interest income)

Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

ii) **Financial liabilities**

Initial recognition and measurement

Financial liabilities are initially measured at its fair value plus or minus, in the case of a financial liability not at FVTPL, transaction costs that are directly attributable to the issue/origination of the financial liability.

Subsequent measurement

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held- for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in Statement of Profit and Loss. Any gain or loss on de-recognition is also recognized in the Statement of Profit and Loss.

De-recognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are off-set and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts to hedge its foreign currency risks, interest rate risks and commodity price risks respectively. Such derivative financial instruments are initially recognised at Fair Value on the date on which a derivative contract is entered into and are subsequently re-measured at Fair Value. Derivatives are carried as financial assets when the Fair Value is positive and as financial liabilities when the Fair Value is negative.

f) Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in the Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

g) Borrowings Cost

Borrowing costs, general or specific, that are directly attributable to the acquisition or construction of qualifying assets is capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

The Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that a company borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalization are determined by applying a capitalization rate to the expenditures on that asset.

Borrowing cost includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

h) **Revenue Recognition**

i) **Revenue from contracts with customers**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory risks.

Goods and Services Tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

ii) **Sale of Goods**

Revenue from sale of products is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the products. Invoices are payable within contractually agreed credit period.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of products, the Company considers the effects of variable consideration (if any).

Revenue from sale of products is stated exclusive of Goods and Services Tax (GST). Revenues are net of sales returns, discounts, provision for anticipated returns on expiry, made on the basis of management expectations.

iii) **Refund Liabilities**

A refund liability is recognised for the obligation to refund some or all of the consideration received (or receivable) from the customer. The Company's refund liabilities arise from customers' right of return and volume rebates. The Company updates its estimates of refund liabilities at the end of each reporting period.

iv) **Rendering of Services**

Service income is recognised as per the terms of the contracts/arrangements when related services are performed and is stated net of GST.

v) **Dividend and Interest Income**

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably). Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

vi) **Contract Balances**

Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflects Company's unconditional right to consideration (that is, payment is due only on the passage of time). Trade receivables are recognised initially at transaction price. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost net of any expected credit losses. Loss allowance on trade receivables is measured at an amount equal to life time expected losses.

Contract Liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

i) **Employees Benefits**

Employee benefits include salaries, wages, contribution to provident fund, employee state insurance fund & Labour welfare fund, leave encashment towards un-availed leave, gratuity, compensated absences and other terminal benefits.

i) **Defined Contribution Scheme**

Retirement benefits such as provident fund, employee state insurance, and labour welfare fund are classified as defined contribution schemes. The Company's obligation under these schemes is limited to the amount of contributions payable, which is recognized as an expense when the employee renders the related service.

If the contribution payable for services rendered before the balance sheet date exceeds the amount already paid, the shortfall is recognized as a liability after deducting the contributions already paid. Conversely, if the contributions already paid exceed the amount due for services received before the balance sheet date, the excess is recognized as an asset, to the extent that the prepayment will result in a reduction of future payments or a refund of cash

ii) **Defined benefit plans**

Defined benefit plans comprising of gratuity and other terminal benefits, are recognized based on the present value of defined benefit obligations which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

iii) **Short term employee benefits**

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

iv) **Terminal benefits**

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary retirement scheme in exchange for these benefits. Expenditure on Voluntary Retirement Scheme (VRS) is charged to the Statement of Profit and Loss when incurred.

j) **Income Tax**

Income tax expense comprises current and deferred tax. Tax is recognised in statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or in equity. In such cases, the tax is also recognised in the other comprehensive income or in equity. The provision for current tax is made at the rate of tax as applicable for the income of the previous year as defined under the Income tax Act, 1961.

i) **Current Tax**

The current income tax charge is calculated based on the Indian Tax Laws enacted or substantively enacted at the end of the reporting period. The provision for current tax is made at the rate of tax as applicable for the income of the previous year as defined under the Income tax Act, 1961. Current tax assets and current tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

ii) **Deferred Tax**

Deferred tax is recognised using the liability method, on temporary differences at the reporting date arising between the tax bases of assets and liabilities and their carrying amounts for the financial reporting purpose at the reporting date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forward and unused tax credits could be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered. Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

k) **Government Grants and Subsidies**

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the years in which the Company recognises as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

Government grants, whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets and non-monetary grants are recognised and disclosed as 'deferred income' under non-current liability in the Balance Sheet and transferred to the Statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

l) **Trade and Other Payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid at the period end. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their Fair Value and subsequently measured at amortised cost using the effective interest method.

m) **Provisions and contingent liabilities**

i) **Provisions**

Provisions are recognized when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

ii) **Contingent liabilities**

Contingent liabilities are disclosed in the Notes to the standalone financial statements. They are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation, or a reliable estimate of the amount cannot be made.

iii) **Contingent assets**

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its standalone financial statements since this may result in the recognition of income that may never be realized. Where an inflow of economic benefits is probable, the Company discloses a brief description of the nature of contingent assets at the end of the reporting period. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and the Company recognizes such assets.

Provision, contingent liabilities and contingent assets are reviewed at the each Balance Sheet date.

n) **Earning per shares**

Basic earnings per share is calculated by dividing the net profit after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares and sub-division of share, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

o) **Foreign currency translation**

i) **Functional and presentation currency**

Items included in the standalone financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The standalone financial statements are presented in Indian Rupees (INR), which is Company's functional and presentation currency.

ii) **Transaction and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions, as well as from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates, are generally recognized in the Statement of Profit and Loss. Non-monetary items that are measured at historical cost in foreign currency are not retranslated. All non-monetary items denominated in foreign currency are carried at historical cost or a similar valuation and are reported using the exchange rate that existed when the values were determined.

p) **Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating decision-maker. The Chief Operating decision-maker is responsible for allocating resources and assessing performance of the operating segments and makes strategic decisions. Refer Note 34 for segment information presented.

q) **Exceptional items**

When items of income or expense are of such nature, size and incidence that their disclosure is necessary to explain the performance of the Company for the year, the company makes a disclosure of the nature and amount of such items separately under the head "exceptional items."

r) **Statement of Cash Flow**

Cash flows are reported using the Indirect Method, as set out in Ind AS 7 'Statement of Cash Flow', whereby profit for the year is adjusted for the effects of transaction of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

[33] **EMPLOYEE DEFINED BENEFIT AND CONTRIBUTION PLANS**

a) **Defined Benefit Plans**

Gratuity: In accordance with applicable laws, the Company provides for gratuity through a defined benefit retirement plan ("the Gratuity Plan") for eligible employees. The Gratuity Plan entitles vested employees to a lump sum payment upon retirement, death, incapacitation, or termination of employment, provided they have completed five or more years of continuous service. The benefit payable is determined based on the employee's last drawn salary and length of service.

The present value of the defined benefit obligation and the related current service cost are determined using the projected unit credit method, with actuarial valuations carried out at each reporting date. As of the reporting date, the Company's Gratuity Plan is unfunded and not backed by any plan assets. The disclosures pertaining to the defined benefit Gratuity Plan are set out below:

i) **Net employees benefit expenses recognised in statement of profit and loss and in other comprehensive income:**

b) **Defined Contribution Scheme:**

All eligible employees of the Company are entitled to benefits under the Provident Fund, Employees' State Insurance Fund and Labour Welfare Fund, which are defined contribution plans. Under these plans, both the employee and the employer make monthly contributions at specified rates. The Company's obligation is limited to the amount of contributions required under applicable laws; it has no further payment obligations once the contributions are made. Contributions to these funds are recognized as an expense in the period in which the employee renders the related service. The Company makes contributions to the following defined contribution schemes:

PARTICULARS	Year ended 31 March 2025 (Rs)	Year ended 31 March 2024 (Rs)
Employers' contribution towards Provident/Family Pension Fund, Administrative Charges and Insurance Fund	1086010.00	950166.00

Labour Welfare Fund	217428.00	0.00
Total	1522660.00	1140653.00

c) **Compensated Absences (Leave with Wages):** In respect of accumulating compensated absences, the Company does not have an unconditional right to defer settlement beyond twelve months after the end of the reporting period in which the related services are rendered by employees. Accordingly, the entire liability for earned leave is classified as a current liability in the balance sheet and related expense is recognized in the Statement of Profit and Loss. During the year, the Company recognized Rs.396939.00 (Previous year: Rs.368366.00) as an expense towards earned leave with wages.

[34] SEGMENT REPORTING**a) Details of principal activities and reportable segment**

The Company has identified its operating segments in accordance with Indian Accounting Standard (Ind AS) 108 – Operating Segments. The reporting of these segments aligns with the internal information provided to the Chief Operating Decision Maker (“CODM”), who is responsible for the allocation of resources and assessment of segment performance. The Managing Director of the Company has been designated as the CODM. Operating segments are defined as components of the Group whose operating results are regularly reviewed by the CODM for the purpose of making strategic decisions regarding resource allocation and performance evaluation, and for which discrete financial information is available. In line with the Company’s vertically integrated business model, all operations related to Vegetable Refined Oil and its by-products—including Rice Bran Refined Oil, Rice Fatty Acid, Rice Wax Oil, Gum/Spent Earth, and other incidental trading activities within India—are considered part of a single business segment. Consequently, the Company does not have any separately reportable segments under Ind AS 108.

b) Geographical segment

Company’s performance is predominantly driven by domestic operations, and hence, no separate geographical segment has been identified. Accordingly, no additional segmental disclosures are presented in the financial statements.

c) Information about major customers

No single customer accounted for more than 10% of the company's total revenue during the year under review.

[35] LEASES**i) Amounts recognised in balance sheet**

III) **Fair Value of financial assets and liabilities measured at amortised cost.**

The fair values of trade receivables, cash and cash equivalents, trade payables, borrowings, lease liabilities, and other financial assets and liabilities approximate their respective carrying amounts, primarily due to the short-term maturities of these instruments.

For all other non-current financial assets and liabilities measured at amortized cost, fair values are determined by discounting future cash flows using current market rates applicable to instruments with similar terms and credit risk profiles. The current discount rates used do not represent significant deviations from those applied at initial recognition. Accordingly, the carrying values of these financial instruments continue to approximate their fair values.

IV) The following is the basis of categorizing the financial instruments measured at fair value into Level 1 to Level 3:

The Company categorizes financial instruments measured at fair value into a three-level hierarchy based on the observability of the inputs used in the valuation process. Fair values are determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date, under current market conditions, irrespective of whether the price is directly observable or estimated using other valuation techniques.

The Company has established the following fair value hierarchy that categorizes the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy includes financial assets and liabilities that are measured by using quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: This hierarchy includes financial assets and liabilities that are not traded in an active is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates.

Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument not are they based on available market data.

[39] FINANCIAL RISK MANAGEMENT

The company's activity exposes itself to variety of financial risk which includes market risk, credit risk, liquidity risk and interest rate risk. The Company has various financial assets such as deposits, trade receivables and cash and cash equivalent directly related to its business operations. The principal financial liabilities of the company consist of borrowings and trade payables. The senior management of the company focuses on anticipating unpredictability and minimizing potential adverse effects on the company's financial performance. The Company's overall risk management procedures to mitigate the potential adverse effects of financial market on the Company's performance are as follows:

a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as commodity risk. The Company's exposure to market risk is primarily on account of interest risk, foreign currency risk and Commodity price risk.

i) Interest rate risk management:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to such risk

primarily through its interest-bearing liabilities. Interest rate risk is actively monitored and managed by tracking market rate movements and evaluating the impact on existing exposures. As of the reporting date, all of the Company's borrowings are at fixed interest rates, except for one working capital demand loan which carries a floating interest rate. The Company does not have any interest-bearing assets with floating rates.

Interest rate sensitivity analysis

The sensitivity analysis below has been prepared based on the exposure to interest rate risk arising from floating rate liabilities as of the end of the reporting period. The analysis assumes that the amount of the floating rate liability outstanding at the reporting date was in place for the full year. A 50 basis point increase or decrease in interest rates is used, reflecting management's assessment of a reasonably possible shift in market interest rates.

If interest rates had been 50 basis points higher or lower, with all other variables held constant, the Company's profit for the year ended March 31, 2025 would have decreased or increased by Rs.1826920.00 (for the year ended March 31, 2024: Rs.954530.00). This sensitivity is primarily attributable to the Company's exposure to changes in interest rates on its variable rate borrowings.

ii) Foreign currency exchange rate risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument or transaction may fluctuate due to changes in foreign exchange rates. The Company's exposure to such risk arises primarily from its operating activities involving transactions denominated in foreign currencies.

During the year ended March 31, 2025, the Company's exposure to foreign currency risk was limited solely to the import of materials from overseas suppliers. The total value of such imports was Rs. Nil, compared to Rs.67652436.78 for the year ended March 31, 2024, representing approximately 0% and 3% of total purchases for the respective periods. There were no outstanding foreign currency payables as at the end of the reporting period.

Given the negligible volume of foreign currency-denominated transactions, the Company typically meets its foreign exchange requirements by procuring currency from the open market at the time of settlement of import liabilities. The Company monitors its exposure to foreign currency risk on an as-needed basis, but does not engage in derivative contracts or hedging instruments to mitigate this risk, due to the minimal nature of its exposure.

iii) Commodity Price Risk

The Company is exposed to the risk of changes in commodity prices, particularly related to its purchase of raw materials, especially crude edible oil and chemicals.

The Company develops periodic financial forecasts based on commodity price forecasts by its procurement group and appropriate actions including changes in selling price and cost saving measures are considered as part of the financial modeling to mitigate the impact of commodity price changes.

A 1% increase in commodity prices would have led to approximately Rs.27197162.00 additional loss in the Statement of Profit and Loss (2023-24: Rs.22456274.00 loss). Conversely, a 1% decrease in commodity prices would have had an equal but opposite effect.

b) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty fails to meet its contractual obligations. The Company is exposed to credit risk from its operating activities (particularly trade receivables). To manage this risk, the Company consistently monitors the financial health of its customers, ensuring that sales proceeds are realized according to milestone payment terms to minimize losses from defaults or customer insolvency. Progressive liquidity management practices are employed to mitigate the risk of non-fulfillment of liabilities to various creditors, statutory obligations and stakeholders. The Carrying amount of financial assets represents the maximum credit risk exposure. There is no significant concentration.

i) Trade Receivables

Credit risk is the risk of financial loss to the Company in the event of a trade partner's failure to meet its contractual obligations. The Company is primarily exposed to credit risk arising from its trade receivables. This risk is managed in accordance with established policies, procedures, and controls that govern the assessment and monitoring of trade partner creditworthiness. To measure impairment losses, the Company applies the simplified approach permitted by Ind AS 109, using a provision matrix to recognize lifetime expected credit losses (ECL) on its portfolio of trade receivables. The provision matrix is developed based on historically observed default rates over the expected life of the receivables, and it is further adjusted to reflect current and forward-looking macroeconomic conditions. The Company consistently measures the loss allowance for trade receivables at an amount equal to lifetime ECL. This approach uses practical expedients under the simplified model and incorporates the ageing profile of receivables. Based on an internal assessment—considering historical trends and presently available data on defaults and delays—the credit risk on trade receivables is assessed to be low.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security.

The movement in allowance for doubtful debts as per expected credit loss (ECL) model is as under

PARTICULARS	As at 31 March 2025 (Rs.)	As at 31 March 2024 (Rs.)
Balance as at the beginning of the year	179571.00	3511705.00
Allowance for doubtful debts (Expected Credit Loss allowance) during the year	(179571.00)	(3332134.00)
Balance as at the end of the year	0.00	179571.00

The management believes that no further provision is necessary in respect of trade receivables based on historical trends of these customers. Further, the Company's exposure to customers is diversified and no single customer has significant contribution to trade receivables balances.

- ii) The Company maintains its cash and cash equivalents and term deposits (if any) with reputed banks. The credit risk on these instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.
- iii) Financial assets other than trade receivables and cash and cash equivalents are not exposed to any material credit risk.

c) Liquidity Risk

Liquidity risk refers to the risk that the Company may not be able to meet its financial obligations as they fall due, whether under normal conditions or during periods of stress, without incurring unacceptable losses or adversely affecting its financial position and reputation.

The Company's liquidity management approach is focused on ensuring that it has adequate liquidity to meet its liabilities as they become due. This includes maintaining access to sufficient funding sources and aligning the maturity profiles of financial assets and liabilities.

The ultimate responsibility for managing liquidity risk lies with the Board of Directors, which has established a robust framework to oversee the Company's short-term, medium-term, and long-term funding and liquidity needs. The Company actively manages its liquidity risk by maintaining adequate internal accruals, equity infusion when necessary, and by strategically matching the maturities of its financial assets and liabilities.

The table below has been drawn up based on the undiscounted contractual maturities of the financial liabilities including interest that will be paid on those liabilities upto the maturity of the instruments.

The details of the contractual maturities of significant liabilities as at March 31, 2025 are as follows:

[40] CAPITAL MANAGEMENT

For the purpose of capital management, the Company defines capital as the aggregate of issued equity share capital and other equity reserves attributable to its equity shareholders. The primary objective of capital management is to ensure the Company's continued operation as a going concern while maximizing shareholder value.

The Company actively manages its capital structure by adapting to changes in economic conditions, annual operating plans, and long-term strategic investment goals. To achieve an optimal capital structure, it may adjust dividend payouts, return capital to shareholders, or issue new equity. The current capital structure primarily consists of equity, supplemented by borrowings. The Company is not subject to any externally imposed capital requirements.

The Company monitors the capital structure on the basis of total debt to equity and maturity profile of the overall debt portfolio of the Company. The Debt to equity ratio as at the end of the year is given below:

PARTICULARS	As at 31 March 2025 (Rs.)	As at 31 March 2024 (Rs.)
Total Debts	377515802.60	190906104.22
Total Equity	694657516.13	610755578.36
Debt Equity Ratio (Gearing Ratio)	0.54	0.31

Note: For the purpose of computing debt to equity ratio, equity includes Equity share capital and Other Equity and Debt includes Non-current borrowings and Current borrowings.

[41] KEY FINANCIAL RATIOS:
