#### MANAGEMENT DISCUSSION AND ANALYSIS

#### Industry Structure and Developments

A robust banking and financial sector is critical for activating the economy and facilitating higher economic growth. Financial intermediaries like NBFIs have a definite and very important role in the financial sector, particularly in a developing economy like India. They are a vital link in the system. The role of NBFIs in both manufacturing and services sector is significant and they play the role of an intermediary by facilitating the flow of credit to the end consumers particularly in transportation, SMEs and other unorganized sectors. The major intermediaries that are included in the NBFI group are Development Finance Institutions (DFIs), Insurance Companies, Non-banking Financial Companies (NBFCs), Primary Dealers (PDs) and Capital Market Intermediaries such as mutual funds. The NBFCs as a whole account for 11.2 per cent of assets of the total financial system.

The Banking sector has always been highly regulated, however simplified sanction procedures, flexibility and timeliness in meeting the credit needs and low cost operations resulted in the NBFCs getting an edge over banks in providing funding. NBFCs have been pioneering at Retail Asset Backed Lending, Lending against Securities, Lending against Gold, Consumer Product Loans, Transport/Vehicle Loans, Microfinance, etc and have been extending credit to retail customers in under-served areas and to unbanked customers.

Keeping in view the vital role played by NBFI sector, the Reserve Bank of India has prescribed new guidelines during the year to strengthen the sector like: (1) NBFCs-ND-SI's registered with RBI are eligible to participate in repo transactions in Corporate Debt Securities. (2) NBFCs may participate in the Currency Futures and Interest Rate Futures, only for the purpose of hedging their underlying exposures, subject to RBI guidelines in this regard. (3) Exclusion of Infrastructure Bonds under Section 80CCF of the Income Tax Act, 1961, within the meaning 'Public Deposit' under Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998. (5) RBI has notified a new category of NBFC to be categorized as Core Investment Company, holding minimum 90% of its Total Equity/ Preference Shares/Debt or loans in Group Companies etc. and not requiring registration with RBI.

NBFCs follow stringent prudential norms prescribed by RBI in the matters of capital adequacy, credit/investment norms, asset-liability management, income recognition, accounting standards, asset classification, provisioning for NPA and several disclosure requirements. During last year RBI has further tightened the controls by (1) Prescribing new stringent Know Your Customer (KYC) norms/Anti Money Laundering (ALS) standards (2) Making compulsory the submission of Statements of Interest Rate Sensitivity in prescribed formats i.e. ALM Returns (I, II and III) (3) NBFCs desirous of making any overseas investment must obtain 'No Objection Certificate' (NOC) from Reserve Bank of India. (4) Restriction is imposed on NBFCs, not to be Partners in Partnership firms etc. etc.

Your Company is categorized as Systemically Important Non-deposit taking NBFC (NBFC-ND-SI) and mainly doing investment activities with long term perspective as well as doing trading business and lending activities to avail the benefits of short term investment/financial opportunities in the present market conditions.

#### **Opportunities and Threats**

Robust economic growth and steady fiscal consolidation have been the hallmarks of the Indian economy. In this year Inflation continue to be high 9.22% (Provisional) for the month of July, 2011 (over July, 2010) as compared to 9.44% (Provisional) for the previous month even though it has come down markedly from where it was at the start of the fiscal year (i.e. at 15-16%).

The growth rate in India remains robust. Gross Domestic Product (GDP) grew by 8.5% in FY 2011 against 8.00% in FY 2010 and 6.8% in FY2009, and is expected to be around 8.00 per cent in the next fiscal year. However food inflation, higher commodity prices and volatility in global commodity markets have been a cause of concern underscoring the need of fiscal consolidation and stronger reserves.

This higher economic growth and expanded liberalization has given tremendous opportunities to the financial sector.

Indian economy finds its major strength to the Domestic Consumption Theory as growth in new sectors like agriculture, education and communication, has resulted in higher demand for Consumer Goods, Textiles and Phone/Mobile product and services. Also, it has resulted in growing number of investors for the financial products, thus giving new opportunities to the financial sector.

### NAHAR CAPITAL AND FINANCIAL SERVICES LIMITED

Annual Report 2010-2011

Bailout packages were being agreed/negotiated between the European Union (EU) lead by Germany and France and the International Monetary Fund (IMF) but final outcome is uncertain. Also, due to increasing economic and political disturbances in India and overseas specially in developed Europe and USA, your Company foresee extraordinary volatility in financial markets and hence reallocating its funds to safe fixed income instruments, commodities and Real Estate sector. Also, Company will resort to higher trading activities directly as well as through reputed investment bankers.

Your Company has also applied for registration as Deposit Taking NBFC to Reserve Bank of India in 2010, which is pending as on date. After registering as Deposit Taking NBFC, Company will have access to more funds through public deposits, which in turn will be beneficial for the overall growth of the Company.

#### **Risk and concerns**

The inflation is the biggest concern for Indian economy, the most widely tracked inflation - WPI (Wholesale price Index), has been estimated at 9.44% YOY in June 2011 and 9.22% in July 2011. Second risk stem from high crude oil price, the Brent crude oil price is hovering about \$118.7, which is 20.49% increase from January spot price. The increased crude price will impact most of the input price for finished goods. The market also does not like high interest environment. At present Indian market is heavily dependent upon FDI and current
