ANNEXURE III MANAGEMENT DISCUSSION AND ANALYSIS

The Industry structure and developments

The Non Banking Financial Companies (NBFCs) continue to play a critical role to make financial services available to a wider set of India's population. After the challenging period it faced in 2007-2009, NBFC sector has regained its strength, which is reflected in growing share of retail NBFCs in the financial market, improving profitability, healthy asset quality, diversified resources profile and adequate capitalization. The NBFCs especially those that have acquired scale for these business, have, therefore, become structurally more resilient. NBFCs are performing financial intermediation in a variety of ways like accepting deposits, making loans and advances, providing financial advisory, wealth management, leasing, hire purchase etc. With the growing importance assigned to financial inclusion, NBFCs are being regarded as important financial intermediaries particularly for small-scale and retail sectors.

Over the years, the Non- Banking Financial Companies (NBFCs) of India have been instrumental in driving the country's inclusive growth. In the rural and semi-urban India, the sector plays a critical role in financing long term infrastructure, construction equipment, leasing and real estate. At present, more than 80 per cent of equipment leasing and hire purchase financing in India are financed by NBFCs. (Source Indian Brand Equity Foundation).

The Reserve Bank of India has further tightened the regulation to improve the transparency of NBFCs sector like introduction of interest rate restrictions on Non-Banking Financial Company- Micro Finance Institution (NBFC-MFI), and allowing the NBFCs to sponsor Infrastructure Debt Funds as Mutual Funds and also tightened the stringent norms to be followed by NBFCs regarding Capital Adequacy, submission of specified returns, Know Your Customer (KYC) guidelines/Anti Money Laundering Standards etc. and implemented the "Green Initiative" of the Government to help better utilization of resources and better delivery of services. Also, RBI amended Fair Practice Code in February 2013 to include stringent guidelines for Lending against Gold.

Your Company is categorized as Systemically Important Non-deposit taking NBFCs (NBFCs-ND-SI) and was set up for doing investment activities with long term perspective as well as doing trading business. However afterwards financial scenario has changed a lot, inflation remained higher, FII inflows have reversed, Balance of Payment position worsened etc. and hence the Board decided to diversify its investments in lending activities,

safer investment structures, Real Estate Activities etc. to grasp financial opportunities in the present market conditions.

Opportunities and Threats

The Inflation situation in the economy continues to be a main cause of concern. After remaining above 7% during March 2012, YOY Wholesale Price Index (WPI) inflation rate moderated to more than a three-year low in March 2013. It came in at 6.0% as compared to 6.8% in the previous month. However recent economic developments like Rupee depreciation, increasing interest rates, higher fuel costs etc. indicate higher inflation rate in immediate future. Increasing Current Account Deficit (CAD), Sinking Foreign Exchange Reserves, Lower IIP data, Sticky Inflation, depreciating currency, slow political policy actions and rising interest rates have been the main features of the Indian economy during last year.. Contrary to the optimism that reigned at the beginning of the year, GDP growth was down to mere 5.10% as compared to 6.5% in the year 2011-12. With the economy slowing down, Corporate Profitability under strain, stock markets remain weak, inflows of foreign investments muted, etc we may see the economy going into recession, unless corrective policy decisions are taken by the government.

Your Company is trying to utilize every opportunity available and during the year Company has reallocated more funds for investing in fixed maturity instruments, Gold and for lending Business. Similarly having regard to good business opportunities in Real Estate your Company has also started allocating more funds for Real Estate business.

Further, we would also like to share with you that the financial business is always prone to risks of capital market fluctuations, global developments, economic risk, competition risk, interest rate volatility and economic cycle which can affect the fortunes of investment and finance companies in both ways. Your Company manages these risks by maintaining a conservative financial profile, diversifying the investment portfolio and by following prudent business and risk management practices.

Though a bundle of opportunities are there in the financial sector it is not immune from the global and political developments and normal business threats and challenges. Your Company is keeping close watch on these developments and is adjusting/diversifying its Investment Portfolio between Debt, Equity, and Commodities etc. after due diligence and considering the present economic and political scenarios.

Further, the Company has also constituted the Risk Management Committee comprising of three non-executive directors to monitor and manage the risk associated with the investment business of the Company and to review the risk management policy of the Company. The Risk Management Committee met four times during the financial year under review.

Future Outlook

Company is mainly engaged in Investment, Lending, Real Estate activities and Financial Management. The Company intends to continue focusing on NBFC activities including financing, Inter-corporate Investments & Capital Market activities. Company will strive to do financial services business, focused on delivering consistent and superior returns to the company's shareholders and at the same time maintaining the high levels of integrity.

The scenario of weaker growth and elevated headline inflation poses major challenges to the Reserve Bank of India (RBI) as it considers monetary policy. It has already reduced reserve requirements several times since 2012 to ease liquidity, and lowered policy rates by 75 basis points since December 2012, with the latest 25-basis point cut in March. However, during the latest policy meeting, the RBI's governor warned that the bank has "limited space", particularly concerned about India's dangerously high current-account deficit, and not just high inflation. Also, extraordinary FII outflows in current months have resulted in extraordinary depreciation of Indian Rupee and increased interest rates.

We believe that the economy will remain volatile and uncertain, the recovery will remain shallow and protracted. We expect no quick turnaround in the industrial and investment cycle and economic growth will remain tepid in the near term. With recent reforms restoring investor confidence and attracting capital inflows, we expect a slightly improving economic outlook, but the risks are firmly on a downside.

Similarly, your company foresees good business opportunities in Real Estate in the near future. As property prices has gone downward and equity market and debt markets have shown little sign of recovery, coupled with continuing worsening and volatile economy, slow policy decision making, extraordinary depreciation of Indian currency etc. your Company is expecting higher growth in property prices and hence started allocating more funds for Real Estate business.

A slight recovery is seen in the markets of Asia, U.S.A and Europe, the strategy of the Company will be focused more on fixed maturity debt funds and also by diversifying its investments into commodities etc., expanding its business into new areas of financial activities and making its best efforts to utilize the available opportunities with caution and emerge as fully

Integrated Financial Company. Company is pursuing with RBI to register the Company as Deposit Taking NBFC to access more funds through public which in turn will be beneficial for the overall growth of the Company.

Internal Control Systems and Their Adequacy

The Company has adequate internal control systems and procedures which commensurate with the nature of its business and the size of its operations. The Asset Liability Management (ALM) Policy concerns with the effective risk management in various Portfolios are also framed by the Company. The internal control system are adequate to ensure that all assets and resources of the Company are safeguarded and protected against loss from unauthorized use or disposition and all transactions are authorized, recorded and reported correctly. The Company also ensures compliance with all statutes and regulatory policies and guidelines.

Further, the Company is also having Internal Audit Department which carries out audit work throughout the year. The main objective of such audit is to test the adequacy and effectiveness of internal control systems laid down by the Management and to suggest improvement in the systems.

Besides, an Audit Committee consisting of three non-executive directors has been constituted. All the significant audit observation and follow up action thereon are taken care of by the Audit Committee. The Audit Committee met four times during the financial year under review.

Financial/Operation Performance

The Company has performed well during the year under review. The Company achieved an income of Rs.2295.02 Lacs with a net profit before tax of Rs.2108.92 Lacs. The detailed performance has already been discussed in the Directors' Report under the column Financial Review.

Human Resources/Industrial Relations

The Company is of firm belief that the Human Resources are the driving force that propels a Company towards progress and success. The Company has a team of able and experienced professionals to look after the affairs of the Company. The total permanent employee's strength of the Company was 19 as on 31st March 2013.
