Message from the Chairman's Desk

Dear Shareholders,

The Financial Year ended March 31, 2018 has been a special year for your Company. In line with our ambition of being a one-stop shop catering to all the needs of the Indian Traveller, we have embarked on a strategy to use technology as an enabler to fulfil their aspirations and ambitions. We hope to make the experience content rich and seamless. This strategy will help us in meeting the clear opportunity of the strong expected growth in retail demand and the aspirations of younger, Gen Y customers, while addressing the expectations of our existing customer base.

Economic overview

India's economy grew at its fastest in seven quarters in the January-March 2018 period, pointing to a persistent revival trend. Gross domestic product rose 7.7% in the fourth quarter, retaining India's ranking as the world's fastest-growing major economy, outpacing China by nearly a percentage point. This despite the teething challenges of GST implementation.

The price per barrel of Brent Crude rose from USD 46.37 in June 2017 to USD 76.98 in May 2018. A combination of elevated crude oil prices and a weak Indian rupee, which was trading at a 5-year low in 2018, could adversely impact India's current account position, and inflation rates.

We are also witnessing growing tensions and trade wars in the global economy that could potentially impact the Indian economy as well, causing increased volatility in global markets in the near term.

Despite the initial teething problems relating to the GST rollout, we

remain bullish about the long-term positive impact that it will offer your Company and the organised travel sector at large.

Industry overview

These positive trends in the global and Indian economy also manifested in the Travel and Tourism Industry. Globally, for the 6th year in a row, the travel industry outpaced global economic growth in 2017.

According to a 2018 economic impact report by the World Travel & Tourism Council (WTTC), India is likely to become the third-largest tourism economy in the next 10 years.

The total contribution by the Travel and Tourism Industry to India's GDP is expected to increase from Rs. 1,524 Lakh Crore (USD 234.03 Bn) in 2017 to Rs. 3,205 Lakh Crore (USD 492.21 Bn) in 2028.

The Government's decision to allow 100% FDI in the sector under the automatic route, is expected to contribute to the sustained growth in tourism in the long-term as it will attract investment in the Hospitality

sector and related infrastructure areas like airports, roads etc.

Improved regional air connectivity has further spurred the growth momentum of the industry. Strategic tourism initiatives such as the Pilgrimage Rejuvenation and Spirituality Augmentation Drive (PRASAD) also create exciting opportunities on the Domestic tourism front.

This Government's contribution to the development of Tourism has been unparalleled in the history of Independent India. Its consistent moves to ease entry visa restrictions for many other nationalities resulted in similar easing of visa restrictions for Indian travellers by many other Governments across the world.

Company overview

The prevailing macro environment has opened up new vistas of growth for our Company, with our four distinct verticals namely: Travel Services, Travel Related Foreign Exchange, Destination Management Services (DMS) and Portfolio Investments such as Sterling Holiday Resorts Ltd. -

structured to maximise potential across these large and growing opportunities.

Highlights:

Acquisitions & Expansion

To further strengthen your Company's ability to scale growth in the dynamically evolving travel landscape, we embarked on a series of acquisitions during the year. These were the acquisitions of Kuoni's Global Destination Management network across 17 countries and Tata Capital's erstwhile Travel and Forex businesses in India, which were then rebranded as TC Travel & TC Forex respectively.

The acquisition of Kuoni's Global Destination Management network marked an important milestone in our journey, creating a now significant global footprint for our Group, across 24 countries & 4 continents. We now are a team of over 6,600 travel professionals from 59 nationalities, operating from offices across 24 countries, making your Company one of the largest travel service provider networks headquartered in the Asia-Pacific region.

In India, we are the leading Integrated Travel Services with a network of over 540 service locations across 104 locations in India and the largest player across Outbound, Inbound, Business Travel, MICE and Foreign Exchange Services.

Through our acquisition strategy we have diversified our business across multiple businesses, but also across multiple regions of the world. Your Company has become the only Multinational Travel company in India.

Your Company continues to be open to new investment opportunities in related and adjacent areas and will evaluate these as and when they arise.

Technology and Customer focus

With more than 65% of customers starting their travel researching online and expecting real/near real-time fulfilment, your Company is focussing on enhancing our digital capabilities in line with the expectations of younger, digital native customers. Our thrust on innovation & technology saw increased investments in both customer-facing and back-end technology to improve customer experience.

We launched a unique FIT technology platform called Voyager – to equip our sales team to build and book customised holidays that are bookable on the go. We expect this platform to reduce the turnaround time for an FIT enquiry to make it quick and seamless.

Our advanced web technology platform Astra was deployed across thomascook.in and sotc.in. Astra offers enhanced features and functionalities for both these integrated e-commerce portals, across our lines of business and is designed to work seamlessly across both mobile and desktop devices.

In line with our Customer First focus – your Company launched a unique self service module on the thomascook.in mobile app as well as a dedicated Customer service app - Engage - for SOTC. These apps will empower customers, enabling them to track their booking status, get updates, make changes in their bookings etc. in real time. Similar self service capabilities were launched for Business Travel clients as well as our Borderless Prepaid Card customers.

Your Company is also actively engaged in deploying technology enhancements using robotics, & machine learning to drive volumes and improve business efficiencies. Similar efforts are being invested in

The acquisition of Kuoni's Global Destination Management network marked an important milestone in our journey, creating a now significant global footprint for our Group, across 24 countries and 4 continents.

Our thrust on innovation and technology saw increased investments in both back-end and customer-facing technology to improve customer experience.

the areas of analytics and customer experience to improve marketing effectiveness and improved customer satisfaction

Initiatives to drive efficiency

The year under review also saw your Company undertake several initiatives to boost process efficiencies.

One such critical initiative was the Shared Services Centre – a unique initiative aimed at improving productivity and cost saving via a common resource pool to deliver standardised and automated processes for all our group companies, across key functions including Finance, IT, HR and Admin.

Two other initiatives that your Company undertook to make growth and profitability sustainable, were Zero-Based Budgeting (ZBB) for cost optimisation and Zero-Based Organisation (ZBO) for employee productivity optimisation. These have delivered significant learning and benefits for the enterprise.

Another initiative that your Company embarked on during the year was a Sales Analytics project that assists us in targeting customers more effectively and to improve our sales and marketing efficiency. I am pleased to report that we have already started seeing the benefits of this programme in our sales numbers.

Financial overview

All of the initiatives and measures described have enabled your Company to deliver strong financial performance for the year:

The Company declared a Profit Before Tax of Rs. 5.38 Bn at a standalone basis for FY 2017-18. This included a net gain of Rs. 5.35 Bn, largely arising out of the stake sale of 5.42% in Qess Corp. Ltd, which has been de-consolidated effective March 1, 2018.

What is notable, however, is that even excluding the One-time Offer for Sale (OFS) gain and on a comparable basis, the PBT of the Group, grew by 45% in FY 2017-18 over FY 2016-17.

The Board of the Company, had at its meeting held on 23 April, 2018 approved a corporate restructuring exercise aimed at simplifying the structure of the holdings, streamlining businesses and resources, ensuring focussed management, consolidating real estate and brands acquired through inorganic growth and eliminating cross holdings. Pursuant to the composite scheme, Thomas Cook (India) Limited shareholders will be the beneficiaries of Qess Shares. This exercise is expected to conclude by March 2019 subject to regulatory approvals.

Responsible growth

Your Company was instrumental in setting up the Fairfax India Charitable Foundation (FICF) and has embarked on a Dialysis Initiative aimed at enhancing sustainable, affordable dialysis access in remote areas of the country. FICF is now proud to be associated with the Pradhan Mantri National Dialysis Program (PMNDP) reaching under a Public Private Partnership (PPP) scheme.

Under PMNDP, FICF has as of March 31st, 2018, donated 90 dialysis machines across Nagaland, Arunachal Pradesh, Odisha, Jammu & Kashmir & Chhattisgarh. I am also glad to report that cumulatively, as of end July 2018, FICF has installed 172 dialysis machines across 15 states, enabled over 25,000 dialysis sessions.

Going forward, FICF is committed to installing 1,000 dialysis machines across 200+ dialysis centres, together capable of offering 9,00,000+ dialysis annually. These will be focussed on

serving India's poor and located in remote areas, with no/limited dialysis infrastructure.

We believe that the Ayushman Bharat scheme covers the area of Dialysis and facilitate greater penetration for the dialysis centres that will have the machines installed by us.

Future outlook

Against the backdrop of the enormous opportunity that the travel & tourism sector represents in the coming years, the leadership of your Company is focussed on two broad areas going forward:

- 1) Unparalleled Customer Delight across a seamless Omni channel model
- 2) Sustainable growth and profitability via state-of-the-art technology, efficiencies of scale & best-in-class processes.

I take this opportunity to thank the Board of Directors, leadership teams across the Group, as well as every customer, employee, partner, investor and stakeholder for your unstinting support.

I am confident that we shall continue to enjoy this going forward and together ensure strong and sustainable growth in the years to come.

Thank you,

Madhavan Menon

Creating a World of Infinite Travel Possibilities

We perpetually strive to create a world of infinite travel possibilities, focussed on world-class customer experience for sustainable growth across our businesses. We do this by leveraging our skills and strengths, while staying rooted in our deep respect for human values and our rich legacy.

Steering our efforts is our concerted focus on:

Augmenting the strengths of our **PEOPLE** and their **EXPERTISE** to drive our values-led business charter across the value chain of our offerings.

Leveraging the power of **TECHNOLOGY** to create a more seamless and integrated experience for our customers.

Strengthening our **PRODUCT** portfolio and **SERVICE** proposition to reach out more effectively to customers around the world.

INNOVATING new ways and tools to deliver exhilarating experiences for every traveller, across interests, price points and age groups.

EXPANDING the horizons of our business to capture new and emerging opportunities for growth and profitability.

Harnessing People & their Expertise to capture infinite opportunities

In an industry that is centred on delivering infinite experiences to customers, people are a critical engine to create and deliver such experiences.

We, at TCIL, are making significant investments in developing a professional and agile workforce that is responsive to the aspirations of our customers. We thus take pride in caring for our employees and inspiring every member of the Thomas Cook family to uphold the Company's Vision and Values with 'PRIDE'.

Nurturing skills and quality

The expertise and experience of our over 6,600 workforce, drawn from 59 diverse nationalities around the world, has emerged as a major driver of our exceptional growth story and a key element of our industry-leading performance, year-on-year.

To ensure sustained skill development and empowerment of our workforce, we have put in place a strong training & development framework. Technology-based learning platforms (Learning Management System) have been developed to train our employees on a regular basis; also Quik HR and iHelp with easy access to HR policies, etc. A specialised module (Thomas Cook Executive Trainee Programme) was initiated to create a talent pipeline across the junior and

middle management levels in the Company. By promoting talent from within, the Company ensures that employees get larger responsibilities early in their careers and are able to hone their leadership skills.

We continue to be an Employer of Choice among students at the various campuses that we hire from.

Our Key Talent Pool initiative focusses on opportunities for top performers with management development programmes and unique learning options. Its intense Management Development Programmes have proved to be a valuable tool in leadership development of middle and senior management teams and have brought more focus to succession planning across all positions at the Executive Committee level.

Nurturing an open work culture

Our Human Resources Department is continuously working to promote an open culture, with a vibrant and energising work environment for our employees. We remain focussed on empowerment of our people as an equal opportunity employer for women and men with a gender diversity ratio of 27:73. The average age of our people is 33 years with an average tenure of 4 years with our Company. In an endorsement of the success of our continuous initiatives to improve gender diversity, we were recently honoured as one of the Working Mother & AVTAR 100 Best Companies for Women in India 2017.

Promoting employee welfare

Employee welfare is a focus area of our HR charter and we have introduced various initiatives to engage with our people outside the work relationship we share with them, including our Wellness at Work programme. Besides online engagement (quizzes and contests), we organise various fun and interactive sessions for special occasions and festival celebrations to make the work environment engaging for our employees, while keeping them aligned to the organisational goals.

Leveraging Technology to capitalise on infinite growth possibilities

Your Company has adopted a hybrid omni-channel strategy to cater to the needs of India's diverse market, with a seamless Clicks & Bricks model, enabling easy transition between physical and digital touchpoints. This gives consumers the choice of choosing from equally robust systems of offline and online channels, or a combination thereof.

Our digital initiatives have led to significant increase in e-commerce, which now accounts for over 25% of our overall package holiday business with and 30% of visa customers. Our 4.3 star rating (out of a maximum of 5) on Facebook reflects the satisfaction of our customers.

Enhancing customer experience through technology

We undertook an overhaul of our website - thomascook.in – to drive better user-experience, with an enhanced design/ user interface and rich content. The new website has made online purchases smooth (across holidays, foreign exchange, visas and insurance), ensuring a one-stop solution for our customers. Our Company's Holidays and Forex Store, coupled with a unique online visa platform are vital tools that equip today's on-the-go customer with instant access to information and transactions.

Our Holidays App and Forex App, developed to target the new-age traveller have witnessed strong growth. The apps provide a wealth of travel and forex content, products & services along with booking and payment capabilities.

To achieve a seamless customer interface, increase engagement, connect with remote users and enhance efficiencies, the Company has launched the following business applications/platforms:

Integrated Customer Self Service Module

FY 2017-18 witnessed the launch of our integrated Customer Self Service tool, for both the Holidays and Forex apps, providing customers the ability to track their holiday/forex bookings and visa applications, balance payments, request for changes and more.

Dynamic FIT package building platform Voyager – enabling ease of customisation

Voyager – a unique technology platform to equip our sales teams was designed to compare rates (across over 600,000 hotels, sightseeing attractions, transportation options; and 450 airlines, worldwide), and build instant customised holidays that are bookable on the go.

Click2Book drives growth in Business Travel

The shift of business travel to an online environment has encouraged

the Company to develop a web-based self-booking tool Click2Book. The tool provides a comprehensive suite of products, across flights, hotels, cars, visas, foreign exchange and travel insurance, to our business travel customers. In the last three years, we have witnessed over 30% Y-o-Y increase in adoption of this tool by our business customers, and currently, contributes to over 30% of our business travel business.

iBook – A unique travel management tool for corporate clients

To enhance experience of a corporate traveller, SOTC launched an in-house custom-built tool called iBook, where multiple client profiles, invoicing and credit limits can be managed seamlessly. The App is built to cater to the specific needs of corporate clients.

Launch of the new Sabre Workspace

This initiative was launched to benefit business travellers, with features like fare quotation app, pre & post fare optimiser, automated exchange, Sabre Travel Security and (Unused Electronic Ticketing & Reporting (UETTR).

Tejas – Sales Analytics Programme

Your Company partnered with Accenture to leverage analytics to improve lead conversion and productivity by prioritising leads based on potential to book and enhance engagement with past customers through continuous targeted communication. This initiative has resulted in significant improvement in marketing and sales efficiencies across Thomas Cook India and SOTC.

iLead and Astra – CRM integrated app and advanced web technology platform

To further augment our operational integration, we launched a CRM integrated app - iLead, for holiday sales agents, as well as an advanced web technology platform Astra offers enhanced features and functionalities to ensure smooth integration with multiple suppliers, ease in content management, and reduce turnaround time.

Engage – New SOTC customer service app

With its new post-sale customer app – Engage, SOTC has become the first holiday company to provide a personalised, seamless experience to its customers through a mobile platform. The app features include documentation formats and visa forms, tracking of visa status, provision to update and amend personal details, along with purchase of additional excursions. The app marks an extension of the company's customer-centric journey.

SOTC implements Optical Character Recognition (OCR)

Solution for passport scanning, thereby increasing accuracy and efficiencies in visa processing.

Thomas Cook Prepaid Cards move to Euronet's world-class card issuing platform

Your Company entered into a strategic partnership with Euronet Worldwide Inc., to add significant benefits on our unique prepaid travel cards. All cards issued by TCIL are now being hosted and managed on Euronet's world-class payments processing and card issuing platform, which is highly configurable to helping us roll out customised options to meet specific customer needs – across business, leisure, B-leisure, student etc.

Marketing Automation

Our Marketing Automation initiative enables real-time, data-driven and personalised conversations with the consumer to enable increased conversion and ROI, increased customer lifetime value, improved marketing efficiency, highly personalised campaigns and improved customer experience.

Addressing infinite possibilities with a growing products & service portfolio

To keep pace with new emerging markets/segments and the fast-changing needs of customers, we have expanded our portfolio with innovative product and service offerings to address the experiential aspirations of the new-age Indian traveller, in search of new destinations to travel to and seamless services to enable hassle-free experiences.

Strengthening our product bouquet

We expanded our volume driver Group Escorted Tours to include Regional Tours (Avismarniya Europe, Albelu tours, Hoichoi specials, Aavo Mari Sathe packages) incorporating the comfort of home-cooked food on tour and the reassurance of an accompanying experienced Thomas Cook Tour Manager. Theme Park tours were created to leverage the power of India's new protagonist travellers – Kids! In light of a strong emerging trend for experiential travel, particularly from Young India, a new product, Millennials, was launched, with vibrant elements like kick boxing, abseiling and kite surfing or a martial arts class in Kalaripayattu and Ayurveda therapy, etc.

New segments were also explored to target future growth. The high-growth Honeymoon travel market inspired us to launch unique Romantic Getaways group tours, while for the high-potential woman traveller segment, our Company's What Women Want range has included elements like shopping, spa-wellness, culinary master-class with local chefs, etc.

To leverage the Festive Season, your Company launched special Festive Tours to operate during Durga Puja, Diwali, Dussehra and Christmas-New Year.

Our Weekend Getaways and Staycations were aimed at young working professionals.

To cater to the growing demand of spiritual tourism in the country, SOTC had recently launched Darshans, India's first online portal for religious ceremonies with a selection of over 40 specially-designed religious and spiritual experiences across 60 destinations in India.

With Indians moving rapidly from the traditional see-as-much-as-you-can multi country packages, to a deeper exploration of a single locale, we launched our Hello Series – featuring a single standalone exotic destination, at an affordable price point.

To cater to the growing needs of Indian students travelling overseas for further studies, your Company's

SOTC launched Darshans, a selection of over 40 specially designed religious and spiritual experiences across 60 destinations in India.

Student Forex and Visa facilitation services, packaged with special air fares, excess baggage allowances and insurance was of value. Your Company launched a strategic Study Buddy programme, with attractive offers and a range of assured gifts, to inspire student foreign exchange transactions.

Long-term strategic partnerships with Tourism Boards, Immigration Departments, attraction/sightseeing partners have been of significant value in enhancing our product development, including a 3-year strategic agreement with Wildlife Reserves Singapore, an MoU with Tourism New Zealand and Immigration New Zealand.

The partnerships included joint marketing activities with 45 Trade Partners.

With the acquisition of 17 Kuoni Global Destination Management Specialist companies/assets - Asian

Trails (APAC), Allied T Pro (North America), Desert Adventures (MENA), ATM (Australia) and Private Safaris (Southern & Eastern Africa), we have been able to significantly expand and enhance our product portfolio.

Reaching out to new destinations

To meet the aspirational desires of the new-age Indian consumer, our Company launched new destinations to satiate their travel needs, across domestic and international markets. In the outbound segment, our destination focus covered Hungary, the Czech Republic, Croatia, Romania, Poland, Slovenia, Jordan, Japan, Korea and Bali; also exotic locales like Azerbaijan, Iceland, South Africa. Traditional favourites featured were USA-Canada, UK, France, Switzerland and Asia's Singapore, Thailand, Malaysia; Australia, New Zealand and short hauls like Dubai & Abu Dhabi-Yas Island.

With the acquisition of 17 Kuoni Global Destination Management Specialist companies/assets, we have been able to significantly expand and enhance our product portfolio.

For our domestic travellers, some of the favourite choices were Himachal Pradesh, Uttarakhand, Kashmir, Kerala, Ladakh, Andamans, Goa, in addition to new and trending destinations like the North East, besides religious based tours such as Char Dham and Mansarovar.

Innovating to translate possibilities into reality

The dynamic changes in the industry landscape require continual innovation to cater to the ever-evolving needs of customers – an imperative for translating the infinite travel possibilities into reality. To keep ourselves aligned with these transformations, we have strategically identified innovation as an important pillar of our growth.

Cashless Ecosystem with 'Borderless' Prepaid Card and One Currency Card

Launched in partnership with MasterCard, our innovative multi-currency Borderless Prepaid Card, encompassing nine global currencies, is empowering the global traveller with its focus on convenience, security and global access.

The Thomas Cook 'One Currency Card' is India's first prepaid card with Zero cross-currency conversion fees and a single load currency (USD).

Holiday Savings Account makes travel affordable

The Holiday Savings Account is another of our path-breaking

initiatives that has been well received by our customers. It provides them with the ability to break the cost of their holiday into 12 instalments and save every month via a Recurring Deposit (RD) account with one of our seven partner banks. During FY 2017-18, we launched additional destinations under the scheme and opened 1,151 RDs for over 2,450 customers who have booked to travel the following year.

Travel Quest to leverage the Student sector

Our Travel Quest Study Tours redesigned to leverage the high potential education sector with a combination of fun and learning travel experiences. We have seen strong

delivery of 2,700 student travellers since its inception to destinations as diverse as Kerala, Singapore and USA.

Darshans targets the Pilgrimage segment

SOTC's innovative religious tour packages – 'Darshans' – is designed to leverage the high potential pilgrimage segment which has received a fillip courtesy the Government's PRASHAD initiative. Darshans is India's first online portal for religious ceremonies with a selection of over 40 specially designed religious and spiritual experiences across 60 destinations in India.

To leverage the strong potential of Indian travellers keen on discovering India, we have created a unique property – the Incredible India Week – aimed at bringing attractive and affordable India holidays to domestic travellers, thus giving them further impetus to travel within the country. Our unique high intensity Grand India Holiday Sale and weekend consumer outreach, the Grand India Carnival also brought affordable holidays right to the consumers' doorstep, in high catchment yet underleveraged locations across metros, sub-metros and Regional India.

Expanding our horizons to create more travel possibilities

At TCIL, we are creating a world of infinite travel possibilities through increased touchpoints of engagement.

Our expansion strategy also incorporates acquisitions and strategic alliances to connect more deeply with our customers.

Steering expansion in the retail market

To harness an expanding market, our inorganic expansion extended our retail network during FY 2017-18. New outlets were opened across Kerala, Mumbai, Tamil Nadu, NCR/Delhi, Pune, Kolkata and Rajasthan, among others, to cater to the growing demand of our customers. Tier II and III cities and towns emerged as a key focus area for our expansion strategy to catalyse growth. Besides setting up new owned branches, we also made significant additions to our Gold Circle Partner (franchise) outlets to cater to the demand in the new geographies.

Our Foreign Exchange focus on the retail and remittances segments saw your Company's foray into mini-metros and Regional India's Tier 2 & 3 markets, including Pune, Meerut, Jamnagar and Rajahmundry; also the opening of 9 airport counters at Varanasi, Madurai, Bhubaneswar, Gaya and Guwahati.

Our series of acquisitions in FY 2017-18, included 17 Kuoni's Global Destination Specialist Companies thus expanding our global footprint across 24 countries and 4 continents; also Tata Capital's Travel and Foreign Exchange businesses in India – since then rechristened, TC Travel & TC Forex respectively.

Our consumer access centres are a mix of owned branches and Gold Circle Partner (franchise) outlets. As of March 31, 2018, we have 620 outlets including franchisees, across the globe.

Creating Endless Possibilities for Community Service

At TCIL, we believe in extending infinite possibilities not just to the world of travel but also to the society at large. Our CSR (Corporate Social Responsibility) focus is aligned to this philosophy.

Project Dialysis

Your Company was instrumental in setting up the Fairfax India Charitable Foundation (FICF) and has embarked on a Dialysis Initiative aimed at enhancing sustainable, affordable dialysis access in remote areas of the country.

FICF is now proud to be associated with the Pradhan Mantri National Dialysis Program (PMNDP) reaching under a Public Private Partnership (PPP) scheme. Under PMNDP, FICF has as of 29 May, 2018, donated 100 dialysis machines across Arunachal Pradesh, Odisha, Jammu & Kashmir & Chhattisgarh.

We are also glad to report that cumulatively, as of end May 2018, FICF

has installed 135 dialysis machines at 26 dialysis centres across 11 states offering over 19,525 dialysis sessions. Going forward, FICF is committed to donating 1,000 dialysis machines across 200+ dialysis centres, together capable of offering 9,00,000+ dialysis annually. These will be focussed on serving India's poor and located in remote areas, with no/limited dialysis infrastructure.

Contribution to Swachh Bharat Abhiyan

In line with the Government of India's Swachh Bharat Abhiyan, the Company has maintained the prefabricated toilet units installed at Kandhal Road, Ooty.

Directors' Report

To the Members,

Your Directors have pleasure in presenting the Forty-First Annual Report, together with audited financial statements for the financial year ended on March 31, 2018.

OVERVIEW

The Travel and Tourism industry is a major engine of economic growth and an important source of employment and foreign exchange earnings for countries around the world. The industry continues to be a force for good, providing unique opportunities for developing and emerging nations to move up the value chain. As an industry, competitiveness at every level is improving – particularly in the Asia-Pacific region.

The financial year 2017-18 marked the sixth consecutive year for the travel and tourism industry's achievement of higher growth than the global economy, demonstrating the industry's resilience in the face of various natural calamities, global geopolitical uncertainty and economic volatility.

The global middle class is forecast to grow by a further 3 billion people by 2031, the majority of whom will come from emerging markets, with China and India leading the way. It is expected that most of the growth in international travel will come from Africa, Asia and the Middle East, which will enable further growth and job opportunities in these regions.

According to a 2018 economic impact report by the World Travel & Tourism Council (WTTC), India is likely to become the third largest tourism economy in the next 10 years. The total contribution by the travel and tourism industry to India's GDP is expected to increase from USD 234.03 billion in 2017 to USD 492.21 billion in 2028.

Foreign tourist arrivals in India have grown to 10.2 Mn in 2017 compared with 8.8 Mn in 2016. India's inbound growth story continued despite initial teething problems relating to the GST rollout, natural calamities, geo political situations and global recessionary trends. Improved regional air connectivity has further spurred the growth momentum of the travel Industry. Strategic tourism initiatives by the government have also been a key driver of growth.

ANNEXURE – 7 DIVIDEND DISTRIBUTION POLICY OF THOMAS COOK (INDIA) LIMITED

The Board of Directors (the "Board") of Thomas Cook (India) Limited (the "Company") has adopted the Dividend Distribution Policy (the "Policy") of the Company as required in terms of Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations") in its meeting held on October 26, 2016.

1. EFFECTIVE DATE

The Policy shall become effective from the date of its adoption by the Board i.e. October 26, 2016.

2. PURPOSE, OBJECTIVES AND SCOPE

The Securities and Exchange Board of India ("SEBI") vide its Notification dated July 08, 2016 has amended the Listing Regulations by inserting Regulation 43A in order to make it mandatory to have a Dividend Distribution Policy in place by the top five hundred listed companies based on their market capitalisation calculated as on the 31st day of March of every year. Considering the provisions of the aforesaid Regulation 43A, the Board of Directors (the "Board") of the Company recognises the need to lay down a broad framework for considering decisions by the Board of the Company, with regard to distribution of dividend to its shareholders and/ or retaining or plough back of its profits. The Policy also sets out the circumstances and different factors for consideration by the Board at the time of taking such decisions of distribution or of retention of profits, in the interest of providing transparency to the shareholders.

The Policy is not an alternative to the decision of the Board for recommending dividend, which is made every year after taking into consideration all the relevant circumstances enumerated hereunder or other factors as may be decided as relevant by the Board.

Declaration of dividend on the basis of parameters in addition to the elements of this Policy or resulting in amendment of any element or the Policy will be regarded as deviation. Any such deviation on elements of this Policy in extraordinary circumstances, when deemed necessary in the interests of the Company, along with the rationale will be disclosed in the Annual Report by the Board of Directors.

The Policy shall not apply to:

- Determination and declaring dividend on preference shares as the same will be as per the terms of issue approved by the shareholders;
- Distribution of dividend in kind, i.e. by issue of fully or partly paid bonus shares or other securities, subject to applicable law;
- Distribution of cash as an alternative to payment of dividend by way of buyback of equity shares.

3. GENERAL POLICY OF THE COMPANY AS REGARDS DIVIDEND

The general considerations of the Company for taking decisions with regard to dividend payout or retention of profits shall be as following-

1. Subject to the considerations as provided in the Policy, the Board shall determine the dividend payout in a particular year after taking into consideration the operating and financial performance of the Company, the advice of executive management including the CFO, and other relevant factors.
2. The Board may also, where appropriate, aim at distributing dividends in kind, subject to applicable law, in form of fully or partly paid shares or other securities.

4. CONSIDERATIONS RELEVANT FOR DECISION OF DIVIDEND PAY-OUT

The Board shall consider the following, while taking decisions of a dividend payout during a particular year-

Statutory requirements

The Company shall observe the relevant statutory requirements including those with respect to mandatory transfer of a certain portion of profits to any specific reserve such as Debenture Redemption Reserve, Capital Redemption Reserve etc. as provided in the Companies Act, 2013, which may be applicable to the Company at the time of taking decision with regard to dividend declaration or retention of profit.

Agreements with lending institutions/ Debenture Trustees

The decision of dividend pay-out shall also be affected by the restrictions and covenants contained in the agreements as may be entered into with the lenders of the Company from time to time.

Proposals for major capital expenditures etc.

In addition to plough back of earnings on account of depreciation, the Board may also take into consideration the need for replacement of capital assets, expansion and modernisation or augmentation of capital stock, including any major capital expenditure proposals.

Expectations of major stakeholders, including small shareholders

The Board, while considering the decision of dividend pay-out or retention of a certain amount or entire profits of the Company, shall, as far as possible, consider the expectations of the major stakeholders including the small shareholders of the Company who generally expects for a regular dividend payout.

5. FACTORS THAT MAY AFFECT DIVIDEND PAYOUT

External Factors

Taxation and other regulatory concern

Dividend distribution tax or any tax deduction at source as required by applicable tax regulations in India, as may be applicable at the time of declaration of dividend.

Any restrictions on payment of dividends by virtue of any regulation as may be applicable to the Company at the time of declaration of dividend.

Product/ market expansion plan

The Company's growth oriented decision to conserve cash in the Company for future expansion plan impacts shareholders expectation for the long run which shall have to be considered by the Board before taking dividend decision.

Macroeconomic conditions

Considering the state of economy in the Country, the policy decisions that may be formulated by the Government and other similar conditions prevailing in the international market which may have a bearing on or affect the business of the Company, the management may consider retaining a larger part of the profits to have sufficient reserves to absorb unforeseen circumstances.

Internal Factors

Past performance/ reputation of the Company

The trend of the performance/ reputation of the Company that has been during the past years determine the expectation of the shareholders.

Working capital management in the Company

The current working capital management system within the Company also impacts the decision of dividend declaration.

6. CIRCUMSTANCES UNDER WHICH DIVIDEND PAYOUT MAY OR MAY NOT BE EXPECTED

The Board shall consider the factors provided above Para 4, before determination of any dividend payout after analysing the prospective opportunities and threats, viability of the options of dividend payout or retention etc. The decision of dividend payout shall, majorly be based on the aforesaid factors considering the balanced interest of the shareholders and the Company.

7. MANNER OF DIVIDEND PAYOUT

The discussion below is a summary of the process of declaration and payment of dividends, and is subject to applicable regulations:

In case of final dividends

1. Recommendation, if any, shall be done by the Board, usually in the Board meeting that considers and approves the annual financial statements, subject to approval of the shareholders of the Company.
2. The dividend as recommended by the Board shall be approved/declared at the annual general meeting of the Company.
3. The payment of dividends shall be made within 30 days from the date of declaration to the shareholders entitled to receive the dividend on the record date/ book closure period as per the applicable law.

In case of interim dividend

1. Interim dividend, if any, shall be declared by the Board.
2. Before declaring interim dividend, the Board shall consider the financial position of the Company that allows the payment of such dividend.
3. The payment of dividends shall be made within 30 days from the date of declaration to the shareholders entitled to receive the dividend on the record date as per the applicable laws.
4. In case no final dividend is declared, interim dividend paid during the year, if any, will be regarded as final dividend in the annual general meeting.

8. MANNER OF UTILISATION OF RETAINED EARNINGS

The Board may retain its earnings in order to make better use of the available funds and increase the value of the stakeholders in the long run. The decision of utilisation of the retained earnings of the Company shall be based on the following factors:

Market expansion plan:

- Product expansion plan;
- Increase in production capacity;
- Modernisation plan;
- Diversification of business;
- Long term strategic plans;
- Replacement of capital assets;
- Where the cost of debt is expensive;
- Other such criteria as the Board may deem fit from time to time.

9. AMENDMENT

To the extent any modification/amendment, if required, the Managing Director or Group Head – Legal, Secretarial and Administration or Company Secretary and Compliance officer of the Company are severally authorised to review and amend the Policy, to such extent required. Such amendments and Policy shall be placed before the Board for noting.

Management Discussion and Analysis

COMPANY OVERVIEW

Thomas Cook (India) Limited is the leading integrated travel and travel related financial services Company in the country offering a broad spectrum of services that include Foreign Exchange, Corporate Travel, MICE, Leisure Travel, Insurance, Visa & Passport services and e-Business.

The Group is streamlined into four verticals:

Thomas Cook (India) Limited including its group companies (Thomas Cook India Group) today spans 24 countries across 4 continents, with a team of over 6,600 and 59 nationalities, a combined revenue in excess of Rs. 114.12 Bn (over \$ 1.75 Bn), and operates leading B2C and B2B brands including Thomas Cook, SOTC, TCI, SITA, Asian Trails, Allied T Pro, ATM, Desert Adventures, Kuoni 勝景遊, Private Safaris. The Group is today one of the largest travel service provider networks headquartered in the Asia-Pacific region.

TRAVEL SERVICES

The Group's Travel portfolio caters to a diverse spectrum of travel segments i.e., Outbound, Corporate Travel, MICE and Domestic Travel.

Leisure Travel (Outbound)

In the Leisure Outbound business, the Company curates holidays for a range of Indian travellers: from families, couples, women travellers, students, young digital savvy consumers and the emerging B-Leisure (business and leisure) segment. The Company has launched several innovative products, including Theme Park Tours (to appeal to children), regional tours (Albelu, Avismarniya and Aavo Mari Sathe series, etc. to leverage the high potential regional and Tier II & III markets), Millennials and Simply Series targeting online customers; City Breaks targeting the viable B-Leisure segment and Hello Series, mono-destination Group Tours. Travel Quest, our study tour vertical continued to be one of our success stories, having managed tours for over 2,700 students in FY 2017-18.

The Group has leveraged technology to meet the growing demands of the new age traveller with the launch of:

1. Voyager, a unique technology platform with comparative rates (across over 600,000 hotels, sightseeing attractions, transportation options and 450 airlines, worldwide) to equip our sales force build instant customised holidays – bookable on the go.
2. A dedicated Holidays App with a Customer Self Service functionality that empowers customers with the ability to track their holiday bookings and visa applications, balance payments, request for changes and more.
3. Tejas, a unique sales analytics programme to improve efficiencies in marketing and sales conversions and ROI.

The Grand India Holiday Sale (a 10-day intense campaign timed to coincide with the peak booking window of both summer vacations and festive seasons), coupled with the Grand India Holiday Carnival (strategic weekend consumer activations) continued to be strong growth drivers for the business. To catalyse demand Corporate Roadshows, mall and park activations and personalised customer events were also undertaken.

Your Company partnered with 45 Trade Partners including Tourism Boards and introduced new destinations to the India market including Croatia, Portugal, Poland and North France during the year.

SOTC has been the pioneer in the organised outbound leisure segment, and its range includes escorted group tours, customised holidays and luxury holidays. SOTC was the first to introduce the

concept of one day road shows, Holiday Bazaars, that promote holidays. Recognising the importance of language markets, SOTC also pioneered tours conducted in Marathi and Gujarati under the SOTC brand extensions: SOTC Brahman Mandal and SOTC Gurjar Vishwadarshan. Perfect Moments – a luxury travel coffee table book was launched to redefine luxury travel for connoisseurs.

In a consumer centric initiative, SOTC has introduced Co-created Holidays, where the Company collaborates with customers to jointly curate holidays that enhance and deliver an enriching experience.

SOTC's Easy Series, 125 online predefined customised packages, were launched to provide cost advantages of group tours with the flexibility of its customised packages. The destinations cover Thailand, Singapore, Mauritius, Dubai, Hong Kong, Bali, Spain, South Africa and Sri Lanka.

To target India's value seeker travellers, the Company launched GST Free Holidays and the Super Holiday Sale.

Innovative products curated included experiential tours with value pricing like Great Rail Journeys and Self Drive Holidays.

SOTC's consumer outreach incorporated a series of Summer Road Shows, across locations, Pan India.

TC Tours Limited (earlier known as Thomas Cook Tours Limited) is a wholly owned subsidiary of the Company and offers air ticketing, hotels, domestic tours and allied services to Thomas Cook (India) Limited's (TCIL's) diverse business lines including Leisure, Business Travel and MICE.

The Company completed the acquisition of TC Travel and Services Limited ('TC Travel'). TC Travel offers a wide range of services including airline ticketing, hotel accommodation, visa and passport facilitation, travel insurance etc.

The Group's Hong Kong entity, Travel Circle International Limited (Kuoni 勝景遊), is a leading tour operator in Hong Kong, focussing on the premium segment of all-inclusive group tours, long-haul leisure travel and business travels. The Company has a strong presence in B2C segment through its retail stores, call centre and website. During 2017, the Company further consolidated its leading premium position in the Hong Kong market by enhancement of its unique services and product differentiation. Despite setbacks due to terrorist attacks in Central Europe and US, the Company capitalised on the rising demand and resurgence of European markets, particularly Eastern Europe, Spain and Portugal, Balkans and mono Switzerland and Russia.

The Group's Mauritius subsidiary, Thomas Cook (Mauritius) Holidays Limited, focussed on outbound tours to major Asian/European markets, unique destination markets. During the year, the Company has initiated new revenue streams through air ticketing and excursion sales.

Leisure Travel (Domestic)

The Company's Domestic Travel business extends across group tours, personalised holidays and luxury programmes (Indian Indulgence). Regional products were developed to target India's Tier II & III markets with departures from 10 hubs; and launched via advertisements in local languages.

Unique products like Active holidays and Honeymoon packages were created to capture new segments across India's young working professionals/millennial segments. The Government's focus on the pilgrimage sector, via the PRASAD programme, was leveraged to launch the Company's Religious Tours – Ramayana Trails, Kailash Manasarovar Yatra and Char Dham.

The Company partnered with Sterling Holiday Resorts to create unique holiday packages to jointly expand the market.

The Company's focus on destinations like Andaman, Ladakh, Bhutan, North East and Gujarat, resulted in a significant increase for the business.

Based on customer demand, your Company launched charters for Bhutan which witnessed strong growth.

Several social media campaigns including #dilmeradesi, were deployed to catalyse demand; also a YouTube North East India destination video to change perceptions and build positivity for the region.

SOTC's business travel vertical launched the new Sabre Workspace that offers features like a fare quotation app, pre and post fare optimiser, automated exchange, Sabre Travel Security and UETR (Unused Electronic Ticketing and Reporting).

MICE (Meetings, Incentives, Conferences and Events)

MICE business saw growth driven by rising demand for new destinations and experiential offerings. Despite challenges including intense competition in the sector and stringent visa policies for

certain destinations, the MICE business registered growth. Its focus on the domestic MICE market, corporate relationships and foray into new source markets resulted in growth for the business.

The Company introduced new destinations like Iceland, Azerbaijan, Kazakhstan and Kyrgyzstan.

SOTC's MICE Business has shown a robust growth in profitability over last year. Introducing new MICE destinations, building and maintaining brand loyalty and enhancing on-ground experiences have led to the growth in profitability despite GST related challenges.

Visa and Passport Services

Drawing from its expertise and knowledge within the visa services domain, the Company caters to a wide range of customers including corporate, holiday and walk-in customers. Innovative services offered included mobile biometrics for groups and VIP clients. The Visa business has enhanced its Online Visa services via the Company's portal and call centre (the first online visa application platform in India with comprehensive visa solutions – visa requirements per destination, downloadable visa forms, consulate contact details, processing time and visa costs) which has added to customer convenience and hence growth of the standalone visa business.

The team also offers ancillary transactions: Attestations, Legalisation, Apostille, Translation, Notarisation of Documents, Foreigners Regional Registration Office (FRRO) registration/visa extension/exit permit, procurement of People of Indian Origin (PIO) / Overseas Citizen of India (OCI) cards etc.

E-Business

RISK MANAGEMENT

Risk assessment and management are critical to ensure long term sustainability of the business. The Company has in place a strong risk management framework with regular appraisal by top management. Enlisted below are the key risks identified by management and mitigation measures.

- **Economic Risk:** The business of the Company is closely associated with the macro environment that impacts the consumers' spending power.

Mitigation Measures: To minimise the impact of the systemic risk arising from macro-economic slowdown, the Company has ventured into diversified business segments other than leisure travel and business travel, like student travels, foreign currency exchanges, DMS, People and Staffing solutions, IT

solutions etc., which would help to mitigate the risk arising from macro-economic slowdown, to some extent.

- **Credit Risk:** As the Company deals with a wide range of corporates and channel partners, it is exposed to credit risk. Any default or delay in payments may adversely affect the Company's financials.

Mitigation Measures: The Company's well-defined, balanced and comprehensive client policy drives all contracts and business dealings in addition to the finance team's evaluation of financial capabilities of big clients and channel partners.

- **Forex risks:** Being exposed to a significant number of geographies, the Company deals in a number of currencies and runs the risk of unfavourable movement in any currency leading to financial losses.

Mitigation Measures: The Company has a stringent hedging policy to manage forex risks. The Company keeps a close watch on all currency movements and enters hedging contracts to protect margins.

- **Competition risks:** The Company is a premium brand in all the categories across geographies and competes with local players. Due to stiff competition and pricing wars, the Company's operating margins can be adversely impacted.

Mitigation Measures: The Company's leadership presence in most markets helps to derive competitive advantages while our pricing strategy is based on healthy targeted margins.

- **Integration risks:** The Company's investment in diversified businesses in divergent geographies requires harmonious integration of people, assets, processes and systems. Any deficiency in the integration process may impact the Company's growth prospects.

Mitigation Measures: The Company's promoters and senior management have successful track records in managing acquisitions and integrations. Further, the Company has recently streamlined business segments into four verticals for greater focus and agility in business operations.

INTERNAL CONTROLS SYSTEMS AND THEIR ADEQUACY

Internal control systems are embedded in all processes across all functions within the Company. These systems are regularly reviewed and wherever necessary, they are modified or re-designed to ensure better efficiency, effectiveness and improved controls. All processes and systems are subject to Internal Audit through an annual internal audit plan approved by the Audit Committee. These are further supported by Statutory Auditors who validate that financial reporting is true and fair. The results of all audits are discussed with Senior Management and reviewed by the Audit Committee that meets atleast every quarter. The Company has also adopted a system of Concurrent Audit, in line with RBI guidelines for its Foreign Exchange business across branches. The Company's Anti-Money Laundering Policy is regularly reviewed and updated, incorporating applicable revisions therein according to any modified guidelines issued by the RBI.

BACKGROUND AND MACROECONOMIC SCENARIO:

Global Economy

Global growth strengthened to 3.8% in 2017 which is 0.5% higher compared with 2016 and strongest since 2011. This notable rebound is driven by growth in global trade, investment recovery in advanced economies, continued strong growth in emerging Asia, a notable upswing in emerging Europe, and signs of recovery in various commodity exports. Global growth is expected to pick up to 3.9% in 2018 and onwards, supported by strong momentum, favourable market sentiment, accommodative financial conditions, and domestic and international repercussions of expansionary fiscal policy in the United States.

Indian Economy

The year under review started on a slow note impacted by GST implementation, after effects of demonetisation and implementation of Insolvency and Bankruptcy Code (IBC). However, the second half of FY 2017-18, witnessed a strong rebound in economic activity on the back of a turnaround in investment demand, acceleration in manufacturing, pick-up in capacity utilisation, strong activity in the services sector and a record agricultural harvest. Growth pick-up in the second half diluted the impact of slow growth in the first half. India's GDP at constant prices is expected to grow by 6.6% in FY 2017-18 compared with 7.1% in the previous year, as per second advanced estimates issued by the Central Statistics Organisation (CSO).

Report of the Directors on Corporate Governance

1. COMPANY'S PHILOSOPHY ON THE CODE OF CORPORATE GOVERNANCE

The Company's philosophy on Corporate Governance is to conduct its business within the framework of policies, internal and external regulations, in a transparent manner. The Company believes in doing business the right way and always seeks to ensure that the performance is driven by integrity and value. The Company believes in providing a structure that works for the benefit of everyone concerned, by ensuring that the Company adheres to ethical standards, laws and best practices. The Company's policy on Corporate Governance is to make it a way of life by, inter alia, adopting standard Corporate Governance practices through continual improvement of internal systems and satisfaction of customers and shareholders. The Company in its approach to adopt the best possible practices of Corporate Governance and keeping adherence to the latest rules and regulations prescribed by various regulatory authorities, has taken all the necessary steps to stay in line with the continuously progressing governance demands.

With regards to the Corporate Governance, the Company is in compliance with the requirements under Regulation 17 to 27 read with Schedule V and clause (b) to (i) of sub-regulation (2) of Regulation 46 of Securities & Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time.

Over the years, the Board of Directors ("Board") has developed corporate governance guidelines to help fulfill the Company's corporate responsibility towards the stakeholders. These guidelines ensure that the Board will have the necessary authority and processes to review and evaluate the Company's operations when required. Further, these guidelines allow the Board to make decisions that are independent of the Management. The Board may change these guidelines regularly to achieve the Company's stated objectives.

Corporate Governance primarily involves transparency, full disclosure, independent monitoring of the state of affairs and being fair to all stakeholders and is a combination of voluntary practices and compliance with laws and regulations. The Company's philosophy on the code of Corporate Governance can be summed up as follows:

- (i) to ensure that adequate control systems exist to enable the Board in effectively discharging its responsibilities to all the stakeholders of the Company;
- (ii) to ensure that the decision making process is fair and transparent;
- (iii) to ensure the fullest commitment of the Management and the Board for the maximisation of shareholder's value;
- (iv) to ensure that the employees of the Company subscribe to the corporate values and apply them in their conduct; and
- (v) to ensure that the Company follows globally recognised corporate governance practices.

2. BOARD OF DIRECTORS ("BOARD"):

Composition of the Board

The Composition of Board as on March 31, 2018 included seven (7) members with one (1) Executive Director and six (6) Non Executive Directors, of which four (4) were Independent Directors including a Woman Director, comprising of experts from various fields/professions. Mr. Chandran Ratnaswami was appointed as Member of the Nomination & Remuneration Committee w.e.f. May 29, 2018.

Terms of Reference:

The Nomination cum Remuneration Policy ("Policy") of the Committee is in compliance of Section 178 of the Companies Act, 2013 read with the applicable rules made thereunder and Regulation 19 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Committee has the mandate to deal with such matters as required to be dealt by it under applicable law, rules and regulations, *inter-alia*, recruitment, selection, remuneration of Directors (Executive & Non Executive) and key managerial personnel and remuneration of senior employees of the Company, particularly the matters pertaining to employment, remuneration, retirement benefits, performance appraisals, key succession planning and to make recommendations to the Board. The Committee is also authorised for allotment of equity shares under ESOP Schemes of the Company.

Nomination cum Remuneration Policy:

The Board adopted Nomination cum Remuneration Policy in September, 2014 in accordance with Section 178 of the Companies Act, 2013 and the rules made thereunder. The Policy has been amended from time to time to align it in requirements with the provisions of applicable laws, rules and regulations. The Policy is already annexed as Annexure 3 to the Directors Report and forms part of this Annual Report.

Performance Evaluation of Directors:

SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 mandate the Board of listed companies to monitor and review the Board Evaluation framework. The Companies Act, 2013 read with the Rules made thereunder provides that a formal annual evaluation needs to be made by the Board of its own performance and that of its Committees and individual Directors. It is further stated in Section 178 of the Companies Act, 2013 that the performance of every Director shall be evaluated by the Nomination & Remuneration Committee on an annual basis. The Schedule IV of the Companies Act, 2013 read with the Rules made thereunder states that the performance evaluation of Independent Directors shall be done by the entire Board of Directors, excluding the Director being evaluated.

After taking into consideration the Guidance Note on Performance Evaluation of Board dated January 5, 2017 published by SEBI, structured assessment sheets were finalized to evaluate the performance of the Board, Committees of the Board and individual performance of each Director including the Chairman. The evaluation process was facilitated by the Chairperson of the Nomination & Remuneration Committee.

These assessment sheets for evaluation of performance of the Directors were prepared based on various aspects which, amongst other parameters, included the Knowledge and Competency, Fulfilment of functions, Ability to function as a team, Initiative, Availability and Attendance, Commitment, Contribution and Integrity, etc.

The parameters for performance evaluation of Board includes Competency of Directors, Experience of Directors, Regularity of meetings, timeliness for circulating the board papers, Noting of discussions and dissents, Role and responsibilities of the Board, Strategy and performance evaluation, Governance and compliance, Evaluation of Risks, Grievance redressal for Investors, etc.

Some of the performance indicators for the Committees included Frequency of the meeting of the Committee, Contribution to decisions of the Board, understanding of the terms of reference, effectiveness of the discussions at the Committee meetings, information provided to the Committee to discharge its duties and performance of the Committee vis-à-vis its responsibilities and ensuring that the Key Performance Objectives are aligned with the immediate and long term goals of the Company.

The performance of the Independent Directors was also evaluated taking into account the time devoted and attention given to professional obligations for independent decision making and acting in the best interest of the Company, strategic guidance to the Company, identification of important policies, external expertise on business matters and independent judgment that contributes objectively in the Board's deliberation, particularly on issues of strategy, performance and conflict management.

The outcome of the evaluation process was discussed and deliberated at the meeting of the Board of Directors. The Board of Directors also expressed their satisfaction towards the process followed by the Company for evaluating the performance of the Individual Directors, Board as a whole and its Committees.

Remuneration of Directors:

A. Executive Directors:

1. The Committee to recommend the remuneration of the Executive Director to Board for its approval.
2. Such remuneration shall be subject to approval of the shareholders of the Company, in the next general meeting.
3. If proposed remuneration is at variance to the conditions specified in Schedule V of the Act, then such remuneration will also be subject to the approval of the Central Government, if any, as the case may be.

3. The Non Executive Directors may be offered stock options as may be permitted by the applicable law.
4. The Independent Directors will not be entitled to any stock options.
5. Reimbursement of actual expenses incurred, if any, in connection with attending the Board / Committee meeting of the Company.

C. Key Managerial Personnel:

1. The Committee to recommend the remuneration of the Managing Director, Chief Financial Officer, Chief Executive Officer and Company Secretary & Compliance Officer to the Board for its approval.
2. Increment for each year will be determined by the Committee based on the performance evaluation report.
3. Such increment will be subject to approval of the Board & shareholders, if any.

- The Managing Director, Chief Financial Officer, Chief Executive Officer and Company Secretary & Compliance Officer may be offered stock options.

D. Senior Management Employees:

- The Committee will determine the remuneration of the senior management employees of the Company, other than the whole time key managerial personnel, in accordance with the Policy.
- Increment for each year will be determined by the Committee based on the performance evaluation conducted in accordance with the Policy.
- The senior management employees may be offered stock options.

Sitting fees:

The Company's business activities, operations, nature and scope thereof have grown and shall continue to grow at substantial rate. Consequently, the burden on the Board of Directors has also increased. The Directors have always strived to attend the meetings of the Company whether Board or Committee and have always provided the Company with their valuable insights on the matters placed before them, thus ensuring better governance. Accordingly, the Company has at its meeting held on May 29, 2018 revised the sitting fees paid to the Non Executive Directors for attending the meetings as follows:

- For Audit Committee the sitting fees was revised from Rs. 50,000/- per meeting to Rs. 100,000/- per meeting.
- For Stakeholders Relationship Committee the sitting fees was revised from Rs. 10,000/- to Rs. 75,000/- per meeting.
- For Nomination & Remuneration Committee the sitting fees was revised from Rs. 10,000/- to Rs. 50,000/- per meeting.
- For Corporate Social Responsibility Committee the sitting fees was revised from Rs. 10,000/- to Rs. 50,000/- per meeting.

The Company also pays Rs. 100,000/- for attending each Board of Directors Meeting. Further, the Company pays Rs. 100,000/- per meeting to the Independent Directors for attending the separate meeting of Independent Directors.

c. Procedure for Postal ballot

In compliance with Section 108, 110 and other applicable provisions of the Companies Act, 2013, read with the related rules, and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company provided electronic voting (e-voting) facility to its members. The Company engaged the services of National Securities Depository Limited (NSDL) for providing e-voting facility to its members. The members had the option to vote either by physical ballot or through e-voting.

The Company dispatched the postal ballot notices and forms along with postage prepaid business reply envelope to its members whose names appeared on the register of members/ list of beneficiaries as on the cut-off date decided by the Board. The postal ballot notice was sent to members in electronic form to the e-mail addresses registered with the depository participants (in case of electronic shareholding)/ the Company's Registrar and Share Transfer Agent (in case of physical shareholding). For members whose email ids are not registered, physical copies of the postal ballot notice alongwith forms and prepaid self addressed business reply envelope were sent by permitted mode (i.e through registered post or through courier). The Company had also published a notice in the newspapers declaring the details of completion of dispatch and such other requirements as mandated under the Act and applicable rules.

Voting rights were reckoned on the paid- up value of the equity shares registered in the names of the members as on the cut-off date. Members desiring to exercise their votes by physical postal ballot forms were requested to return the forms, duly completed and signed, to the scrutiniser on or before the close of the voting period. Members desiring to exercise their votes by electronic mode were requested to vote before the close of the business hours on the last date of the e-voting.

The scrutiniser submitted his report to the Chairman, after the completion of the scrutiny, and the consolidated results of the postal ballot, were then announced by the Chairman. The results were displayed on the Company website www.thomascook.in and were also put on the notice board of the Company besides being communicated to the Stock Exchanges, Depository and Registrar and Share Transfer Agent. The last date for the receipt of duly completed Postal Ballot forms and e-voting was the date on which the resolution would be deemed to have been passed, if approved by the requisite majority.

Currently, no special resolution is proposed to be conducted through Postal Ballot. Further, Postal Ballot whenever conducted by the Company will be carried out as per the provisions of the Companies Act, 2013 read with rules made there under and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and applicable laws, rules and regulations, as amended from time to time

Certificate on Corporate Governance

To the Members of

Thomas Cook (India) Limited

We have examined the compliance with conditions of Corporate Governance by Thomas Cook (India) Limited ('the Company'), for the financial year ended on 31st March, 2018, as per Regulations 17-27, clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

The compliance with conditions of Corporate Governance is the responsibility of the management. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in Listing Regulations.

Our examination was limited to the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

Based on our examination of the relevant records and according to the information and explanations provided to us and the representations made by the management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulation 17 to 27 and clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Listing Regulations during the financial year ended 31st March, 2018.

We further report that the Hon'ble Supreme Court of India by its Order dt April 17, 2018 set aside the Order passed by Competition Appellate Tribunal (COMPAT) and restored the Order passed by Competition Commission of India (CCI) imposing penalty of Rs. 1 crore with no costs.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficacy or effectiveness with which the management has conducted the affairs of the Company.

This certificate is issued solely for the purposes of complying with the aforesaid Regulations and shall not be suitable for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this Certificate for events and circumstances occurring after the date of this Certificate.

Independent Auditors' Report

To the Members of Thomas Cook (India) Limited

Report on the Audit of the standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Thomas Cook (India) Limited ("the Company"), which comprise the balance sheet as at March 31, 2018, the statement of profit and loss, the statement of changes in equity and the statement of cash flows for the year then ended, and summary of the significant accounting policies and other explanatory information (herein after referred to as "Standalone Ind AS financial statements").

Management's Responsibility for the standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibility

Our responsibility is to express an opinion on the standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit

to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditors' report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, its financial performance (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Other Matters

Annexure B to the Independent Auditors' Report – March 31, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Thomas Cook (India) Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable, to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

General Information

Thomas Cook (India) Limited (the "Company") is a Public Limited Company listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company is engaged in diversified businesses of Travel and Travel related Businesses, working as Travel Agent and Tour Operator. The Company is also engaged as an Authorised Foreign Exchange Dealer.

The standalone financial statements for the year ended March 31, 2018 were approved by the Board of Directors and authorised for issue on May 29, 2018.

1 Significant Accounting Policies

1.1 Basis of preparation

(a) Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with rule 4 of the Companies (Indian Accounting standards) Rules, 2015 and other relevant provisions of the Act as amended from time to time that are notified and effective as at March 31, 2018.

(b) Historical cost convention

Standalone Financial Statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities - measured at fair value,
- defined benefit plans – defined benefit obligations less plan assets measured at fair value, and
- share based payment - measured at fair value

The standalone financial statements are presented in Indian Rupees "(INR)" or "(Rs.)" which is also the Company's functional currency and all values are rounded off to nearest Lakhs ('00,000) except where otherwise indicated. Wherever the amount is represented as '0' ('zero') it construes a value less than fifty thousand.

1.2 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ('CODM'). The board of directors, the chief executive officer and the chief financial officer have been identified as being the CODM. Refer note 40 for segment information presented.

1.3 Foreign currency translation and transactions

(a) Functional and presentation currency

A Company's functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

(b) Transactions and balances

(i) Initial Recognition

On initial recognition, foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.

(ii) Subsequent Recognition

As at the reporting date, non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the period end exchange rates are recognised in profit or loss. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss in the statement of profit and loss.

All monetary items denominated in foreign currency are restated at Foreign Exchange Dealers Association of India (FEDAI) rates and the exchange variations arising out of settlement / conversion at the FEDAI rates are recognised in the statement of profit and loss.

Profit or loss on purchase and sale of foreign exchange by the Company in its capacity as Authorised Foreign Exchange Dealer are accounted as a part of the revenue.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

1.4 Revenue Recognition

The entity provides travel products and services to leisure and corporate travellers in India and abroad. Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and taxes.

The entity recognises revenue when significant risk and rewards are transferred to the customer, the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the entity's activities as described below. The entity bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Income from the sale of airline tickets is recognised as an agent on the basis of net commission earned, at the time of issuance of tickets, as the Company does not assume any performance obligation post the confirmation of the issuance of an airline ticket to the customer. Performance linked bonuses from airlines are recognised as and when the performance obligations under the schemes are achieved.

Revenue on holiday packages is recognised on gross basis on the date of departure of the tour.

The income arising from the buying and selling of foreign currencies is included on the basis of net margins earned. Revenue on foreign exchange transactions are recognised at the time of purchase and sale.

1.5 Taxes on Income

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Income tax for the period comprises of current tax and deferred tax. Income tax is recognised in the statement of profit and loss except to the extent that it relates to items recognised in 'Other comprehensive income or directly in equity, in which case the tax is recognised in 'Other comprehensive income' or directly in equity, respectively.

(a) Current Tax:

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the Balance Sheet date, and any adjustments to tax payable in respect of previous years. Interest income/expenses and penalties, if any related to income tax are included in current tax expense.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. The company offsets the current tax assets as against the liability for provision for tax.

(b) Deferred Tax:

Deferred tax is recognised using the balance sheet approach. Deferred tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred Taxes on items classified under Other Comprehensive Income ('OCI') has been recognised in OCI.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

1.6 Leases

- (a) Determining whether an arrangement contains a lease:

At the inception of an arrangement, it is determined the arrangement is or contains a lease.

At inception or on reassessment of the arrangement that contains a lease, the payments and other considerations required by such an arrangement are separated into those for the lease and those for elements on basis of the relative fair values.

- (b) **Operating Lease:** Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments under leases are charged or credited to the statement of profit and loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

Finance Lease: Lease arrangements of property, plant and equipments where the Company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased asset and the present value of the minimum lease payments. If it is concluded for a finance lease that is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Each lease payment is apportioned between the finance charge and the reduction of the outstanding liability. The outstanding liability pertaining to non-current portion is included in other long-term borrowings and the current portion is included in other financial liabilities. The finance charge is charged to the statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

1.7 Impairment of Assets

- (a) **Financial Assets**

A financial asset not carried at fair value is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not otherwise consider, indications that a debtor or issuer will enter bankruptcy, the disappearance of an active market for a security. The entity considers evidence of impairment for receivables for each specific asset. All individually significant receivables are assessed for specific impairment.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in statement of profit and loss and are reflected as an allowance account against receivables. Interest on the impaired asset continues to be recognised as income through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through statement of profit and loss.

The company assess at each date of Balance sheet whether a financial assets or group of financial assets is impaired. In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure:

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly,

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Impairment losses on investment carried at fair value through other comprehensive income are recognised by transferring the cumulative loss that has been recognised in other comprehensive income and presented in the fair value reserve in equity, to statement of profit and loss.

The cumulative loss that is removed from other comprehensive income and recognised in profit or loss is the difference between the acquisition costs, net of any principal repayment and amortisation, and the current fair value, less any impairment loss previously recognised in statement of profit and loss. Changes in impairment provisions attributable to time value are reflected as a component of interest income in the statement of profit and loss.

(b) Non Financial Assets

Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Total impairment loss of a cash generating unit (CGU) is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognised in the statement of profit and loss and is not reversed in the subsequent period.

1.8 Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, cheques/drafts on hand, remittances in transit, balances with bank held in current account, demand deposits with original maturities of three months or less, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are repayable on demand and form an integral part of an entity's cash management, and are included as a component of cash and cash equivalents. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

1.9 Financial Instruments

(a) Financial assets

(i) Initial recognition and measurement

Financial assets are recognised when the entity becomes a party to the contractual provisions of the instruments. Transaction costs are expensed in the statement of profit and loss, except for financial instruments carried at amortised cost, where transaction costs are adjusted in the amortised cost of the asset.

(ii) Subsequent Measurement

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income ('FVTOCI') or fair value through profit or loss ('FVTPL') on the basis of: (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

(a) **Measured at amortised cost:** Financial assets which have contractual cash flows that are solely payments of principal and interest on the principal outstanding and is held within a business model with the objective of holding the assets to collect contractual cash flows, are subsequently measured at amortised cost using the effective interest rate ('EIR') method, less impairment, if any. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. On derecognition, gain or loss, if any, is recognised in the statement of profit and loss.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

- (b) **Measured at fair value through other comprehensive income :** Financial assets which have contractual cash flows that are solely payments of principal and interest on the principal outstanding and is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, is measured at fair value through other comprehensive income. It is subsequently measured at fair value with unrealised gains or losses recognised in the other comprehensive income ('OCI'), except for interest income which is recognised as 'other income' in the Statement of Profit and Loss using the EIR method. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.
- (c) **Measured at fair value through profit or loss:** A financial asset not measured at either amortised cost or FVTOCI, is measured at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss. All investments in equity instruments classified under financial assets are subsequently measured at fair value (except for investment in subsidiaries). Equity instruments which are held for trading are measured at FVTPL. For all other equity instruments, the Company may, on initial recognition, irrevocably elect to measure the same either at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument shall be recognised as 'other income' in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVTOCI. Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss when the company's right to receive payments is establishes.
- (iii) **Investments in subsidiaries**
Investments in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. The accounting policy on impairment of non-financial assets is disclosed in Note 1.7. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognised in the statement of profit and loss.
- (iv) **Derecognition**
The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset. On transfer of the financial asset, the Company evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a fair value basis that reflects the rights and obligations that the Company has retained.
- (b) **Financial liabilities**
- (i) **Initial recognition and measurement:** Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value plus transaction costs for all financial liabilities not carried at FVTPL. Financial liabilities carried at FVTPL are initially recognised at fair value, and transaction costs are expensed in the statement of profit and loss.
- (ii) **Subsequent measurement:** Financial liabilities are subsequently measured at amortised cost using EIR method. Financial liabilities carried at FVTPL are measured at fair value with all changes in fair value recognised in the statement of profit and loss.
- (iii) **Derecognition:** A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

(c) Guarantee

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of amount determined in accordance with Ind AS 37 and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the differences of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

(d) Derivative financial instruments

The Company uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in statement of profit and loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

1.10 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.11 Property, plant and equipment

Property, plant and equipment is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit and loss during the period in which they are incurred. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. Losses arising from the retirement of, and gains or losses arising from disposal of assets which are carried at cost is recognised in the statement of profit and loss.

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Depreciation is provided on a straight-line method over the estimated useful lives of the assets. The depreciation rates are prescribed in Schedule II to the Companies Act, 2013. If the management's estimate of the useful life of a fixed asset at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter or longer than that envisaged in the aforesaid Schedule, depreciation is provided at a higher or lower rate respectively, based on the management's estimate of the useful life/remaining life.

Depreciation methods, estimated useful lives and residual value: Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, as follows:

Assets	Useful Life
Computers	3 years
Computer servers and networks	6 years
Furniture and Fixtures	10 years
Office Equipment	5 years
Office Building	60 years
Vehicles under finance lease	4 years
Other vehicles	8 years
Plant and Machinery	15 years

Leasehold improvements are amortised over the period of the lease or useful life of the asset, whichever is lower.

The property, plant and equipment acquired under finance leases is depreciated over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Company will obtain ownership at the end of the lease term.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Property, plant and equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital work-in-progress.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit and loss.

1.12 Intangible Assets

Intangible Assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the statement of profit and loss.

(i) Goodwill

Goodwill on business combination is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or company's of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or company's of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

(ii) Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs those are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use
- management intends to complete the software and use or sell it
- there is an ability to use or sell the software
- it can be demonstrated how the software will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

(iii) Computer software

Amortisation methods and periods

Asset	Useful Life
Software (including software - internally generated / developed)	4 years.

Amortisation is calculated using the straight-line method to allocate their cost over their estimated useful lives.

1.13 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in statement of profit and loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates. Preference shares, which are mandatorily redeemable on a specific date, are classified as liabilities. The dividends on these preference shares are recognised in statement of profit and loss as finance costs.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in statement of profit and loss.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

1.14 Provisions and contingent liabilities

Provisions are recognised when the entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. Provisions are not recognised for future operating losses. A provision is recognised if the likelihood of an outflow with respect to any one item included in the same class of obligations is more probable than not. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

1.15 Other Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable. Dividend income is recognised when the right to receive dividend is established.

1.16 Employees Share-based Payments

Share-based compensation benefits are provided to employees via the following plans:

- a) Thomas Cook Employees Stock Option Plan -2007
- b) Thomas Cook Save As You Earn (SAYE) -2010
- c) Thomas Cook Employees Stock Option Plan -2013
- d) Sterling Holiday Resorts (India) Limited Employee Stock Options Scheme 2012 - ("SHRIL ESOS 2012")

The fair value of options granted under each plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit and loss, with a corresponding adjustment to equity.

In respect of options granted to the employees of the subsidiary companies, the amount equal to the expense for the grant date fair value of the award is recognised as a debit to investment in subsidiary as a capital contribution and a credit to equity.

Replacement awards are treated as a modification of share based payment arrangement, and the fair value of the new equity instruments (measured at the date of the modification) are included in the measurement of the amount recognised for services received and recognised over the remaining vesting period of the options.

1.17 Employee Benefits

(a) Post Employment Benefits:

(i) Defined Contribution Plans

Contribution towards provident fund for certain employees is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

(ii) Defined Benefit Plans

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

Contribution to Gratuity is based on the premium contribution called for by the Life Insurance Corporation of India (LIC) with whom the Company has entered into an arrangement. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The amount of net interest expense calculated by applying the liability discount rate to the net defined benefit liability or asset is charged or credited in the statement of profit and loss. Any differences between the interest income on plan assets and the return actually achieved, and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'Other comprehensive income' and subsequently not reclassified to the statement of profit and loss.

In respect of certain employees, the Company has Defined Benefit Plan for Other Long-term Employee Benefit in the form of Provident Fund. Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year.

(b) Short-term Employee Benefit

As per the leave Policy of the Company, employees are entitled to avail 30 days of leave during a calendar year. Any carry forward or encashment of the same is not allowed and all unutilised leaves necessarily lapse at the end of the calendar year. At reporting date liability pertaining to compensated absences is calculate based on the total leave balances of each employee.

1.18 Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

1.19 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.20 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2 Critical Accounting Estimates and Judgements:

The preparation of Financial Statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

The areas involving critical estimates and judgements are:

Recognition of deferred tax assets for carried forward unabsorbed depreciation - note 16

Estimated goodwill impairment - note 4 (ii)

Estimation of Defined Benefit Obligation - note 15

Impairment of trade receivables - note 30

Estimation of inputs for fair value of Share based payment instrument - note 33

Fair value of financial instruments - note 29

Useful life of property, plant & equipment. - note 3

Recognition and measurement of provision and contingencies. - note 26

Impairment of investment - note 5

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

2 (a) Current / Non Current Classification

All assets and liabilities are classified into current and non-current:

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle:

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the above definition and the nature of services provided, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2 (b) Recent accounting pronouncement

Amendment to Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognised at the date of initial application (Cumulative catch - up approach) The company is evaluating the requirements of the amendment and the effect on the financial statements is not likely to be significant.

(ii) Post Employment Obligations

The company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the company makes contributions to recognised funds in India. The company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

In respect of certain employees, the Company has Defined Benefit Plan for Other Long-term Employee Benefit in the form of Provident Fund. Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company.

Significant estimates: Actuarial assumptions and sensitivity for gratuity

The significant actuarial assumptions were as follows:

Particulars	March 31, 2018	March 31, 2017
Discount rate	7.35%	7.15%
Salary growth rate	6.00%	6.00%
Expected return on assets	7.35%	7.15%
Attrition Rate	10% - 29%	1% - 25%
Mortality	Indian Assured Lives Mortality (2006-08)	

Sensitivity analysis

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarises the impact in percentage terms on the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points.

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	Impact on defined benefit obligation					
	Change in assumptions		Increase in assumptions		Decrease in assumptions	
	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017
Discount rate	50 basis point	50 basis point	-2.19%	-4.30%	2.29%	4.64%
Salary growth rate	50 basis point	50 basis point	2.30%	4.67%	-2.22%	-4.36%

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior year.

The major categories of plans assets for gratuity are as follows:

Particulars	March 31, 2018				March 31, 2017			
	Quoted	Unquoted	Total	In %	Quoted	Unquoted	Total	In %
Insurer (LIC) Managed Funds	-	1,308.1	1,308.1	100%	-	1,260.3	1,260.3	100%

Risk Exposure for gratuity

Through its defined benefit plans, the company is exposed to a number of risks, the most significant of which are detailed below :

- Asset volatility:** The plan liabilities are calculated using a discount rate set with reference to bond yields, if the plan assets underperform this yield, this will create a deficit. Further any decrease in the bond yields will increase the plan liabilities. The plan assets investments are in unquoted securities which are subject to interest rate risks and the fund manages the interest rate risks to an acceptable low level.
- Salary growth & Demographic assumptions:** The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the company that any adverse salary growth or demographic experience or inadequate returns on underlying plan assets can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lumpsum in nature the plan is not subject to any longevity risks.

Defined benefit liability and employer contributions for gratuity

The weighted average duration of the defined benefit obligation is 4.48 years (2017 - 8.93 years). The expected maturity analysis of undiscounted gratuity is as follows:

Particulars	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years	Total
March 31, 2018 - Post Employment Obligations	474.0	279.5	697.8	1,263.0	2,714.2

Risk Exposure for provident fund

Through its defined benefit plans, the company is exposed to a number of risks, the most significant of which is detailed below

Asset volatility- The plan liabilities are calculated using a discount rate set with reference to bond yields, if the plan assets underperform this yield, this will create a deficit. Further any decrease in the bond yields will increase the plan liabilities.

24 Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the balance sheet). Total capital is calculated as 'equity' as shown in the balance sheet plus debt.

During the periods presented, the Company's strategy has been unchanged. The credit rating was unchanged and the gearing ratios as at the period ends were as follows:

Particulars	March 31, 2018	March 31, 2017
Debt	14,654.1	35,350.3
Total equity	169,044.5	115,988.0

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

* Amount is below the rounding off norm adopted by the Company.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.
- the foreign exchange forward contracts are marked to market using forward FEDAI rates pertaining to the date of maturity of the contract at the balance sheet date.
- Discount rates to fair value of financial assets and liabilities at amortised cost is based on general lending rate.

(iii) Fair value of financial assets and liabilities measured at amortised cost

Particulars	March 31, 2018		March 31, 2017	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Security Deposits	3,916.9	475.0	3,779.8	3,814.1
Financial liabilities				
Non current Borrowings	6,702.3	7,103.5	26,073.8	30,614.3
Non-Convertible Debentures	6,702.3	7,103.5	13,573.8	17,837.2
Non Convertible Redeemable Preference Shares ("NCRPS")	-	-	12,500.0	12,777.1

The carrying amounts of Accrued revenue, insurance claim receivable, advance to related parties, current borrowings, trade payables, trade receivable, other financial liabilities, cash and cash equivalents and other bank balances are considered to be the same as their fair values due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

30 Financial risk management

The Company's activities expose it to credit risk, market risk and liquidity risk.

The company' has an overall Enterprise Risk Management policy, approved by the Audit Committee of the Board of Directors. Risks are managed by the individual Business Units, or the Support Services' unit, entering into the base transactions, which give rise to the risks. The Executive Committee (comprising the Chairman & Managing Director, the Chief Financial Officer, and the Heads of the Business Units and Support Services' units) has the overall responsibility for the risk management framework and its effectiveness, with the respective Heads of Business Units/ Support Services' units, being responsible for its implementation and day-to- day monitoring. The Company's policy is to place cash and cash equivalents and short term deposits with reputable banks and financial institutions.

(A) Credit Risk

The company is exposed to credit risk, which is the risk that counterparty will default on its contractual obligation resulting in a financial loss to the company. To manage this, the company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, analysis of historical bad debts and ageing of accounts receivable as of different reporting periods.

(B) Market risk

(i) Foreign currency risk

The Company enters into foreign currency transactions in the Foreign Exchange and Leisure Travel Outbound businesses. The currency risk arising out of foreign currency transactions in the Foreign Exchange business is monitored by a central dealing room, which then hedges the positions transactions entered into at individual locations across the country, through deals in the interbank market, or through forward contracts, thereby ensuring that there are minimal open positions. In the Leisure Travel Outbound business, package prices are denominated partly in the functional currency of the Company, Indian Rupees (Rs.), and partly in foreign currencies. The portion of customer collection in foreign currencies, which is parked in Nostro bank accounts, is used to pay off vendor liabilities, denominated in foreign currencies, thereby creating a natural hedge. As a result, the risk related to foreign currency exchange rate fluctuation is insignificant.

(a) Foreign currency risk exposure:

The Company's exposure to foreign currency risk at the end of the reporting period expressed in Rs., are as follows

Notes to the Standalone Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates. Changes in interest rate are based on historical movement.

Particulars	Impact on profit after tax	
	March 31, 2018	March 31, 2017
Interest rates - increase by 100 basis points *	(11.3)	(8.1)
Interest rates - decrease by 100 basis points *	11.3	8.1

* Holding all other variables constant

(iii) Price Risk

Exposure

The company's exposure to equity securities price risk arises from investments held by the company and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss. Since the company does not have material equity investments, the company does not have a material price risk exposure as of reporting period.

(C) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company's treasury maintains flexibility in funding by maintaining sufficient cash and bank balances available to meet the working capital requirements. Management monitors rolling forecasts of the company's liquidity position (comprising the unused cash and bank balances along with temporary investments in fixed deposits and/or liquid mutual funds) on the basis of expected cash flows.

(i) Financing arrangements

Particulars	March 31, 2018	March 31, 2017
Floating rate		
-expiring within one year (bank overdraft)	1,311.0	5,832.6
	1,311.0	5,832.6

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice.

(ii) Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity based on their contractual maturities for:

- all non-derivative financial liabilities, and
- net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

32 Transfer Pricing

The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international as well as specified domestic transactions (if applicable) entered into with the associated enterprise during the financial year and expects such records to be in existence latest by the end of the stipulated timeline, as required by law. The Management is of the opinion that its international as well as specified domestic transactions (if any) are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

The Scheme is in accordance with the provisions of Securities and Exchange Board of India (SEBI)- (Employee Stock Option Scheme and employee Stock Purchase Scheme) Guidelines, 1999. The exercise price is as governed by the guidelines issued by SEBI.

The objectives of this plan are :

- (a) Motivate talent in the organisation with a view to achieve long term business goals.
- (b) Retain key talent in the organisation.
- (c) Foster ownership and motivation.

The grant of options to employees under the stock option scheme is on the basis of their performance and other eligibility criteria. Each option will entitle the participant to one equity share of Thomas Cook (India) Limited. The unvested options shall vest with the participant in 3 equal annual instalments on each of the anniversaries from the Grant Date.

Thomas Cook Save As You Earn (SAYE) -2010

Further to the Thomas Cook Employees Stock Option Plan - 2007, the Company has established a Thomas Cook Save As You Earn (SAYE), Scheme - 2010. The SAYE scheme has been approved by a Special Resolution passed on December 14, 2010, by the shareholders as at and for the year ended March 31, 2016 Thomas Cook (India) Limited of a Postal Ballot and shall be effective from that date. SAYE is a Monthly Savings Contribution Scheme available to all employees of Thomas Cook (India) Limited and its subsidiaries provided that they have completed at least 6 months in the organisation.

The objectives of the SAYE Scheme -2010 are same as Thomas Cook Employees Stock Option Plan -2007.

SAYE allows employees to save a part of their net pay every month which gets deposited with a bank in a recurring deposit account carrying fixed rate of interest. At the end of 3 years, employees have the option to either purchase specific number of equity shares of Thomas Cook (India) Limited at the predetermined exercise price or withdraw the monthly savings contributions along with interest accrued. Each option will entitle the participant to one equity share of Thomas Cook (India) Limited. The maximum number of options granted per participant per grant will not exceed 200,000 (Two Lakhs) equity shares. The maximum number of equity shares that may be issued / transferred pursuant to the exercise of options granted under the SAYE scheme shall not exceed 3,000,000 (Three Lakhs) equity shares. Vesting under the scheme is linked to the continued association with the Group. The options would vest only when an employee has completed the committed 36 monthly contributions. The exercise period would not be more than one month from the date of vesting.

Thomas Cook Employees Stock Option Plan -2013

The Company has established an Employee Stock Option Plan called -“Thomas Cook Employees Stock Option Plan - 2013”. The same has been approved by a Special Resolution passed by the Shareholders by a Postal Ballot on October 25, 2013. The Scheme is in accordance with the provisions of Securities and Exchange Board of India (SEBI) - (Employee Stock Option Scheme and employee Stock Purchase Scheme) Guidelines, 1999. The exercise price is in accordance with the guidelines issued by SEBI.

The objectives of this plan are:

- a) to reward the Senior Employees of the Company for their performance
- b) to motivate them to contribute to the growth and profitability of the Company and
- c) to retain talent in the organisation

The grant of options to employees under the stock option scheme is on the basis of their performance and other eligibility criteria. Each option will entitle the participant to one equity share of Thomas Cook (India) Limited. The unvested options shall vest with the participant after 4 years but not later than 7 years from the date of grant of such options. Vesting of options would be subject to continued employment with the Company and certain performance parameters. The attainment of such performance parameters would be a mandatory condition for vesting of options as determined by the Recruitment & Remuneration Committee from time to time.

Weighted average remaining contractual life of options outstanding at end of year			16.7 Years	19.9 Years

Fair Value of options granted

The fair value at grant date is determined using the Black-Scholes Model which takes into account the exercise price, expected volatility, option's life, the share price at grant date, expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The inputs for the options granted during the year ended March 31, 2017 included:

Particulars	March 31, 2017
Scheme	GT 07 Nov 2016
Grant Date	November 7, 2016
Weighted average share price	218.6
Exercise price	1.0
Expected volatility (%)	45.3
Expected life of the options	14.0
Risk free interest rate (%)	7.1
Expected dividend (%)	0.2
Weighted average fair value as on Grant Date	213.0

The risk free interest rates are determined based on the zero-coupon sovereign bond yields with maturity equal to the expected term of the option. The expected volatility was determined based on the volatility of the equity share for the period of one year prior to issue of the option. Volatility calculation is based on historical stock prices using standard deviation of daily change in stock price. The historical period is taken into account to match the expected life of the option. Dividend yield has been calculated taking into account expected rate of dividend on equity share price as on grant date.

Modification of share based payment:

In the course of business combination effective from August 18, 2015 as per the court scheme, under which Sterling was merged with Thomas Cook Insurance services, Thomas cook India limited had replaced the erstwhile ESOS scheme of sterling by issuing shares from its share capital. Such modification of share based payment arrangements are accounted for as per Ind AS 102. Fair value of the replacement options issued by the company are calculated using the inputs disclosed in inputs table.

Independent Auditors' Report

To the Members of Thomas Cook (India) Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

We have audited the accompanying Consolidated Ind AS financial statements of Thomas Cook (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), and its associates as listed in Annexure-I, comprising of the Consolidated Balance Sheet as at 31 March 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement, for the year then ended, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit or loss (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates, to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and its associates or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made, as well as evaluating the overall presentation of the Consolidated Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group and of its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Group and its associates to cease to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 2 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on

the other financial information of the subsidiaries and associates, the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and in the context of overriding effect of the accounting treatment for the merger scheme approved by the National Company Law Tribunal ('NCLT') vis-à-vis the treatment that would have been applicable otherwise as described in note 42 to the Consolidated Ind AS financial statements, gives a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at 31 March 2018, and their consolidated profit (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

Emphasis of Matter

Without qualifying our opinion, we draw attention to note 42 to the consolidated Ind AS financial statements regarding the Scheme of Arrangement ('Scheme') which has been approved by the NCLT vide its order dated 30 November 2017. The Holding Company has given effect to the Scheme from the appointed date specified in the Scheme i.e. 1 December 2016. The accounting treatment is different from that prescribed under Ind AS 103, Business Combinations.

Our opinion is not modified in respect of this matter.

Other Matters

1. The Consolidated Ind AS financial statements of the Company for the year ended 31 March 2017, were audited and reported by Lovelock & Lewes, Chartered Accountants, who expressed an unmodified opinion on those statements on 25 May 2017. The balances as at 31 March 2017 as per audited accounts, grouped, reclassified wherever necessary have been considered as opening balance for the purpose of these consolidated financial statement.
2. (a) We did not audit the financial statements of 5 subsidiaries, whose financial statements reflect total assets of Rs. 71,642 lakhs as at 31 March 2018, total revenues of Rs. 104,257 lakhs and net cash outflows amounting to Rs. 14,105 lakhs for the year ended on that date, as considered in these Consolidated Ind AS financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing

standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

- (b) We did not audit the financial statements of 36 subsidiaries, whose financial results reflect total assets of Rs. 93,307 lakhs as at 31 March 2018 and total revenues of Rs. 84,337 lakhs and net cash inflows amounting to Rs. 5,577 lakhs for the year ended on that date, and the Group's share of net profit (including other comprehensive income) of Rs. 173 lakhs for the year ended 31 March 2018 in respect of an associate, as considered in these consolidated Ind AS financial statements. Further we did not audit the financial statements of 31 subsidiaries of Qess Corp Limited (erstwhile subsidiary of the Holding Company), whose financial results reflect total revenues of Rs. 140,943 lakhs and the Group's share of net profit (including other comprehensive income) of Rs. 37 lakhs for the period 1 April 2017 to 28 February 2018 in respect of 6 associates, as considered in these consolidated Ind AS financial statements. These financial statements are unaudited and have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, associates and joint ventures, and our report in terms of Section 143(3) of the Act, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group.

Our opinion above on the Consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associates, as noted in the 'other matter' paragraph, we report, to the extent applicable, that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS financial statements;

Annexure A to the Independent Auditors' Report – March 31, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS financial statements of Thomas Cook (India) Limited as of and for the year ended 31 March 2018, we have audited the internal financial controls with reference to financial statements of Thomas Cook (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies and its associate companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and its associate companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the financial statements and their operating effectiveness. Our audit of internal financial controls

with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of its subsidiary companies and associate companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to financial statements of the Holding Company, its subsidiary companies and associate companies incorporated in India.

Meaning of Internal financial controls with reference to the consolidated Ind AS financial statements

A company's internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal financial controls with reference to the consolidated Ind AS financial statements

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanation given to us and based on consideration of reporting of the other auditors as mentioned in the Other Matters paragraph below, the Holding Company, its subsidiary companies and associate companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2018, based on the internal control with reference to the financial statements criteria established by the Holding Company, its subsidiary companies and associate companies, which are companies incorporated in India, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial

controls with reference to the financial statements insofar as it relates to 2 subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

General information:

Thomas Cook (India) Limited ("the Company") and its subsidiaries (the "Group") are engaged in diversified businesses including Travel and Related Services, Authorised Foreign Exchange Dealers, Human Resource Services and providing full-service leisure resorts catering to Vacation ownership, One-time Leisure Holidays and Meetings, Incentives, Conferences and Exhibitions.

The consolidated financial statements of the Group including its interests in associates and joint ventures for the year ended March 31, 2018, were approved by the Board of Directors and authorised for issue on May 29, 2018.

1 Significant accounting policies

1.1 Basis of preparation

(a) Statement of compliance with Ind AS

The consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with rule 4 of the Companies (Indian Accounting standards) Rules, 2015 and other relevant provisions of the Act as amended from time to time that are notified and effective as at March 31, 2018.

(b) Historical cost convention

Consolidated Financial Statements have been prepared on a historical cost basis, except for the following:

- (i) certain financial assets and liabilities - measured at fair value,
- (ii) defined benefit plans - defined benefit obligations less plan assets measured at fair value
- (iii) share based payment - measured at fair value
- (iv) contingent consideration in case of a business combination - measured at fair value

The consolidated financial statements are presented in Indian Rupees "(INR)" or "(Rs.)" which is also the group's functional currency and all values are rounded off to nearest lakhs ('00,000) except where otherwise indicated. Wherever the amount is represented as '0' ('zero') it construes a value less than fifty thousand.

(c) Uniform accounting policies

As far as possible, the Consolidated Financial Statements of the Group are prepared using uniform accounting policies for similar transactions and other events in similar circumstances.

1.2 Principles of consolidation of subsidiaries, associates and joint ventures

Subsidiaries:

Subsidiaries are all entities (including structured entities) over which the Company has control. The group controls an entity when the company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Equity accounted investees:

The Group's interests in equity accounted investees comprises interests in associates and joint ventures.

Associates are all entities over which the group has significant influence but not control or joint control This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement. Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Non-controlling interests (NCI):

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated balance sheet respectively.

Loss of control:

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in profit or loss.

1.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ('CODM'). The board of directors, the chief executive officer and the chief financial officer have been identified as being the CODMs. Refer Note 30 for segment information.

1.4 Foreign currency translation and transactions

(a) Functional and presentation currency

A Group's functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

(b) Transactions and balances

The financial statements are presented in INR, the functional currency of the Group.

(i) Initial Recognition:

On initial recognition, foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction.

(ii) Subsequent Recognition:

As at the reporting date, non - monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the period end exchange rates are recognised in profit or loss. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss in the statement of profit and loss.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

The translation of financial statements of the foreign subsidiaries to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the balance sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under other components of equity. When a subsidiary is disposed off, in full, the relevant amount is transferred to net profit in the statement of profit and loss. However when a change in the parent's ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

All monetary items denominated in foreign currency are restated at Foreign Exchange Dealers Association of India (FEDAI) rates and the exchange variations arising out of settlement / conversion at the FEDAI rates are recognised in the Statement of Profit and Loss at the end of accounting period.

Profit or loss on purchase and sale of foreign exchange by the Company in its capacity as Authorised Foreign Exchange Dealer are accounted as a part of the revenue.

1.5 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits associated with the transaction will flow to the entity and revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

(a) Foreign exchange and travel related services

The entity provides travel products and services to leisure and corporate travellers in India and abroad. Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and taxes. The revenue from rendering these services is recognized in the income statement at the time when significant risk and rewards are transferred to the customer.

The entity recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the entity's activities as described below. The entity bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Income from the sale of airline tickets is recognized as an agent on the basis of net commission earned, at the time of issuance of tickets, as the Group does not assume any performance obligation post the confirmation of the issuance of an airline ticket to the customer. Performance linked bonuses from airlines are recognized as and when the performance obligations under the schemes are achieved.

Revenue on holiday packages is recognised on gross basis on the date of departure of the tour.

The income arising from the buying and selling of foreign currencies is included on the basis of net margins earned. Revenue on foreign exchange transactions are recognised at the time of purchase and sale.

(b) People and services

Revenue related to staffing services i.e. salary and incidental expenses of temporary associates along with the service charges are recognized in accordance with the agreed terms and recognized as the related services are performed.

Revenue related to recruitment services are recognized at the time the candidate begins full time employment.

Revenue related to executive research and trainings are recognized upon rendering of the service.

Revenue from training services is recognized prorated over the period of training.

(c) Global technology solutions

Revenue related to staffing services i.e. salary and incidental expenses of employees of Information Technology / Information Technology Enabled Services along with the service charges are recognized in accordance with the agreed terms and recognized as the related services are performed.

(d) Integrated facility management

Revenue from integrated facility management and food services are primarily earned on fixed fee basis and are recognized as per the terms of the arrangement with the customers.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Revenue from the services rendered between the last billing date and the balance sheet date is recognized as unbilled revenue.

(e) Industrial asset management

Revenue from operation and maintenance services are primarily earned on a fixed rate basis and are recognized as per the terms and arrangements with the customers. Certain arrangements are on time and material basis and are recognized as the services are performed as per the terms of the arrangement with the customer.

Deferred revenue included in other current liabilities represents amounts billed in excess of revenue earned. Unbilled revenue included in other current assets represents revenue earned in excess of amounts billed.

(f) Software and solutions business

Revenue from information technology primarily includes co-location, which includes the licensing of cabinet space and power, interconnection offerings; managed infrastructure services and application management services. Revenue is recognised ratably in accordance with the agreed terms of the contract with the customers.

(g) Vacation ownership business

The management has based on an assessment, determined that the fair value of the future services to be rendered to the customer which includes rights to usage of facilities over the membership period as 40% of the product value (entitlement fee). Entitlement Fee is recognised as income over the period of entitlement on a systematic basis reflecting the timing, nature and value of benefits provided to the customer. 60% of the product value, being admission fee is recognized as income in the year of sale.

In respect of all other vacation ownership products prior to November 2011, 45% of the product value, being admission fee was recognised as income in the year of sale. The remaining 55%, being Advance subscription towards customer facilities (ASCF), which entitles the vacation ownership member for the specified facilities over the membership usage period, is recognised as income equally over the period of entitlement.

The balance of Entitlement fee and ASCF as at the year-end is classified as Deferred Income under the head Non-current/current liabilities. Provision for cancellation of vacation ownership contracts is made considering the Company's cancellation policy and historical trends and experience.

In cases where the vacation ownership member chooses to make payments in instalments, interest is recognised as an income on an accrual basis over the contracted period.

(h) Income from resorts

Income from resorts comprising of sale of food and beverages, room rentals and other services are recognised when these are sold and when services are rendered.

(i) Income from subscription fee

Incomes in respect of annual subscription fee or annual amenity charges dues from members is recognized only when it is reasonably certain that the ultimate collection will be made. Commission income on insurance policies sold is recognised on the effective commencement of the policies.

1.6 Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their primary nature. The costs of the company are broadly categorised in employee benefit expenses, depreciation and amortisation and other operating expenses. Employee benefit expenses include employee compensation, allowances paid, contribution to various funds and staff welfare expenses. Other operating expenses majorly include sub-contractor charges, rent, recruitment and training expenses, travelling and conveyance, legal and professional fees and communication expenses.

1.7 Taxes on income

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operate and generate taxable income. Management periodically evaluates

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Income tax for the period comprises of current tax and deferred tax. Income tax is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognised in 'Other comprehensive income or directly in equity, in which case the tax is recognised in 'Other comprehensive income' or directly in equity, respectively.

(a) Current tax:

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the Balance Sheet date, and any adjustments to tax payable in respect of previous years. Interest income/expenses and penalties, if any, related to income tax are included in current tax expense.

(b) Deferred tax:

Deferred tax is recognised using the balance sheet approach. Deferred tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred Taxes on items classified under Other Comprehensive Income ('OCI') has been recognised in OCI.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

1.8 Leases

(a) Determining whether an arrangement contains a lease:

At the inception of an arrangement, it is determined the arrangement is or contains a lease.

At inception or on reassessment of the arrangement that contains a lease, the payments and other considerations required by such an arrangement are separated into those for the lease and those for elements on basis of the relative fair values.

(b) Operating lease:

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments under leases are charged or credited to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

Finance lease:

Lease arrangements where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased asset and the present value of the minimum lease payments. If it is concluded for a finance lease that is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Each lease payment is apportioned between the finance charge and the reduction of the outstanding liability. The outstanding liability pertaining to non - current portion is included in other long - term borrowings and the current portion is included in other financial liabilities. The finance charge is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

1.9 Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the;

- (i) fair values of the assets transferred;
- (ii) liabilities incurred to the former owners of the acquired business;
- (iii) equity interests issued by the Group; and
- (iv) fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Acquisition-related costs are expensed as incurred.

The excess of the;

- (i) consideration transferred;
- (ii) amount of any non-controlling interest in the acquired entity, and
- (iii) acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss or other comprehensive income, as appropriate.

1.10 Impairment of assets

(a) Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not otherwise consider, indications that a debtor or issuer will enter bankruptcy, the disappearance of an active market for a security.

The entity considers evidence of impairment for receivables for each specific asset. All individually significant receivables are assessed for specific impairment. In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized as income through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

The Company assess at each date of Balance sheet whether a financial assets or group of financial assets is impaired. In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure:

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Impairment losses on investment carried at fair value through other comprehensive income are recognized by transferring the cumulative loss that has been recognized in other comprehensive income, and presented in the fair value reserve in other equity.

The cumulative loss that is removed from other comprehensive income and recognized in profit or loss is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss previously recognized in profit or loss. Changes in impairment provisions attributable to time value are reflected as a component of interest income in the statement of profit and loss.

(b) Non-financial assets

Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Groups of assets (cash-generating units). Non financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Total impairment loss of a cash generating unit is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognized in net profit in the statement of profit and loss and is not reversed in the subsequent period.

1.11 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, cheques/drafts on hand, remittances in transit, balances with bank held in current account, demand deposits with original maturities of three months or less, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are repayable on demand and form an integral part of an entity's cash management, and are included as a component of cash and cash equivalents. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

1.12 Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement. Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet.

1.13 Financial instruments

(a) Financial assets

(i) Initial recognition and measurement:

Financial assets are recognised when the entity becomes a party to the contractual provisions of the instruments. Transaction costs are expensed in the Statement of Profit and Loss, except for financial instruments carried at amortised cost, where transaction costs are adjusted in the amortised cost of the asset.

(ii) Subsequent measurement:

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income ('FVTOCI') or fair value through profit or loss ('FVTPL') on the basis of:

- the entity's business model for managing the financial assets and;
- the contractual cash flow characteristics of the financial asset.

(a) Measured at amortised cost:

Financial assets which have contractual cash flows that are solely payments of principal and interest on the principal outstanding and is held within a business model with the objective of holding the assets to collect contractual cash flows, are subsequently measured at amortised cost using the effective interest rate ('EIR') method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, gain or loss, if any, is recognised in the Statement of Profit and Loss.

(b) Measured at fair value through other comprehensive income :

Financial assets which have contractual cash flows that are solely payments of principal and interest on the principal outstanding and is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, is measured at fair value through other comprehensive income. It is subsequently measured at fair value with unrealised gains or losses recognised in the other comprehensive income ('OCI'), except for interest income which is recognised as 'other income' in the Statement of Profit and Loss using the EIR method. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

(c) Measured at fair value through profit or loss:

A financial asset not measured at either amortised cost or FVTOCI, is measured at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

All investments in equity instruments classified under financial assets are subsequently measured at fair value. Equity instruments which are held for trading are measured at FVTPL. For all other equity instruments, the Group may, on initial recognition, irrevocably elect to measure the same either at FVTOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument shall be recognised as 'other income' in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVTOCI. Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss, when the Group's right to receive the payment is established.

(iii) Derecognition:

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset. On transfer of the financial asset, the Group evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

recognises an associated liability. The transferred asset and the associated liability are measured on a fair value basis that reflects the rights and obligations that the Group has retained.

(b) Financial liabilities

(i) Initial recognition and measurement:

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value plus transaction costs for all financial liabilities not carried at FVTPL. Financial liabilities carried at FVTPL are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

(ii) Subsequent measurement:

Financial liabilities are subsequently measured at amortised cost using EIR method. Financial liabilities carried at FVTPL are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

(iii) Derecognition:

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

(c) Guarantee:

Financial guarantee contracts are recognized as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of amount determined in accordance with Ind AS 37 and the amount initially recognized less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the differences of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

(d) Equity investments (other than investments in subsidiaries, associates and joint venture):

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. All investments in equity instruments classified under financial assets are subsequently measured at fair value. Equity instruments which are held for trading are measured at FVTPL. For all other equity instruments, the Company may, on initial recognition, irrevocably elect to measure the same either at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument shall be recognised as 'other income' in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVTOCI. Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss when the Company's right to receive payments is established.

(e) Derivative financial instruments

The Group uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

1.14 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

1.15 Property, plant and equipment

Property, plant and equipment is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. Losses arising from the retirement of, and gains or losses arising from disposal of assets which are carried at cost is recognised in the Statement of Profit and Loss.

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Depreciation is provided on a straight-line method over the estimated useful lives of the assets. The depreciation rates are prescribed in Schedule II to the Companies Act, 2013. If the management's estimate of the useful life of a fixed asset at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter or longer than that envisaged in the aforesaid Schedule, depreciation is provided at a higher or lower rate respectively, based on the management's estimate of the useful life/remaining life.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on a Straight Line Method ('SLM') over the estimated useful lives of the property, plant and equipment as estimated by the Management and is generally recognized in the consolidated statement of profit and loss. The management believes that the useful lives as given below best represent the period over which the management expects to use these assets based on an internal assessment and technical evaluation where necessary. Hence, the useful lives for some of these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Description of tangible assets	Estimated useful life (Number of years)
Computers (includes data server and networks)	3 – 7 years
Furniture and Fixtures	4 - 10 years
Office Equipment	3 - 5 years
Office Building	60 years
Vehicles under finance lease	4 years
Other vehicles	3 - 8 years
Plant and Machinery	3 - 15 years
Shop and Electrical Fittings	8 – 10 years

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

Leasehold Improvements are amortised over the period of the lease or useful life of the asset whichever is lower.

Property, plant and equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

1.16 Intangible assets

Intangible Assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Corporate brand names acquired as part of acquisitions of businesses are capitalised separately from goodwill as intangible assets if their value can be measured reliably on initial recognition and it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group.

The carrying value of these intangible assets is reviewed at least annually for impairment and adjusted to the recoverable amount if required.

Amortization is provided at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis over its estimated useful life.

(a) Goodwill

Goodwill on business combinations is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or Groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

(b) Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognised as intangible assets when the following criteria are met:

- (i) it is technically feasible to complete the software so that it will be available for use
- (ii) management intends to complete the software and use or sell IT
- (iii) there is an ability to use or sell the software
- (iv) it can be demonstrated how the software will generate probable future economic benefits
- (v) adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- (vi) the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

(c) Amortisation methods and periods

Asset	Useful Life
Software (including software - internally generated / developed)	3 - 4 years
Software (leasehold)	Lease term or estimated useful life of, whichever is lower
Customer relationships	5 - 10 years
Corporate brand name	5 - 20 years
Trademarks and patents	3 - 7.5 years
Customer contracts	3 years

Amortization is calculated using the straight-line method to allocate their cost over their estimated useful lives.

1.17 Provisions and contingent liabilities

Provisions are recognised when the entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. Provisions are not recognised for future operating losses. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations is more probable than not. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provision in respect of loss contingencies relating to claims, litigation, assessment, fines, penalties, etc. are recognised when it is probable that a liability has been incurred and the amount can be estimated reliably.

Warranty costs are estimated on the basis of a technical evaluation and past experience. Provision is made for estimated liability in respect of warranty costs in the year of rendering of services.

A provision for onerous contracts other than construction contracts is recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

1.18 Other income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend income is recognized when the right to receive dividend is established.

Securitized assets are derecognised when the contractual rights therein are transferred to the third party. On being derecognised, the excess of consideration received over the principal amounts of receivable from members (net of reversals in respect of cancelled members) is recognised as income from securitisation.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

1.19 Government grants

Government grants related to subsidy received in cash or in kind are recognised as income when there is reasonable assurance that the entity will comply with the conditions attaching to them; and the grants will be received. Duty credit scrips received from Government on compliance of the conditions laid down under the new foreign trade policy are treated as revenue grant and classified under other operating revenue.

1.20 Employees share based payments

Share-based compensation benefits are provided to employees via the following plans:

- (i) Thomas Cook Employees Stock Option Plan -2007
- (ii) Thomas Cook Save As You Earn (SAYE) -2010
- (iii) Thomas Cook Employees Stock Option Plan -2013
- (iv) Sterling Holiday Resorts (India) Limited Employee Stock Options Scheme 2012 - ("SHRIL ESOS 2012")

The fair value of options granted under each plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the Impact of any service and non-market performance vesting conditions (e.g. profitability, SALES growth targets and remaining an employee of the entity over a specified TIME Period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, statement of profit or loss, with a corresponding adjustment to equity.

Replacement awards are treated as a modification of share based payment arrangement, and the fair value of the new equity instruments (measured at the date of the modification) are included in the measurement of the amount recognised for services received and recognized over the remaining vesting period of the options.

For Qess and its subsidiaries, the Qess group has introduced 'IKYA Employee Stock Option Scheme 2009' ('the Option Scheme 2009') and Scheme 2015, wherein the employees of the Group receive remuneration in the form of equity settled instruments of the Company, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The expense is recognised in the statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortisation). The stock compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

1.21 Employee benefits

(a) Post employment benefits

(i) Defined contribution plans

Superannuation scheme:

The Company and its subsidiary Travel Corporation (India) Limited have Defined Contribution Plan for Post Employment Benefit in the form of Superannuation scheme. Contributions to Superannuation scheme are charged to the Statement of Profit and Loss as incurred. The contributions to Superannuation scheme are based on the premium contribution called for by Life Insurance Corporation of India (LIC) with whom the companies have entered into an arrangement.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Provident fund, Employee State Insurance Scheme and Labour Welfare Funds:

For all group companies other than Thomas Cook (India) Limited, contributions to Provident Fund are charged to the Statement of Profit and Loss as incurred. The Provident Fund contributions are made to a government administered fund towards which the company has no further obligations beyond its monthly contributions.

Contributions to Employee State Insurance Scheme and Labour Welfare Funds are charged to the Statement of Profit and Loss account as incurred.

(ii) Defined benefit plans

Gratuity:

The Group provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

Contribution to Gratuity is based on the premium contribution called for by the Life Insurance Corporation of India (LIC) with whom the Group has entered into an arrangement. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The amount of net interest expense calculated by applying the liability discount rate to the net defined benefit liability or asset is charged or credited to 'Finance costs' in the Statement of Profit and Loss. Any differences between the interest income on plan assets and the return actually achieved, and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.

Provident fund:

For Thomas Cook (India) Limited and Travel Corporation (India) Limited, Provident Fund contributions are made to a Trust administered by the Group. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. Any short fall/(excess) based on independent actuarial valuation is accounted for in the Statement of Profit and Loss in the relevant period.

(iii) Other long term benefits

Compensated absences:

For Ques and its subsidiaries, Sterling and its subsidiaries and SOTC and its subsidiaries, accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The liability is actuarially determined (using the Projected Unit Credit method) by an independent actuary at the end of each year. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise. The discount rates used for determining the present value of the obligation under the defined benefit plan are based on the market yields on government bonds as at the balance sheet date.

(b) Short-term employee benefit

Compensated absences:

For Ques and its local subsidiaries, SOTC and its subsidiaries, Sterling and its subsidiaries, accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

For Travel Circle International Limited, employees are entitled to avail 9-25 days of leave during a year. Any carry forward or encashment of the same is not allowed and all unutilised leaves necessarily lapse at the end of the year.

For other group companies, employees are entitled to avail 30 days of leave during a calendar year. Any carry forward or encashment of the same is not allowed and all unutilised leaves necessarily lapse at the end of the calendar year. At reporting date liability pertaining to compensated absences is calculate based on the total leave balances of each employee.

(c) Employee benefits of Foreign subsidiaries are provided for on the basis of the their local laws.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

1.22 Inventories

Inventories which comprise finished goods, provisions, perishables, beverages, stock in trade and operating supplies are valued at the lower of cost and net realizable value. Cost of inventories comprises purchase price, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost method ['WAM'] basis. Net realizable value is the best estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. The comparison of cost and net realizable value is made on an item-by-item basis. Inventories are stated net of write down or allowances on account of obsolete, damaged or slow moving items.

1.23 Borrowing costs

Borrowing costs include interest, other costs incurred in connection with borrowing and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to the interest cost. General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

1.24 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.25 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Group's earnings per share is the net profit for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

1.26 Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2 Critical accounting estimates and judgements

The preparation of Consolidated Financial Information requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Restated Standalone Financial Information.

The areas involving critical estimates or judgements are;

Estimation of current tax expense and payable- Note 26 and 17 respectively

Estimated fair value of unlisted securities- Note 8(a) and 8(b)

Estimated useful life of intangible asset- Note 6(a)

Recognition of deferred tax- Note 16

Estimated goodwill impairment- Note 5

Estimation of Defined Benefit Obligation- Note 15

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Impairment of trade receivables- Note 8(c)

Estimation of inputs for fair value of Share based payment instrument- Note 32

Fair value of financial instruments - Note 27

Useful life of property, plant and equipment - Note 4(a)

Recognition and Measurement of provision and contingencies - Note 39

Impairment of investment - Note 7

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

(a) Current / Non Current Classification

All assets and liabilities are classified into current and non-current:

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle:

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the above definition and the nature of services provided, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

(b) Recent accounting pronouncement

Standards issued but not yet effective

On March 28, 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying amendments to Ind AS 21, 'The Effects of Changes in Foreign Exchange Rates, Ind AS 12, 'Income Taxes', Ind AS 28, 'Investments in Associates and Joint Ventures', 'Ind AS 112, 'Disclosure of Interests in Other Entities' and Ind AS 115, 'Revenue from contracts with customers'. These amendments maintain convergence with IFRS by incorporating amendments issued by the International Accounting Standards Board (IASB) into Ind AS. The amendments are applicable to the Group from April 1, 2018.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Amendment to Ind AS 12, Income Taxes

The amendment to Ind AS 12 considers that:

- (i) Tax law determines which deductions are offset against taxable income in determining taxable income in determining taxable profits.
- (ii) No deferred tax asset is recognised if the reversal of the deductible temporary difference will not lead to tax deductions.

The Group is evaluating the effect of this on the consolidated financial statements and expects the impact to be not material.

Amendment to Ind AS 28, Investments in Associates and Joint Ventures

The amendment to Ind AS 28 clarifies that a venture capital organization, or a mutual fund, unit trust and similar entities may elect, at initial recognition, to measure investments in an associate or joint venture at fair value through profit or loss separately for each associate or joint venture.

The standard is applicable to the Group but the impact of the above stated amendment to the Group is nil.

Amendment to Ind AS 112, Disclosure of Interests in Other Entities

The amendment to Ind AS 112 provide that the disclosure requirements for interests in other entities also apply to interests that are classified (or included in a disposal group that is classified) as held for sale or as discontinued operations in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations.

The standard and the disclosure requirements as per the above stated amendment is applicable to the Group and the Group will comply the requirements wherever applicable.

Ind AS 115, Revenue from Contracts with Customers

The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach)

The Group is evaluating the requirements of the amendment and the effect on the financial statements.

Impairment tests for goodwill

Goodwill is monitored by the management at the Entity level ("CGU").

Entity level summary of goodwill allocation, including translation differences is presented below:

Particulars	March 31, 2018	March 31, 2017
Qess Group	-	105,812.7
Sterling Group	24,788.8	24,788.8

TC Travel and Services Limited	63.7	-
Others	369.4	369.4
	87,950.6	179,463.3

Significant Estimate

The Group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of a cash generating unit (CGU) is determined based on value-in-use calculations which require the use of assumptions (except goodwill arising on acquisition of Qess for which market capitalisation method is used to determine the fair value of the investment and for goodwill arising on acquisition of Sterling for which market value of tangible assets less fair value of liabilities method is used to determine the value in use). The calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. These growth rates are consistent with forecasts included in industry reports specific to the industry in which each CGU operates. Fair value of investment in Sterling Holiday Resorts Limited is calculated by valuing the properties and freehold land by Independent Valuer after deducting the fair values of other tangible assets and liabilities. The fair value is more than the carrying value of the investment as at March 31, 2018 and March 31, 2017.

The following table sets out the key assumptions for the other CGUs that have significant goodwill allocated to them:

Particulars	March 31, 2018	March 31, 2017
Sales volume % growth	8% - 11.6%	7% - 13.4%
Terminal growth rate	5%	5%
Discount rate	8.9% - 15.8%	8.9% - 12%

As at March 31, 2018, the estimated recoverable amount of each of the CGU's exceeded its carrying amounts and hence impairment is not triggered.

Sensitivity analysis for significant foreign components

The gratuities and retirement obligations are lump sum plans and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the impact in percentage terms on the reported defined benefit obligation of each significant foreign components at the end of the reporting period arising on account of an increase or decrease in the reported key actuarial assumptions for such components.

Risk Exposure for gratuity & other retirement benefit plans

Through its defined benefit plans, the group is exposed to a number of risks, the most significant of which are detailed below:

- Asset volatility- The plan liabilities are calculated using a discount rate set with reference to bond yields, if the plan assets underperform this yield, this will create a deficit. Further any decrease in the bond yields will increase the plan liabilities. The plan assets investments are in unquoted securities which are subject to interest rate risks and the fund manages the interest rate risks to an acceptable low level.
- Salary growth & Demographic assumptions- The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the company that any adverse salary growth or demographic experience or inadequate returns on underlying plan assets can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lumpsum in nature the plan is not subject to any longevity risks.

Defined benefit liability and employer contributions for gratuities & other retirement benefit plans:

The group has agreed that it will aim to eliminate the deficit in defined benefit pension and gratuity plan over the next nine years. Funding levels are monitored on an annual basis. The group considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly.

Advance to gratuity fund: Current	-	7.0

(i) Leave obligations - Compensated absences:

The leave obligations cover the company's liability for sick and earned leave. Based on past experience, the group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is expected to be taken or paid within the next 12 months.

Particulars	March 31, 2018	March 31, 2017
Current leave obligations expected to be settled within next 12 months	523.2	1,088.3

(ii) Post employment obligations

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the group makes contributions to recognised funds in India. The group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

Some of the entities in the group have Defined Benefit Plan for other long-term Employee Benefits in the form of Provident Fund. Provident Fund contributions are made to a Trust administered by the Holding Company. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. Any short fall / excess based on an independent actuarial valuation is accounted for in the Statement of Profit and Loss in the relevant year.

(iii) Defined contribution Plans

The Group, other than entities mentioned above, has certain defined contribution plans. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The Group also makes contributions towards Employee's Pension Scheme, Employee's State Insurance, Labour Welfare Fund, Superannuation, National Pension Scheme and other defined contribution plans. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation.

The expense recognised during the year towards defined contribution plan is Rs. 37,724.4 lakhs (Previous Year Rs. 25,905.1 lakhs) in the Consolidated Statement of Profit and Loss for the year ended March 31, 2018 under defined contribution plan.

Insurer managed funds	-	2,472.1	2,472.1	100.0%	-	4,065.1	4,065.1	100.0%

Risk Exposure for gratuity

Through its defined benefit plans, the group is exposed to a number of risks, the most significant of which are detailed below :

- Asset volatility- The plan liabilities are calculated using a discount rate set with reference to bond yields, if the plan assets under perform this yield, this will create a deficit. Further any decrease in the bond yields will increase the plan liabilities. The plan assets investments are in unquoted securities which are subject to interest rate risks and the fund manages the interest rate risks to an acceptable low level.
- Salary growth & demographic assumptions- The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the company that any adverse salary growth or demographic experience or inadequate returns on underlying plan assets can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lumpsum in nature the plan is not subject to any longevity risks.

Defined benefit liability and employer contributions for gratuity

The group has agreed that it will aim to eliminate the deficit in defined benefit pension and gratuity plan over the next nine years. Funding levels are monitored on an annual basis and the current agreed contribution rate is 12% of the basic salaries in India. The group considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly. Expected contribution to post employment benefit plans for the year ending March 31, 2019 is Rs. 691.0 lakhs. The weighted average duration of the defined benefit obligation is 4.45 - 5.73 years (previous year 3 - 11.7 years).

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at fair value as at March 31, 2018	Level 1	Level 2	Level 3	Total

The carrying amounts of Advance recoverable in cash, receivables from related parties, trade payables, payable for fixed assets, employees benefits payables, cash and cash equivalents and other bank balances are considered to be the same as their fair values due to their short-term nature. The fair value of long term debt and others in the above table are materially the same.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices in an active market. This includes listed equity instruments and mutual funds that have quoted price / declared NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation inputs and relationships to fair value

The following tables show the valuation techniques used in measuring Level 3 fair values, as well as the significant unobservable inputs used (refer above notes for valuation technique adopted):

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices for quoted instruments
- the fair value of the remaining financial assets is determined using discounted cash flow analysis.
- the foreign exchange forward contracts are marked to market using forward FEDAI rates pertaining to the date of maturity of the contract at the balance sheet date.
- Discount rates to fair value of financial assets and liabilities at amortised cost is based on general lending rate.
- Use of NAV for valuation of mutual fund investment
- The fair value of contingent consideration is determined by using a discount rate that reflects the likely amount to be paid out over the years as earn out which has been calculated using pre-tax cash flow projections based on financial budgets approved by management covering a five-year period.

(iii) Inter level transfers

There are no transfers between levels 1 and 2 and also between levels 2 and 3 during the year.

28 Financial risk management

The group's activities expose it to credit risk, market risk and liquidity risk.

The Group has an overall enterprise risk management policy, approved by the Audit Committee of the Board of Directors. Risks are managed by the individual business units, or the support services' unit, entering into the base transactions, which give rise to the risks. The Executive Committee (comprising the Chairman & Managing Director, the Chief Financial Officer, and the heads of the business units and support services' units) has the overall responsibility for the risk management framework and its effectiveness, with the respective heads of business units/ support services units, being responsible for its implementation and day-to-day monitoring.

(A) Credit Risk

The Group is exposed to credit risk, which is the risk that counterparty will default on its contractual obligation resulting in a financial loss to the Group. The Group's exposure to credit risk is influenced mainly by its customer. To manage this, the company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, analysis of historical bad debts and ageing of accounts receivable as of different reporting periods.

Credit risk on cash and cash equivalents and other bank balances and bank deposits is limited as the Group generally invests in deposits with banks with high credit ratings assigned by domestic credit rating agencies. Investments comprises of investment in mutual funds invested with mutual fund institutions having high credit ratings assigned by domestic credit rating agencies. The loan represents security deposits given to suppliers, employees and others. The credit risk associated with such deposits is relatively low.

Trade receivables

The Group's exposure to credit risk is influenced mainly by its customers. However, the management also considers the factors that may influence the credit risk of its customer base. The Group has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references.

Based on industry practices and the business environment in which the entity operates, the management considers that trade receivables are in default (credit impaired) if the payments are due for more than specific number of days. Loss allowances are based on actual credit loss experience over the past years. Refer note 8(c) for loss allowances provided.

(B) Market risk

(i) Foreign currency risk (Exposure in different currencies converted to functional currency)

The Group is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of the Group companies. The functional currency for large number of Group companies is Indian Rupees ("INR"). The currency risks of the respective group companies are managed by the local management of these companies. The exposure of the group companies to foreign currency risk at the end of the reporting period, are as follows -

(a) Foreign currency risk exposure:

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Changes in interest rate are based on historical movement.

Particulars	Impact on profit	
	March 31, 2018	March 31, 2017
Interest rates - increase by 70 to 100 basis points *	(129.3)	(100.7)
Interest rates - decrease by 70 to 100 basis points *	129.3	100.7

* Holding all other variables constant

(iii) Price risk exposure

The group's exposure to equity securities price risk arises from investments held by the group and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss. Since the group does not have material equity investments, the group does not have a material price risk exposure as of reporting period.

(C) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding to meet obligations when due and to close out market positions. Respective group company's treasury department maintains flexibility in funding by maintaining sufficient cash and bank balances available to meet the working capital requirements.

Management monitors rolling forecasts of the company's liquidity position (comprising the unused cash and bank balances along with temporary investments in fixed deposits and/or liquid mutual funds) on the basis of expected cash flows. This is generally carried out at local level in the operating companies of the group in accordance with the practice and limits set by the group.

29 Capital management

(a) Risk management

The group's objectives when managing capital are to safeguard the group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the balance sheet) less cash and cash equivalent. Total "equity" is as shown in the balance sheet (including non-controlling interest).

Particulars	March 31, 2018	March 31, 2017
Net debt*	-	20,170.9
Total equity	868,447.4	227,011.6
Net debt to equity ratio	-	8.9%

* As at March 31, 2018, cash and cash equivalents exceeds total borrowings and hence net debt as at March 31, 2018 has been considered zero for the purpose of calculation of net debt to equity ratio.

(b) Proposed Dividends

(I) Thomas Cook (India) Limited

Employee option plan/tradable options

Thomas Cook Employees Stock Option Plan - 2007

The Company has established an employee stock option plan called -"Thomas Cook Employees Stock Option Plan - 2007". The same has been approved by a special resolution passed by the shareholders by a postal ballot on March 23, 2007. The Scheme is in accordance with the provisions of Securities and Exchange Board of India (SEBI) - (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999. The exercise price is as governed by the guidelines issued by SEBI.

The objectives of this plan are :

- (a) Motivate talent in the organization with a view to achieve long term business goals.
- (b) Retain key talent in the organization
- (c) Foster ownership and motivation.

The grant of options to employees under the stock option scheme is on the basis of their performance and other eligibility criteria. Each option will entitle the participant to one equity share of Thomas Cook (India) Limited. The unvested options shall vest with the participant in 3 equal annual instalments on each of the anniversaries from the grant date.

Thomas Cook Save As You Earn (SAYE) - 2010

Further to the Thomas Cook Employees Stock Option Plan - 2007, the Company has established a Thomas Cook Save As You Earn (SAYE), Scheme - 2010. The SAYE scheme has been approved by a Special Resolution passed on December 14, 2010, by the shareholders as at and for the year ended March 31, 2016 Thomas Cook (India) Limited of a Postal Ballot and shall be effective from that date. SAYE is a monthly savings contribution scheme available to all employees of Thomas Cook (India) Limited and its subsidiaries provided that they have completed at least 6 months in the organization.

The objectives of the SAYE Scheme - 2010 are same as Thomas Cook Employees Stock Option Plan - 2007.

SAYE allows employees to save a part of their net pay every month which gets deposited with a bank in a recurring deposit account carrying fixed rate of interest. At the end of 3 years, employees have the option to either purchase specific number of equity shares of Thomas Cook (India) Limited at the predetermined exercise price or withdraw the monthly savings contributions along with interest accrued. Each option will entitle the participant to one equity share of Thomas Cook (India) Limited. The maximum number of options granted per participant per grant will not exceed 200,000 (Two Lakh) equity shares. The maximum number of equity shares that may be issued/transferred pursuant to the exercise of options granted under the SAYE scheme shall not exceed 3,000,000 (Thirty Lakh) equity shares.

Vesting under the scheme is linked to the continued association with the Group. The options would vest only when an employee has completed the committed 36 monthly contributions. The exercise period would not be more than one month from the date of vesting.

Thomas Cook Employees Stock Option Plan - 2013

The Company has established an employee stock option plan called - "Thomas Cook Employees Stock Option Plan - 2013". Fair Value of options granted

The fair value at grant date is determined using the Black-Scholes Model which takes into account the exercise price, expected volatility, option's life, the share price at grant date, expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The inputs for the options granted during the year ended March 31, 2018 and March 31, 2017 included:

Particulars	March 31, 2018	March 31, 2017
Scheme	-	GT 07 Nov 2016
Grant Date	-	November 07, 2016
Weighted average share price	-	218.6
Exercise price	-	1.0
Expected volatility (%)	-	45.3
Expected life of the options	-	14.0
Risk free interest rate(%)	-	7.1
Expected dividend (%)	-	0.2
Weighted average fair value as on Grant Date	-	213.0

The risk free interest rates are determined based on the zero-coupon sovereign bond yields with maturity equal to the expected term of the option. The expected volatility was determined based on the volatility of the equity share for the period of one year prior to issue of the option. Volatility calculation is based on historical stock prices using standard deviation of daily change in stock price. The historical period is taken into account to match the expected life of the option. Dividend yield has been calculated taking into account expected rate of dividend on equity share price as on grant date.

Modification of share based payment:

In pursuance to the court scheme effective from April 01, 2014, Sterling holiday resorts was merged with Thomas Cook Insurance services, its immediate parent entity. Thomas cook India limited issued options replacing the existing options of Sterling by issuing its own shares in consideration for the merger. Such modification of share based payment arrangements of sterling are accounted for as per Ind AS 102. Accordingly, the incremental cost in the fair value of the options at the initial grant date and the replacement date is taken as expense in the books of Thomas Cook India Limited. Fair value of the replacement options issued by the company are calculated using the inputs disclosed in inputs table.

(II) Quess Corp Ltd. ("Quess")

(a) Description of share based payment arrangement

Quess has introduced the 'IKYA Employee Stock Option Scheme 2009' ('the Option Scheme 2009') and has issued stock options on its own shares to specified employees of Quess. The scheme was approved by the Board of Directors in its meeting held on November 19, 2009. The Option Scheme 2009 provides for the creation and issue of 5,200,000 (bonus adjusted) options that would eventually convert into equity shares of Rs 10 each in the hands of the employees. The options has a vesting schedule over a three year period and are exercisable only upon the occurrence of the liquidity event. The scheme defines 'liquidity event' as an initial public offering by Quess (or one of its subsidiaries) or dilution of voting right below majority of the existing shareholders. The exercise price of these stock options is Rs 10. All outstanding options were vested as March 31, 2015. As at March 31, 2018, the Group had 1,271,995 exercisable options outstanding (March 31, 2017: 1,891,920). The cost stock options have been accounted under intrinsic value over vesting period.

Quess, pursuant to resolutions passed by the Board and its Shareholders resolutions dated December 22, 2015 and December 23, 2015, respectively, adopted Quess Corp Limited Employee Stock Option Scheme 2015 ("ESOP 2015"). Pursuant to ESOP 2015, options to acquire Equity Shares may be granted to eligible employees (as defined in ESOP 2015). The aggregate number of Equity Shares, which may be issued under ESOP 2015, shall not exceed 1,900,000 (bonus adjusted) Equity Shares.

Scheme 2015

Quess has introduced the 'Scheme 2015' ('the Scheme') and has issued stock options of its own shares to specified employees of the Quess Group. The scheme was approved by the Board of Directors of Quess in its meeting held on December 22, 2015. The Scheme 2015 provides for the creation and issue of 475,000.00 options that would eventually convert into equity shares of Rs. 10.00 each in the hands of the employees. The options have a vesting schedule over a three year period and are exercisable within 3 years from the vesting date of each tranche. The exercise price of these stock options is Rs. 10.00. None of the outstanding options have been vested as at March 31, 2018. As at March 31, 2018, the Quess Group had nil exercisable options outstanding (March 31, 2017: Nil).

(b) Measurement of fair values

Scheme 2009

The Quess Group does not have any unvested option as at April 01, 2015 under Employee Stock Option Scheme 2009. The Quess Group has elected for the exemption of Employee Share based payment under Ind AS 101 and accordingly fair valuation of vested options prior to April 01, 2015 was not required.

Scheme 2015

The fair value of Employee Stock Options has been measured using Black Scholes Model of pricing. The fair value per Stock option of grant with vesting period of 1 year, 2 year and 3 years are Rs. 885.10, Rs. 885.60 and Rs. 886.10 respectively based on the Black Scholes Formula. The fair value has been calculated on the date of grant i.e. August 18, 2017.

The fair value of the options and the inputs used in the measurement of the grant-date fair values of the equity-settled share based payment plans are as follows:

Particulars	March 31, 2018	March 31, 2017
Share price at grant date (Rs.)	893.95	-
Exercise price (Rs.)	10.0	-
Risk free rate of interest	6.20%	-

(iv) Acquisition of Identified business of Manipal Integrated Services, including two of its subsidiaries namely Master Staffing Solutions Private Limited and Golden Star Facilities & Services Private Limited

During the previous year ended March 31, 2017, Qess Corp Limited ("Qess") had entered into definitive agreement with Manipal Integrated Services Private Limited ("MIS") dated November 28, 2016 to demerge the Facility Management Business and Catering Business (together means "Identified Business" or "Merged Business") of MIS through the Scheme of Arrangement ("the Scheme") at a consideration of Rs. 70,846.5 lakhs. The Board of Qess vide its meeting dated November 28, 2016 had approved the draft Scheme of Arrangement and filed the Scheme with BSE and NSE. Qess in the previous year had received the approval from BSE and NSE dated March 23, 2017 and March 27, 2017 respectively.

During the year, Qess has obtained approval from the National Company Law Tribunal ("NCLT") dated November 30, 2017, to merge Identified Business of MIS. The scheme has been filed with Registrar of Companies ('ROC') on December 13, 2017. The appointed date of the scheme is December 1, 2016 which is the effective date of merger approved by NCLT. The NCLT order override the requirements under Ind AS 103, Business Combinations, and hence Qess has considered the date of acquisition as December 1, 2016.

The identified business includes two subsidiaries namely Master Staffing Solutions Private Limited ("MSSP") (100% owned) and Golden Star Facilities & Services Private Limited ("GSFS") (60% owned). Qess has a contractual commitment to acquire the non-controlling interest in Golden Star Facilities & Services Private Limited, of which, 10% was acquired during the year. During the year, Qess has completed the purchase price allocation and has recognised assets and liabilities of the acquired business at its fair value including intangible assets. Post allocation of purchase price, Qess Group has recorded a goodwill of Rs. 60,055.1 lakhs.

The goodwill is attributable to value of benefits of expected synergies, future revenue and future market developments. Goodwill of identifiable business of MIS is deductible for income tax purposes and that of MSSP and GSFS is not deductible for income tax purposes. This acquisition is expected to provide with an increased share of Integrated facility management segment through access to the customer base. The Group also expects to reduce costs through economies of scale.

For the four months ended March 31, 2017, MSSP and GSFS contributed revenue of Rs. 9,219.4 lakhs and profit of Rs. 626.7 lakhs to the Group's results. Management estimates that if the acquisition had occurred on April 01, 2016, consolidated revenue and consolidated profit for the year would have been increased by Rs. 26,341.0 lakhs and Rs. 786.4 lakhs, respectively. The proforma amounts are not necessarily indicative of results that would have occurred if the acquisition had occurred on dates indicated or that may result in the future.

(vii) Acquisition of Monster.com (India) Private Limited, Monster.com.SG PTE Limited, Monster.com.HK Limited and Monster Malaysia SDN. BHD

On February 8, 2018, the Qess Corp Limited along with its wholly owned subsidiary Qesscorp Holdings Pte Ltd ("QHPL") has entered into an arrangement with Monster Group (Monster Emerging Markets LLC, Monster.Com Asia Ltd. and Monster Worldwide, Inc.) and Randstad Holding NV to acquire controlling stake in certain entities of Monster Group, namely, Monster.com (India) Private Limited, Monster.com.SG PTE Limited, Monster.com.HK Limited and Monster Malaysia SDN. BHD at an estimated consideration of Rs. 14,478.0 lakhs. These entities are engaged in providing online and mobile employment and recruitment solutions to its customers.

As the acquisition has been completed towards end of the financial year, the management has decided to avail the one year measurement period available as per Ind AS 103 for completing the purchase price allocation exercise. Accordingly, for the year ended March 31, 2018, the group has provisionally allocated the purchase consideration.

The fair value of net assets acquired on the acquisition date as a part of the transaction amounted to Rs. 6,971.0 lakhs. The excess of purchase consideration over the fair value of net assets acquired has been attributed towards goodwill aggregating to Rs. 7,507.0 lakhs. The goodwill is attributable to value of benefits of expected synergies, future revenue and future market developments. Goodwill is not deductible for income tax purposes.

Notes to the Consolidated Financial Statements (Continued)

for the year ended March 31, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

The fair value of purchase consideration of Rs. 14,478.0 lakhs comprise of upfront cash consideration of Rs. 14,050.7 lakhs and deferred consideration of Rs. 427.3 lakhs.

The purchase price has been allocated based on the report of a valuer which is as follows:

(iii) Acquisition of Comtel Solutions Pte Limited

On February 14, 2017, Quess Corp Limited through its wholly owned subsidiary Quesscorp Holdings Pte Ltd ("QHPL") had entered into Share Purchase Agreement ("SPA") with Comtel Solutions Pte. Ltd. ('Comtel') and its shareholder, Mr. Gopal Vasudev ("GV"), to acquire controlling stake in Comtel. Comtel is one of Singapore's independent staffing companies with services offered across staffing solutions, managed services solutions, and recruitment and search services. Quess Group in the previous year has opted for the measurement period exemption and has carried out the purchase price allocation on a provisional basis.

During the year, Quess Group has completed the purchase price allocation and has recognised assets and liabilities of the acquired business at its fair value including intangible assets. Based on the purchase price allocation, Quess Group has identified the customer relationships aggregating Rs. 7,966.7 lakhs as at February 14, 2017 to be amortised over its estimated useful life of 7 years. The fair value of net assets acquired on the acquisition date as a part of the transaction amounted to Rs. 13,600.7 lakhs. The excess of purchase consideration over the fair value of net assets acquired has been attributed towards goodwill aggregating to Rs. 11,864.9 lakhs. The goodwill is attributable to value of benefits of expected synergies, future revenue and future market developments. Goodwill is not deductible for income tax purposes. This acquisition is expected to provide with an increased share of Global technology solutions segment through access to the Comtel's customer base.

The fair value of purchase consideration is Rs. 25,465.6. The details are as follows:

38 Property related matters

- (a) During the financial year 2011-12, pursuant to One Time Settlement (OTS) scheme, Sterling had fully settled the dues of a Financial Institution (FI) and also obtained a 'No Due' certificate. However, the FI has not released the title deeds of the properties given as security for the reason that a Third Party has filed a writ petition against the FI challenging the cancellation of sale of the said property to them. Sterling is also a party to the said writ petition. The said writ petition was disposed off by Hon'ble High Court of Madras, against Sterling. Sterling has preferred Special Leave Petition (SLP) before the Hon'ble Supreme Court of India and the Court has ordered 'Status quo' in all respects concerning the said properties. The net book value of land and building as at March 31, 2018 in respect of the said property aggregates to Rs. 4,490.3 lakhs (March 31, 2017: Rs. 4,587.9 lakhs). In view of management and based on the independent legal opinion obtained, Sterling has a fair chance to succeed in appeal pending before Hon'ble Supreme Court of India.
- (b) Sterling had in the past transferred a property at Goa and part of the sale consideration amounting to Rs. 527.1 lakhs (March 31, 2017: Rs. 527.1 lakhs) (included under "Other Financial Assets") is retained by the buyer pending compliance of certain conditions. Sterling is confident of recovering this amount as it has taken effective steps for discharge of its obligations. Sterling is also legally advised that it has the right of vendor's lien against the immovable property sold to the extent of amount due. Sterling has filed a suit against the buyer for recovery of the amount. In view of the aforesaid, the above amount is considered good and recoverable by Management.
- (c) Sterling had in the past transferred a property of 7.3 acres out of 10.3 acres land parcel at Chail for consideration and with a condition that the buyer would construct 10 cottages in the 3 acres land retained by Sterling and handover the same. However, the buyer had taken the possession of the entire parcel of land and had not fulfilled the condition. The book value of the land is Rs. 87.4 lakhs. The title deeds for 3 acres of land is not available with Sterling. There is an arbitration award in favour of Sterling which Sterling is enforcing in the court of law. Sterling is of the view that it has a fair chance to succeed in its plea.

(d) Other property related matters

Property	Written down value	Remarks
Kodai Valley view	108.9	Title documents submitted with court as part of the plaint filed in response to litigation for title.
Hubli	6.6	Sale deed not registered in the name of Sterling. Sterling has paid the entire consideration and taken over possession of the property. Seller company has been liquidated. Sterling needs to file necessary suit to register the title.
Peermedu	1,514.6	Sterling is in possession of a leasehold land in Peermedu under finance lease. The lease deed relating to this land is yet to be registered by Sterling. Sterling has approached the Sub-court of Kattappana for suo-moto registration of the title deed in its name, based on underlying sale agreements.

41 Investments in sole proprietorship establishments

Styra Corp Management Services ("Styra") and IME Consultancy ("IME") are sole proprietorship establishments incorporated in Dubai, United Arab Emirates. Both these entities are registered in the name of Mr. Ajit Isaac and Mr. Mohamed Mazarooki has been appointed as local service agent. During the year, the Company has transferred the license of IME consulting in the name of Qesscorp Holdings Pte Ltd ("QHPL") and accordingly all the assets and liabilities of IME Consulting has become the assets and liabilities of QHPL as on April 01, 2017.

The Qess Group, based on a legal advice received from an external lawyer of Dubai, has not consolidated Styra as the Management believe that it will continue to operate as sole establishment under the registered ownership of and professional licenses held by Mr. Ajit Isaac, in accordance with applicable laws of United Arab Emirates. The Qess Group only holds the beneficial rights, title and interests and benefits derived there from assets and business of Styra, and does not directly or indirectly hold any voting power in it.

42 Business acquisitions

During the previous year, the Qess Corp Limited ("Qess") had entered into definitive agreement with Manipal Integrated Services Private Limited ("MIS") dated November 28, 2016 to demerge the Facility Management Business and Catering Business (together means "Identified Business") of MIS through the Scheme of Arrangement ("the Scheme"). The Qess Board vide its meeting dated November 28, 2016 had approved the draft Scheme of arrangement and filed the Scheme with BSE and NSE. Qess in the previous year had received the approval from BSE and NSE dated March 23, 2017 and March 27, 2017 respectively and has filed the Scheme with National Company Law Tribunal (NCLT) dated April 26, 2017.

During the year ended March 31, 2018, Qess has obtained approval from the National Company Law Tribunal ("NCLT") dated November 30, 2017, to merge Identified Business of MIS. The scheme has been filed with Registrar of Companies ("ROC") on December 13, 2017. The appointed date of the scheme is December 1, 2016 which is the effective date of merger approved by NCLT. The NCLT order override the requirements under Ind AS 103, Business Combinations, and hence Qess has considered the date of acquisition as December 1, 2016. Qess has considered the said merger as a business acquisition from the appointed date and accordingly have restated its previous years numbers including Earnings Per Share ("EPS").

The identified business includes two subsidiaries namely Master Staffing Solutions Private Limited ("MSSP") (100.00% owned) and Golden Star Facilities & Services Private Limited ("GSFS") (60.00% owned). Qess has a contractual commitment to acquire the non-controlling interest in Golden Star Facilities & Services Private Limited, of which, 10.00% was acquired during the year. During the year Qess has completed the purchase price allocation and has recognised assets and liabilities of the acquired business at its fair value including intangible assets. Post allocation of purchase price, Qess has recorded a goodwill of Rs. 60,055.1 lakhs.

On acquisition of Comtel Solutions Pte Limited, the Group, in the previous year has opted for the measurement period exemption and has carried out the purchase price allocation on a provisional basis. During the year, Qess has completed the purchase price allocation and has recognised assets and liabilities of the acquired business at its fair value including intangible assets. The accounting entries have been given impact to the previous year by restating reported numbers.

46 Transfer Pricing

The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international as well as specified domestic transactions (if applicable) entered into with the associated enterprise during the financial year and expects such records to be in existence latest by the end of the stipulated timeline, as required by law. The Management is of the opinion that its international as well as specified domestic transactions (if any) are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

47 Events occurring after the reporting period

(i) Declaration of final dividend:

Refer to Note 29(b) for the final dividend recommended by the directors which is subject to the approval of shareholders in the ensuing annual general meeting.

(ii) Scheme of Amalgamation and arrangement

The Board at its meeting held on April 23, 2018 approved the Composite Scheme of Arrangement and Amalgamation amongst Thomas Cook (India) Limited ('TCIL'), Qess Corp Limited ('QCL'), Travel Corporation (India) Limited ('TCI'), TC Forex Services Limited (formerly known as Tata Capital Forex Limited) ('TCF'), TC Travel and Services Limited ('TCTSL') and SOTC Travel Management Private Limited (formerly known as SITA Travels and Tours Private Limited) ('SOTC TRAVEL') and their respective shareholders ('the Scheme') in accordance with the provisions of Section 230 to 232 read with Section 52, 55, and 66 of the Companies Act, 2013. The Scheme inter-alia provides:

- i. Demerger of the inbound business of TCI consisting of business of handling inward foreign tourist activity from TCI into SOTC TRAVEL; and
- ii. Amalgamation of residual TCI, TCF and TCTSL with TCIL; and
- iii. Demerger of the Human Resource Services Business of TCIL (including shares in QCL held by TCIL) into QCL. As a part of consideration, QCL will issue its own shares to the shareholders of TCIL.

The Scheme is subject to requisite statutory and regulatory approvals and sanction by the respective shareholders of each of the companies involved in the Scheme.

(iii) Redemption of Non-Convertible Debentures (Unsecured) (NCD)

Pursuant to the terms of issue of Non-Convertible Debentures (Unsecured) (NCD) that were issued and allotted on a private placement basis during the financial year 2013, the Company on April 16, 2018 redeemed 334 Non Convertible Debentures (under Tranche III) of Rs. 10 lakhs each aggregating to Rs. 3,334.0 lakhs. The said NCD is delisted from BSE & NSE.

48 Pursuant to the acquisition agreement entered into by the Sterling Holiday Resorts Limited with the promoters of Nature Trails Resorts Private Limited (NTRPL), an amount of Rs. 500 lakhs with an interest of 12% will be paid to the promoters on the achievement of the agreed target. To enable this arrangement, NTRPL has issued 0.1 % Non-Cumulative Redeemable preference shares to the promoters which is redeemable at the end of 5 years. The management expects that NTRPL would achieve the target agreed with the promoter. Consequently, Rs. 610.8 lakhs (March 31, 2017 – Rs. 531.2 lakhs) has been recognized as contingent consideration. The fair value of the contingent consideration was estimated by calculating the present value of the future expected cash flow and the estimates are based on a discount rate of 15%. There are no changes to the above measurement, range of outcomes, valuation techniques from the acquisition date till the end of the current reporting period (i.e. March 31, 2018).

49 Corresponding figures for year ended March 31, 2017 have been audited by another auditor who expressed an unmodified opinion dated May 25, 2017 on the Ind AS financial statements of the Company.

50 The figures for the previous year are regrouped where ever required to conform to current year groupings in addition to the restatement done for the previous year figures. Also, the previous year figures are non comparable with that of the current year on account of acquisitions during the year (Refer note 35, 37 and 42).
