BUSINESS VERTICALS AT URJA

India has set a target of about 450 Gigawatt (GW) of installed renewable energy capacity by 2030, with solar energy is expected to contribute 280 GW (about 60 percent) of the total. With growing urbanisation, universal availability of electricity, and overall upward mobility, power demand in India is expected to triple by 2040. It is simply not feasible nor sustainable to meet this explosion of demand through traditional fossil fuels. Home solar and batteries will be a critical piece of this future, ensuring everyone has access to sustainable, affordable, and reliable power. We have the technology available today to meet this demand with clean energy. Over the last couple of years, the adoption of rooftop solar has been growing steadily, despite the overall penetration still being quite low. While the current initiatives are certainly welcome, there's more to be done, especially for rooftop solar. We at URJA develop products like Solar street lights, Solar power pack systems, Solar PV modules, Solar Inverter, Solar chargers, solar water heater, solar rooftop, solar water pump, solar atta chakki , solar home lighting system etc.

SOLAR POWERED HYBRID CHARGING STATION

A charging Station is a piece of equipment that supplies electric power for charging. There are two main types: AC charging station & DC charging Station. Electric Charging Station is an element in an infrastructure that supplies Electric Energy for the recharging of electric vehicles, such as E-Scooter, E-Rickshaw, E-Loader, E-Auto, E-Cars etc.

It helped the company to showcase its products and services to a wider audience, establish new business relationships, and learn about the latest trends in the market. The company looks forward to participating in similar exhibitions in the future and contributing towards the growth and development of the electric vehicle industry.

THANK YOU!

DEAR SHAREHOLDERS,

I am pleased to present to you our annual report for the year 2023. Despite the challenges posed by the pandemic, we have delivered strong financial performance and have made significant progress towards achieving our strategic goals.

I want to thank our team for their hard work and dedication in navigating the challenges of the past year. I also want to express my gratitude to our shareholders for their continued support and confidence in our company.

Looking ahead, we remain committed to delivering long-term value to our shareholders and to continuing our track record of success. We will focus on innovation, customer satisfaction, and operational excellence as we pursue new opportunities and overcome future challenges.

Thank you for your continued support of our company.

TRAINING & EDUCATION

To ensure the success of an electric vehicle and solar energy company, employee training and education are essential. Training can cover a variety of topics, including technical aspects, safety, customer service, sales, industry trends, and sustainability. Employees must be adequately trained to understand the latest developments and technologies in the industry, as well as how to install, maintain, and troubleshoot EV and solar energy systems safely. Sales training is also crucial for employees to effectively sell these products to potential customers. Additionally, employees should be aware of the environmental benefits of EV and solar technology and the company's sustainability goals. Staying up-to-date with industry trends and updates is also important to remain competitive. Overall, a well-trained and educated team is vital to the success of an EV and solar energy company.

HEALTH

There is a need to adopt technology wherever possible to streamline the operational and order to manage efficient patient flow. In addition, there is the challenge to think beyond the obvious and promote virtual care protocols, and tele-health services, which can be leveraged to reduce the patient-load burden to a large extent. Our Be-swasth is a Telemedicine website and application (for both android and ios) designed to provide primary care and medical consultation to every underprivileged citizen of India. We at Be-swasth are fully aware of the ongoing pandemic and the effects it has on the underprivileged so we are striving towards a country that has a better access to the healthcare system, no matter your location, no matter the emergency and that too at very sustainable prices. Be swasth values its contribution to the E-healthcare system and wants to contribute in better development of today's youth.

13. The route map showing directions to reach the venue of the 31st AGM is annexed.

14. The facility for voting through ballot paper shall be made available at the AGM and the members attending the meeting who have not cast their vote by remote e-voting shall be able to exercise their right at the meeting through ballot paper.

15. The members who have cast their vote by remote e-voting prior to the AGM may also attend the AGM but shall not be entitled to cast their vote again.

16. Voting rights shall be reckoned on the paid up value of shares registered in the name of the member/beneficial owners (in case of electronic shareholding) as on the cut-off date i.e. Wednesday, 24th May, 2023.

17. **VOTING THROUGH ELECTRONIC MEANS:** Pursuant to provisions of Section 108 of the Act and Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended by the Companies (Management and Administration) Amendment Rules, 2015 and Regulation 44 of the SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015, the Company is pleased to provide members, the facility to exercise their right to vote at the 31st Annual General Meeting (AGM) by electronic means and the business may be transacted through e-Voting Services. The facility of casting the votes by the members using an electronic voting system from a place other than venue of the AGM ("remote e-voting") will be provided by Central Depository Services Limited (CDSL).

I. The Board of directors has appointed M/s Nupur Jain & Associates, Company Secretaries (COP No. 20313) as the Scrutinizer to scrutinize the voting at the meeting and remote e-voting process in a fair and transparent manner.

II. The remote e-voting period commences on Sunday, 28th May, 2023 (9:00 am) and ends on Tuesday, 30th May, 2023 (5:00 pm). During this period members of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of Wednesday, 24th May, 2023 may cast their vote by remote e-voting. The remote e-voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the member, the member shall not be allowed to change it subsequently.

III. The instructions Of Shareholders For Remote E-Voting:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

(i). The voting period begins on Sunday, 28th May, 2023 (9:00 am) and ends on Tuesday, 30th May, 2023 (5:00 pm). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Wednesday, 24th May, 2023 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii). Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii). Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

(iv). In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

(i). The voting period begins on 28th May, 2023 (9:00 A.M. IST) and ends on 30th May, 2023 (5:00 P.M. IST). During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 24th May, 2023 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii). Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii). Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

(iv). In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Explanatory statement pursuant to Section 102 of the Companies Act, 2013

ITEM NO. 3:

Ms. Mita Sinha (DIN: 08067460), a Non-Executive Independent Director on the Board of the Company, was initially appointed on the Board on February 14, 2018. She is also a member on the Audit Committee and Nomination & Remuneration Committee of the Company.

Section 149(10) of the Companies Act, 2013 (the "Act") provides that the appointment of any Independent Director on Board of a Company cannot exceed two consecutive terms of five years each. Also, the office of an Independent Director is not liable to be determined by retirement by rotation.

The First Term of 5 years of Ms. Mita Sinha as an Independent Director on Board will lapse on February 14, 2023. The NRC Committee, as well Board have proposed the appointment of Ms. Mita Sinha as an Independent Director for the second term of 5 consecutive years, subject to the approval of the Members of the Company and a resolution has been proposed in this Notice convening the 31st Annual General Meeting.

A brief profile of Ms. Mita Sinha (DIN: 08067460) is given hereunder:

Ms. Mita Sinha holds B.Sc degree from Garwal University, M.Sc. in Microbiology from NDRI, Qualified National Eligibility test in 2002 and PhD in Environmental Sciences. She is a lecturer in Delhi Pharmaceutical Research University and All India Institute of Local Self Government.

In the opinion of your Board, Ms. Mita Sinha fulfills the conditions for appointment as an Independent Director as specified in the Act and Listing Regulations and is independent of the management.

Ms. Mita Sinha is not disqualified from being appointed as Director in terms of Section 164 of the Act.

The Board considers that her association would be of immense benefit to the Company and it is desirable to avail her services as Independent Director. Accordingly, the Board recommends the resolution No. 3 in relation to the re-appointment of Ms. Mita Sinha, for the approval by the Members of the Company.

None of the other Directors /Key managerial Personnel of the Company /their relatives except of Ms. Mita Sinha herself is, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No. 3 of the Notice.

ITEM NO. 4: Regularize Mr. Gajanand Gupta as Director of the Company

Mr. Gajanand Gupta, aged 58 years, is a Chartered Accountant and member of Institute of Chartered Accountants of India (ICAI) since 1992 and graduated from University of Rajasthan. Mr. Gajanand Gupta has rich experience in Corporate Finance and Business Advisory, Business Planning & Decision Making, Audit and Assurance Services.

The Board on the recommendation of the Nomination & Remuneration Committee at its meeting held on 03rd March, 2023, approved the appointment of Mr. Gajanand Gupta (DIN: 01819397) as Additional Director designated as Whole Time Director (Executive Director) of the Company for a period of five years, with effect from 03rd March, 2023, subject to approval of shareholders at the forthcoming Annual General Meeting.

Pursuant to Sections 196, 197, 203 and other applicable provisions of the Companies Act, 2013, (the Act) the Companies (Appointment and Qualification of Directors), Rules, 2014, and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 read with Schedule V of the Companies Act, 2013 (including any statutory modification(s) or re-enactment thereof for the time being in force, the appointment of Mr. Gajanand Gupta, requires approval of the Members by way of special resolution.

The Company has received from Mr. Gajanand Gupta (i) consent in writing to act as as Director in Form DIR-2 pursuant to Rule 8 of the Companies (Appointment & Qualification of Directors) Rules, 2014; (ii) intimation in Form DIR-8 pursuant to Rule 14 of the Companies (Appointment & Qualification of Directors) Rules, 2014 to the effect that he/she is not disqualified in accordance with sub-section (2) of Section 164 of the Act. In terms of Section 160 of the Companies Act, 2013, the Company has received notice in writing from a member, proposing the candidature of Mr. Gajanand Gupta for appointment.

Both the Nomination and Remuneration Committee and the Board were of the opinion, after evaluation of his qualifications, experience and other attributes, that his induction on the Board would be of immense benefit to the Company and it is desirable to avail his services as a Director to strengthen the management of the Company.

The terms and conditions of the appointment and remuneration payable to Mr. Gajanand Gupta are provided in the resolution referred in Item No. 4 respectively.

The Board recommends the Special Resolution set out at Item No. 4 of the Notice for approval by the Shareholders. None of the other Directors/Key managerial Personnel of the Company /their relatives except Mr. Gajanand Gupta himself is, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No.4 of the Notice.

SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED MARCH 31, 2022
[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the
Companies (Appointment and Remuneration of Managerial Personnel)
Rules, 2014]

To
The Members,
Urja Global Limited
CIN NO: L67120DL1992PLC048983

I, Nupur Jain, Proprietor of Nupur Jain & Associates, Company Secretaries have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by "URJA GLOBAL LIMITED" (CIN NO: L67120DL199 2PLC048983) (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on my verification of the company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the Financial Year ended on March 31, 2023 complied with the statutory provisions listed hereunder and also that the Company has proper board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the company for the financial year ended 31st March, 2023 according to the provisions of:

- a) The Companies Act, 2013 (as amended) ('the Act') and the Rules made thereunder;
- b) The Securities Contracts (Regulation) Act, 1956 (as amended) ('SCRA') and the Rules made there under;
- c) The Depositories Act, 1996 (as amended) and the Regulations and Bye-laws framed there under;
- d) Foreign Exchange Management Act, 1999 ('FEMA') and the rules and regulations made there under to the extent of Foreign Direct Investment (FDI), Overseas Direct Investment (ODI) and External Commercial Borrowings (ECB); (Not applicable as no FDI, ODI and ECB was invited and accepted by the Company during the period under review);
- e) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
- f) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
- g) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- h) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

- i) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (Not applicable as the company has not issued shares in terms of the above regulations during the period under review);
- j) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 (Not applicable as the company has not issued and listed debt securities during the period under review);
- k) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act, 2013 and dealing with client (Not applicable as the Company is not registered as Registrar to Issue and Share Transfer Agent during the period under review);
- l) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (as amended (Not applicable as the company has not issued and listed debt securities during the period under review);
- m) The Securities and Exchange Board of India (Buy Back of Securities) Regulations, 1998 (Not applicable as the company has not brought back/ propose to any of its security during the period under review) and
- n) The Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards (SS-1 and SS-2) issued by The Institute of Company Secretaries of India; and
- (ii) Listing Agreements entered into by the Company with BSE Limited and the National Stock Exchange of India Limited.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period under review:

1. The Company had delayed in filing the Audited Financials for the Quarter/Year ended 31st March, 2022 for which National Stock Exchange had levied a fine amounting INR 1,29,800/- on which the Company has filed the clarification to the exchange and later on paid the fine amount and on the basis of discussion with the Management, no such kind of notice has been received from the Bombay Stock Exchange.
2. The Company had delayed in filing the Shareholding pattern for the quarter ended June 30, 2022 due to stoppage of Benpose Data from Central Depository Services (India) Limited (CDSL) for which NSE & BSE had levied a fine amounting INR 56,160/- each on which the Company has filed the clarification to the exchange and later on paid the fine amount.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. We feel that the Company should provide a better system of maintaining the structured digital database as required under Regulation 3(5) of the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015.

During the period under review there were no any specific events / actions having a major bearing on Company's affairs in pursuance of the above-referred laws, rules, regulations, guidelines, standards etc.:

INDIAN ECONOMIC OVERVIEW

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022-23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022-2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalization of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

CONSUMER GOODS INDUSTRY IN INDIA

India's consumer market, with its dramatic increase in demand, rapid economic growth and rising young technical labor force, makes it an increasingly interesting FDI destination. India's economy is domestic consumption-driven by its population of 1.4 billion. It is the third largest economy in the world in terms of purchasing power parity, a fact that is increasingly impossible for multinational companies to ignore. The Indian economy has recovered to pre-pandemic levels, with real GDP growth in FY 2021-22 at 8.2%, 1% higher than in FY 2019-20.

Fast-moving consumer goods (FMCG) sales are fueling economic expansion, as they increased by 16% in 2021, driving a nine-year high in consumption-led growth. FMCG is the fourth-largest sector in the Indian economy, with a market size of US\$110 billion in 2020. It is expected to double by 2025.

More than half of the overall revenue in FMCG comes from the urban segment, but rural markets show the fastest year-over-year growth. Market share is 50% for Household and Personal Care, followed by Healthcare (31%) and Food and Beverages (19%). The shift to an organized market, increasing rural consumption and e-commerce are the key drivers of FMCG growth in India.

Despite its English-speaking, low-cost, and well-educated technical labor force, India historically has not been a popular location to establish export-oriented manufacturing. But today, many companies are now making decisions to invest in manufacturing in India that can both accommodate growing domestic demand and serve as an export base.

Government Support to Boost Domestic Manufacturing

India's government recognizes that now is the time to promote manufacturing FDI. To lure foreign companies to invest in India, the government in October 2021 launched a new scheme called "Gati Shakti" or "Strength and Speed" to streamline the notoriously bureaucratic and cumbersome processes of establishing an entity and obtaining the numerous approvals and operating licenses to do business. Under this program, 16 ministries will be connected through a single digital platform, providing investors a one-stop solution for approvals.

In October, Prime Minister Narendra Modi approved \$1.2 trillion to boost the program and help speed up infrastructure projects, especially roads, railway networks, ports and airports.

THE BUSINESS

Urja Global is one of leading consumer goods companies. It has been the well known name in the batteries, solar and electric vehicles. The Company's contemporary product portfolio in the domestic market comprises batteries, Solar batteries, E-rickshaw and E-scooters.

The Company continues to leverage its wide distribution network with a range of product offerings in the lighting and electrical segment. The Company believes that the Urja brand is a natural fit to the lighting and electrical category. Company plans to persist in its efforts to be a significant player in these product segments. Towards this objective, additional efforts are being put to align distribution to the needs of this trade. The platform of the Company today is to provide portable power and lighting - and the products as mentioned above are aligned to that platform. Company expects to strengthen its presence across these products through increasing value and volumes in the future.

Over the decades, we are working in the dry cell batteries markets in the country. The Company's contemporary product portfolio in the domestic market comprises the following:

RECHARGEABLE BATTERIES MARKET OUTLOOK

The global rechargeable batteries market was held to be \$28.1 billion in 2021 and projected to reach \$49.7 billion by 2030. Rechargeable batteries market is expected to grow at a CAGR of 6.1% during the forecast period i.e. 2022-2030.

After the battery's power is depleted, a rechargeable battery may be repeatedly recharged by connecting its terminals to a DC current. Rechargeable batteries offer several uses for each cell and are an excellent long-term investment in terms of money spent on rechargeable gadgets.

Rechargeable batteries are typically a more dependable, environmentally friendly, and long-lasting alternative to non-rechargeable batteries. Non-rechargeable batteries generate current through a chemical reaction in which the battery's reactive anode is consumed.

The recent report on "Global Rechargeable Battery Market" offered by Analytics Market Research, comprises of a comprehensive investigation into the geographical landscape, industry size along with the revenue estimation of the business. Additionally, the report also highlights the challenges impeding market growth and expansion strategies employed by leading companies in the "Rechargeable Battery Market".

An exhaustive competition analysis that covers insightful data on industry leaders is intended to help potential market entrants and existing players in competition with the right direction to arrive at their decisions. Market structure analysis discusses in detail Rechargeable Battery companies with their profiles, revenue shares in market, comprehensive portfolio of their offerings, networking and distribution strategies, regional market footprints, and much more.

SOLAR- RENEWABLE ENERGY TARGET

In 2022, the amount of renewable energy capacity is anticipated to grow by more than 8% and reach about 320 GW. "However, unless new policies are implemented rapidly, growth remains stable in 2023 because solar PV expansion cannot fully compensate for lower hydropower and steady year-on-year wind additions", the report read.

The growing emphasis on energy security, particularly in the European Union, is also sparking an unparalleled legislative push towards boosting energy efficiency and renewables, even as looming market uncertainties exacerbate obstacles. Ultimately, whether new and stronger rules will be presented and implemented in the upcoming six months will determine the prediction of renewable markets for 2023 and beyond, the report stated.

ELECTRIC VEHICLES NEED

In fiscal year 22-23, India's electric car sales surpassed one million units. According to the most recent figures from the Society of Manufacturers of Electric Vehicles (SMEV), the whole EV industry sold 1,152,021 units in FY 2023, including e-buses, e-cars, e-three-wheelers, and e-two-wheelers. This is a 58% increase over the 726,861 units sold in FY21-22. The industry sold 726,976 high-speed e-two wheelers, accounting for 62% of the EV pie, while adoption declined month on month, "finishing with an annual shortfall of more than 25% above the minimal objective set by Niti Aayog," according to a statement from SMEV.

In fiscal year 22-23, India's electric car sales surpassed one million units. This is a 58% increase over the 726,861 units sold in FY21-22. The industry sold 726,976 high-speed e-two wheelers, accounting for 62% of the EV pie, while adoption declined month on month, "finishing with an annual shortfall of more than 25% above the minimal objective set by Niti Aayog," according to a statement from SMEV.

Apart from that, the two-wheeler sales tally also comprised 120,000 low-speed e-scooters, 285,443 low-speed e-rickshaws, and roughly 50,000 low-speed e-cycles, totaling 846,976 units in FY23. This is a significant increase from the 27,888 electric two-wheelers sold in FY17 and over three times the 328,000 units sold in FY22. In FY23, electric three-wheelers accounted for 34% of the EV market, with 401,841 units sold. Electric four wheelers sold 47,217 units at 4%, while electric buses sold 1904 units at 0.16

However, industry has expressed concern over the suspension of FAME2 subsidies for businesses that do not fulfill localization requirements, claiming that it has hurt sales. According to the SMEV statement, the momentum in electric two-wheeler adoption "fell after the festive season not because of consumer demand but because of the sudden withholding of more than the Rs 1,200 crore subsidy already passed on to customers by the majority of OEMs on the pretext of delay in localization." "Another Rs 400 crore of premium-end OEMs has got delayed owing to the charge of under-invoicing to avoid FAME norms."

Currently, 16 companies are waiting for this impasse to be resolved. "While all earlier schemes since 2015 had limited influence on EV adoption, the amended FAME2 had a major effect on e-two wheeler adoption since it reduced their pricing by roughly 35%," said Sohinder Gill, director general, SMEV. This began to draw the component supply chain, which had hitherto eschewed having to do with electric two-wheelers due to extremely low volumes. Suppliers began lining up to OEMs in late 2021 to demonstrate their readiness to create EV components.

Most of these suppliers took the standard 12 to 18 months to localise, and most of them have already begun to build significant capacity.

DIGITIZATION OF HEALTHCARE

Early in the COVID-19 pandemic, telehealth usage surged as consumers and providers sought ways to safely access and deliver healthcare. In April 2020, overall telehealth utilization for office visits and outpatient care was 78 times higher than in February 2020.

This step-change, borne out of necessity, was enabled by these factors:

- 1) Increased consumer willingness to use telehealth,
- 2) Increased provider willingness to use telehealth,
- 3) Regulatory changes enabling greater access and reimbursement.

During the tragedy of the pandemic, telehealth offered a bridge to care, and now offers a chance to reinvent virtual and hybrid virtual/in person care models, with a goal of improved healthcare access, outcomes, and affordability.

A year ago, we estimated that up to \$250 billion of US healthcare spend could potentially be shifted to virtual or virtually enabled care. Approaching this potential level of virtual health is not a foregone conclusion. It would likely require sustained consumer and clinician adoption and accelerated redesign of care pathways to incorporate virtual modalities.

As of July 2021, we step back to review the progress of telehealth since the initial COVID-19 spike and to assess implications for telehealth and virtual health more broadly going forward.

RISKS AND CONCERNS

The only foreseeable risk in this category seems to be the ability to cope up with the dynamics of an evolving market and get the first mover advantage. This needs to be tackled through a range of quality product offerings at competitive prices.

At Urja, the risk management framework sets guidelines for operations so that the Company can continue on the path of sustainable change. These risks are monitored for changes in their exposure and are reported during the course of a year.

- Urja continuously monitors the global environment, works with advisors, partners and governments. Our well-diversified business across geographies and industry verticals ensure sustainable business growth.
- The company has a price escalation clause with its major clients for compensating it with any price volatility. However, the chances of lag in price rise in input and finished goods always remain.
- The Company places utmost importance on ensuring the safety of its employees, visitors to our premises and the communities we operate in. The Company has been achieving continuous improvement in safety performance through a combination of systems and processes as well as co-operation and support of all employees. The Company has robust training programs and reporting mechanisms in place designed to ensure regulatory compliance and mitigate the risks associated with workplace injury and conducts regular safety audits. The Company has developed programs to promote a healthy and safe workplace, as well as progressive employment policies focused on the well-being of our employees who work in it. These policies and programs are reviewed regularly by the Board of Directors.
- The Company has been operating in a competitive environment since its inception. The Company has deep domain knowledge, state of art manufacturing facilities, a skilled workforce, delivery capabilities, efficient sales force, and economies of scale to help retain its competitive positioning amongst peers.

Succession plans have been identified for key roles including the depth of management talent throughout the Company and its subsidiaries. We invest heavily in “hiring right” and “talent development & engagement”. This helps provide fulfilling careers to members in Urja.

- Urja has a dedicated in-house compliance team that manages these operations. We have knowledgeable consultants’ across the countries who support us in adhering to country-specific compliance requirements. Further, the Company has invested in compliance systems and processes to ensure that all its functions and units are aware of the laws and regulations to comply with and that adequate Monitoring mechanisms are put in place to ensure compliance. Urja appoints local business leaders and management teams who bring a strong understanding of the local operating environment and strong customer relationships.

INTERNAL CONTROL SYSTEMS

The Company has adequate internal control procedures commensurate with its size and nature of business. Their objective is to ensure efficient usage and protection of the Company’s resources, accuracy in financial reporting and due compliance of statutes and procedures. The existing system provides for structured work instructions and clearly laid down procedures for authorization and approval for the purchase and sale of goods and services. It also provides for reserved responsibility of custodial control with identified personnel, and use of computerized systems to ensure controls at source.

The Company has had a full-fledged in house Internal Audit Department manned by trained professionals till March 31, 2023. The Audit Committee of the Board of Directors, Statutory Auditors and the Business Heads are periodically apprised Audit plays a key role in providing assurance to the Board actions taken by the management are presented to the Audit Committee of the Board. The pre audit and post audit checks and reviews are being carried out to ensure follow up on the observations made by the audit teams.

The Audit Committee of the Board, in its periodic meetings, reviews the Internal Audit reports, the progress in implementation of their recommendations and the adequacy of internal control systems. The Company has a well-documented Risk Management System, which is reviewed by an active Steering Committee appointed by the Board of Directors. The risk registrar does identify a few risks, which are routine in nature and none of which present any significant impact. There is a mitigation system in place which addresses these risks as part of the routine management process.

Based on its evaluation (as defined in Section 177 of Companies Act 2013 and Regulation 18 of SEBI Regulations, 2015), the audit committee has concluded that, as of March 31, 2023, internal financial controls were adequate and operating effectively.

HUMAN RESOURCES

People power is one of the pillars of success at Urja. The Company employs nearly individuals across its various plants and branch locations, who share a passion for excellence. The key attributes of human capital at Urja are a rich knowledge base, expertise and experience.

The employee-management relations remained cordial throughout 2022-23. The human resource management system at Urja puts emphasis on rewarding merit based performance and raising the skill level of employees.

COMPANY’S PERFORMANCE REVIEWS

From an organisational standpoint, Urja Global Limited views FY 2022-23 as an eventful and somewhat challenging year. During 2022-23, the category turnover was at Rs. 4038.45 Lakhs, lower than the previous year. However, the growth remained high in comparison to the industry, partially due to high volume in sales. High inflation also impacted demand during the latter part of the year. The segment registered net profit before tax Rs.179.02 Lakhs during the year. The category is expected to grow strongly in the coming years with expansion of distribution and product range.

We have launched out E-scooter with two variants i.e. E-life and E-zess in October, 2021 to reduce vehicular pollution. M/s Urja Digital World Limited, a wholly-owned subsidiary of Urja Global Limited was incorporated on 2020, to carry out the online business of E- Urja, E – vehicles, E – connect, E-health & E-education, etc. at Urja Kendra’s. Through this initiative, the Company is looking to promote sales of Electric Vehicles. With declining costs and improving performance, LED products have been seeing increased adoption for general illumination applications. This is a positive development in terms of energy consumption, as LEDs use significantly less electricity per lumen produced than many traditional lighting technologies.

Solar power in India at the current level is already cheaper than electricity generated through diesel. Support from various Central and States governments for the solar power industry is continuously increasing.

FINANCIAL PERFORMANCE

During the year 2022-23 under review, the Company’s Net Sales were Rs. 3918.29/- Lakhs as against Rs.6238.75/-Lakhs last year. Net Profit was Rs. 134.09/- as against Rs. 66.20/-Lakhs last year.

FINANCIAL PERFORMANCE

We have launched out E-scooter with two variants i.e. E-life and E-zess in October, 2021 to reduce vehicular pollution. M/s Urja Digital World Limited, a wholly-owned subsidiary of Urja Global Limited was incorporated on 2020, to carry out the online business of E- Urja, E – vehicles, E – connect, E-health & E-education, etc. at Urja Kendra's. Through this initiative, the Company is looking to promote sales of Electric Vehicles. With declining costs and improving performance, LED products have been seeing increased adoption for general illumination applications. This is a positive development in terms of energy consumption, as LEDs use significantly less electricity per lumen produced than many traditional lighting technologies.

Urja Global Limited

Notes to financial statements for the year ended 31 March 2023

(Amount in Rupees, unless otherwise stated)

1.1 Corporate information

Urja Global Limited was incorporated in India on May 29, 1992 and is a company registered under the Companies Act, 1956. The registered office of the Company is located at 487/63, 1st Floor, National Market, Peeragarhi, New Delhi-110087 India. The principal place of business of the Company is in India.

The Company is primarily engaged in the business of "Design, Consultancy, integration, supply, installation, commissioning & maintenance of off-grid and grid connected Solar Power Plants and decentralized Solar Application and trading of solar products, Lead Acid Batteries, Electric vehicles.

1.1 Basis of Preparation

The financial statements of the Company have been prepared on an accrual basis and under the historical cost convention except for certain financial instruments (including derivative instruments) and defined benefit plans which have been measured at fair value. The accounting policies are consistently applied by the Company to all the period mentioned in the financial statements.

The financial statements ("Financial Statements") of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies' (Indian Accounting Standard) Rules, 2015, as amended from time to time.

2 Summary of significant accounting policies

2.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2 Fixed Assets

Tangible Assets

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment includes interest on borrowings attributable to acquisition of qualifying assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Subsequent expenditure relating to property, plant and equipment is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance. All repair and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Depreciation on property, plant and equipments have been provided on the basis of straight line method over the useful lives of assets as per useful life prescribed under Schedule II of Companies Act, 2013.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Company can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on a straight line basis over the period of expected future benefit from the related project, i.e., the estimated useful life of one to five years. Amortization is recognized in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

2.3 Impairment of non-financial assets

For all non-financial assets, the Company assesses whether there are indicators of impairment. If such an indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs.

The recoverable amount for an asset or CGU is the higher of its value in use and fair value less costs of disposal. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount the asset is considered impaired and the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

The Company bases its impairment calculation on detailed budgets and forecast calculations. These budgets and forecast calculations generally cover a period of five years.

For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's or CGU's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

2.4 Foreign Currency

Functional and presentational currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which it operates i.e. the "functional currency". The Company's Financial Statements are presented in INR, which is also the Company's functional currency as well as its presentation currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's functional currency at exchange rates prevailing at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.5 Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost

Stock in trade in the books is considered in the accounts where the variance between book stock and measured stock is upto +/- 5%, and in case where the variance is beyond +/- 5% the measured stock is considered. Such stocks are valued at lower of cost and net realizable value.

2.6 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The following specific recognition criteria must also be met before revenue is recognized.

(i) Sale of Goods:

Revenue from Sale of goods is recognised when the goods are delivered and titles have passed, at which time all the conditions are satisfied :

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods which in general coincides with the invoicing of goods.
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- the amount of revenue can be measured reliably.
- it is probable that the economic benefits associated with the transaction will flow to the Company.
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

(ii) Income from services:

Service revenue is recognised on completion of provision of services which in general coincides with invoicing to customers. Revenue, net of discount, is recognised on transfer of all significant risks and rewards to the customer and when no significant uncertainty exists regarding realisation of consideration.

Revenue from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred. Revenues from time bound fixed price contracts, are recognised over the life of the contract using the percentage of completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

(iii) Interest Income:

Interest income is recognised on an accrual basis using effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

2.7 Taxes on income

Current tax

Provision for current tax is made as per the provisions of the Income Tax Act, 1961.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The Company has opted New Tax regime under section 115BAA. Minimum Alternate Tax (MAT) is not applicable on Companies opting Section 115BAA.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.8 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost - The Company has Investments , loans, Other Financial Assets, Inventories, cash & cash equivalents, security deposits, other bank balances, trade receivables, bank deposits for more than 12 months classified within this category.
- Debt instruments at fair value through other comprehensive income (FVTOCI) - The Company does not have any financial asset classified in this category.
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL) - The Company does not have any investment classified within this category.

- Equity instruments measured at fair value through other comprehensive income (FVTOCI) - The Company does not have any financial asset classified in this category.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows,
and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The company has designated Investments as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's consolidated balance sheet) when:

1. The rights to receive cash flows from the asset have expired, or
2. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are measured at amortised cost e.g., deposits, trade receivables, unbilled revenue and bank balance.

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Financial liabilities

The Company's financial liabilities include trade and other payables and employee related liabilities.

At the time of initial recognition, financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings or trade and other payables (payables).

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.9 Provisions, Contingent Liabilities And Contingent Assets

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.10 Cash and cash equivalents

Cash and cash equivalent in the balance sheet and for the purpose of cash flow statement comprise cash at banks.

2.9 Provisions, Contingent Liabilities And Contingent Assets

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

Urja Global Limited

Notes to financial statements for the year ended 31 March 2023

(Amount in Rupees, unless otherwise stated)

Note 26 – Earnings per Share

Basic and Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the company (after adjusting for employee stock options) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	31-Mar-23	31-Mar-22
Net Profit after tax (Amount in Rs.)	#REF!	66.20
Weighted average Number of Equity Shares	5,572.06	5,572.06

Note 29 – Income Tax

Deferred Tax Assets for the year of Rs. 12364/- as per Indian Accounting Standards 12 on Accounting for Taxes on income pertaining to the timing between the accounting income and the taxable income has been recognized by the management in the Profit & Loss Account.

Note 30 – Significant accounting judgments, estimates and assumptions

The preparation of the company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

ESTIMATES AND ASSUMPTIONS

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Note 31 – Fair values

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	Carrying value		Fair value	
	31-Mar-23	As at 31-Mar-22	As at 31-Mar-23	As at 31-Mar-22
		INR	INR	INR
FINANCIAL ASSETS				
a) Financial assets measured at amortised cost				
Investments in Equity Instruments (Refer Note 4)	5,531	5,531	5,531	5,531
Loans (Refer Note 5)	2,444	1,847	2,444	1,847
Other Financial Assets (Refer Note 6)	0	0	0	0
Cash and cash equivalents (Refer Note 7)	45	1	45	1
Other Bank Balances (Refer Note 8)	6	5	6	5
Trade Receivables (Refer Note 9)	9887	38,403	9887	38,403
Inventories (Refer Note 10)	1,086	520	1,086	520
FINANCIAL LIABILITIES				
Financial liabilities measured at amortised cost				
Loans (Refer Note 14)	-	1	-	1
Trade payables (Refer Note 15)	7360	37,025	7360	37,025
Other Financial Liabilities (Refer Note 16)	1842	808	1842	808

The management assessed that cash and cash equivalents, trade receivables, other bank balances and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company determines fair values of financial assets and financial liabilities by discounting the contractual cash inflows/ outflows using prevailing interest rates of financial instruments with similar terms. The initial measurement of financial assets and financial liabilities is at fair value. The fair value of investment is determined using quoted net assets value from the fund. Further, the subsequent measurement of all financial assets and liabilities (other than investment in mutual funds) is at amortised cost, using the effective interest method.

Note 32 – Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade payables, employee related liabilities, etc. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents, security deposits, etc. that derive directly from its operations. The Company also holds FVTPL investments.

The Company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. The company's senior management is responsible for formulating an appropriate financial risk governance framework for the Company and periodically reviewing the same. The company's senior management ensures that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The company's senior management reviews and agrees policies for managing each of these risks, which are summarised below.

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and price risk. Financial instruments affected by market risk include fixed deposits and FVTPL investments.

(i) Interest Rate Risk

The company does not have any borrowings or significant interest bearing assets. So, the Company is not exposed to such risk.

(ii) Foreign currency Risk

The Indian Rupee is the Company's most significant currency. As a consequence, the Company's results are presented in Indian Rupee. Foreign currency risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company transacts business majorly in local currency and there is no significant foreign currency transactions, therefore do not pose a significant foreign currency risk on the company.

(a) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the Balance Sheet at reporting dates are the carrying amounts as illustrated in note below.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:"

Independent Auditor's Report

To
The Members of URJA GLOBAL LIMITED

Report on the Consolidated Financial Statements

We have audited the Consolidated financial statements of URJA GLOBAL LIMITED (“the Company”), and its subsidiaries (the company and its subsidiaries together referred to as the “Group”) which comprise the Consolidated Balance Sheet as at March 31, 2023, and the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the Consolidated financial statements”).

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these Consolidated financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (IND AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of user taken on basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and access the risk of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Consolidated financial statements in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguard

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is insufficient but appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

We conducted our audit in accordance with the applicable auditing standards, which requires us to obtain sufficient appropriate audit evidence to provide a basis for our opinion. Due to time constraints, we have relied on the report of the internal auditors along with management clarifications with respect to the assessment of the effectiveness of internal control over financial reporting and audit findings as per internal audit report.

We have reviewed the internal auditors' work and have concluded that it was appropriate and reliable for the purposes of our audit. We have also evaluated the extent of our reliance on the internal auditors' work and have determined that it is appropriate in the circumstances.

The Company was unable to provide sufficient proofs and explanations with respect to Various Investment made by it in different mines and projects.

Due to time constraints and unavailability of enough financial data and other information, evidence obtained or otherwise, we conclude that the misstatements are material but not pervasive to the financial statements.

The opinion is subject to the fact that we did not had any access to the documents and data of the company for the previous financial year due to GST raid in July, 2022 where the department seized all the data of the company as informed by the management to us.

Inability to obtain written representations from management regarding various account balances, transactions, disclosures and certain assertions constituting a limitation on the scope of the audit.

As per information made available to us, Trade receivables amounting to Rs. 370.67 Crores had an ageing of more than 180 days as on 31.03.2023. Of these debtors worth Rs. 195.02 Crores were sent recovery letters during quarter ended 30.09.2022 for balance and payment confirmation, however, such letters were undelivered and returned due to non-existence of parties at the location. Out of these, Trade receivables amounting to Rs. 327.72 Crores were adjusted through Trade payables and Debtor Control Ledger account, resulting into inappropriate accounting treatment followed for such account balance.

Also the Company has not done the reversal of GST input of Rs. 14,22,73,743/- (excluding interest as payable thereon) for the tax period 2017-18 to 2020-21 due to non payment to creditors within a stipulated time as prescribed in terms of 2nd proviso to section 16(2) of CGST Act, 2017.

Accordingly, the statutory liability would have been increased by Rs. 14,22,73,743/- and the Net Worth would have been reduced by Rs. 14,22,73,743/- respectively. This matter is also disclosed in our Report on Other Legal and Regulatory Requirements in paragraph below.

As per information and according to the explanations given to us, the company has not received any notice or demand letter on this GST input reversal from the GST department.

Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the affects of the matter described in the Basis for Qualified Opinion paragraph above, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Other matter

We did not audit the financial statement as at March 31, 2023 included in the accompanying consolidated financial statements in respect of subsidiaries of the company, whose IND AS financial statement and the other financial information have been audited by other auditors in accordance with accounting principles generally accepted accounting in India. Our opinion is not qualified of this matter.

Our opinion on the consolidated financial statements, and our report on other legal and regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the IND AS financial statements certified by management.

Other Information

The Company's management and Board of Directors of the company and its subsidiaries are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the Consolidated financial statements and our auditors' report thereon.

Our opinion on the Consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the

Consolidated financial statement or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought but obtained partial information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

ANNEXURE-“A” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF URJA GLOBAL AS ON 31ST MARCH 2023

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

To the Members of
URJA GLOBAL LIMITED

We have audited the internal financial controls over financial reporting of URJA GLOBAL LIMITED (“the Company”) and its subsidiaries as of March 31, 2023 in conjunction with our audit of the Consolidated financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and its subsidiaries considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company and its subsidiaries internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate except in Urja Global Limited for goods inward and outward and stock register and other parties register to be maintained under section 185,186,189 of the companies Act, 2013, to provide a basis for our audit opinion on internal financial controls system over financial reporting of the company and its subsidiaries which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other matter

We did not audit the financial statement as at March 31 2023 included in the accompanying consolidated financial statements in respect of subsidiaries of the company, whose IND AS financial statement and the other financial information have been audited by other auditors in accordance with accounting principles generally accepted accounting in India. Our opinion is not qualified of this matter.

Our opinion on the consolidated financial statements, and our report on other legal and regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the IND AS financial statements certified by management.

Qualified Opinion

According to the information and explanations given to us and based on our audit material, weakness has been identified in the company's internal financial controls over financial reporting as at March 31 2023 as regards:

- i) uncertainty for realizing the carrying value of its trade receivables and payment of the carrying value of its trade payables which are subject to their balance confirmation and in view of ageing analysis.
- ii) non-maintenance/updation of fixed assets register including capital work in progress, loans and investment register for agreements or contracts with related parties and other records as prescribed under Companies Act 2013 in respect of applicable provisions of Section 177,185,186,188,189.
- iii) no other documentary evidences in case of goods inward and outward except Sale and purchase invoices.
- iv) non accounting of reversal of GST input of Rs. 14,22,73,743/- (excluding interest as payable thereon)

for the tax period 2017-18 to 2020-21 due to non payment to creditors within a stipulated time as prescribed in terms of 2nd proviso to section 16(2) of CGST Act, 2017.

- v) no documentary evidences available for Loans and Advances given and received by the company.
- vi) No documentary evidences available for Investments made by the company in mines and projects.
- vii) No documentary proof of reconciliation of Statutory duties and taxes paid by the company.
- vii) Unavailability of Management Representation letters on discrepancies found in the Creditors/ Debtors balances.
- viii) Inappropriate accounting practices followed while recording the transactions in accounting software.

A 'material weakness' is a deficiency or a combination of deficiencies in internal financial control over financial reporting such that there is a reasonable possibility that a material misstatement of the company's annual financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria the Company and its subsidiaries have maintained, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022 based on the internal control over financial reporting criteria established by the Company and its subsidiary companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Urja Global Limited

Consolidated Notes to financial statements for the year ended 31 March 2023

(Amount in Rupees, unless otherwise stated)

1.1 Corporate information

Urja Global Limited was incorporated in India on May 29, 1992 and is a company registered under the Companies Act, 1956. The registered office of the Company is located at 487/63, 1st Floor, National Market, Peeragarhi, New Delhi-110087 India. The principal place of business of the Company is in India.

Urja Global Limited (The Holding Company) along with its subsidiaries (together referred to as the Group) is primarily engaged in the business of “Design, Consultancy, integration, supply, installation, commissioning & maintenance of off-grid and grid connected Solar Power Plants and decentralized Solar Application and trading of solar products, Lead Acid Batteries.

Sahu Minerals and Properties Limited (The Subsidiary Company) is engaged in work of Business Nature.

Urja Batteries Limited (The Subsidiary Company) is primarily engaged in the business of manufacturing, assembling, processing, supplying, importing, fabricating & Dealing in all batteries.

Urja Digital World Limited (The Subsidiary Company) is engaged in business of electric vehicles

1.2 Basis of Preparation

The financial statements of the Company have been prepared on an accrual basis and under the historical cost convention except for certain financial instruments (including derivative instruments) and defined benefit plans which have been measured at fair value. The accounting policies are consistently applied by the Company to all the period mentioned in the financial statements.

The financial statements (“Financial Statements”) of the Company have been prepared in accordance with Indian Accounting Standards (“Ind AS”) notified under the Companies’ (Indian Accounting Standard) Rules, 2015, as amended from time to time.

2 Summary of significant accounting policies

2.1 Basis of Consolidation

The Holding Company consolidates entities which it owns or controls. The consolidated financial statements comprise the financial statements of the Group and its subsidiaries. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intragroup balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group.

2.2 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period, or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- ▶ It is expected to be settled in normal operating cycle.
- ▶ It is held primarily for the purpose of trading.
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.3 *Fixed Assets*

Tangible Assets

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment includes interest on borrowings attributable to acquisition of qualifying assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Subsequent expenditure relating to property, plant and equipment is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance. All repair and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Depreciation on property, plant and equipments have been provided on the basis of straight line method over the useful lives of assets as per useful life prescribed under Schedule II of Companies Act, 2013.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Company can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on a straight line basis over the period of expected future benefit from the related project, i.e., the estimated useful life of one to five years. Amortization is recognized in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

2.4 Impairment of non-financial assets

For all non-financial assets, the Company assesses whether there are indicators of impairment. If such an indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs.

The recoverable amount for an asset or CGU is the higher of its value in use and fair value less costs of disposal. If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount the asset is considered impaired and the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit and loss.

In assessing value in use, the estimated future cash flows of the asset or CGU are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's or CGU's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

2.5 *Foreign Currency*

Functional and presentational currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which it operates i.e. the “functional currency”. The Company’s Financial Statements are presented in INR, which is also the Company’s functional currency as well as its presentation currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company’s functional currency at exchange rates prevailing at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

2.6 *Inventories*

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Stock in trade in the books is considered in the accounts where the variance between book stock and measured stock is upto +/- 5%, and in case where the variance is beyond +/- 5% the measured stock is considered. Such stocks are valued at lower of cost and net realizable value.

2.7 *Revenue Recognition*

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The following specific recognition criteria must also be met before revenue is recognized.

(i) **Sale of Goods:**

Revenue from Sale of goods is recognised when the goods are delivered and titles have passed, at which time all the conditions are satisfied :

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods which in general coincides with the invoicing of goods.
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- the amount of revenue can be measured reliably.
- it is probable that the economic benefits associated with the transaction will flow to the Company.
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

(ii) **Income from services:**

Service revenue is recognised on completion of provision of services which in general coincides with invoicing to customers. Revenue, net of discount, is recognised on transfer of all significant risks and rewards to the customer and when no significant uncertainty exists regarding realisation of consideration.

Revenue from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred. Revenues from time bound fixed price contracts, are recognised over the life of the contract using the percentage of completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

(iii) **Interest Income:**

Interest income is recognised on an accrual basis using effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

2.8 Taxes on income

Current tax

Provision for current tax is made as per the provisions of the Income Tax Act, 1961.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Minimum Alternate Tax (MAT) paid in accordance with the Tax Laws, which give future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the company.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.9 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- ▶ Debt instruments at amortised cost - The Company has Investments, loans, Other Financial Assets, Inventories, cash & cash equivalents, security deposits, other bank balances, trade receivables, bank deposits for more than 12 months classified within this category.
- ▶ Debt instruments at fair value through other comprehensive income (FVTOCI) - The Company does not have any financial asset classified in this category.
- ▶ Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL) - The Company does not have any investment classified within this category.
- ▶ Equity instruments measured at fair value through other comprehensive income (FVTOCI) - The Company does not have any financial asset classified in this category.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The company has designated Investments as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's consolidated balance sheet) when:

1. The rights to receive cash flows from the asset have expired, or
2. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are measured at amortised cost e.g., deposits, trade receivables, unbilled revenue and bank balance.

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Financial liabilities

The Company's financial liabilities include trade and other payables and employee related liabilities.

At the time of initial recognition, financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings or trade and other payables (payables).

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.10 Provisions, Contingent Liabilities And Contingent Assets

Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.11 Cash and cash equivalents

Cash and cash equivalent in the balance sheet and for the purpose of cash flow statement comprise cash at banks.

2.12 Earnings per Share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

Notes to Consolidated financial statements for the year ended 31 March 2023

(Amount in Rupees, unless otherwise stated)

27 Earnings per Share

Basic and Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the company (after adjusting for employee stock options) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	31-Mar-23	31-Mar-22

30 Income Tax

Deferred Tax Liability for the year 2022-23 is Rs. 29295/- as per Indian Accounting Standards 12 on Accounting for Taxes on income pertaining to the timing between the accounting income and the taxable income has been recognized by the management in the Profit & Loss Account.

31 Significant accounting judgments, estimates and assumptions

The preparation of the company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

ESTIMATES AND ASSUMPTIONS

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

32 Fair values

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	Carrying value		Fair value

Other Financial Liabilities (Refer Note 17)	1,871.79	824.65	1,871.79	824.65

The management assessed that cash and cash equivalents, trade receivables, other bank balances and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company determines fair values of financial assets and financial liabilities by discounting the contractual cash inflows/ outflows using prevailing interest rates of financial instruments with similar terms. The initial measurement of financial assets and financial liabilities is at fair value. The fair value of investment is determined using quoted net assets value from the fund. Further, the subsequent measurement of all financial assets and liabilities (other than investment in mutual funds) is at amortised cost, using the effective interest method.

33 Fair Value Hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2023

Financial assets measured at fair value through profit or loss	As At March 31, 2021	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investment in Mittal Medicos Private Limited	65.00	-	-	65.00
Total	65.00	-	-	65.00

During the year, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade payables, employee related liabilities, etc. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents, security deposits, etc. that derive directly from its operations. The Company also holds FVTPL investments.

The Company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. The company's senior management is responsible for formulating an appropriate financial risk governance framework for the Company and periodically reviewing the same. The company's senior management ensures that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The company's senior management reviews and agrees policies for managing each of these risks, which are summarised below.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and price risk. Financial instruments affected by market risk include fixed deposits and FVTPL investments.

(i) Interest Rate Risk

The company does not have any borrowings or significant interest bearing assets. So, the Company is not exposed to such risk.

(ii) Foreign currency risk

The Indian Rupee is the Company's most significant currency. As a consequence, the Company's results are presented in Indian Rupee. Foreign currency risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company transacts business majorly in local currency and there is no significant foreign currency transactions, therefore do not pose a significant foreign currency risk on the company.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the Balance Sheet at reporting dates are the carrying amounts as illustrated in note below.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Particulars	Note	As at 31 March 2023	As at 31 March 2022
