OPERATIONS

The Company's performance has been discussed in the Management Discussion and Analysis section.

With the subdued growth in cement demand of around 5% only during the year over the flat growth in the previous year, the performance of the Industry in general was severely affected for the year under review. Based on the information published by Department of Industrial Policy and Promotion (DIPP), it can be inferred that the industry was facing practically a nil growth situation and the South with huge capacity faced a decline in growth in the market place. In this background, the performance of the Company can be considered satisfactory. The overall sales volume, including clinker, was lower by 9% at 91.10 Lakh Ts (100.37 Lakh Ts). With improvement in selling price of cement from the 3rd quarter of 2014-15, the total sales and other income was marginally lower at Rs.4454 Crores against Rs.4530 Crores, a drop of only 2%. The cost of production was impacted by increase in royalty on limestone, higher transport charges due to restrictions imposed by transport authorities, increase in the tariff imposed by the electricity boards compounded by the increase in cost of living index and a further dosage of 30% royalty amount by way of contributions to District Mineral Foundation as per the revised notification under Mines and Minerals (Development and Regulation) Act, 1957. This was, however, more than offset by the improvement in selling prices and consequently the EBIDTA was higher at Rs.713.35 Crores against Rs.594.20 Crores. The interest charges including forex fluctuation and one time charges were higher at Rs.425.99 Crores (Rs.353.65 Crores) while depreciation was lower at Rs.257.91 Crores (Rs.276.39 Crores). The Company earned a profit before tax of Rs.29.45 Crores as compared to a loss of Rs.162.40 Crores in the previous year.

CURRENT PERFORMANCE

With no major significant change in the market place, the weak demand for cement persisted during the first five months of this year with a meager growth of 2% as per the information published by DIPP. The negative growth in the South continued depressing capacity utilization further. Given this back drop, the performance of the Company was in line with the market conditions and the cement production was at 41.53 lakh tons upto September 2015 (46.01 lakh tons) a drop of 9%. The cement prices however remained stable during the period under review.

EXPANSION / MODERNISATION

The Company has got necessary approvals of environmental authorities for installing new energy efficient cement grinding facility at Sankar Nagar, replacing some of the old cement mills. The Company has also got the approvals from the authorities for the enhanced capacity at Sankari and also for expansion of the capacity at Dalavoi Plant in Tamil Nadu.

SHIPPING DIVISION

The year under review saw 41 voyages being performed by two vessels owned by the Division mainly deployed in Coastal Trade and tramping. The total earning of the Division was Rs.46.97 Crores as compared to Rs.67.72 Crores in the previous year which included the proceeds of the sold out vessel Chennai Perumai in the previous year. The operations of the Division continued to be satisfactory during the year under review.

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW OF THE ECONOMY

During the year under review (2014-15) uncertainty continued to grip the world economy. Barring the US, which reported a strong growth, most economies including the Euro Zone, China and Japan reeled under slow down. Outlook for Indian economy improved with a decisive verdict in Lok Sabha Elections in 2014 and the new NDA Government focusing on turnaround of the economy, ushering in reforms and implementing the stalled projects.

Last year, the economy was insulated from "external shocks" and macro-economic conditions improved considerably raising hopes for regaining the growth momentum. Global commodity and crude prices considerably cooled helping the country to cut current account deficit.

Both core and retail inflation rates also eased prompting RBI to cut rates twice.

During the year, the sluggish global economy and tardy growth in foreign trade led to stagnation in Indian exports. With changed perception about India and Global agencies betting big on India growth story, the country attracted substantial foreign funds including from FII's.

However, On the domestic front, the expected pick-up in demand and investment recovery did not materialise. This along with sluggish exports, huge debt, high interest cost, higher freight and power charges affected core industry growth.

GDP GROWTH, INDUSTRIAL OUTPUT

The Central Statistical Office (CSO) revised GDP estimate at 6.9% for 2013-14 adopting 2011-12 as the base year for computation of national income at market price against 4.7% with 2004-05 as the base year.

During 2014-15, GDP growth improved to 7.4% (2011-12 base year). On the same basis farm sector growth was below normal at 1.1% against 3.7% in 2013-14. With stagnation in manufacturing activity, Industrial growth marginally improved to 5.9% (4.5%). While the services sector posted a strong growth of 10.6% (9.1%).

CORE SECTOR GROWTH, IIP WITH 2004-05 AS BASE YEAR

According to figures released by Ministry of Commerce & Industry, the eight core sectors recorded a growth of 3.5% (2004-05 base year) which is lower than 4.2% posted in 2013-14 and the index of industrial production grew marginally at 2.8% during 2014-15 from a contraction of 0.1% in 2013-14.

EXPORTS / IMPORTS

During 2014-15, overall exports contracted by 1.23% in Dollar terms to \$310.5 Billion compared with \$314.4 Billion in the previous fiscal year as demand for goods from key markets such as Europe, China and Japan remained low. The country missed the export target of \$325 Billion. The decline in exports was across various sectors.

Overall imports fell 0.59% in Dollar terms to \$447.54 Billion from \$450.21 Billion mainly due to drop in the oil bill as global crude prices declined. The trade deficit slightly rose to \$137.01 Billion against \$135.79 Billion. Forex reserves increased to a record high of \$343.9 Billion during the year from \$303.7 Billion.

The current account deficit (CAD), the gap between forex inflows and outflows, further declined to 1.3% of GDP from 1.7% in 2013-14. It was a record 4.7% in 2012-13.

FISCAL DEFICIT

With the NDA Government firm on fiscal consolidation, the fiscal deficit was at 4% against target of 4.1% of GDP and the level of 4.4% in 2013-14. It was made possible by curtailing expenditure and mopping up revenue from Telecom auction.

INFLATION

Last year, the inflationary pressure considerably eased due to the softening in oil, commodity and food prices. The average rate of inflation in terms of WPI declined to two per cent compared to six per cent in 2013-14. The average rate of inflation in terms of CPI also eased to 5.9% (9.5%).

CEMENT INDUSTRY

The working environment for the cement industry did not show any significant improvement during the year under review with the industry reeling under a low growth scenario. As per the information published by the Department of Industrial Policy and Promotion (DIPP), the industry registered a growth of around 5% for the year under review as compared to a NIL growth in the previous year. Even this growth was possible due to better growth in East and West while South registered practically a NIL growth with a negative growth in Tamilnadu and Andhra Pradesh. The cement industry, second largest in the world with a capacity of over 360 Mn. Tns had to be content with a capacity utilisation of around 70% only on an All India basis while it was much lower in the South with a huge capacity overhang. The industry was also saddled with annual bout of cost increase which was mitigated to a certain extent by the sharp fall in oil prices and thereby reduction in prices of coal. But the raw material cost was significantly influenced with the increase in Royalty during the year and also increase in the cost of other input materials caused by the steep increase in freight on account of load restrictions imposed by the transport authorities in the state of Tamil Nadu.

The railway freight which was increased steeply had also its impact on the inward and outward movement of materials cost. The new Mines and Minerals Development Regulation (MMDR) ordinance has also added to the woes of the industry with a further dosage of increase in royalty by 30% by way of contribution to District Mineral Foundation and additional 2% of the royalty as contribution to National Minerals Exploration Trust. The Industry also had to bear the impact of non availability of construction materials like sand, bricks and water in various states.

As mentioned elsewhere, however, there seems to be some prospects of improvement in the situation with a turnaround of the Infrastructure and Realty sectors on the back of various initiatives and announcements and it could be reasonably assumed that there would be a reversal in the fortunes of the industry to the favourable side in the medium term. A reasonable growth of 6 to 7% in cement consumption in the medium term as projected by experts based on the GDP growth can be expected.

COMPANY PERFORMANCE

Given such a back drop of poor demand in the market, the performance of the Company was in line with the trend and it was as under:

	In Lakh Ts	
	2014-15	2013-14
Clinker	67.65	78.14
Cement	85.92	98.03
Cement Sales	86.12	97.93
Clinker Sales	4.98	2.44
Total including Clinker Sales	91.10	100.37

As earlier mentioned the lack of demand resulting in nil growth in the southern markets with even negative growth in Tamil Nadu and Andhra Pradesh, led to a lower capacity utilisation of 62% as compared to 70% in the previous year. The average capacity utilisation in the South was less than 60% during the year under review with a huge supply overhang. With thrust on exports, the Company could achieve clinker export of 4.95 Lakh Tons and cement export of 0.83 Lakh Tons for the year. The power and fuel consumption further improved during the year under review with a focussed approach on cost reduction.

The Company as part of ongoing exercise also installed bag filters in place of ESPs at some of its plant to comply with revised norms prescribed by authorities.

On the sales front, the prices went down in South in the first two quarters of the year resulting in substantial erosion of the bottom line. However, with gradual improvement in the prices from the month of December' 14, some of the lost ground could be recovered. The average net plant realization for the Company stood at 3587 as compared to 3185 in the previous year. With poor demand for cement in the markets in the South, the Company had to move outside its traditional markets to ensure a reasonable capacity utilization, in addition to resorting to marginal contribution areas of clinker and cement export.

COST REDUCTION MEASURES

With the stabilisation of the thermal power plants at Vishnupuram alongwith the power plant at Sankar Nagar, the power requirements could be met fully without any recourse to high cost power purchase as in the earlier years. The Company could derive better economies in power cost with the fuller operations of the power plants yielding a total 4629 lakh units of power to its cement plant as against 3422 lakh units in the previous year. With the reduced capacity utilisation of the cement plants, the surplus power of 675 lakh units was also sold during the year to the state grid yielding additional contribution. The power consumption at its plants was brought down by 3.5 units during the year under review and the heat consumption was also maintained at its plants which however was varying between plants depending on its vintage and capacity utilisation.

The performance of Chilamkur plant further improved with sizable increase in kiln output during the year under review.

With the improved utilisation of imported coal and petcoke at its plants, the high cost indigenous coal usage was also brought down substantially during the year.

The blended cement proportion also improved further to 70% from 67.7% in the previous year thereby improving the conversion ratio which also paved way for substantial economies in cost. The Company's innovative Voluntary Retirement scheme announced and implemented during the earlier years and the strict control on contract labour deployment had also its impact on the overall cost of manpower.

RENEWABLE ENERGY AND CLEAN DEVELOPMENT MECHANISM (CDM)

During the year the Company's windmills in Tamil Nadu generated a quantum of 250.47 Lakh KWH (251.48 Lakh units) which was used by the Company's plants. The Waste Heat Recovery System at Vishnupuram also contributed with a higher generation of 559 Lakh KWH (508 L KWH) which was consumed by that unit. To reduce the carbon emission further, the Company focussed on increasing blended cement proportion which was improved further during the year. The Company is also taking steps to comply with the latest stringent new emission standards as notified recently.

OPPORTUNITIES, THREATS, RISKS AND CONCERNS

Pursuant to the requirement of Clause 49 of the Listing Agreement, the Company has constituted a Business Risk Management Committee. The Company has also laid down a risk management mechanism which is very well defined covering risk exposure and mitigation process. The Board of Directors will periodically review the risks and suggest the mitigation process through various steps to be taken. The risk management policy has also been defined identifying key risk areas of project risks, competition risk, Occupational health and safety risk, environmental and regulatory risk, operational and business risk to name a few.

The biggest risk today facing the industry in general is the very poor demand for cement - The impact of the poor economic growth in the previous year and which has gone up only marginally in the year under review. The industry had to wait for longer time in this cycle than usual for the fortunes to reverse. However, as mentioned elsewhere, based on the projections by various agencies and experts, reasonable economic growth is expected in the medium term of over 7% and given the strong fundamentals of the country, the industry can expect the trends to move upwards. This is supported by the various announcements by the new NDA Government of developing infrastructure, roads, buildings, ports in their manifesto as well as in the budget which augur well for a pickup in demand for cement.

With the containment of the fiscal deficit and with reasonable reduction in the interest rates the atmosphere could favourably pave way for further growth of the Industry. This will address the poor capacity utilisation of the Industry hovering around 70% only currently to normative utilisation levels as in the previous decade. While a reasonable pickup in demand and growth pattern may spur the Industry on all India basis, South will take a longer time to see the light as they have got nearly 40% of the capacity of the country with very poor demand in that area. With the implementation of the infrastructure development, including creation of new State capital in Andhra Pradesh and materialisation of the irrigation projects as announced, South could also see a reasonable growth in demand leading to better capacity utilisation in the medium term but the utilisation levels will be lower.

The second major challenge facing the Industry is the ever changing infrastructure regulations calling for stringent pollution control norms and regulations covering land acquisition and clearances for mining. The Company on its part has also proposed to address the recently announced stringent pollution control norms through investments at its plants. However, the impact of amendments to granting of mining leases has to be seen in reality.

Another risk facing the industry is the availability of key materials like coal, Gypsum, etc. together with variation in their quality. To overcome this, the Company has gradually reduced its dependence on high cost indigenous coal through various alternative routes like Petcoke and Imported coal, etc.

The Company has also taken mining rights in Indonesia to mine its captive coal to ensure security for fuel availability. To ensure availability of adequate fly ash, the Company has installed Collecting systems at the nearby state owned Thermal Power plants but the risk being associated is the volatility in the price of fly ash being charged by such thermal power stations. Based on the indications of new thermal plants commissioning in the southern states, it is expected that such risk associated with the pricing is expected to be mitigated with the surplus availability of fly ash in the region.

Another risk is the volatility in the dollar rate which affects the input materials cost. This is partially addressed through taking steps at appropriate time through hedging.

As regards electrical energy, since the Southern States are deficient in power availability, the Company took conscious steps to increase its own captive power by installing thermal power plants in Tamil Nadu and in Andhra Pradesh which caters to the major requirements of power for our plants. The Company is also insulated with availability of power from its subsidiary namely, Coromandel Electric Company Limited, wind power from its own wind mills and Waste Heat Recovery System at Vishnupuram. Based on the current levels of utilisation at our plants, the surplus power has also been sold out to the state grids/LEX, yielding additional contribution.

Logistics cost is also an area of concern impacting the industry in general and this was compounded by the restrictions imposed by the transport authorities in Tamil Nadu during the year resulting in substantial increase in the freight cost of inward and outward materials. The impact was partially nullified with a fall in the diesel price during the year but the volatility in the prices of petroleum products is likely to have an impact on the logistics cost. Railways on their part have also hiked their freight steeply during the year under review and the Company based on the lead judiciously employs the least cost transport mode.

OUTLOOK

Major global markets are still grappling with slow down and weak recovery. It is the only the US, which is expected to sustain the positive growth. At the same time, Indian economy is expected to continue the turnaround.

Most growth forecasts have upgraded Indian economic growth rate while downgrading global growth. The Economic Survey and the Union Budget for 2015-16 expect GDP growth to accelerate to over 8% in 2015-16 on the back of macro economic stability, pick up in domestic demand and revival in domestic savings and investment.

RBI expects the growth to be slightly lower at 7.8% while IMF and World Bank are upbeat on the growth prospects for India and raised the growth target to 7.5% in the current year. RBI and Government have also moved to limit retail inflation to below 6% and the Central Bank is expected to further ease interest rates.

The Government is striving hard to build a consensus on implementing major reforms like GST and engaging the States in the growth story. Steps have been taken in right direction through unblocking of coal mines and allocation of telecoms spectrum. The two bifurcated States- Andhra Pradesh and Telangana are engaged in resurrecting their economies and triggering growth.

With increased allocation for infrastructure, roads and housing plus initiatives like "ease of doing business", "Make in India", promoting 100 smart cities, housing for all by 2022 and building cement concrete roads, an optimistic view can be taken for accelerating economic growth, which will augur well for the industry.

VALUE ENHANCING STRATEGIES

With the recent announcement of creation of new capital and substantial investments in infrastructure by the Andhra Pradesh and Telangana governments towards reasonable growth in demand, the Company with substantial capacity in the region, is well placed to take part in the development. With the investment in the thermal power plants, Gas based power plants of Andhra Pradesh Gas Power Corporation Limited (APGPCL), Coromandel Electric Company Limited (CECL) and the Waste Heat Recovery System (WHRS), the Company is well insured for power availability and with the states reeling under power cuts, there will not be any bottlenecks in the operation on account of power shortage.

The Company has also insured against the risk of non-availability of fuel by securing mining rights for coal in Indonesia. However, based on the current market prices, the Company proposes to use its own resource judiciously taking advantage of current market availability at low prices. To insure against volatility of the international freight rates, the Company has acquired two ships which are currently on charters which could be diverted for bringing coal and other important raw materials. In order to improve the capacity utilisation, the Company has been exporting clinker and cement on marginal contribution basis and has also been exploring the long lead markets in West and East which offer reasonable contribution.

The Company has also got the necessary clearances for enhancing the capacity at one of its plants and action plans are being drawn up to evaluate a clinker with split grinding facility or a full-fledged integrated plant in the south. The Company has also installed bag filters in place of Electrostatic Precipitator (ESP) in a phased manner at its plants to comply with the pollution control norms. Further investments are also proposed to comply with the latest regulations prescribing stringent pollution control norms. The Company also gives a thrust on meeting the quality of its products and better customer satisfaction and in this direction action plans are taken to supply premium quality products in highly competitive and remunerative markets. To comply with this, the Company has also taken steps for installing suitable cement grinding systems at one of its plant replacing the existing energy in-efficient old mills. The Company has also been constantly improving the clinker conversion ratio which has further improved during the year under review.

COMPETITION COMMISSION

On a complaint filed by the Builders' Association of India against 11 Cement Manufacturers in India including our Company alleging cartelization and abuse of dominance, the Office of the Director General of the Competition Commission was ordered to investigate the matter. Based on the investigation by Director General, an order imposing a penalty of Rs.187.48 Crores equal to 0.5 times of our profit from 20th May 2009 to 31st March 2011 was ordered and served on us. We, besides the other cement companies filed appeals before the Competition Appellate Tribunal challenging the said order on various grounds. The Hon'ble Competition Commission Appellate Tribunal after elaborate hearing by its order dated 17/5/2013 directed us among others to deposit 10% of the penalty as a condition precedent for the maintainability of the appeal. On compliance of the order by depositing 10% of the penalty imposed in a Fixed Deposit with Bank of India for a sum of Rs.18.75 Crores which is being renewed periodically, we enjoy the stay of the recovery of the penalty. The appeal itself is listed for final hearing. The Management backed by legal opinion from learned Senior Counsels' strength believes that the Company has a good case on merits to succeed and hence no provision has been made in the books of accounts but the amount of penalty is shown as a contingent liability.

HUMAN RESOURCES & INDUSTRIAL RELATIONS

With the constriction of man power, multi tasking also assumes primary importance. The overall number of employees on the rolls of the Company at the end of the year under review was 2750 (2901).

FINANCIAL PERFORMANCE

The net sales was marginally lower than last year primarily on account of reduction in cement sales volume by 12%, after accounting for the increase in cement price realisation. Total expenditure was driven by volume and it was lower by 5% despite increase in the input prices of raw materials, increase in freight cost etc. as detailed elsewhere. Consequently operating margin was higher than last year. Finance cost was higher on account of one time charges and higher working capital needs due to tight market condition while depreciation was lower than last year. This resulted in a net profit for the year against a loss during the previous year, primarily driven by improved selling prices and tight control on costs.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

Based on the procedures and evaluations referred above we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2015, and its profit and its cash flows for the year ended on that date.

Emphasis of Matter

- a) Note no.33.2 (g) to the Standalone financial statements, regarding the appeal filed by the company against the order of the Competition Commission of India (CCI), imposing a penalty of Rs.18,748 lakhs before the Competition Appellate Tribunal concerning the alleged contravention of provisions of Competition Act, 2002. CCI in its interim order dated 17th May, 2013 directed the company to pay 10% of the imposed penalty. The Company is advised by legal experts that it has good case before appellate tribunal and accordingly no provision has been considered necessary by the company in this regard.
- b) As explained in note No 33.17 to the Standalone financial statements which explain the matters relating to the transfer of Chennai super kings cricket limited (an IPL franchisee owned by the company prior to its transfer). No impact is considered in the financial statements arising on account of guarantee given by the Company assuring the compliance with franchise covenants as entered into by the Company prior to its transfer. The impact, if any, arising on account, of the same is not ascertainable at this stage.

In this regard proceedings have also been initiated in respect of certain investments made by the company alleging that the company committed certain irregularities in making such investments and charges have been levelled against the company and its Managing Director in this regard. The company is disputing the same before judicial forums against the allegations and has been legally advised that the company has strong case to defend its position, pending the outcome of the proceedings the impact if any is not ascertainable at this stage and the investments and assets are carried at respective values in the standalone financial statements.
- (d) (i) As explained in note No 33.19(a) to the Standalone financial statements the company at its shareholders meeting held on 26th September 2014 obtained the required approval for making payment of managerial remuneration in the event of inadequacy of profits for the year ending 31st March 2015, pursuant to which the managerial remuneration paid for the financial year ending 31st March 2015 which is in excess of the limits stipulated under 197 of Companies Act 2013 by Rs. 267.35 lakhs is subject to approval by Central Government pending the outcome of the same no adjustments have been made in the financial results.

- (e) Note 33.25 to the Standalone financial statements, which explain the implementation of Schedule II of Companies Act , 2013 and adoption of new useful life in respect of fixed assets. In regard to depreciation on revalued assets, the Company continued its existing practice of dealing with incremental depreciation on account of revaluation by drawing similar amount from revaluation Reserves amounting to Rs.5261 lakhs for the year ending March 31, 2015. Had the Company not drawn the said amount from revaluation reserve, the profit for the year ending March 31, 2015 would have been lower by Rs. 5261 lakhs consequently it would have resulted in a loss of Rs. 2317 lakhs with a corresponding impact on the retained earnings. The Company is seeking clarification on the method adopted.

Our opinion is not qualified in respect of the Emphasis of Matter.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of The India Cements Limited ("the Holding Company" or "the company"), its subsidiaries (The Holding Company, its subsidiaries collectively referred to as "the Group") and its associate companies, which comprise the consolidated Balance Sheet as at 31st March 2015, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of significant Accounting Policies and other explanatory information.

Auditors' Responsibility

Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under sub section (10) of Section 143 of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial control system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the Consolidated Financial Statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the "other matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries as given below, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2015, and its consolidated loss and its consolidated cash flows for the year ended on that date.

Emphasis of Matter

- a) Note No.33.2 (g) to the Consolidated Financial Statements, regarding the appeal filed by the company against the order of the Competition Commission of India (CCI), imposing a penalty of Rs.18,748 lakhs before the Competition Appellate Tribunal concerning the alleged contravention of provisions of Competition Act, 2002. CCI in its interim order dated 17th May, 2013 directed the Company to pay 10% of the imposed penalty. The Company is advised

by legal experts that it has good case before appellate tribunal and accordingly no provision has been considered necessary by the company in this regard.

- b) As explained in note No 33.17 to the Consolidated financial Statements which explain the matters relating to the transfer of Chennai super kings cricket limited (an IPL franchisee owned by the company prior to its transfer). No impact is considered in the consolidated financial statements arising on account of guarantee given by the Company through a framework and novation agreement assuring the compliance with franchise covenants as entered into by the Company prior to its transfer. The impact, if any, arising on account, of the same is not ascertainable at this stage.
- c) As explained in note No 33.18 to the Consolidated Financial Statements regarding the order of attachment issued by authorities under Prevention of Money laundering Act through which certain assets of the company amounting to Rs.12034.18 lakhs have been attached vide order dated 25th February 2015. In this regard proceedings have also been initiated in respect of certain investments made by the company alleging that the company committed certain irregularities in making such investments and charges have been leveled against the company and its Managing Director in this regard. The Company is disputing before judicial forums against the allegations and has been legally advised that the company has strong grounds to defend its position, pending the outcome of the proceedings the impact if any is not ascertainable at this stage
- d) In respect of the Managerial Remuneration
- i. As explained in note No.33.19 (a) to the Consolidated Financial Statements the company at its shareholders meeting held on 26th September 2014 obtained the required approval for making payment of managerial remuneration in the event of inadequacy of profits for the year ending 31st March 2015, pursuant to which the managerial remuneration paid for the financial year ending 31st March 2015 which is in excess of the limits stipulated under 197 of Companies Act, 2013 by Rs 267.35 lakhs is subject to approval by Central Government. Pending the outcome of the same no adjustments have been made in the Consolidated financial Statements.
- ii. As explained in Note No.33.19 (b) to the Consolidated Financial Statements, the appointment of whole time director for a period of 5 years from March 05, 2015 is subject to the approval of the shareholders.
- e) We draw attention to Note.33.29 to the consolidated financial statements, which explain the implementation of Schedule II of Companies Act, 2013 and adoption of new useful life in respect of fixed assets. In regard to depreciation on revalued assets, the Company continued its existing practice of dealing with incremental depreciation on account of revaluation by drawing similar amount from revaluation Reserves amounting to Rs.5261 lakhs for the year ending March 31, 2015. Had the Company not drawn the said amount from revaluation reserve, the profit for the year ending March 31, 2015 would have been lower by Rs.5261 lakhs consequently it would have resulted in a consolidated loss of Rs.5592.31 lakhs with a corresponding impact on the retained earnings. The Company is also seeking clarification on the method adopted.
