SEBI/ HO/CFD/PoD-2/P/CIR/2023/4 dated January 5, 2023, Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2023/167 dated October 07, 2023 and SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated October 03, 2024 ("SEBI Circulars") has permitted the companies to conduct the Annual General Meeting through Video Conferencing facility/ Other Audio Visual Means ("VC/OAVM"). In compliance with the provision of the Companies Act, 2013 ("the Act"), the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and MCA/SEBI Circulars, the 12th AGM of the Company is being held through VC/OAVM. The Registered Office of the Company shall be deemed to be the venue for the AGM.
2. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020, May 05, 2020, May 05, 2022 December 28, 2022, September, 25, 2023 and September 19, 2025 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM/EGM. For this purpose, the Company has made an arrangement with National Securities Depository Limited (NSDL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by NSDL.
3. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to atleast 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
4. The attendance of the Members attending the EGM/AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
5. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020 and all the other as mentioned in point 1 of notes the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.
6. In compliance with the MCA Circulars and SEBI Circulars, Notice of the AGM along with the Annual Report 2024-25 is being sent only through electronic mode to those Members whose e-mail address is registered with the Depository Participants/RTA, unless any member has requested for a physical copy of the same. Members may note that the Notice and Annual Report 2024-25 will also be available on the Company's website at www.nakodas.in, websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com, respectively. The AGM Notice is also available on the website of NSDL (agency for providing the Remote e- Voting facility) i.e. www.evoting.nsdl.com.

7. Generally, a Member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote on a poll instead of himself and the proxy need not be a Member of the Company. Since this AGM is being held through VC/OAVM pursuant to the MCA and SEBI Circulars, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence, the Proxy Form, Attendance Slip, and Route Map of AGM Venue are not annexed hereto. Since the AGM will be held through VC / OAVM, the Route Map is not annexed in this Notice.
8. The relevant Explanatory Statement pursuant to the provisions of section 102 of the Companies Act, 2013 in respect of the items set out in the Notice of AGM is annexed.
9. In case of joint holders attending the AGM, only such joint holder who is higher in the order of names will be entitled to vote.
10. Further in terms of the MCA Circulars and the SEBI Circular, the Company is sending this AGM Notice in electronic form only to those Members whose e-mail addresses are registered with the Company/Depositories.
11. A person who is not a member as on the record date should treat this Notice for information purpose only.
12. Members are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/mobile numbers, PAN, registering of nomination and power of attorney, Bank Mandate details such as name of the bank and branch details, bank account number, MICR code, IFSC code, etc., to their DP in case the shares are held in electronic form and to the RTA in case the shares are held in physical form.
13. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Member as soon as possible. Members are also advised to not leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned DP and holdings should be verified from time to time.
14. Members desiring inspection of statutory registers during the AGM may send their request in writing to the Company at cs@nakodas.com.
15. Members who wish to inspect the relevant documents referred to in the Notice can send an e-mail to cs@nakodas.com up to the date of the AGM.
16. This AGM Notice is being sent by e-mail only to those eligible Members who have already registered their e-mail address with the Depositories/the DP/the Company's RTA/the Company.
17. The voting rights of members shall be in proportion to their shares of the paid up equity share capital of the Company as on the Cut Off date i.e. Friday, 05th September, 2025.
18. The Cut Off date for the purpose of determining the eligibility of the Members to attend & vote in the 12th Annual General Meeting of the Company is Friday, 05th September, 2025.
19. M/s R. A. Daga & Co, Company Secretaries, Nagpur has been appointed by the Board of Directors of the Company as Scrutinizer for scrutinizing the voting process through E- Voting for the Annual General Meeting in a fair and transparent manner.
20. The Chairman shall, at the AGM, at the end of discussion on the resolutions on which voting is to be held, allow voting, by use of remote e-Voting system for all those Members who are present during the AGM through VC/OAVM but have not cast their votes by availing the remote e-Voting facility. The remote e-Voting shall be available by NSDL for voting 15 minutes after the conclusion of the Meeting.
21. The Scrutinizer shall, after the conclusion of voting at the AGM, first count the votes cast during the AGM and, thereafter, unblock the votes cast through remote e-Voting and shall make, not later than 48 hours from

the conclusion of the AGM, a Consolidated Scrutinizer's Report of the total votes cast in favour or against, if any, to the Chairman or a person authorized by him in writing, who shall countersign the same and declare the result of the voting forthwith.

22. The Results declared, along with the Scrutinizer's Report, shall be placed on the Company's website www.nakodas.com immediately after the declaration of the result by the Chairman or a person authorised by him. The results shall also be immediately forwarded to the Stock Exchanges where the Company's Equity Shares are listed viz. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com, respectively.

THE INSTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND JOINING GENERAL MEETING ARE AS UNDER:-

The remote e-voting period begins on Friday, 12th September, 2025 at 09:00 A.M. and ends on Monday, 15th September, 2025 at 05:00 P.M. The remote e-voting module shall be disabled by NSDL for voting thereafter. The Members, whose names appear in the Register of Members / Beneficial Owners as on the (cut-off date) i.e. Friday 05th September, 2025, may cast their vote electronically. Password details for shareholders other than Individual shareholders are given below:

If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.

If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.

How to retrieve your 'initial password'?

If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.

If your email ID is not registered, please follow steps mentioned below in process for those shareholders whose email ids are not registered.

If you are unable to retrieve or have not received the “Initial password” or have forgotten your password: Click on **“Forgot User Details/Password?”** (If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.

Physical User Reset Password?” (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.

If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.com mentioning your demat account number/folio number, your PAN, your name and your registered address etc.

Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.

After entering your password, tick on Agree to “Terms and Conditions” by selecting on the check box.

Now, you will have to click on “Login” button.

After you click on the “Login” button, Home page of e-Voting will open.

Step 2: Cast your vote electronically and join General Meeting on NSDL e-Voting system.

How to cast your vote electronically and join General Meeting on NSDL e-Voting system?

After successful login at Step 1, you will be able to see all the companies “EVEN” in which you are holding shares and whose voting cycle and General Meeting is in active status.

Select “EVEN” of company for which you wish to cast your vote during the remote e-Voting period and casting your vote during the General Meeting. For joining virtual meeting, you need to click on “VC/OAVM” link placed under “Join Meeting”.

Now you are ready for e-Voting as the Voting page opens.

Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on “Submit” and also “Confirm” when prompted.

Upon confirmation, the message “Vote cast successfully” will be displayed.

You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.

Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

General Guidelines for shareholders

Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. with attested specimen signature of the duly authorized signatory(ies) who are authorized to vote, to the Scrutinizer by e-mail to csradaga@yahoo.in with a copy marked to evoting@nsdl.com. Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) can also upload their Board Resolution / Power of Attorney / Authority Letter etc. by clicking on “Upload Board Resolution / Authority Letter” displayed under “e-Voting” tab in their login.

It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-voting website will be disabled upon five unsuccessful attempts to key in the correct password. In such an event, you will need to go through the **“Forgot User Details/Password?”** or **“Physical User Reset Password?”** option available on www.evoting.nsdl.com to reset the password.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **NAKODA GROUP OF INDUSTRIES LIMITED** (the "Company"), which comprises the Balance Sheet as at **March 31, 2025**, the Statement of Profit and Loss (including the Other Comprehensive Income / (Losses), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended, ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at **March 31, 2025**, and its losses including total comprehensive income / (losses), its cash flows and the changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "*Auditor's Responsibilities for the Audit of the financial statements*" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context. We have determined the matters described below to be the key audit matters and to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risk of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying financial statements.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Management and the Board of Directors are responsible for the other information. The other information comprises the information included in the Management's Discussion and Analysis, Board's Report including Annexure to the Board's Report, Report on Corporate Governance, Business Responsibility and Sustainability Report and Shareholder's information, but does not include the consolidated financial statements,

standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Management and the Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, the financial performance including the other comprehensive income / (losses), cash flows and changes in equity of the Company in accordance with the accounting principle generally accepted in India, including the Indian Accounting Standards (Ind AS) as specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, time to time. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentations of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Company's Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Company's management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from

fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to these financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Company's Management and Board of Directors.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable users of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in Paragraph 1 under "Report on the Other Legal and Regulatory Requirements" Section of our report of Even Date)

In terms of the information and explanations sought by us and given by the Company and the books of accounts and records examined by us in the normal course of our audit and to the best of our knowledge and belief, we state that:

1. In respect of the Company's Property, Plant and Equipment and Intangible assets;

a)i) The Company has maintained proper records showing full particulars, including the quantitative details and situation of property, plant and equipment and capital work-in-progress.

ii) The Company has maintained the proper records showing the full particulars of intangible assets.

b) The Company has a regular program at reasonable interval for physical verification of property, plant and equipment and capital work-in-progress, so as to cover all the items of assets, the periodicity of physical verification, in our opinion, is reasonable having regard to the size of the Company and nature of its assets. According to the information and explanation given to us, no material discrepancies were noticed on such physical verification.

c) Based on our examination of the property tax receipts and lease agreement for land on which building is constructed, registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title deeds in respect of self-constructed buildings and title deeds of all other immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favor of the Company), disclosed in the financial statements and included under property, plant and equipment and capital work-in-progress are held in the name of the Company as at the Balance Sheet date. In respect of the immovable properties taken on lease by the Company, the lease agreements are held in the name of the Company as at the Balance Sheet date, if any.

d) The Company has not revalued any of its property, plant and equipment and intangible assets during the reporting period.

e) According to information and explanations given to us and on the basis of our examination of the records of the Company, no proceedings have been initiated during the reporting period or are pending against the Company as at March 31, 2025, for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and Rules made thereunder.

2. In respect of Company's inventories;

a) As explained to us, inventories except goods-in-transit and the stock lying with third parties have been physically verified during the year by the management at reasonable intervals. In our opinion and according to information and explanations given to us, in respect of stock lying with third parties at the end of the year, written confirmations have been obtained. In our opinion, the frequency of such verification is reasonable. In our opinion and according to information and explanations given to us, the coverage and the procedure adopted by the management for the physical verification are appropriate considering the size and the nature of the products dealt in by the Company. As explained to us, there were no discrepancies of 10% or more in the aggregate for each class of inventories that

were noticed on such physical verification of inventories. However, any other discrepancies, if any, noticed on such physical verification have been properly dealt with in the books of accounts.

b) During the reporting period, the Company has been sanctioned working capital limit in excess of five crore rupees, in aggregate, at point of time during the reporting period, from banks or financial institutions on the basis of security of current assets. In our opinion and according to the information and explanation given to us, the quarterly returns and the statements (stock statements, book debts statements, statement of ageing analysis of debtor / other receivable) filed by the Company with such banks or financial institutions are in agreement with the books of accounts of the Company for the respective quarters.

3. The Company has made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, limited liability partnerships or other parties, during the reporting period, in respect of which;

a) According to information and explanations given to us and on the basis of our examination of the records, the Company has not provided any loans or advances in the nature of loans or stood guarantee, or provided security to any other entities including subsidiaries, associates and joint ventures during the reporting period, hence the requirement to report under clause 3(iii)(a)(A) and 3(iii)(a)(B) of the said Order is not applicable.

b) The Company has not made investment in nor granted any loans and advances in the nature of loans, during the reporting period, hence the requirement to report under clause 3(iii)(b) in respect of terms and conditions of investment made in and grants of loans, during the reporting period, prima facie, not prejudicial to the interest of the Company's interest is not applicable.

c) The Company has not granted any loans and advances in the nature of loans, to any other entities including subsidiaries, associates and joint ventures, hence the requirement to report under clause 3(iii)(c), in respect of schedule of repayment of principal and payment of interest has been stipulated and the repayments of the principal amounts and receipts of interest have generally been regular as per stipulation is not applicable.

d) The Company has not granted any loans and advances in the nature of loans, to any other entities including subsidiaries, associates and joint ventures, hence the requirement to report under clause 3(iii)(d), in respect of overdue amounts remain outstanding for more than ninety days as at the balance sheet date is not applicable.

ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 2(f) under “Report on the Other Regulatory Requirements” section of our report of even date)

Report on the Internal Financial Controls with reference to Financial Statements over the Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to these financial statements of **“NAKODA GROUP OF INDUSTRIES LIMITED”** (“the Company”) as at **March 31, 2025**, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to these financial statements based on the internal controls with reference to these financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to these financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to these financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide the basis for our audit opinion on the Company’s internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial controls with reference to these financial statements is a process designed to

provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to these financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over the Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to these financial statements to future periods are subject to the risk that the internal financial controls with reference to these financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls with reference to these financial statements and such internal financial controls with reference to these financial statements were operating effectively as at **March 31, 2025**, based on the criteria for internal financial control with reference to these financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI").

Notes to the Financial Statements for the year then ended on March 31, 2025

Corporate Information

NAKODA GROUP OF INDUSTRIES LIMITED ("the Company") (CIN No. L15510MH2013PLC249458) is a Public Limited Company, domiciled and incorporated in India, under the provisions of the Companies Act, 2013. The Registered office of the Company is situated at 239, *Bagadganj, Nagpur (M.H.) - 440008*. The books of accounts and other related documents and information are maintained at 239, *Bagadganj, Nagpur (M.H.) - 440008*. The Company's shares are listed on "*Bombay Stock Exchange*" (BSE) and "*National Stock Exchange (NSE)*".

The Company is primarily engaged in the business of manufacturing, selling, distribution and trading of tutti fruity and other agriculture commodities.

The Board of Directors approved the Financial Statements for the year ended March 31, 2025, and authorized for issue on May 28, 2025.

1. MATERIAL ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

MATERIAL ACCOUNTING POLICIES

1.1 BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These Financial Statements are the separate financial statements of the Company (also called as "Financial Statements") prepared in accordance with Indian Accounting Standard ("Ind AS") as notified under section 133 of the Companies Act, 2013 ("the Act") read together with the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standard) Rule, 2016, as amended, time to time. The preparation and presentation of the Financial Statements is based on the Indian Accounting Standards (Ind AS), Division - II of the Schedule - III of the Companies Act, 2013.

Entity specific disclosure of material accounting policies, where the Indian Accounting Standards permits options are disclosed hereunder:

The Company's management and the Board of Directors has assessed the materiality of the accounting policy information, which involves exercising judgements and considering both qualitative and quantitative factors, taking into account not only the size and nature of the items or conditions but also the characteristics of the transactions, events or conditions that could make the information more likely to impact the decisions of the users of the Financial Statements.

Entity's conclusion that an accounting policy is immaterial does not affect the disclosures requirements set out in the Indian Accounting Standards.

The Company adopted Ind AS from April 01, 2020. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing

accounting standard requires a change in the accounting policies hitherto adopted. These Financial Statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date.

The Statement of Cash Flows has been prepared under indirect method, whereby the profit and loss are adjusted for the effect of transactions of a non-cash nature, any deferrals and accruals or future operating cash receipts or payments and items of income and expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid instruments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The Company's Financial Statements are prepared and presented in Indian Rupee (₹) in Lakhs, which is also the functional currency for the Company. All amounts have been rounded off to the nearest (₹) in Lakhs up to two decimals, except when otherwise specified.

1.2 APPLICATION OF NEW ACCOUNTING PRONOUNCEMENTS

Ministry of Corporate Affairs (the "MCA") notifies the new standards or amendments to the existing standards under the Companies (Indian Accounting Standard) Rule, as issued from time to time. For the period ended March 31, 2025, MCA has notified amendments to Ind AS - 116, "Lease", relating to the sale and leaseback transactions, which is applicable to the Company w.e.f. April 01, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it is not likely to have any significant impact in its Financial Statements.

1.3 CURRENT AND NON - CURRENT CLASSIFICATION

The Company presents the assets and liabilities in the balance sheet based on current / non-current classification. An asset or liabilities are classified as current when it satisfies any of the following criteria:

- i) The assets / liabilities are expected to be realized / settled in the Company's normal operating cycle.
- ii) The assets are intended for sales or consumption.
- iii) The assets / liabilities are held primarily for the purpose of trading.
- iv) The assets / liabilities are expected to be realized / settled within twelve months after the end of reporting date.
- v) The assets are cash or cash equivalents unless they are restricted from being exchanged or used to settle liabilities for at least twelve months after the reporting period.
- vi) In the case of liabilities, the Company does not have an unconditional right to defer the settlement of the liabilities for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

For the purpose of current / non-current classification of assets and liabilities, the Company has ascertained its operating cycle as twelve months (12 months). This is based on the nature of services and the time between the acquisition of the assets or inventories for processing and their realization in cash and cash equivalents.

1.4 SUMMARY OF MATERIAL ACCOUNTING POLICIES

a) Property, Plant and Equipment

Measurement at Recognition

An item of property, plant and equipment that qualifies as an asset is measured on the initial recognition at cost. Following the initial recognition, item of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses, *if any*. The Company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining items.

The cost of an item of property, plant and equipment comprises of its purchase price net of discounts, if any, including import duties and other non-refundable purchase taxes or levies, directly attributable to cost of bringing the assets to its present location and working condition for its intended use and the initial estimate of decommissioning, restoration, and similar liabilities, *if any*. Cost includes the cost of replacing a part of the plants and equipment, if the recognition criteria are met. Expenses directly attributable to new manufacturing facilities during its construction period are capitalized, if the recognition criteria are met. Expenditure related to plans, designs and drawings of buildings or plants and machinery are capitalized under the relevant heads of property, plant and equipment, if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at periodical intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any components accounted for as a separate asset is de-recognized when replaced.

All the costs, including administrative, financing and general overhead expenses, as are specifically attributable to construction of a specific projects or to the acquisition of a property, plant and equipment or bringing it to its present location and working condition, is includes, as a part of the cost of construction of the project or as a part of the cost of property, plant and equipment, till the commencement of its commercial production. Any adjustments arising from exchange rate variations attributable to the property, plant and equipment are capitalized as aforementioned.

Borrowing costs relating to the acquisition / construction of property, plant and equipment which takes the substantial period of time to get ready for its intended use are also included in the cost of property, plant and equipment / cost of constructions, to the extent they relate to the period till such property, plant and equipment are ready to be put to use.

Any subsequent expenditure related to an item of property, plant and equipment is added to its book value only and only if it increases the future economic benefits from the existing assets beyond its previously assessed standard of performance.

Any items such as spare parts, stand-by equipment and servicing equipment that meet the definitions criteria of the property, plant and equipment are capitalized at cost and depreciated over the useful life of the respective property, plant and equipment. Cost in the nature of repairs and maintenances are recognized in the Statement of Profit and Loss as and when incurred.

Capital Work-in-Progress and Capital Advances

Cost of property, plant and equipment not ready for intended use, as at the balance sheet date, is shown as a *“Capital Work-in-Progress”*. The capital work-in-progress is stated at cost. Any expenditure in relation to survey and investigation of the properties is carried out as capital work-in-progress, such expenditure is either capitalized as cost of the projects on completion of construction project or the same is expensed in the period in which it is decided to abandon such projects. Any advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date is disclosed as *“Other Non - Current Assets”*.

The Company has elected to consider the carrying value of all its property, plants and equipment appearing in its Financial Statements and used the same as deemed cost in the opening Ind AS Balance Sheet prepared at April 01, 2020.

Depreciation

Depreciation on each part of property, plant and equipment are provided to the extent of the depreciable amount of the assets on the basis of *“Straight Line Method (SLM)”* on the useful lives of the tangible property, plant and equipment as estimated by the Company’s management and is charged to the Statement of Profit and Loss, as per the requirement of *Schedule - II to the Companies Act, 2013*. The estimated useful lives of the property, plant and equipment has been assessed based on the technical advice, which is considered in the nature of the property, plant and equipment, the usage of the property, plant and equipment, expected physical wear and tear of such property, plant and equipment, the operating conditions, anticipated technological changes, manufacturer warranties and maintenance support of the property, plant and equipment etc.

When the parts of an item of the property, plant and equipment have different useful lives, they are accounted for as separate items (major components) and are depreciated over their useful lives or over the remaining useful lives of the principal property, plant and equipment, whichever is less.

The useful lives of the items of property, plants and equipment as estimated by the Company’s management is mentioned below:

S. No.	Name of Property, Plants and Equipment	Useful Life (In Years)
--------	--	---------------------------

1.	Factory Building	30 Years
2.	Building (Other than Factory Building)	60 Years
3.	Plant and Machineries (Including Continuous Process Plant)	25 Years
4.	Furniture and Fixtures	10 Years
5.	Office Equipment	10 Years
6.	Computer and Other Data Processing units	3 Years
7.	Motor Vehicles	8 Years
8.	Electrical Installation and Other Equipment	10 Years

The Company based on technical assessment made by the technical experts and the Company's management estimate, depreciate certain items of property, plant and equipment over the estimated useful lives which are different from the useful lives as prescribed under *Schedule - II of the Companies Act, 2013*. The Company's management believes that the useful lives given above are best to represent the period over which Company's management expects to use this property, plant and equipment. Freehold land is not depreciated. Leasehold land and their improvement cost are amortized over the period of the lease.

The useful lives, residual value of each part of an item of property, plant and equipment and method of depreciation is reviewed at the end of each reporting period, *if any*, of these expectations differ from the previous estimates, such change is accounted for as a change in accounting estimate and adjusted prospectively, if appropriate.

Derecognition

The carrying amount of an item of property, plant and equipment and other intangible assets are recognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from derecognition of the property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the assets and is recognized in the Statement of Profit and Loss, as and when the assets are de-recognized.

b) Intangible Assets

Measurement at Recognition

Intangible assets acquired separately measured on the initial recognition at cost. Intangible assets arising on the acquisition of businesses are measured at fair value as at the date of acquisition. Internally generated intangible assets including research costs are not capitalized and the related expenditure is recognized in the Statement of Profit and Loss in the period, in which the expenditure is incurred. Following the initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, *if any*.

The Company has elected to consider the carrying value of all intangible assets appearing in its Financial Statements and used the same as deemed cost in the opening Ind AS Balance Sheet prepared at April 01, 2020.

Amortization

Intangible assets with the finite lives are amortized on a "*Straight Line Basis*" over the estimated useful economics lives of such intangible assets. The amortization expenses on intangible assets with finite lives are recognized in the Statement of Profit and Loss. The estimated useful lives of intangible assets are mentioned below:

S. No.	Particulars	Useful Life (In Years)
1.	Computer Software	5 Years

The amortization period and the amortization method for an intangible asset with the finite useful lives are reviewed at the end of each financial year. If any of these expectations differ from the previous estimates, such changes are accounted for as a change in an accounting estimate and adjusted prospectively, if appropriate.

Derecognition

The carrying amount of an intangible asset is de-recognized at disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an intangible assets is measured as the difference between the net disposal proceeds and the carrying amount of the intangible assets and is recognized in the Statement of Profit and Loss, as and when such assets are de-recognized.

c) Impairment

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. Assets that have an indefinite useful life are not subject to amortization and are tested for impairment annually and whenever there is an indication that the assets may be impaired.

Assets that are subject to depreciation and amortization and assets representing investment in subsidiary and associate companies are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environments.

The Company assesses at each reporting date, whether there is an indication that assets may be impaired, if any indication exists based on internal or external factors, or when Annual impairment testing for assets is required, the Company estimates the asset's recoverable amount. Where the carrying amount

of the assets or its cash generating unit (CGU) exceeds its recoverable amount, the assets are considered impaired and written down to its recoverable amount. The recoverable amount is greater of the fair value less cost to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax rate that reflects current market rates and the risk specific to the assets. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the assets belong. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an assets in an arm's length transactions between knowledgeable, willing parties, less cost of disposal. After the impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful lives.

Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the assets no longer exists or has decreased. However, the increase in the carrying amount of assets due to the reversal of an impairment loss is recognized to the extent it does exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognized for the assets in the prior years.

Impairment losses, if any, are recognized in the Statement of Profit and Loss and included in depreciation and amortization expense. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

d) Revenue Recognition

Revenue from Contracts with Customers

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for those goods or services. Revenue towards satisfaction of a performance obligation is measured in the amount of transaction price (net of variable consideration on accounts of various discounts and schemes offered by the Company as a part of the Contracts) allocated to that performance obligation. These variable considerations are estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Sale of Products

Revenue from sales of goods is recognized when control on the goods has been transferred to the customers. The performance obligation in the case of sale of goods is satisfied at a point in time i.e. when the material is shipped to the customers or delivery to the customers as may be specified in the contracts with them.

Sales (Gross) excludes Goods and Service Tax (GST) and is a net of discounts and incentives to the customers.

Sale of Services

Revenue from sales of service is recognized over the period of time by measuring the progress towards satisfaction of performance obligation for the service rendered. The revenue is recognized based on the agreements / arrangements with the customers as the service is performed and based on the satisfaction of performance obligation.

Advances from customers are recognized under "*Other Current Liabilities*" and released to revenue on satisfaction of performance obligation.

Interest

Revenue from interest income is recognized using the effective interest method. Effective interest rate (EIR) is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instruments or a shorter period, where appropriate, to the gross carrying amount of the financial assets or to the amortized cost of financial liabilities.

Other Income

Other items of income are recognized as and when the right to receive such income arises and it is probable that the economic benefits will flows to the Company and the amount of income can be measured reliably.

e) Government Grants and Subsidies

Recognition and Measurements

The Company recognizes grant as income when there is reasonable assurance that the Company will comply with all the necessary conditions attached to them and the grant will be received, in accordance with Ind AS - 20, "*Accounting for Government Grants and Disclosure of Government Assistance*".

Government grants are recognized in the Statement of Profit and Loss on a systematic basis over the periods in which related costs, which the grants are intended to compensate, are recognized as expenses. Government grants related to property, plants and equipment are presented at fair value, and grants are recognized as deferred income.

Presentation

Income from the above grants and subsidies are presented under Revenue from Operations. Government grants related to property, plants and equipment are presented at fair value, and grants are recognized as deferred income.

f) Inventories

Raw material, work-in-progress, finished goods, packing material, stores and spares, components, consumables and trading stock are carried at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written-down below cost, if the finished goods in which they will be incorporated are expected to be sold at or above costs. The comparison of costs and net realizable value is made on an item-by-item basis. In determining the cost of raw materials, work-in-progress, finished goods, packing materials, stores and spares, components and trading stock, "*Weighted Average*" method is used. Cost of inventories comprises all costs of purchase, non-refundable duties and taxes, cost of conversion including an appropriate share of fixed and variable production overheads and all other costs incurred in bringing the inventory to its present location and conditions.

"*Net Realizable Value*" is the estimated selling price of inventories in the ordinary course of business, less estimated costs of completion and estimated cost necessary to make the sales of the products.

The Company considers factors like estimated shelf life, product discontinuances and aging of inventory in determining the provision for slow moving, obsolete and other non-saleable inventory and adjusts the inventory provision to reflect the recoverable value of the inventory.

g) Financial Instruments

A financial instrument is in any contract that gives rise to the financial assets of one entity and financial liabilities or equity instruments of another entity.

Financial Assets

Initial Recognition and Measurements

The Company recognizes a financial asset in its Balance Sheet as and when it becomes party to the contractual provisions of the instruments. All the financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial assets. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Where the fair value of a financial assets at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition, if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants taken into account, when pricing the financial assets.

Subsequent Measurements

For subsequent measurements, the Company classifies a financial asset in accordance with the below criteria:

- i) The Company's business model for managing the financial assets and
- ii) The contractual cash flows characteristics of the financial assets.

Based on the above criteria, the Company classifies, its financial assets into the following categories:

- i) Financial assets measured at amortized costs
- ii) Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii) Financial assets measured at fair value through profit or loss (FVTPL)

Financial Assets measured at Amortized Costs

A financial asset is measured at the amortized costs if both the following conditions are met:

- a) The Company's business model objective for managing the financial assets is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash receipts are discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amounts and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial assets over the relevant period of the financial assets to arrive at the amortized costs at each reporting date. The corresponding effect of the amortization, under effective interest method is recognized as interest income over the relevant period of the financial assets. The same is included under "*Other Income*" in the Statement of Profit and Loss. The amortized costs of financial assets are also adjusted for loss allowance, if any.

Financial Assets measured at FVTOCI

A financial asset is measured at FVTOCI, if both of the following conditions are met:

- a) The Company's business model objective for managing the financial assets is achieved both by collecting contractual cash flows and selling the financial assets, and

b) The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to certain investments in debt instruments. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Other Comprehensive Income (OCI). However, the Company recognizes interest income and impairment losses and its reversals in the Statement of Profit and Loss.

On de-recognition of such financial assets, cumulative gain or loss previously recognized in OCI, is reclassified from equity to the Statement of Profit and Loss.

Further, the Company, through an irrevocable election at initial recognition, has measured certain investments in equity instruments at FVTOCI. The Company has made such selection on an instrument-by-instrument basis. These equity instruments are neither held for trading nor are contingent consideration recognized, under a business combination. Pursuant to such irrevocable election, subsequent changes in the fair value of such equity instruments are recognized in other comprehensive income. However, the Company recognizes dividend income from such instruments in the Statement of Profit and Loss, when the right to receive such payment is established, it is probable that the economic benefits will flow to the Company and the amount can be measured reliably.

On de-recognition of such financial assets, cumulative gain or loss previously recognized in OCI is not reclassified from equity to the Statement of Profit and Loss. However, the Company may transfer such cumulative gain or loss into retained earnings within equity.

Financial Assets measured at FVTPL

A financial asset is measured at FVTPL unless it is measured at amortized costs or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial assets or part of a group of similar financial assets) is de-recognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i) The contractual rights to cash flows from the financial assets expire.
- ii) The Company transfers its contractual rights to receive cash flows of the financial assets and has substantially transferred all the risks and rewards of ownership of the financial asset.
- iii) The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a "pass-

through" arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial assets).

- iv) The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial assets.

In cases, where the Company has neither transferred nor retained substantially all the risks and rewards of the financial assets, but retains control of the financial assets, the Company continues to recognize such financial assets to the extent of its continuing involvement in the financial assets. In that case, the Company also recognizes an associated liability. The financial assets and the associated liabilities are measured on a basis that reflects the rights and obligations that the Company has retained.

On de-recognition of financial assets, (except as mentioned in above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of Financial Assets

The Company applies expected credit losses (ECL) model for measurements and recognition of loss allowance on the following:

- i) Trade receivables
- ii) Financial assets measured at amortized costs (other than trade receivables)
- iii) Financial assets measured at fair value through other comprehensive income (FVTOCI)

In the case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance. In the case of other assets (listed as ii and iii above), the Company determines if there has been a significant increase in credit risk of the financial assets since the initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to twelve months ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial assets improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on twelve months ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expected to receive (i.e., all cash shortfalls), discounted at the original effective interest rate. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of financial assets. Twelve months ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months from the reporting date.

ECL are measured in a manner that they reflect unbiased, and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL impairment loss allowance (or reversal) recognized during the reporting period are recognized as income/ expense in the Statement of Profit and Loss under the head "*Other Expenses*".

Financial Liabilities

Initial Recognition and Measurements

The Company recognizes financial liabilities in its balance sheet when it becomes party to the contractual provisions of the instruments. All financial liabilities are recognized initially at fair value, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liabilities.

Where the fair value of a financial liabilities at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognized as a gain or loss in the Statement of Profit and Loss at initial recognition, if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognized as a gain or loss in the Statement of Profit and Loss, only to the extent that such gain or loss arises, due to a change in factor that market participants taken into account when pricing the financial liabilities.

Subsequent Measurements

All the financial liabilities of the Company are subsequently measured at amortized costs using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liabilities over the relevant period of the financial liabilities to arrive at the amortized costs at each reporting date. The corresponding effect of the amortization, under effective interest method are recognized as interest

expense over the relevant period of the financial liabilities. The same is included under finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is de-recognized when the obligation under the liabilities is discharged or cancelled or expires. When existing financial liabilities are replaced by another from the same lender on substantially different terms, or the terms of an existing liabilities are substantially modified, such an exchange or modification are treated as the de-recognition of the original liabilities and the recognition of a new liabilities. The difference between the carrying amount of the financial liabilities de-recognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of Financial Assets and Financial Liabilities

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

h) Derivative Financial Instruments and Hedge Accounting

The Company enters into derivative financial contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial liabilities measured at amortized cost. The Company formally establishes a hedge relationship between such forward currency contracts ("*Hedging Instruments*") and recognized financial liabilities ("*Hedged Items*") through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a fair value hedge under Ind AS - 109, "*Financial Instruments*".

Recognition and Measurement of Fair Value Hedge

Hedging instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently measured at fair value at each reporting date. Gain or loss arising from such changes in the fair value of hedging instruments is recognized in the Statement of Profit and Loss. Hedging instruments is recognized as financial assets in the Balance Sheet, if it's fair value as at reporting date is positive as compared to carrying value and as financial liabilities, if it's fair value as at reporting date is negative as compared to carrying value.

Hedged items (recognized financial liabilities) are initially recognized at fair value on the date of entering into the contractual obligation and are subsequently measured at amortized costs. The hedging gain or loss on the hedged items is adjusted to the carrying value of the hedged item as per the effective interest method and the corresponding effects are recognized in the Statement of Profit and Loss.

Derecognition

On de-recognition of the hedged items, the unamortized fair value of the hedging instrument adjusted to the hedged items, is recognized in the Statement of Profit and Loss.

i) Fair Value

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the assets or transfer the liabilities takes place either:

- * In the principal market for the assets or liabilities, or

- * In the absence of a principal market, in the most advantageous market for the assets or liabilities.

All the assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorized within fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.

Level 3 - Inputs that are unobservable for the assets or liabilities.

For assets and liabilities that are recognized in the Financial Statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

j) Foreign Currency Transactions

a) Initial Recognition

Transactions in the foreign currencies entered into by the Company are accounted in the functional currency (i.e. Indian Rupee `), by applying the exchange rates prevailing on the date of the transaction i.e. spot exchange rate. Any exchange difference arising on foreign exchange transactions settled during the reporting period are recognized in the Statement of Profit and Loss except to the extent that they are regarded as an adjustment to the finance costs on foreign currency borrowings that are directly attributable to the acquisition or constructions of the qualifying assets, are capitalized to the qualifying assets.

b) Measurement of Foreign Currency Items at Reporting Date

Foreign currency monetary items of the Company are restated as at the end of the reporting date by using the closing exchange rate as prescribed by the Reserve Bank of India. Non-monetary items are recorded at the exchange rate prevailing on the date of the transactions i.e. measured at historical costs. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is measured i.e. using the exchange rate at the date of transactions. Exchange differences arising out of foreign exchange translations and settlements during the period are recognized in the Statement of Profit and Loss.

k) Taxes on Income

Tax expense comprises current tax and deferred income tax. Tax expenses are the aggregate amount included in the determination of profit or loss for the reporting period current tax and deferred income tax. Tax expenses are recognized in the Statement of Profit and Loss, except to the extent that it relates to the items recognized in the other comprehensive income or in the equity. In that case, tax is also recognized in other comprehensive income or equity.

Current income tax is the amount of income tax payable in respect of taxable profit for the reporting period. Taxable profit differs from "*Profit Before Tax*" as reported under the Statement of Profit and Loss because of item of expenses or income that are taxable or deductible in other years and items that are never taxable or deductible under Income Tax Act, 1961.

Current tax assets and liabilities are measured by using the tax rates that have been enacted by the end of the reporting period for the amounts expected to be recovered from or paid to the income tax authorities. Current tax also includes any adjustment amount to tax payable / receivable in respect of previous reporting period.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit under Income Tax Act, 1961 and their carrying amounts. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are generally recognized for all deductible and taxable temporary differences. However, in the case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profits nor the accounting profits or does not give rise to equal taxable and deductible temporary difference, deferred tax assets and liabilities are not recognized. Also, for temporary differences, if any, that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences, and any unused tax losses and unused tax credits, to the extent, it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In the case of temporary differences that arise from initial recognition of assets or liabilities in a transaction that affect neither the taxable profits nor the accounting profits, deferred tax assets are not recognized.

The carrying amount of deferred tax assets / liabilities are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Uncertain Tax Positions

The Company's management periodically evaluates the positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and consider whether it is probable that a taxation authority will accept uncertain tax treatments. The Company reflects the effect of uncertainty for each uncertain tax treatment by using one of two methods, the expected value method (the sum of the possibility-weighted amounts in range of possible outcomes) or the most likely amount (single most likely amount method in a range of possible outcomes), depending on which is expected to better predict the resolution of the uncertainty. The Company applies consistent judgments and estimates, if an uncertain tax treatment affects both the current and deferred income tax.

Presentation

Current tax and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income, in which case, the current tax and deferred tax income / expense are recognized in other comprehensive income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset, if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

l) Lease

A lease is classified at the inception date, as finance lease or an operating lease. A lease that transfers substantially all the risk and rewards incidental to the ownership of the Company is classified as a finance lease. All other leases are classified as operating leases.

The Company as a Lessee

- a) Operating Lease:** Rental payable under the operating lease is charged to the Statement of Profit and Loss on a "*Straight - line*" basis over the term of the relevant lease except where another systematic basis is more representative of time pattern in which economic benefits from the leased assets are consumed.

b) Finance Lease: Finance leases are capitalized at the commencement of the lease, at the lower of the fair value of the property or the present value of the minimum lease payments. The corresponding liabilities for the lessor are included in the Balance Sheet as a finance lease obligation. Lease payments are appropriated between finance expenses and the reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liabilities. Finance expenses are charged directly against the income over the period of the lease unless they are directly attributable to the qualifying assets, in which case they are capitalized. Contingent rental is recognized as an expense in the period in which they are incurred.

A leased assets are depreciated over the useful lives of the assets, however, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the assets are depreciated over the shorter of the estimated useful lives of the assets and the lease terms.

The Company as a Lessor:

Lease payments under operating leases are recognized as an income on a straight-line basis in the Statement of Profit and Loss over the lease term except where the lease payments are structured to increase in line with expected general inflation. The respective leased assets are included in the Balance Sheet based on their nature.

m) Borrowing Costs

Borrowing cost include the interest, commitments charges on bank borrowings, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the finance cost.

Borrowing costs, if any, that are directly attributable to the acquisition or constructions or production of qualifying property, plant and equipment are capitalized as a part of cost of that property, plant and equipment until such time that the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for the intended use or sale.

When the Company borrows the funds specially for the purpose of obtaining the qualifying assets, the borrowing costs incurred are capitalized with the qualifying assets. When the Company borrows fund generally and use them for obtaining a qualifying asset, the capitalization of borrowing costs is computed on weighted average cost of general costs that are outstanding during the reporting period and used for acquisition of the qualifying assets. Capitalization of the borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for intended use are complete.

Other borrowing costs are recognized as expenses in the period in which they are incurred. Any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

n) Employee Benefits

Short-Term Employee Benefits

All the employee benefits payable wholly within twelve months of rendering the services are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related services. The Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for services are rendered as a liability (accrued expense) after deducting any amount already paid.

Post - Employment Benefits

a) Defined Contribution Plans

Defined contribution plans are employee state insurance scheme and Government administrated pension fund scheme for all the applicable employees and superannuation scheme for all the eligible employees, who met eligible criteria. The Company's contribution to defined contribution plans is recognized in the Statement of Profit and Loss in the reporting period to which they relate.

i) Recognition and Measurement of Defined Contribution Plans

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss, when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceed the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

b) Defined Benefits Plans

i) Gratuity

The Company operates a defined benefits plan for its employees. The Company pays the gratuity to employee whoever has completed its five years of service with the Company at the time of retirement or resignation or superannuation. The gratuity is paid @ 15 Days salary for every completed year of service as per the Payment of Gratuity Act, 1972.

The liabilities in respect of gratuity are calculated using "*Project Unit Credit Method*" and spread over the period during which the benefits are expected to be derived from employee services. The remeasurements of defined benefits plan in respect of post-employments are charged to the other comprehensive income (OCI).

ii) Provident Fund Scheme

Provident fund is defined contribution plan covering certain eligible employees. The Company and the eligible employees make a monthly contribution to the provident fund maintained by the regional

provident fund commissioners equal to the specified percentage of the basic salary of the eligible employees as per the scheme. The contributions to the provident fund are charged to the Statement of Profit and Loss for the period when the contributions are due. The Company has no obligation, other than the contributions payable to the provident fund.

iii) Pension Scheme

The Company operates a defined benefit pension plan for certain specified employees and is payable upon the employee satisfying certain conditions, as approved by the Board of Directors.

iv) Post - Retirement Medical Benefit Plan

The Company operates a defined post-retirement medical benefits plan for certain specified employees and is payable upon the employee satisfying certain conditions.

v) Leave Encashment

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefits for measurement purposes. The Company measures the expected cost of such absence as the additional amount that are expected to pay as a result of unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefits for measurement purpose. Such long-term compensated absences are provided based on the actuarial valuation using the "*Project Unit Credit Method*" at the reporting date. Actuarial gain / losses are immediately taken to the Statement of Profit and Loss and are not deferred.

Recognition and Measurement of Defined Contribution Plans

The cost of providing defined benefits is determined using the "*Projected Unit Cash Credit*" method with actuarial valuations being carried out at each Balance Sheet date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, *if any*. Any defined benefit assets (negative benefit defined obligations resulting from these calculations) are recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost, if any, and net interest on defined benefit liabilities / (assets) are recognized in the Statement of Profit and Loss. Remeasurement of the net defined benefits liabilities/ (assets) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liabilities /assets), are recognized in other comprehensive income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

Past service cost is recognized immediately to the extent that the benefits are already vested, else is amortized on a straight-line basis over the average period until the amended benefits become vested.

Actuarial gain or losses in respect of the defined benefits plan are recognized in the Statement of Profit and Loss in the year in which they arise.

The Company presents the above liabilities as current and non-current in the balance sheet as per the actuarial valuation by the independent actuary.

o) Earnings per Share

The Company reports the basic and diluted Earnings per Share (EPS) in accordance with Ind AS - 33, *"Earnings per Share"*. Basic EPS is computed by dividing the net profit or loss attributable to the equity shareholders of the Company for the period by the weighted average number of Equity shares outstanding during the period.

Diluted EPS is computed by dividing the net profit or loss attributable to the equity shareholders for the period by the weighted average number of Equity shares outstanding during the period as adjusted for the effects of all potential equity shares, except where the results are anti-dilutive.

The weighted average number of Equity shares outstanding during the period is adjusted for events such as a bonus Issue, bonus elements in right issue, share splits, and reverse share split (consolidation of shares) that have changed the number of Equity shares outstanding, without a corresponding change in resources.

p) Provisions and Contingencies

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists, and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liabilities. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for contingent liabilities is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as Contingent Liabilities.

Contingent assets are a possible asset arising from past events, the existence of which will be confirmed, only by the occurrence and non-occurrence of one or more uncertain future events not wholly within the controls of the Company. Contingent assets are not recognized till realization of the income is virtually certain and are not recognized in the Financial Statements. The nature of such assets and an estimate of its financial effects are disclosed in the notes to the Financial Statements.

q) Exceptional Items

Exceptional items are disclosed separately in the Financial Statements, where it is necessary to do so to provide further understanding of the financial performance of the Company. These are the material items of income or expenses that have shown separately due to their nature and incidence. An ordinary item of income or expense which by its size, nature, occurrence or incidence requires a disclosure in order to improve understanding of the performance of the Company is treated as an exceptional item in the Statement of Profit and Loss.

r) Event after Reporting Date

Adjusting events are those events that provides further evidence of conditions that existed at the end of the reporting period. The Financial Statements are adjusted for such events before authorization for issue. Non-adjusting events are those events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the end of the reporting period are not accounted, but disclosed if material.

All the events occurring after the balance sheet date up to the date of the approval of the Financial Statement of the Company by the board of directors on **May 28, 2025**, have been considered, disclosed and adjusted, wherever applicable, as per the requirement of Indian Accounting Standards.

s) Cash Flow Statements

Cash flows statements are reported using the method set out in the Ind AS - 7, "*Cash Flow Statements*" and is prepared by using indirect method adjusting the net profit / (losses) before tax excluding exceptional items for the effect of:

- i) Changes during the period in inventories and other operating receivables and payables;
- ii) Non-cash items such as depreciation, provisions, unrealized foreign currency gain / (losses); and
- iii) all other items for which the cash effects are investing and financing cash flows.

The cash flows from operating, investing and financing activities of the Company are segregated. The cash and cash equivalents (including balances with banks), shown in the Statement of Cash Flows exclude items, which are not available for general use as at the date of Balance Sheet.

t) Cash and Cash Equivalents

Cash and cash equivalents include cash and cheques-in-hand, balances with banks, and demand deposits with banks where the original maturity is three months or less and other short-term highly liquid investments net of bank of overdrafts, which are repayable on demand as these from an integral part of the Company's cash management.

u) Commitments

Commitments are the future liabilities for contractual expenditure, classified and disclosed as follows:

- i) estimated amounts of contracts remaining to be executed on capital account and not provided for;
- ii) other non-cancellable commitment, if any, to the extent they are considered material and relevant in the opinion of the Company's management.

Other commitments related to sales / procurements made in the normal course of business are not disclosed to avoid the excessive details.

1.5 RECENT ACCOUNTING PRONOUNCEMENT

Ministry of Corporate Affairs (the "MCA") notifies new standards or amendments to the existing standards under the Companies (Indian Accounting Standard) Rules as issued from time to time. For the period March 31, 2025, the MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

1.6 KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Company's Financial Statements is in conformity with the Ind AS, which requires the Company's managements to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amounts of the assets, liabilities, incomes, and expenses (including the contingent liabilities) and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities effected in future periods. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revision to accounting estimates is recognized in the period in which the estimates are revised and in any future periods affected.

The key assumptions concerning the future and other key resources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amount of the assets and liabilities within the next financial year, are described as follow:

- a) **Income Tax:** The Company's tax jurisdiction is in India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the income tax provisions, including the amount expected to be paid / recovered for uncertain tax provisions (Refer "Note No. 18").

- b) **Property, Plant and Equipment:** Property, plant and equipment represent a significant proportion of assets base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and expected residual value at the end of its life. The useful lives and residual values of assets are determined by the Company's management at the time the assets are acquired and reviewed periodically, including at each financial year end. The useful lives of each of these assets are based on the life prescribed in Schedule - II to the Companies Act, 2013, or based on the technical estimates, taken into the account the nature of the assets, estimated usage, expected residual values and operating conditions of the assets. The useful lives are based on historical experience with the similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the assets.
- c) **Defined Benefits Obligations:** The costs of providing gratuity and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with *Ind AS - 19, "Employee Benefits"* over the period during which benefit is derived from the employees' services. It is determined by using the actuarial valuation and assessed on the basis of assumptions selected by the Company's management. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. The same is disclosed in "Note No. 44", "Employee Benefits". Due to complexities involved in the valuation and its long-term in nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are reviewed at each balance sheet date by the Company's Management.
- d) **Fair Value measurements of Financial Instruments:** When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cashflow model, which involves various judgments and assumptions. The input to these models is taken from observable markets wherever possible, where this is not feasible, a degree of judgment is required in establishing fair value. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of the financial instruments.
- e) **Recoverability of Trade Receivables:** Judgment is required in assessing the recoverability of overdue trade receivables and determining whether a provision is against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payments.
- f) **Provisions and Contingent Liabilities:** The Company's management estimates the provision that have present obligation as a result of past events, and it is probable that outflow of resources will be required to settle the obligation. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to assess contingent liabilities. Contingent liabilities are disclosed when there is possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the controls of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognized nor disclosed in the Financial Statements.

- g) Impairment of Financial and Non-Financial Assets:** The impairment provision of financial assets is based on the assumptions about the risk of default and expected cash loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's history, existing market conditions as well as forward looking estimates at the end of the reporting period.

In case of non-financial assets, the Company estimates asset's recoverable amount, this is higher of an assets or cash generating units (CGU) fair value less the cost of disposal and the value-in-use. In assessing the value-in-use, the estimated future cash flows are discounted using the pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the assets. In determining the fair value less cost of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is being used.

- h) Recognition of Deferred Tax Assets and Liabilities:** Deferred tax assets and liabilities are recognized for deductible temporary differences and unused tax losses or unused tax credit for which there is probability of utilization against the future taxable profits. The Company uses judgments to determine the amount of deferred tax that can be recognized, based upon the likely timing and the level of future taxable profits and business developments.

Description of Nature and Purpose of the Reserves

- Securities Premium:** The Securities Premium Account is used to record the premium received on the issue of equity shares. This reserve is primarily utilized in accordance with the provisions of the Companies Act, 2013. During the year, the Company utilized an amount of ₹ 37.57 lakhs (Previous Year: ₹ 42.98 lakhs) from the Securities Premium towards expenses incurred in connection with the rights issue.
- a) **Remeasurement of Defined Benefits Plan:** This represents the cumulative gains or losses arising from the remeasurement of defined benefit plans in accordance with Ind AS 19, which have been recognized in Other Comprehensive Income.
- b) **Retained Earnings:** Retained Earnings represent the accumulated and undistributed profits of the Company as at the reporting date of the Financial Statements.
- c) **Share Call Money:** Call money refers to the portion of the issue price of shares (face value and premium) that has been called up by the Company from the respective shareholders after the initial allotment of partly paid shares. It represents the balance amount payable by Shareholders in respect of such shares as per the terms of the issue. The Company may raise the balance amount of partly paid shares in one more installments, referred to as Second Call and Final Call, as decided by the Board of Directors. The amount of call money received is credited to Share Capital and Securities Premium accounts, respectively, as applicable. Any amount remaining unpaid as on the due date is disclosed separately as Calls-in-Arrears or Unpaid Call Money under "Other Current Assets" or "Other Equity", depending on its nature and recoverability.

“Note No. - 37A” - Fair Value Measurements

i) Financial Instruments measured at Fair Value through Other Comprehensive Income

The Company does not hold any quoted equity shares, or quoted / unquoted debentures or bonds that are required to be measured at fair value through other comprehensive income (FVTOCI). Accordingly, the requirements of Ind AS 109, “*Financial Instruments*” relating to the fair value measurement under FVTOCI are not applicable to the Company for all the reporting periods presented in the Ind AS Financial Statements.

ii) Financial Instruments measured at Fair Value through Profit or Loss

The Company does not hold any unquoted equity shares (other than investments in associates, subsidiaries and joint ventures which are being measured at amortized cost), foreign currency forward exchange contracts, or quoted / unquoted mutual funds that are required to be measured at fair value through profit or loss (FVTPL). Accordingly, the requirements of Ind AS 109, “*Financial Instruments*” relating to fair value measurement under FVTPL are not applicable to the Company for all the reporting periods presented in the Ind AS Financial Statements.

The Company does not have any financial liabilities that are required to be measured at fair value through profit or loss (FVTPL). Accordingly, the requirements of Ind AS 109, “*Financial Instruments*” relating to fair value measurement of financial liabilities under FVTPL are not applicable to the Company for all the reporting periods presented in the Ind AS Financial Statements.

iii) Financial Instruments measured at Amortized Costs

The carrying amounts of financial assets and financial liabilities measured at amortized cost, as presented in the financial statements, reasonably approximate their fair values. This is because the Company does not expect any significant difference between the carrying amounts and the amounts that would ultimately be received or settled.

“Note No. - 36B” - Financial Risk Management - Objectives and Policies

The Company’s principal financial assets primarily include of security deposits, cash and cash equivalents, other balances with banks, loans, trade and other receivables, which arise directly from its business operations. The Company’s financial liabilities mainly consist of borrowings in Indian currency, trade payables and other payables. These financial liabilities are primarily used to finance the Company’s operational activities and to provide guarantees in support of its business operations.

The Company is exposed to market risk, credit risk, and liquidity risk arising from its financial instruments. The Board of Directors (“the Board”) is responsible for overseeing the management of these financial risks. The Company has a risk management policy, formulated by its management and approved by the Board, which outlines the Company’s approach to managing uncertainties in its efforts to achieve both stated and implicit objectives. The policy defines the roles and responsibilities of the Company’s

management, establishes the organizational structure for risk management, and provides a comprehensive framework to identify, assess, and mitigate financial risks. This framework is designed to minimize the potential adverse effects of such risks on the Company's financial performance. Based on the information and circumstances available, the Board has taken appropriate actions to mitigate the identified risks.

The following disclosures summarize the Company's exposure to various financial risks and provide information on the use of derivative instruments, if any, employed to manage such exposures. Quantitative sensitivity analyses have been included to demonstrate the potential impact of reasonably possible changes in market rates on the Company's financial results, cash flows, and financial position.

1) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk, and other price risk. The Company's financial instruments that are subject to market risk include loans and borrowings denominated in domestic currency, trade payables, other payables, and trade receivables.

a) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. An increase in interest rates may adversely impact the Company's borrowing costs. The Company is exposed to interest rate risk primarily on its short - term and long - term borrowings. It manages this risk by monitoring the composition of its borrowings between fixed and floating rate instruments and taking appropriate actions to maintain a balanced exposure. The Company has not entered into any interest rate derivative contracts during the reporting periods.

i) Interest Rate Risk Exposure

Particulars	(Amount ` in Lakhs)	
	31.03.2025	31.03.2024
Variable Rate Borrowing	905.10	1,168.16
Fixed Rate Borrowing	334.30	658.84

ii) Sensitivity Analysis

Profit and Loss estimates to higher / lower interest rate expense from borrowings as a result of changes in interest rate.

Particulars	(Amount ` in Lakhs)	
	31.03.2025	31.03.2024
Interest Rate - Increase by 70 Basis Points	(08.68)	(12.79)
Interest Rate - Decrease by 70 Basis Points	08.68	12.79

b) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company operates internationally, and a portion of its business is conducted in various foreign currencies. As a result, the Company is exposed to foreign exchange risk arising from sales to overseas customers and purchases from foreign suppliers. The Company partially mitigates this risk by matching purchases and sales in the same foreign currencies, where applicable. However, during the reporting period presented in the financial statements, the Company did not have any significant outstanding foreign currency exposures that would materially impact its foreign currency risk position.

c) Other Price Risk

Other price risk is the risk that the fair value of financial instruments will fluctuate due to changes in market prices, other than those arising from interest rate or foreign currency movements. This risk typically arises from investments in market-traded equity instruments. The Company is exposed to price risk primarily through its investments in quoted equity instruments, if any, which are measured at fair value through other comprehensive income (FVTOCI). As at March 31, 2025, the Company does not hold any such investments. The carrying value of quoted equity instruments measured at FVTOCI is ₹ NIL (March 31, 2024: ₹ NIL).

2) Credit Risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial losses to the Company. Credit risk arises primarily from financial assets such as trade receivables, other balances with banks, other financial assets such as other receivables and loans with the Company.

The Company has adopted a policy of only dealing with counterparties that have sufficiently high credit rating. The Company's exposure and credit ratings of its counterparties are continuously monitored, and the aggregate value of transactions is reasonably spread amongst the counterparties.

Credit risk arising from term deposits and other balances with banks is limited and there is no collateral held against these because the counterparties are banks and recognized financial institutions with high credit rating assigned by the international credit rating agencies.

The average credit period on sale of products is less than 60 days. Credit risk arising from trade receivable is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. The credit quality of a customer is assessed based on detailed study of creditworthiness and accordingly individual credit limits are defined / modified. The concentration on credit risk is limited due to the fact that the customer base is large. There are very few of the customers, which represents more than 10% of its total balance of trade receivables. For trade receivables, as a practical expedient, the Company computes credit loss allowance based on the provision

matrix. The provision matrix is prepared on historically observed default rate over the expected life of trade receivable and is adjusted for forward-looking estimates. The provision matrix at the end of reporting period as follows:

Net Outstanding > 365 Days	Percentage of Collection to Gross Outstanding in Current Year	Credit Loss Allowances
Yes	< 25%	Yes, to the extent of lifetime expected credit losses outstanding as at reporting date.
Yes	> 25%	Yes, to the extent of lifetime expected credit losses pertaining to balances outstanding for more than one year.

(Amount ` in Lakhs)		
Movement in Expected Credit Loss Allowance on Trade Receivables	31.03.2025	31.03.2024
Balance at the beginning of the reporting period	143.73	90.80
Add: Loss allowance measured at lifetime expected credit losses	200.91	53.91
Less: Bad Debts written off during the reporting period	--	00.98
Balance at the end of reporting period	344.64	143.73

3) Liquidity Risk

Liquidity risk is the risk that the Company will face difficulty in meeting its financial obligations as they become due, either by being unable to raise funds or to sell financial assets quickly without significant loss in value. This risk arises from the possibility that the Company may not have sufficient cash flows to meet its contractual obligations associated with financial instruments that are required to be settled in cash or other financial assets. Liquidity risk may also result from an inability to dispose of financial assets at or near their fair value when needed.

The Company has an established liquidity risk management framework for managing its short -term, medium - term and long - term funding and liquidity management requirements. The Company's exposure to liquidity risk arises primarily from mismatched of maturities of financial assets and liabilities. The Company manages the liquidity risk by maintaining adequate funds in the cash and cash equivalents. The Company also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely and cost-effective manner.

The Company believes that its liquidity positions {As at March 31, 2025 ` 44.16 Lakhs (Prev Year ` 30.75 Lakhs)}, anticipated future internally generated funds from operations and its fully available revolving undrawn credit facilities will enable it to meet its future known obligations in the ordinary course of business. However, if liquidity needs were to arise, the Company believes it has excess to financing arrangements, value of unencumbered assets, which should enable, it to meet its ongoing capital, operating and other liquidity requirements.

The liquidity position of the Company mentioned above, includes:

- i) Cash and Cash Equivalents as disclosed in the Cash Flow Statements
- ii) Current / non - current term deposits as disclosed in the other financial assets

The Company's liquidity management process as monitored by the management, includes:

- i) Day-to-day funding, managed by monitoring future cash flows to ensure that requirements can be met.
- ii) Maintaining rolling forecast of the Company's liquidity position on the basis of expected cash flows.
- iii) Maintaining diversified credit lines.

The below table analysis shows the financial liabilities of the Company in the relevant maturity grouping based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows:

“Notes - 36C” - Capital Management

The Company adheres to a robust Capital Management framework which is underpinned by the following guiding principles.

- a) Maintain the financial strength to ensure good ratings domestically and investment grade ratings internationally.
- b) Ensure financial flexibility and diversify the source of financing and their maturities to minimize liquidity risk while meeting its investment requirements.
- c) Ensure sufficient liquidity is available (either through cash and cash equivalents, investments or committed credit facilities) to meet the needs of the business.
- d) Minimize the finance costs while taking into consideration current and future industry, market and economic risks and conditions.
- e) Safeguard its ability to continue as going as a going concern.
- f) Leverage optimally in order to maximize shareholder’s returns while maintaining strength and flexibility of the Balance Sheet.

This framework is adjusted based on underlying macro-economic factors affecting the business environment, financial market conditions and interest rates environment.

The Board of Directors of the Company has primary responsibilities to maintain a strong capital base and reduce the cost of capital through prudent management of deployed fund and leveraging in domestic and international financial market, so as to maintain investors, creditors and market confidence and to sustain future development of the business.

For the purpose of the Company’s capital management, capital include issued equity capital and all other equity reserves attributable to equity shareholders of the Company. The primary objective of the Company, when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholders value.

As at March 31, 2025 and March 31, 2024, the Company has only one class of equity shares and has low debts. Consequent to such capital structure, there are no externally imposed capital requirements. In order to maintain or achieve an optimal capital structure, the Company allocates its capital for distribution as dividends or reinvestments into business based on its long-term financial plans.

The Company manages its capital on the basis of Net Debt to Equity Ratio which is Net Debt (Total Borrowings net of Cash and Cash Equivalents) divided by total equity.

Particulars	(Amount ` in Lakhs)	
	March 31, 2025	March 31, 2024

- (a) The increase in the current ratio compared to the previous reporting period is primarily due to the recognition of call money receivable on the second and final call of the rights issue.
- (b) The debt-equity ratio has been impacted during the reporting period primarily due to the repayment of borrowings and the fresh issue of equity shares, as compared to the previous reporting period.
- (c) The substantial provisioning for expected credit loss on trade receivables during the current reporting period has adversely impacted the EBITDA, which in turn has negatively affected the Debt Service Coverage Ratio, Return on Equity Ratio, Net Profit Ratio, and Return on Capital Employed.
- (d) The decline in revenue from operations and the increase in net working capital compared to the previous reporting period have led to a negative impact on the Net Capital Turnover Ratio.
